# AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

| Monday          | Tuesday    | Wednesday | Thursday        | Friday     |
|-----------------|------------|-----------|-----------------|------------|
| DOT/COAST GUARD | USDA/ASCS  |           | DOT/COAST GUARD | USDA/ASCS  |
| DOT/NHTSA       | USDA/APHIS |           | DOT/NHTSA       | USDA/APHIS |
| DOT/FAA         | USDA/FNS   |           | DOT/FAA         | USDA/FNS   |
| DOT/OHMO        | USDA/FSQS  |           | DOT/OHMO        | USDA/FSQS  |
| DOT/OPSO        | USDA/REA   |           | DOT/OPSO        | USDA/REA   |
| CSA             | CSC        |           | CSA             | CSC        |
|                 | LABOR      |           |                 | LABOR      |
|                 | HEW/FDA    |           |                 | HEW/FDA    |

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

**NOTE:** As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

**federal register**

Phone 523-5240  
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended, 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

FEDERAL REGISTER, VOL. 43, NO. 249—WEDNESDAY, DECEMBER 27, 1978

## INFORMATION AND ASSISTANCE

**presidential documents****[3195-01-M]****Title 3—The President****Memorandum of December 22, 1978****Determination Under Section 202(b) of the Trade Act; Bolts, Nuts, and Large Screws of Iron or Steel****Memorandum for the Special Representative for Trade Negotiations**

THE WHITE HOUSE,  
Washington, December 22, 1978.

Pursuant to section 202(b)(1) of the Trade Act of 1974 (P.L. 93-618, 88 Stat. 1978), I have determined the action I will take with respect to the report of the United States International Trade Commission (USITC), transmitted to me on November 3, 1978, concerning the results of its investigation of a resolution submitted by the Committee on Ways and Means of the House of Representatives. The USITC investigation pertained to lag screws or bolts, bolts (except mine-roof bolts) and bolts and their nuts imported in the same shipment, nuts, and screws having shanks or threads over 0.24 inch in diameter, all of the foregoing of iron or steel, provided for in items 646.49, 646.54, 646.56, 646.63, and 646.79 of the Tariff Schedules of the United States.

After considering all relevant aspects of the case, including those considerations set forth in section 202(c) of the Trade Act of 1974, I have determined that import relief in the form of 15 percent tariffs on iron or steel bolts, nuts, and large screws is in the national economic interest and therefore will proclaim this remedy. Under this remedy, tariffs will remain at 15 percent for large screws (including lag screws), 15 percent plus the current tariffs of 0.2 and 0.1 cent per pound, respectively, for bolts and nuts for a three-year period after which time they will revert to their current levels (which range from less than one percent ad valorem equivalent to 12.5 percent).

As required by statute, this relief must be implemented within 15 days of this determination.

The USITC recommended that tariffs on iron or steel bolts, nuts, and large screws be increased to 20 percent and staged down to 10 percent (except for lag screws where the tariff would revert to its current level of 12.5 percent) over a five-year period.

I have determined that the USITC remedy would not be an appropriate remedy for a number of reasons. The USITC remedy would substantially increase the cost of ferrous fasteners to U.S. consumers, thereby adding to inflationary pressures in the U.S. economy. Due to its shorter duration (three years versus five years as recommended by the USITC) and smaller tariff increases (15 percent versus 20 percent), the remedy I will proclaim will have a smaller inflationary impact on the U.S. economy, while still providing meaningful and necessary relief to the domestic fastener industry.

Given the recent increases in the prices of imported fasteners, the USITC remedy would be overly restrictive on the foreign countries that supply fasteners to the U.S. market. The smaller tariff increases that I will proclaim will mitigate the adverse impact of providing import relief on foreign suppliers of fasteners and on U.S. international economic interests.

FEDERAL REGISTER, VOL. 43, NO. 249—WEDNESDAY, DECEMBER 27, 1978

The tariff increase remedy I have chosen should enable many domestically produced fasteners to be competitively priced relative to imports. Thus, implementation of this remedy should prevent further erosion of domestic fastener production, shipments, and employment and allow domestic producers to increase their share of the U.S. fastener market by using currently idle capacity.

This determination is to be published in the FEDERAL REGISTER.

[FR Doc. 78-36239 Filed 12-26-78; 11:36 am]

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[6210-01-M]

Title 12—Banks and Banking

### CHAPTER II—FEDERAL RESERVE SYSTEM

#### SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Y; Docket Nos. R-0132 and R-0151]

#### PART 225—BANK HOLDING COMPANIES

#### PART 265—RULES REGARDING DELEGATION OF AUTHORITY

##### Nonbank Activities

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rules.

**SUMMARY:** The Board has adopted two related amendments to its regulations. The first rule changes the procedures for bank holding companies to obtain permission to engage in nonbank activities or to acquire shares or assets of companies engaged in nonbank activities, and clarifies the procedures governing the commencement of nonbank activities outside the United States. The rule dispenses with the present requirement that bank holding companies publish notice in local newspapers, in or outside the United States, of their intention to commence such activities or to acquire such shares or assets, and provides instead that the Board will publish such notices in the FEDERAL REGISTER. This action is taken to simplify nonbank application procedures and to make them more easily administrable and less burdensome. In conjunction with this action the Board has also made some technical amendments to its Rules Regarding Delegation of Authority to conform its references to the new procedures.

**EFFECTIVE DATE:** These rules will affect applications accepted by Reserve Banks after December 31, 1978.

##### FOR FURTHER INFORMATION CONTACT:

Robert E. Mannion, Associate General Counsel (202/452-3274), or James McAfee, Senior Attorney (202/452-3707), Legal Division,

Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

##### SUPPLEMENTARY INFORMATION:

(1) Sections 225.4(b)(1) and (2) of the Board's Regulation Y (12 CFR 225.4(b)(1) and (2)) require that bank holding companies publish a notice of any proposal to engage in nonbank activities under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)), or to acquire or retain shares or assets of companies engaged in such activities, in newspapers of general circulation in the communities to be served. Several years' experience with this requirement, which is intended to provide notice of proposed nonbank expansion by bank holding companies to interested persons, indicates the required newspaper notices have not accomplished their intended purpose to an extent that justifies the burden they impose on bank holding companies. For that reason, the Board on June 29, 1978, published notice and invited public comment on a proposal to substitute FEDERAL REGISTER notice for newspaper notice of these applications, and to shorten slightly the comment period and normal processing times for *de novo* applications. 43 FR 29,796 (1978).

Upon consideration of the comments received in response to that proposal, the Board has adopted this final rule. It appears that the newspaper requirement has been both expensive and time-consuming and has not resulted in any significant volume of public comment on nonbank applications. The requirement that all communities to be served be specifically identified has also proved to be difficult to administer. Some comments have urged broader publication of notices, but there is no evidence that such a requirement would appreciably expand public participation in the application process. Under the circumstances, the Board believes FEDERAL REGISTER publication will afford adequate notice to interested parties. Giving notice in a single publication, rather than in various local newspapers, may materially assist competitors and trade associations representing competitors in receiving more timely and reliable notice of nonbank applications. The Board also publishes a summary of applications it receives each week, and this

publication (H.2) is available to interested parties without cost.

Some comments objected that the proposed 20-day comment period for *de novo* applications would be too short to be effective. In response to these comments the Board has restructured the application schedule originally proposed in order to permit a longer comment period for typical *de novo* applications without delaying unnecessarily action on applications that are not protested. In occasional cases it may be necessary to extend processing times for brief periods in order to accommodate the longer comment period, but it is expected that any delays that occur on that account will be offset by the time saved from the elimination of the requirement that bank holding companies publish newspaper notices and obtain proof of publication before filing their applications.

This rule eliminates the requirement that bank holding companies publish notices in communities to be served by their proposed nonbank activities. Bank holding companies should continue to describe their proposed activities clearly (not just by reference to a paragraph of Regulation Y), to identify the offices they intend to acquire or open, and to define specifically the geographic area they intend to begin serving within a reasonable time after approval of their application, normally one year, and they should include this information, together with any other information required by the Reserve Bank, in each application under these amended sections of Regulation Y. The opening of new nonbank offices not described in an application and the expansion into new geographic areas generally requires a new application by a bank holding company.

Some comments received were outside the scope of this rulemaking proposal. In particular, the Board considered that suggestions to eliminate notice and application requirements altogether for particular classes of nonbank acquisitions were not fairly noticed for comment. In addition, suggestions that particular Board forms be changed are being considered as those forms are periodically revised.

The rule as adopted is procedural in nature, and relieves a restriction. For those reasons it is not subject to the

provisions of 5 U.S.C. 553 relating to deferred effective date.

(2) On April 7, 1978, the Board published notice and invited comment on a proposal to eliminate the requirement of local newspaper notices in connection with *de novo* nonbank expansion outside the United States by bank holding companies. 43 FR 16,190 (1978). All comments received favored adoption of this amendment, but the proposal has been made moot by the Board's elimination of newspaper notices in connection with *de novo* nonbank applications.

A modified form of the proposed amendment has been adopted solely to clarify the fact that bank holding companies and their domestic nonbank subsidiaries may engage directly in approved nonbank activities outside the United States and may open offices there by complying with the procedures of § 225.4(b)(1) of Regulation Y. This procedure does not apply to the foreign direct activities of foreign bank holding companies or the foreign operations of bank holding companies conducted through foreign subsidiaries, matters governed by other provisions of Regulation Y. This clarifying amendment is an interpretative rule relating to agency procedure and is not subject to the provisions of 5 U.S.C. 553 relating to deferred effective date.

(3) In conjunction with this amendment to Regulation Y, the Board has also amended § 265.2(f)(20) of its Rules Regarding Delegation of Authority (12 CFR 265.2(f)(2)) for the sole purpose of conforming references in that section to the changes made in Regulation Y. This amendment has been adopted without following the provisions of 5 U.S.C. 553 relating to notice, public participation, and deferred effective date because the change involved is procedural in nature and does not constitute a substantive rule subject to the requirements of that section.

(4) These actions are taken pursuant to the Board's authority under sections 4(c)(8) and 5(b) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(c)(8) and 1844(b)), and section 11(k) of the Federal Reserve Act (12 U.S.C. 248(k)).

#### § 225.4 [Amended]

1. Effective January 1, 1979, as to applications accepted by any Federal Reserve Bank on or after that date, § 225.4 of the Board's Regulation Y (12 CFR 225.4) is amended by revising paragraphs (b)(1) and (b)(2) to read as follows:

(b)(1) *De novo entry.* A bank holding company may engage *de novo* (or continue to engage in an activity earlier

commenced *de novo*), directly or indirectly, solely in activities described in paragraph (a) of this section, 45 days after the company has furnished its Reserve Bank a notice of the proposal (in substantially the same form as F.R. Y-4A), unless the company is notified to the contrary within that time or unless it is permitted to consummate the transaction at an earlier date on the basis of exigent circumstances of a particular case. The Board will publish in the FEDERAL REGISTER notice of any such proposal and will give interested persons an opportunity to express their views on the proposal to the Reserve Bank. If adverse comments of a substantive nature are received within the time specified in the notice, or if it otherwise appears appropriate in a particular case, the Reserve Bank may inform the company that (i) the proposal shall not be consummated until specifically authorized by the Reserve Bank or by the Board or (ii) the proposal should be processed in accordance with the procedures of subparagraph (2) of this paragraph. With respect to activities to be engaged in outside the United States, the procedures of this subparagraph apply solely to activities to be engaged in directly by a domestic bank holding company or by domestic nonbank subsidiaries of any bank holding company. Paragraphs (f) and (g) of this section govern other international operations of bank holding companies.

(2) *Acquisition of going concern.* A bank holding company may apply to the Board to acquire or retain the assets of or shares in a company engaged solely in activities described in paragraph (a) of this section by filing an application with its Reserve Bank (Form F.R. Y-4). The Board will publish in the FEDERAL REGISTER a notice of any such application and will give interested persons an opportunity to express their views (including, where appropriate, by means of a hearing) on the question whether performance of the activity proposed by the holding company can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices.

#### § 265.2 [Amended]

2. Effective January 1, 1979, as to applications accepted by any Federal Reserve Bank on or after that date, § 265.2 of the Board's Regulation Y (12 CFR 265.2) is amended by revising paragraph (f)(20) of that section to read as follows:

"If a Reserve Bank decides that adverse comments are not of a substantive nature, the person submitting the comments may request review by the Board of that decision in accordance with the provisions of § 265.3 of the Board's Rules Regarding Delegation of Authority (12 CFR 265.3) by filing a petition for review with the Secretary of the Board.

serve Bank on or after that date, § 265.2 of the Board's Rules Regarding Delegation of Authority (12 CFR 265.2) is amended by revising paragraph (f)(20) of that section to read as follows:

(f) *Each Federal Reserve Bank* is authorized, as to member banks or other indicated organizations headquartered in its district:

(20) Under § 225.4(b)(1) of this chapter (Regulation Y), and subject to § 265.3 if a person submitting adverse comments that the Reserve Bank has decided are not substantive files a petition for review by the Board of that decision,

(i) To permit a bank holding company to engage *de novo* in activities specified in § 225.4(a) (or retain shares in a company established *de novo* and engaging in such activities) if its evaluation of the considerations specified in section 4(c)(8) of the Bank Holding Company Act leads it to conclude that the proposal can reasonably be expected to produce benefits to the public.

(ii) To notify a bank holding company that the proposal should not be consummated until specifically authorized by the Reserve Bank or by the Board or that the proposal should be processed in accordance with the procedures of § 225.4(b)(2).

(iii) To permit a bank holding company to consummate the proposal before the expiration of the 45-day period referred to in § 225.4(b)(1), because exigent circumstances justify consummation at an earlier time.

Board of Governors of the Federal Reserve System, December 18, 1973.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

[FR Doc. 78-35937 Filed 12-26-78; 8:45 am]

[6210-01-M]

[Reg. Z; FC-0151]

#### PART 226—TRUTH IN LENDING

##### Final Official Staff Interpretation

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final Official Staff Interpretation.

SUMMARY: The Board is publishing in final form official staff interpretation FC-0151 of Regulation Z regarding the disclosures required in connection with certain interim student credit transactions. The agency is taking this action after reviewing the comments received upon republication of the interpretation.

DATE: Effective December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Glenn E. Loney, Section Chief, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, (202) 452-3867.

#### SUPPLEMENTARY INFORMATION:

(1) In FC-0151 the staff set forth criteria for determining whether loan or credit sale disclosures are required in connection with a federally insured program providing credit to students for educational purposes. The staff expressed the view that if a student has the option of receiving funds directly which may be used as the student sees fit, loan disclosures would be appropriate.

(2) FC-0151 was published on July 28, 1978, with an effective date of August 28, 1978. In response to a request for public comment submitted in accordance with § 226.1(d), the effective date was suspended and the interpretation was republished for public comment on September 11, 1978.

(3) Both the request for republication and the one comment received asserted that credit sale disclosures in connection with extensions of credit for educational purposes would be confusing to students who received the credit and would increase the cost of administering the credit program because of the necessity of maintaining stocks of disclosure forms for both credit sales and loans. It was indicated, however, that in connection with certain of such transactions students are not afforded the opportunity to obtain funds directly. Rather, credits are made to a student's account with the educational institution, which is extending the credit, and the student receives goods and services from the institution. It was argued that such a procedure is necessary to protect against fraud and to assure that the credit extended is being used for educational purposes.

After fully considering the arguments contained in the request for republication and the comment received, the staff continues to believe that FC-0151 correctly interprets Regulation Z. The staff does not believe that providing loan disclosures for a credit transaction in which a student receives goods and/or services from the educational institution extending the credit would comport with the regulation. Rather, where a student receives goods and/or services on credit, as opposed to funds the use of which the student controls, the transaction would constitute a credit sale and credit sale disclosures would be necessary.

(4) Official Staff Interpretation FC-0151, which follows, remains un-

changed, with the exception of language pertaining to its effective date, from the version published in the FEDERAL REGISTER on July 28, 1978. It is effective immediately.

(5) Authority: 15 U.S.C. 1640(f).

12 CFR Part 226, FC-0151

§ 226.8(b) Under federally insured program providing credit to students for educational purposes, if student has option of receiving funds directly which may be used as the student sees fit, loan disclosures are appropriate.

§ 226.8(d) Under federally insured program providing credit to students for educational purposes, if student has option of receiving funds directly which may be used as the student sees fit, loan disclosures are appropriate.

DECEMBER 19, 1978.

This is in response to your letter of . . . in which you request an official staff interpretation of Regulation Z regarding the Truth in Lending disclosures which must be made in connection with certain interim student credit transactions made pursuant to a federally insured program. The staff believes that the primary issue which you raise is appropriate for an official response. Other questions asked in your letter will be addressed in a separate, unofficial staff interpretation of the regulation.

The program with which you are concerned consists of a fund from which extensions of credit are made by participating colleges and universities to students who meet the financial need criteria established by the Higher Education Act of 1965. Use of funds received under the program is restricted to expenses related to attendance at the institution which advances the funds, and the student must sign an affidavit affirming that the funds will be used only for such expenses.

Under the program, funds may be disbursed directly to the student or a credit may be made to the student's account at the educational institution. You are concerned that if a credit is made to a student's account with the institution and the student simply receives goods and services (e.g., tuition, room, board, books) from the institution, the transaction could be viewed as a credit sale rather than a loan, and credit sale disclosures rather than loan disclosures would be required under Regulation Z.

In the staff's opinion the answer to whether loan or credit sale disclosures are required in connection with the program you describe is dependent upon the ability of students participating in the program to obtain funds (e.g., cash or a check) from the institution if they so desire. As long as a student has the option of receiving funds directly which may be used as the student sees fit, the staff believes that the applicable loan disclosures under §§ 226.8(b) and (d) of Regulation Z would be appropriate. Furthermore, even though use of the loan proceeds is restricted to expenses related to attendance or continued attendance at the institution which makes the loan, as long as use of the funds is not restricted to the purchase of particular goods or services from the institution the staff feels that loan disclosures would be proper.

This is an official staff interpretation of Regulation Z, issued after republication for comment in accordance with § 226.1(d)(2) of

the regulation. It will become effective December 28, 1978.

We also note that your client may be subject to the laws and regulations of the State of Maine which has been granted an exemption from the applicable provisions of Regulation Z. Therefore, you may wish to contact Mr. Harry Giddings, Acting Superintendent, Bureau of Consumer Protection, Department of Business Regulation, State House, Augusta, Maine 04330, for his views on the issue addressed in this letter.

Sincerely,

NATHANIEL D. BUTLER,  
Associate Director.

Board of Governors of the Federal Reserve System, December 20, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary  
of the Board.

[Reg. Z; FC-0152]

#### PART 226—TRUTH IN LENDING

##### Final Official Staff Interpretation

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final Official Staff Interpretation.

SUMMARY: The Board is publishing in final form official staff interpretation FC-0152 of Regulation Z regarding methods by which creditors may disclose a hypothetical immediate rate increase in variable rate transactions. The agency is taking this action after reviewing the comments received upon republication of the interpretation.

DATE: Effective December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Glenn E. Loney, Section Chief, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, (202) 452-3867.

#### SUPPLEMENTARY INFORMATION:

(1) In FC-0152 the staff discussed the requirement of § 226.8(b)(8) of Regulation Z that, with regard to variable rate transactions, creditors disclose the impact on the number or amount of payments of a hypothetical immediate rate increase of one quarter of one per cent. The staff expressed the view that the hypothetical examples may be based on increases in the contract interest rate rather than increases in the annual percentage rate. The staff further stated that although the required examples must assume that the rate increase is immediate and in the specified amount, other examples showing the effects of rate changes at different times or in different

amounts may also be provided as additional information.

(2) FC-0152 was published on August 8, 1978, with an effective date of September 5, 1978. In response to a request for public comment submitted in accordance with § 226.1(d), the effective date was suspended and the interpretation was republished for public comment on September 22, 1978.

(3) The request for reconsideration raised four objections to the interpretation. These objections and the staff's responses to them are as follows:

(a) That the hypothetical examples should not be based on the simple interest rate because changes in interest rates may not always be the sole cause for annual percentage rate changes. Although interest is only one component of the finance charge, it is generally the largest component; furthermore, subsequent annual percentage rate increases are almost always caused by interest rate increases. Therefore the staff continues to believe that the results of changing the simple contract interest rate are almost equivalent to the results of changing the annual percentage rate and provides the reasonable estimate called for by the regulation.

(b) That it is unclear whether the interpretation applies only to mortgages or to all variable rate transactions. The interpretation deals with the requirements of subparagraphs (iii) and (iv) of § 226.8(b)(8) which, by the terms of the regulation itself, apply only to "transactions in which a security interest is taken in real property used or expected to be used as the customer's dwelling."

(c) That it is unclear whether the interpretation permits use of the term "interest rate" in the disclosures or simply permits calculations to be made based on interest rates. The staff believes that the disclosures should be phrased in terms of interest rates since it would be inaccurate to have the interest rate used in calculations, yet allow the results to be stated as if they represented changes in the annual percentage rate. Although the original interpretation included language indicating that disclosures should be made in terms of interest rates, in order to make that point clearer, the final sentence of paragraph 5 has been revised to substitute the words "in terms of" for the word "as."

(d) That inclusion of hypothetical rate changes other than the one mandated by § 226.8(b)(8) may constitute a *per se* violation of the regulation's provision concerning additional information. The staff believes that examples in addition to those required by the regulation can be presented in a fashion that is not misleading, confusing or contradictory, and that inclusion of them is therefore permissible.

(4) Official Staff Interpretation FC-0152, as revised, is effective immediately.

(5) Authority: 15 U.S.C. 1640(f).

12 CFR, Part 226, FC-0152

§ 226.8(b)(8) Variable rate hypothetical examples may be based on increases in contract interest rate rather than in APR (partially rescinds Letter 1232). Variable rate hypothetical examples must assume that rate increase is immediate and in specified amount; examples showing changes in different amounts or at different times may also be given as additional information.

DECEMBER 19, 1978.

This will reply to your letter of . . . in which you request clarification of Public Information Letter 1232, concerning the provisions of § 226.8(b)(8) with regard to variable rate mortgages. You ask staff to elaborate on methods creditors could use to determine the increased number of payments or the increased payment amount which would result from a hypothetical immediate increase in the annual percentage rate, in order to make the disclosures called for by § 226.8(b)(8) (iii) and (iv). Specifically, you ask whether Appendix B to Volume I of the Annual Percentage Rate Tables published by the Board of Governors can be used to make such calculations.

Use of the Board's tables is not required in order to comply with the regulation, but the tables do provide fairly simple methods for determining much of the information required to be disclosed under the regulation. Appendix B to Volume I of the tables describes a method of determining the amount of the finance charge and the amount of the level payment in cases where the annual percentage rate is known in a single advance transaction involving equal payments and equal payment periods. These formulas can be used to compute the information called for by § 226.8(b)(8)(iii).

For example, assume a loan with an amount financed of \$40,000, to be repaid in 360 monthly installments, with an annual percentage rate of 8 per cent. From the annual percentage rate tables we can determine that the finance charge per \$100 of amount financed is \$164.16. The total finance charge for this loan is \$65,664 (\$164.16 × 400 = \$65,664) and the level monthly payment would be \$293.51 ((\$65,664 + \$40,000) divided by 360). If we assume a hypothetical immediate increase of one quarter of one per cent in the rate, as called for in § 226.8(b)(8)(iii), we can determine from the tables that the finance charge per \$100 of amount financed at an annual percentage rate of 8 1/4 per cent is \$170.46. The total finance charge under this assumption would be \$68,184 (\$170.46 × 400 = \$68,184). The level monthly payment amount that would be required to amortize this hypothetically increased obligation would be \$300.51 ((\$68,184 + \$40,000) divided by 360 = \$300.51), and this figure may be disclosed pursuant to § 226.8(b)(8)(iii). Alternatively, the increase in the payment amount may be expressed as the difference between \$300.51 and \$293.51, or \$7.

Again, we would point out that use of the Board's tables and the calculation methods set out therein is not required in making Truth in Lending disclosures. You may,

however, find the method outlined in this letter of some assistance in determining the information required to be disclosed pursuant to § 226.8(b)(8)(iii). You should note that this method cannot be used to determine the information required to be disclosed pursuant to § 226.8(b)(8)(iv); use of Volume I of the Board's Annual Percentage Rate Tables requires that you know the number of payments involved, and that is the information that must be calculated.

This information can, however, be estimated in another way. Changes in the annual percentage rate in variable rate mortgages are generally caused by changes in the simple contract interest rate. Since the results from changing the simple contract interest rate on most long-term mortgages are almost equivalent to the results from changing the annual percentage rate, and since § 226.8(b)(8)(iv) calls for a statement of the estimated increase in the number of payments, it is staff's opinion that a creditor may use tables based on simple interest rates to calculate the increased number of payments that would result if the interest rate were increased by one quarter of one percentage point. This approach yields an estimated figure that may be disclosed pursuant to § 226.8(b)(8)(iv). This approach may also be used, as an alternative to that outlined above, to determine the information called for by § 226.8(b)(8)(iii). To the extent that Public Information Letter 1232 states that the disclosures required by § 226.8(b)(8) (iii) and (iv) may never be made by reference to the contract interest rate, it is hereby rescinded. If this calculation approach is taken, the disclosures should be expressed in terms of the effects of a one quarter of one per cent increase in the interest rate.

Staff would like to point out that the alternatives expressed in this letter do not prohibit a creditor from basing its calculation on an increase in the annual percentage rate itself, which, we understand, is a calculation that can be made relatively simply on inexpensive calculators that are general available on the market. The procedures outlined in this letter are merely viewed by staff as reasonable alternatives.

You point out in your letter that lenders frequently do not have the authority under applicable statutes or the underlying contract to increase rates immediately. Rather, you believe that most lenders are required to wait a specified period of time before effecting a change. Moreover, you point out that changes in the rate may often be in increments less than the hypothetical one quarter of one per cent mentioned in § 226.8(b)(8) (iii) and (iv). You ask, therefore, whether creditors may provide additional examples of rate changes pursuant to § 226.8(c). We assume that what you wish to disclose are examples of the effect of rate changes occurring at a time later than consummation of the loan as well as rate changes greater than or less than one quarter of one per cent.

The disclosures called for by § 226.8(b)(8) (iii) and (iv) must be made on the assumptions (1) that the rate increase takes effect immediately upon consummation, and (2) that the increase is in a certain amount, i.e., one quarter of one per cent. Although creditors may not effect an increase in that particular amount or at that particular time, the regulation requires that disclosures be made on these assumptions in order to ensure uniformity among lenders and to facilitate comparisons. If a creditor wishes to provide further examples of the effect of a rate change in a different amount or at a different time in the loan term, this may be done as additional information pursuant to § 226.8(c), provided the additional examples are not stated so as to mislead or confuse the customer or contradict, obscure, or detract attention from the required information.

This is an official staff interpretation of Regulation Z, issued after republication for comment in accordance with § 226.1(d)(2) of the regulation. It will become effective December 27, 1978.

Sincerely,

NATHANIEL E. BUTLER,  
Associate Director.

Board of Governors of the Federal Reserve System, December 20, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

[Reg. Z, FC-0149]

## PART 226—TRUTH IN LENDING

### Final Official Staff Interpretation

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final Official Staff Interpretation.

SUMMARY: The Board is publishing in final form official staff interpretation FC-0149 of Regulation Z regarding § 226.7(a). The agency is taking this action after reviewing the comments received upon republication of the interpretation.

DATE: Effective December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert C. Plows, Section Chief, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, (202) 452-3667.

SUPPLEMENTARY INFORMATION: (1) In FC-0149, the Board staff stated that "single written statement", as that phrase is used in § 226.7(a) of Regulation Z does not mean that initial open end disclosures must be placed on the same side of a single sheet of paper.

(2) FC-0149 was published on June 20, 1978, with an effective date of July 20, 1978. In response to a request for public comment submitted in accordance with § 226.1(d)(3) of Regulation Z, the effective date was suspended and the interpretation was republished for public comment on August 29, 1978.

(3) The request for republication argued that initial disclosures should be placed on one side of a sheet of

paper. This position was based primarily on the argument that adoption of FC-0149 might result in confusing and inconspicuous disclosures, especially since a notice similar to that mandated by §§ 226.7(a)(9), 226.7(c), and 226.801 was not required by the interpretation.

The vast majority of the 25 comments received did not agree with the arguments detailed in the request for republication and, instead, supported the interpretation as originally published. Several commenters pointed to the regulatory language difference between §§ 226.7(a) and 226.8(a), the difference in the type of disclosures contemplated by those two regulatory sections (i.e. narrative as opposed to numerical), the advent of plain English laws, and the institution of more elaborate open end credit plans as support for their position that placement of the disclosures on one side of a sheet of paper would result in a lengthy, fine-print disclosure statement. Upon reviewing the arguments contained in the request for republication, as well as the comments received, the staff continues to believe that FC-0149 correctly interprets § 226.7(a) of Regulation Z.

(4) Official staff interpretation FC-0149, which follows, remains unchanged, with the exception of language pertaining to its effective date, from the version published in the FEDERAL REGISTER on June 20, 1978. It is effective immediately.

(5) Authority: 15 U.S.C. 1640(f).

12 CFR Part 226, FC-0149  
§ 226.7(a) "Single written statement" does not mean that initial open end disclosures must be placed on the same side of a single sheet of paper.

DECEMBER 19, 1978.

This responds to your . . . letters requesting official staff interpretations of §§ 226.4 and 226.7 of Regulation Z. This letter answers your final question; your other questions will be dealt with in a separate letter.

You ask whether the initial open end credit disclosures required by § 226.7(a) can be set forth on two sides of a single sheet of paper. Section 226.7(a) provides that disclosures be made on a "single written statement." You note that, in contrast to that section, § 226.8(a), relating to credit other than open end, expressly requires that disclosures be made "on the same side of the page" or on "one side of a separate statement." Thus, you argue that a creditor would be permitted under § 226.7(a) to place the required disclosures on the front and the reverse sides of a page.

In the staff's opinion, the language "single written statement" does not mean that the initial open end credit disclosures required by § 226.7(a) must be placed on the same side of a single sheet of paper. Consequently, a creditor would not be prohibited from using the front and the reverse of "a single written statement."

This is an official staff interpretation of Regulation Z, issued after republication for comment in accordance with § 226.1(d)(2) of

the regulation. It will become effective December 28, 1978.

I note that you may represent creditors subject to the laws of the State of Connecticut. Since Connecticut has been granted an exemption from the applicable provisions of the Truth in Lending Act, you may wish to contact the office of Mr. David H. Nelditz, Bank Commissioner of the State of Connecticut, for his views.

I trust that these official comments satisfactorily answer your inquiry. If you have other questions in the future, please feel free to contact Mr. Edward F. Kipfatuhl, Manager, Consumer Affairs and Regulations Department, at the Federal Reserve Bank of New York, New York, New York 10045.

Sincerely,

NATHANIEL E. BUTLER,  
Associate Director.

Board of Governors of the Federal Reserve System, December 20, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.  
(FR Doc. 78-35959 Filed 12-26-78; 8:45 am)

[6210-01-M]

[Docket No. R-0191]

## PART 265—RULES REGARDING DELEGATION OF AUTHORITY

### Organizational Changes

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: In order to reflect recent organizational changes, the Secretary of the Board has approved a technical and conforming amendment to the Board's Rules Regarding Delegation of Authority.

EFFECTIVE DATE: October 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Theodore E. Allison, Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3257).

SUPPLEMENTARY INFORMATION: The provisions of section 553 of Title 5, United States Code, relating to notice and public participation and deferred effective date are not followed in connection with the adoption of the amendment, because the change involved is procedural in nature and does not constitute substantive rules subject to the requirements of that section.

Effective October 17, 1978, § 265.2(j) is deleted and § 265.2(d) is amended as follows:

§ 265.2 Specific functions delegated to Board employees and to Federal Reserve Banks.

(d) The Staff Director for Federal Reserve Bank Activities or the Staff Director's designee is authorized:

(3) Under the provisions of the third paragraph of section 16 of the Federal Reserve Act (12 U.S.C. 413), to apportion credit among the Reserve Bank for unfit notes that are destroyed, giving consideration to the net number of notes of each denomination that were issued by each Reserve Bank during the preceding calendar year.

(4) Under the provision of §§ 216.5(b), 216.5(d), and 216.6 of this chapter (Regulation P), with respect to Federal Reserve Banks and branches.

(i) To require reports on security devices;

(ii) To require special reports; and  
(iii) To determine in view of the provisions of §§ 216.3 and 216.4 whether security devices and procedures are deficient in meeting the requirements of Part 216, to determine whether such requirements should be varied in the circumstances of a particular banking office, and to require corrective action.

(5) To approve or disapprove supplementary budget requests and special incentive programs to improve operations or reduce costs, provided that the Board has previously approved the budget of the requesting Reserve Bank and provided that the supplemental request adheres to the Board's general expense guidelines and such guidelines as the Board may have imposed in approving the Reserve Bank's budget. And provided, That the amount approved may not exceed in any budgetary year one hundred thousand dollars (\$100,000) for each Reserve Bank and seven hundred fifty thousand dollars (\$750,000) for all Reserve banks in the System.

Board of Governors of the Federal Reserve System, November 30, 1978.

THEODORE E. ALLISON,  
Secretary of the Board.

[FR Doc. 78-35958 Filed 12-26-78; 8:45 am]

## RULES AND REGULATIONS

[6714-01-M]

### CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

#### PART 336—EMPLOYEE RESPONSIBILITIES AND CONDUCT

##### Avoiding Conflicts of Interest

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: These provisions amend FDIC regulations relating to employee conduct and are designed to avoid conflicts of interest or the appearance of conflicts. The amendments (1) prohibit senior policy makers from obtaining certain credit; (2) establish guidelines concerning ownership of bank-related securities; (3) eliminate disclosure requirements for certain financial interests owned by an employee's spouse or dependent; (4) greatly increase the number of employees required to file disclosure statements; (5) establish formal guidelines for processing these statements; and (6) unite in one regulation the various disclosure systems employed by the FDIC.

EFFECTIVE DATE: December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Mark Rosen, Attorney, Legal Division, Federal Deposit Insurance Corporation, Washington, D.C. 20429 (202-389-4637).

SUPPLEMENTARY INFORMATION: On June 30, 1978, (43 FR 28518) FDIC published these amendments as a proposed regulation, inviting public comment on or before July 31, 1978. Due to delays in distribution, many FDIC field employees did not receive the proposal until near the close of the comment period. Since the proposal impacted directly on employees, and their fullest participation in the rule-making was desired, the comment period was extended until September 15, 1978 (43 FR 36461).

Based on comments received, staff review of those comments, and the recent enactment of the "Ethics in Government Act of 1978", several changes have been made. Section 336.735-11(b)(5) introduces new loan prohibitions for regional counsel and executive personnel. Paragraph (iv) has been revised in the final regulation to deal with obligations which these employees obtained prior to the new prohibition. Where it can be done without undue financial hardship, the obligation should be removed and other suitable arrangements made. However, in some cases employees may have obtained loans years ago at

more favorable rates. In such cases, the Ethics Counselor may grant permission to repay the obligation according to its existing terms (without renegotiation), provided the employee is disqualified from any decisions which may directly or indirectly affect that lender.

Under previous regulations, ownership of insured bank stock had to be approved by the Board of Directors. Under these new regulations, the Ethics Counselor will be making these determinations. Footnote "2" to § 336.735-13 makes clear that employees who have obtained Board approval of ownership of bank stock need not obtain additional approval from the Ethics Counselor.

Section 336.735-13(a)(2) establishes the basic rule that employees may not purchase directly or indirectly any securities of an insured bank or its affiliates while employed by the Corporation. The final regulation varies from the proposal by providing one very limited exception to this general rule. Exercising preemptive rights is a purchase of securities. However, preemptive rights are designed to preserve a status quo and to prevent a "squeezing out" by other shareholders, and generally are not used to increase one's proportionate interest. In very unusual cases, an employee with an ownership interest that has already been approved may be permitted to exercise preemptive rights. This permission would have to be granted by the FDIC Board of Directors.

Under the proposed regulation, the Ethics Counselor could permit an employee to retain securities of an insured bank or affiliate if they were obtained prior to employment or through circumstances beyond his or her control (such as inheritance). Since only bank stock required approval under previous regulations, employees may have obtained other securities in a manner permitted at the time of acquisition but prohibited by the proposed rule. Accordingly, the final rule adds a new paragraph (iii) in § 336.735-13(a)(3) to permit employees, with the consent of the Ethics Counselor, to retain interests which were not prohibited by prior regulations, provided the employee is disqualified from participating in any matters relating to the interest.

Previous FDIC policy required examiners who obtained loans from banks not examined by FDIC (national banks and other member banks of the Federal Reserve System), which subsequent to the date of the loan became affiliated through merger or acquisition with banks examined by FDIC, to remove the loan. Since the loan was permissible when obtained, the Ethics Counselor may now, under § 336.735-13(a)(7), permit an examiner

to retain the loan when refinancing would cause undue financial hardship. In such cases, the examiner will pay the loan according to its existing terms, without renegotiation, and be disqualified from examining any affiliates of the lender. Where a loan can be refinanced without undue financial hardship, the Ethics Counselor will continue to require removal.

Sections 336.735-2, 336.735-31a, 336.735-32, 336.735-35, and 336.735-40 are amended to reconcile FDIC's policy on disclosure with the requirements imposed by the new "Ethics in Government Act of 1978". Thus, employees paid at a rate equal to or greater than the minimum rate of basic pay fixed for GS-16 shall file disclosure statements required under the Act rather than statements of employment and financial interests required under Part 336 of FDIC's regulations. Furthermore, an employee under Part 336 is no longer required to disclose all employment and financial interests of "members of his or her household". Instead, an employee is required to disclose only those financial interests of his or her spouse and "dependent" children which are derived in some way from his or her resources, or from which he or she receives or expects to receive economic or financial benefit. This parallels the approach taken by the "Ethics in Government Act of 1978".

Section 336.735-41(a) provides that the Ethics Counselor may be assisted in his or her review of annual disclosure forms by Deputy Ethics Counselors. Several employees raised questions about the confidentiality of the forms. FDIC will treat these disclosures as confidential. To help ensure confidentiality, a suggestion by the Washington Office Employee Advisory Council to limit the number of Deputy Ethics Counselors assisting in the review to no more than two, has been incorporated in this section.

The remaining changes from the proposed regulation are technical adjustments, not requiring additional comment. A delayed effective date is being dispensed with because the annual filing is already overdue, and it is in the public interest to proceed as quickly as possible with implementation of this disclosure system. Accordingly, Part 336 of 12 CFR is amended as set forth below.

By Order of the Board of Directors,  
December 20, 1978.)

FEDERAL DEPOSIT INSURANCE CORPORATION,  
ALAN R. MILLER,  
Executive Secretary.

1. In § 336.735-2, revise paragraph (d) and add paragraphs (e) and (f) as follows:

#### § 336.735-2 Definitions.

(d) "Special Corporation employee" means any employee serving with or without compensation for up to 130 days during any period of 365 days on a full-time or intermittent basis.

(e) "Affiliate" shall have the meaning described in 12 U.S.C. 1828(j).

(f) "Dependent child" of an employee means a son, a daughter, a stepson, or a stepdaughter of an employee who is either unmarried and under age 21 and is living in the employee's household, or who received over half of his or her support from the employee in the preceding calendar year.

#### § 336.735-3 [Amended]

2. In § 336.735-3, in paragraph (b) substitute "Office of Personnel Management" for "Personnel Division", amend paragraph (c) by changing "A Counselor" to "An Ethics Counselor", "Deputy Counselors" to "Deputy Ethics Counselors", and "Personnel Division" to "Office of Personnel Management"; and in paragraph (d) change "Counselor" to "Ethics Counselor".

3. In § 336.735-11, retitle and revise paragraph (b)(5) to read as follows:

§ 336.735-11 Gifts, entertainment, favors, and loans.

(b) . . .

(5) To the acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees such as home mortgage loans, except that:

(i) A Corporation examiner or assistant examiner may not accept any gratuity from, or accept or become obligated on any extension of credit (including credit extended through the use of a credit card) by an insured State nonmember bank or its affiliate.

(ii) An attorney assigned to one of the Corporation's Regional Offices may not accept any gratuity from, or accept or become obligated on an extension of credit by an insured State nonmember bank or its affiliate whose principal place of business is within the region in which the attorney is employed.

(iii) An assistant or deputy to the Board of Directors or its individual members, Division or Office heads who report directly to the Board of Directors or the individual members thereof, and the holder or holders of the position immediately subordinate to these Division or Office heads may not accept any gratuity from, or accept or become obligated on an ex-

tension of credit by an insured State nonmember bank or its affiliate.

(iv) The prohibitions described in subdivisions (ii) and (iii) of this subparagraph shall not apply to credit extended through the use of a credit card: *Provided*, That the credit card is not issued by an insured State nonmember bank. An employee with an obligation now prohibited by subdivisions (ii) or (iii) of this subparagraph, which was not prohibited at the time of acquisition, will remove the obligation unless the Ethics Counselor determines that removal would be an undue hardship for the employee. In such cases, the obligation will be paid according to its existing terms without renegotiation, and the employee will be disqualified under § 336.735-13a from participating in any decision having an economic impact on the lender, or any insured State nonmember bank which is affiliated with the lender.

4. Retitle and revise § 336.735-13 to read as follows:

§ 336.735-13 Financial interests and obligations.

(a) No employee shall have a direct or indirect financial interest or obligation that conflicts, or appears to conflict, with the employee's duties and responsibilities to the Corporation. To avoid conflict or the appearance of conflict:

(1) No employee may own or control, directly or indirectly, any securities of an insured bank or its affiliates without full disclosure to and the approval of the Ethics Counselor as set forth in subparagraph (3) of this paragraph.<sup>1</sup> Disclosures will be made in accordance with § 336.735-13a(b).

(2) No employee may purchase, directly or indirectly, any securities of an insured bank or its affiliates while employed by the Corporation, except that an employee may exercise preemptive rights in approved interests upon obtaining the consent of the Board of Directors.

(3) The Ethics Counselor may grant an employee approval to retain a direct or indirect interest in the securities of an insured bank or its affiliates if the employee's interest is considered so small as to not compromise the employee's integrity and judgment and:

(i) The interest was obtained before employment with the Corporation; or

<sup>1</sup>This paragraph includes an individual holding any of the positions on an "acting" or "temporary" basis.

<sup>2</sup>Under previous regulations, the Board of Directors approved direct or indirect ownership of stock in insured banks. Employees who have received Board approval need not obtain the approval of the Ethics Counselor to retain their interest.

(ii) The interest was obtained through circumstances beyond the employee's control, such as, but not limited to, inheritance, gift, or the acquisition by an insured bank or its affiliate of a non-bank entity in which the employee owned securities; or

(iii) The interest was obtained at a time when previous regulations or policy did not prohibit such interest.

(4) Any employee whose ownership or controlling interest has been approved by the Ethics Counselor under subparagraph (3) of this paragraph, or by the Board of Directors, will be disqualified under § 336.735-13a from participating in any decision which could have an economic impact on the bank in question, or any affiliate thereof.

(5) In cases where the Ethics Counselor's approval is not granted, the employee will be required to divest himself or herself of the interest within a reasonable period of time. The time period will be long enough to ensure that the employee does not suffer undue financial hardship as a result of the divestiture. An employee may also obtain review of a denial of approval by the Ethics Counselor prior to any divestiture by requesting such review within 15 days of the denial. This review shall be made by the Chairman of the Board of Directors.

(6) No employee may engage, directly or indirectly, in a financial transaction where information regarding the transaction has been obtained primarily through his or her Corporation employment, unless the information is also in the public domain.

(7) In the event a merger, acquisition, or other transaction results in the existence of a credit extension prohibited by § 336.735-11(b)(5)(i), (ii), or (iii), the obligation will be removed unless the Ethics Counselor determines that removal would be an undue hardship on the employee. In such cases, the obligation will be paid according to its existing terms, without any renegotiation, and the employee will be disqualified under § 336.735-13a from participating in decisions having an economic impact on the lender, or any affiliate of the lender. If the employee is an examiner or assistant examiner, he or she will not be permitted to examine the lender or an insured State nonmember bank affiliated with the lender.

(8) An examiner or assistant examiner may become obligated on any extension of credit (including credit extended through use of a credit card) by a bank other than an insured State nonmember bank if—

(i) The lending bank is not affiliated with an insured State nonmember bank; and

\*For purposes of this paragraph, a blind trust may be a form of divestiture. However, the blind trustee must not be related by blood or marriage to the employee and must not be an insured bank or an affiliate of an insured bank.

(ii) Full disclosure of the obligation and the date the obligation is fully repaid is made in writing to the Regional Director on an official Corporation form designated for this purpose. The Regional Director shall also be notified of the repayment of the obligation. In the case of a bank credit card, these disclosure requirements are met if the Regional Director is notified in writing of the date of receipt of the card, the name of the bank acting as principal, and the date of the discontinuance if the card is destroyed or returned to the bank. Regional Directors will forward copies of the disclosures by examiners or assistant examiners to the Ethics Counselor.

(b) This § 336.735-13 does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Corporation so long as the specific activity is not prohibited by law, the Executive Order, this § 336.735-13 or other provisions in this Part 336.

(c) Despite the restrictions in § 336.735-13(a), an employee may own shares in a publicly held mutual fund whose investments are primarily in the securities of nonfinancial corporations. This indirect financial interest in securities of a bank or other financial institution is considered too remote and inconsequential to affect the integrity of the employee's services.

5. Add a new § 336.735-13a to read:

§ 336.735-13a Disqualification from decision-making.

(a) An employee with an interest (other than an insured deposit) in a bank or other financial institution which is not prohibited by law, or an interest in a bank, financial institution, or other entity which is or may be affected by a particular Corporation decision, will report the interest and be disqualified from participating in any such decision.

(b) Reports of interests required by this section shall be made as follows:

(1) Any employee who files an annual supplementary statement as described in § 336.735-34, and obtains a previously unreported interest subsequent to that filing, will report the interest within 30 days of the acquisition of the interest.

(2) Any employee not required to file an annual supplementary statement will report an interest within 30 days of his or her entrance on duty; or within 30 days of the acquisition of the interest, if acquired subsequent to his or her employment.

(3) Reports will be made on an official Corporation form designated for this purpose.

6. In § 336.735-17, revise paragraph (b) to read:

§ 336.735-17 Gambling, betting and lotteries.

(b) Related to internal solicitations approved by the Corporation for organizational support or welfare funds for employees, or similar Corporation-approved activities.

§ 336.735-18 [Amended]

7. In § 336.735-18, change the last word of the section title from "Government" to "Corporation."

§ 336.735-19 [Amended]

8. In § 336.735-19, add the phrase "which prescribes general standards of conduct," to the end of paragraph (a); delete and reserve paragraph (e); and add a new paragraph (f) to read "The prohibition against accepting excessive honorariums (2 U.S.C. 441i)."

9. Retitle and revise § 336.735-31 as follows:

§ 336.735-31 Criteria to determine who must submit statements.

Except as provided in § 336.735-32, statements of employment and financial interest shall be filed by the following employees—

(a) Those paid at a level of the Executive Schedule in subchapter II of chapter 53 of title 5, United States Code.

(b) Positions which meet the following criteria:

(1) Positions the incumbent of which is responsible for making a Corporation decision or taking a Corporation action in regard to—

(i) Contracting or procurement;

(ii) Administering or monitoring grants or subsidies;

(iii) Regulating or auditing a private or other non-Federal enterprise; or

(iv) Other activities where the decision or action has an economic impact on the interests of banks or any other non-Federal enterprise.

(2) Positions which the Corporation determines require the incumbent to report employment and financial interest in order to carry out the purposes of law, Executive Order, this part, or any other Corporation regulations.

(3) Approval of the Civil Service Commission will be obtained before requiring the incumbent of a position below the GS-13 level to file a statement under this section.

10. Retitle and revise § 336.735-31a as follows:

§ 336.735-31a Corporation employees required to file statements.

(a) The Corporation has determined that all positions enumerated in paragraphs (b) and (c) of this section meet the criteria described in § 336.735-31. Holders of these positions are required to file statements of employment and financial interest, unless § 336.735-32 is applicable to them.

(b) The Ethics Counselor shall file a statement with the Chairman of the Board of Directors.

(c) The following employees shall file statements with the Ethics Counselor:

(1) Assistants to the Board of Directors;

(2) Deputies or Assistants to the individual Directors;

(3) Division and Office Heads who report directly to the Board of Directors or its individual members;

(4) The holder or holders of the position immediately subordinate to a Division or Office Head covered subparagraph (3) (whether designated as Deputy, Assistant or any other title);

(5) Regional Directors;

(6) Assistant Regional Directors;

(7) Branch or comparable office heads;

(8) All commissioned bank examiners, as well as other employees of the Division of Bank Supervision who do not regularly examine banks but who are paid at or above the GS-13 level;

(9) Employees of the Division of Liquidation paid at or above the GS-13 level;

(10) Assessment Auditors paid at or above the GS-11 level;

(11) Those employees of the Operations Branch, the Office of the Controller, paid at the GS-9 level or above who evaluate, recommend, purchase, or contract for equipment, materials and services required by the Corporation;

(12) Employees assigned to the Software and Hardware Support and Evaluation Section paid at or above the GS-14 level;

(13) Individuals employed by the Corporation as attorneys, whether assigned to the Washington Office of the Legal Division, another Washington Division or Office, a Regional Office or a liquidation office. This paragraph does not include outside attorneys retained by the FDIC, and who are otherwise engaged in the private practice of law.

(d) An employee may object to the Ethics Counselor that his or her position has been improperly included as one requiring the submission of a statement of employment and financial interest. When an objection cannot be resolved or explained satisfactorily to the employee, he or she shall be granted a review of the matter

through the Corporation's grievance procedure.

11. Revise § 336.735-32 to read:

§ 336.735-32 Employees not required to submit statements.

Employees or Special Employees who receive salaries at rates equal to or greater than the minimum rate of basic pay fixed for GS-16 shall file disclosure statements under Title II of Ethics in Government Act of 1978 rather than statements of employment and financial interest under this Part 336.

12. Revise § 336.735-33 to read:

§ 336.735-33 Time and Place for submission of employees' statements.

(a) An employee required to submit a statement of employment and financial interest under § 336.735-31 shall be advised in writing of this obligation by the Office of Personnel Management at least 15 days before the date the report is required.

(b) Employees shall file statements not later than 30 after the effective date of this revision to Part 336 if employed on or before that effective date, or 30 days after entrance on duty or reassignment or promotion to a covered position.

(c) Notwithstanding any other provision in this section, filing may be required prior to employment or promotion for executive level persons and certain other senior positions.

13. Revise § 336.735-34 to read as follows:

§ 336.735-34 Supplementary statements.

(a) Changes in, or additions to, the information contained in an employee's statement of employment and financial interest shall be reported in a supplementary statement as of June 30 each year. If no changes or additions occur, a report to that effect is required.

(b) Employees required to file these annual supplementary statements must be advised in writing of this obligation, with a copy of the relevant reporting form. Except as otherwise provided by the Board of Directors, a letter to this effect shall be distributed by the Office of Personnel Management no later than June 15th with the instruction that the statement must be returned after July 1st, but no later than July 31st.

(c) The filing of the annual supplementary statement required of certain employees by this section does not authorize any person to engage in any activity or maintain any interest prohibited by law, regulation, or order.

14. Revise and Retitle § 336.735-35 to read:

§ 336.735-35 Financial interests of employee's spouse and dependent child.

A financial interest of an employee's spouse or of an employee's dependent child is considered to be an interest of the employee, except that such interest shall not be so regarded if—

(a) The interest is solely the financial interest and responsibility of the spouse or of the dependent child, and the employee has no knowledge of it; and

(b) The interest is not in any way, past or present, derived from the income, assets, or activities of the employee; and

(c) The employee neither derives, nor expects to derive, any financial or economic benefit from the interest.

§ 336.735-38 [Amended]

15. In the second sentence of § 336.735-38, substitute "Ethics Counselor" for "assistant to the Chairman of the Board of Directors". In the last sentence of § 336.735-38, insert "Chairman of the" prior to "Civil Service Commission".

§ 336.735-40 [Amended]

16. In § 336.735-40 amend the first sentence of paragraph (a) to read:

(a) \* \* \* Except as provided in paragraph (b) of this section, each Special Corporation Employee who is not required to file disclosure statements under § 336.735-32, shall submit a statement of employment and financial interest which reports: Amend paragraph (b) by adding the following sentence after the word "patients": "Special Corporation Employees who are relieved of the requirement of filing a statement include, but are not limited to: summer personnel, student interns; and individuals paid out of 'Imprest Funds' to assist in bank liquidations. \* \* \*

17. Revise § 336.735-41, to read as follows:

§ 336.735-41 Reviewing statements and reporting conflicts of interest.

(a) Annual supplementary statements submitted under § 336.735-34 will be reviewed by the Ethics Counselor by August 31. The Ethics Counselor may be assisted in his or her review by no more than two of the Deputy Ethics Counselors referred to in § 336.735-3(c).

(b) When a statement submitted under § 336.735-31 and § 336.735-34, or information from other sources indicates a possible conflict between the interests of an employee or Special Corporation Employee and the performance of his or her service for the Corporation:

(1) The Ethics Counselor shall investigate the matter and allow the employee or Special Corporation Employee

ee a reasonable opportunity, orally and in writing, to explain why he or she does not believe a conflict or appearance of conflict exists.

(2) The Ethics Counselor shall attempt to resolve the matter expeditiously.

(3) If an employee is dissatisfied with the Ethics Counselor's proposed resolution, and the matter cannot be resolved by the September 30 following the filing of a required statement, the information concerning the conflict or appearance of conflict shall be reported to the Chairman of the Board of Directors for resolution.)

##### Title 16—Commercial Practices

##### CHAPTER I—FEDERAL TRADE COMMISSION

##### RESPONSIBILITIES UNDER TITLE II OF THE HART-SCOTT-RODINO ANTI-TRUST IMPROVEMENTS ACT OF 1976

##### Delegation to Assistant Director for Evaluation

AGENCY: Federal Trade Commission.

ACTION: Delegation to Assistant Director for Evaluation those responsibilities under Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976 previously delegated to the Associate Director for Premerger Notification.

SUMMARY: In order to facilitate the efficient operation of the premerger notification program, implementing Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, the Commission, prior to the September 5, 1978 effective date, delegated several of its responsibilities under the Act to the Director, Deputy Director and Associate Director for Premerger Notification of the Bureau of Competition. These delegated responsibilities consist of the authority to make and issue requests for additional information. In addition, under the premerger notification rules, the above-designated staff members were authorized by the Commission to request the submission of documents, an index of which must be filed in connection with certain acquisitions exempted by the Act and rules. As of November 1, 1978, the responsibilities of the Associate Director for Premerger Notification have been

transferred to the Assistant Director for Evaluation and the position of Associate Director for Premerger Notification has been eliminated. Thus, all responsibilities previously delegated by the Commission to the Associate Director for Premerger Notification are delegated to the Assistant Director for Evaluation.

EFFECTIVE DATE: November 1, 1978.

##### FOR FURTHER INFORMATION CONTACT:

Malcolm R. Pfunder, Assistant Director for Evaluation, Bureau of Competition, Room 394, Federal Trade Commission, Washington, D.C. 20580, (202-523-3404).

##### SUPPLEMENTARY INFORMATION:

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by sections 201 and 202 of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and Assistant Attorney General in charge of the Antitrust Division of the Department of Justice advance notice and wait designated periods before consummation of those plans. Section 7A(e)(1) and (e)(2) of the Act and §803.20 of the rules authorize the Commission or the Assistant Attorney General prior to the expiration of the appropriate waiting period to make and issue requests for additional information to persons required to file notification. Sections 802.6 and 802.8 of the premerger notification rules authorize the Commission or the Assistant Attorney General or delegated officials of either to request the submission of documents, an index of which must be filed in connection with acquisitions exempted by section 7A(c)(6) and (c)(8) of the Act. These delegations of authority to the Director, Deputy Directors and Associate Director for Premerger Notification of the Bureau of Competition are included in the Statement of Basis and Purpose which accompanied the final rules and Form in the FEDERAL REGISTER of July 31, 1978, 43 FR 33450.

By direction of the Commission.

CAROL M. THOMAS,  
Secretary.

##### Title 16—Commercial Practices

##### CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 8987]

##### PART 13—PROHIBITED TRADE PRACTICES AND AFFIRMATIVE CORRECTIVE ACTIONS

##### National Commission on Egg Nutrition et al.

AGENCY: Federal Trade Commission.

ACTION: Modification of order to cease and desist.

SUMMARY: This modified order to cease and desist replaces the order issued on July 20, 1976. In accordance with the November 29, 1977 decision and judgment of the Court of Appeals for the 7th Circuit, as amended on December 6, 1977, the instant order mandates disclosure of controversy among medical experts as to the relationship of dietary cholesterol, including that in eggs, to heart and circulatory disease only when NCEN chooses to make a representation regarding the state of the available evidence or information concerning the controversy.

DATES: Decision issued July 20, 1976. Modifying order issued November 17, 1978.

##### FOR FURTHER INFORMATION CONTACT:

FTC/GE, Jerold D. Cummins, Washington, D.C., 20580. (202) 523-1928.

SUPPLEMENTARY INFORMATION: In the Matter of National Commission on Egg Nutrition, et al. The prohibited trade practices and/or corrective actions, as modified under 16 CFR Part 13, appearing at 41 FR 34939, remain unchanged.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interpret or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45, 52))

The order modifying order to cease and desist, is as follows:

##### MODIFIED ORDER TO CEASE AND DESIST

Respondents, having filed in the United States Court of Appeals for the Seventh Circuit petition for review of the Commission's cease and desist order issued herein on July 20, 1976; and the Court having rendered its decision modifying the Commission's order and, as so modified, affirming and enforcing the order; and the Supreme Court of the United States having denied on October 2, 1978, a petition for writ of certiorari filed by the National Commission on Egg Nutrition:

\*Copies of the modifying order filed with the original document.

Now, therefore, it is hereby ordered, That the aforesaid order to cease and desist be, and it hereby is, modified in accordance with the decision and judgment of the Court of Appeals to read as follows:

It is ordered, That respondents National Commission on Egg Nutrition and Richard Weiner, Inc., corporations, their successors and assigns, either jointly or individually, and respondents' officers, agents, representatives, and employees directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of eggs for human consumption do forthwith cease and desist from:

A. Disseminating or causing the dissemination of any advertisement by means of the United States mails or by any means in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, which directly or indirectly

1. Represents that there is no scientific evidence that eating eggs increases the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition;

2. Represents that there is scientific evidence that dietary cholesterol, including that in eggs, decreases the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition;

3. Represents that there is scientific evidence that avoiding dietary cholesterol, including that in eggs, increases the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition;

4. Represents that eating eggs does not increase the blood cholesterol level in a normal person;

5. Represents that the blood cholesterol level is prevented from being raised or lowered by dietary cholesterol intake;

6. Represents that the human body increases its manufacture of cholesterol in an amount equal to a decrease in dietary cholesterol intake;

7. Represents that the average human body eliminates the same amount of cholesterol as that eaten;

8. Represents that dietary cholesterol, including that in eggs is needed by the body for building sex hormones, for transmitting nerve impulses and for maintaining life in cells; or

9. Utilizes the name "National Commission on Egg Nutrition" unless it is clearly and conspicuously disclosed in immediate conjunction with the name that the National Commission on Egg Nutrition is composed of egg producers and other individuals and organizations of, or relating to, the egg industry.

B. Disseminating, or causing the dissemination, of any advertisement by

means of the United States mails or by any means in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, which directly or indirectly

1. Represents that eating eggs does not increase the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition or

2. Makes any representation concerning the relationship of dietary cholesterol, including that in eggs, to heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition

unless it is clearly and conspicuously disclosed in immediate conjunction therewith that there is a controversy among medical experts concerning the relationship of dietary cholesterol, including that in eggs, to heart disease, and that respondents are presenting their side of that controversy.

C. Disseminating, or causing the dissemination of, any advertisement by means of the United States mail or by any means in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, which directly or indirectly

1. Represents that there exists, or describes, scientific evidence which supports the theory that consumption of dietary cholesterol, including that in eggs, does not increase the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition or

2. Makes any representation concerning the state of the available evidence or information concerning the relationship of dietary cholesterol, including that in eggs, to heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition

unless it is clearly and conspicuously disclosed in immediate conjunction therewith that many medical experts believe that existing evidence indicates that increased consumption of dietary cholesterol, including that in eggs, may increase the risk of heart disease.

D. Disseminating, or causing the dissemination of, any advertisement by means of the United States mails or by any means in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, which directly or indirectly

1. Represents as insignificant the available scientific evidence that the consumption of dietary cholesterol, including that in eggs, may increase the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition, or represents that there is overwhelming scientific evidence or otherwise misrepresents the amount of scientific evidence that eating eggs does not increase the risk of heart attacks, heart disease, atherosclerosis, arteriosclerosis, or any attendant condition.

sclerosis, arteriosclerosis, or any attendant condition.

2. Misrepresents in any manner the physiological effects of consuming dietary cholesterol or eggs.

It is further ordered, That respondents shall forthwith distribute a copy of this order to each of their operating divisions, and to all current and future members of respondent National Commission on Egg Nutrition.

It is further ordered, That each respondent notify the Commission at least thirty (30) days prior to any proposed change in its corporate structure such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That each respondent shall, within sixty (60) days after this order becomes final, file with the Commission a report, in writing, signed by respondent, setting forth in detail the manner and form of its compliance with the order to cease and desist.

By the Commission.

CAROL M. THOMAS,  
Secretary.

Mikesell, individually and as an officer of Power's Service, Inc.; and Continental Collection Service, a partnership, and Carol Carrick and Morris Perna, individually and as co-partners of said Partnership. The prohibited trade practices and/or corrective actions, except for the deletion of Subpart—Corrective Actions and/or Requirements and its associated sections, as codified under 16 CFR Part 13, appearing at 38 FR 28933, 40 FR 19206, 40 FR 19205, 40 FR 19204, and 40 FR 19201, respectively, remains unchanged.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interpret or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45))

The Interlocutory and Modifying Order to cease and desist, is as follows:

**ORDER DENYING PETITION FOR RECONSIDERATION OF FINAL ORDER OR REOPENING OF PROCEEDING IN DOCKET NO. 9058 AND REOPENING AND MODIFYING FINAL ORDERS IN DOCKET NOS. 8901 AND C-2806-C-2811**

On May 25, 1978, the Commission issued its final order and opinion in

\*Copies of the Interlocutory and Modifying orders filed with the original document.

*Capax, Inc.* The Commission held that respondents had engaged in certain misrepresentations in the course of their service to assist creditors in the collection of alleged delinquent debts, and prohibited these misrepresentations in its final order. The Commission rejected complaint counsel's request that respondents be required to provide an affirmative disclosure in each communication sent to alleged debtors, stating:

"We do not consider the affirmative disclosure sought here by complaint counsel to be necessary, under the circumstances of this case, in light of the order's ample prohibitions on misrepresentations. Moreover, we believe that the proposed disclaimer could lull recipients into a false sense of security by giving them the impression that failure to pay the claimed debt will not result in legal action or harm to their credit standing. Because creditors might pursue an alleged delinquent debt by bringing suit or could report the matter to a consumer reporting agency, debtors who decided not to make payment on the basis of the disclaimer could suffer harm. Therefore, our order will not include the proposed affirmative disclosure."

Previously, the Commission had ordered disclosures similar to that sought by complaint counsel in *Trans-American Collections, Inc.*, Docket No. 8901, 83 F.T.C. 525 (1973); *United Compured Collections, Inc.*, Docket No. C-2806, 87 F.T.C. 542 (1976); *Trans National Credit Corp.*, Docket No. C-2807, 87 F.T.C. 549 (1976); *Continental Collection Bureau of America, Inc.*, Docket No. C-2808, 87 F.T.C. 557 (1976); *North American Collections, Inc.*, Docket No. C-2809, 87 F.T.C. 566 (1976); *Power's Service, Inc.*, Docket No. C-2810, 87 F.T.C. 574 (1976); and *Continental Collection Service*, Docket No. C-2811, 87 F.T.C. 582 (1976). On the date of issuance of the final order and opinion in *Capax*, the Commission issued orders to show cause why the above-cited orders should not be modified to delete the mandated affirmative disclosures, pursuant to Commission Rule 3.72(b). In its orders to show cause, the Commission stated that the reasoning articulated in *Capax* for rejecting complaint counsel's request for an affirmative disclosure may be equally applicable to the above-cited orders and that their requirement of an affirmative disclosure should be reconsidered.<sup>1</sup>

Complaint counsel have petitioned for reconsideration of the Commission's order in *Capax* pursuant to Rule 3.55, or in the alternative, for reopening of the proceeding in order to modify the Commission's decision not to require *Capax* to use an affirmative disclosure in its communications, pursuant to Rule 3.72. In support of their petition, complaint counsel argue that (1) since the Fair Debt Collection Practices Act became effective on March 20, 1978, "many complaints have been received pointing out the inherently deceptive nature of dunning letters sent by flat rate letter writing services," (2) an affirmative disclosure requirement is necessary to avoid the deception most certain to occur in the use of dunning notices, and (3) insertion of a modified version of the affirmative disclosures proposed by complaint counsel will prevent any misleading impression.

In a separate pleading, the Bureau of Consumer Protection has filed an opposition to the modification of the orders in Docket Nos. 8901 and C-2806-C-2811 pending determination of complaint counsel's petition in *Capax*.

Counsel for *Capax* have filed an answer opposing complaint counsel's petition for reconsideration or reopening. That petition has also been opposed by counsel for *Trans World Accounts*, another company which provides debt collection services and which is an appellant from a final Commission order.

*Trans-American Collections* and the other respondents in Docket No. 8901 have filed a response to the order to show cause, expressing their acceptance of the proposed modification to the order in that matter. *Power's Service* and *Community Systems*, respondents in Docket No. C-2810, have filed a motion requesting the Commission to modify the consent order in accordance with the order to show cause. None of the other respondents who received the show cause orders has filed a response.

Although the Commission does not have authority to modify the order in *Capax* at this time,<sup>2</sup> either in response to a petition for reconsideration or for reopening, we will address the substance of complaint counsel's arguments, since this issue is central to the orders to show cause which are opposed by the Bureau of Consumer Protection. The Commission finds that the pleadings do not raise material issues of fact, and therefore will decide the matters on the orders to show cause and answer thereto, in accordance with Rule 3.72(b)(3).

Complaint counsel argue that since the effective date of the Fair Debt Collection Practices Act, many complaints have been received indicating that dunning letters sent by flat rate

<sup>1</sup>15 U.S.C. 45(b).

letter debt collection services are inherently deceptive. According to complaint counsel, the majority of consumers are unaware that in most cases such services have "virtually no authority to proceed with what is commonly understood to be normal collection efforts," and an affirmative disclosure such as that proposed is necessary to avoid deception. The Commission has never found that third party collection letters are inherently deceptive, and has no basis for making any such finding now. We see no reason to depart from our determination that the prohibitions on misrepresentations contained in the *Capax* order render an affirmative disclosure unnecessary. Under the order, *Capax* is prohibited from misrepresenting (1) the urgency of any communication, (2) its authority to engage in certain kinds of debt collection activity, (3) the likelihood of legal action, (4) the effect of nonpayment upon a debtor's credit record, and (5) the imminency of any action that may or will be taken. A prohibition upon these misrepresentations will eliminate the deception found by the Commission in *Capax*. Similar prohibitions are contained in the consent orders subject to the orders to show cause.

The Fair Debt Collection Practices Act, which became effective on March 20 of this year, is relied upon by complaint counsel as a basis for reconsideration. That Act was fully taken into account in the Commissioner's determination, and presents no new question. The operation of that Act provides even less reason to mandate any affirmative disclosure than before, due to the requirement imposed upon debt collectors to provide a prescribed written notice within five days after the initial communication with a consumer and the requirement to cease collection of a debt after notification by the consumer. Section 809, 15 U.S.C. 1692g.

The Commission expressed concern in *Capax* that the affirmative disclosure proposed by complaint counsel may lull consumers into a false sense of security by giving them the impression that failure to pay the claimed debt will not result in legal or other action by the creditor. To remedy this possible misimpression, complaint counsel now propose that the following sentence be added to the disclaimer: "The creditor is permitted to take whatever action is available under State law." While this modification may be helpful, we nevertheless believe that no additional disclosure is necessary.

Accordingly, it is ordered, That:

(1) The petition requesting reconsideration of reopening of the proceeding in *Capax*, Docket No. 9058, be denied;

(2) The final order in Docket No. 8901 is reopened and modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is only a reminder notice. *Trans-American Collections, Inc.*, cannot accept monies nor will it take any action, legal or otherwise, regarding this claim.

(3) The final order in Docket No. C-2806 is reopened and modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is a reminder of creditor's claim. *United Compured Collections, Inc.*, does not accept payment. *United Compured Collections, Inc.*, does not ordinarily file suit.

(4) The final order in Docket No. C-2807 is modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is a reminder of creditor's claim. *Trans National Credit Corporation* does not accept payment. *Trans National Credit Corporation* does not ordinarily file suit.

(5) The final order in Docket No. C-2808 is modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is a reminder of creditor's claim. *Continental Collection Bureau of America, Inc.*, does not accept payment. *Continental Collection Bureau of America, Inc.*, does not ordinarily file suit.

(6) The final order in Docket No. C-2809 is modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is a reminder of creditor's claim. *North American Collections, Inc.*, does not accept payment. *North American Collection, Inc.*, does not ordinarily file suit.

(7) The final order in Docket No. C-2810 is modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is only a reminder notice. *Power's Service, Inc.*, cannot accept payment nor will it take legal action regarding this claim.

(8) The final order in Docket No. C-2811 is modified by deleting the requirement that respondents disclose in each letter, form, or notice to alleged delinquent debtors the following statement:

This communication is a reminder of creditor's claim. *Continental Collection Service* does not accept payment. *Continental Collection Service* does not ordinarily file suit.

By the Commission.

CAROL M. THOMAS,  
 Secretary.

Title 19—Customs Duties

## CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 79-5]

### PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

#### Delay in Effective Date for Mandatory Use of Cargo Declaration Forms in Connection With Vessel Arrivals or Departures

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Delay in effective date for use of cargo declaration forms.

**SUMMARY:** Treasury Decision 77-255 provided for the mandatory use as of September 1, 1978, of newly-developed cargo declaration forms in connection with vessel arrivals or departures. Because a number of ocean carriers advised Customs that mandatory use of the forms as of September 1, 1978, would work a hardship on them, Customs agreed to delay the mandatory effective date until January 1, 1979. This document extends the time for mandatory use of these forms until April 1, 1979, to allow time for consideration of a possible amendment to the Customs Regulations to simplify procedures relating to the reporting of bill of lading numbers of containerized cargo on one of the new forms and to give carriers additional time to comply with the new requirements.

**EFFECTIVE DATE:** The use of the Cargo Declaration, Customs Form 1302, and the Cargo Declaration Outward with Commercial Forms, Customs Form 1302-A, shall be mandatory as of April 1, 1979.

**FOR FURTHER INFORMATION CONTACT:**

Donald H. Reusch, Carriers, Drawback and Bonds Division, U.S. Customs Service, 1301 Constitution Avenue N.W., Washington, D.C. 20229, 202-566-5706.

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

Treasury Decision 77-255, published in the FEDERAL REGISTER on October 25, 1977 (42 FR 56317), Amended Part 4, Customs Regulations (19 CFR Part 4), to provide for newly-developed cargo declaration forms in connection with vessel arrivals or departures and to establish procedures for their use.

The forms, the Cargo Declaration, Customs Form 1302, and the Cargo Declaration Outward with Commercial Forms, Customs Form 1302-A, follow a format developed by the Intergovernmental Maritime Consultative Organization, as modified by the International Chamber of Shipping. Their development implements an agreement made by the United States when it ratified the Convention of Facilitation of International Maritime Traffic to use standardized international forms in connection with vessel arrivals or departures to the extent that the forms satisfy United States legal requirements. The purpose of the new forms is to simplify paperwork without reducing effective Customs control over vessel movements.

T.D. 77-255 provided for the use of the forms any time after October 25, 1977, and for their mandatory use as of September 1, 1978. However, a number of U.S. ocean carriers advised Customs that mandatory use of the forms as of September 1, 1978, would impose a hardship and requested that they be given additional time to comply with the new requirements. After consideration of these requests, by Treasury Decision 78-291, published in the FEDERAL REGISTER on August 18, 1978 (43 FR 36621), Customs delayed the effective date for mandatory use of the forms until January 1, 1979.

## REPORTING OF BILL OF LADING NUMBERS FOR CONTAINERIZED CARGO

Section 4.7a(c)(2), Customs Regulations (19 CFR 4.7a(c)(2)), as amended by T.D. 77-255, provides that (1) all bills of lading for inward foreign cargo shipped in containers shall be listed in numerical sequence on Customs Form 1302, (2) the number of the container which contains the cargo covered by that bill of lading and the container seal number shall be listed opposite the bill of lading number, and (3) the number of any other bill of lading for cargo in that container also shall be listed immediately under the container and seal numbers. Therefore, for containers with merchandise covered by more than one bill of lading number, the same bill of lading numbers must be listed more than once on Customs Form 1302.

Because multiple listings of the same bill of lading number impose a

burden on carriers without corresponding benefit to Customs, a simplified alternative is being developed to eliminate the need to report bill of lading numbers more than once on Customs Form 1302. The alternative procedure, if adopted, will be the subject of an amendment to § 4.7a(c)(2), Customs Regulations, published in the FEDERAL REGISTER and the Customs Bulletin in the near future.

## REQUEST FOR FURTHER DELAY IN EFFECTIVE DATE

Customs has been requested, on behalf of an association of United States ocean carriers, to delay further, until April 1, 1979, the mandatory date for use of the new forms. The delay is requested to permit consideration of the amendment to section 4.7a(c)(2), Customs Regulations, described above, and to provide carriers additional time to comply with the new requirements.

## DELAY IN MANDATORY EFFECTIVE DATE

After considering this request, Customs is delaying the date for mandatory use of Customs Form 1302 and Customs Form 1302-A until April 1, 1979. No further extensions of the time for mandatory use of the forms will be granted.

## DRAFTING INFORMATION

The principal author of this document was Mark Jenkins, Regulations and Legal Publications Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Dated: December 21, 1978.

R. E. CHASEN,  
Commissioner of Customs.

Title 31—Money and Finance:  
TreasurySUBTITLE A—OFFICE OF THE  
SECRETARY OF THE TREASURY

## PART 1—DISCLOSURE OF RECORDS

Subpart A—Under 5 U.S.C. 552, as  
AmendedAPPENDIX F—BUREAU OF ENGRAVING  
AND PRINTING

AGENCY: Bureau of Engraving and Printing, Department of the Treasury.

ACTION: Final rule.

SUMMARY: The Bureau of Engraving and Printing is amending Appendix F to 31 CFR Part 1, Subpart A. This appendix is being changed to reflect a reorganization which changes the appellate official from the Assistant Secre-

tary (Enforcement, Operations, and Tariff Affairs) to the Under Secretary of the Treasury.

EFFECTIVE DATE: December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

H. T. Krisak, Superintendent, Management Services Division, Bureau of Engraving and Printing, 14th and C Streets, SW., Washington, D.C., 20228, (202) 447-0261.

SUPPLEMENTARY INFORMATION: Paragraph 4 is amended to change the official responsible for appellate determinations under 31 CFR 1.5(h) with respect to records of the Bureau of Engraving and Printing. Public comment is deemed impracticable and unnecessary under 5 U.S.C. 553(b)(3)(B). This regulation does not meet the criteria for a significant regulation set forth in paragraph 8 of the proposed Treasury directive appearing in the FEDERAL REGISTER for Wednesday, May 24, 1978 (42 FR 22319).

(5 U.S.C. 552; 31 CFR 1.1)

As amended, paragraph 4 reads as follows:

4. Administrative appeal of initial determination to deny records. Appellate determinations under 31 CFR 1.5(h) with respect to records of the Bureau of Engraving and Printing will be made by the Under Secretary of the Treasury. Appeals made by mail should be addressed to:

Under Secretary of the Treasury, Department of the Treasury, 1500 Pennsylvania Avenue, NW., Room 3312, Washington, D.C. 20220.

Requests may be delivered personally to the Under Secretary of the Treasury in Room 3312, Main Treasury Building located at 1500 Pennsylvania Avenue, NW., Washington, D.C.

SEYMOUR BERRY,  
Director, Bureau of  
Engraving and Printing.

ADMINISTRATIONPART 224—GROUPS AND  
DEPARTMENTS

## SUBCHAPTER N—PROCEDURES

PART 955—RULES OF PRACTICE  
BEFORE THE BOARD OF CON-  
TRACT APPEALS

## Organizational Changes

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This document reflects organizational changes within the Administration Group due to the establishment of the position of Associate Judicial Officer. It also reflects the amendment by the Judicial Officer pursuant to his authority under 39 CFR 224.1(c)(5)(ii)(D) of the rules of practice before the Board of Contract Appeals contained in 39 CFR Part 955. The amendment provides that the Associate Judicial Officer is Vice Chairman of the U.S. Postal Service Board of Contract Appeals.

EFFECTIVE DATE: December 26, 1978.

Neva Watson (202) 245-4642. Accordingly, 39 CFR is amended as follows:

PART 224—GROUPS AND  
DEPARTMENTS

## § 224.1 [Amended]

1. In § 224.1(c)(5)(i) add the following new paragraph at the end thereof:

(c) \* \* \*

(i) \* \* \* As directed by the Judicial Officer, the Associate Judicial Officer assists in the administration of the office and normally is the Acting Judicial Officer when the Judicial Officer is absent or unable to serve. The Associate Judicial Officer is the ex officio Vice Chairman of the Board of Contract Appeals.

2. In § 224.1(c)(5)(v)(B) revise the first sentence to read as follows:

(c) \* \* \*  
(5) \* \* \*  
(v) \* \* \*

(B) The Board of Contract Appeals of the Postal Service is composed of the Judicial Officer as Chairman, the Associate Judicial Officer as Vice Chairman and the Administrative Law Judges of the Postal Service. \* \* \*

PART 955—RULES OF PRACTICE  
BEFORE THE BOARD OF CONTRACT  
APPEALS

In § 955.1(b)(2) revise the first sentence to read as follows:

(b) \* \* \*

(2) \* \* \* The Board consists of the Judicial Officer as Chairman, the Associate Judicial Officer as Vice Chairman and the Administrative Law Judges of the Postal Service. \* \* \*

## Title 47—Telecommunication

CHAPTER I—FEDERAL  
COMMUNICATIONS COMMISSION

[SS Docket No. 78-137; FCC 78-855]

NEW PUBLIC COAST STATIONS,  
AERONAUTICAL ADVISORY STA-  
TIONS AND RADIONAVIGATION  
LAND STATIONS IN THE AVIATION  
SERVICESRequiring Notification Upon  
Commencement of Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This rulemaking amends Parts 1, 81, and 87 of the Commission's rules to require notification, upon commencement of service of new public coast stations, aeronautical advisory stations and radionavigation land stations in the Aviation Services except radionavigation land test stations (MTF or OTF). This has been a routine condition of grant for public coast stations. This rulemaking incorporates this condition of grant into the Commission's rules and extends it to aeronautical advisory stations and radionavigation land stations in the Aviation Services except radionavigation land test stations (MTF or OTF).

EFFECTIVE DATE: January 29, 1979.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

John C. K. Hays, Safety and Special Radio Services Bureau (202-632-7197).

SUPPLEMENTARY INFORMATION:

In the matter of amendment of Parts 1, 81 and 87 of the Commission's rules to require notification upon commencement of service of new public coast stations, aeronautical advisory stations and radionavigation land stations in the Aviation Services. Report and order (Proceeding Terminated).

Adopted: December 12, 1978.

Released: December 20, 1978.

By the Commission:

1. The Commission issued a Notice of Proposed Rule Making to amend its rules to require the licensees of new public coast stations, aeronautical advisory stations and radionavigation land stations in the Aviation Services to notify the Commission of the commencement of station operations. Each of these types of stations provides important services to the public, and their frequencies, locations and hours of service are listed in various Government and non-Government publications. Under Commission rules only one station is permitted to operate in the area defined for that type of station, and operations must commence within eight months of the initial grant of the station license. If a station does not commence operations within this time period, the station license becomes invalid and must be returned to the Commission for cancellation. A new applicant then may file for a station license to serve that area.

2. To properly administer these rules and to provide accurate information concerning station operations, it is necessary that the Commission be promptly informed of the commencement of station operations. These new rules require the licensees of these types of stations to notify the Commission in writing when the station is placed in operation. If the licensee fails to notify the Commission within 8 months of commencement of station operation, it is conclusively presumed that the station is not in operation and the license becomes invalid unless the licensee shows "good cause" why notification was not made. A statement of "good cause" is not sufficient if it merely rests on the actions of the licensee or those associated with him. To come within "good cause", the failure to notify must rest with some third party not within the control of the licensee.

3. The notice of Proposed Rule Making was released on May 5, 1978, and was published in the FEDERAL REGISTER on May 8, 1978 (43 F.R. 19690). Timely comments were filed by the Aircraft Owners and Pilots Association (AOPA) and the Aerospace and Flight Test Radio Coordinating Council (AFTRCC).

4. AOPA does not object to these amendments to the rules and recommends that the information on licenses issued and notification of com-

commencement of service for aeronautical advisory stations and radionavigation land stations be coordinated with the Federal Aviation Administration for dissemination to users in the various FAA publications. We believe this recommendation is in the public interest and will adopt it. Presently, we provide the FAA with the information on the station license when the license is issued. In the future, we will send this information to the FAA when the station becomes operational.

5. **AFTTRCC** concurs with the intent of these amendments but requests that we clarify whether licensees of radionavigation land test stations (MTF or OTF) will be required to provide notification of commencement of service. (Radionavigation land test stations are radionavigation land stations used for the testing and calibration of aircraft navigational aids, receiving equipment, and interrogators at predetermined surface locations. A radionavigation land test station (MTF) is a Maintenance Test Facility used for maintenance testing by aircraft radio service personnel. A radionavigation land test station (OTF) is an Operational Test Facility which permits the pilot to check a radionavigation system aboard an aircraft prior to takeoff. The licensees of radionavigation land test stations (MTF or OTF) are generally aircraft and avionics manufacturing and service organizations.)

6. It was not our intent to include radionavigation land test stations (MTF or OTF) within the scope of these amendments. Under our rules more than one of these stations is permitted at a locality and, therefore, licenses may be issued without regard to prior grants provided there is no frequency interference. Moreover, information concerning the operation of these stations is not listed in the publications periodically issued by the FAA to inform pilots. In view of this, we will explicitly exclude radionavigation land test stations (MTF or OTF) from these new rules.

7. For further information on this proceeding, contact John Hays at 202-632-7197.

8. Accordingly, *it is ordered*, That pursuant to authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, Parts 1, 81 and 87 of the Commission's rules are amended effective January 29, 1979, as set forth below.

9. *It is further ordered*, That this proceeding is terminated.

(Sec. 4, 303, 40 *et al.*, as amended, 1086, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS  
COMMISSION,  
WILLIAM J. TRICARICO,  
Secretary.

Parts 1, 81 and 87 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

#### PART 1—PRACTICE AND PROCEDURES

Section 1.932 is revised to read as follows:

§ 1.932 Time in which station must be placed in operation.

(a) For operational-fixed stations authorized to operate on frequencies above 962 MHz, the authorized station must be placed in operation within twelve months from the date of grant or the authorization shall be invalid and must be returned to the Commission for cancellation. For all other stations, the authorized station must be placed in operation within eight months from the date of grant or the authorization shall be invalid and must be returned to the Commission for cancellation.

(b) The licensee of a new public coast station, a new aeronautical advisory station or a new radionavigation land station in the Aviation Services except a radionavigation land test station (MTF or OTF) shall notify the Commission in writing when the station is placed in operation. If the licensee fails to notify this Commission within eight months from the date of grant that the station has been placed in operation, it shall be conclusively presumed the station is not in operation and, thus, the license becomes invalid by operation of paragraph (a) of this section, unless the licensee shows good cause why notification was not made.

#### PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA—PUBLIC FIXED STATIONS

Section 81.61 is revised to read as follows:

§ 81.61 Time in which station must be placed in operation.

(a) In those cases in which a license is issued initially in lieu of a construction permit, if the station authorized is not placed in operation within eight months from the date of the grant, the authorization shall be invalid and must be returned to the Commission for cancellation.

(b) The licensee of a new public coast station shall notify the Commission in writing when the station is placed in operation. If the licensee fails to notify this Commission within eight months from the date of grant that the station has been placed in operation, it shall be conclusively presumed the station is not in operation

and, thus, the license becomes invalid by operation of paragraph (a) of this section, unless the licensee shows good cause why notification was not made.

#### PART 87—AVIATION SERVICES

A new § 87.58 is added to read as follows:

§ 87.58 Time in which station must be placed in operation.

(a) In those cases in which a license is issued initially in lieu of a construction permit, if the station authorized is not placed in operation within eight months from the date of the grant, the authorization shall be invalid and must be returned to the Commission for cancellation.

(b) The licensee of a new aeronautical advisory station or a new radionavigation land station except a radionavigation land test station (MTF or OTF) shall notify the Commission in writing when the station is placed in operation. If the licensee fails to notify this Commission within eight months from the date of grant that the station has been placed in operation, it shall be conclusively presumed the station is not in operation and, thus, the license becomes invalid by operation of paragraph (a) of this section, unless the licensee shows good cause why notification was not made.

##### Title 49—Transportation

#### CHAPTER X—INTERSTATE COMMERCE COMMISSION

##### SUBCHAPTER A—GENERAL RULES AND REGULATIONS

(Second Rev. S.O. No. 1305)

#### PART 1033—CAR SERVICE

##### Distribution of Freight Cars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order, (Second Revised Service Order No. 1305).

SUMMARY: There is a severe shortage of boxcars on The Atchison, Topeka and Santa Fe Railway Company (ATSF) and the Union Pacific Railroad Company (UP). These lines own a group of mechanical refrigerator cars which are now surplus. Because of their limited cubical capacity many shipments that could be transported in these cars cannot be loaded with the minimum quantities specified by the applicable tariffs. Second Revised Service Order No. 1305 authorizes the ATSF and the UP to substitute two of these refrigerator cars for each boxcar

ordered. The minimum weight to be applied to each set of two such cars is the minimum weight applicable to the boxcar ordered. The consent of the shippers is required.

DATED: Effective 12:01 a.m., December 22, 1978. Expires 11:59 p.m., May 31, 1979.

FOR FURTHER INFORMATION CONTACT:

Charles C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, Telephone (202) 275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below: Decided: December 20, 1978.

There is an acute shortage of plain boxcars for loading shipments of various commodities on the lines of The Atchison, Topeka and Santa Fe Railway Company (ATSF) and the Union Pacific Railroad Company (UP). The ATSF and UP have a surplus of mechanical refrigerator cars which are suitable for transporting these products if the use of two such cars for each boxcar ordered is permitted.

The economic loss suffered by shippers dependent on the ATSF and UP for their car supplies can be alleviated by the substitution of sufficient smaller cars for the larger cars ordered to transport the shipments offered.

In the opinion of the Commission, present regulations and practices with respect to the use and supply of boxcars are ineffective to overcome these shortages of boxcars and an emergency exists requiring immediate action. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

*It is ordered,*

§ 1033.1305 Second Revised Service Order No. 1305.

(a) *Distribution of freight cars.* Subject to the concurrence of the shipper The Atchison, Topeka, and Santa Fe Railway Company (ATSF) and the Union Pacific Railroad Company (UP) may substitute two mechanical refrigerator cars identified below for each boxcar ordered:

SFRC-2300-55199, inclusive; UPRX—all cars.

(b) *Exception.* This order shall not apply to shipments subject to tariff provisions which require that cars be furnished by the shipper.

(c) *Rates and Minimum Weights Applicable.* The rates to be applied and the minimum weights applicable to shipments for which cars smaller than those ordered have been furnished

and loaded as authorized by paragraph (a) of this section shall be the rates and minimum weights applicable to the larger cars ordered.

(d) *Billing to be Endorsed.* The carrier substituting smaller cars for larger cars as authorized by paragraph (a) of this section shall place the following endorsement on the bill of lading and on the waybills authorizing movement of the car:

Boxcar Ordered, UPRX or SFRC (—) and UPRX or SFRC (—) furnished authority ICC Second Revised Service Order No. 1305.

(e) *Concurrence of Shipper Required.* Smaller cars shall not be furnished in lieu of cars of greater capacity without the consent of the shipper.

(f) *Exceptions.* Exceptions to this order may be authorized to railroads by the Railroad Service Board, Washington, D.C., 20423. Requests for such exception must be submitted in writing, or confirmed in writing and must clearly state the points at which such exceptions are requested and the reason therefor.

(g) *Rules and Regulations Suspended.* The operation of all rules, regulations, or tariff provisions is suspended insofar as they conflict with the provisions of this order.

(h) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(i) *Effective date.* This order shall become effective at 12:01 a.m., December 22, 1978.

(j) *Expiration date.* This order shall expire at 11:59 p.m., May 31, 1979, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 10304-10305 and 11121-11126)

This order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association. Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael. Member Robert S. Turkington not participating.

NANCY L. WILSON,  
Acting Secretary.

#### [7035-01-M]

#### SUBCHAPTER B—PRACTICE AND PROCEDURE

(Ex Parte No. 55 (Sub-No. 26))

#### PART 1100—RULES OF PRACTICE

##### Protest Standards in Motor Carrier Application Proceedings

AGENCY: Interstate Commerce Commission.

ACTION: Administrative review of final rules

SUMMARY: Several motor carriers have filed petitions seeking administrative review and a stay of the effective date of the final rules adopted in the title proceeding, 43 F.R. 50908 (1978). Each of the material issues raised in these petitions will be treated separately below. The final rules have been modified slightly in some respects.

EFFECTIVE DATE: The rules (43 F.R. 50908 (1978)) as modified by this notice will apply to all motor carrier applications filed on and after March 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, Telephone: 202-275-7292.

SUPPLEMENTARY INFORMATION: Material issues raised in petitioners' pleadings and the Commission's response are delineated below:

1. Do the provisions of subparagraph (e) of Special Rule 247 apply to petitions filed under subparagraph (1), *Intervention with leave in motor carrier application proceedings*? Yes. Petitioners may request oral hearing, cross-examination, or other forms of procedural relief under subparagraph (e). Where material issues are in dispute or where such relief otherwise would be appropriate, it will be granted upon request. The following language is added to subparagraph (1) of Special Rule 247:

(4) Except to the extent that they are inconsistent with the provisions of this subsection, the provisions of subparagraph (e) of this section apply to protests filed under this section.

Paragraph (e)(9) of Special Rule 247 also is modified to read:

(9) In motor carrier application proceedings, the provisions of paragraphs (k) and (l) of this section, to the extent they are inconsistent with this subsection, shall apply.

2. The time limitations provided for filing and responding to appeals under subparagraph (m) are unrealistically brief and tend to favor parties with

<sup>1</sup> Motor Freight Express, Brown Transport Corp., Refrigerated Transport Co., Inc. *et al.*, and Motor Carriers Central Freight Ass'n, *et al.*

representatives based in the District of Columbia area. Although, of necessity, time limits provided in subparagraph (m) are brief, they correspond with time limits now provided for appeals from intervention decisions. We agree, however, that parties with representatives in the District of Columbia area may be favored. To offset this advantage, service and filing dates will be measured from the date material mailed from or to the Commission is postmarked. The following sentence will be added to subparagraph (m) of Special Rule 247:

For purposes of measuring time periods under this subparagraph, the date on which material is postmarked will govern.

3. Will joint line carriers which otherwise qualify under the provisions of subparagraph (k) be permitted to intervene automatically in an application proceeding? Yes. Subparagraph (k) of Special Rule 247 is revised to read as follows:

(k) *Intervention without leave in motor carrier application proceedings.* Intervention without leave will be allowed in motor carrier application proceedings by persons supporting the application and by a carrier (or carriers performing a joint line operation) that files, within 30 days of the date of publication of application in the FEDERAL REGISTER, a petition showing that it

4. What is "within the scope of the application" where applications for regular route authority are involved? Since regular route authorities may be tacked, it has been argued that the true scope of an application cannot always be determined from the published notice. Where tacking is contemplated, however, applicant must so indicate in its application. This will be noted in the FEDERAL REGISTER notice so that the true scope of an application may be determined by interested persons who then may petition for intervention with or without leave, as appropriate.

5. How can a carrier not qualified to intervene automatically under subparagraph (k) inquire into the bona fides of an application? Any questions with respect to a particular application may be raised in a petition for intervention with leave. These questions will be examined thoroughly and, where it ap-

pears that intervention is necessary to resolve them, it will be granted.

6. Appendix II to our previously final rules in this proceeding was incorrectly entitled "Petition to Intervene without leave." The title of Appendix II should be corrected to read: "Petition to Intervene with leave."

7. *Effective date.* Additional time is required to enable the Commission to establish internal procedures for processing intervention petitions. Accordingly, the final rules (43 F.R. 50908 (1978)) as modified by this notice will apply to all motor carrier applications filed on and after March 1, 1979.

Decided December 18, 1978.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham, and Clapp, Commissioner Stafford dissenting.

NANCY L. WILSON,  
Acting Secretary.

Commissioner Stafford, dissenting: I would grant the petitions and stay the decision.

#### Title 50—Wildlife and Fisheries

### CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

#### PART 33—SPORT FISHING

#### Opening of Tamarac National Wildlife Refuge, Minnesota, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Tamarac National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource and will provide additional recreational opportunity to the public.

DATES: January 1, 1979, through December 31, 1979, in accordance with all applicable Minnesota state fishing laws.

#### FOR FURTHER INFORMATION CONTACT:

Omer N. Swenson, Refuge Manager, Tamarac National Wildlife Refuge, Rochert, MN 56578, Telephone Number 218-847-4355

#### SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the Tamarac National Wildlife Refuge, Minnesota, only on the areas designated by signs and maps as being open to fishing. These areas comprising 13,675 acres are delineated on maps available at the refuge headquarters and from the Office of the Regional Director, Region 3, U.S. Fish & Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Sport Fishing shall be in accordance with all applicable State regulations subject to the following conditions:

1. Only that part of Tamarac Lake north of the water control dike is open during all regular state fishing seasons.

2. Big Egg, Two Island, Wauboose, Lost, and Blackbird Lakes are open only from the state seasons's opening in May through Labor Day.

3. Bank fishing 50 yards either side of the Ottertail River bridges on County Roads No. 26 and No. 126 is the only stream fishing permitted.

4. No areas other than those previously listed are open for fishing at any time.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish & Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

OMER N. SWENSON,  
Refuge Manager, Tamarac National Wildlife Refuge Rochert,  
MN 56578.

DECEMBER 15, 1978.

[FR Doc. 78-35976 Filed 12-26-78; 8:45 am]

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[6714-01-M]

### FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Chapter III]

#### INTERNATIONAL BANKING ACT Implementation of Provisions

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The FDIC is considering a series of amendments to its current regulations and a number of new regulations which will implement certain provisions of the International Banking Act of 1978. (Pub. L. 95-369, 92 Stat. 607, 12 U.S.C. 3101 *et seq.*). Under the International Banking Act, foreign banks operating in the United States through branches, agencies or commercial lending companies are subject to Federal supervision and regulation similar to that imposed on like activities of domestic banks.

DATE: Comments must be received by FDIC on or before January 19, 1979.

ADDRESS: Comments should be addressed to Alan R. Miller, Executive Secretary, FDIC, 550 17th Street, N.W., Washington, D.C. 20429.

#### FOR FURTHER INFORMATION CONTACT:

Edward T. Lutz, Examination Specialist (telephone 202-389-4389), or Margaret M. Olsen, Attorney (telephone 202-389-4433).

SUPPLEMENTARY INFORMATION: The International Banking Act, which became law on September 17, 1978, requires certain branches of foreign banks to obtain Federal deposit insurance. Other branches may apply for deposit insurance if they so desire. A number of issues have been raised regarding the criteria for mandatory deposit insurance, the mechanism for providing deposit insurance and the asset pledge requirements for insured branches. FDIC's staff has considered these issues and has reached preliminary conclusions regarding alternative courses of action. However, since the International Banking Act has just become law and the staff lacks experience with its provisions, FDIC has decided to invite public comment on

both the issues raised and the alternatives presented.

All communications received by FDIC on or before January 19, 1979, will be considered by FDIC's Board of Directors before taking action on any changes in FDIC's current regulations or adopting any new regulations. The alternatives discussed in this notice may be changed or possibly eliminated, and others adopted, in the light of the comments received. All comments submitted will be available in the office of FDIC's Executive Secretary, Room 6108, 550 17th Street, N.W., Washington, D.C. 20429, both before and after the closing date for comments, for review by interested persons. If FDIC's Board of Directors decides to proceed further after considering the comments received in response to this notice, FDIC will issue a notice of proposed rulemaking.

#### MANDATORY DEPOSIT INSURANCE

Sections 6 (a) and (b) of the Act distinguish between the two types of domestic branches of foreign banks: State branches and Federal branches. State branches will be subject to mandatory insurance if they accept deposits of less than \$100,000 and are located in States that require State chartered banks to obtain deposit insurance. Federal branches will be required to have deposit insurance if they accept deposits of less than \$100,000. However, determinations may be made by the FDIC in the case of State branches and by the Office of the Comptroller of the Currency (OCC) in the case of Federal branches that the acceptance of deposits of less than \$100,000 may not constitute domestic retail deposit activity requiring deposit insurance.

The staff has identified several pivotal issues in implementing the mandatory insurance provisions, and recommends the following approaches toward their resolution.

#### ISSUE 1—THE MEANING OF THE PHRASE "DEPOSITS OF LESS THAN \$100,000"

The Act does not define the term "deposits of less than \$100,000." There are several alternatives for interpreting the \$100,000 limitation:

#### Alternatives:

- 1—The initial deposit;
- 2—A minimum account balance;
- 3—An average account balance; or

4—Each deposit without regard to the existing account balance.

#### Recommendations:

The staff recommends the adoption of Alternative 1 as the standard for determining whether the dollar limitation has been met. This approach would allow the account balance to subsequently decline below the \$100,000 limitation and permit the acceptance of additional deposits of less than \$100,000 without triggering the mandatory insurance provision. Acceptance of an initial deposit of less than \$100,000 would require deposit insurance unless the FDIC finds that the deposit does not qualify as "domestic retail deposit activity requiring deposit insurance." The other alternatives might either unduly restrict the business affairs of the depositor and the branch or introduce an unnecessary degree of complexity and burden in administering and complying with the statute. If the depositor elects to place the initial deposit of \$100,000 or more in different types of accounts (e.g., demand, savings, or time) the deposit in each type of account should be aggregated provided the deposit is held in the same right and capacity. However, in keeping with historical treatment of insured deposits, deposits not held in the same right and capacity would not be aggregated.

#### ISSUE 2—DEFINITION OF THE PHRASE "DOMESTIC RETAIL DEPOSIT ACTIVITY REQUIRING DEPOSIT INSURANCE"

Although a branch accepts deposits of less than \$100,000, it may be exempted from mandatory insurance if it does not engage in a domestic retail deposit activity requiring deposit insurance protection. In determining whether to grant an exemption, the FDIC must consider the size and nature of the depositor and the size and nature of the deposit account.

The Act's legislative history indicates that Congress was primarily concerned with affording deposit insurance protection to individuals who are citizens or residents of the United States. Similar concern was not voiced for domestic commercial enterprises. Nevertheless, the individual/commercial dichotomy raises difficult public policy decisions relative to:

1. Accounts of officers of corporate customers, embassy or consulate employees, and branch employees; and

## 2. Accounts of small domestic business concerns.

### Recommendations:

With respect to category 1, the staff is aware that branches of foreign banks may hold these types of accounts in nominal volume for business reasons or they may hold them as an accommodation to these individuals. These classes of depositors would appear to be within the definition of a citizen or resident of the United States. The question is whether these deposits would signify domestic retail deposit activity. The staff seriously considered excluding these classes of depositors from the definition of domestic retail deposit activity; however, in the staff's opinion, congressional intent to afford deposit insurance protection to domestic individuals may render this approach inconsistent with the purposes of the Act. Accordingly, the staff recommends the inclusion of category 1 depositors in the definition of domestic retail deposit activity.

With respect to category 2, the staff believes that deposits of small domestic corporations, partnerships, and other business entities should be afforded the benefits of deposit insurance. In a number of cases, such businesses essentially represent the economic endeavors of one or a few individuals who, consistent with congressional intent, warrant deposit insurance protection. In addressing this issue, the staff has been unable to find a clear-cut, universally accepted definition of a small business. Accordingly, the staff recommends that, with the exception of interbank deposits, foreign branches' acceptance of initial deposits of less than \$100,000 from domestic corporations, partnerships, and other business entities would mandate deposit insurance.

The staff has formulated the following list of depositors who would not appear to require deposit insurance protection, and the staff recommends that acceptance of initial deposits of less than \$100,000 from these classes of depositors would, by regulation, be automatically exempt from the mandatory insurance requirements:

1. Foreign corporations, partnerships, and other business entities organized and existing under the laws of a foreign country;
2. Foreign governments, any political subdivision and agencies thereof;
3. International agencies including but not limited to United Nations, World Bank, World Health Organization, International Monetary Fund, and Inter-American Development Bank;
4. The U.S. Government, any State Government, any political subdivision and agencies thereof;

5. Natural persons who are citizens of a country other than the United States and are not residents of the United States;

6. Any other person if the deposit (a) is to be transmitted abroad; (b) is to provide collateral or payment for extensions of credit by the branch; (c) represents proceeds of collections abroad that are to be used to pay for goods exported or imported or for other direct costs of export or import, or periodically transferred to the depositor's account at another financial institution; or (d) represents proceeds of extensions of credit by the branch;

7. Officer checks, expense checks, or payroll checks issued by the branch; and

8. Deposits of domestic commercial banks.

Specific comment is requested on whether additional classes of depositors should be included in the foregoing list.

### ISSUE 3—DEPOSIT INSURANCE REQUIREMENTS OF STATE BANKING DEPARTMENTS

Pursuant to section 6(b) of the Act, a foreign branch may be subject to mandatory deposit insurance if it accepts deposits of less than \$100,000 and is located in any State in which the deposits of a bank organized and existing under the laws of that State are required to be insured. In interpreting this portion of the Act, the staff has identified two possible approaches to defining the term "requires deposit insurance for State chartered banks":

#### Alternatives:

- 1—A requirement by statute or regulation; or
- 2—A requirement by statute, regulation, or consistently applied policy.

Based on written inquiries to the 50 State Banking Departments, most States require State chartered banks to obtain deposit insurance. However, the large majority of States require deposit insurance as a matter of policy rather than by statute or regulation.

The staff believes that the purpose of this provision was to provide for equal treatment of State licensed foreign branches and State chartered banks operating in the same State. In the staff's opinion, a statute or regulation is clearly a State requirement within the meaning of this provision. However, there is a question as to whether a policy requiring deposit insurance for State chartered banks should be considered a requirement under the Act.

#### Recommendation:

The staff recommends the adoption of Alternative 2. The staff has concluded that Banking Department and Bank Commissioner policies are bind-

ing on State chartered banks and, as such, should be considered as a requirement for the purposes of the Act. Accordingly, the staff recommends that branches of foreign banks accepting initial deposits of less than \$100,000 shall be required to obtain deposit insurance if State chartered banks are required to be insured pursuant to statute, regulation, or policy of the State Banking Department or the Bank Commissioner.

### PLEDGE OF ASSETS—SURETY BOND REQUIREMENTS

Section 6(c)(1) of the Act states that "Before any branch of a foreign bank becomes an insured branch, the bank shall deliver to the FDIC or as the FDIC may direct a surety bond, a pledge of assets, or both, in such amounts and of such types as the FDIC may require or approve, for the purpose set forth in paragraph (4) of this subsection."

Paragraph (4) states, "The purpose of surety bonds and pledges of assets required under this subsection is to provide protection to the deposit insurance fund against the risks entailed in insuring the domestic deposits of a foreign bank whose activities, assets, and personnel are in large part outside the jurisdiction of the United States. In the implementation of its authority under this subsection, however, the FDIC shall endeavor to avoid imposing requirements on such banks which would unnecessarily place them at a competitive disadvantage in relation to domestically incorporated banks."

This section of the Act raises a number of policy issues. The issues and the results of staff deliberation follow.

### ISSUE 1—USE OF THE PROCEEDS OF THE PLEDGED ASSETS/SURETY BOND

It may be that the language of the statute and the legislative history suggest that the FDIC should assume a preferred position vis-a-vis the pledged assets/surety bonds. Therefore, in the event of liquidation of an insured branch, the FDIC would hold these assets to protect the deposit insurance fund from a loss of principal on cash disbursements and take these assets prior in time and right to any creditor of the branch.

An alternative approach, and one apparently in keeping with the concept of national treatment as well as equitable treatment of bona fide creditors, is that the proceeds derived from the pledge of assets/surety bond should be included in the receivership estate and should be shared pro rata with uninsured depositors and general creditors. This action would be consistent with the methodology employed in domestic bank liquidations. It is not clear under the Act whether the FDIC

should depart from methods employed in domestic bank liquidations in attempting to prevent loss to the insurance fund. Nevertheless, adherence to methods used in domestic bank liquidations raises the possibility that overseas creditors of the parent bank, assuming a simultaneous failure of the parent institution, in filing claims against the branch receivership estate might gain access to the pledge of assets/surety bonds, thereby diminishing the return to the FDIC and the other creditors of the domestic branch. Staff discussion has identified three possible solutions to this issue.

#### Alternatives:

- 1—Assume a preferred interest solely for the benefit of the FDIC;
- 2—Share the proceeds of pledged assets/surety bonds with domestic creditors; or
- 3—Share the proceeds with all creditors.

By choosing the first alternative, the FDIC would be certain of recovering a portion of its cash disbursement in connection with a foreign branch liquidation. This approach would exclude the claims of creditors of the parent institution from this portion of the branch receivership estate. This alternative would work to the detriment of uninsured depositors and other general creditors by excluding their claims from the pool of assets/bonds. However, it is believed by some staff members that this approach would be consistent with the concept of providing some measure of additional protection to the deposit insurance fund.

Alternative 2 would require the sharing of the proceeds with domestic creditors only and would provide a measure of protection against overseas claims of parent bank creditors. It also would ensure some recovery for domestic uninsured depositors and general creditors and would be more consistent with the disposition of the receivership estate in domestic bank failures. The third alternative would require a pro rata sharing of the pledge with all creditors but could result in overseas creditors of the parent bank gaining access to these assets.

#### Recommendations:

The staff recommends the adoption of Alternative 1. It is believed that by adopting this approach, the percentage of assets pledged to the FDIC could be held to a lower level.

### ISSUE 2—AMOUNT OF THE PLEDGE OF ASSETS/SURETY BONDS

The language of section 6(c)(1) is sufficiently broad in scope by virtue of the clause "in such amounts and of such types as the Corporation may require or approve" to include the extremes of a zero pledge or a

pledge equivalent to 100 percent of the FDIC's insured deposit liability or any amount in between. In evaluating this matter, FDIC staff has carefully considered, among other things, the testimony in the United States House of Representatives and the United States Senate, the requirements imposed by State Banking Departments, and the requirements imposed on American banks operating abroad. Given the unique risks of insuring the deposits of an entity whose parent is beyond the FDIC's jurisdiction, there is a clear need for some additional measure of protection in the form of a pledge of assets or surety bonds. The staff is keenly aware that a stringent requirement could severely hamper the operations of the branch.

#### Recommendations:

The staff recommends a pledge of assets linked to the total liabilities of the branch (excluding amounts due to related entities). The staff further recommends a minimum pledge requirement in the range of 5 to 8 percent of total liabilities, with a final decision on a fixed percentage being deferred pending the resolution of the issues relating to the use of the proceeds of the pledged assets/surety bond and the maintenance of assets payable in the United States (see Issue 3 which follows). The Board of Directors will retain the prerogative to require additional amounts as circumstances warrant. In the case of newly organized branches, the requisite pledge would be tied to projected total liabilities at the end of the first year of operations, with the FDIC reserving the right to request additional amounts if projections are exceeded.

### ISSUE 3—ASSET MAINTENANCE RULE

Although the pledge of assets provides a measure of protection to the deposit insurance fund, these amounts would be insufficient to meet all creditor claims in the event of liquidation. As such, there is a need to impose additional requirements to help ensure that sufficient assets payable in the United States are maintained to meet this contingency. A number of States have provided for this concern by imposing, by statute or regulation, the New York 108 percent rule or a comparable mechanism.

#### Recommendation:

The staff recommends the adoption of a regulation imposing requirements similar to the New York State 108 percent rule for insured foreign branches. Specific comments are requested on this matter.

### ISSUE 4—TERMS OF THE PLEDGE OF ASSETS

The staff believes that when the FDIC accepts asset pledges the quality and marketability of assets pledged as

well as the assurance of payment within the United States should be emphasized. The staff recommends that cash deposits payable in the United States (including negotiable certificates of deposits from domestic commercial banks and domestic branches of foreign banks not directly related to the insured branch), interest bearing bonds, notes, and debentures of the United States or of any agency or instrumentality thereof or guaranteed by the United States would be acceptable. The staff favors the pledging of commercial paper or bankers acceptances provided they meet credit quality standards (restricting acceptances to those payable at domestic commercial banks and domestic branches of foreign banks consistent with the concept of ensuring that payment is made within the United States). With respect to State, county, and municipal obligations, acceptable pledges should be restricted to obligations rated "A" or better by Moody's or Standard and Poors (conflicts in ratings should be resolved in favor of the lower of the two ratings). Finally, obligations of Asian Development Bank, Inter-American Development Bank, and the International Bank for Reconstruction and Development (World Bank) are considered acceptable asset pledges.

The staff recommends that pledged assets be held under the control of the appropriate Regional Director at an approved depository ordinarily within the city where the branch is located. Federal branches are specifically permitted to maintain deposits or investment securities with a member bank designated by the foreign branch (see section 4(g)(1) of the Act). Accordingly, it is logical to follow similar procedures for insured State branches but also to allow insured State nonmember banks to function as the depository. Safekeeping fees would be paid by the insured branch.

Insured branches should be permitted to substitute approved types of assets (as described above) as they may desire. However, the assets may be released only with the signature of the Regional Director or the Regional Director's designee.

Interest on pledged assets should accrue to the insured branch.

The staff recommends that asset pledges be a contractual obligation between the parent bank and the FDIC. The contract should specify matters including but not limited to the purpose of the pledge, the types of acceptable assets, the rights of substitution, as well as stipulation of the distribution of proceeds in the event of liquidation.

# ISSUE 8—STATE BANKING DEPARTMENT PLEDGE OF ASSET REQUIREMENTS

The staff is aware that the States where foreign branches are situated have pledge-of-asset requirements for the purpose of ensuring that depositors and other domestic creditors are protected in the event of a branch failure. This raises the issue of whether foreign bank branches must meet the pledging requirements of both the States and the FDIC.

The staff believes that separate pledges to State Banking Departments and to the FDIC could result in a substantial burden to foreign branch operations and, to the extent practicable, should be avoided. The staff also believes the primary purpose of a State Banking Department's pledge of asset requirements (e.g., protection of depositors) is largely fulfilled by the branch's acquisition of deposit insurance.

## Recommendation:

The staff recommends consulting with the State Banking Departments on this matter with the objective of determining whether the aforementioned pledge of assets formula can serve a dual purpose.

# ISSUE 6—SURETY BOND FEASIBILITY

Based on preliminary research conducted by FDIC staff, bonding companies have shown very little interest in underwriting these types of instruments. Therefore, the staff does not anticipate the use of surety bonds, at least initially. Preliminary views of the surety bond option versus pledging assets point to the necessity of evaluating the positive and negative characteristics of the instruments (i.e., bonds are generally less liquid and will involve analysis of the financial standing of the bonding company). Nevertheless surety bonds may be advantageous in a liquidation because they represent an item of value in addition to assets held in the receivership estate of a failed branch. In summary, it is difficult at this time to render a judgment on how the magnitude of bonds and assets should be related.

## Recommendation:

In view of the current lack of experience with these instruments, the staff recommends that regulations covering this topic provide the Board of Directors flexibility in determining suitable sureties and terms and amounts of such instruments. Specific comments are invited on this subject.

# DEFINITION OF INSURED DEPOSIT

Section 6(c)(4) amends section 3(m) of the Federal Deposit Insurance Act by adding the following to the definition of insured deposit:

"(2) In the case of any deposit in a branch of a foreign bank, the term 'insured deposit' means an insured deposit as defined in paragraph (1) of this subsection which—

"(A) Is payable in the United States to—

"(i) An individual who is a citizen or resident of the United States;

"(ii) A partnership, corporation, trust or other legally cognizable entity created under the laws of the United States or any State and having its principal place of business within the United States or any State; or

"(iii) An individual, partnership, corporation, trust, or other legally cognizable entity which is determined by the Board of Directors in accordance with its regulations to have such business or financial relationships in the United States as to make the insurance of such deposit consistent with the purposes of this Act; and

"(B) Meets any other criteria prescribed by the Board of Directors by regulation as necessary or appropriate in its judgment to carry out the purposes of this Act or to facilitate the administration thereof."

The foregoing passages provide the FDIC with wide latitude in defining an insured deposit. The statutory language explicitly provides for deposit insurance only if the deposit is payable in the United States to a domestic citizen, resident, or business entity. The accounts of nondomestic individuals or business entities may, at the Board of Directors' discretion, be considered insured deposits provided the depositor has sufficient business and financial relationships to warrant deposit insurance coverage consistent with the purposes of the Act. The discretion afforded to the Board of Directors to insure only certain accounts is in contrast to insurance afforded deposits in domestic banks where all deposits are insured (to the prescribed maximum amount) without regard to the origin of the deposit.

In analyzing this issue, the staff has identified two possible courses of action:

## Alternatives:

1—Restrict the definition of insured deposits to domestic citizens, residents, and business entities and to foreign depositors with sufficient financial nexus to warrant deposit insurance coverage; or

2—Insure all deposits of the branch.

## Recommendations:

In weighing these alternatives, the staff has considered the fact that Alternative 1 requires a workable definition of the terms resident and sufficient financial nexus to the United States. The adoption of this alternative would require the formulation of control procedures within the branch

to ensure that new deposits are properly segregated as insured and uninsured. A particularly difficult problem would be changes in the status of the depositor. Additionally, there would be a need for a reporting and record keeping system to ensure that all depositors requiring deposit insurance are properly categorized for assessment purposes. Finally, the staff believes that this approach would be contrary to the theme of national treatment, one of the primary purposes of the Act, because it would treat deposits of foreign branches differently than deposits of domestic banks.

The staff recommends the adoption of Alternative 2. Alternative 2 would eliminate the need to define certain terminology and significantly reduce the need for control and reporting mechanisms. It is the staff's view that the Board of Directors, in exercising its discretion, may insure all foreign deposits. This approach would place foreign branches on an equal footing with domestic bank counterparts.

In the event of an imminent failure of an insured branch and its parent bank, there is concern for a massive shift of deposits from the parent to the branch for the sole purpose of obtaining the benefits of deposit insurance protection. The staff recommends that the regulations give the FDIC flexibility in determining whether deposits placed in the branch shortly before its closing are bona fide and warrant deposit insurance coverage.

# ASSESSMENTS

Consistent with the proposed position on insured deposits, the staff recommends that assessments be paid on the entire deposit structure of the branch in accordance with the rules prescribed in Part 327 of the FDIC's Rules and Regulations. This approach would place foreign branches on an equal footing vis-a-vis domestic bank counterparts.

# REPORTING

The Act amends section 7(a)(1) of the Federal Deposit Insurance Act by requiring each foreign bank with an insured branch to file reports of condition with the FDIC in a manner similar to reports required by domestic banks. In developing required reports, the FDIC is authorized to differentiate between domestic banks and foreign banks to the extent necessary to avoid hardship to foreign banks without compromising regulatory effectiveness.

Staff members of the three Federal bank regulatory agencies are working toward the development of a uniform reporting system for domestic operations of foreign banks. Pursuant to

section 309(4)(b) of the FDIC's Rules and Regulations, domestic bank reports of condition may be made publicly available at the FDIC's discretion. Presently, the FDIC makes all such reports available upon request. The staff is cognizant of the concern expressed by foreign bankers that disclosure of condition reports of foreign branches may be misleading because they reflect only a segment of the entire enterprise. Specific comments are requested on whether or not these reports should be publicly available.

By direction of the Board of Directors dated December 20, 1978.

FEDERAL DEPOSIT INSURANCE  
CORPORATION,  
ALAN R. MILLER,  
Executive Secretary.

# FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 337]

# UNSAFE AND UNSOUND BANKING PRACTICES

## Insider Transactions

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Withdrawal of proposed amendments to regulation.

SUMMARY: The FDIC is withdrawing from consideration the proposed amendments to its regulation dealing with insider transactions (12 CFR 337.3) which were published for comment on January 31, 1978 (43 FR 4051). The FDIC is taking this action because the recently enacted Financial Institutions Regulatory and Interest Rate Control Act of 1978 (FIRIRCA) preempts much of the subject matter of the proposed amendments.

DATE: Effective December 27, 1978.

Alan J. Kaplan, Senior Attorney, Legal Division, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429, telephone (202) 389-4433.

SUPPLEMENTARY INFORMATION: On January 31, 1978, the FDIC published for comment in the FEDERAL REGISTER proposed amendments to its regulation dealing with insider transactions of insured State nonmember banks. The insider transaction regulation, which has been in effect since May 1, 1976, is intended to minimize abusive self-dealing and overreaching by bank insiders through the establishment of procedures designed to ensure that bank boards of directors supervise insider transactions effectively and to better enable FDIC examiners to identify and analyze insider transactions.

Among other things, the proposed amendments would have specified the circumstances under which the FDIC considers an insider transaction to be an unsafe or unsound banking practice, prescribed specific reporting and review requirements with respect to correspondent accounts and certain bank stock loans, and made certain other language changes for purposes of clarity.

As a result of the recent enactment of FIRIRCA, the FDIC is reviewing its insider transaction regulation and the proposed amendments thereto. The initial review indicates that certain provisions of FIRIRCA preempt portions of the proposed amendments.

For example, the proposed amendment relating to correspondent accounts would have required each insider to report in writing to the bank's board of directors all bank stock loans made to the insider and certain of the insider's relatives by a financial institution with which the bank maintains a correspondent account. The bank's board of directors would have been required to review, at least annually, all of the bank's correspondent accounts to ensure their fairness to the bank.

FIRIRCA's provisions relating to correspondent accounts go much further. FIRIRCA prohibits all preferential loans to insiders (executive officers, directors, and 10% shareholders) of correspondent banks, authorizes the FDIC to collect substantial civil fines for violations, and imposes certain reporting requirements on banks and their insiders regarding loans from correspondent banks. It is therefore unnecessary for the FDIC to adopt its proposed amendments relating to correspondent accounts.

Similarly, FIRIRCA covers a number of other issues addressed in the proposed amendments (e.g., prior board of directors' approval of certain insider loans; definitional description of "preferential" loans; and enforcement provisions).

In view of the foregoing, the FDIC has determined that rulemaking action on the proposed amendments is not appropriate at the present time and that the proposed amendments should be withdrawn. The withdrawal of this proposal, however, does not preclude the FDIC from issuing similar proposals in the future or commit the FDIC to any course of action.

Accordingly, the proposed amendments to 12 CFR 337.3 which were published for comment in the FEDERAL REGISTER on January 31, 1978 (43 FR 4051) are hereby withdrawn.

By order of the Board of Directors, dated December 20, 1978.

FEDERAL DEPOSIT INSURANCE  
CORPORATION,  
ALAN R. MILLER,  
Executive Secretary.

# CIVIL AERONAUTICS BOARD

[PDR-59; Procedural Regulations Docket  
34304; Dated: December 21, 1978]

[14 CFR Parts 302 and 321]

# RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

## UNUSED AUTHORITY PROCEDURES

### Notice of Proposed Rulemaking

DECEMBER 21, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: The CAB proposes substantial revisions of the rules governing unused authority under the Airline Deregulation Act of 1978. The changes include (1) new names, format requirements, and filing deadlines for certain existing types of documents; (2) new types of documents; (3) a drawing or lottery to establish priorities among applications and incumbent carriers' notices of intent to begin service that are filed on the same day; (4) procedures for disposition of these filings; and (5) interpretations of some provisions of the Act.

DATE: Comments by January 4, 1979. Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Send 20 copies of comments to Docket 34304, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428 as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Richard B. Dyson, Associate General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428; (202) 673-5442.

SUPPLEMENTARY INFORMATION: The unused or "dormant" authority provision of the Federal Aviation Act, section 401(d)(5), was added by the Airline Deregulation Act of 1978, Pub. L. 95-504. In anticipation of applications, and incumbent carriers' notices of intent to begin service, to be filed upon the signing of the Deregulation

Act, we established rules governing unused authority proceedings. These rules are found in Subpart R of 14 CFR Part 302, *Rules of Practice in Economic Proceedings*. (PR-180, October 18, 1978; 43 FR 49529, October 24, 1978.) We later amended Subpart R to allow applications to include page citations instead of actual copies of Official Airline Guide pages used to demonstrate dormancy. (PR-183, November 2, 1978; 43 FR 52021, November 8, 1978.)

This notice proposes substantial revisions of the unused authority rules. In connection with these revisions, the rules would be moved from Subpart R to a new Part 321. The changes include new names, format requirements, and filing deadlines for certain existing types of documents; new types of documents, with corresponding deadlines and service requirements; a drawing or lottery to establish priorities among applications and incumbents' notices filed on the same day; procedures for disposition of these filings; and interpretations of some provisions of the Act.

Carriers that already have been awarded new authority under the unused authority provisions have in a majority of cases until January 20, 1979, to begin service. A new round of applications is likely after that date, since evidently more authority has been granted than can actually be exercised with the aircraft now available. So that we may take final action on this proposal before January 20, comments are due on January 4. Because of the need to provide functioning and fully understood procedures as soon as possible, no extensions of the comment period will be granted.

In the discussion that follows, "subparagraph (A) market" refers to a pair of points governed by subparagraph (A) of section 401(d)(5), where the dormant carrier has a year-round certificate and the points are actually receiving service from not more than one other carrier. Similarly, "subparagraph (B) market" means a pair of points governed by section 401(d)(5)(B), where the dormant carrier has a seasonal certificate and the points are actually receiving service from not more than one other carrier. "Subparagraph (D) markets" and "subparagraph (E) markets", correspondingly, are those receiving actual service from two or more carriers. In the former, the dormant certificates are for year-round service, while in the latter, they are seasonal. The Act prescribes different treatment for each of these types of unused authority.

#### CHANGES FOR EXISTING TYPES OF DOCUMENTS

All documents. All documents would be required to show on their covers which subparagraph of section

401(d)(5) applied to the markets involved. One document could address multiple markets as long as they were covered by the same subparagraph.

Applications. The proposed Part 321 would prescribe a uniform format for applications for unused authority, so that they can be entered quickly into the Board's computer system. The basic information about the markets where authority is sought would be included in a table with a separate, numbered line for each market (pair of points). The lines would be alphabetized by market, and each would contain the following items: market, 26-week period or season relied on, active carriers, inactive carriers, inactive period, and (for subparagraph (A) markets only) whether or not a suspension is requested. Air carriers would be identified by the Official Airline Guide's 2-letter carrier codes. The columns of the table would be labeled accordingly. The method of identifying the cities in a market would differ from that of the present rule in that the Official Airline Guide's 3-letter city codes would be used instead of airport codes, where these differ. (At most cities, they are the same.) At a city served by two or more airports, authority to serve the city ordinarily carries with it authority to serve any or all of its airports. Where the inactive carrier's authority at a city is limited to a particular airport, that limitation would be shown by putting the airport code in parentheses after the city code, e.g., "WAS(IAD)" or "CHI(MDW)". Points that are invariably hyphenated, like Minneapolis-St. Paul, would be shown by a single 3-letter city code (MSP). At points that are sometimes hyphenated and sometimes not, like San Francisco, Oakland, and San Jose, the authority that can be applied for is defined by the inactive carrier's certificate, and would be shown by listing the city codes of the hyphenated cities in the order the cities appear in the certificate, e.g., "SFO/OAK/SJC" if the inactive carrier's certificate hyphenates all three of these cities.

In addition to aiding computer processing, this change in the identification of markets would serve to emphasize "points" (cities or groupings of cities) rather than particular airports, consistently with what we believe to be the intent of Congress in section 401(d)(5). Since what is being awarded under this provision is nonstop authority based on that not used by a certificated carrier, the terms of the incumbent's certificate defining the nonstop authority are controlling.

Citations of the relevant pages from the Official Airline Guide would be included in a separate table in the application, as shown in the example set out in proposed § 321.11(c).

Amendments to applications would be required to restate the relevant lines from the original application that are to be amended, with corrected entries underlined. An amendment could delete markets or correct errors, but not add markets.

It is also proposed that a minimum amount of additional information be required on all applications, so that the Board can verify the certification that the applicant's aircraft meet FAA specifications. This might consist of the aircraft description set forth in proposed § 321.12 for applications requesting suspension of incumbent authority, or some similar data. Comments are requested on what might be the best form and content of this information.

Answers to applications. Answers would include tables using the line format discussed above for applications, with challenged items underlined. There would also be three new columns, showing the applicant, docket number, and code numbers for the type of objection raised by the answer. The code numbers appear in proposed § 321.13(f). The objections would be explained in text to the extent necessary.

Answers would have to be served on the applicant and on those persons who were required to be served by the applicant. For subparagraph (A) and (B) markets, the filing deadline would continue to be 7 calendar days after the application was filed, since section 401(d)(5)(C) requires the Board to act on the application within 15 days. For subparagraph (D) and (E) markets, where the Board has 60 days to act, answers would be due within 14 days.

Incumbent carriers' notices of intent to begin service. These notices, filed under section 401(d)(5)(G), would be retitled "Incumbent's Notice of Intent to Exercise Unused Authority". Each incumbent's notice would be required to include a table similar to that in applications and answers. Each line of the table would identify the market, the 26-week period or season upon which the notice is based, and the date by which the carrier intends to begin service. These notices could be amended in the same manner as applications.

Notices of inauguration of service. The present rule requires these notices to be filed within 7 days after the beginning of service by applicants that are awarded new authority. The proposed rule would extend this requirement to incumbent carriers that have previously filed notices of intent to exercise unused authority, other than carriers whose earlier notices have stated that service had already begun. The present rule requires three copies of these notices to be filed with the Board. The U.S. Postal Service has informally asked the Board to require

that these notices also be sent to it, so that it will be informed of potential new sources for the transportation of mail. This proposal includes such a requirement.

#### NEW TYPES OF DOCUMENTS

Replies to answers to applications. Any person could file a reply to an answer. Replies would be served on the person who filed the answer and everyone whom that person was required to serve. In view of the 15-day limit for Board action in subparagraph (A) and (B) markets, replies would have to be filed within 10 days after the application (i.e., 3 days after answers), and would be considered by the Board only to the extent practicable. In subparagraph (D) and (E) markets, replies would be due 28 days after the application (i.e., 14 days after answers). In these cases, if any answer alleged that the grant of the application would be inconsistent with the public convenience and necessity, the applicant's reply would have to indicate, by frequency and equipment type, what service it would provide and what service (if any) it would discontinue in order to make aircraft available for the new service. This information will enable interested persons to submit informed comments in accordance with section 401(d)(5)(F), which requires a comment period before Board disposition of applications in subparagraph (D) and (E) markets.

Responses to replies. Any person could file one of these further responsive documents for a subparagraph (D) or (E) market. They would be due within 42 days after the application (i.e., 14 days after replies). The opportunity to file these documents would satisfy the requirement of section 401(d)(5)(F) to allow comments.

Answers to incumbents' notices. Since many incumbents' notices were contested by applicants, proposed § 321.22 would formalize these challenges. Any person could file an answer to an incumbent's notice, which would be due within 7 days after the notice for subparagraph (A) and (B) markets and within 14 days for subparagraph (D) and (E) markets. It would be served as if it were an answer to an application. The answer would include a table following the line format of the notice, with two extra columns: one to identify the filer of the notice, and one listing the basis or bases for the objection to the notice. Objections would be coded as follows: "NX": The notice does not comply with section 401(d)(5)(G) or Part 321. "NE": The filer of the notice already filed another one for the same market. "NA": A valid application for the filer's unused authority was filed before the notice. "NR": Any other ob-

jection. Objections would be explained further in the text.

Replies to answers to incumbents' notices. Any person could file such a reply. It would be filed and served as if it were a reply to an answer to an application.

Notices of completion of 13 weeks of service. In addition to filing notices of inauguration of service, carriers awarded new route authority under section 401(d)(5) and carriers that have filed successful incumbents' notices would be required to file with the Board three copies of a notice, within 7 days after completing 13 consecutive weeks of service of at least five round trips per week. (The 13-week minimum service requirement for carriers newly certificated under the dormant authority provisions is discussed below under "Interpretations".) These notices would complete the obligations of both winning applicants and successful incumbent under this rule.

Relinquishments of newly awarded authority and waivers of incumbents' notices. In a number of cases, carriers have notified the Board that they do not intend to commence service in some of the markets awarded to them under section 401(d)(5), or in which their incumbents' notices were successful. We encourage such pleadings, since they open the markets involved to applications by other carriers. The Board does not encourage applicants to apply, or incumbents to give notice, for markets they have no present intention or ability to serve, since such action can operate to preempt applications by other, more willing carriers. However, the Board recognizes the uncertainties involved in the application process, both in the queue process used at the outset and the random allocation (by drawing) process more recently adopted, and hence the likelihood that applicants may sometimes find themselves with more authority than they can use immediately. Since the Congressional purpose is prompt institution of service in unused-authority markets, it is desirable for carriers to waive their claims as soon as they determine they will not be starting service in such a market. The proposed rule would provide for such relinquishments and waivers, and would specify the form and

#### DRAWING OR COMPUTER-BASED LOTTERY

As announced in Order 78-11-152, November 30, 1978, we reconsidered and departed from our original conclusion that the Deregulation Act requires the Board to accept applications strictly in the order of their filing. We determined instead that the order of filings that are essentially simultaneous can be established by a drawing or some other random distribution procedure. Order 78-11-152 de-

fined same-day filings as essentially simultaneous and stated that drawings would be used until after there was an opportunity for comment on other possible procedures. We now propose in the alternative to use either a drawing (OPTION I) or a computer-based assignment of random numbers (OPTION II). For convenience, the discussion that follows uses the term "drawing" for the conventional blind selection from a container and the term "lottery" for the computer-based procedure.

Drawing (OPTION I). This option would codify the procedure that is already being used on an interim basis. For each day on which one or more markets are addressed in multiple (i.e., essentially simultaneous) filings, a separate drawing would be conducted for each such market. Otherwise identical cards bearing the name of each filer (applicant or incumbent carrier) would be placed in an opaque container. The container would be covered and shaken, and then a Board staff member would draw the cards out successively until all have been drawn. The order of the draw would establish the order in which the documents would be considered to have been filed. Drawings would be open to the public. If we adopt the interpretation of "week" that is discussed below, most applications and incumbents' notices will be filed on Mondays. Therefore, drawings would ordinarily be conducted on the first Wednesday after a multiple filing, instead of on Mondays as announced in Order 78-11-152.

The drawing process would not interfere with the filing of answers. In general, questions about the validity of applications and incumbents' notices would be resolved after the drawing. Invalid filings would then merely be disregarded.

Lottery (OPTION II). A random number, generated as discussed below, would be assigned to each market line of each application and incumbent's notice. The numbers assigned to lines that were not duplicated would merely be disregarded. For markets that did receive multiple filings, the filings would be considered as having been made in the order of the random numbers assigned to the corresponding lines, beginning with the lowest. If two or more lines that addressed the same market were assigned a common number, the order of those filings would be established by a blind drawing.

For each application and incumbent's notice, a "seed number" would be determined upon filing as follows: The Docket Section would have available an electric digital clock or watch that, when operated in rapid-advance mode to reset the time, advances at

the rate of 1 hour per second or faster. A Board staff member would press down the rapid advance button for at least 5 seconds and then release it. The time in minutes upon release of the button (2 digits) would be appended to the docket number of the application or notice to provide the seed number.

Using this seed number, the Board's computer would generate a sequence of random numbers using the IBM RANDU random number generator program. These numbers would be assigned in succession to the lines within the application or notice. The assignment would be conducted as soon as practicable after the day of the multiple filings, normally within 3 days. The results, including documentation of the random number procedure, would be announced and made available in the Docket Section. As with drawings, the lottery process would not interfere with the filing of answers. Questions about the validity of filings would ordinarily be resolved after the lottery.

We considered an allocation procedure with "rounds" that would tend to distribute awards evenly among applicants in the manner of the player drafts of professional sports leagues. This proposal does not include such a procedure, however, since it would be unnecessarily complex in light of what we expect in the future to be the small number of markets simultaneously receiving multiple applications, and the varying groupings of carriers filing for those markets.

#### DISPOSITION OF APPLICATIONS AND INCUMBENTS' NOTICES

The proposed Part 321 would also elaborate and codify some of the other procedures announced in Order 78-11-152. In any given market, the Board would dismiss all applications remaining after it recognized an incumbent's notice as "successful", granted an application, denied an application on the ground that no unused authority was available in the market, or denied (in a subparagraph (D) or (E) market only) an application on the ground of inconsistency with the public convenience and necessity. An unsuccessful incumbent's notice would not be dismissed, and in fact could become successful if (1) the winning applicant relinquished its authority or lost it by failing to begin service in time, and (2) the incumbent began service within the time required by its notice.

In a market with more than one carrier holding unused authority, the Board would, with respect to each one, announce that an incumbent's notice was successful, grant an application, or deny an application on public convenience and necessity grounds. Only

then would the remaining applications be dismissed.

Once all applications were dismissed, a market would become open for new applications if a winning applicant or successful incumbent did not begin service within the time required by the Act. Applications could be filed on the first business day after the first day that the statutory noncompliance occurred. New applications would be accepted sooner if a winning applicant filed and served a "Relinquishment of Newly Awarded Authority" or a successful incumbent filed and served a "Waiver of Incumbent's Notice." Carriers would be encouraged to file these documents if they were not going to exercise their newly awarded or protected authority within the statutory time limits.

"Commence service". The Act requires an incumbent air carrier with regular authority to "commence service" within 30 days after filing a successful incumbent's notice, or else to lose the protection afforded by that notice. For seasonal authority, the service must begin within 15 days after the beginning of the next season. Similarly, a successful applicant must "commence service" within 45 days after being awarded the new authority, with a corresponding requirement where the authority is seasonal. Otherwise, the Board is required to revoke the new authority.

In the case of successful incumbents, the meaning of the requirement to commence service is clear, because section 401(d)(5)(G)(i) speaks of:

a notice from such air carrier that it intends to commence service within thirty days of such notice and to provide a minimum of five round trips per week for thirteen consecutive weeks . . . (emphasis added)

Similarly, subparagraph (G)(ii), for seasonal authority, specifies five round-trips per week for the first half of the season. In the case of winning applicants, however, there is nothing in section 401(d)(5)(H) analogous to the emphasized language to give meaning to "commence service." The legislative history is also silent on this question. We propose to interpret these words as though Congress had included wording in subparagraph (H) similar to that of subparagraph (G). A winning applicant would thus have to begin service within 45 days and continue it at the minimum level for 13 weeks (or within 15 days after the beginning of the next season, continued for at least half the season). Although this interpretation is not clearly mandated by the Act, it appears to be the one best calculated to carry out the overall intent of Congress. Clearly Congress wanted actual service to unused authority markets at a level of at least five round trips a week for at least a reasonably extended trial

period, and not merely a token inauguration of service followed by a lapse into inactivity. Section 401(d)(5)(H) instructs the Board to revoke the new carrier's certificate if it fails to commence service within the specified time. We think the fairest scheme is to make the successful applicant's obligation in this respect identical to that of an incumbent carrier upgrading its service: 13 consecutive weeks of service of at least the specified minimum frequency. After this time the successful applicant's authority would become permanent and could only be revoked under other provisions of the Act. Its authority could of course become unused under section 401(d)(5) and thus open to another applicant.

"Week" to mean calendar week.

With several routes that have become dormant since the signing of the Deregulation Act, there has been confusion about the precise day on which applications and incumbents' notices can validly be filed. Under section 401(d)(5)(A), (D), and (G)(i), applications and incumbents' notices cannot be filed until after the last day of a 26-week period during which the incumbent air carrier "fails to provide . . . a minimum of five round-trips per week for at least thirteen weeks." The Director of the Bureau of Pricing and Domestic Aviation explained in Order 78-12-76, issued on December 11, 1978, under delegated authority, that in this provision the phrase "for at least thirteen weeks" is interpreted as modifying "provide," not "fails." Briefly, a 26-week period that includes exactly 13 weeks without the minimum level of service does not qualify, because that period also includes 13 weeks with service at the minimum level. A route becomes unused only after a 26-week period with 12 or fewer weeks of minimum-level service. For example, if a carrier flies two round-trip flights per day until a Tuesday and stops service entirely on Wednesday, the 26-week period ending 13 weeks from that Wednesday does not establish dormancy, since the 13th week of that period would have 12 flights (2 per day for 6 days, 0 on the 7th day). Not until the next Sunday would there be a 26-week period in which the 13th week had fewer than 5 flights (2 per day for 2 days, 0 per day for 5 days). Applications cannot be filed until the day after the 26-week period, Monday in this example. If, instead of stopping all flights, the incumbent continued them in an unusual pattern, the calculation would be more complex.

We agree with the Bureau Director's interpretation of the statutory language, which will continue to be applied without modification until January 19, 1979. We propose, however, for purposes of simplification to modify the application of the statute for peri-

ods ending on and after January 20, 1979. We would consider each "week" to be a calendar week, running from a Sunday through the following Saturday. A 26-week period, similarly, would always end on a Saturday. Since January 20 is a Saturday, there should be no problem in transition. This approach would not only simplify the computation of dormancy periods, but also reduce any advantage that could arise from one applicant's having special knowledge of what actually happened on the allegedly last day of an incumbent's service. This modification by rule would not in any way contravene the intent of Congress in enacting this program, and would go far to eliminate possible errors and misinterpretations.

This interpretation of "week" would be applied throughout section 401(d)(5) and Part 321. Mondays would therefore become the predominant filing days for applications and incumbents' notices, since 26-week periods would end on Saturdays. Similarly, for an incumbent that began service within 30 days of its successful notice (or a winning applicant that began service within 45 days of its award) but did not continue it for the required number of weeks, the failure to continue would occur on a Saturday. Only if the carrier fails to start (on a day other than Saturday) or files a "Relinquishment of Newly Awarded Authority" or a "Waiver of Incumbent's Notice" would the day for filing new applications be other than a Monday.

Accordingly, the Civil Aeronautics Board proposes to amend Part 302 and add a new Part 321 to Chapter II, Title 14, Code of Federal Regulations, as set forth below.

Part 302, *Rules of Practice in Economic Proceedings*, would be amended as follows:

1. Section 302.901 would be amended to read:

#### § 302.901 Applicability.

This subpart sets forth the special rules applicable to proceedings for conferment and/or modification of route authority under sections 401 and 402 of the Federal Aviation Act of 1958. However, this subpart does not apply to applications for unused authority under section 401(d)(5) (Part 321) or applications for automatic market entry under section 401(d)(7) (Part 322). For information as to other applicable rules, reference should be made to Subpart A of this part, to the Federal Aviation Act, and to the substantive rules (Parts 201 and 211 for the form of applications) and orders of the Board.

2. In § 302.908, paragraph (a) would be amended to read:

§ 302.908 Applications for new or modified certificated route authority.

(a) This section applies to all applications filed under this part for new or modified certificated route authority except those filed under Subpart M or N and those filed in response to, and conforming to, an order instituting a route investigation. Except as modified by this section, the rules in Subpart A of this part continue to apply.

Subpart R—§§ 302.1801-302.1812 [Revoked]

3. Subpart R—*Rules Applicable to Unused Authority Proceedings*, would be revoked.

4. The Table of Contents would be amended accordingly.

A new Part 321 would be added, to read:

#### PART 321—UNUSED AUTHORITY PROCEDURES

##### Subpart A—General

- Sec. 321.1 Applicability.
- 321.2 Conformity with Subpart A of Part 302.
- 321.3 Definitions.
- 321.4 Notices of inauguration and completion of 13 weeks of service.
- 321.5 Environmental evaluations and energy information not required.
- 321.6 No conflict with separation of functions rule.

##### Subpart B—Applications for Unused Authority and Related Documents

- 321.10 General requirements for applications.
- 321.11 Contents of applications.
- 321.12 Additional requirements for applications that request suspension of unused authority.
- 321.13 Answers to applications.
- 321.14 Responses to replies.

##### Subpart C—Incumbent Carriers' Notices of Intent To Begin Service and Related Documents

- 321.20 General requirements for incumbent carriers' notices of intent to begin service.
- 321.21 Contents of incumbents' notices.
- 321.22 Answers to incumbents' notices.
- 321.23 Replies to answers to incumbents' notices.

##### Subpart D—Processing of Documents

- 321.30 Simultaneous filings.
- 321.31 Disposition of applications and incumbents' notices.
- 321.32 Successful applicant's failure to commence service.
- 321.33 Successful incumbent carrier's failure to begin service.
- 321.34 Option I: Drawing. Option II: Lottery.

##### Subpart E—Interpretations of the Act's Unused Authority Provisions

- 321.40 "Commence service".
- 321.41 "Week" means calendar week.

AUTHORITY: Secs. 204, 401, and 1001 of the Federal Aviation Act of 1958, as amended by Pub. L. 95-504, 72 Stat. 743, 754, and 771, 92 Stat. 1713; 49 U.S.C. 1324, 1371, and 1481.

##### Subpart A—General

#### § 321.1 Applicability.

This part applies to applications for nonstop route authority where unused authority exists, filed under sections 401(d)(5)(A), (5)(B), (5)(D), and (5)(E), and to notices of incumbents' intent to begin service that are filed under section 401(d)(5)(G).

#### § 321.2 Conformity with Subpart A of Part 302.

Except where they are inconsistent with this part, the provisions of Subpart A of Part 302 of this chapter shall apply to proceedings under this part.

#### § 321.3 Definitions.

As used in this part:

"Application" means an application for nonstop route authority, on the basis of unused authority, under section 401(d)(5)(A), (5)(B), (5)(D), or (5)(E).

"Applicant" means a person who files an application under this part.

"Minimum level" and "minimum level of service" mean the minimum level of service set forth in subparagraph (A), (B), (D), or (E) of section 401(d)(5), as applicable.

"Section 401(d)(5)" refers to the unused authority program of the Act, 49 U.S.C. 1371(d)(5).

#### § 321.4 Notices of inauguration and completion of 13 weeks of service.

(a) Every applicant that is awarded new authority and every carrier that files an incumbent's notice shall file a notice (1) within 7 days after inaugurating service between any pair of points covered by the award or incumbent's notice, and (2) within 7 days after completing 13 consecutive weeks of service of at least five nonstop round trips per week. However, if an incumbent's notice states that service has already begun, the incumbent need not give the inauguration notice required by clause (1) above.

(b) Notices required by paragraph (a) of this section shall be titled "Notice of Inauguration of Service" or "Notice of Completion of 13 Weeks of Service," as applicable. They shall specify on the cover the subparagraph of section 401(d)(5) that governs the market or markets involved, and shall identify the pairs of points between which service has been inaugurated or carried on for 13 weeks.

(c) Notices described in paragraph (a) of this section shall be filed in three copies, marked for the attention

of the Director, Bureau of Pricing and Domestic Aviation.

(d) A copy of each notice described in paragraph (a) of this section shall be served on the U.S. Postal Service Headquarters, Law Department, Transportation Division, Washington, D.C. 20260.

#### § 321.5 Environmental evaluations and energy information not required.

Notwithstanding any provision of Part 312 or Part 313 of this title, a person filing an application under this part is not required to file an environmental evaluation or energy information with the application.

#### § 321.6 No conflict with separation of functions rule.

Actions taken by the Director of the Bureau of Pricing and Domestic Aviation under delegated authority to administer section 401(d)(5) will not be considered as conflicting with the Board's separation of functions rule, § 300.4 of this chapter.

#### Subpart B—Applications for Unused Authority and Related Documents

#### § 321.10 General requirements for applications.

(a) Each application shall be titled "Application for Unused Authority."

(b) An application may request nonstop authority in more than one market. However, applications shall not include requests for authority under more than one subparagraph of section 401(d)(5).

(c) An application may be amended after filing at any time before it is granted or dismissed to eliminate markets or correct errors, but not to add markets. Markets to be eliminated shall be listed by line number from the original application and city or airport codes as set forth in § 321.11(b)(1). Corrections shall be shown by setting forth the entire line from the table described in § 321.11(b) or (c), as applicable, with the corrected items underlined. Any necessary explanation of the correction shall be included in text or footnotes.

(d) Applications and amendments of applications shall be served on: (1) All air carriers named in the application in accordance with § 321.11(b)(3) or (4).

(2) The airport authority of each airport the applicant proposes to use.

(3) The Federal Aviation Administration.

#### § 321.11 Contents of applications.

Each application shall:

(a) Identify on its cover page the

subparagraph of section 401(d)(5) that governs the application.

(b) Include a table with a separate, numbered line for each pair of points between which the applicant seeks nonstop route authority. The lines shall be alphabetized by the points named in them. Each line shall include the following information, with the columns of the table labeled accordingly:

(1) *Market.* The pair of points as specified in the inactive carrier's certificate, with each point identified by the Official Airline Guide's 3-letter city code. Where the inactive carrier only has authority to serve a point through a named airport, this limitation shall be shown by adding the 3-letter airport code for the airport in parenthesis after the city code. (EXAMPLE: "WAS(IAD)" for Washington, to be served through Dulles International Airport.) Where a point is hyphenated in all or substantially all carriers' certificates, its single 3-letter code shall be used. (EXAMPLE: "MSP" for Minneapolis-St. Paul.) At points that are sometimes hyphenated and sometimes listed separately in certificates, the authority of the inactive carrier or carriers shall be shown by listing the city codes of the hyphenated cities in the order shown in each inactive carrier's certificate. (EXAMPLE: "SFO/OAK/SJC" for San Francisco-Oakland-San Jose.)

(2) *Period of season.* The beginning and ending dates of the 26-week period or season, as applicable, upon which the request for authority is based. If the dates differ for different inactive carriers, each set of dates shall be included. If a split period is relied on because of a strike, the computation

#### OAG EDITION OF —

|              | 5/1/78 | 6/1/78 | 7/1/78 | 8/1/78 | 9/1/78 | 10/1/78 | 11/1/78 |
|--------------|--------|--------|--------|--------|--------|---------|---------|
| ATL-DEN..... | 140    | 143-4  | 151    | 146    | 137    | 142     | 145     |
| DEN-ATL..... | 311    | 315    | 329    | 317-8  | 304    | 313     | 318     |

(d) Certify that the applicant's aircraft meet all applicable requirements established by the Secretary of Transportation for the carriage by aircraft of persons or property as a common carrier for compensation or hire or the carriage of mail by aircraft in commerce.

(e) Certify that the applicant will obtain any necessary operating authority from the Federal Aviation Administration in time to begin exercising the nonstop route authority sought under this part within the time

shall be explained elsewhere in the application.

(3) *Active carriers.* The Official Airline Guide's 2-letter carrier code for each carrier, certificated or not, that has provided the minimum level of service between the points during the period or season described in paragraph (b)(2) of this section.

(4) *Inactive carriers.* The Official Airline Guide's 2-letter carrier code for each air carrier having certificate authority to provide nonstop round-trip service between the points that has not provided the minimum level of service during the time described in paragraph (b)(2) of this section.

(5) *Inactive period.* For each carrier named in paragraph (b)(4) of this section, the beginning and ending dates of below-minimum service during the period or season described in paragraph (b)(2) upon which the request for authority is based.

(6) *Suspension requested.* For applications governed by section 401(d)(5)(A) only: Whether or not the applicant requests suspension of the unused authority of incumbent air carriers.

(c) Include a table that lists, for each pair of points named in the application, the Official Airline Guide pages covering service for the entire 26-week period or season upon which the request for authority is based. There shall be a separate line for service in each direction. The page citations shall be to successive monthly issues of the Official Airline Guide, using consistently the editions of the 1st or the 15th of the month. The table shall be in the format shown in the following fictitious example:

set forth in subparagraph (H)(i) or (H)(ii) of section 401(d)(5), as applicable.

(f) Certify that the applicant is able to conform to the rules, regulations, and requirements of the Board promulgated pursuant to the Act.

#### § 312.12 Additional requirements for applications that request suspension of unused route authority.

(a) If an applicant for authority under section 401(d)(5)(A) wants the Board to suspend the unused authority of incumbent carriers as set forth in

section 401(d)(5)(J), its application shall at a minimum include, in addition to the information set forth in § 321.11, the following:

(1) Information specific to each pair of points showing why suspension is necessary to encourage continued service between those points by the applicant;

(2) A list, by filing date and points, of all other applications filed or to be filed on the same day and within the preceding 45 days; and

(3) A description of the aircraft that the applicant intends to use in exercising the authority sought in the current application and all applications filed or to be filed on the same day and within the preceding 45 days. The description shall consist of either a plan for obtaining aircraft, identified by type, that can be verified within 15 days by the Board's staff, or a list of aircraft identified by FAA registration number.

(b) If the Board grants an application that does not include the information set forth in paragraph (a) of this section, the Board will not suspend the unused authority of incumbent carriers.

#### § 321.13 Answers to applications.

(a) Any person may file an answer to an application. If the application is governed by subparagraph (A) or (B) of section 401(d)(5), the answer shall be filed within 7 calendar days after the application is filed. If the application is governed by subparagraph (D) or (E), the answer shall be filed within 14 days after the application is filed.

(b) Answers filed under this section shall be entitled "Answer to Application for Unused Route Authority."

(c) Each answer filed under this section shall identify on its cover page the subparagraph of section 401(d)(5) that governs the application being answered.

(d) Each answer filed under this section shall include a table that, except as set forth in paragraph (e) of this section, repeats the lines included in the application in accordance with § 321.11(b) that are being answered. The items that the answer challenges in each line shall be underlined.

(e) The table required by paragraph (d) of this section shall also include the following three columns:

(1) After the column showing the market (§ 321.11(b)(1)): A column showing the applicant, identified by 2-letter carrier code.

(2) After the applicant column described in paragraph (e)(1) of this section: A column showing the docket number of the application.

(3) After the last column: A column showing the type or types of objection that the answer raises, using the code numbers set out in paragraph (f) of

this section. Each objection shall be explained to the extent necessary in the text of the answer.

(f) Objections shall be identified by the following code numbers:

(1) The application was filed under the wrong subparagraph of section 401(d)(5).

(2) The allegedly inactive carrier does not have certificate authority to provide nonstop service in the market.

(3) The allegedly inactive carrier has certificated nonstop authority, but did not have it throughout the 26-week period or season relied on.

(4) The authority of the allegedly inactive carrier has been suspended by the Board under section 401(g) of the Act, or under section 401(j) by an order that requires the carrier to obtain Board approval before resuming service.

(5) The 26-week period or season relied on includes more than 6 weeks of a labor dispute that interrupted the service of the allegedly inactive carrier.

(6) The authority in question was not unused because the allegedly inactive carrier served the point or points through at least one airport and was not required to serve through more than one airport.

(7) The allegedly inactive carrier in fact provided the minimum level of service.

(8) The unused authority relied on has already been the basis of an award that has not been revoked.

(9) For applications governed by section 401(d)(5)(D) or (5)(E) only: Award of the authority sought would not be consistent with the public convenience and necessity.

(0) Any other objection. (NOTE: This code is "0" not "10".)

(g) Answers filed under this section shall be served on the persons whose applications are being answered and on the persons listed in § 321.10(d).

#### § 321.14 Replies to answers to applications.

(a) Any person may file a reply to an answer to an application.

(b) Replies filed under this section shall be titled "Reply to Answer to Application for Unused Authority" and shall identify on the cover page the subparagraph of section 401(d)(5) that governs the application.

(c) For applications governed by subparagraph (A) or (B) of section 401(d)(5): Replies shall be filed within 10 calendar days after the application is filed, and will be considered by the Board only to the extent practicable.

(d) For applications governed by subparagraph (D) or (E) of section 401(d)(5):

(1) Replies shall be filed within 28 calendar days after the application is filed.

(2) If an answer alleges that grant of the application would be inconsistent with the public convenience and necessity, the applicant's reply shall at a minimum indicate, by frequency and equipment type, what service it will provide and what service (if any) it will discontinue to make aircraft available for the new service.

(3) Replies filed under this section shall be served on the person that filed the answer and on all persons who were required to be served with the answer.

#### § 321.15 Responses to replies.

(a) In the case of an application that is governed by subparagraph (D) or (E) of section 401(d)(5), any person may file a response to a reply filed under § 321.14.

(b) Responses shall be titled "Response to Application for Unused Authority."

(c) Responses shall be filed within 42 calendar days after the application is filed.

(d) Responses shall be served on the person that filed the reply and on all persons who were required to be served with the reply.

#### Subpart C—Incumbent Carriers' Notices of Intent To Begin Service and Related Documents

#### § 321.20 General requirements for incumbent carriers' notices of intent to begin service.

(a) A carrier holding unused authority in a given market that intends to resume nonstop service such as to preclude a grant of authority to another carrier under section 401(d)(5) shall file a notice titled "Incumbent's Notice of Intent to Exercise Unused Authority" (hereafter called "incumbent's notice").

(b) An incumbent's notice may address service in more than one market. However, notices shall not address authority covered by more than one subparagraph of section 401(d)(5).

(c) An incumbent's notice may be amended in the manner set forth in § 321.10(c) for applications at any time before the Board announces by order that it is successful.

(d) An incumbent's notice shall be served on those persons whom the incumbent would be required by § 321.10(d) to serve if it were an applicant for unused authority.

#### § 321.21 Contents of incumbent's notice.

Each incumbent's notice shall:

(a) State on its cover the subparagraph of section 401(d)(5) that governs the authority addressed by the notice.

(b) Include a table with a separate, numbered line for each pair of points between which the carrier filing the notice intends to begin service within

the time set forth in section 401(d)(5)(G)(i) or (G)(ii), as applicable. The lines shall be alphabetized by the points named in them. Each line shall include the following information:

(1) *Market.* The pair of points, identified as set forth in § 321.11(b)(1).

(2) *Period or season.* The beginning and ending dates of the 26-week period or season, as applicable, upon which the notice is based.

(3) *Date.* The date (not more than 30 days after the date of filing) on or before which the carrier intends to begin service between those points.

#### § 321.22 Answers to incumbent's notices.

(a) Any person may file an answer to an incumbent's notice. The answer shall be filed within the time set forth in § 321.13(a) for answers to applications.

(b) Answers filed under this section shall be titled "Answer to Incumbent's Notice."

(c) Each answer filed under this section shall identify on its cover the subparagraph of section 401(d)(5) that governs the notice being answered.

(d) Each answer filed under this section shall include a table that repeats the lines included in the notice in accordance with § 321.21(b) with the air carrier that filed the notice and the basis or bases for the objection to the notice listed at the end of each line. The filer of the notice shall be identified by 2-letter air carrier code. The objections shall be listed by the following 2-letter codes and explained to the extent necessary in the text of the answer:

(1) "NX": That the notice does not comply with the requirements of section 401(d)(5).

(2) "NE": That the filer of the notice has previously filed a similar notice in the same market.

(3) "NA": That a valid application for the filer's unused authority was filed before the notice.

(4) "NR": Any other objection.

(e) Answers filed under this section shall be served as if they were answers filed under § 321.13 to applications.

#### § 321.23 Replies to answers to incumbent's notices.

(a) Any person may file a reply to an answer to an incumbent's notice. The reply shall be filed within the time set forth in § 321.14 (c) or (d), as applicable, for replies to answers to applications.

(b) Replies filed under this section shall be titled "Reply to Answer to Incumbent's Notice," and shall identify on the cover the subparagraph of section 401(d)(5) that governs the notice.

(c) Replies filed under this section shall be served as if they were replies

filed under § 321.14 to answers to applications.

#### Subpart D—Processing of Documents

##### § 321.30 Simultaneous filings.

Applications and incumbents' notices that are filed on the same day will be considered essentially simultaneous. Each application and notice will be treated as a separate filing for each pair of points that it names. These filings will be treated for the purposes of section 401(d)(5) as if they were made in the order established in accordance with § 321.34.

##### § 321.31 Disposition of applications and incumbents' notices.

For each pair of points named in a document filed under this part:

(a) If no air carrier had unused authority within the meaning of section 401(d)(5), the Board will deny all applications.

(b) If the earliest filed valid document that has not been amended to delete those points is an incumbent's notice, the Board will by order announce that the notice is successful and dismiss all applications for authority between those points.

(c) If the earliest filed valid document that has not been amended to delete those points is an application, the Board will dismiss all other applications for authority between those points and, except as set forth in paragraph (d) of this section, grant that application.

(d) If the application is governed by subparagraph (D) or (E) of section 401(d)(5) and the Board finds that issuance of a certificate is inconsistent with the public convenience and necessity, the Board will deny the application.

(e) Unsuccessful incumbents' notices will not be dismissed and may become successful as set forth in § 321.32(c).

(f) If more than one air carrier holds unused authority to provide round-trip nonstop service between those points, the Board will not dismiss any applications in accordance with paragraph (a) or (b) of this section until it has, with respect to each carrier holding unused authority, announced that a notice is successful, granted an application, or denied an application on the ground of inconsistency with the public convenience and necessity.

##### § 321.32 Successful applicant's failure to commence service.

For each award to a person of new certificate authority between a pair of points under section 401(d)(5):

(a) Except as set forth in paragraphs (b) and (c) of this section, if that person does not "commence service" within the meaning of section 401(d)(5)(H) as defined in § 321.40, the

Board will accept new applications for authority between those points on the first business day after the first day that the person is not in compliance with section 401(d)(5)(H).

(b) Except as set forth in paragraph (c) of this section, if that person, before being required by section 401(d)(5)(H) to "commence service" files and serves a "Relinquishment of Newly Awarded Authority" in the manner described in § 321.33(c) for waivers of incumbents' notices, the Board will accept new applications on the first business day after the day that the relinquishment is filed.

(c) If, upon the noncompliance described in paragraph (a) of this section or the filing of a relinquishment described in paragraph (b), there is an outstanding valid incumbent's notice that has not been vitiated by the incumbent carrier's failure to exercise its unused authority, the Board will by order announce that the notice has become successful. Further unused authority proceedings for the pair of points will be governed by § 321.33.

(d) If the Board accepts new applications in accordance with paragraph (a) or (b) of this section or announces in accordance with paragraph (c) that an outstanding incumbent's notice has become successful, it will revoke the previously awarded new certificate authority.

##### § 321.33 Successful incumbent carrier's failure to begin service.

For each pair of points for which the Board has announced that an incumbent's notice is successful:

(a) Except as set forth in paragraphs (b) and (c) of this section, if the incumbent carrier does not begin and maintain service in accordance with section 401(d)(5)(G)(i) or (G)(ii), as applicable, the Board will accept new applications for authority between those points on the first business day after the first day that the incumbent is not in compliance with section 401(d)(5)(G).

(b) If the incumbent carrier, before it is required by section 401(d)(5)(G) to begin service, files a waiver in accordance with paragraph (c) of this section, the Board will accept new applications on the first business day after the day that the waiver is filed.

(c) Air carriers that decide not to begin service in accordance with their successful notices are encouraged to file, in the same docket, a "Waiver of Incumbent's Notice". These documents shall:

(1) Indicate the subparagraph of section 401(d)(5) that governs the notice;

(2) Identify the pair or pairs of points for which the notice is waived;

(3) Identify the Board order announcing that the notices are successful; and

(4) Be served on all certificated air carriers and all persons required by § 321.20(d) to be served with incumbents' notices.

#### OPTION I:

##### § 321.34 Drawing.

(a) For each day on which one or more pairs of points receive essentially simultaneous filings, a drawing will be conducted for each such pair of points as follows: For each person who filed an application or incumbent's notice, a card bearing that person's name will be placed in an opaque container. The cards will be otherwise identical. The container will be covered and shaken thoroughly. A Board staff member will reach into the container and, without being able to see the cards, draw them out successively until all have been drawn.

(b) The order in which the cards are drawn will be the order in which the documents are considered to have been filed.

(c) Drawings will take place on the first Wednesday after the day that the essentially simultaneous documents are filed, unless the filers of those documents are notified otherwise. It will be open to the public. Information about the time and location can be obtained from the Office of the Secretary, Civil Aeronautics Board.

(d) The drawing process will not interfere with the filing of answers in accordance with §§ 321.13 and .22. In general, questions about the validity of applications and incumbents' notices will be resolved after the drawing.

(e) If (1) there is a dispute about the precise date on which authority can be applied for or protected by an incumbent's notice, and (2) documents for that authority are filed on more than one day, then a separate drawing will be conducted for each day's documents. When the correct date is determined, filings before that date will be disregarded. The drawings for filings on and after that date, ordered by date of filing, will establish the order in which the documents are considered to have been filed.

#### OPTION II:

##### § 321.34 Lottery.

(a) Each line from an application (included in accordance with § 321.11(b)) or from an incumbent's notice (included in accordance with § 321.21(b)) will be assigned a random number as set forth in paragraph (b) of this section. For each pair of points for which there are essentially simultaneous filings, those filings will be considered to have been made in the order of the random numbers assigned to the relevant lines, beginning with

the smallest number and ending with the largest. If two or more lines that address the same pair of points are assigned a common number, the order of those filings will be established by a blind drawing.

(b) For each application and incumbent's notice, a sequence of random 6-digit numbers will be generated using the IBM RANDU random number generator program and the seed number derived in accordance with paragraph (c) of this section. These random numbers will be assigned in succession to the lines of the application or notice.

(c) The Docket Section will have available an electric digital clock or watch that, when operated in a rapid-advance mode to reset the time, advances at the rate of 1 hour per second or faster. Each application and incumbent's notice will, upon filing, be assigned a seed number as follows: A Board staff member will press down the rapid advance button on the clock or watch for at least 5 seconds and then release it. The time in minutes upon release of the button (2 digits) will be appended to the docket number of the application or notice.

(d) Random numbers assigned to lines of applications or notices that are not duplicated by lines of other applications or notices will be disregarded.

(e) The process described in paragraphs (a) and (b) of this section will be conducted as soon as practicable after the day on which essentially simultaneous filings are received. The results, including documentation of the random number procedure, will be announced and made available in the Docket Section.

(f) [Same as paragraph (d) of OPTION I, except that "drawing" is replaced by "lottery".]

(g) [Same as paragraph (e) of OPTION I, except that "drawing" is replaced by "lottery".]

#### Subpart E—Interpretations of the Act's Unused Authority Provisions

##### § 321.40 "Commence Service."

(a) The Board interprets the requirement of subparagraph (H)(i) of section 401(d)(5) that air carriers issued certificates under subparagraph (A) or (D) "commence service pursuant to such certificate within forty-five days of such issuance" as follows: The air carrier shall begin to provide service within 45 days and provide a minimum of 5 round trips per week for the first 13 full calendar weeks after the day that it begins service.

(b) The Board interprets the requirement of subparagraph (H)(ii) to "commence service pursuant to such [seasonal] certificate within fifteen days after the beginning of the first such season which begins on or after

the date of such issuance" as follows: The air carrier shall begin to provide service within 15 days after the beginning of the season and provide a minimum of 5 round trips per week for the first half of the season.

##### § 321.41 "Week" means calendar week.

(a) Except as provided in paragraph (b) of this section, the Board considers the term "week", as used in this part and section 401(d)(5), to mean a 7-day period that begins on a Sunday and ends on the following Saturday.

(b) For the determination of 26-week periods or seasons that end before January 20, 1979, or the computation of inactive service within those intervals, the Board considers the term "week" to mean any 7-day period.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,  
Secretary.

#### ENTRY OF MERCHANDISE AND LIQUIDATION OF ENTRIES

##### Proposed Rule

##### Correction

In FR Doc. 78-33391 appearing at page 55774 in the issue for Wednesday, November 29, 1978, make the following corrections:

(1) On page 55774, in the middle column, in the "SUMMARY" paragraph, in the second line, "Simplifica-" should read "Simplifica-".

(2) Also in the first paragraph of the summary, in the seventh line, the word "entires" should read "entries".

(3) In the seventh paragraph of the summary, in the third line, the word "reliquidation" should read "reliquidating".

(4) On page 55776, in the middle column, in paragraph 5, in the sixth line, the word "release" should read "released".

(5) On page 55778, in the middle column, in the second complete paragraph, the reference to "Section 141.63(a)" should read "Section 141.63(b)".

(6) On page 55778, in the third column, in paragraph 9, in the second line, the word "notice" should read "invoice".

(7) On page 55779, in the first column, in paragraph 12, in the third line, the word "required" should read "required".

(8) On page 55780, in the third column, in the last paragraph, in the second and third lines, the word "limitation" should read "liquidation".

(9) On page 55781, in the third column, in § 10.1(g), in the seventh line, the word "perator" should read "operator".

(10) On page 55784, in the third column, in paragraph § 132.14(b), in the fourth line, the word "priorities" should read "priority".

(11) Also on page 55784, in the third column, in § 141.0a(a), in the second line, the reference to "§ 142.2" should read "§ 142.3".

(12) On page 55788, in § 141.61 (f)(1)(iv), in the third column, make the following corrections:

(a) In the first line, the word "computations" should read "computation".

(b) In the third line, the word "value" should read "values".

(c) In the sixth line, the word "or" should read "or".

(d) In the last line of the paragraph, the customs forms should be numbered "7505, 7506, 7519 and 7521".

(13) On page 55787, in the first column, in § 141.62(b)(2)(ii), in the eleventh line, the word "which" should read "with".

(14) Also in § 141.62(b)(2)(ii), in the fifteenth line, the word "of" should read "or".

(15) On page 55787, in the middle column, in § 141.68(a)(2), in the fifth line, the word "without" should read "within".

(16) On page 55790, in the first column, in the last paragraph, in the third line, "section 464" should read "section 484".

(17) Also on page 55790, in the first column, in the last paragraph, in the fourth line, "19 U.S.C. 1464" should read "19 U.S.C. 1484".

(18) On page 55790, in the middle column, the footnote at the bottom of the column should be moved up above the heading for § 142.6.

(19) On page 55790, in the third column, in the first and second lines, "§ 142.7 invoice requirements" is a section heading and should appear as follows:

#### § 142.7 Invoice requirements.

(20) On page 55790, in the third column, in § 142.7(a)(4), the word "tariff" should begin with a capital "T".

(21) Also in § 142.7, in paragraph (b), in the eighth line, "§§ 141.66" should read "§§ 141.86".

(22) On page 55791, in the first column, in § 142.12(a)(1), in the third line, the comma (,) after the word "summary" should be deleted.

(23) On page 55791, in the third column, in § 142.16(a), in the eleventh line, the word "Merchandise" should begin with a lower case "m".

(24) Also in § 142.16(a), in the sixteenth line, the reference to "§ 142.15" should read "142.13".

(25) On page 55790, in the third column, in the rider which follows § 142.21(b)(2), in the third paragraph, in the seventh line, after the blank insert "...".

(26) In the same rider, in the third paragraph, in the tenth line, the reference to "§ 138.11(b)" should read "§ 158.11(b)".

(27) On page 55793, in the first column, in § 142.21(b)(3), in the fifth line, after the word "necessary" insert "...".

(28) On page 55793, in the middle column, in § 142.24(a), in the fifth line, "5461" should read "3461".

(29) Also on page 55793, in the third column, in § 142.28(a), in the seventh line, "141.115" should read "141.113".

(30) On page 55794, in § 142.28(a)(1), in the fourth line, "142.25" should read "142.23".

(31) On page 55794, in the middle column, in § 144.11(c), in the second line, "designate" should be spelled "designate".

(32) Also on page 55794, in the third column, in § 144.13(a), in the ninth line, "Customs Form 755" should be "Customs Form 7555".

(33) On page 55795, in the first column, in § 144.36(d)(7), in the second line, "§ 141.61(d)" should read "141.61(e)".

(34) On page 55795, in the first column, under Part 158, in amendatory paragraph 1, in the second line, "§ 158.12a" should read "158.21a".

(35) Also on page 55795, in the first column, the section heading "§ 158.12a Time Period" should be numbered "158.21a".

### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 404]

[Reg. No. 4]

### FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

International Totalization Agreements

AGENCY: Social Security Administration, HEW.

ACTION: Notice of proposed rulemaking.

SUMMARY: The proposed regulations implement a provision of the "Social Security Amendments of 1977". This provision authorizes the President to enter into bilateral agreements with other countries to provide for coordination between the social security systems of the United States (U.S.) and

of other countries. The bilateral agreements are generally known as totalization agreements. The purposes of a totalization agreement are (1) to permit each country to establish entitlement to and the amount of old-age, survivors, disability, or derivative benefits by combining a person's periods of coverage under the social security systems of both countries, and (2) to preclude dual coverage and dual social security taxation for work covered under both systems.

DATES: Comments must be received on or before February 26, 1979.

ADDRESSES: Before final adoption of the proposed rule, consideration will be given to any comments submitted in writing to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 5131, 330 Independence Avenue, S.W., Washington, D.C. 20201.

### FOR FURTHER INFORMATION CONTACT:

John W. Modler, Legal Assistant, Office of Policy and Regulations, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone (301) 594-7337.

### SUPPLEMENTARY INFORMATION:

#### A. BACKGROUND

Before the enactment of the Social Security Amendments of 1977 (Pub. L. 95-216), there was no authority in the Social Security Act (the Act) for entering into agreements with other countries to provide for coordination between the social security systems of the U.S. and of other countries. As a result, there was no way to address two serious problems.

First, many U.S. citizens employed by U.S. employers in foreign countries must pay the social security taxes in both the U.S. and the foreign countries. Also, U.S. citizens may get little if any return for the taxes they and their employers pay to the foreign system, especially where social security eligibility requirements are stricter under foreign systems, and most of them do not work long enough under the foreign system to meet these requirements.

Second, many U.S. citizens who divide their careers between work covered under the U.S. social security system and work covered under a foreign social security system lose continuity in their social security cover-

age. Some who work in foreign countries for a number of years and have separate (as opposed to overlapping) periods of coverage under two or more social security systems may not qualify for benefits under any system when they retire, become disabled, or die. For example, U.S. citizens who work in foreign countries for a number of years may not be eligible for U.S. social security disability insurance because this generally requires substantial recent work covered by the U.S. system (see § 404.116). Others may qualify for social security benefits but their benefits may not be in proportion to the work they have performed because all of their periods of coverage inside and outside the U.S. may not be considered in determining these benefits.

Congress included section 317 in Pub. L. 95-216, which allows for combining work under two systems and eliminating dual coverage and dual taxation, to help solve these problems.

### B. PROPOSED REGULATIONS

The proposed regulations provide definitions and principles for the negotiation and administration of totalization agreements. These principles cover (1) general provisions, (2) benefits, (3) coverage, (4) computations, (5) applications, (6) evidence, (7) appeals, (8) effect of the alien non-payment provision, (9) overpayments, and (10) disclosure of information.

While these definitions and principles are intended to ensure consistent and equitable treatment of all individuals affected by the agreements, they will necessarily apply to foreign social security systems with diverse characteristics. We will, where necessary to accomplish the purposes of totalization, apply these definitions and principles, as appropriate and within the limits of the law, to accommodate the diverse characteristics of these systems.

### 1. GENERAL PROVISIONS

An agreement shall be negotiated with the National government of the foreign country for the entire country. However, agreements can only be negotiated with foreign countries that have a social security system of general application in effect. We will consider a system in effect if it is collecting social security taxes or paying social security benefits.

An agreement may provide that the provisions of the social security system of each country will apply equally to the nationals of both countries (regardless of where they reside). For this purpose, refugees, stateless persons, and other nonnationals who derive benefit rights from nationals, refugees, or stateless persons may be

treated as nationals if they reside within one of the countries.

An agreement shall become effective on any date, provided in the agreement, which occurs after the expiration of a period of 90 days in any one Congress (following the date on which the agreement is transmitted to Congress by the President) on each of which both Houses of Congress have been in session. The agreement shall become effective unless one of the Houses of Congress adopts a resolution of disapproval within the 90-session-day period.

Each agreement shall contain provisions for its possible termination. If an agreement is terminated, entitlement to benefits and coverage acquired by an individual before termination shall be retained. The provisions shall provide for notification of termination and the effective date of termination.

Provisions on amendments of totalization agreements are not included in this NPRM. If we find that regulations are necessary, we will publish them at a later date.

### 2. BENEFITS

As a result of a totalization agreement, a person who has at least 6 quarters of coverage (QC's) (see § 404.103 and 404.103a) under the U.S. system may have foreign periods of coverage combined with U.S. coverage to determine entitlement to and the benefit amount payable under the U.S. system. No credit will be given, however, for foreign periods of coverage acquired before January 1, 1937. Also, foreign earnings will be added to any covered U.S. earnings only to the extent that the combined earnings do not exceed the maximum annual earnings limitation under U.S. law (see § 404.102b).

Generally, a person will be credited with a QC for every 3 months (or equivalent period) of coverage certified by the foreign system. QC's based on foreign periods of coverage may be credited only to calendar quarters not already QC's under the U.S. system. Furthermore, foreign earnings may be assigned to a calendar quarter only if that quarter is a QC based on foreign coverage. A person may fail to meet the requirements for a currently insured status or the insured status needed to establish a period of disability solely because of the assignment of QC's based on foreign coverage to calendar quarters on a chronological basis. If this occurs, the QC's based on foreign coverage may be assigned to different calendar quarters (not already QC's under the U.S. system) within the beginning and ending date of the period reported by the foreign country.

An agreement will not provide for combining periods of coverage under

more than two social security systems. A person, however, may qualify for benefits under more than one agreement. If this occurs, the person shall receive benefits only under the agreement affording the most favorable treatment. In the absence of evidence to the contrary, the agreement that provides the higher benefit shall be considered as affording the most favorable treatment.

A person may not become entitled to hospital insurance benefits under section 226 of the Social Security Act by combining periods of coverage under the U.S. system with those under the foreign system. Entitlement to hospital insurance benefits is not precluded if the person otherwise meets the requirements.

### 3. COVERAGE

An agreement shall contain provisions precluding dual coverage. Employment or self-employment (or service recognized as equivalent under the U.S. system or the foreign system) shall, on or after the effective date of the agreement, result in a period of coverage under either the U.S. or foreign system, but not under both. Methods shall be described in the agreement for determining under which system the service shall result in a period of coverage.

Although an agreement may modify coverage provisions of title II of the Act, it should do so by exemptions from coverage rather than by extensions of coverage under title II. Generally, a worker will be covered by the country in which he or she is working. However, an agreement may provide exceptions to this principle so that a worker will be covered by the country to which he or she has the greater attachment. Examples illustrating this principle are provided in proposed §§ 404.1913(b)(2) and 404.1913(b)(3).

Agreements may provide for variations from the general principles for precluding dual coverage to avoid inequitable or anomalous coverage situations for certain workers. However, if a person performs services that are not now covered by the U.S., an agreement should refrain from creating coverage for those services.

An agreement will contain provisions precluding dual payment of contributions or taxes. On or after the effective date of an agreement, any employment or self-employment (or service recognized as equivalent under the U.S. social security system or the foreign system) which is covered under the agreement shall be subject to taxes or contributions under the U.S. system or the foreign system, but not under both (see section 317(b) or Pub. L. 95-216).

## 4. COMPUTATIONS

An agreement shall contain a provision regarding the method of computing the benefits payable under the U.S. system if entitlement is established based on combined periods of coverage under the U.S. system and under the foreign system. The benefit payable under the U.S. system shall be based on the proportion of the person's periods of coverage completed under the U.S. system.

To determine the benefit payable under an agreement, a "theoretical" primary insurance amount (PIA) (see § 404.203(a) for the definition of the PIA) shall be computed like other title II PIA's, but by combining the person's covered earnings under both the U.S. and the foreign systems. The theoretical PIA shall then be reduced in proportion to the periods of coverage actually completed under the U.S. system. The amount derived shall be called the pro rata PIA. An example illustrating this provision is provided in the proposed § 404.1918(a).

Auxiliary and survivors benefit amounts shall be determined on the basis of the pro rata PIA. The regular reductions for age under section 202(q) of the Act shall apply to the pro rata benefits of the wage earner and to any auxiliaries or survivors. Benefits shall be payable subject to the family maximum (see § 404.403) derived from the pro rata PIA. If the pro rata PIA is less than the minimum PIA, the family maximum shall be 1½ times the pro rata PIA.

The pro rata PIA shall be recomputed only if the inclusion of the additional earnings will result in an increase in both the theoretical PIA and the benefits payable by the U.S. to all beneficiaries, unless otherwise provided by the agreement. Subject to these limitations, the pro rata PIA shall be automatically recomputed, as provided in § 404.244, to include additional earnings under the U.S. system. An application, however, must be filed to have the pro rata PIA recomputed to include additional foreign earnings.

A U.S. resident may receive benefits under an agreement from both the U.S. and from the foreign country. The total amount of the resident's two benefits, however, may be less than the amount for which the resident would qualify under the U.S. system based on the minimum PIA. A totalization agreement may provide that the U.S. supplement the total amount to raise it to the amount for which the resident would have qualified under the U.S. system based on the minimum PIA.

## 5. APPLICATIONS

We will consider an application filed with the foreign system to be filed with the Social Security Administra-

tion (SSA) as of the date it is filed with the foreign system, if an applicant expresses or implies an intent to claim benefits from the U.S. under an agreement. Generally the same rules for applications filed with SSA will apply. Benefits shall not be payable on the basis of an application filed before the effective date of the agreement.

## 6. EVIDENCE

SSA may consider evidence submitted to the social security system of the foreign country as evidence submitted to SSA. SSA shall use the rules in §§ 404.708 and 404.709, which were published as a final rule in the FEDERAL REGISTER on June 7, 1978 (43 FR 24794), to determine if the evidence submitted is sufficient or if additional evidence is needed to prove initial or continuing entitlement to benefits.

If an application is filed for disability insurance benefits, SSA shall consider medical evidence, if any, submitted to the foreign system as if it were submitted to the U.S. system. We will use the rules in Subpart P of Regulations No. 4, for making a disability determination.

## 7. APPEALS

SSA will consider a request for consideration, hearing, or Appeal Council review of a determination made by SSA that is filed with the foreign system within the 60-day time period applicable to SSA determinations to be timely filed with SSA. We will apply the provisions in Subpart J of Regulations No. 4 in adjudicating the request.

## 8. EFFECT OF THE ALIEN NON-PAYMENT PROVISION

An agreement may provide that a person entitled to benefits under the U.S. system may receive those benefits while residing in the foreign country party to an agreement, regardless of the alien non-payment provision (see § 404.460).

## 9. OVERPAYMENTS

Section 204 of the Act, § 404.502 of the regulations, provides for adjusting payments if a person has received more than the correct payment under title II. Payments made by a foreign country, however, are not considered payments under title II. Therefore, title II benefits may not be adjusted under section 204 of the Act to recover an overpayment made by the foreign system of a country party to a totalization agreement. Section 233 of the Act provides that an "agreement may contain other provisions which are not inconsistent with other provisions of this title . . ." If an agreement authorized the adjustment of title II benefits to recover an overpayment

made by the foreign country, the provisions would be "inconsistent with" sections 205(i) and 207 of the Act. Therefore, a totalization agreement may not authorize the adjustment of title II benefits to recover an overpayment made by the foreign system. Proposed § 404.1929 reflects these adjustment prohibitions.

## 10. DISCLOSURE OF INFORMATION

The use of information furnished under an agreement generally shall be governed by the national statutes on confidentiality and disclosure of information of the country that has been furnished the information. In negotiating an agreement, consideration should be given to the compatibility of the other country's laws on confidentiality and disclosure with those of the U.S. To the extent possible, information exchanged between the U.S. and the other country should be exclusively for purposes of implementing the agreement.

The U.S. signed totalization agreements with Italy in 1973 and with the Federal Republic of Germany in 1976. The Italian agreement has already been through the Congressional review process and is expected to become effective on November 1, 1978. The President sent the agreement with the Federal Republic of Germany to Congress on September 21, 1978. The agreements entered into with Italy and the Federal Republic of Germany are consistent with these proposed regulations. As agreements become effective, they will be published as notices in the FEDERAL REGISTER.

The proposed rule is to be issued under the authority of sections 205, 233, and 1102 of the Social Security Act; 53 Stat. 1368, 91 Stat. 1538, and 49 Stat. 647, as amended; 42 U.S.C. 405, 433, and 1302.

(Catalog of Federal Domestic Assistance Programs No. 13.802, Social Security—Disability Insurance and 13.803-4, Social Security Retirement and Survivors Insurance)

Dated: October 2, 1978.

DON WORTMAN,  
Acting Commissioner of  
Social Security.

Approved: December 11, 1978.

JOSEPH A. CALIFANO, JR.,  
Secretary of Health,  
Education, and Welfare.

Part 404 of chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Subpart T is added to read as follows:

## Subpart T—Totalization Agreements

## GENERAL PROVISIONS

Sec.  
404.1901 Introduction.  
404.1902 Definitions.

Sec.  
404.1903 Negotiating totalization agreements.  
404.1904 Effective date of a totalization agreement.  
404.1905 Termination of agreements.

## BENEFIT PROVISIONS

404.1906 Crediting foreign periods of coverage.  
404.1910 Person qualifies under more than one totalization agreement.  
404.1911 Effects of a totalization agreement on entitlement to hospital insurance benefits.

## COVERAGE PROVISIONS

404.1913 Precluding dual coverage.  
404.1914 Certificate of coverage.  
404.1915 Payment of contributions.

## COMPUTATION PROVISIONS

404.1918 How benefits are computed.  
404.1919 How benefits are recomputed.  
404.1920 Supplementing the U.S. benefit if the total amount of the combined benefits is less than the U.S. minimum benefit.  
404.1921 Benefits of less than \$1 due.

## OTHER PROVISIONS

404.1925 Applications.  
404.1926 Evidence.  
404.1927 Appeals.  
404.1928 Effect of the alien non-payment provision.  
404.1929 Overpayments.  
404.1930 Disclosure of information.

AUTHORITY: Sec. 205, 233, and 1102; 53 Stat. 1368, 91 Stat. 1538, and 49 Stat. 647, as amended; (42 U.S.C. 405, 433, 1302)

## Subpart T—Totalization Agreements

## GENERAL PROVISIONS

## § 404.1901 Introduction.

Under section 233 of the Social Security Act, the President may enter into an agreement establishing a totalization arrangement between the social security system of the U.S. and the social security system of a foreign country. An agreement permits entitlement to and the amount of old-age, survivors, disability, or derivative benefits to be based on a combination of a person's periods of coverage under the social security system of the U.S. and the social security system of the foreign country. An agreement also provides for the precluding of dual coverage and dual social security taxation for work covered under both systems. An agreement may provide that the provisions of the social security system of each country will apply equally to the nationals of both countries (regardless of where they reside). For this purpose, refugees, stateless persons, and other nonnationals who derive benefit rights from nationals, refugees, or stateless persons may be treated as nationals if they reside within one of the countries. The following sections provide definitions and

principles for the negotiation and administration of totalization agreements. Where necessary to accomplish the purposes of totalization, we will apply these definitions and principles, as appropriate and within the limits of the law, to accommodate the widely diverse characteristics of foreign social security systems.

## § 404.1902 Definitions.

For purposes of this subpart—

"Act" means the Social Security Act (42 U.S.C. 401 et. seq.).

"Agency" means the agency responsible for the specific administration of a social security system including responsibility for implementing an agreement; the Social Security Administration (SSA) is the "agency" in the U.S.

"Agreement" means the agreement negotiated to provide coordination between the social security systems of the countries party to the agreement. The term agreement includes any administrative agreements concluded for purposes of administering the agreement.

"Competent authority" means the official with overall responsibility for administration of a country's social security system including applicable laws and international social security agreements; the Secretary of HEW is the "competent authority" in the U.S.

"Period of coverage" means a period of payment of contributions or a period of earnings based on wages for employment or on self-employment income, or any similar period recognized as equivalent under the social security system of the U.S. or under the social security system of the foreign country which is a party to an agreement.

"Residence" or "ordinarily resides," when used in agreements, has the following meaning for the U.S. "Residence" or "ordinarily resides" in a country means that a person has established a home in that country intending to remain there permanently or for an indefinite period of time. Generally, a person will be considered to have established a home in a country if that person assumes certain economic burdens, such as the purchase of a dwelling or establishment of a business, and participates in the social and cultural activities of the community. If residence in a country is established, it may continue even though the person is temporarily absent from that country. Generally, an absence of six months or less will be considered temporary. If an absence is for more than six months, residence in the country will generally be considered to continue only if there is sufficient evidence to establish that the person intends to maintain the residence. Sufficient evidence would include the main-

tenance of a home or apartment in that country, the departure from the country with a reentry permit, or similar acts. The existence of business or family associations sufficient to warrant the person's return would also be considered.

"Social security system" means a social insurance or pension system which is of general application and which provides for paying periodic benefits, or the actuarial equivalent, because of old-age, death, or disability.

## § 404.1903 Negotiating totalization agreements.

An agreement shall be negotiated with the National government of the foreign country for the entire country. However, agreements may only be negotiated with foreign countries that have a social security system of general application in effect. The system shall be considered to be in effect if it is collecting social security taxes or paying social security benefits.

## § 404.1904 Effective date of a totalization agreement.

A totalization agreement shall become effective on any date provided in the agreement if—

(a) The date occurs after the expiration of 90 days in any one Congress on each of which both Houses of Congress have been in session following the date on which the agreement is transmitted to Congress by the President; and

(b) Neither House of Congress adopts a resolution of disapproval of the agreement within the 90-day period described in paragraph (a) of this section.

## § 404.1905 Termination of agreements.

Each agreement shall contain provisions for its possible termination. If an agreement is terminated, entitlement to benefits and coverage acquired by an individual before termination shall be retained. The provisions shall provide for notification of termination to the other party and the effective date of termination.

## BENEFIT PROVISIONS

## § 404.1906 Crediting foreign periods of coverage.

(a) General. An individual must have at least 6 quarters of coverage, as defined in section 213 of the Social Security Act, to have foreign periods of coverage combined with U.S. periods of coverage for purposes of determining entitlement to and the amount of benefits payable under title II. As a rule, SSA will accept foreign coverage information, as certified by the foreign country's agency, unless otherwise specified by the agreement. No credit will be given, however, for peri-

ods of coverage acquired before January 1, 1937. Also, foreign earnings will be added to any covered U.S. earnings, subject to the maximum yearly limitation in U.S. law (see § 404.1027).

(b) For quarters of coverage purposes. (1) Generally, a quarter of coverage (QC) will be credited for every 3 months (or equivalent period) of coverage certified to SSA by the other country's agency. QC's based on foreign periods of coverage may be credited as QC's only to calendar quarters not already QC's under title II. Earnings under the foreign system may be assigned only to those calendar quarters where a QC has been credited based on foreign coverage.

(2) If an individual fails to meet the requirements for currently insured status or the insured status needed for establishing a period of disability solely because of the assignment of QC's based on foreign coverage to calendar quarters chronologically, the QC's based on foreign coverage may be assigned to different calendar quarters within the beginning and ending date of the period reported by the foreign country, but only as permitted under paragraph (b)(1) of this section.

#### § 404.1910 Person qualifies under more than one totalization agreement.

(a) An agreement may not provide for combining periods of coverage under more than two social security systems.

(b) If a person qualifies under more than one agreement, the person will receive benefits from the U.S. only under the agreement affording the most favorable treatment.

(c) In the absence of evidence to the contrary, the agreement that provides the higher benefit will be considered as affording the most favorable treatment for purposes of paragraph (b) of this section.

#### § 404.1911 Effects of a totalization agreement on entitlement to hospital insurance benefits.

A person may not become entitled to hospital insurance benefits under section 226 of the Act by combining the person's periods of coverage under the social security system of the U.S. with the person's periods of coverage under the social security system of the foreign country. Entitlement to hospital insurance benefits is not precluded if the person otherwise meets the requirements.

#### COVERAGE PROVISIONS

##### § 404.1913 Precluding dual coverage.

(a) General. Employment or self-employment or services recognized as equivalent under the Act or the social security system of the foreign country shall, on or after the effective date of

the agreement, result in a period of coverage under the U.S. system or under the foreign system, but not under both. Methods shall be set forth in the agreement for determining under which system the employment, self-employment, or other service shall result in a period of coverage.

(b) Principals for precluding dual coverage. (1) Although an agreement may modify coverage provisions of title II of the Act, it should do so by exemptions from coverage rather than by extensions of coverage under title II of the Act. Generally, a worker will be covered by the country in which he or she is working. However, an agreement may provide exceptions to this principle so that a worker will be covered by the country to which he or she has the greater attachment.

(2) If the work would otherwise be covered by both countries, an agreement will exempt the worker from coverage by one of the countries.

EXAMPLE: A U.S. citizen working temporarily in the branch office of a U.S. employer in XYZ country will remain covered by the U.S. and exempt from coverage by XYZ country.

(3) If the work would otherwise be covered only by the U.S. but the worker has the greater attachment to the economy of the foreign country, an agreement may exempt the worker from U.S. coverage and provide for coverage by the foreign country.

EXAMPLE: A national of XYZ country sent by his employer in XYZ country to work for that employer in the U.S. will, after the effective date of the agreement, be covered by XYZ country and exempt from coverage by the U.S.

(4) Agreements may provide for variations from the general principles for precluding dual coverage to avoid inequitable or anomalous coverage situations for certain workers. However, if a worker performs services that are not now covered under the U.S. system, an agreement should refrain from creating coverage for those services.

##### § 404.1914 Certificate of coverage.

Under some agreements, proof of coverage under one social security system may be required before the individual may be exempt from coverage under the other system. Requests for certificate of coverage under the U.S. system may be submitted by the employer, employee, or self-employed individual to SSA.

##### § 404.1915 Payment of contributions.

On or after the effective date of the agreement, to the extent that employment or self-employment (or service recognized as equivalent) under the U.S. social security system or foreign system is covered under the agreement, the agreement shall provide

that the work or equivalent service be subject to payment of contributions or taxes under only one system (see sections 1401(d), 3101(c), and 3111(c) of the Internal Revenue Code of 1954).

#### COMPUTATION PROVISIONS

##### § 404.1918 How benefits are computed.

(a) To determine the benefit payable under an agreement, a theoretical primary insurance amount (see § 404.203(a) for the definition of the PIA) shall be computed like other title II PIA's, but by combining the person's covered earnings under both the U.S. and the foreign systems. The theoretical PIA shall then be reduced in proportion to the periods of coverage actually completed under the U.S. system. The amount derived shall be called the pro rata PIA.

EXAMPLE: A person needs 25 QC's to be insured, but has only 5 years of work (20 QC's), under the U.S. system. The person, however, has 10 years of work (40 QC's) under the social security system of a foreign country that is a party to a totalization agreement. The combined coverage gives the person insured status. The theoretical PIA is computed on the basis of combined earnings under both the U.S. and foreign systems. This amount is then reduced in proportion to the coverage earned under the U.S. system. If the theoretical PIA is \$270, the computation shall be as follows:

\$270 (Theoretical PIA) × 20 (U.S. QC's)/60 (20 U.S. + 40 Foreign QC's) = \$90 (Pro rata PIA)

(b) If the pro rata PIA, as described in paragraph (a) of this section, does not correspond to a PIA provided by section 215(a) of the Act, it shall be rounded to the nearest PIA provided by that section. If the pro rata PIA is less than the minimum PIA provided by section 215(a), it shall be rounded to the next higher multiple of \$.10, if it is not a multiple of \$.10 (see section 215(g) of the Act).

(c) Auxiliary and survivors benefit amounts (see Subpart D) shall be determined on the basis of the pro rata PIA. The regular reductions for age under section 202(q) of the Act shall apply to the pro rata benefits of the wage earner and to any auxiliaries or survivors. Benefits shall be payable subject to the family maximum (see § 404.403) derived from the pro rata PIA. If the pro rata PIA is less than the minimum PIA, the family maximum shall be 1½ times the pro rata PIA.

##### § 404.1919 How benefits are recomputed.

The pro rata PIA shall be recomputed only if the inclusion of the additional earnings results in an increase in both the theoretical PIA and the benefits payable by the U.S. to all beneficiaries, unless otherwise provided by the agreement. Subject to

these limitations, the pro rata PIA will be automatically recomputed (see § 404.244) to include additional earnings under the U.S. system. An application, however, must be filed to have the pro rata PIA recomputed to include additional earnings under the foreign system.

##### § 404.1920 Supplementing the U.S. benefit if the total amount of the combined benefits is less than the U.S. minimum benefit.

If a resident of the U.S. receives benefits under an agreement from both the U.S. and from the foreign country, the total amount of the two benefits may be less than the amount for which the resident would qualify under the U.S. system based on the minimum PIA. An agreement may provide that the U.S. shall supplement the total amount to raise it to the amount for which the resident would have qualified under the U.S. system based on the minimum PIA. (The minimum benefit shall be based on the first figure in column IV in the table in section 215(a) of the Act for a person becoming eligible for the benefit before January 1, 1979, or the primary insurance amount determined under section 215(a)(1)(C)(i)(I) of the Act for a person becoming eligible for the benefit after December 31, 1978.)

##### § 404.1921 Benefits of less than \$1 due.

If the monthly benefit amount due an individual (or several individuals, e.g., children, where several benefits are combined in one check) as a result of a claim filed under an agreement is less than \$1, the benefits may be accumulated until they equal or exceed \$5.

#### OTHER PROVISIONS

##### § 404.1925 Applications.

(a) An application filed with the competent authority or agency of a country with which the U.S. has concluded an agreement shall be considered an application for benefits under title II of the Act, if an applicant expresses or implies an intent to claim benefits from the U.S. under an agreement.

(b) An application or a written statement requesting benefits submitted to the competent authority or agency of a country, described in paragraph (a) of this section, shall be considered to have been filed with SSA as of the date it is filed with the competent authority or agency.

(c) Benefits under an agreement may not be paid on the basis of an application filed before the effective date of the agreement.

(d) If an application, as described in this section constitutes an application

for title II benefits, it shall be subject to the same rules that apply to applications filed with SSA (see Subpart G of this part).

##### § 404.1926 Evidence.

(a) An applicant for benefits under an agreement shall submit the evidence needed to establish entitlement, as provided in Subpart H of this part. Special evidence requirements for disability benefits are in Subpart P of this part.

(b) Evidence submitted to the competent authority or agency of a country with which the U.S. has concluded an agreement may be considered as evidence submitted to SSA. SSA shall use the rules in §§ 404.708 and 404.709 to determine if the evidence submitted is sufficient, or if additional evidence is needed to prove initial or continuing entitlement to benefits.

(c) If an application is filed for disability benefits, SSA shall consider medical evidence submitted to a competent authority or agency, as described in paragraph (b) of this section, and use the rules of Subpart P of this part for making a disability determination.

##### § 404.1927 Appeals.

(a) A request for reconsideration, hearing, or Appeals Council review of a determination that is filed with the competent authority or agency of a country with which the U.S. has concluded an agreement, shall be considered to have been timely filed with SSA if it is filed within the 60-day time period provided in §§ 404.911, 404.918, and 404.946.

(b) A request for reconsideration, hearing, or Appeals Council review of a determination made by SSA resulting from a claim filed under an agreement shall be subject to the provisions in Subpart J of this part. The rules governing administrative finality in Subpart J of this part shall also apply.

##### § 404.1928 Effect of the alien non-payment provision.

An agreement may provide that a person entitled to benefits under title II of the Social Security Act may receive those benefits while residing in the foreign country party to the agreement, regardless of the alien non-payment provision (see § 404.460).

##### § 404.1929 Overpayments.

An agreement may not authorize the adjustment of title II benefits to recover an overpayment made under the social security system of a foreign country (see § 404.501). Where an overpayment is made under the U.S. system, the provision in Subpart F of this part will apply.

##### § 404.1930 Disclosure of information.

The use of information furnished under an agreement generally shall be governed by the national statutes on confidentiality and disclosure of information of the country that has been furnished the information. (The U.S. will be governed by pertinent provisions of the Social Security Act, the Freedom of Information Act, the Privacy Act, the Tax Reform Act, and other related statutes.) In negotiating an agreement, consideration should be given to the compatibility of the other country's laws on confidentiality and disclosure to those of the U.S. To the extent possible, information exchanged between the U.S. and the foreign country should be exclusively for purposes of implementing the agreement.

2. Section 404.302 is revised to read as follows:

##### § 404.302 Amount of benefit payments.

Ordinarily, a beneficiary is paid the monthly benefit or lump sum to which he or she is entitled in the amount indicated in the succeeding sections of this subpart. However, in some instances a beneficiary may be paid more or less than that amount because of the provisions of Subparts E or F of this part. See those subparts for full explanation of the circumstances under which these changes occur. See Subpart E of this part also for conditions under which benefits will not be paid where the person on whose earnings record benefits are claimed or based is deported, or where a claimant or beneficiary is an alien residing outside the United States or has been convicted of certain offenses. Also see § 404.377 of this subpart for reduction of special payments to persons at age 72 because of eligibility for governmental pension system benefits. In addition see § 404.1918 when a proportionate payment is made to a person under a totalization agreement.

##### § 404.460 [Amended]

3. In § 404.460, the cross-reference in paragraph (a) immediately preceding paragraph (a)(1) is changed from "(See § 404.380 regarding special payments at age 72.)" to "(See § 404.380 regarding special payments at age 72 and § 404.1928 regarding payments under a totalization agreement.)"

## DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[23 CFR Part 650]

[FHWA Docket No. 78-9]

## LOCATION AND HYDRAULIC DESIGN OF ENCROACHMENTS ON FLOOD PLAINS

AGENCY: Federal Highway Administration, DOT.

ACTION: Notice of proposed rulemaking.

**SUMMARY:** This document is issued to solicit comments on suggested revisions to an existing regulation, Hydraulic Design of Highway Encroachments on Flood Plains. The revisions set forth criteria for flood-plain management within programs administered by the Federal Highway Administration (FHWA) as established by Executive Order 11988 of May 24, 1977.

**DATE:** Comments must be received on or before February 26, 1979.

**ADDRESS:** Written comments should be sent (preferably in triplicate) to: FHWA Docket No. 78-9, Federal Highway Administration, Room 4205, (HCC-10), 400 7th Street, SW., Washington, D.C. 20590. All comments and suggestions received will be available for examination at the above address between 7:45 a.m. and 4:15 p.m. ET, Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Frank L. Johnson or Mr. Philip L. Thompson, 202-472-7690, Office of Engineering; Mr. Lee J. Burstyn, Office of the Chief Counsel, 202-426-0786, Federal Highway Administration, 400 7th Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

**SUPPLEMENTARY INFORMATION:** This rulemaking process solicits comments on the implementation of procedures for the location and hydraulic design of highway encroachments on flood plains. This rulemaking is proposed to amend an existing regulation to include provisions required by Executive Order 11988-Floodplain Management which are not addressed in other Federal Highway Administration (FHWA) regulations. The existing regulation (23 CFR 650, Subpart A) was originally published at 39 FR 36331 on October 9, 1974. This proposed revision would codify the policies and procedures contained in Volume 6, Chapter 7, Section 3, Subsection 2, of the Federal-Aid Highway Program Manual.\* Pursuant to Execu-

\* This document is available for inspection and copying as prescribed in 49 CFR Part 7, Appendix D.

tive Order 11988, the Department of Transportation published at 43 FR 27148 on June 22, 1978, its proposed policies and procedures on protection and management of flood plains. This rulemaking is consistent with the aforementioned Department of Transportation's directive.

Since provisions of this proposed regulation will be implemented by highway agencies which receive Federal-aid highway funds, the provisions are in the form of general policy and requirements. Specific procedures to satisfy this regulation will be established by highway agencies within the framework of their environmental action plans (23 CFR 795, Process Guidelines for the Development of Environmental Action Plans) and design policy. Review for compliance with this regulation will be accomplished by FHWA Division Offices located in each State.

In preparing this proposed regulation, the FHWA consulted with the U.S. Water Resources Council (WRC), the U.S. Council on Environmental Quality, and the Federal Insurance Administration.

Advisory material in the Water Resources Council Floodplain Management Guidelines for Implementing E.O. 11988 (43 FR 6030) was considered in drafting this regulation. The decisionmaking process set forth in the Guidelines, as an explanation of the Executive Order's provisions, is dissimilar to procedures applicable to programs administered by the FHWA. The Guidelines assume that the decisionmaking process involves a single large flood plain and a proposed action at a location on that large flood plain. With this premise, the following WRC decisionmaking process steps appear workable: (1) determine if proposed action is in the base flood plain, (2) provided early public review, (3) identify and evaluate alternatives to locating in the base flood plain, (4) identify impacts of proposed action, (5) minimize impacts, restore and preserve flood plain values, (6) reevaluate alternatives, and (7) make findings and provide public explanation.

This WRC decisionmaking process is inappropriate for general application in determining highway design and location. Highway actions are processed and reviewed as sections or projects between logical termini and, as such, traverse numerous flood plains of various size and relevance. Since flood plains can only be entirely avoided for those rare projects located on a watershed boundary, the "no-build" alternative is the only alternative to an encroachment of even minimal impact. If a specific flood plain or series of flood plains are avoided, encroachment at other locations or other flood plains by necessity become involved. There-

fore, giving consideration to avoidance of all base flood plains with a highway actions is not feasible. Except for locations on a watershed boundary and the "no-build" solution, alternative locations under consideration will involve flood plains.

For proposed highway actions on flood plains the decision process involves comparing various highway alternatives and their related impacts, choosing an alternative, minimizing the impacts of the chosen alternative, and restoring and preserving the impacted flood-plain values. This process includes the alternative of avoiding any action by withdrawing the proposed project. The decision generally is not whether the highway should be located in or out of the base flood plain, but rather which series of flood plains to impact if the "no-build" alternative is not a viable alternative. To support the resulting decision the proposed regulation requires that all base flood plains and the impacts to them be identified for all alternatives. If this identification reveals that an "action on the base flood plain" (encroachment) will cause unusually adverse impacts, the action will be termed a "significant encroachment" and require special attention. This includes making an only practicable alternative finding by FHWA of why these unusual impacts cannot be avoided and what alternatives were considered.

A significant encroachment, as defined in this proposed regulation, contemplates construction or flood related impact which may include substantial likely future damage, disruption of an emergency or evacuation route, high probability of loss of human life, or notable adverse impact on flood-plain values. The application of this definition in highway design and location will avoid the significant adverse effects due to occupancy and alteration of flood plains as contemplated by the Executive Order. It will allow for the thorough consideration of all relevant highway actions in accordance with the procedures outlined in this proposed regulation.

This notice of proposed rulemaking is issued under the authority of 23 U.S.C. §§ 109(a), 315 and the delegation of authority by the Secretary of Transportation at 49 CFR 1.48(b).

**NOTE:** The Federal Highway Administration has determined that this document does not contain a significant proposal according to the criteria established by the Department of Transportation pursuant to E.O. 12044.

Issued on: December 12, 1978.

JOHN S. HASSELL, Jr.,  
Deputy Administrator.

In consideration of the foregoing, the Federal Highway Administration proposes to revise Part 650, Subpart A of Chapter I, Title 23, Code of Federal Regulations to read as follows:

## PART 650—BRIDGES, STRUCTURES AND HYDRAULICS

## Subpart A—Location and Hydraulic Design of Encroachments on Flood Plains

| Sec.    | Purpose.                              |
|---------|---------------------------------------|
| 650.101 | Purpose.                              |
| 650.103 | Policy.                               |
| 650.105 | Definitions.                          |
| 650.107 | Application.                          |
| 650.109 | Flood-plain identification.           |
| 650.111 | Public involvement.                   |
| 650.113 | Location hydraulic studies.           |
| 650.115 | Environmental processing.             |
| 650.117 | Only practicable alternative finding. |
| 650.119 | Design standards.                     |
| 650.121 | Design studies and documentation.     |

**AUTHORITY:** 23 U.S.C. 109(a), 315; 23 CFR 1.32; 49 CFR 1.48(b); E.O. 11988—Floodplain Management, May 24, 1977, (42 FR 26951).

## Subpart A—Location and Hydraulic Design of Encroachments on Flood Plains

## § 650.101 Purpose.

To prescribe Federal Highway Administration (FHWA) policies and procedures for the location and hydraulic design of highway encroachments on flood plains, including Direct Federal highway projects administered by FHWA.

## § 650.103 Policy.

It is the policy of the FHWA:

- To encourage a broad and unified effort to prevent uneconomic, hazardous or incompatible use and development of the Nation's flood plains,
- To avoid highway encroachments, where practicable,
- To minimize the impacts of highway agency actions which adversely affect base flood plains,
- To restore and preserve the function of natural and beneficial flood-plain values adversely impacted by highway agency actions,
- To avoid the direct and indirect support of incompatible flood-plain development, and
- To be consistent with the intent of the Standards and Criteria of the National Flood Insurance Program, where applicable, in the construction of Direct Federal highway projects, and
- To incorporate "A Unified National Program for Floodplain Management" of the Water Resources Council into FHWA procedures.

## § 650.105 Definitions.

As used in this regulation—

(a) "Action" shall mean any highway construction, reconstruction, rehabilitation, repair, or improvement undertaken with Federal or Federal-aid highway funds.

(b) "Base flood" shall mean that flood or tide having a 1-percent chance of being exceeded in any given year.

(c) "Base flood plain" shall mean that area subject to flooding by the base flood.

(d) "Design Flood" shall mean the peak discharge, volume, if appropriate, stage or wave crest elevation, of the flood associated with the recurrence interval selected for the design of a highway encroachment. Except where terrain or other factors, such as a grade separation, control the highway profile elevation, floods greater than the design flood will overtop the highway or flow over the watershed divide.

(e) "Encroachment" shall mean an action within the limits of the base flood plain.

(f) "Facility" shall mean any element of the built environment other than a walled or roofed building.

(g) "Flood of record" shall mean the largest historical flood event which has been reliably determined and recorded.

(h) "Floodproof" shall mean to design and construct individual buildings, facilities, and their sites to protect against structural failure, to keep water out or to reduce the effects of water entry.

(i) "Floodway" shall mean the flood-plain area that is reserved in an open manner by Federal, State or local requirements, i.e., unconfined or unobstructed either horizontally or vertically, to provide for the discharge of the base flood so that the cumulative increase in water surface elevation is no more than a designated amount (not to exceed 1 foot as set by the National Flood Insurance Program).

(j) "Minimize" shall mean to reduce to the smallest practicable amount or degree.

(k) "Natural and beneficial flood plain values" shall include but are not limited to: fish, wildlife, plants, open space, natural beauty, scientific study, outdoor recreation, agriculture, aquaculture, forestry, natural moderation of floods, water quality maintenance, and groundwater recharge.

(l) "Practicable" shall mean capable of being done within reasonable natural, social, and economic constraints.

(m) "Preserve" shall mean to avoid modification to the natural flood-plain environment or to maintain it as closely as practicable in its natural state.

(n) "Restore" shall mean to reestablish a setting or environment in which the functions of the natural and beneficial flood-plain values adversely impacted by the highway agency action can again operate.

(o) "Risk" shall mean the economic and other consequences associated with the probability of flooding attributable to an encroachment. It shall include the potential for property loss, hazard to life, and impact on natural and beneficial flood-plain values during the service life of the highway.

(p) "Significant encroachment" shall mean a highway encroachment and any direct support of likely base flood-plain development that would involve one or more of the following construction or flood related impacts:

(1) Likely future damage associated with the encroachment that could be substantial in cost or extent, including potential interruption or termination of a transportation facility which is needed for emergency vehicles or provides a community's only evacuation route.

(2) A high probability of loss of human life, or

(3) A notable adverse impact on natural and beneficial flood-plain values.

(q) "Structure" shall mean a bridge, culvert or other facility designed for the purpose of conveying flood waters. (As defined by the Water Resources Council (WRC) and the Federal Insurance Administration (FIA), a structure is a walled and roofed building.)

(r) "Support base flood-plain development" shall mean to encourage, allow, serve, or otherwise facilitate additional base flood-plain development. Direct support results from an encroachment, while indirect support results from an action out of the base flood plain.

## § 650.107 Application.

(a) The provisions of this regulation, except the provisions of § 650.117, shall apply to all encroachments and to all actions which affect base flood plains, except as set forth in § 650.107(d).

(b) The provisions of §§ 650.109 through 650.117 of this regulation shall be implemented in a timely manner during development of current projects. Documentation of compliance with these provisions should be incorporated into project records, where practicable. However, highway sections may be processed without formal documentation where one of the following actions have occurred:

(1) The draft environmental impact statement (EIS) has been filed with the Environmental Protection Agency (EPA) prior to or within 6 months following the date of this regulation and the final EIS for this draft EIS is filed with EPA within 1 year following the date of this regulation, or

(2) The provisions for public hearings under the State Action Plan (23 CFR 790) have been met, the FHWA has concurred in a "nonmajor action" determination or approved the nega-

tive declaration, and the FHWA (or State highway agency under the provisions of 23 CFR 640) has given approval which is equivalent to location approval within 60 days following the date of this regulation.

(c) The following actions are found to be in compliance with the provisions of this regulation and no further documentation is required of highway agencies:

(1) Resurfacing highways, correcting substandard intersections, improving railroad at-grade crossings.

(2) Lighting, signing, pavement marking, signalization, freeway surveillance and control systems, and protective devices at railroad crossings.

(3) Pavement grooving, glare screen, and energy attenuators for safety improvement.

(4) Reconstruction of crossroad or railroad separations.

(5) Highway landscaping, and

(6) Construction of bus shelters and bays.

(d) The provisions of this regulation shall not apply to repairs made with emergency funds (23 CFR 630, Subpart E) during or immediately following a disaster.

(e) The provisions of 23 CFR 640, Certification Acceptance, cannot be applied to the requirements of this regulation.

#### § 650.109 Flood-plain identification.

Base flood-plain limits shall be established and encroachments delimited for location alternatives. FIA maps, where available, shall be used to identify flood plains.

#### § 650.111. Public involvement.

If an alternative under consideration contains an encroachment, opportunity for early public review and comment on the proposed encroachment shall be provided within the framework of procedures which have been established to meet the public involvement requirements of 23 CFR, Parts 771 and 795 or 790.

#### § 650.113. Location hydraulic studies.

(a) Alternatives to encroachments shall be investigated.

(b) Alternatives containing encroachments shall be evaluated in sufficient detail to assess the flood risk.

#### § 650.115. Environmental processing.

(a) Project records shall contain discussion of the following items, commensurate with the significance of the impact, for all alternatives containing encroachments and for those actions which would support base flood-plain development:

(1) The risks associated with implementation of the action.

(2) The impacts on natural and beneficial flood-plain values.

(3) The degree of direct and indirect support of incompatible flood-plain development.

(4) The measures to minimize impacts associated with the action, and

(5) The measures to restore and preserve the natural and beneficial flood-plain values impacted by the action.

(b) Project records shall contain discussion of § 650.117 (a)(1) through (3) in sufficient detail to permit review of the practicability of alternatives to significant encroachments.

(c) Where FIA standards and criteria are demonstrably inappropriate for a proposed Direct Federal highway action, project records shall contain discussion of the reasons therefor.

#### § 650.117 Only practicable alternative finding.

(a) A proposed action which includes a significant encroachment shall not be approved unless the Division Administrator finds, in writing, that the proposed significant encroachment is the only practicable alternative. The proposed finding shall ordinarily be included in the final environmental document for the proposed action. The finding shall include:

(1) The reasons why the proposed action must be located in the flood plain.

(2) A list of alternative considered and why they were not practicable, and

(3) A statement indicating whether the action conforms to applicable State or local flood-plain protection standards.

(b) A copy of the finding and a location map shall be made available to appropriate State and areawide clearinghouses following procedures established in accordance with 23 CFR 420, Subpart C.

#### § 650.119. Design standards.

(a) All encroachments shall be designed with consideration of capital costs and risks to accommodate passage of the base flood and to be consistent with standards established by the FIA, State, and local governmental agencies for the administration of the National Flood Insurance Program where a floodway has been designated.

(1) Accommodation of the base flood may be through highway drainage structures, over the highway, or both.

(2) Accommodation of the base flood along a highway may include inundation of the highway.

(b) The design flood selected for each encroachment shall be supported by an analysis of design alternatives with consideration given to capital costs, risks, stream stability, budgetary constraints, the need for emergency supply and evacuation routes and the need for emergency vehicle access.

(c) The design flood for encroachments by through lanes of Interstate highways shall not be less than the flood with a 2-percent chance of being exceeded in any given year. No minimum design flood is specified for Interstate highway ramps and frontage roads or for other Federal-aid highways.

(2) The effects of existing flood control channels, levees, and reservoirs shall be considered in estimating the peak discharge and stage for all floods considered in the design.

(c) Rest area buildings and waste treatment facilities shall be located outside the base flood plain or flood-proofed against damage from the base flood.

(d) Where highway fills are to be used as dams to permanently impound water more than 50 acre-feet in volume or 25-feet deep, the hydrologic, hydraulic, and structural design of the fill and appurtenant spillways shall have the approval of the State or Federal agency responsible for the safety of dams or like structures within the State, prior to authorization by the Division Administrator to advertise for bids.

(e) Safety grates shall not be installed on cross-drainage structures unless upstream debris control structures exist or are installed.

#### § 650.121. Design studies and documentation.

(a) The detail of studies and documentation shall be commensurate with the risk associated with the encroachment, the importance of the highway facility and the importance of the flood plain. Less comprehensive studies are appropriate for encroachments on minor streams and at locations where the risk is small.

(b) Documentation of studies by highway agencies shall contain:

(1) Hydrologic and hydraulic data and design computations, and

(2) The design flood and base flood analysis required by § 650.119(a) and (b).

(c) At each encroachment location, project plans shall show:

(1) The magnitude, probability of exceedence, and water surface elevations at appropriate locations for the design flood and the base flood, if different from the design flood, and

(2) The magnitude, water surface elevation and date of occurrence of the flood of record, if greater than the base flood.

(d) The documentation of design computations shall be retained in accordance with 23 CFR Part 17.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—  
Federal Housing Commissioner

[24 CFR Part 445]

[Docket No. R78-601]

### SECTION 312 REHABILITATION HOUSING

#### Application of Payments

AGENCY: Department of Housing and Urban Development (HUD)

ACTION: Proposed rule.

SUMMARY: This rule applies repayments on delinquent loans for Section 312 Rehabilitation Housing first to interest, and the remainder to principal. This rule is necessary because the current practice of not computing interest until the principal is paid in full results in a lower interest rate for borrowers who default than for borrowers who remain current in payment.

DATE: Comments must be received on or before January 28, 1979.

ADDRESS: Written comments should refer to the docket number and date and should be submitted to the Rules Docket Clerk, Office of the General Counsel, Room 5218, 451 Seventh Street, S.W., Washington, D.C. 20410. A copy of each such communication will be available for public inspection during regular business hours at the above address.

#### FOR FURTHER INFORMATION CONTACT:

John D. McNees, Acting Director, Office of Property Disposition HUD, Room 9282, 451 7th Street, S.W., Washington, D.C. 20410, 202-755-6675. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Presently, all receipts on delinquent loans are applied to the reduction of principal. Interest is not computed until the principal has been paid in full. This reduces the effective interest rate from three percent (3%) to as low as two and one-fifth percent (2 1/5%). This effectively provides motivation for a borrower to default and penalizes those borrower/mortgagors who maintain payments in a current manner. The effect of this proposed rule will eliminate the incentive to default and provide equitable treatment between borrowers who default and those who remain in a current status.

A finding of inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of the Finding of Inapplicability is available for public inspection during regular working hours at the Office of the Rules Docket Clerk, Office of the

General Counsel, Room 10245, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Accordingly, the Department proposes to amend Title 24 CFR Part 445 as follows:

#### § 445.1 Application of payments.

When a debt is paid in installments and interest is collected, for a Section 312 loan, the installment payments will first be applied to the payment of accrued interest and then to principal as prescribed in § 102.10 of the Joint Regulations of the General Accounting Office and the Department of Justice. (4 CFR 102.10)

(Sec. 7(d), Department of HUD Act; 42 U.S.C. 3535(d). [38 FR 27216 Oct 1, 1973]. Section 312 of the Housing Act of 1964, (42 U.S.C. 1452b).)

In accordance with section 7(c) (4) of the Department of HUD Act, section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at that time for public comment.

Issued at Washington, D.C., November 7, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for  
Housing—  
Federal Housing Commissioner.  
(FR Doc. 78-35933 Filed 12-26-78; 8:45 am)

[24 CFR Part 870]

[Docket No. R78-600]

### PHA-OWNED PROJECTS—DEMOLITION OF STRUCTURES OR DISPOSITION OF REAL PROPERTY

#### Proposed Policy, Procedures, and Guidance

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Proposed rule.

SUMMARY: The Secretary is amending part 870 to provide policy, procedures, and guidance for Public Housing Agencies (PHAs) in carrying out either partial or total demolition of structures and partial or total disposition of land for PHA-Owned Public Housing projects.

DATE: Public comments must be received by HUD on or before January 28, 1979.

ADDRESS: Send comments to the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. Each person submitting a com-

ment should include his or her name and address, refer to the document by the docket number indicated in the heading, and give reasons for any recommendation. Copies of all written comments received will be available for examination by interested persons in the Office of the Rules Docket Clerk at the address listed above. The proposal may be changed in the light of the comments received.

#### FOR FURTHER INFORMATION CONTACT:

Wayne Hunter, Office of Assisted Housing Management, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-6460. (This is not a toll free number.)

#### SUPPLEMENTARY INFORMATION:

This part pertains to proposed action by a PHA to demolish housing units or other structures of a public housing project, or to sell or otherwise dispose of land of a public housing project, or to any combination of those types of action. It provides that prior HUD approval shall be required for any of these actions and prescribes procedures and criteria for HUD approval. This part covers partial demolition or disposition (i.e., affecting only a part of the structures or land of a public housing project) as well as transactions involving demolition of all of a project's structures and/or disposition of all of a project's land. Cross-reference is made to part 868, Low-Income Housing—Modernization Program, in connection with consideration of physical rehabilitation as an alternative to demolition or disposition.

This part is consistent with section 6(f) of the United States Housing Act of 1937, as amended by the Housing and Community Development Act of 1974, which requires the inclusion in each Annual Contributions Contract of a provision that, when a PHA and HUD mutually agree that a housing project is "obsolete" as to physical condition, or location or other factors, making it unusable for housing purposes, a program of "modifications or closeout" shall be prepared.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedure. A copy of the Finding of Inapplicability is available for public inspection during regular business hours at the above address.

Accordingly, the Department proposes to amend Chapter VIII of Title 24 of the Code of Federal Regulations by adding part 870 as set forth below.

**PART 870—PHA-OWNED PROJECTS—DEMOLITION OF STRUCTURES OR DISPOSITION OF REAL PROPERTY**

- Sec.  
870.1 Purpose.  
870.2 Applicability.  
870.3 Definitions.  
870.4 HUD policy.  
870.5 HUD review of PHA requests.  
870.6 A-95 clearance.  
870.7 Criteria.  
870.8 Tenant participation.  
870.9 Disposition of excess property.

**§ 870.1 Purpose.**

This part sets forth policy, procedures and criteria for HUD review of requests by public housing agencies (PHAs) for authority to demolish structures and/or dispose of real property of PHA-owned, low-income public housing projects.

**§ 870.2 Applicability.**

This part applies to PHA-owned, low-income public housing projects which are subject to Annual Contributions Contracts (ACCs) between PHAs and HUD under the United States Housing Act of 1937. It does not apply to the Section 23 and Section 10(c) Leased Housing Programs or the Section 23 and Section 8 Housing Assistance Payments Programs. Nor does this part apply to the sale of dwellings to homebuyers, under the Turnkey III Homeownership Opportunities Program or the Mutual Help Homeownership Opportunities Program.

**§ 870.3 Definitions.**

"Demolition" means the demolition of one or more structures of a public housing project.

"Disposition" means the conveyance by a PHA, pursuant to sale or other transaction, of any interest in the real estate of a public housing project, e.g., fee title, leasehold, right-of-way or easement, except for leasehold interests incident to the normal operation of the project for low-income housing and related purposes.

**§ 870.4 HUD policy.**

It is HUD's policy to conserve and maintain the existing stock of low-income public housing to the maximum extent consistent with considerations of need and feasibility. Unless it can be demonstrated that a project, or a portion of a project, is excess to local needs for low-income housing, every reasonable effort will be made by HUD and the PHA to keep the property within the low-income housing inventory. If a project, or a portion of a project, is not excess to local needs, but is unsuitable for housing use because of its physical condition, every reasonable effort shall be made to return it to a condition suitable for housing use, through the Moderniza-

tion Program or other means. Accordingly, HUD will limit approval for demolition or disposition to those cases where such action can be fully justified in accordance with the criteria set forth under this part.

**§ 870.5 HUD review of PHA requests.**

Written HUD approval shall be required prior to any demolition or disposition, or any transaction involving both demolition and disposition. To obtain HUD approval, the PHA shall submit to HUD a written request describing the proposed action, the property involved and such other information as HUD shall require for a decision based on the criteria set forth in § 870.7 and other applicable requirements, including provisions of the National Environmental Policy Act of 1969. Upon consideration of the PHA's request, supporting documentation and any other relevant information, HUD will notify the PHA in writing of its decision.

**§ 870.6 A-95 Clearance.**

With respect to any request for demolition or disposition of 100 or more dwelling units, or any lesser number of dwelling units comprising all of the dwelling units of a project, the following requirements shall be applicable:

(a) At least 45 days prior to the submission of the PHA's request to HUD, the PHA shall transmit a copy of the request to the appropriate State and areawide A-95 clearinghouses for review and comment, unless the clearinghouses relinquish this requirement prior to the submission of the request to HUD.

(b) The PHA shall transmit all clearinghouse comments with the request to HUD. If comments are not received by the PHA within the 45 day period, the PHA shall include a statement indicating that the clearinghouses were notified and no comments were received.

(c) If the A-95 review comments contain any finding of inconsistency with State, areawide or local plans or non-compliance with environmental or other applicable requirements, the PHA must state how it proposes to resolve the finding or state its justification for proposing to proceed with the requested action despite the finding.

**§ 870.7 Criteria.**

HUD shall use the following criteria in determining whether a PHA's request for demolition and/or disposition is justified under the policy stated in § 870.4:

(a) Current and projected needs for low-income housing in the jurisdiction served by the PHA, taking into account both demand and supply factors. If there is a local need for low-income housing, the PHA's request for

demolition or disposition of dwelling units shall include a plan for replacement housing on a one-to-one basis, subject to the availability of funds.

(b) The physical condition of the property and, where pertinent, the feasibility of rehabilitation, from an engineering and cost standpoint and the availability of funds for rehabilitation.

(c) The PHA's plan for relocating any displaced tenants to other decent, safe and sanitary housing within their means.

(d) Location, in terms of any condition in the surrounding neighborhood that adversely affects the life, health or safety of project residents.

(e) Social conditions which have seriously adverse effect on the suitability of the project as a living environment.

(f) The project's density and related needs for open space, for recreation, parking or other purposes.

(g) Benefits to the project from disposition of a limited interest in project real estate (e.g., easement, right-of-way or dedication for public use).

(h) Effects on the surrounding neighborhood and wider community.

(i) Views of tenants, the local governing body, other governmental agencies, community organizations and any other interested parties.

**§ 870.8 Tenant Participation.**

Before submission to HUD of a request for demolition and/or disposition the PHA shall notify the residents of the project and the resident organization, if any, of the proposed request, afford residents a reasonable opportunity to present their views on the proposal and alternatives to it, and give full and serious consideration to resident recommendations. The PHA shall provide HUD with an evaluation of resident recommendations, indicating the reasons for PHA acceptance or rejection. The PHA shall also provide a copy of this evaluation to the residents and the resident organization, if any. After HUD's decision on the PHA's request, the PHA shall inform the residents and the resident organization, if any, of the decision. The provisions of this section shall not apply in emergencies, where it can be demonstrated that adherence to them would result in delay endangering life, health or safety. At the request of a PHA, compliance with the provisions of this section may be waived by HUD with regard to the disposition of limited interests in a project's real estate (e.g., an easement) which do not include dwelling units or significantly reduce amenities available to project tenants.

**§ 870.9 Disposition of Excess Property.**

Where HUD approves the disposition of real property of a project, the

PHA shall, in accordance with the requirements of the ACC, determine such property to be excess and shall sell it as soon as practicable, unless another method of disposition is approved by HUD. The proceeds of sale or other disposition shall be applied as directed by HUD in accordance with the ACC.

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., December 4, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing—  
Federal Housing Commissioner.

**ENVIRONMENTAL PROTECTION AGENCY**

[40 CFR Part 52]

[FRL 1007-31]

**APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

Proposed Revision to the New Jersey Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

**SUMMARY:** This notice announces an Environmental Protection Agency proposal to approve a request from the State of New Jersey to revise its air quality control plan and to promulgate a related provision to such plan. The State is requesting that certain changes it has made to its regulation entitled, "Sulfur in Fuels," be incorporated into the New Jersey State Implementation Plan. If approved by the Environmental Protection Agency, these changes will provide for increases in the sulfur content limitations now applicable to fuels used in Atlantic, Cape May, Cumberland, Ocean, Salem, Burlington, Camden, Gloucester, and Mercer Counties. These proposed changes to the New Jersey regulation complement proposed changes to the Pennsylvania State Implementation Plan and are intended to resolve regulatory inconsistencies among the various jurisdictions in the Philadelphia Interstate Air Quality Control Region in a manner which protects air quality.

**DATE:** Comments must be received or a hearing requested on or before January 26, 1979.

**ADDRESSES:** All comments should be addressed to: Eckardt C. Beck, Regional Administrator, U.S. Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10007.

Copies of the proposal are available for public inspection during normal business hours at: U.S. Environmental Protection Agency, Air Programs Branch, Room 908, Region II Office, 26 Federal Plaza, New York, New York 10007; U.S. Environmental Protection Agency, Central Docket Section, Room 2903B, Waterside Mall, 401 M Street, S.W., Washington, D.C. 20460, (Docket No. 2A-78-1); and New Jersey Department of Environmental Protection, John Fitch Plaza, P.O. Box 2807, Trenton, New Jersey 08625.

**FOR FURTHER INFORMATION CONTACT:**

William S. Baker, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10007, 212-264-2517.

**SUPPLEMENTARY INFORMATION:** On August 10, 1978 the Environmental Protection Agency (EPA) received from New Jersey a proposed revision to its State Implementation Plan (SIP). The State's submittal consisted of a revised State regulation entitled "Sulfur in Fuels" (Subchapter 9 of Chapter 27, Title 7, New Jersey Administrative Code (N.J.A.C. 7:27-9.1 et seq.)) and an Order of Adoption signed by the Commissioner of the New Jersey Department of Environmental Protection (NJDEP).

The proposed SIP revision changes Subchapter 9 in the following manner:

1. There are additions, deletions and changes to the definitions appearing in Section 9.1.

2. The provisions of Section 9.2, "Commercial Fuel Oil," and Section 9.3, "Noncommercial Fuel," have been combined into a new Section 9.2 entitled, "Sulfur Content Standards." The major change to the provisions of these sections involves applicable fuel oil sulfur content limitations:

- a. In Atlantic, Cape May, Cumberland and Ocean Counties the previous sulfur content limitations of 0.7 percent for No. 4 fuel oil and 1.0 percent for No. 5 and heavier fuel oils have all been changed to 2.0 percent.

- b. In Salem County the previous sulfur content limitations of 0.2 percent for No. 2 and lighter fuel oils and 0.3 percent for No. 4 and heavier fuel oils have been changed to: 0.3 percent for No. 2 and lighter fuel oils; 0.7 percent for No. 4 fuel oil; and 1.0 percent for No. 5 and heavier fuel oils.

- c. In portions of Burlington, Camden, Gloucester and Mercer Counties not designated as a part of the pine barrens the previous sulfur content limitation of 0.3 percent for No. 5 and heavier fuel oils has been changed to 0.5 percent.

3. Section 9.4, "Exemptions," is now codified as Section 9.3. Among other minor changes to this section is one which permits the State to set more stringent sulfur limitations than would normally apply to sources of air pollution which experience aerodynamic downwash at their stacks.

4. Section 9.5 which permitted the State to grant temporary variances from applicable sulfur limitations to sources in Salem, Cumberland and parts of Cape May County has been deleted.

This request by New Jersey is the product of the State's participation in a multi-state effort involving New Jersey, Pennsylvania and Delaware to provide for attainment and maintenance of the National Ambient Air Quality Standards for sulfur dioxide in the Metropolitan Philadelphia Interstate Air Quality Control Region (AQCR) and to resolve regulatory inequities among the various jurisdictions in the AQCR.

Since 1974 sources in the New Jersey portion of the Metropolitan Philadelphia AQCR have been subject to a sulfur content limit of 0.3 percent in heavy fuel oils and 0.2 percent in light fuel oils while sources in the Pennsylvania jurisdictions on the western bank of the Delaware River were subject to higher limitations. Effective October 1, 1973 the Pennsylvania SIP, as approved by EPA, required a reduction in sulfur content to lower limits equivalent to those in New Jersey in the City of Philadelphia. However, implementation of the required reduction has been postponed several times.

In late 1975, NJDEP petitioned EPA to take action to assure the implementation of a more equitable set of requirements throughout the region. Sulfur dioxide control strategies for the portions of Delaware, Pennsylvania, and New Jersey which comprise the Metropolitan Philadelphia AQCR have been under review by EPA and the affected states since that time. Initial proposals to change sulfur-in-fuel-oil standards by both Pennsylvania and Philadelphia were unacceptable to NJDEP. Subsequent failures by the involved parties to agree on modifications to those proposals resulted in New Jersey's announcement, on October 11, 1977, of its intent to seek judicial relief in accordance with the Clean Air Act.

Concurrent with the Metropolitan Philadelphia AQCR analysis, New Jersey undertook a similar air quality evaluation for the four counties which

comprise the New Jersey Intrastate AQCR. Sulfur-in-fuel strategies instituted in the Philadelphia area are pertinent to air quality in the New Jersey Intrastate AQCR in that as much as 50 percent of the sulfur dioxide concentration measured in the Intrastate Region is claimed to be generated in, and transported from, sources located in the Philadelphia area.

In January 1976, while the two regional studies were being conducted, Governor Byrne issued an Executive Order calling for immediate steps to modify the sulfur-in-fuel-oil standards in South Jersey where it was possible to do so without jeopardizing State or federal air quality standards. Variances were issued by the State and approved as SIP revisions by EPA for industrial plants in Salem and Cumberland Counties and for Atlantic City Electric's B. L. England Generating Station in Cape May County after technical studies indicated no likelihood for contravention of the standards existed and after a system of air quality monitors was established. These variances have been renewed several times by the State and EPA. If EPA approves the limitations proposed in this FEDERAL REGISTER notice, they will replace the limitations currently in effect under the New Jersey variances, and EPA approval of these variances will be terminated.

In April 1978, Pennsylvania completed its proposed sulfur dioxide regulatory changes for southeastern Pennsylvania. A Memorandum of Agreement was entered into by NJDEP, EPA Region II, and EPA Region III which sets forth a commitment by the parties to process these regulatory changes in accordance with an agreed upon schedule. The amended regulations have been submitted to EPA as a revision to Pennsylvania's SIP. The complementary New Jersey proposal was drafted, reviewed in public hearing on July 13, 1978, and submitted to EPA as a SIP revision on August 10, 1978.

This current SIP revision request was submitted to EPA in accordance with all applicable EPA requirements as contained in 40 CFR Part 51.

EPA has found in its review of the technical information generated under an EPA funded contract and the technical information submitted by the State that this proposed SIP revision will not result in the contravention of any applicable air quality standard or Prevention of Significant Deterioration (PSD) increment (established pursuant to Section 163 of the Clean Air Act, as amended). However, the technical analyses submitted are predicated on the assumption that two power generating facilities located in the Metropolitan Philadelphia Interstate AQCR continue to burn fuel oil rather

than coal. Under an existing New Jersey regulation, "Sulfur in Coal" (N.J.A.C. 7:27-10.1 *et seq.*), these two oil burning facilities, the Atlantic City Electric Company's Deepwater facility in Salem County and the Public Service Electric and Gas Company's Burlington facility in Burlington County, could make a conversion to bituminous coal with a sulfur content of up to 1.0 percent, by weight, or up to 1.5 percent, by weight, if granted a variance by the State. Since these facilities have burned coal in the past and are believed not to have to undergo any major reconstruction or construction in order to burn coal now, they may not be subject to the 0.20 percent sulfur content limitation provided under the State's "Sulfur in Coal" regulation for large sources that undergo expansion, reconstruction or construction.

As mentioned, the technical demonstration of the air quality impact of this proposed revision to N.J.A.C. 7:27-9.1 *et seq.* did not include a consideration of the potential effect of these coal conversions. Since Section 110 of the Clean Air Act requires that implementation plans or revisions thereto not be approved by EPA in the absence of an adequate technical demonstration that such plans or plan revisions provide for attainment and maintenance of air quality standards, EPA must condition any approval of this proposed revision on the assurance that, if the coal conversions mentioned were to be made, they would be accompanied by any necessary "offsetting" emission reductions.

Any potential conversion from fuel oil to coal by the two facilities would require a permit to be issued by the State of New Jersey. However, a review of New Jersey's current permitting requirements does not assure EPA that the conversions would be allowed by the State only after a full analysis of the permitted conversions' effect on air quality, particularly with respect to the effect on air quality within the Pennsylvania portion of the Metropolitan Philadelphia AQCR. This concern is reinforced by the fact that, as mentioned, these two conversions could occur without a reconstruction of the facilities, which would otherwise trigger the stringent coal sulfur content limitations provided in the State's "Sulfur in Coal" regulation. Also, conversions, as fuel switching, would not normally subject a source wishing to convert to EPA requirements with respect to new source review. In light of all these circumstances, EPA believes that a potential, limited gap exists in the State's control strategy for sulfur oxides which must be redressed by proposed corrective federal action contemporaneous with EPA's approval of the State sub-

mitted revision to N.J.A.C. 7:27-9.1 *et seq.*

It is therefore proposed that the State be required to submit to EPA for review an analysis of the air quality impact of any conversion to coal at the Atlantic City Electric Company's Deepwater Generating Station in Salem County or the Public Service Electric and Gas Company's Burlington Generating Station in Burlington County prior to issuance of a State permit authorizing such conversions. Upon a finding by EPA that the conversion to coal, at the sulfur-in-coal limit specified in the proposed permit, would not result in the contravention of air quality standards and would not cause PSD increments to be exceeded, the State permit could be granted. Should EPA find that the conversion would result in the contravention of standards or the exceedance of PSD increments, the State permit could not be granted, and the conversion could not occur, until an equivalent emission reducing strategy had been submitted by the State and approved by EPA as a revision to the SIP. A similar procedure would be followed if the State were to increase the permitted sulfur-in-coal limitation subsequent to an initial conversion.

It must be emphasized that this procedure is not meant to give EPA the right to veto any proposed fuel conversion. It merely ensures that the State and EPA have an opportunity to take a "second look" at the adequacy of the State's control strategy if a fuel conversion is to take place. If the conversion can be accommodated within the existing strategy, it may take place without further action. If not, appropriate revisions to the strategy (to be initiated by the State) must occur prior to the conversion being permitted.

Persons wishing to comment on this proposed action may do so by submitting written comments or by requesting a public hearing within 30 days of publication of this notice.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter I as follows:

#### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. By amending Subpart FF § 52.1601 by adding new Paragraph (b) as follows:

§ 52.1601 Control Strategy and Regulations: Sulfur Oxides.

(b) Before any steam or electric power generating facility in Zone 3, as defined in N.J.A.C. 7:27-10.1, burning fuel oil on (the date of publication of EPA's final action on this revision request), having a rated hourly gross

heat input greater than 200,000,000 British Thermal Units (BTU's), and capable of burning coal without major reconstruction or construction which was in operation prior to May 6, 1968 or group of such facilities having a combined rated hourly capacity greater than 450,000,000 BTU's may be permitted by the State to convert to the use of coal, the State shall submit to EPA a copy of the proposed permit together with an air quality analysis employing methodology acceptable to EPA. If EPA determines, on the basis of the submitted analysis, that the proposed coal conversion will not interfere with the attainment or maintenance of air quality standards and will not be the cause of an exceedance of any Prevention of Significant Deterioration (PSD) increment, then the permit authorizing conversion may become effective immediately upon the publication of such a determination (as a Notice) in the FEDERAL REGISTER. If EPA determines that the submitted analysis is inadequate or that it shows that the proposed conversion will interfere with attainment or maintenance of air quality standards or cause the exceedance of a PSD increment, then EPA shall so inform the State of its determination, and the permit authorizing conversion shall not become effective until an adequate analysis is submitted or, if necessary, until a control strategy revision which would require necessary emission reductions were submitted by the State and placed into effect as an EPA approved revision to the implementation plan. In addition, this same procedure shall apply to any State permit applied for that would authorize a relaxation in the sulfur-in-coal limitation at any such facility, as defined, having already been granted a permit to convert to coal.

This notice is issued as required by Section 110 of the Clean Air Act, as amended, to advise the public that comments may be submitted or a public hearing requested on whether the proposed revision to the New Jersey State Implementation Plan should be approved or disapproved. The Administrator's decision regarding approval or disapproval of this proposed plan revision will be based on whether it meets the requirements of Section 110(a)(2)(A)-(K), (a)(3) of the Clean Air Act and EPA regulations in 40 CFR Part 51.

(Sec. 110, 301, Clean Air Act, as amended (42 U.S.C. 7410 and 7601))

Dated: December 5, 1978.

ECKARDT C. BECK,  
Regional Administrator,  
Environmental Protection Agency.

#### COMMONWEALTH OF PENNSYLVANIA

##### Proposed Revisions of Pennsylvania State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed amendments to the Philadelphia Code relating to Air Management and to the Pennsylvania Code relating to Environmental Resources.

SUMMARY: The Commonwealth of Pennsylvania has requested that certain amendments to their regulations and those of the City of Philadelphia relating to the sulfur content of fuel burned in southeastern Pennsylvania be reviewed and processed as a revision of the Pennsylvania State Implementation Plan for meeting air quality standards. These amendments are designed to attain and maintain the air quality standards for sulfur dioxide and to resolve regulatory inequities among the various jurisdictions in the Philadelphia metropolitan area.

DATE: Comments must be received on or before January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Brian McLean (3AH12), U.S. Environmental Protection Agency, Region III, 6th & Walnut Sts., Philadelphia, PA 19106, telephone number (215) 597-8179.

ADDRESSES: Copies of the proposed revisions are available for public inspection during normal business hours at the following locations: U.S. Environmental Protection Agency, Curtis Building, Tenth Floor, Sixth & Walnut Streets, Philadelphia, Pennsylvania 19106. Attn: Mr. Brian McLean; Pennsylvania Department of Environmental Resources, Bureau of Air Quality and Noise Control, Third and Fulton Streets, Harrisburg, Pennsylvania 17120. Attn: Mr. Gary Triplet; Philadelphia Air Management Services, 301 Arch Street, Philadelphia, Pennsylvania 19106. Attn: Mr. William Reilly; and Public Information Reference Unit, Room 2922 (EPA Library), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

All comments submitted on or before January 26, 1979, will be considered and should be directed to: Mr. Howard R. Heim, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Curtis Building, Tenth Floor, Sixth & Walnut Streets, Philadelphia, Pennsylvania 19106. Attn: AHO12cPA.

SUPPLEMENTARY INFORMATION: On July 31, 1978, the Commonwealth of Pennsylvania submitted to the Regional Administrator, EPA Region III, an amendment to Title 3 of the Philadelphia Code relating to Air Management and an amendment to Title 25 of the Pennsylvania Code relating to Environmental Resources. The Commonwealth has requested that these amendments be reviewed and processed as a revision of the Pennsylvania State Implementation Plan (SIP) for the attainment and maintenance of National Ambient Air Quality Standards (NAAQS).

The amendments consist of changes to Section 3-207 (Sale of Fuel Oil) of the Philadelphia Code pertaining to Philadelphia County and changes to Title 25, Part I, Subpart C, Article III, Chapter 121 (Definitions) and chapter 123 (Standards for Contaminants, Sulfur Compound Emissions) of the Pennsylvania Code pertaining to Bucks County, Chester County, Delaware County, and Montgomery County, Pennsylvania.

The request by the Commonwealth of Pennsylvania represents the final action by the Commonwealth as part of a multi-State effort to provide for attainment and maintenance of the NAAQS for sulfur dioxide in the Metropolitan Philadelphia Interstate Air Quality Control Region (MPIAQCR) and to resolve regulatory inequities among the various jurisdictions in the MPIAQCR. The request establishes two regulatory zones in the Pennsylvania portion of the MPIAQCR: An inner zone consisting of Philadelphia County and portions of Bucks County, Delaware County, and Montgomery County adjacent to Philadelphia County and an outer zone consisting of Chester County and the portions of Bucks County, Delaware County and Montgomery County not included in the inner zone. Combustion of residual oil and distillate oil in the inner zone would be limited to 0.5 percent sulfur content by weight and 0.2 percent sulfur content by weight respectively; combustion of residual oil and distillate oil in the outer zone would be limited to 1.0 percent sulfur content by weight and 0.3 percent sulfur content by weight, respectively. Emissions from combustion of non-commercial fuels and coal would be limited to 1.2 pounds per million BTU of heat input in the outer zone or 0.6 pounds per million BTU of heat input in the inner zone except in Philadelphia County where coal combustion is limited to 0.3 percent sulfur by weight and where the concentration of emissions from combustion of non-commercial fuel is limited to 250 ppm on an annual average.

The request by the commonwealth of Pennsylvania has been preceded by

a series of requests by the City of Philadelphia and the Commonwealth of Pennsylvania to delay the effective date for 0.3 percent sulfur by weight in residual oil for Philadelphia County originally scheduled for October 1, 1973.

On February 17, 1977 (42 FR 9685), the Acting Regional Administrator acknowledged receipt of the most recent request to delay the 0.3 percent sulfur-in-fuel requirement dated November 10, 1976. He also summarized actions taken by EPA with regard to the previous requests, proposed the November 10, 1976 request as a revision of the Philadelphia County portion of the Pennsylvania SIP, and provided a 30-day public comment period, ending March 21, 1977. During the public comment period, EPA received comments from the Atlantic Richfield Company, the Penjerdel Corporation and the New Jersey Department of Environmental Protection (DEP). The Atlantic Richfield Company and the Penjerdel Corporation supported the request for a delay until a more equitable regional control strategy, then under development, could be implemented. The New Jersey DEP opposed the request for a delay.

The process of developing a more equitable regional approach to sulfur dioxide control in the MPIAQCR had formally begun in February 1976 with the establishment of an interstate committee composed of representatives from the New Jersey DEP, the Pennsylvania Department of Environmental Resources (DER), the Philadelphia Air Management Services (AMS) and the Delaware Department of Natural Resources and Environmental Control (DNREC). Regions II and III of EPA provided contractual assistance. Although a final report was published in August 1977 which included several regional control strategies, agreement among the participants on a single strategy could not be reached.

Dissatisfied with the progress being made on the development of a regional control strategy, New Jersey DEP advised EPA, the Commonwealth of Pennsylvania, and the City of Philadelphia in October 1977 of their intention to file a lawsuit to force implementation of the 0.3 percent sulfur-in-fuel requirement in Philadelphia. In December 1977, Pennsylvania DER, after consultation with Philadelphia AMS, submitted a regional control strategy to EPA similar to the subject proposed revision. EPA provided contractual assistance to perform air quality modeling of the DER proposal. In April 1978, New Jersey agreed to forbear from their suit in consideration of Pennsylvania's intention to propose the adoption of the subject amendments and EPA's intention to either

adopt the subject amendments or enforce the 0.3 percent sulfur-in-fuel requirement in Philadelphia.

The EPA had not made a final determination on the delay request of November 10, 1976 when the Commonwealth of Pennsylvania submitted the current request on July 31, 1978 for amendments to both the Pennsylvania and Philadelphia Codes. The current request purports to attain and maintain NAAQS for sulfur dioxide, to resolve regulatory inequities among the various jurisdictions in MPIAQCR, and to result in lower regional compliance costs for sources within the Commonwealth of Pennsylvania than would the 0.3 percent sulfur-in-fuel requirement for Philadelphia County.

The Commonwealth of Pennsylvania submitted proof that a public hearing regarding the amendment to the Philadelphia Code was held on April 18, 1978 in accordance with the requirements set forth in 40 CFR 51.4 and that a public hearing regarding the amendment to the Pennsylvania Code was held on June 9, 1978 in accordance with the requirements set forth in 40 CFR 51.4.

This notice is to announce the Regional Administrator's receipt of the amendments and to provide for a 30-day period for public comments to be submitted to the address stated above. The Administrator's decision to approve or disapprove this proposed revision will be based on whether the amendments to Title 3 of the Philadelphia Code and to Title 25 of the Pennsylvania Code meet the requirements of Section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption, and Submittal of Implementation Plans.

(42 U.S.C. 7401)

Dated: September 15, 1978.

JACK SCHRAMM,  
Regional Administrator.

[FRL 1001-8]

#### DELAYED COMPLIANCE ORDERS

Proposed Delayed Compliance Order for  
Triangle Refineries, Inc., Clermont, Indiana

AGENCY: U.S. Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: U.S. EPA proposes to issue an Administrative Order to Triangle Refineries, Inc. The Order re-

quires the Company to bring the gasoline loading facility at Clermont, Indiana (the source), into compliance with APC-15, Section 4, part of the federally-approved Indiana State Implementation Plan (SIP). Because the Company is unable to comply with these regulations at this time, the proposed Order would establish an expeditious schedule requiring final compliance by July 1, 1979. Source compliance with the Order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act (the act) for violation of the SIP regulations covered by the Order.

The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on U.S. EPA's proposed issuance of the Order.

**DATES:** Written comments must be received on or before January 26, 1979, and requests for a public hearing must be received on or before January 11, 1979. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after twenty-one days prior notice of the date, time, and place of the hearing has been given in this publication.

**ADDRESSES:** Comments and requests for a public hearing should be submitted to the Director, Enforcement Division, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604. Material supporting the Order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Arthur E. Smith, Attorney, Enforcement Division, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, at (312) 353-2082.

**SUPPLEMENTARY INFORMATION:** Triangle Refineries, Inc. owns the gasoline loading facility at Clermont, Indiana. The proposed Order addresses emissions from the gasoline loading facility, which is subject to APC-15, Section 4, of the Indiana State Implementation Plan. The regulation limits the emissions of volatile organics (hydrocarbons) and is part of the federally-approved Indiana Implementation Plan. The Order requires final compliance with the regulation by July 1, 1979, and the source has consented to its terms. The source has agreed to meet the Order's increments during

the period of this informal rulemaking.

The proposed Order satisfies the applicable requirements of Section 113(d) of the Act. If the Order is issued, source compliance with its terms would preclude further U.S. EPA enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provisions of the Act (Section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether U.S. EPA should issue the Order. Testimony given at any public hearing concerning the Order will also be considered. After the public comment period and any public hearing, the Administrator of U.S. EPA will publish in the FEDERAL REGISTER the Agency's final action on the Order in 40 CFR Part 65.

Dated: October 23, 1978.

JOHN MCGUIRE,  
Regional Administrator,  
Region V.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter I as follows:

#### PART 65—DELAYED COMPLIANCE ORDERS

1. By adding an entry to the table in § 65.190, Federal Delayed Compliance Orders issued under Section 113(d)(1), (3), and (4) of the Act, to reflect a approval of the following order.

#### UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION V

In the Matter of: Triangle Refineries, Inc., Clermont, Indiana—Proceeding Pursuant to Section 113(d) of the Clean Air Act, as Amended (42 U.S.C. Section 7413(d)); Order No.

The Order is issued this date pursuant to Sections 113(a), 113(d) and 114 of the Clean Air Act, as amended, 42 U.S.C. Section 7401 et seq. (Act). This Order contains a schedule for compliance, interim control requirements, and reporting requirements. Public notice, opportunity for a public hearing, and thirty (30) days notice to the State of Indiana have been provided pursuant to Section 113(d)(1) of the Act.

#### FINDINGS

1. On April 12, 1978, the United States Environmental Protection Agency (U.S. EPA) issued a Notice of Violation, pursuant to Section 113(a)(1) of the Act, to Triangle Refineries, Inc., owned by Kerr-McGee (Triangle), upon a finding that the Clermont Terminal, gasoline loading facility, was in violation of Indiana APC-15, Section 4, a part of the applicable Implementation Plan defined in Section 110(d) of the Act. This finding was based upon emission factor calculations derived from data submitted to U.S. EPA by the subject facility.

2. In satisfaction of Section 113(a)(4) of the Act, opportunity to confer with the Administrator's delegate was given to Triangle, and on April 27, 1978, an enforcement conference was held.

3. It has been determined that Triangle is unable to immediately comply with the applicable Implementation Plan.

After a thorough investigation of all relevant facts, including public comment, it is determined that the schedule for compliance set forth in this Order is as expeditious as practicable, and that the terms of this Order comply with Section 113(d) of the Act. Therefore, it is hereby Ordered:

1. That Triangle will comply with the Indiana Implementation Plan regulation APC-15, Section 4, as approved by U.S. EPA on May 14, 1973, including a vapor collection and disposal/recovery system, in accordance with the following schedule on or before the dates specified therein.

A. In regard to the gasoline loading facility at Clermont, Indiana:

- August 31, 1978—Triangle shall award contracts for control equipment.
- February 1, 1979—Triangle shall initiate on-site construction for the control equipment.
- July 1, 1979—Triangle shall complete on-site construction.
- July 1, 1979—Triangle shall achieve final compliance with the Indiana Implementation Plan regulation APC-15, Section 4, as approved by the U.S. EPA on May 14, 1973.
- After July 1, 1979, Triangle shall implement operation and maintenance procedures to maximize the control efficiency of the pollution control equipment.

II. That Triangle, Clermont Terminal, gasoline loading facility shall use the best practicable interim system of emission reduction so as to minimize hydrocarbon emissions; avoid any imminent and substantial endangerment to the health of persons; comply with the requirements of the applicable Implementation Plan insofar as it is able to; and, comply with the following interim requirements:

A. Triangle shall insert fill-pipes to the bottom of the loading compartment in a vertical position. Triangle shall control flow rate so as to minimize hydrocarbon emissions.

B. Triangle shall minimize product spillage.

III. That Triangle, Clermont Terminal, gasoline loading facility, shall comply with the following emission monitoring and reporting requirements:

A. *Emission monitoring.* Triangle shall maintain a record of the amount of gasoline which travels through the loading facility. This shall include the volume and vapor pressure of the gasoline.

B. *Reporting requirements.* 1. No later than fifteen (15) days after any date for achievement of an incremental step of final compliance, specified in this Order, Triangle shall notify U.S. EPA in writing of its compliance, or noncompliance and reasons therefore, with the requirement. If delay is anticipated in meeting any requirement of this Order, Triangle shall immediately notify U.S. EPA in writing of the anticipated delay and reasons therefore.

2. A quarterly report shall be sent to the U.S. EPA reporting the progress of the program for installation of the control equip-

ment and information required by paragraph III. A.

3. All submittals and notifications to U.S. EPA pursuant to this Order shall be made to Mr. Eric Cohen, Chief, Compliance Section, Enforcement Division, U.S. EPA, 230 South Dearborn Street, Chicago, Illinois 60604.

IV. Nothing herein shall affect the responsibility of Triangle to comply with State or local regulations, or other Federal regulations.

V. Triangle is hereby notified that its failure to achieve final compliance by July 1, 1979, at the Clermont Terminal, gasoline loading facility may result in a requirement to pay a noncompliance penalty under Section 120. In the event of such failure, Triangle will be formally notified, pursuant to Section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

Dated: December 14, 1978.

Douglas M. Costle  
Administrator  
U.S. Environmental Protection Agency

#### WAIVER OF RIGHTS TO CHALLENGE ORDER

Triangle, by the duly authorized undersigned, hereby consents to the provisions of this Order and waives any and all rights under any provisions of law to challenge this Order.

#### FEDERAL COMMUNICATIONS COMMISSION

[47 CFR PARTS 2 AND 83]

[Gen. Docket No. 78-230]

#### PROVIDING FOR THE USE OF EMERGENCY POSITION INDICATING RADIOBEACONS (CLASS C) FOR VESSELS OPERATING IN COASTAL WATERS

#### Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order extending time for reply comments.

SUMMARY: This action extends the time for filing reply comments in this matter. The United States Coast Guard has requested this extension to conduct additional testing of Class C EPIRBs and to comment on the results of these tests.

DATE: Reply comments must be received on or before February 9, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

# FOR FURTHER INFORMATION CONTACT:

Robert C. McIntyre, Safety and Special Radio Services Bureau, (202) 632-7197.

**SUPPLEMENTARY INFORMATION:** In the matter of amendment of Parts 2 and 83 of the rules to provide for the use of Emergency Position Indicating Radiobeacons (Class C) for vessels operating in coastal waters. Order (See 43 FR 35353, August 9, 1978).

Adopted: December 13, 1978.

Released: December 20, 1978.

1. The U.S. Coast Guard has requested that the time for filing reply comments in this matter be extended for a period of 60 days.

2. The Coast Guard states "Although investigations using prototype models were considered adequate, the comments expressed in response to this Notice of Proposed Rule Making justify additional analyses to ensure that the most effective and acceptable system evolves. In view of the important issue raised in regard to signal environment impacts on channel 16 (156.8 MHz), an additional test program is being initiated immediately. This will require up to 60 days to conduct and respond."

3. The request for extension of time does not comply with the requirements of § 1.46 that such requests be filed 7 days before the filing date. However, in view of the fact that this rulemaking concerns a safety program administered by the USCG and that agency now feels that the comments received raise matters which justify additional analysis of the system, an extension is warranted.

4. For good cause shown, we find the public interest will be served by the extension of the reply comment period from December 11, 1978, to February 9, 1979.

5. Accordingly, pursuant to the authority contained in §§ 0.331 and 1.46 of the Commission's rules, the request of the U.S. Coast Guard is granted and the date for filing reply comments in this proceeding extended to February 9, 1979.

CARLOS V. ROBERTS,  
Chief, Safety and Special  
Radio Services Bureau.

[BC Docket No. 78-386; RM-3170]

VINITA, OKLA.

Proposed FM Channel

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

**SUMMARY:** Action taken herein, in response to a petition filed by David Leon Boyd and William E. Davis, proposes the assignment of a first Class A FM channel to Vinita, Oklahoma. The proposed station would provide for a first full-time local aural broadcast service to that community.

**DATES:** Comments must be received on or before February 14, 1979, and reply comments must be received on or before March 7, 1979.

**ADDRESS:** Federal Communications Commission, Washington, D.C. 20554.

# FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

**SUPPLEMENTARY INFORMATION:** In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Vinita, Oklahoma). Notice of proposed rulemaking.

Adopted: December 14, 1978.

Released: December 21, 1978.

By the Chief, Broadcast Bureau:

# 1. Petitioner, Proposal, Comments:

(a) Notice of Proposed Rulemaking is given concerning amendment of § 73.202(b) of the Commission's Rules as it relates to Vinita, Oklahoma. No responses to the petition were received.

(b) Petition for rulemaking<sup>1</sup> was filed on behalf of David Leon Boyd and William E. Davis ("petitioners"), seeking the assignment of Channel 240A to Vinita, Oklahoma, as its first FM assignment.

(c) Channel 240A could be assigned to Vinita in conformity with the minimum distance separation requirements provided the transmitter site is located approximately 12.3 kilometers (7.7 miles) northeast of Vinita. Petitioners state they will file an application to construct an FM broadcast station if the channel is assigned.

# (2). Community Data:

(a) Location: Vinita, seat of Craig County, is located in the northeastern corner of the State, approximately 100 kilometers (62 miles) north of Muskogee, Oklahoma.

(b) Population: Vinita—5,847; Craig County—14,722.<sup>2</sup>

(c) Local Aural Broadcast Service: Vinita is presently served by daytime-only AM Station KVIN, licensed to PBL Broadcasting Company.

(d) Economic Data: Petitioners state that Vinita's economy is dependent largely on agriculture. We are told that there are several small manufacturing plants in the community which also contribute to its economy. Petitioners have submitted detailed demographic information in order to demonstrate the need for a first FM assignment in Vinita. They have also submitted letters in support of the proposed assignment from citizens in the area.

<sup>1</sup>Public Notice of the petition was given on August 15, 1978, Report No. 1136.

<sup>2</sup>Population figures are taken from the 1970 U.S. Census.

tioners have submitted detailed demographic information in order to demonstrate the need for a first FM assignment in Vinita. They have also submitted letters in support of the proposed assignment from citizens in the area.

3. Petitioners assert that the proposed station would be the first full-time aural service in Vinita and Craig County. They state that a full-time facility is badly needed since the Vinita area is in the tornado and severe weather area of the country.

4. In view of the apparent need for a first full-time local aural broadcast service in Vinita and Craig County, the Commission proposes to amend the FM Table of Assignments, 73.202(b) of the Commission's Rules, with regard to Vinita, Oklahoma:

| City             | Channel No. |          |
|------------------|-------------|----------|
|                  | Present     | Proposed |
| Vinita, Oklahoma |             | 240A     |

5. The Commission's authority to institute rulemaking proceedings, showings required, cut-off procedures and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before February 14, 1979, and reply comments on or before March 7, 1979.

7. For further information concerning this proceeding, contact Mildred Nesterak, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rulemaking is issued until the matter is no longer subject to Commission consideration or court review, *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involves channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rulemaking other than comments officially filed at the Commission or oral presentation required by the Commission.

FEDERAL COMMUNICATIONS  
COMMISSION,  
WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

# APPENDIX

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (§ 33 § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[FR Doc. 78-35970 Filed 12-26-78; 8:45 am]

[BC Docket No. 78-385; RM-3123]

SAVANNAH, TENN.

Proposed FM Channel

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

**SUMMARY:** Action taken herein proposes the assignment of a second Class A FM channel to Savannah, Tennessee. The proposed assignment could provide for a station which would render a second full-time aural broadcast service to the community. This action is taken in response to a petition for rulemaking filed by the Tennessee River Broadcasting, Inc.

**DATES:** Comments must be filed on or before February 12, 1979, and reply comments on or before March 5, 1979.

**ADDRESS:** Federal Communications Commission, Washington, D.C. 20554.

# FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

**SUPPLEMENTARY INFORMATION:** In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Savannah, Tennessee). Notice of proposed rule making.

Adopted: December 12, 1978.

Released: December 21, 1978.

By the Chief, Broadcast Bureau:

# 1. Petitioner, Proposal, Comments:

(a) A petition for rule making<sup>1</sup> was filed on May 2, 1978, by The Tennessee River Broadcasting, Inc. ("petitioner"), proposing the assignment of FM Channel 228A to Savannah, Tennessee, as a second FM assignment to that community. No responses to the petition were received.

(b) The channel can be assigned to Savannah, Tennessee, in conformity with the minimum distance separation requirements provided the transmitter site is located 10 kilometers (6.3 miles) northeast of the community.

(c) Petitioner states that if the channel is assigned, it will file an application seeking authority to construct an FM broadcast station to operate on that assignment.

# 2. Community Data:

(a) Location: Savannah, seat of Hardin County, is located in southwestern Tennessee, approximately 160 kilometers (100 miles) east of Memphis, Tennessee, and 173 kilometers (108 miles) southwest of Nashville, Tennessee.

(b) Population: Savannah—5,576; Hardin County—18,213.<sup>2</sup>

(c) Local Aural Broadcast Service: Savannah is presently served by daytime-only AM Station WORM and Station WORM-FM (Channel 269A).

3. *Economic Data:* Petitioner asserts that Savannah's population has increased 29% between 1960 and 1970.

<sup>1</sup>Public Notice of the petition was given on June 7, 1978, Report No. 1125.

<sup>2</sup>Population figures are taken from the 1970 U.S. Census, unless otherwise indicated.

and that Hardin County's population, which was 18,212 in 1970, is now estimated to be more than 20,200.<sup>3</sup> We are informed that Savannah is the transportation and economic center for its portion of southern Tennessee. Petitioner notes that the five major employers in the area are Tennessee River Pulp and Paper Company, Brown Shoe Company, Savannah Manufacturing Company, Sattillo Manufacturing and Kay-Windsor Apparel which employ a combined work force of 1,570 people. Petitioner states that there is no daily newspaper in Savannah or Hardin County. It claims that the public interest would be served by the proposed assignment, increasing available broadcast service to a growing region.

4. *Preclusion Study.* Preclusion does not appear to be an impediment since it would be caused only on the co-channel, and the precluded area contains no communities of greater than 1,000 population.

5. Comments are invited on the proposal to amend the FM Table of Assignments (§ 73.202(b) of the Commission's Rules) with regard to the community of Savannah, Tennessee, as follows:

| City                | Channel No. |            |
|---------------------|-------------|------------|
|                     | Present     | Proposed   |
| Savannah, Tennessee | 269A        | 228A, 269A |

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before February 12, 1979, and reply comments on or before March 5, 1979.

8. For further information concerning this proceeding, contact Mildred Nesterak, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involves channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the

<sup>3</sup>1970 Census of Population, Tennessee, General Population Characteristics, U.S. Department of Commerce.

Commission or oral presentation required by the Commission.

**Chief, Broadcast Bureau.**

**APPENDIX**

1. Pursuant to authority found in sections 4(f), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

(BC Docket No. 78-384; RM-3177 & RM-3201)

**SCOTTVILLE, MICH.**

**FM Broadcast Stations; Proposed Changes in Table of Assignments**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** Action taken herein proposes the assignment of FM Channel 240A to Scottville, Michigan. The action is taken in response to petitions filed by Eldon Stielstra and Eugene Barre who state that the proposed assignment would provide for a first local aural broadcast service in Scottville.

**DATES:** Comments must be filed on or before February 12, 1979, and reply comments on or before March 5, 1979.

**ADDRESS:** Federal Communications Commission, Washington, D.C. 20554.

**FOR FURTHER INFORMATION CONTACT:**

Mildred B. Nesterak, Broadcast Bureau (202-632-7792).

**SUPPLEMENTARY INFORMATION:**

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Scottville, Michigan). Notice of proposed rulemaking.

Adopted: December 12, 1978.

Released: December 21, 1978.

By the Chief, Broadcast Bureau:

1. The Commission has under consideration two petitions for rulemaking seeking the amendment of the Commission's Rules, the Table of FM Assignments. One petition was filed by Eldon Stielstra proposing the assignment of FM Channel 240A to Scottville, Michigan; the other petition was filed by Eugene A. Barre, proposing the assignment of FM Channel 240A (or in the alternative, Channels 276A, 280A or 272A) to Scottville. Channel 240A could be assigned in conformity with the minimum distance separation requirements without affecting the present assignments in the FM Table. Each of the petitioners states that he will apply for the channel, if assigned. Several letters from local citizens have been submitted in support of the proposed assignment. No opposition to the proposals has been received.

2. Scottville (pop. 1,202), in Mason County (pop. 22,612), is located approximately 129 kilometers (80 miles) northwest of Grand Rapids, Michigan.

\*Public Notice of Stielstra's petition was given on August 29, 1978, Report No. 1137. Public Notice of Barre's petition was given on September 18, 1978, Report No. 1141.

near the eastern shore of Lake Michigan.<sup>2</sup> There is no local aural broadcast service in Scottville.

3. In support of their proposals, petitioners assert that Scottville is the center of some of the state's finest recreational and farming regions, with the land immediately surrounding Scottville used for the growing of fruit, vegetables and grain. Petitioners note that the principal industry, Stokely-Van Camp Foods, employs 425 people during the packing season.

4. Both petitioners have proposed Channel 240A. Although one of the petitioners has proposed alternate Class A channels in the event that the Channel 240A assignment could not be made, since Channel 240A could be assigned to Scottville in compliance with all minimum distance separation requirements and without affecting any existing FM assignments, we are proposing it for Scottville.

5. Since Scottville is located within 402 kilometers (250 miles) of the U.S.-Canadian border, the proposed assignment requires coordination with the Canadian Government before it can be adopted.

6. In view of the foregoing information, and the fact that the proposed FM channel could bring a first local aural broadcast service to Scottville, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, with respect to Scottville, as follows:

Scottville, Michigan—no channel at present—Channel No. 240A proposed.

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements, are contained in the attached Appendix and are incorporated by reference herein.

**NOTE.**—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before February 12, 1979, and reply comments on or before March 5, 1979.

9. For further information concerning this proceeding contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contracts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral

\*Population figures are taken from the 1970 U.S. Census.

presentation required by the Commission.

**FEDERAL COMMUNICATIONS COMMISSION,**

**WALLACE E. JOHNSON,**  
**Chief, Broadcast Bureau.**

**APPENDIX**

1. Pursuant to authority found in Sections 4(f), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

### **DEPARTMENT OF COMMERCE**

#### **Industry and Trade Administration**

### **DEPARTMENT OF THE INTERIOR** Office of Territorial Affairs

#### **RULES FOR THE ALLOCATION OF WATCH QUOTAS FOR CALENDAR YEAR 1979 AMONG PRODUCERS LOCATED IN THE VIRGIN ISLANDS, GUAM AND AMERICAN SAMOA**

AGENCY: Bureau of Trade Regulation, Industry and Trade Administration, Department of Commerce; Office of Territorial Affairs, Department of the Interior.

ACTION: Final annual rules.

SUMMARY: The rules establish the formula for allocation of calendar year 1979 watch quotas among watch assembly firms in the Virgin Islands and Guam, establish the weights to be attributed to each factor contained in the formula, and provide for the allocation of the American Samoa watch quota. The rules also provide for the allocation of a portion of the quotas in the Virgin Islands and Guam among firms performing specified minimum assembly operations or making minimum wage contributions during a specified base period.

DATE: These rules are effective from January 1 through December 31, 1979, inclusive.

#### **FOR ADDITIONAL INFORMATION CONTACT:**

Richard M. Seppa, who can be reached by telephone on 202-377-2925.

Supplementary Information: The Department of Commerce and the Department of the Interior (the "Departments") published proposed production incentives applicable to calendar year 1979 allocation of duty-free watch quotas and invited comments from interested parties in the FEDERAL REGISTER dated June 6, 1978 (43 FR 24566 (1978)). Proposed annual rules for the calendar year 1979 allocation of duty-free watch quotas, inviting public comment, were published in the FEDERAL REGISTER dated September 8, 1978 (43 FR 40048 (1978)).

The Customs Simplification Act of 1954 (Pub. L. 83-768) provided for duty-free entry into the customs territory of the United States of products of the U.S. insular possessions which

did not contain foreign materials to the value of more than 50 percent of their total value. The purpose of the 1954 Act was to stimulate the development of light industry in the insular possessions so as to broaden their economic bases. Between 1959 and 1966 the number of watches assembled from foreign components in the insular possessions increased from 5,000 units to over 4 million units, making the insular watch assembly industry the largest to develop under the 1954 Act (which in 1963 was codified into customs law as general headnote 3(a) of the Tariff Schedules of the United States (19 U.S.C. § 1202)).

The Congress recognized it might be appropriate to favor the products of the insular possessions over direct imports "so long as no domestic industry is harmed by the policy" (S. Rep. No. 1679, 89th Cong., 2d Sess. 6(1966)). Concerned about the rapid growth in insular watch shipments and the potential effect on domestic industry, the Congress enacted Pub. L. 89-805 (19 U.S.C. 1202) in 1966 to establish a quota on the number of watches and watch movements which could be entered into the customs territory of the United States any year free of duty under general headnote 3(a). If left unchecked, the Congress reasoned, the duty-free privilege would become "little more than a convenient device for funneling foreign watches into this country."

Under Pub. L. 89-805 the Departments share responsibility for the allocation of each year's quota "on a fair and equitable basis" among producers in each of the possessions. The legislative history of Pub. L. 89-805 clearly indicates that the quota was to be allocated in a manner calculated to reflect and preserve the established character of the industry in the insular possessions and to take into account the cost of labor involved in the assembly of a watch because the labor factor "is a measure of the economic contribution being made by the assembly process, and also is an indication of the degree of assembly work being performed in the islands." The Senate report further indicated that in administering the quota law the Departments "may take into account whatever additional factors they find warranted." The Act specifies that the "allocations made by the Departments are final" and authorizes the Departments "to issue such regulations as they determine necessary to carry out their duties."

In adhering to the intent of the Congress and the purpose of general headnote 3(a) the Departments have since 1967 made quota allocations under formulae which have progressively emphasized labor contributions and, in recent years, corporate income tax payments to the territorial economies.

The Departments' commitment to maximizing the economic contributions to the territories through the exercise of their allocation authorities was reflected in the initial 1967 allocation (32 FR 4178 (1967)). Labor cost, the Departments stated, was "a single common denominator consisting of several factors which together reflect a meaningful contribution to the economy of the insular possession. Furthermore, in making allocations in future years we expect to place increasing emphasis on those factors which foster greater economic contributions to the economies of the insular possessions."

The Departments' allocation formula, in conjunction with the general headnote 3(a) foreign material content limitation, was relatively effective in encouraging firms to engage in meaningful watch movement assembly in the insular possessions, thereby ensuring wage contributions and employment in the economies. Whereas the industry relied almost exclusively on subassemblies (preassembled components) prior to enactment of Pub. L. 89-805, most firms were doing complete or near-complete assembly of the watch movement components by 1975. This was particularly true of the Virgin Islands industry, which receives 87.5 percent of the total quota.\*

In recognition of the importance of the watch assembly industry to the economy of the Virgin Islands, Congress passed Pub. L. 94-88 in August, 1975, in order to preserve and restore the then-floundering industry. After peaking in 1973 with shipments of 4.6 million units (Table 1) and employment of 1200 residents, Virgin Islands production dropped to 4 million units in 1974 and 3 million units in 1975, and employment declined 30 percent during the period. The cost of the foreign components had risen by over 60 percent between 1973 and 1975 chiefly as the result of the devaluation of the dollar. This made it increasingly difficult for producers in the insular possessions to meet the 50 percent foreign value limitation (which required a doubling of the foreign costs) and to compete effectively in the United States. The 1975 legislation permitted watch movements assembled in the insular possessions to have up to 70 percent foreign material value upon entry into the customs territory of the United States. Thus watch movements assembled from components costing the producer \$4.00, which previously had to be sold for no less than \$8.00, could be sold for \$5.72 in the United States.

The Departments supported the 1975 legislation. The Department of

\*In 1975 three Virgin Islands firms shipped a total of 210,000 movements produced from subassemblies.

Commerce, in commenting on the legislation in bill form, stated that "the enactment of this amendment will not diminish the ability of the Department to obtain meaningful economic contributions from the watch assembly firms through the allocation formula...."

Although Pub. L. 94-88 afforded some relief to the Virgin Island watch assembly industry (shipments rose to 4 million units in 1976 and 4.7 million in 1977), the use by some firms of subassemblies also increased, resulting in a decline in their local labor input. As a result the industry's average wages per movement assembled declined during the period from \$1.11 in 1975 to \$.91 in 1977, an 18 percent decrease in the average labor expended in the assembly of each watch movement produced in the Virgin Islands (Table 2).

Early in the program the Departments recognized that not every firm might be able to use all of the quota it earned each year under the published allocation formula. Accordingly, in order to maximize the benefits to the insular economies the Departments provided in their rules for the reallocation of quota voluntarily relinquished by such firms or cancelled by the Departments. Since 1968 reallocation has been made by the Departments "in a manner best suited to contribute to the economy of the territories." In recent years, the Departments have calculated the wage and corporate income tax payments for the preceding calendar year of the firms requesting additional quota, and the share each firm received on reallocation was directly proportionate to its share of the total wage and tax contributions of all of the competing firms. Because, prior to 1975, firms making significant wage and tax contributions were among the firms competing for reallocation of quota, the net result of the reallocation process was to reinforce the incentive features, that is, the direct economic benefit factors, in the published allocation formula. The watch quota allocation rules for calendar 1979 are designed to prevent the deterioration of the headnote 3(a) privilege into merely a tariff-avoidance device which fails to satisfy Congressional expectations in enacting the law. As the Chairman of the Senate Committee on Finance stated in the hearing leading to the enactment of Pub. L. 89-805, "I would like to see the Virgin Islands prosper. At the same time I want to be fair to the American people and fair to the islands.... The thought that occurs to me is that... (insular producers) would have to do ore assembling... would have to... put in the flywheel and do something more to the watch than just screw together a subassembly.... Now, I personally find very little sympathy with

this thing, of letting somebody evade a \$3 tariff by screwing on the back of these watches.... If that is all there is to it, for the life of me, I can't see why we ought to permit that as a loophole to our tariff laws.... I am interested in helping the Virgin Islands, Guam, Samoa to raise their standard of living and honorably and legitimately provide for the needs of their people." (Hearings on H.R. 8436 Before the Senate Committee on Finance, 89th Cong., 2d Sess. 45-47 (1966)). A recent House Ways and Means Committee report has affirmed the Congressional intent in enacting Pub. L. 89-805 by stating that the "quota was expected to prevent to the development of simple pass through (sic) operations which would allow foreign watches to enter the United States duty-free while providing no significant benefits to the economies of the insular possessions." (S. Rep. No. 1679, 89th Cong., 2d Sess. 1966) (H.R. Rep. No. 1670, 95th Cong., 2d Sess. 5 (1978)).

The increased use of low-labor movements in the insular watch assembly industry (Table 3) was of sufficient concern that the Department of Commerce watch quota staff prepared a staff report on the issue in June 1977. Of principal concern was that as the use of preassembled movements increases, the wage and employment benefits accruing to the territories would likely decline. By letter of September 20, 1977 all watch quota firms were advised that the Departments were considering changes in the allocation rules to ensure that the rules would continue to serve as an incentive for all quota firms to engage in meaningful assembly operations.

After assessing not only all comments received in response to the September 1977 letter but also staff analysis, the Departments published in the June 6, 1978, issue of the FEDERAL REGISTER a notice of proposed production incentives (43 FR 24566 (1978)). On September 8, 1978, the Departments published proposed annual rules for the allocation of watch quota for calendar year 1979 (43 FR 40048; 43 FR 42776 (1978)).

Copies of the proposed annual rules were mailed to all watch quota firms and all persons requesting a copy. Interested persons were invited to provide comments on or before 5:00 p.m., October 16, 1978. Although a preference was indicated for written comments, the notice advised that oral comments could be made and that a written report of such comments would be placed on the public record. In response, the Departments received 6 written submissions containing comments and suggestions totalling 109 pages. No oral comments were received during the 45-day comment period. Several written comments received

after the close of the comment period were not considered. In response to their earlier notice on proposed production incentives, the Departments received 13 submissions containing comments totalling 351 pages. All of these comments are on the public record, and those received within the specified time frames have been carefully considered by the Departments.

#### DISCUSSION OF COMMENTS

• The principal issues raised by the comments and the Departments' response to them are described below.

#### EFFECT ON INSULAR EMPLOYMENT

• Some commentators argued that the proposed minimum standards for participation in the proposed incentive portion of the quota could not be met by several of the existing firms and that the employment provided by these firms would therefore be lost to the insular economies. A report commissioned by some low-labor producers and submitted in response to the June 6 proposal was cited to support these claims.

• Others contended that the proposed minimum standards, while a step in the right direction, did not go far enough, and that firms not making significant economic contributions would receive increasingly greater amounts of quota over time, either driving out of business those firms presently making significant contributions to the economy or inducing them to make fewer contributions. They contended that in either event adoption in final form of the rules as proposed would result in significant losses of insular employment.

• One of the firms supporting the rules as proposed stated that "unless something is done about the completely unfair competition of the 2 screw operations," that firm would be forced to convert to assembly techniques using little local labor. On annual shipments of approximately 500,000 units, this conversion, it was stated, would reduce employment in that firm from 70 to 15 persons."

The net effect of the rules on overall employment cannot be accurately predicted without observation of the impact of the rules on the entire industry's ability to utilize the quota available in calendar year 1979. Further discussion of their probable effect on employment, however, is contained

\*During the 1977 verification of company records in Guam, the acting U.S. Government Comptroller for Guam, U.S. Department of the Interior, performed a time and motion study on the "two screw" assembly operation. He reported that the assembly process took between 40 and 45 seconds to perform. On the basis of this analysis the Comptroller concluded that it was feasible for one person to assemble 600 units per 8-hour work day.

in the next section. These rules will not over time result in higher allocations to firms not making significant contributions. In fact, they will result in gradual reductions in the quotas received by such firms if the firms do not adjust their assembly operations in order to increase their economic contributions to the insular possessions. The rules are designed to increase economic benefits to the territories by increasing employment per unit of production.

#### THE DOMESTIC MARKET FOR INSULAR WATCHES

• Some commentators stated that firms using the inexpensive, largely preassembled movements have targeted a part of the domestic market not previously open to insular watch firms; and that the increased requirements will make these firms non-competitive. These commentators stated that the labor-intensive or "Swiss style" companies experienced a decline in shipments between 1977 and 1978 and asserted that the low-labor or "specialty movement" companies provide the key for reversing the industry decline. It was contended by these commentators that the chronic underutilization of quota in recent years demonstrates this decline in the "Swiss style" segment of the industry.

• Other commentators claimed that insular firms making greater local labor contributions have lost sales to the largely preassembled movements and that, unless low-labor firms are required to engage in more labor-intensive operations, additional losses will be incurred, with disastrous effects on the overall level of economic contributions to the territories.

• With respect to the contention that labor-intensive companies' shipments are declining, the Departments note that through September 30, 1978, the Virgin Islands labor-intensive producers shipped 2,982,985 units (compared to 2,831,645 units through the same period in 1977) and paid wages subject to FICA taxes of \$2,725,474. Through September 30 the low-labor firms shipped 422,167 units (compared to 486,332 units in 1977) and generated a payroll of \$234,500. Thus, through the first three quarters of 1978, the labor-intensive firms shipped 87.6 percent of the Virgin Islands total compared with 85.3 percent through the same date in 1977. The labor-intensive firms contributed 92.1 percent of the FICA wages paid and, as of September 30, 1978, were employing 598 workers, compared with 79 workers in the low-labor firms (See table 4 for detailed data on employment and wages in the Virgin Islands watch and watch movement assembly industry in 1977).

These data forecast the probable economic implications for the Virgin

Islands if labor-intensive firms were to convert to low-labor production in the territory. Assuming the low-labor producers had shipped 5,000,000 units of the 1977 Virgin Islands quota, with an average per unit wage contribution of 47¢ (which they actually paid in 1977), local residents would have received only \$2,350,000 in wages. (See table 5 for the shipments and wage share of the low-labor firms in the Virgin Islands, 1967-1977). The labor-intensive firms, in contrast, paid in 1977 approximately \$4,000,000 in wages on shipments of 3.8 million units.

The Departments, moreover, do not consider the underutilization of quota since 1974 as convincing evidence that the labor-intensive segment of the industry, or the industry as a whole, is in decline. The 1974-76 shortfalls were attributable largely to the special circumstances, previously discussed, which were rectified by the 1975 legislation. The effectiveness of this legislation is shown in the fact that in 1976 shipments increased by 32% from the Virgin Islands and 24% overall, and that further increases of 16% and 17%, respectively, were recorded in 1977. Shipments from the Virgin Islands last year, in fact, were the highest in the history of the program, and 1977 shipments from all the insular possessions were second only to 1973.

The 1977 shortfall in quota utilization, in the context of the very high level of shipments, rather than evidencing a "decline", reflected primarily an increase in U.S. apparent consumption of watches and watch movements (Table 6) and changes in the composition of U.S. demand. Although the size of the quota in the 1967-76 period increased or decreased at rates between -1% and +6% per year, in 1977 it increased by 29%, exceeding by 7% the aggregate growth of the preceding ten-year period. This increase came largely as the result of the rapid growth of solid state watches in the U.S. watch market, and insular production may not become significantly involved in that portion of the market due to the low tariff rates applicable to solid state imports. If the 1977 quota had increased within the previous historical pattern, utilization of quota in the Virgin Islands in 1977 would have been approximately 89%.

Watches and watch movements assembled in the insular possessions are marketed through a wide range of outlets, including jewelry stores, catalogs and catalog show rooms, mass merchandisers, drug stores, department stores and discount houses. Insular producers have pursued a variety of marketing and pricing strategies within the types of outlets available. Swiss-affiliated or Swiss-owned companies, for example, normally rely on more expensive movements and have

concentrated sales at the upper end of the insular trade, which is directed predominantly at the low-to-moderate segments of the overall U.S. watch market. These movements retail (usually after additional U.S. processing) in the \$40-and-above range. Some insular producers use better quality, more costly components for sales under nationally known brand names and less expensive movements for other sales. Independents sell where the demand is, whether it be for less expensive or more expensive movements, and their output is usually sold under a variety of brand names and in a variety of outlets. Still other producers assemble the lowest cost movements available and retail them in small shops and discount outlets in major urban markets, or supply them to large discount accounts for national distribution.

There is little incentive for insular firms to assemble pin-lever movements or the quartz analog and electronic display solid state movements in view of the \$.75 to \$.90 duty applicable to these movements upon direct entry from foreign sources into the customs territory of the United States. Moreover, at present wage rates applicable in the insular possessions\*, the possessions are unable to compete successfully against these watches with assembly facilities in the Far East where labor costs are considerably lower.

Most producers have concentrated sales in the low end of the 17- or 21-jewel watch market where the specific rates of duty on watches and watch movements offer the greatest advantage over duty-paid imports. A large portion of the insular production (65 to 75 percent annually of all shipments) is of movements for ladies' watches because the tariff schedules provide for higher duties on the smaller size movements; 17-jewel movements suitable for men's watches, for example, are dutiable at \$1.80 (\$2.30 if automatic), while movements for small ladies' watches less than .6 inch wide are dutiable at \$2.70.

Department of Commerce data indicate the average unit value (reflecting primarily wholesale prices) of duty-paid imports of 17-jewel watches and watch movements was \$12.22 in 1977 (Table 7). The average value of the Virgin Islands products, which are predominantly 17-jewel watches and watch movements, was \$8.92.

The duty-paid import value reflects 17-jewel imports at the high end of the market (in which insular producers normally do not compete), but insular producers can compete reasonably well against the 17-jewel duty-paid imports directed at the low end

and middle of the domestic market by the principal suppliers (Japan and Switzerland). This is due not only to the duty differential but to the fact, as well, that the inflationary pressures and currency fluctuations which affect the insular producers using the Swiss or Japanese components also impact on the cost of direct imports of those movements. Thus, in the low and middle segments of the 17-jewel conventional watch market the primary competition for the insular producers of low to moderately price labor-intensive movements are the other insular producers of less expensive low-labor movements.

The Departments believe this competition within the insular industry will continue. They expect the insular industry will retain its relative share of the U.S. market for conventional jeweled timepieces, which they also expect to remain relatively stable and may increase slightly in absolute terms for the foreseeable future. The conventional mechanical watch remains the market's dominant, stable timepiece (*Jewelers, Circular Keystone*, June, 1978). Department of Commerce trade data through July, 1978 when put on an annual basis, show that duty-paid imports of 17-jewel watches and watch movements are up by 16 percent over 1977 (see Table 8). While industry sources and trade publications project that conventional watches will eventually drop to about one-third of total U.S. consumption and may ultimately be replaced by the quartz analog watch as the most popular timepiece, the increase in domestic consumption of all timepieces is expected to sustain a strong and continuing market in 17-jewel conventional watches, especially in the ladies' conventional watches, which are small and stylish (compared with the solid state watches) and which make up the bulk of the insular production.

Approximately 70% of the 1979 quota for the Virgin Islands will be allocated on the basis of shipments, taxes and wages, and only 30% will be allocated on the basis on minimum number of assembly steps or minimum economic contributions to the territory. No evidence has been placed on the record to support the argument that firms now using the low-labor movements could not through performance of additional assemble operations increase the local labor input by the amount needed to satisfy the provisions relating to that portion of the quota allocated on the basis of minimum number of assemble steps or minimum economic contributions to the territory per unit shipped. The claim that the low-labor firms will have to discontinue operations completely, costing the insular possessions

approximately 150 jobs, is also not supported by the record.

#### MINIMUM ASSEMBLY STEPS OR MINIMUM ECONOMIC CONTRIBUTIONS CRITERIA

● Comments made on features of the rules providing for a portion of the Virgin Islands and Guam quotas to be allocated on the basis of minimum assembly steps or minimum economic contributions include:

That the ratio used for that portion of the 1979 quota to be allocated without reference to the minimum requirements should be uniform for both Guam and the Virgin Islands; and that the ratio proposed for Guam is the one that should be adopted for both territories in the final rules;

That the final rules should specify that the discrete components and labor-input criteria apply to each unit shipped and not as averageable quantities against aggregated shipments;

That wages attributable to casing activities should be included in satisfaction of the proposed labor-input criteria;

That not only wages attributable to casing activities but also wages for strapping, boxing and other incidental activities as well should be excluded;

That, after taking into account in the formula wages attributable to casing activities, the labor-input proposal should be revised to permit as an alternative a direct economic contribution test of wages plus taxes equalling \$1.00 per unit, provided that not less than \$0.60 per unit is attributable to wages; and

That the Departments not utilize first-quarter data in determining a firm's eligibility for allocations on the basis of minimum assembly steps or economic contributions in view of the fact that the data could reflect seasonal fluctuations, unless the Departments are satisfied that the data are not distorted and unless the firm certifies it will not subsequently alter its operations.

● The Departments' responses to these comments are as follows:

The Guam industry has historically relied more heavily than the Virgin Islands industry on the preassembled movements and is currently completely reliant on such movements. With no labor-intensive firms competing for the quota in Guam, there is need for the adoption of rules providing effective incentives for the Guam industry's transition away from operations providing minimal wage contributions. Establishing the same ratio for the Virgin Islands, where 82% of the industry's 1977 production consisted of movements assembled from largely unassembled parts, would result in the appearance of uniform treatment but would in actuality constitute different treatment due to the differing circum-

stances in the two territories. The legislative history to Public Law 89-805, in assigning joint allocation responsibility to the Departments, notes "that all factors important to the proper allocation of quota among each possession's producers will be weighed in proper perspective" S. Rep. No. 1679, 89th Cong., 2d Sess. 8(1966) (Emphasis added).

The discrete components criterion does apply to each unit to be shipped duty-free into the customs territory of the United States if the firm elects to qualify for allocations under that criterion. The labor-input criterion does not apply to each unit shipped but rather to the aggregated shipments as an average amount to be realized. It is the intention of the Departments to provide sufficient flexibility for firms unable or unwilling to rely completely on movements containing at least 26 discrete components to engage in operations which nevertheless, in the aggregate, make economic contributions satisfying the purposes of Pub. L. 89-805.

In taking into consideration wages attributable to casing in the allocation formula and in the economic eligibility criteria, firms will be encouraged to case in the insular possessions (See Table 9 for data relating to casing activity). This would be consistent with the purposes of Public Law 89-805 and the Departments' responsibility to promote substantial economic contributions to the territories. However, in order to ensure such inclusion will not be used to undermine to intent of the economic eligibility criteria, which is to discourage pass-through operations on the movement assembly, that part of the rule addressing the discrete-components and labor-input tests applicable to allocations and reallocations under these provisions has been adjusted.

Establishing an alternative direct-economic-contribution criterion of \$1.00 per unit (with not less than \$0.60 of that amount attributable to wages) would, if casing wages were also included, provide little stimulus for the industry to make substantial economic contributions to the insular possessions.

Strapping and banding wages will not be taken into consideration in the wage factor because straps and bands are not included in the definition of watches and watch movements under Pub. L. 89-805.

Because the 1976 and 1977 first quarter data verified by the Departments do reveal seasonal fluctuations, firms utilizing the first quarter of 1979 as the base period will be required to demonstrate to the Departments that the average labor-cost increases over 1978 levels reflect changes in assembly practices rather than distortions

caused by various factors, such as artificially high wage rates, depressed first quarter shipments, inventory buildup and training expenses. As a condition for receipt of allocations or reallocations based on Subsections 3(a) or 3(b) criteria, firms utilizing either the 1978 or the first quarter 1979 base period will be required to certify to the Departments that they will not alter assembly operations during the remainder of the year in a manner which would result in their failure to satisfy the respective criteria.

#### ALLOCATION FORMULA FACTORS AND THEIR WEIGHTS

● Some commentators claimed that the portion of the quota to be allocated on the basis of shipments, taxes, and wages in the Virgin Islands and Guam underemphasized the labor factor and further weakened the overall purposes of the rules by including shipments as an element in the formula because shipments were already reflected in wages and taxes, the other elements in the formula. These commentators urged the Departments to eliminate shipments as a formula factor and assign weights of 75 percent and 25 percent to wages and taxes, respectively.

● Another commentator suggested that by crediting only those taxes actually paid to the insular governments, the Departments were interfering with the industrial incentive tax programs of those governments. It was recommended that the Departments amend the tax factor to refer only to "gross income taxes payable." The Departments' responses to these comments are as follows:

● The legislative history expressly mentions "production", that is, shipments of watches and watch movements into the customs territory of the United States, as one factor to be considered in the allocation of quota. The Departments have reduced the weight assigned to the shipments factor from 75 percent in 1967 to 25 percent in 1978, and the proposed weight of 20 percent for 1979 is considered appropriate in terms of this factor's weight relative to the other elements in the formula.

● Revising the tax factor to include gross income taxes payable would be inconsistent with the Departments' policy since 1972 to credit only the net income tax contributions to the insular possessions.

#### REALLOCATION OF QUOTA

● One commentator stated that because the purpose of the reallocation procedure "is to maximize utilization of the quota," any quota available for reallocation should "either be freely available to all producers or be availa-

ble to any assembly operation which meets the minimum labor or total economic contribution standards" which were proposed by this same commentator, viz., a total economic contribution of \$1.00 in wages and income taxes, provided that at least \$0.60 is in the form of wages.

● The Departments consider the maximum utilization of the quota desirable but subordinate to the overriding goal of maintaining the industry's economic contributions and avoiding the development of pass through operations inconsistent with headnote 3(a) and Pub. L. 89-805. The Departments believe that the reallocation of quota to producers without regard to their economic contributions to the insular possessions would ignore both of these statutory objectives.

#### CONCLUSION

The final rules remain substantially as proposed but in order to reflect the above considerations are revised to establish a higher labor-input criterion of \$.95, in those instances where the firm engages in casing activities, and a higher assembly criterion of 29 components, including 3 case components, for watches and to specify that any firm electing to qualify for incentive allocations on the basis of its first-quarter wage contributions will bear the burden of demonstrating to the Departments that such data reflect changes in assembly practices. For example, wages resulting from unusual pay increases or from watch movements assembled and not shipped will be discounted for purposes of calculating compliance with the minimum wage criterion.

Also, specific provision is made for a show-cause order to be issued when firms have not complied or appear not to be complying with the certification required under section 7 of the regulation.

In addition, the following modifications of the proposed rules are made: The substance of Sections 1 and 2 of the proposed rules are incorporated in Sections 1 through 3 of the final rules. Sections 3 through 7 of the proposed rules have been redesignated as Sections 4 through 8 in the final rules. Another minor change in the organization of particular sections and editorial changes not previously discussed includes clarification of the definition of "discrete components" (Subsection 6(b) of the proposed rules) in Subsection 7(b) of the rules.

Based on the entire record in this matter, the Departments find that the annual rules will ensure that the overall purposes of general headnote 3(a) will be satisfied.

The Departments will carefully monitor the effect of these new rules on individual companies within the

\* By federal law the minimum wage in the Virgin Islands is scheduled to increase annually from a rate of \$2.65/hr. in January, 1978, to \$3.35/hr. by January, 1981.

watch assembly industry in the insular economies during calendar year 1979. In light of the adjustments which these rules may make necessary careful consideration will be given within the context of the overall purpose of these rules to any petition or appeal pursuant to Section 303.11.

**Drafting information:** The principal authors of these rules were Richard M. Seppa and Frank W. Creel, Statutory Import Programs Staff, Wallace E. Brown and Daniel C. Hurley, Jr., Office of General Counsel, all of whom are with the Department of Commerce.

Accordingly, the rules for the allocation of watch quotas for calendar year 1979 among producers located in the Virgin Islands, Guam and American Samoa are as follows:

Section 1.(a) A portion of the 1979 Virgin Islands quota determined in accordance with subsection 2(a) below and a portion of the 1979 Guam quota determined in accordance with Subsection 2(b) below will be allocated on the basis of (1) the dollar amount of wages, up to maximum of \$14,000 per person, paid by each producer during calendar year 1978 to residents of the territory and attributable to each producer's headnote 3(a) watch and watch movement assembly operations, (2) the dollar amount of income taxes paid by each producer during calendar year 1978 attributable to its headnote 3(a) watch and watch movement assembly operations (excluding penalty payments and income tax refunds and subsidies paid by the territorial governments during calendar year 1978), and (3) the number of units of watches and watch movements assembled in the territory and entered by each producer duty-free into customs territory of the United States during calendar year 1978. (b) In making allocations under this formula, a weight of 60 percent will be assigned to the wage factor, a weight of 20 percent will be assigned to the income tax factor, and a weight of 20 percent will be assigned to the shipment factor.

Section 2. (a) An amount representing that portion of the 1979 Virgin Islands quota equal to the ratio of general headnote 3(a) shipments of watches and watch movements from the territory during 1978 to the total 1978 Virgin Islands quota will be allocated among the producers in the Virgin Islands, in accordance with the allocation factors and weights specified in Section 1.

(b) An amount representing that portion of the 1979 Guam quota equal to 75 percent of the ratio of general headnote 3(a) shipments of watches and watch movements from the territory during 1978 to the total 1978 Guam quota will be associated among the producers in Guam, in accordance

with the allocation factors and weights specified in Section 1.

Section 3. The portions of the Virgin Islands and Guam quotas not allocated pursuant to subsections 2(a) and 2(b) respectively, except as specified in Section 4 with respect to Guam, will be allocated among firms meeting the requirements of subsections (a) or (b) of this section. Eligible firms will be allocated quota in accordance with the factors and weights specified in Section 1. Allocations of the portions of the Virgin Islands and Guam quotas under this Section will be made to firms which:

(a) Assembled all watch movements shipped during the base period from unassembled movements having at least 26 discrete components and all watches that is, cased movements, during the base period from at least 29 discrete components, including at least 26 movement components and at least 3 case components; or

(b) Made wage payments during the base period in the territory averaging not less than \$.75 per watch movement and \$.95 per watch assembled and shipped into the customs territory of the United States.

Section 4. Quota set aside for new firms in Guam under subsection 5(b) shall be subtracted from the quota amount allocable under subsection 2(b), before allocations are made pursuant to that subsection.

Section 5.(a) Applications from new firms are invited for the calendar year 1979 American Samoa quota, because the sole recipient in the territory discontinued operations in calendar year 1977, and a new entrant was not selected under the 1978 new entrant provision (43 FR 4274; 43 FR 10718 (1978)). Due to the limited size of the American Samoa quota, the Departments will allocate that quota to the single firm which offers the best prospect of making a meaningful long-term contribution to the economy of the territory.

(b) Applications from new firms are invited for 150,000 units of the calendar year 1979 Guam quota.

(c) Applicants for new-entrant quotas in Guam or American Samoa must complete applicable sections of Form ITA-334P, copies of which may be obtained from the Statutory Import Programs Staff, Room 6894, U.S. Department of Commerce, Washington, D.C. 20230. Detailed instructions for completing ITA-334P will be provided by the Statutory Import Programs Staff together with copies of the application form.

(d) The Departments will consider new entrant applications only from firms able and willing to certify to the Departments that they can meet the minimum assembly or wage contribution criteria established in Section 3.

Following the Secretaries' determination that a qualifying application has been received, an announcement will be published in the FEDERAL REGISTER establishing a closing date for further applications. The closing date shall be 30 days from the date of such notice. In the event no qualifying application is received for the Guam new entrant quota prior to September 1, 1979, and existing Guam quota recipients were able to satisfy the criteria established in Subsection 3(a) or 3(b) during the base period, a portion or all of the Guam quota set aside for new entrants may be reallocated to the 1979 Guam quota recipients in accordance with Subsection 303.5(b) of Title 15 of the Code of Federal Regulations.

Section 6. Reallocation of calendar year 1979 quota which becomes available will be restricted to those firms satisfying the criteria established in subsections 3(a) or 3(b).

Section 7. As used in Section 3 of these rules,

(a) "Wages" means all wages up to \$14,000 per person or \$3,500 per person, depending upon the base period, paid to residents of the territories employed in a firm's headnote 3(a) watch and watch movement assembly operations. Excluded, however, are wages paid to (i) accountants, lawyers or other professional personnel who may render special services to the firm, (ii) persons assembling non-headnote 3(a) watches and watch movements, (iii) persons engaged in the repair of non-headnote 3(a) watches and watch movements, and (iv) persons engaged in the strapping and packaging of watches. Wages paid to persons engaged in both headnote 3(a) and non-headnote 3(a) assembly and repair activities shall be credited proportionately for their headnote 3(a) activities, provided the firm maintains production and payroll records adequate for the Departments' verification of the headnote 3(a) portion.

(b) "Discrete movement components" means screws, parts, components and subassemblies not assembled together with another part, component or subassembly at the time of importation into the territory. (A mainplate containing set jewels or shock devices, together with other parts, would be considered a single discrete component, as would a barrel bridge subassembly). Excluded are dials, dial washers, dial screws, hour wheels, hands, automatic mechanisms and related parts, day-date mechanisms and calendar features, and jewels.

(c) "Base period" refers, in calendar year 1979, to

(i) calendar year 1978, or  
(ii) the period January 1, 1979 through March 31, 1979, for firms so electing.

Firms utilizing the first quarter of 1979 as their base period will be required to demonstrate to the Departments that average labor-cost increases over 1978 levels reflect changes in assembly practices rather than distortions caused by factors including artificially high wage rates, depressed first quarter shipments, inventory buildups, and training expenses.

Section 8.(a) All firms must, as a condition for receipt of allocations or reallocations based on Subsections

3(a) or 3(b) criteria, certify to the Departments that they will not alter assembly operations during the remainder of calendar year 1979 in a manner which would result in their failure to satisfy the respective criteria.

(b) If the Departments have reason to believe that a producer has not complied with or is not complying with the certification required by subsection (a) of this Section, they may issue a show-cause order requiring the producer to show cause, within 30 days

of receipt of the order, why the duty-free quota to which it would otherwise be entitled should not be cancelled or reduced by the Departments.

(Pub. L. 89-805, 80 Stat. 1521 (19 U.S.C. 1202) as amended; 15 CFR 303)

Issued at Washington, D.C., on December 18, 1978.

RUTH VAN CLEVE,  
Director, Office of Territorial Affairs,  
U.S. Department of the Interior.

| 11. Number of companies.....                                                           | 15            | 17           | 17           | 19           | 14           | 15           |

<sup>1</sup>Through 1974 the total amount of wages per employee creditable for quota calculation purposes was the amount of wages subject to FICA taxes. In 1975 and 1976 creditable wages were \$13,200 per person, and in 1977 the amount was \$14,000 per person.

<sup>2</sup>Excludes corporate income taxes exempted by the Virgin Islands Government.

<sup>3</sup>Through 1975 most firms enjoyed a 90 percent Customs duty exemption and a 100 percent exemption on gross receipts and excise taxes. Beginning in 1976 the percentage exemptions were reduced and the exemption given by each firm tied to its labor input per movement shipped.

<sup>4</sup>Approximately 670 employees in the Virgin Islands industry earned \$2,000 or more.

| 1977.....  | 1,204,087                    | 511,604                     | .42            | 5               | 3,779,191             | 3,651,721                   | .97            | 11              |
| Total..... | 3,038,724                    | 1,456,412                   | 1.41           |                 | 13,902,824            | \$13,805,636                | \$9.9          |                 |

<sup>1</sup>Low-labor firms are firms which use preassembled components on at least 50 percent of their production during the calendar year. The assembly process on "preassembled components" generally involves affixing the barrel and barrel bridge subassemblies to the mainplate subassembly, usually with two or three screws.

<sup>2</sup>Adjusted wages include only wages paid to residents of the territories whose wages are attributable to the firm's headnote 3(a) watch assembly operations. Also excluded are wages paid to any one person in excess of \$13,200 per year (1974-76) and in excess of \$14,000 in 1977.

<sup>3</sup>Excludes one low-labor firm which did not apply for quota in 1977. Therefore wage data on its 1976 operations were not reported to the Departments. Also excluded are data on one labor-intensive firm which discontinued operations in 1976.

<sup>4</sup>Data include one firm which performed labor-intensive assembly on 43 percent of its total production, and had an average wage input of \$.99 on its total production. Deducting this firm's shipments and wages from the 1976 low-labor totals results in wages of \$.49 per unit shipped in 1976, and an average of \$.42 per unit shipped for the 1974-1977 period.

<sup>5</sup>Excludes data on a firm which commenced operations in the fourth quarter of 1977.

| 1976 <sup>1</sup> ..... | 4               | 50.1                 | 15.1                             |
| 1977.....               | 3               | 11.1                 | 9.4                              |

<sup>1</sup>See Footnote 1 on table 3.

<sup>2</sup>For the purposes of this chart wages represent payments only to residents of the territory made by every assembly firm. Wages paid to individuals in excess of the wages subject to FICA taxes each year are discounted from this table for low-labor firms and for the remainder of the industry.

<sup>3</sup>Includes data on one firm which engaged in labor-intensive assembly on 43% of its 1976 shipments and averages \$.99 labor per movement shipped. Firms using subassemblies exclusively had a \$.49 labor per movement shipped in 1976.

Foreign-Trade Zones Board

[Docket No. 6-78]

## CHICAGO REGIONAL PORT DISTRICT

Foreign-Trade Zone No. 22, Chicago, Illinois—  
Withdrawal of Application for Zone Expansion and Steel Processing Operations

Notice is hereby given that the Chicago Regional Port District, grantee of Foreign-Trade Zone No. 22, Chicago, has requested to withdraw its application for authority to expand its zone for certain steel processing operations. The application was filed with the Foreign-Trade Zones Board on May 26, 1978 (Docket No. 6-78), and a public hearing was held on the matter in Chicago on June 20, 1978. The do-

mestic steel industry had voiced opposition to the proposal.

The request for withdrawal has been accepted by the Board's executive secretary and the proposal is considered closed.

Dated: December 19, 1978.

JOHN J. DA PONTE, JR.,  
Executive Secretary,  
Foreign-Trade Zones Board.

[FR Doc. 78-35888 Filed 12-26-78; 8:45 am]

[Order No. 140]

Resolution and Order Approving Application  
for a Foreign-Trade Zone in Multnomah  
County, Oregon

Proceedings of the Foreign-Trade  
Zones Board, Washington, D.C.

## RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

After consideration of the application of the Port of Portland, an Oregon public corporation, filed with the Foreign-Trade Zones Board (the Board) on August 7, 1978, requesting a grant of authority for establishing, operating, and maintaining a general-purpose foreign-trade zone in Multnomah County, Oregon, within the Columbia River Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

As the proposal involves an industrial park type zone that envisages the possible construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN MULTNOMAH COUNTY, OREGON

WHEREAS, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encour-

age foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

WHEREAS, the Port of Portland, (the Grantee) has made application (filed August 7, 1978), in due and proper form to the Board, requesting the establishment, operation and maintenance of a foreign-trade zone in Multnomah County, Oregon, within the Columbia River Customs port of entry;

WHEREAS, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

WHEREAS, the Board has found that the requirements of the Act and the Board's Regulations (15 CFR Part 400) are satisfied;

NOW, THEREFORE, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 45, at the location mentioned above and more particularly described on the maps and drawings accompanying the application in Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the Army District

Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

IN WITNESS WHEREOF, the Foreign-trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C., this 18th day of December 1978, pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,

C. L. HASLAM,  
Acting Chairman and  
Executive Officer.

Attest: JOHN J. DA PONTE, JR.,  
Executive Secretary.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Decision on Application for Duty-Free Entry of  
Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 78-00400. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Ave., Cambridge, Mass. 02139. Article: 500 kV Metalclad Test Transformer Type TES 510/90BM and accessories. Manufacturer: Messwandler-Bau G.m.b.H., West Germany. Intended use of article: The article is intended to be integrated into and existing Extra-High Voltage test facility at the MIT High Voltage Research Laboratory to allow high voltage research studies under AC as well as DC. These studies are primarily concerned with electrical insulation and high voltage techniques in which electrical breakdown and loss mechanisms are investigated. Initial work with the article will be directed at improving the insulating performance of SF<sub>6</sub> gas-insulated, electric power transmission cables. In addition, the article will be used for educational studies in the field of electrical engineering and physics particularly insulation and electrical discharges.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a 400-500 kilovolt output voltage with a 20-50 kilovolt amperes power rating. The National Bureau of Standards advises in its memorandum dated November 30, 1978 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### NATIONAL BUREAU OF STANDARDS

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 78-00401. Applicant: National Bureau of Standards, Washington, D.C. 20234. Article: Automatic Inductive ratio-arms bridge, Model A7. Manufacturer: Automatic Systems Laboratories, United Kingdom. Intended use of article: The article is intended to be used to make precise temperature measurements at several locations in a heat-flow calorimeter on a continuous basis for periods of several days, or in the case of half-life determinations for periods of several months. The calorimeter will in turn

be used to accurately measure the heat produced in radioactive specimens and to relate these values to electrical standards.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides self-balancing precision measurements having a resolution of one part in  $10^7$  and an accuracy of  $\pm 4$  parts in  $10^7$  on a continuous basis over a long period of time. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated November 22, 1978, that the specifications of the article described above are pertinent to the applicant's intended use. HEW also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### NEW JERSEY INSTITUTE OF TECHNOLOGY

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 78-00384. Applicant: New Jersey Institute of Technology, Chemistry Division, 323 High Street, Newark, N.J. 07102. Article: LKB 8721-4 Closed bomb reaction calorimetric assembly and accessories. Manufacturer: LKB Produkter AB, Sweden. In-

tended use of article: The foreign article is intended to be used in calorimetric studies of strained bridgehead lactams, such as, 6, 6-dimethyl-1-azabicyclo (2.2.2) octan-2-one which exhibits reduced (or zero) pi resonance stabilization since its amide linkage is severely twisted. The enthalpies of combustion and vaporization will be obtained. This research will be also extended to include the compounds required in the synthesis of the 6, 6-dimethyl-1-azabicyclo (2.2.2) octan-2-one parent molecule, 1-Azabicyclo (3.3.1) nonan-2-one which exhibits another unique twisted pi linkage, and 1-azabicyclo (3.2.2) nonan-2-one which when the  $\Delta H_f$  values are compared with 6, 6-dimethyl-1-azabicyclo (2.2.2) would provide some quantitation of Wiseman's rule which explains stability and transient nature of its isomers. The foreign article will also be used in education; two courses Chemistry 491/492 Undergraduate Chemistry Research and in Masters and Doctoral Degree Research.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides working temperatures up to 120 degrees centigrade ( $^{\circ}\text{C}$ ) with a temperature stability better than  $0.01^{\circ}\text{C}$ , an accuracy of  $\pm 0.01\%$  and modular compatibility with existing equipment for increased capability. The National Bureau of Standards advises in its memorandum dated November 16, 1978 that (1) the characteristics of the foreign article described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### PURDUE UNIVERSITY

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 78-00313. Applicant: Purdue University, ADMS Building, West Lafayette, Ind. 47907. Article: Superconducting 8.5 T solenoid with power supply. Manufacturer: Oxford Instruments, Ltd., United Kingdom. Intended use of article: The article is intended to be used to apply state-of-the-art NMR instrumentation for the solution of certain well-defined problems in protein chemistry. The general goals are two-fold: (i) To learn more about the structure and function of particular proteins and (ii) to refine and develop NMR techniques along with other methods of protein chemistry for use in future studies. Five specific problems under investigation are: (1) The active sites of serine proteinases, (2) the mechanisms of interactions between protein proteinase inhibitors and proteinase, (3) the structures of glycoproteins, (4) the mechanism of folding of staphylococcal nuclease, and (5) the mechanism of electron transport in photosynthesis. The article will also be used for educational purposes in the course—Chemistry 696B which is designed as an introduction to the theory of NMR spectroscopy and its applications to biochemical problems.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (February 3, 1978). Reasons: The foreign article provides a field strength of at least 8.5 Tesla with sufficient magnetic field homogeneity to perform high resolution nuclear magnetic resonance experiments. The Department of Health, Education, and Welfare advises in its memorandum dated November 28, 1978 that (1) the capability of the foreign article described above is perti-

nent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use which was available at the time the foreign article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States at the time the foreign article was ordered.

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 78-00376. Applicant: San Diego State University, 5300 Campanile Drive, San Diego, Calif. 92182. Article: Calorimetric Unit, Model CP-C and Accessories. Manufacturer: Sodev, Inc. Canada. Intended use of article: The article is intended to be used to measure the partial molal heat capacities of various inorganic and organic electrolytes and nonelectrolytes in aqueous solutions at concentrations from 0.05 molal to saturation and at temperatures up to  $80^{\circ}\text{C}$ . The data will be used to check and extend a theory developed for predicting the thermodynamic properties of aqueous electrolytes and other dissolved species up to  $300^{\circ}\text{C}$ . The data obtained up to  $80^{\circ}\text{C}$ , using the flow microcalorimeter, will be combined with our data above  $100^{\circ}\text{C}$ , which is obtained from heat of solution calorimetry, and will be used to calculate the high temperature thermodynamic properties of electrolytes for comparison with the theory.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is a flow heat mixing calorimeter with the capability of measuring the density of a flowing liquid to 1 part in  $10^6$  over the temperature range of  $0-80^{\circ}\text{C}$ . The National Bureau of Standards advises in its memorandum dated December 8, 1978 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 6886C of the Department of Commerce Building, at 14th

and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 78-00366. Applicant: University of Pennsylvania, 3400 Walnut Street, Franklin Building, Philadelphia, Pa. 19104. Article: NMR Spectrometer, Model WH-360/180 and accessories. Manufacturer: Schweiz Spectrospin AG, Switzerland. Intended use of article: The article is intended to be used for (1) identifying chemical compounds of small molecular weight, (2) determining the structure of macromolecules such as enzymes and nucleic acids in solution, and (3) studying the interaction between enzymes and substrates. Specific examples of the research to be conducted are:

(a) Kinetics of oxygen-18 exchange between inorganic phosphate and water catalyzed by myosin subfragment, using the "O-shift in <sup>31</sup>P NMR.

(b) Determination of membrane potential by use of <sup>13</sup>C NMR and a shift reagent to measure ionic-probe concentration gradients across the cell membrane.

(c) H NMR studies of hemoproteins substituted with cobaltous hemes. Many of the users of the facility are postdoctoral fellows or graduate students who learn about the application of NMR to biophysical and biochemical proteins. In addition, the article will be used in classes in biophysics, a course which deals with the application of various techniques, including NMR, to the probing of molecular structure.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (January 21, 1977). Reasons: The foreign article provides operation at a high field strength of 360 megahertz with a magnet field strength of 8.4 Tesla. The Department of Health, Education, and Welfare advises in its memorandum dated November 28, 1978 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use which was available at the time the foreign article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States at the time the foreign article was ordered.

##### UNIVERSITY OF TEXAS SYSTEM CANCER CENTER

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 78-00361. Applicant: The University of Texas System Cancer Center, 6723 Bertner, Houston, Tex. 77030. Article: Phywe Model ICP 11. Pulse Cytophotometer and accessories. Manufacturer: Phywe Co., West Germany. Intended use of article: The article is intended to be used for research in the areas of *In Vitro* and *In Vitro* cell kinetics. Cultured or human biopsy material will be processed to obtain a single cell suspension, using methods previously developed in this laboratory and published in *Cancer Research* and in *Blood*. Cells will then be fixed in ethanol and stained with 2 fluorochromes, ethidium bromide and mithramycin, specifically for DNA. Additional RNase treatment will follow. These measurements serve to identify the cell cycle stage distribution of cultured and human tumor cells as well as to identify aneuploid abnormalities. Both clinical oncology fellows and candidates of the Graduate School of Biomedical Sciences will continue to be involved in the research project, and primary emphasis of the laboratory has been on automated cytology.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a wide band of wavelengths (down to 254 nanometers) in the ultraviolet region of

its fluorescence excitation. The Department of Health, Education, and Welfare advises in its memorandum dated November 7, 1978 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### UNIVERSITY OF WASHINGTON

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 78-00377. Applicant: University of Washington, Department of Pathology, SM-30, Seattle, Wash. 98195. Article: Impulse Cytophotometer, Model 21 and accessories. Manufacturer: Phywe Ag., West Germany. Intended use of article: The article is intended to be used to study the DNA (deoxyribonucleic acid) content and DNA replication of human and animal cells. Experiments will be conducted to determine whether cancer or other clinical manifestations of aneuploidy (abnormal amounts of DNA/cell) can be diagnosed easily and rapidly with this instrument. A major use of the article will be for the courses Pathology 600, 700 and 800 which are research courses for students working on their master's and doctoral degrees. In addition, the article will be used in the course Pathology 530, Human Cytogenetics, to demonstrate modern instrumental methods of chromosomal analysis.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article can measure DNA contents of less than 0.1 picogram and a coefficient of variation of less than 2 percent. The Department of Health, Education, and Welfare advises in its memorandum dated November 22, 1978 that (1) the capabilities of the foreign article described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

##### EXPORTERS' TEXTILE ADVISORY COMMITTEE

##### Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976) notice is hereby given that a meeting of the Exporters' Textile Advisory Committee will be held at 10:00 a.m., on January 31, 1979, in Room 4833, U.S. Department of Commerce, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

The Committee, which is comprised of 20 members involved in textile and apparel exporting, advises Department officials concerning ways of increasing U.S. exports of textile and apparel products.

The agenda for the meeting is as follows:

1. Review of Export Data
2. Report on Conditions in the Export Market
3. Recent Foreign Restrictions Affecting Textiles
4. Other Business

A limited number of seats will be available to the public on a first come basis. The public may file written statements with the Committee before or after the meeting. Oral statements may be prepared at the end of the

meeting to the extent time is available.

Copies of the minutes of the meeting will be made available on written request addressed to the ITA Freedom of Information Officer, Freedom of Information Control Desk, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-5078.

Dated: December 13, 1978.

##### ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE

###### Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the electronic instrumentation Technical Advisory Committee will be held on Wednesday, January 17, 1979, at 9:30 a.m. in Room 5230, Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C.

The Electronic Instrumentation Technical Advisory Committee was initially established on October 23, 1973. On October 7, 1975, October 21, 1977, and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. section 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Subcommittee will meet only in Executive Session to discuss matters properly classified under Executive Order 11652 or 12065, dealing with the

U.S. and COCOM control program and strategic criteria related thereto.

Written statements may be submitted at any time before or after the meeting.

The Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 6, 1978, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government In The Sunshine Act, P.L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of the national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under Executive Order 11652 or 12065. All Committee members have appropriate security clearances.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20203, telephone: A/C 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Electronic Instrumentation Technical Advisory Committee and of any subcommittees thereof is hereby published.

Dated: December 21, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

U.S. DEPARTMENT OF COMMERCE, OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION, ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE

###### NOTICE OF DETERMINATION

In response to written requests of representatives of a substantial segment of the electronic industry, the Electronic Instrumentation Technical Advisory Committee was established by the Secretary of Commerce pursuant to Section 5(c)(1) of the Export Administration Act of 1969, 50 U.S.C. App. 2404 (c)(1)(1976), to advise the Department of Commerce with respect to questions involving (A) technical matters, (B) worldwide availability, and actual utilization of production technology, (C) licensing procedures which may affect the level of export controls applicable to electronic in-

strumentation, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee, which currently has eleven members representing industry and seven members representing government agencies, will terminate no later than August 29, 1980, unless extended by the Secretary of Commerce or her designee. All members of the Committee have the appropriate security clearances.

The Committee's activities are conducted pursuant to 50 U.S.C. App. 2404(c)(1); the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. (1976); and the Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act as amended by Section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, provides that advisory committee meetings or portions thereof may be exempt from the open meeting and public participation requirements of the Federal Advisory Committee Act if the President, or the head of the agency to which the advisory committee reports, determines that such meetings or portions thereof may be closed to the public in accordance with 5 U.S.C. 552b(c).

5 U.S.C. 552b(c)(1) provides that agency meetings or portions thereof may be closed to the public where they are likely to disclose matters that are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy and are in fact properly classified pursuant to such Executive Order.

Seven Notices of Determination authorizing the closing of meetings, or portions thereof, of the Electronic Instrumentation Technical Advisory Committee and its formal subcommittees, dealing with security classified matters, have been approved in the past.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as proposed changes, is now or will be security classified for national defense or foreign policy reasons, pursuant to Executive Order No. 11652, 3 CFR 339 (1974) or Executive Order No. 12065, 43 FR 28949 (1978). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the series of meetings or portions of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria estab-

lished by an Executive Order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such Executive Order, must be closed to the public. The remaining series of meetings or portions thereof will be open to the public.

Accordingly, I hereby determine, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, that the series of meetings or portions of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period from the date of the signing of this Determination, to August 29, 1980, from the provisions of Section 10 (a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in 5 U.S.C. 552b(c)(1). The remaining series of meetings or portions thereof will be open to the public.

Dated: September 6, 1978.

ELSA A. PORTER,  
Assistant Secretary  
for Administration.

Dated: September 5, 1978.

DANIEL GARBERN,  
Acting Assistant  
General Counsel.

#### [3510-25-M]

##### FOREIGN AVAILABILITY SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

###### Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee will be held on Tuesday, January 16, 1979, at 1:30 p.m. in Room 6029, Main Commerce Building, 14th Street and Constitution Avenue, N.W., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977 and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. section 2404(c)(1) and the Federal Advisory Committee Act. The Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee was established on July 8, 1975. On October 16, 1978, the Assistant Secretary for Industry and Trade approved the continuation of the Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Foreign Availability Subcommittee was formed to ascertain if certain kinds of equipment are available in non-COCOM and Communist countries, and if such equipment is available, then to ascertain if it is technically the same or similar to that available elsewhere.

The Subcommittee meeting agenda has four parts:

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Review of East European and U.S.S.R. computer processing data rates.
- (4) New items for Subcommittee consideration.

The meeting will be open for public observation and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

Copies of the minutes of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

Dated: December 21, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

#### [3510-25-M]

##### LICENSING PROCEDURES SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

###### Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee will be held on Tuesday, January 16, 1979, at 9:30 a.m. in Room 6029, Main Commerce Building, 14th Street and Constitution Avenue, N.W., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977, and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. section 2404(c)(1) and the Federal Advisory Committee Act. The Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee was initially established on February 4, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this subcommittee, pursuant to the charter of the Committee. And, on October 16, 1978, the Assistant Secretary for Industry and Trade approved the continuation of the Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Licensing Procedures Subcommittee was formed to review the procedural aspects of export licensing and recommend areas where improvements can be made.

The Subcommittee meeting agenda has six parts:

1. Opening remarks by the Subcommittee Chairman.
2. Presentation of papers or comments by the public.
3. Further discussion of full information of add-ons to small and/or foreign or computer systems installed several years previously.

4. The status of a blanket or a one year license for shows and displays.
5. Discussion of proposed General License Parts: Maintenance and Repair Parts.
6. Discussion of proposed General License G-supplies.

The meeting will be open for public observation and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the subcommittee. Written statements may be submitted at any time before or after the meeting.

Copies of the minutes of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

Dated: December 21, 1978.

**RAUER H. MEYER,**  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

#### [3510-12-M]

National Oceanic and Atmospheric Administration

#### FOUR MARINE SANCTUARY CANDIDATES

Intent to Prepare Draft Environmental Impact Statements

**AGENCY:** Sanctuary Programs Office/Coastal Zone Management, NOAA.

**ACTION:** Notice to interested parties of intent to prepare Draft Environmental Impact Statements (DEISs) on four marine sanctuary candidates.

#### FOR FURTHER INFORMATION CONTACT:

Dr. Nancy Foster, SPO/CZM, NOAA, 3300 Whitehaven Street, NW., Washington, D.C. 20235, telephone 202/254-7512.

**SUMMARY:** The Office of Coastal Zone Management announces its intention to prepare draft environmental impact statements on four marine sanctuary candidates—one site off Texas and Louisiana (the Flower Garden Banks), and three sites off California (Point Reyes/Farallon Islands, Monterey Bay and the waters around the northern Channel Islands and Santa Barbara Island).

**BACKGROUND:** Public workshops have been held on the Flower Garden Banks off Texas and Louisiana, on 5 California sites—offshore San Diego, Point Reyes/Farallon Islands, Monterey Bay, Tanner Cortes Banks, the Santa Barbara Channel and waters around the northern Channel Islands and Santa Barbara Island—and a site at Looe Key off Florida. After each workshop was held, the feasibility of each site as a possible marine sanctuary was determined. Of the candidates listed above, four have been determined feasible and will be the subject of draft environmental statements—the Flower Garden Banks and three of the sites off California, Point Reyes/Farallon Islands, Monterey Bay, and the waters around the northern Channel Islands and Santa Barbara Island. The Tanner Cortes Banks, San Diego and the main Santa Barbara Channel have been deferred. Action on Looe Key, Florida, has been delayed pending the completion of a coral reef study by the South Atlantic and Gulf Coast Regional Fisheries Management Councils.

Consultation with Federal and State Agencies and other interested parties will occur during preparation of the DEIS's. Availability of documents and hearing dates will be announced in the **FEDERAL REGISTER**.

**R. L. CARNAHAN,**  
Acting Assistant Administrator for Administration.

#### [3510-12-M]

#### GRAY'S REEF, GA.

Receipt of Nomination for Marine Sanctuary Designation

**AGENCY:** Sanctuary Programs Office/Coastal Zone Management.

**ACTION:** Receipt of Marine Sanctuary Nomination.

**SUMMARY:** Pursuant to guidelines under Title III of the Marine Protection, Research and Sanctuaries Act of 1972 (Pub. L. 92-532), NOAA announces receipt of a marine sanctuary nomination. Information and comments are requested on the feasibility of Gray's Reef, Georgia as a marine sanctuary.

**ADDRESS:** Send comments and/or information to: Director, Sanctuary Programs Office/CZM, NOAA, Room 280, 3300 Whitehaven St., N.W., Washington, D.C. 20235.

#### FOR FURTHER INFORMATION CONTACT:

Dr. Nancy Foster, SPO/CZM, NOAA, 3300 Whitehaven Street, N.W., Washington, D.C. 20235, tele-

phone 202/254-7512.

The Office of Coastal Zone Management has received a nomination of Gray's Reef on the Georgia Continental Shelf for a marine sanctuary. Gray's Reef, located 18 nautical miles east of Sapelo Island, Georgia, was nominated by the Georgia Department of Natural Resources, Coastal Resources Division.

The Marine Protection, Research, and Sanctuaries Act authorizes the designation of areas of ocean waters as marine sanctuaries to preserve or restore such areas for their conservation, recreational, ecological or esthetic values, and to adopt reasonable regulations for this purpose.

All interested persons or groups may submit information and/or comments concerning possible marine sanctuary status for this site. A further notice will be published in the **FEDERAL REGISTER** when NOAA undertakes review to determine feasibility of the site and Federal agencies and the State of Georgia will be specifically notified in conformance with 15 CFR Part 922, published in the **FEDERAL REGISTER**, on page 23256, June 27, 1974.

A copy of the nomination is available for public review in Room 280, 3300 Whitehaven Street N.W., Washington, D.C. 20235 between the hours of 8:00 a.m.—4:30 p.m., Monday through Friday.

**R. L. CARNAHAN,**  
Acting Assistant Administrator for Administration.

#### [3510-60-M]

National Telecommunications and Information Administration

#### FREQUENCY MANAGEMENT ADVISORY COUNCIL

Open Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that the Frequency Management Advisory Council (FMAC) will meet from 9:30 a.m. to 3:30 p.m. on January 10, 1979, in the Aspen Room at the National Telecommunications and Information Administration, 1325 "G" Street, N.W., Washington, D.C. (Public entrance to the building is on "G" Street, between 13th Street and 14th Street, N.W.)

The Council was established on July 19, 1965. The objective of the Council is to advise the Secretary of Commerce on radio frequency spectrum allocation matters and means by which the effectiveness of Federal government frequency management may be enhanced. The Council consists of 11

members whose knowledge of telecommunications is balanced in the functional areas of manufacturing, analysis and planning, operations, research, academia and international negotiations.

The agenda items for the meeting will be:

(1) Briefing on current and planned activities of the Electromagnetic Radiation Management Advisory Council (ERMAC) by Dr. John M. Richardson, Chief Scientist, NTIA.

(2) Review and discussion of FCC Report and Order, Docket 20271 (proposals for WARC-79).

(3) FMAC study of the proposed Communications Act of 1978—Administrative Review and Progress Report.

The meeting will be open to public observation; and a period will be set aside for oral comments or questions by the public. Each person will be limited to 10 minutes. More extensive questions or comments should be submitted in writing before January 9th. Other public statements regarding Council affairs may be submitted at any time before or after the meeting. Approximately 15 seats will be available for the public on a first-come first-served basis.

Copies of the minutes will be available on request.

Inquiries may be addressed to the Council Control Officer, Mr. Charles L. Hutchison, National Telecommunications and Information Administration, Room 298, 1325 "G" Street, N.W., Washington, D.C. 20005, telephone 202-724-3307.

Dated: December 21, 1978.

**CLOYD C. DODSON,**  
Committee Liaison Officer, National Telecommunications and Information Administration.

#### METROPOLITAN STATISTICAL AREAS

Hearing on Second Proposal for Changes in Criteria

**AGENCY:** Office of Federal Statistical Policy and Standards, Department of Commerce.

**ACTION:** Notice of Hearing on Second Proposal for Changes in Criteria for Designation and Definition of Metropolitan Statistical Areas.

Notice is hereby given of a public hearing on the second proposal for revising the criteria for establishing the metropolitan statistical areas (formerly known as Standard Metropolitan Statistical Areas). This hearing is in addition to the one scheduled for Decem-

ber 15, 1978. This revised proposal has been prepared by the Federal Committee on Standard Metropolitan Statistical Areas following the period of public review and comment on the first proposal which was published in the **FEDERAL REGISTER** for June 22, 1978. The revised criteria proposal was published for public comment in Part V of the **FEDERAL REGISTER** for November 29, 1978 and in the November 1978 issue of *Statistical Reporter*. Copies are also available from the Office of Federal Statistical Policy and Standards.

The hearing will be held at 9:30 a.m. on Friday, January 26, 1979 in Room B841, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. Persons wishing to be on the agenda should contact the Office of Federal Statistical Policy and Standards, U.S. Department of Commerce, Washington, D.C. 20230, telephone (202) 673-7965 by January 24, 1979. Written statements may be presented in lieu of attendance at the hearing. Oral summaries of statements should be limited to 10 minutes.

**COURTENAY M. SLATER,**  
Chief Economist for the Department of Commerce.

#### DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. G-9279, et al.]

#### AMOCO PRODUCTION CO. ET AL.

Order Directing Refunds

DECEMBER 14, 1978.

These proceedings<sup>1</sup> in Docket Nos. G-9279, et al. concern the disbursement of approximately \$7.6 million in refunds currently held by 32 producers<sup>2</sup> under the terms of various rate and certificate settlements approved by the Commission during the period from 1964 to 1969. The refunds are owed to 21 purchasers.

In the settlements, the Commission required the producers to retain the monies they had collected in excess of the determined just and reasonable rates pending determination of the disposition of such monies by the purchasers. The Commission gave the producers the option to place the

<sup>1</sup> These proceedings were commenced before the FPC. By the joint regulation of October 1, 1977 (10 CFR 1000.1), they were transferred to the FERC. The term "Commission", when used in the context of action taken prior to October 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

<sup>2</sup> TIAs listed in Appendix A, attached hereto.

refund monies into escrow accounts or to commingle the funds with their general assets. Commingled funds carry an annual interest rate, specified in the applicable settlement order, which is payable at disbursement. The interest on monies placed in escrow was limited to whatever interest was earned on such monies.

#### COMMISSION DECISION

The settlement orders governing these dockets are no longer subject to judicial review, and were not affected by subsequent rate and refund determination in area and nationwide rate proceedings.

The issue of a pipeline's equitable entitlement to its suppliers' refunds has been settled. By order of March 17, 1975,<sup>3</sup> the Commission announced that it would no longer entertain such claims of entitlement by pipelines. The order was based on the Commission's previous findings in Opinion 540<sup>4</sup> that neither the letter nor the spirit of the Natural Gas Act required

<sup>3</sup>Area Rate Proceeding, *et al.* (Hugoton-Anadarko Area), Docket No. AR64-1, *et al.*, 53 F.P.C. 821 (1975).

<sup>4</sup>Texas Eastern Transmission Corporation, Docket No. RP66-12, 39 F.P.C. 630, affirmed, *Texas Eastern Transmission Corporation v. F.P.C.*, 414 F.2d 344 (5th Cir., 1969), cert. denied, 398 U.S. 928 (1978).

the Commission to allow pipelines to prove entitlement to supplier refunds where the pipelines had prior opportunities to establish such entitlement.

The 1975 order made an exception for those pipelines whose Commission-approved rate settlements preserved a right to make such a claim. Thus any claims of entitlement to refunds by the purchasers in those proceedings must be made pursuant to a provision in the applicable settlement.

As the issues in these proceedings have been resolved, there is no further need for the producers to continue to retain these refunds. Accordingly, we shall direct the producers shown on Appendix A to refund the amounts they hold to the purchasers. Those producers who elected to commingle the refund monies with their general assets shall pay annual interest to date at the rate specified in the applicable settlement order. We shall also require the purchasers to flow-through these refunds and to file with us a proposed disposition of the remainder of the refund monies.

The Commission finds that it is necessary and proper in the public interest and in carrying out the provisions of the Natural Gas Act that the refunds directed by this order be disbursed, and that the required reports be filed.

#### The Commission orders:

(A) Within 30 days from the date of this order, the producers listed in Appendix A, or their escrow agents, shall refund all amounts retained in the dockets listed in Appendix A, plus applicable interest as provided in the applicable settlement order to the respective purchasers. The producers, or their escrow agents, shall also submit to the Commission a report in writing on the amount of refunds made, showing separately the retained monies and the interest thereon, together with a release from the purchaser showing receipt of the monies.

(B) Each purchaser, within 30 days from the date of receipt of the refund money, shall flow-through such amounts in accordance with its various settlements and tariffs and shall submit a refund report together with appropriate releases from its customers.

(C) Each purchaser, within the same 30 day period, shall also submit a report to the Commission showing all amounts that it is retaining and the reason for such retention. If a purchaser claims entitlement to any portion of this money it should also state the reasons for such claim.

By the Commission, Commissioner Holden voted present.

LOIS D. CASHELL,  
Acting Secretary.

#### APPENDIX A.—Refund Money Retained by Producers Under Company-Wide and Other Settlements

| Producer                                | Docket Nos.             | Date of Settlement Order | Purchaser                               |

#### Office of Assistant Secretary for International Affairs

#### PEACEFUL USES OF ATOMIC ENERGY

##### Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "Subsequent Arrangement" under the Agreement for Cooperation Between the United States and Switzerland: Atomic Energy for Civil Uses and the Additional Agreement for Cooperation Between the United States and the European Atomic Energy Community (Euratom) Concerning the Peaceful Uses of Atomic Energy.

The subsequent arrangement to be carried out under the above mentioned agreements involves the shipment of spent enriched uranium/aluminum alloy fuels from Europe to the DOE Savannah River facility for reprocessing and storage of recovered uranium. Spent fuel will be returned from the following research reactors:

| Reactor and location  | Kgs of spent fuel |
|-----------------------|-------------------|
| RHF France            | 110               |
| BR2 Belgium           | 36.2              |
| Triton France         | 16.6              |
| Osiris and EL3 France | 176               |
| Pegase France         | 17.5              |
| Siloe France          | 132.5             |
| DR2 and DR3 Denmark   | 35                |

| Reactor and location | Kgs of spent fuel |
|----------------------|-------------------|
| Ulysee Switzerland   | 5.4               |
| Minerve France       | 10                |
| Cabri France         | 10                |
| Melusine France      | 10                |
| Saphir France        | 10                |

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the subsequent arrangement will not be inimical to the common defense and security of the United States. This arrangement for returning U.S.-origin highly enriched uranium (HEU) to the U.S. is consistent with U.S. non-proliferation policy in that it serves to reduce the amount of HEU abroad.

The subsequent arrangement will take effect no sooner than January 11, 1979.

Dated: December 20, 1978.

For the Department of Energy.

HAROLD D. BENIGSDORF,  
Director for Nuclear Affairs  
Internal Programs.

#### ENVIRONMENTAL PROTECTION AGENCY

(FRL 1030-3; OPP-180172D)

#### MISSISSIPPI AUTHORITY FOR THE CONTROL OF FIRE ANTS

Proposed Emergency Exemption for Use of Ferri-  
micide To Control Fire Ants; Extension of  
Additional Comment Period

AGENCY: Environmental Protection  
Agency, Office of Pesticide Programs  
(EPA, OPP).

ACTION: Proposed Emergency Ex-  
emptions; Extension of Additional  
Comment Period.

SUMMARY: EPA is providing a  
second additional formal opportunity  
for public comment on a proposed  
emergency exemption to permit the  
use of the pesticide Ferriamicide to  
control fire ants in Mississippi. Notice  
of the first opportunity for additional  
formal public comment was published  
in the FEDERAL REGISTER of October  
17, 1978 at page 47774.

DATE: Comments on Mississippi's ap-  
plication are due by January 3, 1979.

ADDRESS: Send comments to the  
Federal Register Section, Program  
Support Division (TS-757), Office of  
Pesticide Programs, EPA, Room 401-  
East Tower, 401 M Street, S.W., Wash-  
ington, D.C. 20460.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Timothy A. Gardner, Product  
Manager 15 (PM-15), Registration  
Division, (TS-767), Office of Pesti-  
cide Programs, EPA, Room 229-East  
Tower, telephone (202) 426-9426.

SUPPLEMENTARY INFORMATION:  
A complete statement of the back-  
ground relating to EPA's decision to  
permit additional public comment on  
the application of the Mississippi Au-  
thority for the Control of Fire Ants to  
use the pesticide Ferriamicide to con-  
trol fire ants in Mississippi appears in  
the October 17, 1978 edition of the  
FEDERAL REGISTER (43 FR 47774). As  
stated in that notice, EPA's position is  
that emergency exemptions under § 18  
of the Federal Insecticide, Fungicide

and Rodenticide Act (FIFRA) are not  
subject to the notice and comment  
provisions of 5 U.S.C. § 553. The  
Agency, however, provided an addi-  
tional formal comment period on the  
Mississippi Authority's application.

The additional comment period  
closed on October 27, 1978. Since that  
date additional information has been  
brought to the Agency's attention, and  
the Agency has decided to provide a  
second additional opportunity for  
formal comment. The additional infor-  
mation which has been received has  
been placed in the public file on this  
matter, which is located in Room 229-  
E, 401 M Street, S.W., Washington,  
D.C. The public file may be inspected  
during normal business hours.

Any additional comments which in-  
terested persons desire to submit on  
the information in the public file or  
any other relevant subject must be  
submitted by January 3, 1979.

Dated: December 21, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

(FR Doc. 78-36023 Filed 12-26-78; 8:45 am)

#### [6560-01-M]

(FRL 1028-8; OPP-66048)

#### PESTICIDE PROGRAMS

#### Intent To Cancel Registrations of Certain Pesticide Products

Pursuant to section 6(a)(1) of the  
Federal Insecticide, Fungicide, and  
Rodenticide Act (FIFRA), as amended  
in 1972, 1975, and 1978 (92 Stat. 819; 7  
U.S.C. 136), firms listed below have re-  
quested that the Environmental Pro-  
tection Agency (EPA) cancel the regis-

trations of several pesticide products.  
Such cancellation shall be effective on  
or before January 26, 1979, unless the  
registrant or an interested person with  
the concurrence of the registrant, re-  
quests that the registration be contin-  
ued in effect.

The Agency has determined that the  
distribution and sale of stocks of these  
products which were produced on or  
before the effective date of cancella-  
tion would not be inconsistent with  
the purposes of FIFRA and would not  
have an unreasonable adverse effect  
on the environment. Therefore, the  
distribution and sale of existing stocks  
of these products shall be permitted  
until the supply is exhausted or for  
one year after the effective date of  
cancellation, whichever occurs earlier,  
provided that these products shall be  
used only in a manner consistent with  
the label and labeling registered with  
EPA. Production of these products  
after the effective date of cancellation  
will be considered a violation of  
FIFRA.

Requests that the registration of  
these products be continued may be  
submitted to the Process Coordination  
Branch, Registration Division (TS-  
767), Office of Pesticide Programs,  
EPA, 401 M St., S.W., Washington,  
D.C. 20460. Any comments filed re-  
garding this notice of intended cancel-  
lation will be available for public in-  
spection in the office of the Process  
Coordination Branch from 8:30 a.m. to  
4:00 p.m. Monday through Friday.

The registrants concerned and the  
products affected by this action are  
listed below.

Dated: December 15, 1978.

JAMES M. CONLON,  
Deputy Assistant Administrator  
for Pesticide Programs.

#### FEDERAL COMMUNICATIONS COMMISSION

(FCC 78-870)

#### EMERGENCY BROADCAST SYSTEM

DECEMBER 21, 1978.

Closed Circuit Test Scheduled for January 9,  
1979

A test of the Emergency Broadcast  
System (EBS) has been scheduled for  
Tuesday, January 9, 1979 between  
2:03:30 and 2:09:30 P.M. Washington,  
D.C. (EST) time. Only ABC, AP Radio,  
CBS, IMN, MBS, NBC, and UPI Audio  
radio network affiliates will receive  
the Test Program for the Closed Cir-  
cuit Test. AP and UPI wire service cli-  
ents will receive activation and termi-  
nation messages of the Closed Circuit  
Test. Television networks are not par-  
ticipating in the Test.

Network affiliates will be notified of  
the test procedures via their network  
beginning four days in advance of the  
test. Test messages will also be run by  
AP and UPI radio press wire services  
for four days in advance of the test to  
insure wide dissemination of the test  
announcement and schedule.

Final evaluation of the January test  
is scheduled to be made by the end of  
February, 1979.

**THIS IS A CLOSED CIRCUIT TEST  
AND WILL NOT BE BROADCAST  
OVER THE AIR.**

Action by the Commission December  
20, 1978. Commissioners Ferris (Chair-  
man), Lee, Quello, Washburn, Fo-  
garty, White and Brown.

#### FEDERAL COMMUNICATIONS COMMISSION.

WILLIAM J. TRICARICO,  
Secretary.

#### [6210-01-M]

#### FEDERAL RESERVE SYSTEM

#### NORTHWEST FINANCIAL CORP.

#### Formation of Bank Holding Company

Northwest Financial Corporation,  
Fort Worth, Texas, has applied for the  
Board's approval under section 3(a)(1)

of the Bank Holding Company Act (12  
U.S.C. 1842(a)(1)) to become a bank  
holding company by acquiring 90 per  
cent or more of the voting shares of  
Northwest Bank, Fort Worth, Texas.  
The factors that are considered in  
acting on the application are set forth  
in section 3(c) of the Act (12 U.S.C.  
1842(c)).

The application may be inspected at  
the offices of the Board of Governors  
or at the Federal Reserve Bank of  
Dallas. Any person wishing to com-  
ment on the application should submit  
views in writing to the Reserve Bank,  
to be received not later than January  
16, 1979. Any comment on an applica-  
tion that requests a hearing must in-  
clude a statement of why a written  
presentation would not suffice in lieu  
of a hearing, identifying specifically  
any questions of fact that are in dis-  
pute and summarizing the evidence  
that would be presented at a hearing.

Board of Governors of the Federal  
Reserve System, December 18, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

(FR Doc. 78-35928 Filed 12-26-78; 8:45 am)

#### [6210-01-M]

#### OLD STONE CORP.

#### Proposed Acquisition of DAC Corporation

Old Stone Corporation, Providence,  
Rhode Island, has applied, pursuant to  
section 4(c)(8) of the Bank Holding  
Company Act (12 U.S.C. 1843(c)(8))  
and section 225.4(b)(2) of the Board's  
Regulation Y (12 CFR 225.4(b)(2)), for  
permission to acquire through its  
wholly-owned subsidiary, Old Stone  
Financial Corporation, the voting  
shares of DAC Corporation, Jackson-  
ville, Florida. DAC has branch offices  
in Jacksonville, Clearwater, Daytona  
Beach, Fort Lauderdale, Lakeland,  
Melbourne, Ocala, Orlando, Pensacola,  
Tallahassee and Tampa, all in the  
State of Florida; and in Atlanta, Geor-  
gia. Notices of the application were  
published in newspapers of general cir-  
culation in the communications to be  
served between November 25 and No-  
vember 30, 1978, except for the Provi-  
dence, Rhode Island publication which

was made on December 18, 1978. Publi-  
cations were made in Jacksonville, St.  
Petersburg, Daytona Beach, Fort Lau-  
derdale, Lakeland, Coco Beach, Ocala,  
Orlando, Pensacola, Tallahassee, and  
Tampa, all in the State of Florida; in  
Atlanta, Georgia; and in Providence,  
Rhode Island.

Applicant states it will engage in the  
following activities: through DAC Cor-  
poration, in the origination for resale  
of first and second mortgages, and the  
servicing of such loans; through DAC  
Computer Services, Inc., providing  
data processing services for DAC Cor-  
poration and its affiliates, and data  
processing of financial and economic  
data for the general public; through  
American Standard Insurance Agency,  
Inc., Old Stone would act as agent for  
the sale of credit-related life, and  
credit-related health and accident in-  
surance; through The Motor Life In-  
surance Co., Old Stone would engage  
in underwriting as reinsurer of credit-  
related life and credit-related accident  
and health insurance. Old Stone Cor-  
poration proposes to engage *de novo*,  
through DAC, in consumer finance ac-  
tivities. Such activities have been spec-  
ified by the Board in section 225.4(a)  
of Regulation Y as permissible for  
bank holding companies, subject to  
Board approval of individual proposals  
in accordance with the procedures of  
section 225.4(b).

Interested persons may express their  
views on the question whether con-  
summation of the proposal can "rea-  
sonably be expected to produce bene-  
fits to the public, such as greater con-  
venience, increased competition or  
gains in efficiency, that outweigh pos-  
sible adverse effects, such as undue  
concentration of resources, decreased  
or unfair competition, conflicts of in-  
terest, or unsound banking practices."  
Any request for a hearing on this  
question should be accompanied by a  
statement summarizing the evidence  
the person requesting the hearing pro-  
poses to submit or to elicit at the hear-  
ing and a statement of the reasons  
why this matter should not be re-  
solved without a hearing.

The application may be inspected at  
the offices of the Board of Governors  
or at the Federal Reserve Bank of  
Boston.

Any views or requests for hearing  
should be submitted in writing and re-  
ceived by the Secretary, Board of Gov-  
ernors of the Federal Reserve System,  
Washington, D.C. 20551, not later  
than January 20, 1979.

Board of Governors of the Federal  
Reserve System, December 20, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL ON ADULT  
EDUCATION

## Meeting

AGENCY: National Advisory Council  
on Adult Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Advisory Council on Adult Education. This notice also describes the functions of the Council. Notice of this meeting is required under the Federal Advisory Committee Act (Pub. L. 92-463, Sec. 10(a)(2)).

DATE: January 25, 1979, 8:00 p.m. to 10:00 p.m., Executive Committee Meeting; January 26, 1979, 8:30 a.m. to 5:00 p.m.; January 27, 1979, 8:30 a.m. to 1:30 p.m.

ADDRESS: The Hotel Washington, 15th at Pennsylvania Ave., N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Dr. Gary A. Eyre, Executive Director, National Advisory Council on Adult Education, 425 13th St., N.W., Washington, D.C. 20004 (202/376-8892).

SUPPLEMENTARY INFORMATION: The National Advisory Council on Adult Education is established under Section 313 of the Adult Education Act (20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the Council shall be open to the public.

The proposed agenda includes:

Program Assessment—the Council's 311(d) Project, and the HEW 1979 RFP.  
Proposed Rule Making and NOI Hearings.

## NOTICES

Supplemental Appropriations—Adult Education Act.  
National Program and Financial Report Forms.  
Community Schools and Comprehensive Community Education Act of 1978.  
NACAE Committee Reports.  
Annual Report.

Records shall be kept of all council proceedings, and shall be available for public inspection at the Office of the National Advisory Council on Adult Education, 425 13th St., N.W., Suite 323, Washington, D.C. 20004.

Signed at Washington, D.C., on December 21, 1978.

GARY A. EYRE,  
Executive Director, National Advisory Council on Adult Education.

Office of the Assistant Secretary for Health

## HEALTH MAINTENANCE ORGANIZATIONS

## Qualified October List

AGENCY: Public Health Service, HEW.

ACTION: Notice, October list of qualified health maintenance organizations.

SUMMARY: This notice sets forth the names, addresses, service areas, and dates of qualification of entities determined by the Secretary to be qualified health maintenance organizations. In addition, the service area of a previously qualified HMO has been revised and a preoperational qualification date for a certain HMO is corrected. This additional information follows the listing of this month's qualified HMOs.

FOR FURTHER INFORMATION CONTACT:

Howard R. Veit, Director, Office of Health Maintenance Organizations, Park Building, Third floor, 12420 Parklawn Drive, Rockville, Maryland 20857, 301/443-4106.

SUPPLEMENTARY INFORMATION: Regulations issued under Title XIII of the Public Health Service Act, as amended, (42 CFR 110.605(b)) require that a list and description of all newly qualified HMOs be published on a monthly basis in the FEDERAL REGISTER. The following entities have been determined to be qualified HMOs under Section 1310(d) of the Public Health Service Act (42 U.S.C. 300e-9(d)):

QUALIFIED HEALTH MAINTENANCE  
ORGANIZATIONS

Name, address, service area, and date of qualification.  
(Preoperational Qualified Health Maintenance Organization: 42 CFR 110.603(c)).

1. The Toledo Plan/dba Health Plus, (Staff Model, see Section 1310(b)(1) of the Public Health Service Act), 4346 Secor Road, Suite 105, Toledo, Ohio 43623. Service area: Lucas County, Perrysburg and Rossford in Wood County and the following zip codes in Ohio: 43601-43624, 43460, 43551, 43566, 43571, 43465, 43558, 43528, 43504, 43560, 43537, and 43542.

Date of qualification: October 31, 1978.  
(Operational Qualified Health Maintenance Organization: 42 CFR 110.603(a)).

1. Community Health Plan of Suffolk, Inc., (Staff Model, see Section 1310(b)(1) of the Public Health Service Act), P.O. Box 778, Stony Brook, New York 11790. Service area: Towns of Babylon, Brookhaven, Huntington, Islip, and Smithtown, and the following zip codes in Eastern Nassau: 11701, 11714, 11724, 11735, 11758, 11762, 11791, 11797, 11803, and 11804.

Date of qualification: October 4, 1978.

2. COMED Inc. (Individual Practice Association Model, see Section 1310(b)(2)(A) of the Public Health Service Act), 33 Market Street, Morristown, New Jersey 07960. Service area: Counties of Morris, Passaic, Somerset, Sussex, and Warren, New Jersey. Date of qualification: October 27, 1978. (Achieved preoperational qualification on October 6, 1978.)

3. Greater Delaware Valley Health Care, Inc., (Individual Practice Association Model, see Section 1310(b)(2)(A) of the Public Health Service Act), Suite 115, Two Radnor Corporate Center, 100 Matsonford Road, Radnor, Pennsylvania 19087. Service area: Delaware County and zip codes in the following counties:

Chester County: 19301, 19312, 19333, 19341, 19342, 19345, 19353, 19355, and 19373.  
Montgomery County: 19003, 19004, 19010, 19035, 19041, 19065, 19066, 19072, 19087, and 19096.  
Philadelphia County: 19104, 19113, 19131, 19139, 19142, 19143, 19151, and 19153.

Date of qualification: October 30, 1978.  
4. Los Padres Group Health (Individual Practice Association Model, see Section 1310(b)(2)(A) of the Public Health Service Act), P.O. Box 1767, San Luis Obispo, California 93406. Service area: San Luis Obispo County, California. Date of qualification: October 1, 1978. (Achieved preoperational qualification on September 21, 1978 (43 FR 53502).)

(Transitionally Qualified Health Maintenance Organization: 42 CFR 110.603(b))

1. Metro Health Plan, Inc., (Medical Group Model, see Section 1310(b)(1) of the Public Health Service Act), 2921 West Grand Boulevard, Detroit, Michigan 48202. Service area: Counties of Wayne, Oakland, and Macomb, Michigan. Date of qualification: October 17, 1978.

## REVISED SERVICE AREA

A service area listed in the annual cumulative list of qualified HMOs and published on April 7, 1978, in the FEDERAL REGISTER (43 FR 14908-13) is revised as follows:

1. Central Essex Health Plan, P.O. Box 371, Orange, New Jersey 07051. Service area: Change from: Essex County communities of: Belleville, Bloomfield, Caldwell, Cedar Grove, East Orange, Essex Fells, Fairfield, Glen Ridge, Irvington, Livingston, Maplewood, Millburn, Montclair, North Cald-

well, Nutley, Orange, Roseland, South Orange, Verona, West Caldwell, and West Orange.

Change to: Essex County communities of: Belleville, Bloomfield, Caldwell, Cedar Grove, East Orange, Essex Fells, Fairfield, Glen Ridge, Irvington, Livingston, Maplewood, Millburn, Montclair, North Caldwell, Nutley, Orange, Roseland, South Orange, Verona, West Caldwell, West Orange, and the following zip codes in Newark: 07102, 07103, 07104, 07105, 07106, 07107, 07108, 07109, 07110, 07111, 07112, and 07114.

Date revised service area approved—November 1, 1978. Date of qualification: Operationally qualified—January 1, 1977.

HMO PREOPERATIONAL DESIGNATION—  
CORRECTION

In the August list of qualified HMOs (43 FR 49854-6) a preoperational qualification date was inadvertently listed as August 2, 1978. It should have been August 3 for the following:

Prepaid Health Care, Inc., 1417 South Belcher Road, Clearwater, Florida 33518.

Files containing detailed information regarding qualified HMOs will be available for public inspection between the hours of 8:30 a.m. and 5:00 p.m., Monday through Friday, except for Federal holidays, in the Office of Health Maintenance Organizations, Office of the Assistant Secretary for Health, Department of Health, Education, and Welfare, Park Building, 3rd Floor, Rockville, Maryland 20857.

Questions about the review process or requests for information about qualified HMOs should be sent to the same office.

Dated: December 18, 1978.

HOWARD R. VEIT,  
Director, Office of Health Maintenance Organizations.

## DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AA-6661-A, B, C, H]

## ALASKA

## Alaska Native Claims Selection

On August 20, 1973, as amended, April 23, 1974, as amended, July 17, 1974, as amended and December 13, 1974, as amended, Eklutna, Inc. filed selection applications AA-6661-A, B, C and H, respectively, under the provisions of Sec. 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (Supp. V, 1975)), (hereinafter ANCSA), for the surface estate of lands located in the Eklutna area.

The village applications described lands withdrawn by Secs. 11(a)(1) and

11(a)(2) of ANCSA. Section 11(a)(2) of the act, *supra*, specifically withdrew, subject to valid existing rights, all lands within the townships withdrawn by Sec. 11(a)(1) that have been selected by, or tentatively approved to, but not yet patented to the State of Alaska under the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 340; 48 U.S.C. Ch. 2, Sec. 6(b) (1970)). Section 26 of ANCSA further provides that to the extent that there is a conflict between any provisions of that act and any other Federal laws applicable to Alaska, the provisions of ANCSA shall govern. Therefore, in view of the above, the following State selection applications are hereby rejected as to the lands described below:

State selection A-061179 filed on March 19, 1964, as amended.

T. 15 N., R. 1 W., Seward Meridian, Alaska Sec. 5, lots 15 and 16;  
Sec. 6, lots 1, 3, 4, 5 and 6, SE $\frac{1}{4}$ NE $\frac{1}{4}$  SE $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  SE $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$  SE $\frac{1}{4}$ , that portion of SE $\frac{1}{4}$ SE $\frac{1}{4}$  SE $\frac{1}{4}$  lying northwest-erly of PLO 3577;  
Sec. 30, NW $\frac{1}{4}$ NE $\frac{1}{4}$  NW $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  NW $\frac{1}{4}$ SW $\frac{1}{4}$ .

Containing approximately 130.75 acres.

State selection A-061777 filed on October 26, 1964, as amended.

T. 14 N., R. 2 W., Seward Meridian, Alaska Sec. 2, lot 2, SW $\frac{1}{4}$ NE $\frac{1}{4}$ , W $\frac{1}{2}$ SE $\frac{1}{4}$ ;  
Sec. 11, lots 8, 43, 46, 49, 56, 58, 59, 88 and 89;  
Sec. 12, lots 5 and 6.

Containing approximately 175.37 acres.

State selection A-055409, filed under the Act of July 28, 1956, on August 22, 1961, as amended, is rejected as to the following lands. These lands were segregated from selection at the time of filing by an application for withdrawal A-054173 (43 CFR 2091.2-5) and therefore were not available for selection by the State of Alaska.

T. 16 N., R. 1 W., Seward Meridian, Alaska Sec. 23, lots 3 and 4;  
Sec. 26, NW $\frac{1}{4}$ , N $\frac{1}{2}$ SW $\frac{1}{4}$ , excluding the bed of the Alaska Railroad, one hundred (100) feet each side of the centerline.

Containing approximately 309.51 acres.

In addition, the State of Alaska amended selection A-061777 on June 16, 1972 to include additional public lands. These lands were withdrawn for Native selection by Sec. 11(a)(1) of ANCSA at that time and therefore were not available for selection by the State of Alaska. In view of this, these selections are hereby rejected as to the following described lands:

T. 14 N., R. 2 W., Seward Meridian, Alaska Sec. 11, lots 9, 22, 23, 24 and 36.  
Containing 7.98 acres.

The selection applications of Eklutna, Inc. as to the lands described below are properly filed and meet the requirements of the act and of the reg-

ulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands is considered proper for acquisition by Eklutna, Inc., and is hereby approved for conveyance pursuant to sec. 14(a) of the act:

SEWARD MERIDIAN, ALASKA, SURVEYED

T. 14 N., R. 1 W.  
Sec. 5, N $\frac{1}{2}$ SW $\frac{1}{4}$  - NW $\frac{1}{4}$ , E $\frac{1}{2}$ SW $\frac{1}{4}$  SW $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ SW $\frac{1}{4}$  NW $\frac{1}{4}$ .

Containing 35.00 acres.

T. 15 N., R. 1 W.  
Sec. 5, lots 15 and 16;  
Sec. 6, lots 1, 3, 4, 5 and 6, SE $\frac{1}{4}$ NE $\frac{1}{4}$  SE $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  SE $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$  SE $\frac{1}{4}$ ;  
Sec. 30, NW $\frac{1}{4}$ NE $\frac{1}{4}$  NW $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  NW $\frac{1}{4}$ SW $\frac{1}{4}$ .

Containing 122.75 acres.

T. 16 N., R. 1 W.  
Sec. 23, lots 3 and 4;  
Sec. 26, NW $\frac{1}{4}$ .

Containing 230.51 acres.

T. 14 N., R. 2 W.  
Sec. 2, lot 2, SW $\frac{1}{4}$ NE $\frac{1}{4}$ , W $\frac{1}{2}$ SE $\frac{1}{4}$ ;  
Sec. 11, lots 8, 9, 22, 23, 24, 36, 43, 46, 49, 56, 58, 59, 88 and 89;  
Sec. 12, lots 5 and 6.

Containing 183.35 acres.

T. 16 N., R. 1 E.

Sec. 20, lot 3, N $\frac{1}{2}$ SW $\frac{1}{4}$  NW $\frac{1}{4}$ .

Containing 51.42 acres.

SEWARD MERIDIAN, ALASKA, UNSURVEYED

T. 15 N., R. 1 W.  
Sec. 6, that portion of SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$  LYING NORTHWESTERLY OF PLO 3577.

Containing approximately 8.00 acres.

T. 16 N., R. 1 W.  
Sec. 26, N $\frac{1}{2}$ SW $\frac{1}{4}$ , excluding the bed of the Alaska Railroad, one hundred (100) feet each side of the centerline.

Containing approximately 78 acres.

T. 16 N., R. 1 E.  
Sec. 13, S $\frac{1}{2}$ S $\frac{1}{2}$  and that portion of S $\frac{1}{2}$ N $\frac{1}{2}$ SE $\frac{1}{4}$  SOUTH OF THE OLD GLENN HIGHWAY RIGHT-OF-WAY;  
Sec. 20, S $\frac{1}{2}$ SW $\frac{1}{4}$  NW $\frac{1}{4}$ , EXCLUDING THE BED OF THE ALASKA RAILROAD, ONE HUNDRED (100) FEET EACH SIDE OF THE CENTERLINE.

Containing approximately 189.30 acres.

T. 16 N., R. 2 E.  
Sec. 18, SW $\frac{1}{4}$ SW $\frac{1}{4}$  and that portion of NW $\frac{1}{4}$ SW $\frac{1}{4}$  south of the old Glenn Highway right-of-way.

Containing approximately 49.6 acres.

This decision approves conveyance of approximately 947.93 acres to Eklutna, Inc. This includes approximately 306.12 acres properly selected by the State of Alaska, making a cumulative total of 3,227.68 acres which does not exceed the 69,120 acres permitted under Sec. 12(a)(1) of ANCSA.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613 (Supp. V, 1975)).

2. A right-of-way, AA-2559, for a Federal Aid Highway located in lot 2, SW $\frac{1}{4}$ NE $\frac{1}{4}$  and W $\frac{1}{2}$ SE $\frac{1}{4}$  of Sec. 2 and lots 43 and 49 of Sec. 11, T. 14 N., R. 2 W., Seward Meridian. Act of August 27, 1958, as amended (72 Stat. 885; 23 U.S.C. 317).

3. A right-of-way, AA-9101, for a Federal Aid Highway located in lots 23, 24, 36, 46, 56, and 59 of Sec. 11, T. 14 N., R. 2 W., Seward Meridian. Act of August 27, 1958, as amended (72 Stat. 885; 23 U.S.C. 317).

4. A right-of-way, A-062126, for a Federal Aid Highway located in lots 46, 56 and 59 of Sec. 11, T. 14 N., R. 2 W., Seward Meridian. Act of August 27, 1958, as amended (72 Stat. 885; 23 U.S.C. 317).

5. A right-of-way, AA-8095 Parcel 41, located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$  of Sec. 20, T. 16 N., R. 1 E., Seward Meridian, for a Federal Aid Highway. Act of August 27, 1958, as amended (72 Stat. 885; 23 U.S.C. 317).

6. The right to itself, its permittees or licensees, the right to enter upon, occupy and use, any part or all of that portion lying within fifty (50) feet of the centerline of the transmission line right-of-way of Power Project No. 350, located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$  of Sec. 26, T. 16 N., R. 1 W., Seward Meridian, for the purposes set forth in and subject to the conditions and limitations of Sec. 24 of the Federal Power Act of June 10, 1928, as amended (41 Stat. 1075; 16 U.S.C. 818).

7. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1616 (Supp. V, 1975)), the following public easements referenced by easement identification number (EIN) on the easement maps in case file AA-6661-EE are reserved to the United States and subject to further regulation thereby:

a. (EIN 3 C1, D1, D9, L) An easement for an historic access trail twenty-five (25) feet in width for the Iditarod Trail as it crosses the selected lands. The alignment of this trail is within the right-of-way for the old Glenn Highway. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

b. (EIN 50 C, D) A continuous linear easement twenty-five (25) feet in width upland of an parallel to the mean high tide line in order to provide access to and along the marine coastline and use of such shore for purposes such as beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses. Deviations from the waterline are permitted when specific conditions so require, e.g., impassable topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be obligated to convey to the United States an acceptable alternate access route, at no cost to the United States, prior to the creation of such obstruction.

c. (EIN, 32 C) The right of the United States to enter upon the lands herein granted for cadastral, geodetic, or other survey

purposes is reserved, together with the right to do all things necessary in connection therewith.

d. (EIN 56 C4) An easement seventy-five (75) feet in width (37 $\frac{1}{2}$  feet each side of the centerline) for an existing 115KV power transmission line from the Eklutna power plant southerly to the Anchorage substation and traversing Lot 2, Sec. 2, T. 14 N., R. 2 W., Seward Meridian, S $\frac{1}{2}$ S $\frac{1}{2}$ , Sec. 13, T. 16 N., R. 1 E., Seward Meridian and SW $\frac{1}{4}$ SW $\frac{1}{4}$ , Sec. 18, T. 16 N., R. 2 E., Seward Meridian. The usage will be controlled by applicable State or Federal law or regulation.

e. (EIN 57 C4) An easement one hundred (100) feet in width for an existing road, known as the old Palmer highway, within lot 58, Sec. 11, and lots 5 and 6, Sec. 12, T. 14 N., R. 2 W., Seward Meridian. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

f. (EIN 58 C4) An easement one hundred fifty (150) feet in width for the existing Glenn Highway in lots 88 and 89, Sec. 11, T. 14 N., R. 2 W., Seward Meridian. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

These reservations have not been conformed to the Departmental easement policy announced March 3, 1978 and published as final rulemaking on November 27, 1978, 43 FR 55326. Conformance will be made at a later date in accordance with the terms and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, Cook Inlet Region, Inc., Eklutna, Inc. and other Cook Inlet village corporations.

The grant of lands shall be subject to:

1. Issuance of patent confirming the boundary description of the unsurveyed lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act (72 Stat. 339, 341, 48 U.S.C. 111719, 111720)), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to complete enjoyment of all rights, privileges, and benefits thereby granted to him;

3. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act (85 Stat. 688, 703; 43 U.S.C. 1601, 1613 (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section;

4. Airport Lease, AA-8578 for the Birchwood Airport, located in Sec. 8, T. 15 N., R. 1 W., Seward Meridian, Alaska, issued to the State of Alaska, Division of Aviation, under the provisions of the Act of May 24, 1928 (45 Stat. 728-729; 49 U.S.C. 211-214 (1970));

5. Recreation and Public Purposes Lease, A-050749, containing approximately 7.98 acres, located in lots 9, 22, 23, 24 and 36, Sec. 11 of T. 14 N., R. 2 W., Seward Meridian, issued to the Anchorage School District under the provisions of the Act of June 14, 1926 (43 U.S.C. 869, 869-4);

6. A right-of-way, AA-8922, one hundred (100) feet wide, (50 feet each side of the centerline) located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$  of Sec. 20, T. 16 N., R. 1 E., Seward Meridian, for a transmission line for the Chugach Electric Association, Inc. issued pursuant to the Act of March 4, 1911 (36 Stat. 1253; 43 U.S.C. 961);

7. A right-of-way, A-050466, located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$  of Sec. 26, T. 16 N., R. 1 W., Seward Meridian, fifty (50) feet each side of the centerline, for a transmission line for the Matanuska Electric Association, Inc. issued pursuant to the Act of February 15, 1901, as amended (31 Stat. 790; 43 U.S.C. 959);

8. A right-of-way, A-054419, one hundred (100) feet wide, (50 feet each side of the centerline) located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$  of Sec. 2, T. 14 N., R. 2 W., Seward Meridian, for a transmission line for the Matanuska Electric Association, Inc. issued pursuant to the Act of February 15, 1901 (31 Stat. 790; 43 U.S.C. 959);

9. A right-of-way, A-021429, ten (10) feet each side of the centerline, located in lots 8, 9, 43, 46 and 49 in Sec. 11, T. 14 N., R. 2 W., Seward Meridian; lot 5, Sec. 12, T. 14 N., R. 2 W., Seward Meridian, for an electrical distribution line for the Matanuska Electric Association, Inc. issued pursuant to the Act of February 15, 1901, as amended (31 Stat. 790; 43 U.S.C. 959);

10. The terms and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, Cook Inlet Region, Inc., Eklutna, Inc. and other Cook Inlet village corporations. A copy of the agreement was recorded in the Anchorage Recording Office on October 25, 1977, Book 240, pages 0741-0753 and in the Palmer Recording Office on September 28, 1977, Book 149, pages 460-472. A copy of the agreement is located in the Bureau of Land Management easement case file for Eklutna, Inc., serialized AA-6661-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 55 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510.

There is excepted and reserved any element of ownership from the lands in the S $\frac{1}{2}$  of Sec. 13, SW $\frac{1}{4}$ NW $\frac{1}{4}$  Sec. 20, T. 16 N., R. 1 E., Seward Meridian, the SW $\frac{1}{4}$  of Sec. 18, T. 16 N., R. 2 E., Seward Meridian, Lots 88 and 89, Sec. 11, T. 14 N., R. 2 W., Seward Meridian, including but not restricted to any estate or interest in property, or permit, or other right, transferred by the United States pursuant to the Alaska Communications Disposal Act approved November 14, 1967 (81 Stat. 441-444; 40 U.S.C. 771-792).

There are no inland water bodies considered to be navigable within the lands described.

Conveyance of the remaining entitlement to Eklutna, Inc., shall be made at a later date. When conveyance is granted to Eklutna, Inc., for the surface estate conveyance of the subsurface estate of the lands described above shall be granted to Cook Inlet Region, Inc., pursuant to Sec. 14(f) of ANCSA, and shall be subject to the same conditions as the surface conveyance.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a

week, for four (4) consecutive weeks, in the ANCHORAGE TIMES. Any party claiming a property interest in lands affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2344, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510 and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501; also:

1/ Any party receiving service of this decision by mail shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign the return receipt shall have until January 26, 1979 to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

4. If Eklutna, Inc. or Cook Inlet Region, Inc. objects to any easement which is identified herein for reservation in the conveyance which is subject to the discretion of the State Director and not reserved pursuant to an express Secretarial directive, a petition for reconsideration must be filed within 30 days with the State Director, Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510. A copy of the petition should be served upon the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. If a petition for reconsideration is not filed, it will be deemed that the right to contest any such easement has been waived.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. For further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510.

If an appeal is taken the adverse parties to be served are:

Eklutna, Inc., 840 K Street, Suite 202, Anchorage, Alaska 99501  
Cook Inlet Region, Inc., P.O. Box 4-N, Anchorage, Alaska 99509  
State of Alaska, Division of Lands, 323 East Fourth Avenue, Anchorage, Alaska 99501

JUDITH A. KAMMINS,  
Chief, Division of  
ANCSA Operations.

# ALASKA

## Native Claims Selection

DECEMBER 13, 1978.

On November 26, 1974, The Chenega Corporation for the Native village of Chenega, filed selection applications AA-8446-A and AA-8446-B, respectively, as amended, under the provisions of Sec. 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611(a) (Supp. V, 1975)), for the surface estate of certain lands in the Chenega area, including lands within the Chugach National Forest (Proclamation, July 23, 1907, as amended).

The Native village of Chenega was not one of those listed in Sec. 11(b)(1) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 697; 43 U.S.C. 1601, 1610(b)(1) (Supp. V, 1975)) as eligible for lands and benefits, however, Sec. 11(b)(3) of the act provides that:

Native villages not listed in subsection (b)(1) hereof shall be eligible for land and benefits under this Act and lands shall be withdrawn pursuant to this section if the Secretary within two and one-half years from the date of enactment of this Act, determines that—

(A) Twenty-five or more Natives were residents of an established village on the 1970 census enumeration date as shown by the census or other evidence satisfactory to the Secretary, who shall make findings of fact in each instance; and

(B) The village is not of a modern and urban character, and a majority of the residents are Natives.

On August 27, 1973, the village of Chenega filed an application for a determination of its eligibility as an unlisted village pursuant to Sec. 11(b)(3) of the Alaska Native Claims Settlement Act (85 Stat. 688, 700; 43 U.S.C. 1601, 1610(b)(3) (Supp. V, 1975)). The decision to declare Chenega an eligible village was published in the FEDERAL REGISTER on February 26, 1974 (39 FR 7468 (1974)). An appeal was filed; the Alaska Native Claims Appeal Board affirmed the eligibility of the village of Chenega on September 10, 1974, which was subsequently approved by the Secretary of the Interior on September 24, 1974. The village of Chenega thus is eligible for land and benefits under the Alaska Native Claims Settlement Act. Withdrawal of lands, pursuant to Sec. 11(a) of the Act, was effected through Public Land Order No. 5353, dated July 23, 1973 (F.R. Vol. 3, Pg. 19825).

As to the lands described below, the applications, as amended, are properly filed and meet the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursu-

ant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title.

This decision approves approximately 65,263 acres of national forest lands for conveyance to The Chenega Corporation, for a cumulative total of approximately 65,263 acres. This does not exceed the 69,120 acres permitted under Sec. 12(a)(1).

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a), aggregating approximately 66,661.21 acres, is considered proper for acquisition by The Chenega Corporation and is hereby approved for conveyance pursuant to Sec. 14(a) of the Alaska Native Claims Settlement Act:

## LANDS OUTSIDE CHUGACH NATIONAL FOREST

U.S. Survey No. 1728, situated on the east side of Evans Island, north shore of Evans Bay, Prince William Sound, Alaska.

Containing 3.87 acres.

U.S. Survey No. 2019, situated on Chenega Island, Prince William Sound, Alaska.

Containing 0.34 acre.

That portion of Mineral Survey No. 888, known as the Victor-West Hillside-Hillside-South Hillside and Blue Lode Claims, in Valdez Mining District, Alaska, lying within Sec. 33, T. 1 S., R. 9 E., Seward Meridian.

Containing approximately 15 acres.

## SEWARD MERIDIAN, ALASKA (UNSURVEYED)

T. 2 N., R. 8 E.  
Secs. 3, 4, and 5, those portions lying outside Chugach National Forest;  
Sec. 8 (fractional), that portion lying outside Chugach National Forest;  
Sec. 9 (fractional), that portion lying outside Chugach National Forest, excluding U.S. Survey Nos. 2019 and 627;  
Sec. 10 (fractional), that portion lying outside Chugach National Forest;  
Sec. 16 (fractional), all.

Containing approximately 1,207 acres.

T. 1 S., R. 9 E.  
Sec. 27 (fractional), that portion lying outside Chugach National Forest, excluding U.S. Survey No. 712 and Mineral Survey No. 782;  
Sec. 33 (fractional), that portion lying outside Chugach National Forest, excluding U.S. Survey Nos. 712 and 713 and Mineral Survey Nos. 584, 782 and 888;  
Sec. 34 (fractional), that portion lying outside Chugach National Forest, excluding U.S. Survey Nos. 712 and 713 and Mineral Survey Nos. 584, 782 and 970.

Containing approximately 172 acres.

Aggregating approximately 1,398.21 acres outside Chugach National Forest.

## LANDS WITHIN CHUGACH NATIONAL FOREST

### SEWARD MERIDIAN, ALASKA (UNSURVEYED)

T. 2 N. R. 7 E.  
Sec. 1 (fractional), all.

Containing approximately 55 acres.

T. 3 N., R. 7 E.  
Sec. 1 (fractional), all;  
Secs. 2, 3, and 4, all;  
Secs. 9 and 10 (fractional), all;  
Secs. 11 and 12, all;  
Secs. 13 to 16 (fractional), inclusive, all;  
Secs. 22 to 25 (fractional), inclusive, all;  
Sec. 36 (fractional), all.

Containing approximately 7,303 acres.

T. 4 N., R. 7 E.  
Secs. 12 and 13, all;  
Secs. 23 and 24, all;  
Sec. 25 (fractional), all;  
Sec. 26, all;  
Secs. 33, 34 and 35, all;  
Sec. 36 (fractional), all.

Containing approximately 6,052 acres.

T. 1 N., R. 8 E.  
Sec. 11 (fractional), all;  
Secs. 14 and 15 (fractional), all;  
Secs. 22 to 27 (fractional), inclusive, all;  
Sec. 36 (fractional), all.

Containing approximately 2,490 acres.

T. 2 N., R. 8 E.  
Sec. 2 (fractional), all;  
Secs. 3 and 4, those portions lying within Chugach National Forest;  
Sec. 5 (fractional), that portion lying within Chugach National Forest;  
Secs. 6 and 7 (fractional), all;  
Sec. 8 (fractional), that portion lying within Chugach National Forest;  
Sec. 10 (fractional), that portion lying within Chugach National Forest;  
Sec. 11 (fractional), all;  
Sec. 26 (fractional), excluding ANCSA Sec. 3(e) application AA-14423;  
Secs. 30, 31, and 32 (fractional), all;  
Sec. 35 (fractional), excluding ANCSA Sec. 3(e) application AA-14423.

Containing approximately 3,419 acres.

T. 3 N., R. 8 E.  
Secs. 1 to 20 (fractional), inclusive, all;  
Secs. 21 and 22, all;  
Sec. 23 (fractional), all;  
Sec. 26 (fractional), all;  
Secs. 27, 28 and 29, all;  
Sec. 30 (fractional), all;  
Secs. 31 to 34, inclusive, all;  
Sec. 35 (fractional), all;

Containing approximately 13,108 acres.

T. 4 N., R. 8 E.  
Secs. 1 to 5 (fractional), inclusive, all;  
Sec. 7, all;  
Secs. 8 to 14 (fractional), inclusive, all;  
Secs. 15 to 19, inclusive, all;  
Sec. 20 (fractional), all;  
Secs. 21 and 22, all;  
Secs. 23 to 26 (fractional), inclusive, all;  
Sec. 27, all;  
Secs. 28 and 29 (fractional), all;  
Sec. 30, all;  
Secs. 31 to 36 (fractional), inclusive, all;

Containing approximately 16,118 acres.

T. 1 N., R. 9 E.  
Sec. 1 (fractional), excluding U.S. Survey No. 2496;  
Sec. 2 (fractional), all;  
Secs. 11 to 14 (fractional), inclusive, all;  
Sec. 19 (fractional), all;  
Sec. 24 (fractional), all;  
Secs. 30 to 33 (fractional), inclusive, all;

Containing approximately 2,133 acres.

T. 4 N., R. 9 E.

Secs. 6 and 7 (fractional), all;  
Secs. 17, 18 and 19 (fractional), all;

Containing approximately 1,417 acres.

T. 1 N., R. 10 E.  
Secs. 6 and 7 (fractional), all;  
Sec. 18 (fractional), all;  
Sec. 19 (fractional), excluding U.S. Survey No. 1639.

Containing approximately 2,104 acres.

T. 1 S., R. 8 E.  
Sec. 1 (fractional), all;  
Sec. 12 (fractional), inclusive, all;  
Sec. 13, all;  
Secs. 24 and 25 (fractional), all;  
Sec. 26 (fractional), excluding U.S. Survey No. 1728.

Containing approximately 2,070 acres.

T. 1 S., R. 9 E.

Secs. 3 to 7 (fractional), inclusive, all;  
Secs. 8 and 9, all;  
Sec. 10 (fractional), all;  
Secs. 16 and 17 (fractional), all;  
Sec. 18, all;  
Secs. 19 and 20 (fractional), all;  
Secs. 22 to 26 (fractional), inclusive, all;  
Sec. 27 (fractional), that portion lying within Chugach National Forest;  
Sec. 30 (fractional), all;  
Sec. 33 (fractional), that portion lying within Chugach National Forest;  
Sec. 34, that portion lying within Chugach National Forest, excluding Mineral Survey No. 970;  
Sec. 35, all;  
Sec. 36 (fractional), all;

Containing approximately 8,994 acres.

Aggregating approximately 65,263 acres within Chugach National Forest.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f) (Supp. V, 1975)); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 706; 43 U.S.C. 1601, 1616(b) (Supp. V, 1975)), the following public easements referenced by easement identification number (EIN), on the easement maps in case file AA-84460EE, are reserved to the United States and subject to further regulation thereby:

a. (EIN 1 D9) A site easement upland of the ordinary high water mark in Sec. 20, T. 4 N., R. 8 E., Seward Meridian, on the south-east shore of Eshamy Lake. The site is one (1) acre in size with an additional twenty-five (25) foot wide easement on the bed of the lake along the entire waterfront of the site. The specific location of the site will be at a point mutually agreeable to The Chenega Corp. and the U.S. Forest Service. The site is for camping, staging and vehicle use.

b. (EIN 1b D9 L) A site easement upland of the ordinary high water mark in Sec. 7, T. 4 N., R. 8 E., Seward Meridian, on the north shore of Eshamy Lake. The site is one (1) acre in size with a twenty-five (25) foot wide easement on the bed of the lake along

the entire waterfront of the site. The site is for camping, staging and vehicle use.

c. (EIN 1c D9 L) A site easement upland of the ordinary high water mark in Sec. 12, T. 4 N., R. 7 E., Seward Meridian, on the west shore of Eshamy Lake. The site is one (1) acre in size with a twenty-five (25) foot wide easement on the bed of the lake along the entire waterfront of the site. The site is for camping, staging and vehicle use.

d. (EIN 2 L) A site easement upland of the ordinary high water mark in Sec. 8, T. 4 N., R. 8 E., Seward Meridian, on the east shore of Eshamy Lake. The site is one (1) acre in size with an additional twenty-five (25) foot wide easement on the bed of the lake along the entire waterfront of the site. The site is for camping, staging and vehicle use.

e. (EIN 2a D9 L) A two (2) acre fishery management easement upland of the mean high tide line in Sec. 8, T. 4 N., R. 8 E., Seward Meridian, at the mouth of Eshamy Creek. The easement is used by the Alaska Department of Fish and Game, Commercial Fish Division, for fishery management purposes.

f. (EIN 2b D9 L) A streamside easement twenty-five (25) feet in width upland of and parallel to the ordinary high water mark on all banks and an easement on the entire bed of Eshamy Creek from Eshamy Lake to Eshamy Lagoon. Purpose is to provide for public use of waters having highly significant present recreational use.

g. (EIN 2c L) An easement for a proposed access trail twenty-five (25) feet in width along the south bank of Eshamy Creek from Eshamy Lake to Eshamy Lagoon and to site EIN 3 D9 L. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

h. (EIN 3 D9 L) A one (1) acre site easement upland of the mean high tide line in Sec. 8, T. 4 N., R. 8 E., Seward Meridian, on the south shore of Eshamy Lagoon. The site is for camping, staging and vehicle use.

i. (EIN 4d D9 L) A linear site easement twenty-five (25) feet in width upland of and parallel to the ordinary high water mark at the outlet of a lake in Sec. 33, T. 4 N., R. 7 E., Seward Meridian. The easement extends, on all banks, one thousand (1,000) feet downstream from the lake and five hundred (500) feet along the lake shore on each side of the outlet. Additionally, there is an easement on the entire bed of the stream and twenty-five (25) feet on the bed of the lake along the entire waterfront of the linear site easement.

j. (EIN 4e D9 L) A site easement upland of the ordinary high water mark at the inlet of a lake in Sec. 34, T. 4 N., R. 7 E., Seward Meridian. The site is one (1) acre in size with an additional twenty-five (25) foot wide easement on the bed of the lake along the entire waterfront of the site. The site is for camping, staging and vehicle use.

k. (EIN 4j D9 L) A linear site easement twenty-five (25) feet in width upland of and parallel to the ordinary high water mark at the inlet of a lake in Secs. 33 and 34, T. 4 N., R. 7 E., Seward Meridian. The easement extends, on all banks, one thousand (1,000) feet upstream from the lake and five hundred (500) feet along the lake shore on each side of the inlet. Additionally, there is an easement on the entire bed of the stream and twenty-five (25) feet on the bed of the lake along the entire waterfront of the linear site easement.

l. (EIN 4k D9 L) A linear site easement twenty-five (25) feet in width upland of an

parallel to the ordinary high water mark at the outlet of a lake in Sec. 3, T. 3 N., R. 7 E., Seward Meridian. The easement extends, on all banks, one thousand (1,000) feet downstream from the lake and five hundred (500) feet along the lake shore on each side of the outlet. Additionally, there is an easement on the entire bed of the stream and twenty-five (25) feet on the bed of the lake along the entire waterfront of the linear site easement.

m. (EIN 4l D9 L) A linear site easement twenty-five (25) feet in width upland of and parallel to the ordinary high water mark at the inlet of a lake in Sec. 4, T. 3 N., R. 7 E., Seward Meridian. The easement extends, on all banks, one thousand (1,000) feet upstream from the lake and one thousand (1,000) feet along the lake shore on each side of the stream. Additionally, there is an easement on the entire bed of the stream.

n. (EIN 11 L) A one (1) acre site easement upland of the mean high tide line in Sec. 2, T. 4 N., R. 8 E., Seward Meridian, at the narrows between Eshamy Bay and Eshamy Lagoon. The site, which encompasses the Fish and Game protection cabin, is for camping, staging and vehicle use.

o. (EIN 12 L) A one (1) acre site easement upland of the mean high tide line in Sec. 18, T. 4 N., R. 9 E., Seward Meridian, at the head of the bay west of Point Nowell on the west side of Knight Island Passage. The site is for camping, staging and vehicle use.

p. (EIN 17 L) A one (1) acre site easement upland of the mean high tide line in Sec. 31, T. 4 N., R. 8 E., Seward Meridian, on the east side of Ewan Bay. The site is for camping, staging and vehicle use.

q. (EIN 20 L) An easement for an existing access trail twenty-five (25) feet in width from the mouth of Jackpot Creek in Sec. 9, T. 3 N., R. 7 E., Seward Meridian, northeasterly along the Jackpot Creek lake system to public lands in Sec. 2, T. 4 N., R. 7 E., Seward Meridian. This trail will connect easements EIN 21 L, 21a L, 41 D9 L, 4k D9 L, 4e D9 L, 4j D9 L and 4d D9 L. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

r. (EIN 21 L) A one (1) acre site easement upland of the mean high tide line in Sec. 9, T. 3 N., R. 7 E., Seward Meridian, at the mouth of Jackpot Creek. The site is for camping, staging and vehicle use.

(EIN 21a L) A linear site easement twenty-five (25) feet in width upland of and parallel to the ordinary high water mark at the mouth of Jackpot Creek in Sec. 9, T. 3 N., R. 7 E., Seward Meridian. The easement extends, on all banks, five hundred (500) feet upstream from EIN 21 L. Additionally, there is an easement on the entire bed of the stream.

t. (EIN 27 L) A one (1) acre site easement upland of the mean high tide line in Sec. 19, T. 3 N., R. 8 E., Seward Meridian, on the west side of Chenega Island. The site is for camping, staging and vehicle use.

u. (EIN 29 L) A one (1) acre site easement upland of the mean high tide line in Sec. 23, T. 3 N., R. 8 E., Seward Meridian, on the east side of Chenega Island. The site is for camping, staging and vehicle use.

v. (EIN 31 L) A one (1) acre site easement upland of the mean high tide line in Sec. 10, T. 2 N., R. 8 E., Seward Meridian, at the head of Kake Cove. The site is for camping, staging and vehicle use.

w. (EIN 32 L) A one (1) acre site easement upland of the mean high tide line in Sec. 7, T. 2 N., R. 8 E., Seward Meridian, on the

shore of the northeast arm of the bay on the south side of Chenega Island. The site is for camping, staging and vehicle use.

x. (EIN 61 D9) A one (1) acre site easement upland of the mean high tide line in Sec. 5, T. 1 S., R. 9 E., Seward Meridian, on the shore of a small cove east of Shelter Bay. The site is for camping, staging and vehicle use.

y. (EIN 62 C) A continuous linear easement twenty-five (25) feet in width upland of and parallel to the mean high tide line in order to provide access to and along the marine coastline and use of such shore for purposes such as beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses. Deviations from the waterline are permitted when specific conditions so require, e.g., impassable topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be obligated to convey to the United States an acceptable alternate access route, at no cost to the United States, prior to the creation of such obstruction.

z. (EIN 63 C) The right of the United States to enter upon the lands hereinabove granted for cadastral, geodetic, or other survey purposes is reserved, together with the right to do all things necessary in connection therewith.

aa. (EIN 65 E) An easement for a proposed access trail twenty-five (25) feet in width from site EIN 1c D9 L at the west end of Eshamy Lake in Sec. 12, T. 4 N., R. 7 E., Seward Meridian, westerly to public lands. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

These reservations have not been conformed to the Departmental easement policy announced March 3, 1978 and published as final rulemaking on November 27, 1978, 43 FR 55326. Conformance will be made at a later date in accordance with the terms and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, Chugach Natives, Inc., The Chenega Corporation and other Chugach village corporations.

The grant of lands shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. Ch. 2, Sec. 6(g) (1970))), contract, permit, right-of-way, or easement, and the right of the lessee, contractor, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him;

3. Requirements of Sec. 22(k) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 715; 43 U.S.C. 1601, 1621(k) (Supp. V, 1975)), that, as to

the portion of the above-described lands located within the boundaries of a national forest (a) until December 18, 1976, the sale of any timber from such lands is subject to the same restrictions relating to the export of timber from the United States as are applicable to national forest lands in Alaska under rules and regulations of the Secretary of Agriculture; and (b) until December 18, 1983, such lands shall be managed under the principles of sustained yield and under management practices for protection and enhancement of environmental quality no less stringent than such management practices on adjacent national forest lands;

4. The following third-party interests created and identified by the U.S. Forest Service, as provided by Sec. 14(g) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(g) (Supp. V, 1975)):

a. A special use permit issued to the Alaska Department of Fish and Game on March 2, 1960, for the purpose of maintaining a cabin for watchmen and wrier tender during the summer months which is located in SW $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 8 T. 4 N., R. 8 E., Seward Meridian, at the head of Eshamy Lagoon, Prince William Sound.

b. A special use permit issued to the Department of Public Safety, Division of Fish and Wildlife Protection, on March 24, 1975, for the purpose of maintaining a stream-guard cabin which is located in SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$  Sec. 2, T. 4 N., R. 8 E., Seward Meridian, at the entrance of Eshamy Lagoon, Prince William Sound.

c. A special use permit issued to Harold G. Hardin on April 12, 1968, for the purpose of maintaining a residence which is located in SE $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 26, T. 1 S., R. 8 E., Seward Meridian, on Sawmill Bay, Evans Island, Prince William Sound.

d. A special use permit issued to George L. Kritchen on May 6, 1970, for the purpose of maintaining a warehouse for use in commercial fishing activities which is located in NE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 18, T. 4 N., R. 9 E., Seward Meridian, at Point Nowell, Prince William Sound.

e. A special use permit issued to Eleanor Mathews on April 15, 1977, for the purpose of maintaining an industrial cabin connected with the fishing industry which is located in SW $\frac{1}{4}$ NE $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 2, T. 4 N., R. 8 E., Seward Meridian, north and east of the entrance to Eshamy Lagoon, Prince William Sound.

f. A special use permit issued to Robert N. and Marsha G. Patrick on December 12, 1972, for the purpose of maintaining a year-long residence to be used in connection with commercial fishing which is located in NE $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 25, T. 1 S., R. 8 E., Seward Meridian (Lot 3, Crab Bay, Evans Island Group).

g. A special use permit issued to Ernest Lawrence and Irving C. Wedmore on January 9, 1968, for the purpose of maintaining a year-round residence (nonrecreational) and warehouse which is located in SW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 26 T. 1 S., R. 8 E., Seward Meridian, on Evans Bay, Evans Island, Prince William Sound.

5. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c) (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said Sec.; and

6. The term and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, Chugach Natives, Inc., The Chenega Corporation, and other Chugach village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management easement case file for the The Chenega Corporation, serialized AA-8446-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

The Chenega Corporation is entitled to conveyance of 69,120 acres of land selected pursuant to Sec. 12(a) of the Alaska Native Claims Settlement Act. To date approximately 66,661.21 acres of this entitlement have been approved for conveyance; the remaining entitlement of approximately 2,458.79 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of the Alaska Native Claims Settlement Act, conveyance of the subsurface estate of the lands described above will be granted to Chugach Natives, Inc., when conveyance is granted to The Chenega Corporation for the surface estate, and shall be subject to the same conditions as the surface conveyance.

There are no inland water bodies considered to be navigable within the lands described.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in both the ANCHORAGE TIMES and THE CORDOVA TIMES. Any party claiming a property interest in lands affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510 and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501, also:

1. Any party receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign the return receipt shall have until January 26, 1979 to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

4. If The Chenega Corporation or Chugach Natives, Inc., objects to any easement which is identified herein for reservation in the conveyance, which is subject to the discretion of the State Director and not re-

served pursuant to an express Secretarial directive, a petition for reconsideration must be filed within 30 days from receipt of service with the State Director, Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510. A copy of the petition should be served upon the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. If a petition for reconsideration is not filed, it will be deemed that the right to contest any such easement has been waived.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510.

If an appeal is taken, the adverse parties to be served are:

The Chenega Corporation  
c/o Chugach Natives, Inc.  
912 East 15th Avenue  
Anchorage, Alaska 99501  
Chugach Natives, Inc.  
912 East 15th Avenue  
Anchorage, Alaska 99501

JUDITH A. KAMMINS,  
Chief, Division  
of ANCSA Operations.

#### NORTHWEST PIPELINE CORP.

R/W Application for Pipeline

DECEMBER 19, 1978.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Northwest Pipeline Corporation, 315 East 200 South, Salt Lake City, Utah 84111, has applied for a right-of-way for a 4½" o.d. natural gas pipeline for the Philadelphia Creek Gathering System of approximately 0.066 miles long across the following Public Lands:

SIXTH PRINCIPAL MERIDIAN, RIO BLANCO  
COUNTY, COLORADO

T. 2 S., R. 101 W., 6th P.M.  
Section 9: NW¼NE¼, NE¼SE¼

The above-named gathering system will enable the applicant to collect natural gas in areas through which the pipeline will pass and to convey it to the applicants' customers.

The purposes for this notice are: (1) To inform the public that the Bureau of Land Management is proceeding with the preparation of environmental and other analytic reports, necessary for determining whether or not the application should be approved and if approved, under what terms and conditions. (2) To give all interested par-

ties the opportunity to comment on the application. (3) To allow any party asserting a claim to the lands involved or having bona fide objections to the proposed natural gas gathering system to file its claim or objections in the Colorado State Office. Any party so filing must include evidence that a copy thereof has been served on Northwest Pipeline Corporation.

Any comment, claim or objections must be filed with the Chief, Branch of Adjudication, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, as promptly as possible after publication of this notice.

ANDREW W. HEARD, JR.,  
Leader, Craig Team,  
Branch of Adjudication.

#### DEPARTMENT OF JUSTICE

Antitrust Division

#### UNITED STATES v. NEW YORK COFFEE AND SUGAR EXCHANGE, INC.

Proposed Consent Judgment and Competitive Impact Statement Therein

Notice is given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16, that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Southern District of New York in *United States v. New York Coffee and Sugar Exchange, Inc.*, Civil No. 77 Civ. 5038.

The Complaint in this action alleges that the Exchange conspired since 1970 to violate Section 1 of the Sherman Act through the method by which it determined daily spot prices for raw sugar. The proposed judgment would prohibit the Exchange from determining and publishing spot prices for raw sugar except in accordance with a method specified in the judgment. Under this method, spot prices would be established in a manner consistent with the antitrust laws and not inherently anticompetitive. They would no longer be set by agreement or consensus among competing and self-interested firms. Instead, opinions would be sought from experts from various levels of the sugar industry, randomly selected each day from prepared rosters, as to prevailing cash values for raw sugar. The average of the figures obtained would then be applied to the weighted average price of transactions on the floor of the Exchange in the near term domestic and/or world futures contracts. The resulting amounts would constitute the spot prices for the day in question.

Public comment is invited within the statutory 60 day time period. Such comment and the Government's response will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Ralph T. Giordano, Chief, New York Office, Antitrust Division, Department of Justice, 26 Federal Plaza, New York, New York 10007.

Dated: December 15, 1978.

CHARLES F. B. McALEER,  
Special Assistant for  
Judgment Negotiations.

UNITED STATES DISTRICT COURT, SOUTHERN  
DISTRICT OF NEW YORK

*United States of America*, Plaintiff,  
v. *New York Coffee and Sugar Exchange, Inc.*, Defendant.

77 Civ. 5038 (RWS).

Filed: December 15, 1978.

#### STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. 16), and without further notice to either party or other proceedings, provided that the plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on the defendant and by filing that notice with the Court.

2. In the event the plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to the plaintiff or the defendant in this or any other proceeding.

Dated: December 15, 1978.

For Plaintiff: John H. Shenefield, Assistant Attorney General, William E. Swope, Charles F. B. McAleer, Attorneys, Department of Justice, Ralph T. Giordano, Philip F. Cody, Attorneys, Department of Justice, Antitrust Division, Room 3630, 26 Federal Plaza, New York, New York 10007, Tel: (212) 264-0390.

For the Defendant: New York Coffee and Sugar Exchange, Inc., Barrett, Smith, Schapiro, Simon & Armstrong, by Edmund R. Schroeder, a member of the firm, 26 Broadway, New York, New York 10004, Tel: (212) 422-8180.

UNITED STATES DISTRICT COURT, SOUTHERN  
DISTRICT OF NEW YORK

*United States of America*, Plaintiff, v. *New York Coffee and Sugar Exchange, Inc.*, Defendant.

77 Civ. 5038 (RWS).

Filed: December 15, 1978.

#### FINAL JUDGMENT

The Plaintiff, United States of America, having filed its Complaint on October 17, 1977; the defendant, New York Coffee and

Sugar Exchange, Inc., having appeared and filed its answer to the Complaint; and the plaintiff and the defendant, by their respective attorneys, having consented to the entry of this Final Judgment without trial or adjudication of any issue of law or fact and without this Final Judgment constituting any evidence or admission by either party with respect to any such issue;

Now therefore, before the taking of any testimony and without trial or adjudication of any issue of fact or law and upon the consent of both parties, it is

Ordered, Adjudged and Decreed as follows:

#### I

This Court has jurisdiction over the subject matter of this action and both parties hereto. The Complaint states a claim upon which relief may be granted against the defendant under Section 1 of the Sherman Act (15 U.S.C. 1).

#### II

As used in this Final Judgment:

A. "The Exchange" means the defendant, New York Coffee and Sugar Exchange, Inc., and each of its subsidiaries, affiliates and committees including the New York Coffee and Sugar Clearing Association, Inc.

B. "Spot quotation or price for raw sugar" means any figure or value which purports to reflect the actual or estimated current cash value of any amount of raw sugar anywhere in the world.

The provisions of this Final Judgment shall apply to the Exchange, its subsidiaries, affiliates, successors and assigns; to each of their respective officers, directors, managers, agents and employees; and to all other persons, including members, in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise.

#### IV

The Exchange is enjoined and restrained from directly or indirectly determining and publishing a spot quotation or price for raw sugar except in accordance with the terms and conditions set forth in Exhibit A of this Final Judgment. Nothing contained herein, however, shall prohibit the Exchange from continuing to determine and publish settlement prices in connection with the trading of sugar futures contracts on the floor of the Exchange, including delivery notices pursuant to such futures contracts. Nor is the Exchange prohibited from determining or publishing a cash value for raw cane sugar in arbitrating or otherwise resolving any dispute resulting from a default in a futures contract of the Exchange or a commercial contract in the cash market.

#### V

A. The Exchange is ordered and directed, within one hundred and eighty (180) days after the entry of this Final Judgment, to eliminate from its By-laws, Rules and Regulations any provision which is inconsistent with Section IV of this Final Judgment, including such provisions contained in paragraphs (r) and (s) of Section 16 of its By-laws, Section 45 of its By-laws, and Rule 12.26 of its Sugar Trade Rules.

B. The Exchange is ordered and directed, within thirty (30) days after the entry of this Final Judgment, to disband and eliminate its Spot Domestic Quota Sugar Quota-

tion Committee and its Spot World Sugar Quotation Committee.

#### VI

A. Within ninety (90) days after the entry of this Final Judgment, the Exchange shall mail to each of its members a complete copy of this Final Judgment.

B. Within one hundred and twenty (120) days after the entry of this Final Judgment, the Exchange shall file with this Court and serve upon the plaintiff an affidavit as to the fact and manner of its compliance with paragraph A of this Section VI.

#### VII

A. For the purpose of determining or securing compliance with this Final Judgment, any duly authorized representative of the Department of Justice shall, on written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to the Exchange made to its principal office, be permitted, subject to any legally recognized privilege:

(1) Access during the regular business hours of the Exchange to inspect and copy all books, ledgers, accounts, correspondence, memoranda and other records and documents in the possession or under the control of the Exchange, which may have counsel present, relating to any matters contained in this Final Judgment; and

(2) Subject to the reasonable convenience of the Exchange and without restraint or interference from it, to interview managers, officers, agents or employees of the Exchange, any of whom may have counsel present, regarding any such matters.

B. The Exchange, upon the written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, shall submit such reports in writing with respect to any of the matters contained in this Final Judgment, as may from time to time be requested.

No information obtained by the means provided in this Section VII shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

If at the time information or documents are furnished by the Exchange to the plaintiff pursuant to this Section and the exchange represents that the material, or any portion thereof, in any such information or documents is of a type described in Rule 26(c)(7) of the Federal Rules of Civil Procedure, and the Exchange identifies such material in writing and marks each pertinent page thereof "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then plaintiff shall give the Exchange ten (10) days notice prior to divulging such material in any legal proceeding (other than a grand jury proceeding) to which the Exchange is not a party.

#### VIII

Jurisdiction is retained by this Court for the purpose of enabling either of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the amend-

ment or modification of any of its provisions, for the enforcement of compliance therewith, and the punishment of violations thereof.

# IX

Entry of this Final Judgment is in the public interest.

Dated: \_\_\_\_\_

United States District Judge.

## EXHIBIT A

The following sets forth the terms and conditions under which the Exchange may determine and publish spot quotations or prices for raw sugar:

### DEFINITION OF APPLICABLE TRADING PERIOD

As used in this Exhibit A, the phrase "applicable trading period" shall mean the period during the Exchange's trading day extending from 12:00 noon through the close of trading for that day.

### DEFINITION OF SPOT QUOTATIONS OR PRICES

The Exchange may determine and publish either or both of two spot quotations or prices for each trading day: one for domestic raw cane sugar and one for world raw cane sugar. The domestic spot quotation or price shall reflect the estimated price per unit, C.I.F. duty paid, of raw cane sugar in quantities exceeding 4,500 tons to arrive in the United States at a port of entry north of Cape Hatteras during a period of not less than seven days nor more than sixty days after the day in question.

The world spot quotation or price shall reflect the estimated price per unit, F.O.B. country of origin, of raw cane sugar in quantities exceeding 4,500 tons for shipment from a list of countries of origin including North Brazil and various countries in the greater Caribbean area, during a period within sixty days of the day in question. The list of countries shall be designated by the Board of Managers of the Exchange and may be changed from time to time by the Board in order to reflect prevailing market conditions.

### ESTABLISHMENT AND USE OF INDUSTRY ROSTERS

(a) In determining the domestic and world spot quotations or prices, the Exchange shall establish two rosters of individuals knowledgeable in raw sugar trading: One roster consisting of individuals knowledgeable in domestic raw sugar trading and the other consisting of individuals knowledgeable in world raw sugar trading. The individuals on each roster shall be divided into categories representing different segments of the sugar industry and shall include non-members as well as members of the Exchange.

With respect to the domestic roster, there shall be five categories as follows:

(i) Individuals associated with firms engaged in the growth of sugar cane and/or the production of raw sugar in the United States, including beet sugar growers and/or processors;

(ii) Individuals associated with raw sugar merchants or operators located in the United States, including foreign trade houses having offices, directly or through subsidiaries or affiliates, in the United States;

(iii) Individuals associated with sugar refiners located in the United States;

(iv) Individuals associated with industrial users of cane sugar located in the United States; and

(v) Individuals associated with commission houses located in the United States.

With respect to the world roster, there shall be four categories as follows:

(i) Individuals associated with raw sugar merchants or operators located in the United States, including foreign trade houses having offices, directly or through subsidiaries or affiliates, in the United States;

(ii) Individuals associated with sugar refiners located in the United States;

(iii) Individuals associated with industrial users of cane sugar located in the United States; and

(iv) Individuals associated with commission houses located in the United States.

(b) The Exchange shall approach the principal firms in each of the specified categories and invite them to submit the names of candidates to be included on the rosters. The appointments to each roster shall be made by the Chairman of the Board of Managers of the Exchange with the approval of the Board. An individual may be appointed to both the domestic and world rosters. However, no more than one individual from any firm shall be appointed to any roster, provided that an alternate may be appointed to serve in the absence of another individual from the same firm.

The Exchange shall endeavor to place at least eight individuals (not including alternates) in each category of each roster and, in no event, may any category of either roster consist of less than five individuals (not including alternates).

The names of the individuals, including alternates, selected by the Exchange and the firms with which they are associated will be retained in the Exchange's records subject to the inspection, upon request, of the Antitrust Division of the United States Department of Justice.

(c) On each trading day, an employee of the Exchange shall select by lot the names of five individuals from each roster.

For the domestic roster, such employee shall select the name of one individual from each of the five categories. For the world roster, such employee shall select the name of one individual from each of the four categories and the name of one additional individual from the entire roster at large. The same individual may not be selected, on any trading day, from both the domestic and world rosters.

(d) At some time during each trading day, after 1:00 p.m. but before the commencement of the closing calls in sugar futures, the Exchange employee shall telephone each of the individuals (or their alternates) selected by lot from the domestic and world rosters.

The Exchange employee shall ask each individual selected from the domestic roster for two figures representing his expert opinions of that day's prevailing price differential between the price per unit, C.I.F. duty

As used herein, "Commission House" means any firm engaged in raw sugar futures trading, on a monetary commission basis, predominantly on behalf of its customers.

Such employee shall not be associated with any firm active at any level of the sugar industry.

paid, of raw cane sugar in quantities exceeding 4,500 tons to arrive in the United States at a port of entry north of Cape Hatteras during a period of not less than seven days nor more than sixty days after the day in question and

(i) The price, per unit, of raw cane sugar under the domestic sugar futures contract for the nearest delivery month then trading on the Exchange for that contract; and

(ii) The price, per unit, of raw cane sugar under the world sugar futures contract for the nearest delivery month then trading on the Exchange for that contract.

The Exchange employee shall ask each individual selected from the world roster for a figure representing his expert opinion of that day's prevailing price differential between the price per unit, F.O.B. country of origin, of raw cane sugar in quantities exceeding 4,500 tons for shipment from the aforesaid list of countries of origin including North Brazil and various countries in the greater Caribbean area, during a period within sixty days of the day in question and the price, per unit, of raw cane sugar under the world sugar futures contract for the nearest delivery month then trading on the Exchange for that contract.

(e) No individual selected from either roster shall be informed of the identities or figures of the other individuals selected on that day; nor shall such individual be informed of the average, range or nature of the figures provided by the other individuals selected on the day. This information shall not be publicly disclosed by the Exchange except that the figures provided by such individuals shall be maintained by the Exchange for inspection, upon request, by the Antitrust Division of the United States Department of Justice.

(f) The nearest delivery month for the domestic and world futures contracts trading on the Exchange shall be the first one of the following delivery months that follows the day for which the spot quotation or price is being determined: March, May, July, September and (in the case of the world futures contract) October, or (in the case of the domestic futures contract) November; except that, beginning on the fifth from the last trading day for any of these delivery months, the next one of such months shall be regarded as the nearest delivery month trading on the Exchange. These delivery month designations may be changed, from time to time, by the Board of Managers of the Exchange in order to reflect prevailing market conditions.

### COMPUTATION OF ESTIMATED SPOT QUOTATION OR PRICE

As soon as practical after the close of the futures market on the day for which the spot quotations or prices are being determined, the Exchange employee shall compute the domestic and world spot quotations or prices as follows:

(a) With respect to the domestic spot quotation or price, if more than 175 lots have traded on that day, during the applicable trading period, in the nearest delivery month of the domestic sugar futures contract then open for trading (as that month is defined above), the Exchange employee

The day for which the domestic spot quotation or price is being determined. This 175 lot figure shall not include transactions against actuals or straddle transactions traded on point differentials.

shall take the figures received from the individuals selected from the domestic roster as to that day's prevailing differential above or below the price of such domestic futures contract, eliminate the highest and lowest figures, compute the average of the remaining figures, and add that average to or subtract that average from the weighted average price of all of that day's transactions on the Exchange, during the applicable trading period, in such contract. The resulting amount shall constitute the domestic spot quotation or price for that day.

If that day's volume on the Exchange, during the applicable trading period, in the nearest delivery month of the domestic sugar futures contract then open for trading does not exceed 175 lots, then the Exchange employee shall take the figures received from the individuals selected from the domestic roster as to the differential prevailing above or below the price of the world futures sugar contract, eliminate the highest and lowest figures, compute the average of the remaining figures, and add that amount to or subtract it from the weighted average price of all of that day's transactions on the Exchange, during the applicable trading period, in the nearest delivery month of the world sugar futures contract then open for trading (as that month is defined above). The resulting amount shall constitute the domestic spot quotation or price for that day.

(b) With respect to the world spot quotation of price, the Exchange employee shall take the figures received from the individuals selected from the world roster as to that day's prevailing differential above or below the price of the world sugar futures contract, eliminate the highest and lowest figures, compute the average of the remaining figures, and add that average to or subtract it from the weighted average price of all of that day's transactions on the Exchange, during the applicable trading period, in the nearest delivery month of the world sugar futures contract then open for trading. The resulting amount shall constitute the world spot quotation or price for that day.

### PUBLICATION OF SPOT QUOTATIONS AND PRICES AND OTHER CONSIDERATIONS

(a) As soon as practical after their computation, but not later than the day on which they are computed, the Exchange shall make public the domestic and world raw sugar spot quotations or prices. In doing so, the Exchange shall preface any such quotation or price with the word "Estimated" and shall identify the day to which each quotation or price applies. At the same time, the Exchange shall also make public the weighted average prices of all of that day's transactions, during the applicable trading period, in the nearest delivery months of the domestic and world sugar futures contracts then open for trading, together with the total number of lots transacted that day, during the applicable trading period, in each such contract.

(b) The Exchange shall instruct, in writing, each member of its domestic and world roster not to, directly or indirectly, disclose or discuss his appointment or the figures which he submits to the Exchange employ-

The day for which the world spot quotation or price is being determined.

The day to which the spot quotations or prices in question apply.

ee with anyone associated with any other firm.

(c) The Exchange shall endeavor to replace a substantial number of the individuals on the domestic and world rosters every twenty-four months, and no individual may serve continuously on either roster for more than thirty-six months.

### U.S. DISTRICT COURT, SOUTHERN DISTRICT OF NEW YORK

United States of America Plaintiff, v. New York Coffee and Sugar Exchange, Inc., Defendant. Competitive impact statement relating to proposed consent judgment.

77 Civ. 5038 (RWS).

Filed: December 15, 1978.

This Competitive Impact Statement is filed by the Government pursuant to the requirements of Section 2 of the Act of Congress of December 21, 1974 (15 U.S.C. 16), commonly known as the Antitrust Procedures and Penalties Act. It relates to the proposed consent judgment submitted for entry against the defendant in this civil antitrust suit.

### NATURE AND PURPOSE OF THE PROCEEDING

On October 17, 1977, the Government filed a civil antitrust suit against the New York Coffee and Sugar Exchange, Inc. ("The Exchange"), New York, New York, alleging that it had conspired to violate Section 1 of the Sherman Act through its determination and publication of daily spot prices for raw sugar. In its Complaint, the Government asked the Court to declare the Exchange's method for determining such spot prices illegal and to prohibit the Exchange from continuing, maintaining or renewing this method or any other method having a similar illegal purpose or effect.

### DESCRIPTION OF THE PRACTICES GIVING RISE TO THE ALLEGED VIOLATION

Raw cane sugar is derived from sugar cane grown in various foreign countries and in some parts of the United States.

Sugar cane grown abroad is processed into raw sugar by foreign growers or processors who often sell it to raw sugar merchants for resale to foreign and domestic refiners. Sugar cane grown in the United States is processed into raw sugar by domestic growers or processors who often sell it directly, or through raw sugar merchants, to domestic refiners.

Domestic refiners refine the raw sugar and sell it to retailers for resale to the consuming public or to industrial users for use in the production of other products including food and beverages.

The Exchange is a non-stock membership corporation with about 300 members including officers and executives of major firms operating at various levels of the sugar industry in the United States. The Exchange generally does not buy or sell raw sugar. Rather, it operates a commodity futures exchange through which its members trade in raw sugar and other commodity futures. The Exchange is one of the largest raw sugar futures exchanges in the world.

Prior to the filing of this case, the Exchange for many years had determined daily spot prices for raw sugar sold in the domestic and world markets. These spot prices—published on each trading day of the Exchange—purported to reflect the dollar value of raw cane sugar either deliv-

ered to various ports in the United States north of Cape Hatteras (domestic spot price) or F.O.B. and stored at a port in the greater Caribbean area, including North Brazil (world spot price).

The Exchange maintained two separate committees to determine its spot prices. The world committee was composed of representatives of five competing raw sugar merchants. The domestic committee was composed of representatives of two competing domestic sugar refiners and three competing raw sugar merchants in the United States.

On every trading day, the members of each committee would directly or through their committee chairman discuss with each other by telephone the setting of the spot price for that day. After a majority consensus was achieved, the spot prices were relayed to the Exchange which then publicly announced them. Usually, the domestic and world spot prices were set solely on the basis of the collective and consensual discretion and judgment of the members of each committee.

The Exchange's spot prices had a direct and immediate effect on the actual prices of raw and refined sugar at most levels of the domestic and international sugar industry. Thus, for example, foreign and domestic growers and processors often sold raw sugar under contracts which set the purchase price by reference to the average of the spot price for a designated period. Raw sugar merchants entered similar contracts. In addition, domestic sugar refiners often independently set the prices of their refined sugar with reference to the spot prices.

In filing this action, the Government did not intend to necessarily challenge the concept of spot prices, however determined or established. Rather, the Government specifically attacked the particular method by which the Exchange set its spot prices. The Government believes, among other things, that the determination of spot prices solely on the basis of agreement and consensus among representatives of competing and self-interested firms constitutes illegal price tampering and is so inherently anticompetitive as to violate Section 1 of the Sherman Act.

On November 3, 1977, the Exchange voluntarily discontinued determining and publishing daily spot prices. It has not resumed doing so.

### EXPLANATION OF THE PROPOSED CONSENT JUDGMENT

The proposed consent judgment permits the Exchange to determine and publish spot prices for raw sugar only in accordance with a specified method which is consistent with the antitrust laws and not inherently anticompetitive.

Under this method, the Exchange would establish two rosters of individuals knowledgeable in the trading of raw sugar: one roster consisting of individuals knowledgeable in domestic sugar trading and the other of individuals knowledgeable in world sugar trading. Each roster would be divided into categories representing different segments of the sugar industry. The domestic roster would have five categories; the world roster would have four. Appointments to the rosters would be made by the Exchange after it had invited the principal firms in each category to submit the names of knowledgeable candidates. Each category would consist of

at least five individuals from different firms.

Every trading day, an impartial employee of the Exchange would select at random an individual from each category of the two rosters. Each would be separately asked for his expert opinion of that day's prevailing differential between the price of raw sugar in the cash market and the price of raw sugar under the domestic and/or world futures contract for the nearest delivery month then trading on the Exchange.

The Exchange employee would then eliminate the highest and lowest figures received from each roster, compute the average of the remaining figures, and add or subtract those averages from the weighted average price of all of that day's transactions on the Exchange, during the applicable trading period, in the near term domestic or world futures contract.\* The resulting amounts would constitute the domestic and world spot prices for that day.

Under this method, therefore, spot prices would no longer be set by agreement or consensus among competing or self-interested firms. Nor is there any real danger that the spot prices would be intentionally set to the advantage of one or more firms and the concomitant disadvantage of competitors.

Each randomly selected roster member would, for the most part, be active at a different level of the sugar industry. Different groupings of these individuals would likely be selected each day. Each would be separately asked only for his expert opinion of that day's differential. None would be advised of any other opinion. Indeed, the Exchange would be required to instruct each roster member not to discuss his opinion with any other member. In addition, the highest and lowest opinions submitted by the randomly selected members of each roster would be discarded. Moreover, the average of the remaining opinions would be related to the average weighted price of that day's transactions, during the applicable trading period, in the near term domestic or world contract. Such transactions are voluminous and are conducted on the floor of the Exchange by open and active competitive trading. The randomly selected individuals would not know at the time they separately gave their opinions, the average near term weighted price for that day.

The Exchange would also be required to endeavor to replace a substantial number of the individuals on the domestic and world rosters every 24 months. No individual could serve continuously for more than 36 months.

The Government recognizes that spot prices set under the method described in the proposed judgment (or under any method) would not likely be a precise and exact determination of the current value of raw sugar. Rather, they would only be an estimation of prevailing cash values. Consequently, any spot prices published by the Exchange would have to be preceded by the word "estimated."

\*With respect to the world roster, an additional individual would be randomly selected from the entire roster at large.

\*The applicable trading period would include all transactions in the near term domestic or world futures contract during the period 12:00 Noon through the close of trading for that day. References would be made to the near term domestic contract only if 175 lots or more were transacted in that contract during the applicable trading period.

The Exchange would also be required to publish the weighted average prices of each day's transactions, during the applicable trading period, in the near term domestic and world futures contracts together with the total number of transactions in these contracts during such period.

Under the proposed judgment, the Exchange would be required to mail a complete copy of the final judgment to each of its members.

#### COMPETITIVE EFFECTS OF THE PROPOSED CONSENT JUDGMENT

The proposed judgment is designed to prevent a recurrence of any of the anticompetitive and illegal activities alleged in the Complaint. Any spot prices determined and published by the Exchange will be in accordance with a specified method which is consistent with the antitrust laws and not inherently anticompetitive.

#### ALTERNATIVE REMEDIES CONSIDERED BY THE GOVERNMENT

The Government considered the possibility of seeking relief which would prohibit the Exchange from determining spot prices under any method. This approach was rejected, however, since there appears to be a legitimate need in the sugar industry for some benchmark to current cash values of raw sugar.

The Government also considered the possibility of requiring the Exchange to determine its spot prices under a purely mechanical method. This, too, was rejected. Such a method would not be feasible in the context of the present sugar industry.

#### REMEDIES AVAILABLE TO POTENTIAL PRIVATE PLAINTIFFS

Any potential private plaintiffs who might have been damaged by the alleged violation will retain the same right to sue for monetary damages and any other legal and equitable remedies that they would have had were the proposed consent judgment not entered. However, pursuant to Section 5(a) of the Clayton Act (15 U.S.C. Section 16(a)), as amended, this judgment may not be used as prima facie evidence in private litigation.

#### PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED CONSENT JUDGMENT

The proposed consent judgment is subject to a stipulation between the Government and the Exchange which provides that the Government may withdraw its consent to the proposed judgment any time before the Court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed judgment provides for the Court's retention of jurisdiction of this action in order, among other reasons, to permit any of the parties to apply to the Court for such orders as may be necessary or appropriate for the modification of the final judgment.

As provided by the Antitrust Procedures and Penalties Act (15 U.S.C. Section 16), any person wishing to comment upon the proposed judgment may, for a 60-day period prior to the effective date, submit written comments to the United States Department of Justice, Attention Ralph T. Giordano, Chief, New York Office, Antitrust Division, 26 Federal Plaza, New York, New York 10007. Such comments and the Government's response to them will be filed with the Court and published in the FEDERAL

REGISTER. The Government will evaluate all such comments to determine whether there is any reason for withdrawal of its consent to the proposed judgment.

#### OTHER MATERIALS

There are no materials or documents which the Government considered determinative in formulating the proposed consent judgment. Therefore, none is being filed with this competitive impact statement.

Dated: December 15, 1978.

#### "UNITED STATES" v. "WHOLESALE TOBACCO DISTRIBUTORS OF NEW YORK INC., ET AL".

#### Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Southern District of New York in *United States of America v. Wholesale Tobacco Distributors of New York Inc.*, Civil No. 77 Civ. 805. The complaint in this action alleges that beginning at least as early as 1965 the defendants and unnamed co-conspirators conspired to raise, fix, and stabilize the wholesale prices at which cigarettes were sold in New York City.

The proposed judgment would enjoin each of the defendants for a period of 25 years from entering into any agreement with any cigarette wholesaler to raise, fix, stabilize, or maintain price or other terms or conditions at which cigarettes are offered for sale; establishing or determining dates for any change in price at which cigarettes are offered for sale; or, establishing the amount or range of amount by which the price of cigarettes offered for sale shall be changed. The defendants, under the decree, are prohibited from communicating to any direct jobber of cigarettes the actual or proposed prices or changes in prices for any cigarettes offered for sale, and the actual or proposed dates for any changes in the price of cigarettes offered for sale.

The defendants will be permitted, however, to communicate such pricing information as is necessary to the bona fide purchase or sale of cigarettes between and among wholesalers, or the announcing of any price or proposed price change to any subjobber or retailer of cigarettes. Additionally,

the defendant Wholesale Tobacco Distributors of New York Inc. may assist in the enforcement of federal, state, and local laws and regulations prohibiting the hijacking or bootlegging of cigarettes or the counterfeiting of tax stamps. Thus, any wholesaler may communicate pricing information to the Managing Director of the Wholesale Tobacco Distributors of New York Inc. solely for dissemination to federal, state or local law enforcement authorities. The Managing Director of the Wholesale Tobacco Distributors of New York Inc. may not, however, communicate such pricing information to any other wholesaler.

The defendant Wholesale Tobacco Distributors of New York Inc. is prohibited from having any meeting of its members at which the prices of cigarettes offered for sale are communicated in any way by its officers, directors, agents, employees or members.

The defendant Wholesale Tobacco Distributors of New York Inc. is required by the consent judgment to conform its rules, regulations, bylaws, practices and policies to the terms of the judgment and to furnish a copy of the Final Judgment to each of its members, both within ninety (90) days from the date of its entry. Then within one hundred twenty (120) days of entry, the amended bylaws, rules, and regulations will be served upon plaintiff, filed with the Court and furnished to each member.

Public comment is invited within the statutory 60 day time period. Such comment and response thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Ralph T. Giordano, Chief, New York Office, Antitrust Division, Department of Justice, 26 Federal Plaza, New York, New York 10007.

Dated: December 18, 1978.

CHARLES F. B. McALEER,  
Special Assistant for  
Judgment Negotiations.

#### STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. The parties consent that a Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. 16), and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever and the making of this Stipulation shall not in any manner prejudice any consenting party in this or any other proceeding.

Dated: December 18, 1978.

For the Plaintiff: John H. Shenefield, Assistant Attorney General, William E. Swope, Charles F. B. McAleer, Ralph T. Giordano, Attorneys, Department of Justice, Antitrust Division, Robert A. McNew, Donald Ferguson, Attorneys, Department of Justice, Antitrust Division.

#### FINAL JUDGMENT

Plaintiff, United States of America, having filed its Complaint herein on February 17, 1977, and the defendants hereto, by their respective attorneys, having appeared and filed their Answers to the Complaint denying the material allegations thereof and raising certain affirmative defenses; and plaintiffs and defendants by their respective attorneys having consented to entry of this Final Judgment, without trial or adjudication of any issue of fact or law herein, and without admission by any party with respect to any such issue;

Now, therefore, before the taking of any testimony and without adjudication of any issue of fact or law in connection herewith, and without this Final Judgment constituting any evidence or admission by any party with respect to any such issue and upon the consent of the parties hereto, it is hereby

Ordered, Adjudged and Decreed as follows:

I

This Court has jurisdiction over the subject matter herein and over the parties hereto. The Complaint states a claim against the defendants upon which relief may be granted under Section 1 of the Sherman Act (15 U.S.C. 1).

II

As used in this Final Judgment:

A. "Person" means any individual, association, cooperative, partnership, corporation or other business or legal entity.

B. "Member" means any person who is a member of defendant Wholesale Tobacco Distributors of New York, Inc.

C. "Direct Jobber" means an entity which purchases cigarettes directly from any cigarette manufacturer, is licensed by the state to affix tax stamps to the cigarette packages, and is engaged in the sale of such cigarettes to retailers and to subjobbers who resell to retailers.

D. "Subjobber" means any person who purchases cigarettes from a direct jobber and then resells them to a retailer.

III

The provisions of this Final Judgment applicable to a defendant shall also apply to each of its officers, directors, agents, employees, subsidiaries, successors, assigns and to all other persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise.

IV

For a period of five (5) years from the date of entry of this Final Judgment, each defendant shall require as a condition of the sale or other disposition of all, or substantially all, of the assets used by the defendant in the distribution of cigarettes, that the acquiring party agree to be bound by the provisions of this Final Judgment. The acquiring party shall file with the Court and serve upon the Plaintiff its consent to be bound by this Final Judgment within thirty (30) days prior to the transfer of ownership.

V

Each defendant is enjoined and restrained from entering into, adhering to, maintaining, furthering or enforcing directly or indirectly any agreement, understanding, plan or program with any other direct jobber or subjobber to:

(1) Raise, fix, stabilize or maintain prices or other terms or conditions at which cigarettes are offered for sale.

(2) Establish or determine dates for any change in price at which cigarettes are offered for sale.

(3) Establish the amount or range of amount by which the price of cigarettes offered for sale shall be changed.

## VI

Each defendant is enjoined and restrained from communicating directly or indirectly to any direct jobber information concerning:

(1) The actual or proposed prices or changes in price for any cigarettes offered for sale.

(2) The actual or proposed dates for any changes in the prices of cigarettes offered for sale.

Provided, however, That nothing contained in this paragraph shall restrict the communication of information necessary to the bona fide purchase or sale of cigarettes between and among direct jobbers and/or subjobbers, or the announcement by any direct jobber and/or subjobber of any price or proposed price changes to any subjobber or retailer of cigarettes; and, further provided, that for the purpose of assisting in the enforcement of Federal, State and local laws and regulations prohibiting the hijacking or bootlegging of cigarettes or the counterfeiting of tax stamps, nothing contained in this paragraph shall restrict the communication of pricing information by any direct jobber or subjobber to the Managing Director of defendant Wholesale Tobacco Distributors of New York, Inc. solely for dissemination to Federal, State or local law enforcement authorities upon the condition that such information shall not be communicated by the Managing Director to any other direct jobber or subjobber.

## VII

The defendant Wholesale Tobacco Distributors of New York, Inc. is enjoined from having any meeting, conference or seminar of its members at which the prices of cigarettes offered for sale are discussed or communicated in any way by its officers, directors, agents, employees or members.

## VIII

For a period of five (5) years from the date of entry of this Final Judgment, the defendant Wholesale Tobacco Distributors of New York, Inc. is ordered to file an affidavit with plaintiff every six (6) months certifying that it has complied with the provisions of Section VII of this Final Judgment.

## IX

Each defendant direct jobber is ordered and directed to furnish within ninety (90) days from the date of this Final Judgment a copy thereof to each of its officers and directors and to each of its agents and employees having any responsibility for sales or pricing of cigarettes.

## X

Defendant Wholesale Tobacco Distributors of New York, Inc. is ordered and directed:

A. To furnish within ninety (90) days from the date of this Final Judgment a copy thereof to each of its members.

B. Within ninety (90) days from the date of entry of this Final Judgment to conform its rules, regulations, by-laws, practices and policies to the terms of this Final Judgment.

C. Within one hundred and twenty (120) days from the date of entry of this Final Judgment to serve upon the Plaintiff and file with the Court a true copy of its by-laws, rules and regulations as amended.

D. Within one hundred and twenty (120) days from the date of entry of this Final Judgment to furnish a copy of its by-laws,

rules and regulations as amended to each of its members.

## XI

A. For the purpose of determining or securing compliance with this Final Judgment, any duly authorized representative of the Department of Justice shall, on written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to such Defendant at its principal office be permitted, subject to any legally recognized privilege:

(1) Access during the office hours of such Defendant, to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of such Defendant, who may have counsel present, relating to any matters contained in this Final Judgment; and

(2) Subject to the reasonable convenience of such Defendant and without restraint or interference from it, to interview any officers, directors, agents, partners, or employees of such Defendant, any of whom may have counsel present, regarding any such matters.

B. Each Defendant, upon the written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, shall submit such reports in writing with respect to any of the matters contained in this Final Judgment, as may from time to time be requested.

No information obtained by the means provided in this Section shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

If at any time information or documents are furnished by any defendant to plaintiff pursuant to this Section and such defendant represents that the material, or any portion thereof, in any such information or documents is of a type described in Rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendant identifies such material in writing and marks each pertinent page thereof "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure", then plaintiff shall give such defendant ten (10) days notice prior to divulging such material in any legal proceeding (other than a Grand Jury proceeding) to which such defendant is not a party.

## XII

Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions thereof, and for the enforcement of compliance therewith and punishment of violations thereof.

## XIII

This Final Judgment will expire on the Twenty-fifth Anniversary from the date of its entry and with respect to any particular provision on any earlier date specified.

## XIV

Entry of this Final Judgment is in the public interest.

Dated:

UNITED STATES DISTRICT JUDGE

U.S. DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

UNITED STATES OF AMERICA, Plaintiff, v. WHOLESALER TOBACCO DISTRIBUTORS OF NEW YORK INC.; METROPOLITAN TOBACCO COMPANY, INC.; VALLEY STREAM DISTRIBUTORS CO., INC.; MODERN TOBACCO COMPANY, INC.; J. ROSENBERG & SONS TOBACCO AND CONFECTIONERS, INC.; SANDERS-LANGSAM TOBACCO CO., INC.; WILLIAM BLOOMROSEN & SON, INC.; JOSE A. SCHRAGER, INC.; NU SERVICE TOBACCO CO., INC.; GLOBE WHOLESALER COMPANY, Defendants.

Civil Action No. 77 Civ. 805 (CMM)

Filed: December 18, 1978

The United States of America, pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b)), hereby submits this Competitive Impact Statement relating to the proposed Consent Judgment submitted for entry in this civil antitrust proceeding.

## I

## NATURE OF THE PROCEEDINGS

The United States, on February 17, 1977, filed a civil antitrust action under Section 4 of the Sherman Act (15 U.S.C. 4) alleging that the above named defendants and unnamed co-conspirators from at least as early as 1965 had combined and conspired in violation of Section 1 of the Sherman Act (15 U.S.C. 1) to raise, fix, and stabilize the wholesale prices at which cigarettes were sold in New York City.

Entry by the Court of the proposed Consent Judgment will terminate the action, except that the Court will retain jurisdiction over the matter for possible further proceedings within the twenty-five years next ensuing, which may be needed to interpret, modify or enforce the Judgment or to punish violations of any of the provisions of the Judgment.

## II

## DESCRIPTION OF THE PRACTICES INVOLVED IN THE ALLEGED VIOLATIONS

The defendants include the largest direct jobbers of cigarettes in New York City. The combined sales of cigarettes by the defendants in New York City in 1975 exceeded \$150 million and accounted for approximately 45 percent of all cigarettes sales by direct jobbers in New York City during that year. Cigarettes are manufactured at facilities located outside the State of New York, and are purchased by the defendants and shipped regularly and continuously in interstate commerce from other states into the State of New York for sale by the defendants in New York City.

For the purpose of forming and effectuating the combination and conspiracy, the defendants and co-conspirators communicated to one another at meetings of the defendant Wholesale Tobacco Distributors of New York Inc., in telephone conversations, and

on other occasions, intention to raise the wholesale prices at which cigarettes are sold in New York City; jointly established in some cases the specific amount and in others the range by which such prices were to be increased; and jointly established a date on which such increases were to become effective. The Complaint alleges further that, as a result of the conspiracy, the wholesale prices of cigarettes in New York City have been fixed, raised, and maintained at artificial and non-competitive levels; purchasers of cigarettes have been deprived of free and open competition; and competition in the sale of cigarettes has been restrained.

## III

## EXPLANATION OF THE PROPOSED CONSENT JUDGMENT

The United States and the defendants have stipulated that the proposed Consent Judgment, in the form negotiated by and among the parties, may be entered by the Court at any time after compliance with the Antitrust Procedures and Penalties Act. The stipulation among the parties provides that there has been no admission by any party with respect to any issue of fact or law. Under the provisions of Section 2(e) of the Antitrust Procedures and Penalties Act, entry of the proposed Judgment is conditioned upon a determination by the Court that the proposed Judgment is in the public interest.

## A. PROHIBITED CONDUCT

The proposed Judgment will prohibit each of the defendants from entering into any agreement with a direct jobber or subjobber of cigarettes to raise, fix, stabilize, or maintain prices or other terms or conditions at which cigarettes are offered for sale; establishing or determining dates for any change in prices at which cigarettes are offered for sale; establishing the amount or range of amount by which the price of cigarettes offered for sale shall be changed. The defendants will be enjoined from communicating to any direct jobber of cigarettes the actual or proposed prices or changes in price for any cigarettes offered for sale; and, the actual or proposed dates for any changes in the price of cigarettes offered for sale.

The defendants will be permitted, however, to communicate such information as is necessary to the bona fide purchase or sale of cigarettes between and among direct jobbers and/or subjobbers, or the announcing by any direct jobber and/or subjobber any price or proposed price changes to any subjobber or retailer of cigarettes. Additionally, the defendant Wholesale Tobacco Distributors of New York Inc. may assist in the enforcement of federal, state, and local laws and regulations prohibiting the hijacking or bootlegging of cigarettes or the counterfeiting of tax stamps. Thus, any direct jobber may communicate pricing information to the Managing Director of the Wholesale Tobacco Distributors of New York Inc. solely for dissemination to federal, state or local law enforcement authorities. The Managing Director of the Wholesale Tobacco Distributors of New York Inc. may not, however, communicate such pricing information to any other direct jobber or subjobber.

The defendant Wholesale Tobacco Distributors of New York Inc. is prohibited from having any meeting of its members at which the prices of cigarettes offered for

sale are communicated in any way by its officers, directors, agents, employees or members.

The defendant Wholesale Tobacco Distributors of New York Inc. is required by the Consent Judgment to conform its rules, regulations, by-laws, practices and policies to the terms of the Judgment and to furnish a copy of the Final Judgment to each of its members, both within ninety (90) days from the date of its entry. Then within one hundred twenty (120) days of entry, the amended by-laws, rules, and regulations will be served upon plaintiff, filed with the Court and furnished to each member.

Each defendant direct jobber is required to furnish within ninety (90) days of entry a copy of the Final Judgment to each of its officers and directors as well as each of its agents and employees having any responsibility for sales or pricing of cigarettes.

## B. SCOPE OF THE PROPOSED JUDGMENT

The proposed Judgment applies to each defendant, its officers, directors, agents, employees, subsidiaries, successors, assigns and to those persons in active concert or participation with any of them who shall receive actual notice of this Final Judgment by personal service or otherwise. For a period of five (5) years from the date of entry, each defendant shall require as a condition of sale of all or substantially all of its assets used in the distribution of cigarettes, that the acquiring party agree to be bound by the provisions of this Final Judgment. The acquiring party is required to file with the Court and serve upon plaintiff within thirty (30) days prior to the transfer of ownership its consent to be so bound.

The defendants are bound by the prohibitions of the proposed Judgment for a period of twenty-five (25) years from the date of its entry and thereafter the Judgment shall terminate and cease to be effective.

The Judgment applies to each defendant's activities wherever they may occur.

## C. EFFECT OF THE PROPOSED JUDGMENT ON COMPETITION

The relief encompassed in the proposed Consent Judgment is designed to prevent any recurrence of the conduct alleged in the Complaint. The prohibitive language of the Judgment should ensure that no future agreements or combinations between or among the defendants, between any defendant and a direct jobber, or between any defendant and a subjobber, to fix, raise, maintain or stabilize the wholesale price of cigarettes will be arranged.

The Judgment provides methods for determining defendants' compliance with the terms of the Judgment. The Department of Justice, through duly authorized representatives, may interview officers, employees and agents of each defendant regarding its compliance with the Judgment. Representatives of the Department are also given access, upon reasonable notice, to examine each defendant's records for possible violations of the Judgment and to request defendants to submit reports to the Department of Justice on matters contained in the Judgment.

It is the opinion of the Department of Justice that the proposed Consent Judgment provides fully adequate provisions to prevent continuance or recurrence of violations of the antitrust laws charged in the complaint. In the Department's view, disposition of the lawsuit without further litigation is appropriate in that the proposed

Judgment provides all the relief which the Department sought in its Complaint, and the additional cost of litigation necessarily involved if the issues were litigated would not result in any additional relief. Accordingly, the public interest is best benefited by the proposed consensual disposition of the action.

## IV

## ALTERNATIVE REMEDIES CONSIDERED BY THE ANTITRUST DIVISION

The defendants initially proposed a Consent Judgment which the Antitrust Division concluded would not ensure that the conspiracy charged in the Complaint would not continue or recur. The Division responded to the defendants' proposed Judgment with a counter-proposal from which the final Consent Judgment was negotiated.

The primary point of difference that was ultimately compromised between the parties related to the communication of price information between direct jobbers. The defendants responded to the Division's prohibition, except for bona fide sales between direct jobbers, by stating that communication of pricing information was necessary to combat bootleggers and hijackers of cigarettes as well as those who would counterfeit cigarette tax stamps. Defendants reasoned that they could not assist law enforcement agencies by providing information on unreasonably low cost retail selling prices unless they could check the legitimate direct jobbers to determine at what price they were selling to the suspected retailer.

The Division suggested that the Managing Director of defendant Wholesale Tobacco Distributors of New York Inc. could perform the investigative tasks required and still refrain from passing competitive pricing information from one direct jobber to another. The defendants agreed with the Division's proposed solution to the problem and the second proviso in paragraph VI was included in the Final Judgment.

The defendants initially demanded that the scope of the Final Judgment be limited to their activities in New York City. However, the defendants admitted that some of them, in addition to operating in New York City, operated outside of the city and in other states. Accordingly, defendants withdrew their objection to the extended coverage.

## V

## REMEDIES AVAILABLE TO POTENTIAL PRIVATE LITIGATION

Section 4 of the Clayton Act (15 U.S.C. 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages such person has suffered as well as costs and reasonable attorney fees. Entry of the proposed Consent Judgment in this proceeding will neither impair nor assist the bringing of any such private actions. Under the provision of Section 5(a) of the Clayton Act (15 U.S.C. 16(a)) this Consent Judgment has no prima facie effect in any lawsuits which may be pending, or hereafter brought against the defendants.

## VI

PROCEDURES AVAILABLE FOR MODIFICATION OF  
THE PROPOSED JUDGMENT

As provided by the Antitrust Procedures and Penalties Act, any person believing that the proposed Judgment should be modified may submit written comments to Ralph T. Giordano, Antitrust Division, U.S. Department of Justice, Room 3630, 26 Federal Plaza, New York, New York 10007, within the sixty (60) day period provided by the Act. These comments and the Department's response to them, will be filed with the Court and published in the FEDERAL REGISTER. All comments received will be given due consideration by the Department of Justice, which remains free to withdraw its consent to the proposed Judgment at any time prior to its entry if it should determine that some modification of the proposed Judgment is necessary. The proposed Judgment provides that the Court retains jurisdiction over this action, and the parties may apply to the Court for such order as may be necessary or appropriate for its modification, interpretation or enforcement.

## VII

ALTERNATIVES TO THE PROPOSED CONSENT  
JUDGMENT

The alternative to the proposed Judgment was a full trial of the issue on the merits and on relief. The Antitrust Division considers the substantive language of the Final Judgment to be of sufficient scope and effectiveness to make litigation on the issues unnecessary, as the Judgment provides appropriate relief against the violations charged in the Complaint.

## VIII

## OTHER MATERIALS

No materials and documents of the type described in Section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16) were considered in formulating this proposed Judgment. Consequently, none are submitted pursuant to such Section 2(b).

Dated: December 18, 1978.

Robert A. McNew, Donald Ferguson, Attorneys, Department of Justice, Antitrust Division, 26 Federal Plaza, Room 3630, New York, New York 10007.

NUCLEAR REGULATORY  
COMMISSION

## ABNORMAL OCCURRENCE EVENT

## Loss of Containment Integrity

Section 208 of the Energy Reorganization Act of 1974, as amended, requires the NRC to disseminate information on abnormal occurrences (i.e., unscheduled incidents or events which the Commission determines are significant from the standpoint of public health and safety). The following incidents were determined to be abnormal occurrences using the criteria in a Policy Statement published in the FEDERAL REGISTER on February 24, 1977 (42 FR 10950). Appendix A (Example II.A.2) of the Policy Statement notes that a major degradation of the primary containment boundary can be considered an abnormal occurrence. The following description of the events also includes the remedial actions taken.

**Date and Place.** On July 26, 1978, the Northeast Nuclear Energy Company (NNECO) reported to the NRC an event at Millstone Unit No. 2, a pressurized water nuclear plant located in New London County, Connecticut. On September 8, 1978, the Public Service Electric and Gas Company (PSE&G) reported a similar event at Salem Unit No. 1, a pressurized water nuclear plant located in Salem County, New Jersey.

**Nature and Probable Consequences.** The events reported at Millstone Unit No. 2 and Salem Unit No. 1 involved loss of automatic valve closure capability for certain large sized isolation valves in the containment ventilation systems while the valves were open for containment purging operations. Such loss of closure capability significantly degraded both the containment and the ECCS capability for extended time periods (hours to days) in some cases while the units were operating at power. The automatic closure feature was lost because the signals which are intended to initiate automatic closure under certain accident conditions were either bypassed or overridden and

therefore ineffective. Normal purging activities do not require the negating of any automatic closure signals.

No radiological accidents occurred during these periods and therefore these safety features were not challenged. However, if a design basis Loss of Coolant Accident (LOCA) had occurred under these conditions, the off-site consequences would have increased above those anticipated with the automatic containment isolation valve closure feature operable. In addition, as described below, the performance of the Emergency Core Cooling Systems (ECCS) may have also been degraded due to a decrease in the pressure buildup inside the containment during the accident. Specifically, two of many safety features at nuclear power plants are the containment systems and the emergency core cooling systems (see Figure 1). The containment systems include a large thick-walled building or vessel surrounding the reactor and its primary coolant system which is designed to be a leak tight enclosure to limit accidental releases of radioactivity to the environment. The emergency core cooling systems (ECCS) are designed to automatically supply water to the reactor core to mitigate the consequences of postulated accidents where the normal cooling water is lost.

Containment buildings are designed with ventilation, or purging, systems which can add fresh air and exhaust the containment atmosphere to maintain the temperature, humidity, pressure and the radioactivity levels within acceptable limits. These systems must be isolated to provide for containment integrity, when needed. For this purpose, each purge inlet and outlet pipe has two isolation valves, as do the other containment penetrations. These valves, which are permitted to be opened for purging during normal plant operation, are designed to automatically close in a very short time period, if needed for containment isolation. At many of the operating nuclear power plants, the normal containment purge systems use large pipes—ranging from two feet to more than five feet in diameter.

PRESSURIZED WATER REACTOR  
CONTAINMENT VENTILATION SYSTEMS

(SIMPLIFIED DIAGRAM)

FIGURE 1

Purging does not occur continually at these plants (i.e., the containment isolation valves are normally closed). As mentioned earlier, when containment isolation valves are opened for purging, the automatic valve closure signals are normally operable. A containment isolation actuation signal, such as the containment high radiation signal, would then initiate rapid closing of the valves well within the design basis assumptions. The off-site consequences of any radioactive releases to the environs would be as "realistically" evaluated in the Environmental Impact Statement. However, in the unlikely event of a postulated design basis loss of coolant accident (LOCA) while purging with these containment valves open and their closure signals inoperative, the containment would have an unacceptably high leakage rate of radioactivity to the environment. This increased containment leakage rate would also result in a reduced containment pressure buildup during the postulated accident which, in turn, could degrade the ECCS performance. Parametric calculations indicate that the low containment pressure would result in a calculated reduction in core reflood rate and heat removal capability and would lead to higher calculated fuel cladding temperatures.

If the LOCA occurred while purging with the valve closure signals negated, although operator action may result in a decrease in the radioactive release to the environs, it is unlikely that operator action could be taken in time to close the valves to prevent degraded ECCS performance since (1) blowdown would be complete and peak containment pressure would be reached in approximately one to two minutes, and (2) there would be no indication to the operator that the valve closure signals had been bypassed. The only means the operator would have had to identify the valve status would be the valve position indication. Even if the operator were to take manual action, it is questionable whether the valves would be able to close against the postulated blowdown flow rate through the penetrations several minutes following the accident. However, if the operator were to manually close the valves within seconds following the accident, it is unlikely that the pressure buildup would be sufficient to result in blowdown forces that would affect the closure capability of the valves.

The details of the two reported events were:

**Millstone Unit No. 2 Event.** During a review of operating procedures on July 25, 1978, the licensee discovered that since May 1, 1978, intermittent containment purge operations had been conducted with the isolation signals to

the redundant containment isolation valves in the purge inlet and outlet (48 inch butterfly valves) manually overridden and inoperable. The isolation signals were manually overridden to purge the containment with a "high radiation" signal present—see further details below. (This high radiation signal was actually a low value set to initiate actions in a conservative manner.) The manual override circuitry not only defeated the "high radiation" actuation signal to close these valves, but also bypassed all other isolation signals to these valves. The operator had no indication that this bypass condition existed and, consequently, was not aware that operator action would be required to close the valves in the event of an accident.

From May 1 to July 25, 1978 (about 2,000 hours), the containment of Millstone Unit No. 2 was purged to reduce radioactivity levels, for interim periods ranging from 5 minutes to 31 hours, with purging occurring for approximately 9% (180 hours total) of the total time period. For each purge, the levels of radioactivity released to the environment were monitored and were within Technical Specification requirements. However, the regulations and specifically the plant Technical Specifications both require the containment isolation valves in lines that open directly to the containment atmosphere be capable of automatic closure during purging or other operations, or such lines must be acceptable on some other defined basis to mitigate the potential consequences of postulated design basis accidents.

**Salem Unit No. 1 Event.** On September 8, 1978, the NRC was advised that, as a matter of routine, Salem Unit No. 1 has been "venting" the containment through the containment ventilation system valves to reduce pressure. In certain instances, this venting has occurred with the containment "high particulate" radiation monitor isolation signal overridden to the purge valves (36 inch diameter valves) and pressure-vacuum relief vent valves (10 inch diameter valves). Override of the containment isolation signal was accomplished by resetting the train A and B reset buttons. Under these circumstances, six valves in the containment vent and purge systems could be opened with a high particulate isolation signal present. This override was performed after verifying the actual containment particulate radiation levels were acceptable for venting. The licensee, after further investigation of this practice, determined that the reset of the particulate alarm also bypasses the containment isolation signal to the purge valves and the vent valves and, therefore, these valves would also not have automatically closed as required in the event of a signal to initiate emergency core cooling.

To manually override a safety actuation signal, the operator cycles the valve control switch to the closed position and then to the open position. This action energizes a relay which overrides the safety signal and allows manual operation independent of any safety actuation signal. This circuitry is designed in this manner to permit reopening of certain valves after an accident to allow manual operation of safety equipment.

These buttons reset the logic circuits (train A and train B) associated with containment isolation.

The licensee had modified its procedures to preclude venting of the containment through the purge valves when the containment "high particulate" alarm exists.

**Cause or Causes.** The events resulted from procedural inadequacies and design deficiencies. While the containment atmospheres were properly sampled and the purging (venting) discharges that actually occurred were within regulatory requirements, the procedures did not adequately address the operability of the isolation valves and the limitations on negating the closure signals. The requirements for having the valves capable of closing automatically were not discussed, nor were the related Technical Specifications referenced, in the procedures. Although not a requirement, to do so is good practice. Design deficiencies contributed to the event in that (1) bypassing one safety signal also bypassed other safety signals, and (2) the use of this bypass was not annunciated in the control room.

#### ACTION TAKEN TO PREVENT RECURRENCE LICENSEES

**Northeast Nuclear Energy Company (NNECO).** The immediate corrective action taken by NNECO, at Millstone Unit No. 2, was to close, deenergize and administratively remove the containment purge valves from service (tag out). Future NNECO actions include the development of procedure revisions and submission of proposed changes to the Millstone Unit No. 2 Technical Specifications. These changes would allow somewhat higher containment radiation monitor setpoints, still based on remaining well within allowable effluent release limits, which will permit containment purging over a wide range of normal containment conditions without overriding the "high radiation" signal or any other signal.

**Public Service Electric and Gas Company (PSE&G).** The immediate corrective action taken by PSE&G at Salem Unit No. 1, was to stop venting when override of the valve closure signals is involved. In addition, PSE&G initiated design changes such that the isolation valves will be closed automatically by a signal actuating the

emergency core cooling systems even if the containment radiation monitor alarms are overridden.

**NRC.** The NRC has previously reviewed the practice of purging containment during operation and, in 1975, revised its licensing program for new plants by restricting purging during operation.

In a related instance in May, 1976, Commonwealth Edison Company reported that they had stopped the practice of purging containment during operation at Zion Stations having determined that a safety analysis had not been performed to assess the effect of purge valve closure time upon ECCS performance. Preliminary calculations by Commonwealth Edison Company indicated that containment pressure would fall below that assumed for the design basis loss of coolant accident and that the existing analysis therefore not conservative. The NRC review of this event concluded that the effect of purging upon ECCS performance was generic to many operating reactors. However, the significance of this event for public health and safety was determined to be minor when evaluated on more realistic bases, i.e., automatic valve closure times on the order of 5 to 10 seconds, with peak pressure in containment being reached on the order of 1-2 minutes. This item was therefore given relatively low priority for resolution.

Now based on an assessment of these events, the NRC believes that tighter controls are warranted on purging and venting operations to assure containment integrity at these two and other nuclear power plants.

In addition to reviewing the licensee's corrective actions for these events the NRC staff is reviewing the generic implications for other facilities.

All operating reactor licensees, whose Technical Specifications do not prohibit purging during operation, are being requested to commit to stop purging during operation or to provide a basis why purging during operation should be permitted. The staff basis for allowing limited purging through fast closing valves during operation will be a demonstration of the capability of the valves to close under postulated accident conditions and a Technical Specification limitation of 90 hours per year for purging during operation. The staff basis for allowing unlimited purging through fast closing valves during operation will require: (1) demonstration of the capability of the valves to close under postulated accident conditions, (2) an assessment demonstrating the acceptability of purging during operation upon emergency core cooling system performance, (3) containment purge and isolation instrumentation, and control cir-

cuit designs which conform to the appropriate safety standards (IEEE Standard 279-1971), and (4) an assessment demonstrating acceptability of the radiological consequences of the design basis loss of coolant accident initiated during purge operations.

Also, all licensees are being requested to review all safety actuation signal circuit designs which incorporate a manual override, or negating, feature to insure (1) that override of a single safety actuation signal does not bypass other safety actuation signals, and (2) that the use of the manual override feature is appropriately enunciated in the control room. Licensees will be required to report the results of their review and their corrective actions for any non-conforming circuits.

In addition, all licensees are being advised of the necessity for proper management controls for the use of manual override of safety signals during non-emergency conditions. NRC will, through their inspection program, assure that licensees have initiated appropriate follow-up action.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,  
Secretary of the Commission.

Dated at Washington, D.C. this 20th day of December, 1978.

#### INTERNATIONAL ATOMIC ENERGY AGENCY DRAFT SAFETY GUIDE

##### Availability of Draft for Public Comment

The International Atomic Energy Agency (IAEA) is developing a limited number of internationally acceptable codes of practice and safety guides for nuclear power plants. These codes and guides will be developed in the following five areas: Government Organization, Siting, Design, Operation, and Quality Assurance. The purpose of these codes and guides is to provide IAEA guidance to countries beginning nuclear power programs.

The IAEA Codes of Practice and Safety Guides are developed in the following way. The IAEA receives and collates relevant existing information used by member countries. Using this collation as a starting point, an IAEA Working Group of a few experts then develops a preliminary draft. This preliminary draft is reviewed and modified by the IAEA Technical Review Committee to the extent necessary to develop a draft acceptable to them. This draft Code of Practice or Safety Guide is then sent to the IAEA Senior Advisory Group which reviews and modifies the draft as necessary to reach agreement on the draft and then forwards it to the IAEA Secretar-

iat to obtain comments from the Member States. The Senior Advisory Group then considers the Member State comments, again modifies the draft as necessary to reach agreement and forwards it to the IAEA Director General with a recommendation that it be accepted.

As part of this program, Safety Guide SG-05, "Radiological Protection During Operation of Nuclear Power Plants," has been developed. The Working Group, consisting of Mr. E. Hladky, Czechoslovak Socialist Republic; Mr. P. Jeanson, France and Mr. Lionel Lewis (Duke Power Company), United States of America, developed the initial draft of this Safety Guide from an IAEA collation during a meeting on May 16-27, 1977. The initial Working Group draft was modified by the IAEA Technical Review Committee in subsequent meetings, and we are soliciting comments on the modified November 28, 1978 draft. Comments on this draft received by February 9, 1979 will be useful to the U.S. representatives to the Technical Review Committee and Senior Advisory Group in evaluating its adequacy prior to the next IAEA discussion.

Single copies of this draft may be obtained by a written request to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

(5 U.S.C. 522(a))

(Dockets Nos. 50-245 and 50-336)

#### NORTHEAST NUCLEAR ENERGY CO., ET AL Issuance of Amendments To Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 56 and 45 to Provisional Operating License No. DPR-21 and Facility Operating License No. DPR-65, respectively, to Northeast Nuclear Energy Company, The Connecticut Light and Power Company, The Hartford Electric Light Company, and Western Massachusetts Electric Company, which revised Technical Specifications for operation of the Millstone Nuclear Power Station, Units Nos. 1 and 2, located in the Town of Waterford, Connecticut. The amendments are effective as of their date of issuance.

The amendments revise the Appendix A Technical Specifications for Unit No. 2 only by:

- changing the refueling water storage tank sump recirculation actuation setpoint;
- revising the engineered safety features response times;
- modifying the incore detector operability requirement to be more definitive and to remove unnecessary requirements;
- correcting the required number of redundant meteorological monitoring instruments;
- modifying the action requirements for operability of the control room chlorine detectors;
- defining "immediate" in certain ACTION statements and revising other specified time intervals;
- correcting the pressure at which the safety injection tank isolation valves must be operable;
- increasing the amount of TSP required to neutralize the containment sump;
- changing the wording to indicate that specific doorways in the enclosure building have only one door;
- requiring verification of proper operation of the diesel generator under simulated emergency conditions; and
- adding surveillance requirements for ECCS throttled valves.

The amendments revise the Appendix A Technical Specifications for both Units 1 and 2 by:

- changing administrative controls to reflect current organizational structure; and
- providing greater flexibility regarding entry into high radiation areas.

The applications for the amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendments dated July 21, October 4, 12, and 18, November 14, 16, and 21,

and December 13, and 15, 1977, and January 12 and 24, February 23, and March 20 and 21, 1978, (2) Amendments Nos. 56 and 45 to Licenses Nos. DPR-21 and DPR-65, respectively, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 8th day of December 1978.

For The Nuclear Regulatory Commission.

ROBERT W. REID,  
Chief, Operating Reactors  
Branch No. 4 Division of Operating Reactors.

#### [7590-01-M]

NUCLEAR ENGINEERING CO., INC.

(Docket No. 27-39)

In the matter of NUCLEAR ENGINEERING COMPANY, INC., (Shelfield, Illinois Low-Level Radioactive Waste Disposal Site).

It is ordered that oral argument be scheduled in this proceeding commencing at 12:30 p.m. on Thursday, January 4, 1979. This argument will be held at the Public Hearing Room, 5th Floor, East-West Towers, 4350 East-West Highway, Bethesda, Maryland 20014.

The matters to which argument is to be directed are both parts of Applicant's motion to compel filing of a draft environmental impact statement. Also to be discussed is the scheduling of a prehearing conference.

The time allotted to the parties is forty-five (45) minutes each to Applicant's and NRC Staff's attorneys, and thirty (30) minutes each to the intervenors' attorneys.

Dated at Bethesda, Maryland This 19th day of December 1978.

For The Atomic Safety And Licensing Board.

#### [7590-01-M]

(Docket No. 50-278)

PHILADELPHIA ELECTRIC CO. ET AL.

Issuance of Amendment to Facility Operating License

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 49 to Facility Operating License No. DPR-56 issued to Philadelphia Electric Company, Public Service Electric Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station, Unit No. 3 (the facility) located in Peach Bottom, York County, Pennsylvania. The amendment is effective as of its date of issuance.

The amendment consists of changes in the Technical Specifications to revise, on an interim basis, the maximum allowable time permitted for the Reactor Core Isolation Cooling System (RCIC) to be out-of-service.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 13, 1978, (2) Amendment No. 49 to License No. DPR-56, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document room, 1717 H Street, N.W., Washington, D. C., and at the Government Publications Section, State Library of Pennsylvania, Education Building, Commonwealth and Walnut Streets, Harrisburg, Pennsylvania. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 15th day of December 1978.

For The Nuclear Regulatory Commission.

THOMAS A. IPPOLITO,  
Chief, Operating Reactors  
Branch No. 3, Division of Operating Reactors.

#### [7590-01-M]

(Docket Nos. 50-443A and 50-444A)

PUBLIC SERVICE CO. OF NEW HAMPSHIRE, ET AL.

Receipt of Attorney General's Advice and Time For Filing Of Petitions to Intervene On Antitrust Matters

The Commission has received, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, the following additional advice from the Attorney General of the United States, dated December 19, 1978, with respect to a construction permit application for Seabrook Nuclear Power Station, Units No. 1 and No. 2:

You have requested our further advice pursuant to Section 105c of the Atomic Energy Act of 1954, as amended, in regard to the above-captioned application. The Department previously rendered advice respecting this application on December 4, 1973 and November 13, 1975. We understand that the Massachusetts Municipal Wholesale Electric Company (MMWEC) and Maine Public Service Company propose to participate with the Public Service Company of New Hampshire and several other licensees in the Seabrook Nuclear Power Station, Units No. 1 and No. 2. Under the participation plan, MMWEC would obtain a 139.99 megawatt share (or a 5.86238% ownership interest) of the facility, while Maine Public Service Company would acquire a 34.82 megawatt share (or a 1.50009% ownership interest). Both of these applicants underwent successful antitrust review by the Department as reported in my letter of August 27, 1977, in connection with the Millstone Nuclear Power Station, Unit No. 3, NRC Docket No. 50-423A. MMWEC also underwent affirmative antitrust review, as communicated in my letter of April 20, 1978, in connection with the Pilgrim Nuclear Generating Station, Unit No. 2, NRC Docket 50-471A.

Our review of the information submitted for the proposed additional participants, as well as other relevant information, has disclosed no basis upon which to change our previous conclusion that no antitrust hearing will be required regarding this nuclear facility.

Any person whose interest may be affected by this proceeding may, pursuant to section 2.714 of the Commission's "Rules of Practice," 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed by January 26, 1979, either (1) by delivery

to the NRC Docketing and Service Branch at 1717 H Street, NW, Washington, DC or (2) by mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, ATTN: Docketing and Service Branch.

For the Nuclear Regulatory Commission.

JEROME SALTZMAN,  
Chief, Antitrust and Indemnity  
Group, Office of Nuclear Reactor Regulation.

#### [7590-01-M]

(Docket No. 50-312)

SACRAMENTO MUNICIPAL UTILITY DISTRICT;  
RANCHO SECO NUCLEAR GENERATING STATION

EXEMPTION

#### I.

The Sacramento Municipal Utility District (the licensee), is the holder of Facility Operating License No. DPR-54 which authorizes the operation of the nuclear power reactor known as Rancho Seco Nuclear Generating Station (the facility) at steady state reactor power levels not in excess of 2772 megawatts thermal (rated power). The facility consists of a Babcock and Wilcox Company (B&W) designed pressurized water reactor (PWR) located at the licensee's site in Sacramento County, California.

#### II.

In accordance with the requirements of the Commission's Emergency Core Cooling System (ECCS) Acceptance Criteria, 10 CFR 50.46, the licensee submitted on July 8, 1975, an ECCS evaluation for the facility. The ECCS performance submitted by the licensee was based upon an ECCS Evaluation Model developed by B&W, the designer of the Nuclear Steam Supply System for this facility. The B&W ECCS Evaluation Model had been previously found to conform to the requirements of the Commission's ECCS Acceptance Criteria, 10 CFR Part 50.46 and Appendix K. The evaluation indicated that with the limits set forth in the facility's Technical Specifications, the ECCS cooling performance for the facility would conform with the criteria contained in 10 CFR 50.46(b) which govern calculated peak clad temperature, maximum cladding oxidation, maximum hydrogen generation, coolable geometry and long-term cooling.

On April 12, 1978, B&W informed the Commission that it had determined that in the event of a small break Loss of Coolant Accident

(LOCA) on the discharge side of a reactor coolant pump, high pressure injection (HPI) flow to the core could be reduced somewhat. Subsequent calculations indicated that in such a case the calculated peak clad temperature might exceed 2200°F.

Previous small break analyses for B&W 177 fuel assembly (FA) lowered loop plants had identified the limiting small break to be in the suction line of the reactor coolant pump. Recent analyses have shown that the discharge line break is more limiting than the suction line break.

The Rancho Seco Nuclear Generating Station has an ECCS configuration which consists of two HPI trains. Each train has an HPI pump and the train injects into two of the four reactor coolant system (RCS) cold legs on the discharge side of the RCS pump. (There is also a third HPI pump installed.) The two parallel HPI trains are connected but are kept isolated by manual valves (known as the crossover valves) that are normally closed. Upon receiving a safety injection signal, the HPI pumps are started and valves in the four injection lines are opened. Assuming loss of offsite power and the worst single failure (failure of diesel to start) only one HPI pump would be available and two of the four injection valves would fail to open.

If a small break is postulated to occur in the RCS piping between the RCS pump discharge and the reactor vessel, the high pressure injection flow injected into this line (about half of the output of one high pressure pump) could flow out the break. Therefore, for the worst combination of break location and single failure, only one-half of the flow rate of a single high pressure ECCS pump would contribute to maintaining the coolant inventory in the reactor vessel. This situation had not been previously analyzed and B&W had indicated that the limits specified in 10 CFR 50.46 may be exceeded.

Following discovery of this problem, B&W stated that they had analyzed a spectrum of small breaks in the pump discharge line and had determined that to meet the limits of 10 CFR 50.46, operator action was required to open the two manually operated crossover valves and to manually align the two motor driven isolation valves which had failed to open. This would allow the flow from the one HPI pump to feed all four reactor coolant legs. B&W assumed that 30% of the flow would be lost through the break and 70% would refill the core. By letters dated April 14 and 21, 1978, supplemented by discussions with the staff, the licensee committed to provide for the necessary operator actions within the required time frame. That is, in the event of a small break and a limit-

ing single failure, manual action would be taken to begin opening these valves within five minutes and have them fully opened and an adequate flow split obtained within 10 minutes after initiation of the event. To facilitate this operation, the licensee committed to maintain one of the series-connected, manually operated crossover valves normally open. The analyses performed by B&W assumed that the flow split was established at 650 seconds by operator action. We therefore concluded that the modeling of operator action used in the analyses was a reasonable approximation of the operator action that actually will be taken, provided specific procedures were prepared and followed to assure such action.

By letter dated July 18, 1978, B&W submitted a summary of analyses of this event. This summary described the methods used and the results obtained for small breaks in the pump discharge piping for a reactor power of 2772 Mwt, which is the rated power level of Rancho Seco. The results provided in this summary were obtained using the B&W ECCS Evaluation Model with two modifications. These modifications, which involve use of a two node inner vessel simulation and phase distributional multipliers for bubble rise in all control volumes within the reactor vessel, were described in a B&W letter to the staff, dated May 26, 1978, and have been reviewed and approved by the staff.

By letter dated July 18, 1978, the licensee stated that he had reviewed the B&W submittal of July 18, 1978, and had found the conclusions acceptable and applicable to Rancho Seco. Based on this review, the licensee requested authorization to operate Rancho Seco at 100% full power (2772 Mwt).<sup>\*</sup> In a submittal dated July 7, 1978, the licensee also confirmed that procedures for operator action consistent with the assumptions of the B&W analyses had been implemented, that drills had been conducted which verified that the required operations could readily be completed in less time than assumed in the B&W analyses and that all five operating shifts had been trained in the procedures. Representatives of the Commission's regional office state that they have verified the licensee's implementation of the procedures and have inspected the licensee's training records to verify that training in the procedures was conducted. Based on the above, we concluded that the procedures implemented by the licensee relative to operator action in the event of a small break

<sup>\*</sup> In a previous licensing action related to this matter the maximum power level of Rancho Seco had been limited to 2080 Mwt by the Commission's Order for Modification of License dated April 26, 1978.

are acceptable. In addition, in his letter dated April 21, 1978, the licensee committed to submit by July 21, 1978, a proposal for any long-term modification (to eliminate the need for prompt operator action) considered appropriate.

Regarding the licensee's request for authorization to operate the facility at full power (2772 Mwt), we reviewed the B&W submittal of July 18, 1978, which presented the results of analyses performed for reactor coolant pump discharge line break sizes 0.15, 0.10, 0.085, 0.07, 0.055 and 0.04 ft<sup>2</sup> at a reactor power level of 2772 Mwt. Based on these results, B&W stated that with operator action consistent with that modeled in the analyses, a 0.07 ft<sup>2</sup> discharge line break is the most limiting case. In this case, core uncover occurs for about 410 seconds and the conservatively calculated peak clad temperature is approximately 1092°F. This temperature is well below the limit specified in 10 CFR 50.46(b).

Based on our review of these analyses, we found that the calculations supported the conclusion that 0.07 ft<sup>2</sup> discharge line break was the most limiting case. The analyses submitted used a simplified input to the FOAM code for the distribution of steam sources which the licensee described as conservative. However, these analyses did not provide adequate justification that this approach was clearly conservative. Accordingly, we could not conclude that operation of Rancho Seco at 2772 Mwt would be fully in conformance with 10 CFR 50.46. On the other hand, for operation of this facility at power levels up to 2772 Mwt, the ECCS performance calculations for limiting small break did indicate that this break had a very substantial margin on peak clad temperature below the limits of 10 CFR 50.46(b) if operator action consistent with that assumed in the analyses was properly taken. Therefore, because of this very substantial margin on peak clad temperature, the NRC staff concluded that operation of Rancho Seco at power levels of up to 2772 Mwt in accordance with the operating procedures previously identified would not endanger life or property or the common defense and security. The licensee conditions previously imposed by Order of April 26, 1978, were therefore modified to: (1) require submission of a reevaluation of ECCS cooling performance wholly in conformance with 10 CFR 50.46, except for the credit for completion of operator action within 10 minutes after initiation of the event; (2) limit the maximum steady state reactor core power level to 2772 Mwt; (3) require operation in accordance with procedures described in the licensee's letters of April 14, 1978, as supplemented by let-

ters dated April 21 and July 7, 1978 (except that the maximum time for completion of operator action was 10 minutes); and (4) require submission as soon as possible of a description and safety evaluation of a proposed plant modification which would eliminate reliance on prompt operator action. These conditions were added to the Rancho Seco license by Order for modification of License dated July 21, 1978. Since that time, B&W has provided in their letter of August 11, 1978 additional information concerning the simplified input used in the FOAM code portion of the ECCS performance analyses submitted July 18, 1978. The staff has reviewed this additional information and on the basis of its review has concluded that the small break LOCA analyses which used this simplified FOAM code input method are acceptably conservative and in conformance with the performance criteria of 10 CFR 50.46 and Appendix K to Part 50. As noted previously, however, these analyses assume completion of the local operator action as described in the licensee's letters of April 14, 21 and July 7, 1978, within ten minutes following the initiation of the event.

The original concern in this matter derived from an unexpected but nevertheless inadequate assessment of a spectrum of breaks. This deviation from 10 CFR 50.46 has been ameliorated on a temporary basis by the actions discussed herein. However, continued reliance on prompt operator action to perform the required steps to assure plant safety over a period of years into the future is undesirable and should be remedied as promptly as possible. To this extent, the original defect still remains until modifications are made to eliminate the reliance on prompt operator actions. To remedy this defect the licensee, in accordance with license Condition 4 of the present Order, submitted on July 20, 1978, a description and safety evaluation of a proposed plant modification which would eliminate reliance on the prompt operator action noted above. Additional information concerning the proposed modification has been supplied by the licensee's letters of October 9, November 22 and December 4, 1978. In addition, in his letters of November 22 and December 4, 1978, the licensee committed to complete implementation of this proposed modification prior to Rancho Seco operation in Cycle 4. Justification for this implementation schedule was provided in the licensee's letter of December 4, 1978.

The licensee, in his letter of November 22, 1978, also requested an exemption from the provisions of 10 CFR 50.46 until such modifications were implemented.

With respect to this request for an exemption, we note that the conclusions drawn in our Order of July 21, 1978 remain valid and have been further supported by our subsequent conclusions regarding the acceptability of the simplified input used in the FOAM code. Accordingly, we conclude that operation of Rancho Seco at power levels up to 2772 Mwt in accordance with the referenced procedures for operator action until modifications are completed to achieve full compliance with 10 CFR 50.46 will not endanger life or property or the common defense and security.

We have reviewed the modification proposed by the licensee to eliminate reliance on prompt operator action. This modification consists of replacement of the AC motors presently installed on the valve operators for the four high pressure injection valves and the reactor coolant normal makeup valve, with similarly qualified DC motors. Because Rancho Seco has four Class 1 battery banks, the proposed change allows the injection and makeup valve operators to be powered from reliable power sources different from those used for the high pressure injection pumps. Accordingly, a single failure would not disable both a pump and its associated injection valves. The licensee has presented a single failure analysis which demonstrates that in the presence of a small break LOCA, no single failure combined with a loss of offsite power would prevent supply of an adequate total flow of cooling water. The licensee will also provide modifications which will limit the degree of opening of the injection valves upon receipt of a high pressure injection signal. This is being done to assure a proper flow split between the four injection lines and to prevent pump runoff. The licensee has committed to perform tests to verify that these criteria are met. The licensee has also provided a battery loading analysis which adequately demonstrates the ability of the battery banks to accommodate this addition load. Therefore, based on our review of the licensee's submittal we conclude that upon installation of the modification, as proposed, and upon completion of testing to verify attainment of the flow split assumed in the B&W analy-

sis of July 18, 1978, the emergency core cooling system will fully conform to the requirements of 10 CFR 50.46.

Thus, while the ECCS for Rancho Seco does not fully comply with our requirements, appropriate actions have been taken to remedy the defect in a timely manner, and to mitigate the consequences of a small break LOCA, should such an accident occur prior to implementation of acceptance modifications. As a condition of granting an exemption, adherence to prescribed operator actions and implementation of the proposed modifications prior to operation in Cycle 4 are being made conditions of the facility operating license. These conditions will remain in force only for the interval of time about one year until the proposed modifications of the ECCS are completed. The public interest is served by issuing this exemption for Rancho Seco in that in the absence of an exemption, shutdown of the facility would be required. Loss of this block of generating capacity could adversely affect electric system reliability and thus possibly adversely affect the public.

### III.

Copies of the following documents are available for inspection at the Commission's Public Document Room at 1717 H Street, Washington, D.C. 20555, and are being placed in the Commission's local public document room at the Sacramento City-County Library, Sacramento, California.

[Docket No. 50-29]

**YANKEE ATOMIC ELECTRIC CO.****Issuance of Amendment to Facility Operating License**

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 54 to Facility Operating License No. DPR-3, issued to Yankee Atomic Electric Company (the licensee), which revised the Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee-Rowe) (the facility) located in Franklin County, Massachusetts. The amendment is effective as of its date of issuance.

The amendment incorporates provisions in the Technical Specifications required for (1) operation of Yankee-Rowe with the refueled Core XIV, (2) performance of subsequent steam generator inspections in accordance with the added Section 3/4.4.10 "Steam Generators", and (3) inclusion of four manual containment isolation valves in Table 3.6-1.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated November 30, 1976 (Proposed Change No. 119, Supplement 1), September 8, 1978 (Proposed Change No. 163) and October 30, 1978 (Proposed Change No. 164), and supplements thereto dated November 10, 1978, two (2) letters dated November

21, 1978, and a letter dated November 27, 1978, (2) Amendment No. 54 to License No. DPR-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Greenfield Community College, 1 College Drive, Greenfield, Massachusetts 01301. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 6th day of December, 1978.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,  
Chief, Operating Reactors  
Branch No. 2, Division of Operating Reactors.

**OFFICE OF MANAGEMENT AND BUDGET****CLEARANCE OF REPORTS****List of Requests**

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on December 18, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the **FEDERAL REGISTER** is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; an indication of who will be the respondents to the proposed collection; the estimated number of responses; the estimated burden in reporting hours; and the name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Man-

agement and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

**POSTAL RATE COMMISSION**

[Docket No. MC78-2]

**THIRD-CLASS DISCOUNT PROPOSAL, 1978****Expanded Issues**

ISSUED: DECEMBER 21, 1978.

On September 8, 1978, the United States Postal Service (Postal Service), pursuant to section 3623 of the Postal Reorganization Act (39 U.S.C. 3623), filed a Request with the Postal Rate Commission for a Recommended Decision on Establishing a Third-Class Carrier Route Presort Subclass. This filing has been assigned Docket No. MC78-2.

Notice of the filing was published in the **FEDERAL REGISTER** on September 18, 1978 (43 FR 41440-41).

Twenty-five parties have been granted status in the proceeding, either as intervenors or limited participants.

On October 18, 1978, the Officer of the Commission (OOC) filed a Petition to Expand the Proceedings in Docket No. MC78-2 to include two additional proposals: (1) To establish a per-piece and a per-pound rate structure for third-class bulk catalogs and circulars.

In addition, on October 26, 1978, the National Easter Seal Society, The National Foundation/March of Dimes, The American Lung Association and the St. Jude's Children Research Hospital (NESS, et al.) filed a petition to enlarge the scope of these proceedings to include consideration of a presortation discount for third class nonprofit bulk rate mail.

By Order Nos. 219 and 221, issued November 22, 1978 and November 24, 1978, respectively, the Commission granted the OOC's and NESS et al.'s petitions to enlarge the scope of the proceeding.<sup>1</sup>

It is the desire of the Commission that all interested persons be given adequate notice of the enlarged proceeding and that those parties who have not previously intervened have the opportunity to do so.

Therefore, notice is hereby given that any party desiring to be heard with reference thereto and to become a party to the proceeding, or to participate as party in any hearing thereon, should file a petition for leave to

<sup>1</sup> See attachments to this Notice.

intervene. Petitions for leave to intervene must be filed with the Secretary, Postal Rate Commission, Washington, D.C. 20268, on or before January 4, 1979, and must be in accordance with section 20 of the Commission's rules of practice (39 CFR 3001.20). We direct specific attention to section 20(b) which provides that petitions for leave to intervene shall affirmatively state whether or not petitioner requests a hearing or, in lieu thereof, a conference; and further, whether or not the petitioner intends to participate actively in the hearing. Alternatively, persons seeking limited participation, but who do not wish to become parties may, on or before January 4, 1979, file a written request for leave to be heard as a "limited participant," pursuant to section 19a of the Commission's rules of practice (39 CFR 3001.19a). In addition, persons wishing to express their views informally, and not desiring to become a party or limited participant, may file comments pursuant to section 19b of the Commission's rules (39 CFR 3001.19b).

The request of the Postal Service for a recommended decision on establishing a third-class carrier route presort subclass, and all docket orders and filings in MC 78-2, are on file with the Commission and are available for public inspection during regular business hours.

By the Commission.

DAVID F. HARRIS,  
Secretary.

THIRD-CLASS DISCOUNT PROPOSAL, 1978  
(Order No. 219; Docket No. MC78-2)

ORDER GRANTING THE OOC'S MOTION TO ENLARGE SCOPE OF PROCEEDINGS

ISSUED: NOVEMBER 22, 1978.

On October 18, 1978, the Officer of the Commission (OOC) filed a petition to expand the proceedings in Docket No. MC78-2 to include two additional proposals. These proposals are to (1) establish a per-piece and a per-pound rate structure for third-class bulk mail and (2) merge the rate structures for third-class bulk catalogs and circulars. The Postal Service and an aggregation of third-class mailers, hereafter collectively referred to as ATCMU, et al., oppose the OOC's petition. Upon review of the petition of the OOC and the answers in opposition to the OOC's motion, we have decided to expand this docket to include the OOC's proposals.

In Docket No. MC76-3, the Commission had before it both of these proposals as well as three discount proposals similar to the Postal Service's proposal in Docket No. MC78-2. In each of the recommended decisions addressing these Docket No. MC76-3

<sup>1</sup> The third-class mailers who jointly oppose the OOC's petition are Associated Third Class Mail Users; Association of American Publishers; Direct Mail/Marketing Association, Inc.; Mail Advertising Service Association (International), Inc.; and Mail Order Association of America.

proposals, the Commission recognized that the various proposals had merit but were unsuitable for immediate adoption because of a lack of data to develop rates.<sup>3</sup> Consequently the Commission recommended against the proposals and the Governors adopted this Commission's recommendations.

In Docket No. R77-1, the OOC proposed that the Commission re-examine the two proposals that are the subject of his petition here. By Order No. 186, issued December 12, 1977, the Commission severed these proposals from Docket No. R77-1, primarily to insure the issuance of an opinion in Docket No. R77-1 within 10 months as required by 39 U.S.C. 3624(c).

As evident from Order No. 186, it was contemplated at the time of issuance of the order that petitions would be filed shortly after the rate case for reconsideration of the proposals.<sup>4</sup> At the time we issued the order severing these proposals, we were, of course, aware that the OOC had filed direct testimony which focused principally upon rate design, i.e., the problems associated with establishing a controlled circulation rate<sup>5</sup> that was lower than bulk third-class mail in all weight increments. However, the Commission's tentative and recommended decisions in Docket No. MC76-3 on these two proposals focused upon the absence of probative cost data. Thus, consistent with our tentative decision addressing the per-piece, per-pound proposal in Docket No. MC76-3, we recommended deferral by Order No. 186 in order to afford the parties an opportunity to develop evidence relating to cost causation, i.e., the determination of which costs for third-class bulk mail are traceable to a piece rate and which costs are traceable to a rate based on weight.

ATCMU, *et al.* contends that the cost data are still unavailable and therefore the OOC's proposal should remain outside this docket. Implicitly, ATCMU argues the only method to obtain the requisite accurate cost data would be through empiric studies, such as time and motion studies.<sup>6</sup> This position is not supported by either Order No. 186 or the Commission's decision in Docket No. MC76-3. In fact, to the contrary it is the Commission's view that as an expert body, it will not be foreclosed from considering proposals as being supported by accurate data when the data rests upon reasoned analyses, predicated upon a combination of elements such as proxies, empiric data and hypotheses.<sup>7</sup>

We find the other objections raised by the Postal Service and ATCMU, *et al.* are not of

sufficient magnitude to overcome the obvious advantages of consolidating into one docket proposals involving the same rates, herein third-class bulk rates. ATCMU, *et al.* suggests that the OOC should petition to open a new docket for consideration of his proposals. This would be a needless exercise. We would consolidate the proposals anyway, to permit the efficient assessment of the impact of each proposal on the other, as for example, the influence of the Postal Service's proposed discount upon the OOC's proposed per-piece rate.<sup>8</sup>

The Postal Service and ATCMU, *et al.* also claim that the inclusion of the OOC's proposals would delay the rendering of a decision on the Postal Service's discount proposal or otherwise cause the proceeding to be conducted with such expedition that full and fair consideration of the proposals will not be possible.

These arguments are not persuasive. Unlike rate cases, such as Docket No. R77-1, the Postal Service is empowered to implement the discount proposal on a temporary basis 100 days after filing pursuant to 39 U.S.C. 3641(c). This power to place into effect the proposed discount 100 days after filing nullifies the claim of ATCMU, *et al.* that the expansion of these proceedings will cause a delay that will prevent implementation of a carrier route subclass which "will be beneficial to USPS and to mail users" (Answer of ATCMU, *et al.*, p. 6).

In any event, we do not foresee any significant delay arising from expanding these proceedings to include the OOC's proposals. As indicated above, the gravity of a delay is not great in view of the Postal Service's power to implement its discount proposal on a temporary basis. If any party is of the opinion that the extant procedural schedule will not allow adequate time for a full and fair hearing on the OOC's proposals, it may petition the presiding officer for appropriate modifications of the procedural schedule. If the presiding officer finds merit in any such petition, he may modify the procedural schedule accordingly. At present, it is our view that the extant procedural schedule allows sufficient latitude to make any modifications necessary in order to provide a full and fair hearing and still reach the conclusion of the proceedings by May 1, 1979, as originally planned.

The Commission orders:  
The OOC's petition to enlarge the scope of these proceedings is granted.

By the Commission.

DAVID F. HARRIS,  
Secretary.

#### THIRD-CLASS DISCOUNT PROPOSAL, 1978

[Order No. 221; Docket No. MC78-2]

ORDER GRANTING MOTION TO ENLARGE SCOPE OF THE PROCEEDINGS TO INCLUDE CONSIDERATION OF A DISCOUNT FOR THIRD-CLASS NON-PROFIT BULK RATE MAIL.

ISSUED NOVEMBER 24, 1978.

On October 26, 1978, the National Easter Seal Society, The National Foundation/March of Dimes, the American Lung Association and the St. Jude Children's Research Hospital (hereinafter NESS, *et al.*) filed a petition to enlarge the scope of these pro-

<sup>3</sup>In this regard we request, if warranted, that the OOC present alternative schedules, one with the proposed presort discount and the other without the presort discount.

ceedings to include consideration of a presortation discount for third-class nonprofit bulk rate mail. In support of its motion the parties cite Commission Order Nos. 179 (September 23, 1977) and 186 (December 12, 1977). Those orders arose out of Docket No. R77-1 and involve the deferral of various related third-class classification issues because of the exigency involved in meeting the 10-month statutory deadline for rate cases (See 39 U.S.C. 3624(c)). In Order No. 186 the Commission stated that after the completion of Docket No. R77-1, it would entertain petitions to commence an omnibus proceeding to consider all the deferred third-class issues.

NESS, *et al.* argue that Docket No. MC78-2 is the ideal vehicle in which to consider their proposal. They state that the data submitted by the Service in this docket are directly relevant to considerations of a carrier-route presort discount for third-class nonprofit mail, and that dealing with all of third-class mail at the same time would maximize economy and minimize confusion for mailers.

Petitioners also allege that denial of the instant motion would constitute discrimination against third-class nonprofit mail and a preference to third-class regular rate mail, citing 39 U.S.C. 403(c). This would occur because there is no alternative forum in which to hear the proposal and the cost of service principles upon which the discount is based are equally applicable to third-class nonprofit mail.

The Postal Service is the only party opposing the motion. It does so both on substantive and procedural grounds. Procedurally, the Service claims that this docket is not the omnibus proceeding contemplated by the Commission in Order No. 186 since such a proceeding would require exploration of data and issues totally unrelated to its proposal in this docket. It refers to its answer to the OOC's motion to enlarge the issues<sup>9</sup> where it contended that expanding the issues would delay the proceedings.

On substantive grounds, the Service raises two issues: (1) Whether the Commission has the authority to revise the Congressionally-established categories of mail entitled to preferred rates under 39 U.S.C. 3626; and (2) that consideration of the NESS, *et al.* proposal would be unfair to the majority of nonprofit mailers who could not meet the presort requirements and would be forced to pay higher rates in order to meet the Service's revenue requirements.<sup>10</sup> On the first issue, the Service suggests that the splitting of the third-class nonprofit subclass may well be beyond the Commission's authority and, in any case, runs contrary to Congressional and Commission policy to simplify the mail classification schedule. The second issue is raised by the Service because, unlike third-class regular rate mail which makes a contribution to institutional costs, nonprofit mail only pays its attributable costs. While the Service expects to maintain the same revenues for third-class bulk regular rate

<sup>9</sup>In Order No. 219 (November 22, 1978), the Commission granted the OOC's motion to expand the issues in this case to include, *inter alia*, consideration of adopting a per-piece and per-pound rate structure.

<sup>10</sup>See page 1, fn. 1, *supra*. Considerations of delay have been adequately dealt with in Order No. 219 and need not be repeated here.

<sup>11</sup>The Service also claims that NESS *et al.* do not represent these mailers.

mail on account of the incremental revenues from new volume, any reduction in rates for nonprofit carrier route presorted mail would require an increase in the rates for that nonprofit mail not presorted to carrier routes.

Upon consideration of all the arguments, the Commission has decided to grant the motion.

When the Commission issued Order No. 186, it had no assurance that the Service would be filing a third-class presort discount proposal with the Commission. Therefore, it was contemplated that, as relevant data became available through the study program in Docket No. MC76-5, the Commission would entertain proposals for a third-class presort discount for both regular-rate and nonprofit mail, as well as any other relevant rate structure changes involving third-class. It was expected that such a proceeding could start up shortly after Docket R77-1 was completed. We do not see how the filing under consideration in this case could nullify the opportunities for other parties to petition for alternative changes, such as the ones discussed by the Commission in Order No. 186. When the Commission severed various issues from Docket R77-1 because of the need for expedition, it promised a future forum for those issues. From a procedural point of view, the Service has raised no arguments which would cause us to deny to NESS *et al.* the opportunity to litigate its proposals in this docket.

Concerning the Commission's authority to realign the preferred rate subclasses, that issue was raised in Docket No. MC76-2,<sup>11</sup> concerning the OOC's proposal to merge some of the second-class preferred rate categories. The Commission analyzed the legislative history, the policies of the Act, and the wording of the relevant statutes, and found—as a legal matter—that the wording of 39 U.S.C. 3626 does not bar a merger of the preferred rate categories.<sup>12</sup> Although our previous opinion is not dispositive of this issue, this legal question should not be a bar to Commission consideration of an otherwise relevant issue. Of course, after the development of a complete record, the Commission still might find that it does not have the requisite authority to effectuate the proposal in question.

We find that the Service's argument with respect to the "unfairness" of the proposal to small nonprofit mailers to be unpersuasive. The notion that some mailers may pay higher rates as a result of granting a presort discount to nonprofit third-class mail is neither startling nor without precedent. In Docket No. R77-1, the Commission recommended, and the Governors adopted, a multi-tiered second-class rate structure keyed to level of presortation.<sup>13</sup> Under this rate structure, mailers who cannot meet the presort requirements perforce must pay rates which are higher than they would have been under the former rate structure which contained no presort discounts. We

<sup>12</sup>Recommended Decision Concerning Certain Proposals of the Officer of the Commission to Simplify the Classification Structure of Second-Class Mail and the Proposal of the Agricultural Publishers Association to Provide a Rate Preference for the Editorial Portion of Agricultural Publications, Docket No. MC76-2 (March 30, 1978).

<sup>13</sup>However, based on the facts, such a merger was not recommended.

<sup>14</sup>PRC Op. R77-1, pp. 303-32 (May 12, 1978).

found such a result consistent with our cost of service principles, and absent some other considerations which were not extant in R77-1, we would continue to find merit in such a rate structure.

In the same vein, however, we would caution the parties concerning their evidentiary presentations in this case. Before the Commission could grant the NESS, *et al.* proposal, the record would have to contain substantial evidence to support it. Such evidence would likely include a reasonable estimate of the number of pieces of third-class nonprofit mail that would be eligible for a presort discount. We do not know whether the Service has such data, but it may be incumbent upon the proponents of this proposal to conduct a thorough study of the third-class nonprofit market in order to obtain this information. The Commission orders:

The petition of NESS *et al.* to enlarge the scope of these proceedings is granted.

By the Commission.

DAVID F. HARRIS,  
Secretary.

#### SMALL BUSINESS ADMINISTRATION

[PROPOSED LICENSE NO. 09/09-0235]

##### UNIVERSAL INVESTMENT CORP.

Application for a License To Operate as a Small Business Investment Company

Notice is hereby given of the filing of an application with the Small Business Administration (SBA) pursuant to Section 107.102 (1978) by Universal Investment Corporation, 110 E. Ann Street, Carson City, Nevada 89701, for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958 (Act), as amended (15 U.S.C. et seq.).

The proposed officers, directors and principal stockholders are:

Marlow D. Gregers, President, General Manager, Director, 12.5%, 240 Redwood Drive, Pasadena, California 91105.

Beryl B. Stolper, Secretary, Director, 50%, 1000 Kerrigan Drive, Oakland, California 94605.

Roger DuCharme, Vice President, Director, 917 N. Carson Street, Carson City, Nevada 89701.

There will be no additional ten or more percent shareholders.

The SBIC will begin operations with an initial capitalization of \$400,000. They contemplate a plan of operation which centers on a diversified investment policy. The Applicant, a Nevada corporation, intends to primarily make investments in small business concerns located in the State of Nevada.

Matters involved in SBA's consideration of the application include (1) the general business reputation and character of the proposed owners and management, (2) the reasonable prospects for successful operation of the new SBIC under such management (including adequate profitability and financial soundness, in accordance with the Act and Regulations), and (3) whether the proposed licensing action would be in furtherance of the purpose of the Act.

Notice is hereby given that any person may, not later than January 11, 1979, submit to SBA in writing comments on the proposed SBIC to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice will be published in a newspaper of general circulation in Carson City, Nevada.

[8025-01-M]

[Application No. 04/04-5155]

#### UNIVERSAL LENDING OF AMERICA, INC.

Application for a License To Operate as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*), has been filed by Universal Lending of America, Inc. (applicant) with the Small Business Investment Administration pursuant to 13 CFR 107.102 (1978).

The officers, directors and stockholders are as follows:

Paul Backman, President & 17% Stockholder, 8950 N.W. 22nd Ct., Pembroke Pines, Florida 33024.

Jesse Small, Secretary, Treasurer & 50% Stockholder, 2490 Park Road, Hallandale, Florida 33009.  
 Vivian Elmini, Vice President, 3915 Grant Street, Hollywood, Florida 33021.  
 Lewis Levey, 33% Stockholder, 850 N.E. 179th Terrace, North Miami Beach, Florida 33162.

The applicant will maintain its principal place of business at 2450 Hollywood Boulevard, Hollywood, Florida 33006. It will begin operations with \$300,000 of private capital derived from the sale of 300 shares of stock to the persons shown above. It is anticipated that the capitalization will be increased to \$500,000 within one year from the date of issuance of the license by the purchase of additional stock by the present stockholders.

The applicant will conduct its operations in the Greater Hollywood and Broward County areas.

As a small business investment company under Section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA rules and regulations.

Notice is hereby given that any person may, not later than January 11, 1979, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Hollywood, Florida.

## AMISTAD DOT VENTURE CAPITAL, INC.

(Application No. 02/02-5358)

### Application for a License to Operate as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*), has been filed by Amistad DOT Venture Capital, Inc. (applicant) with the Small Business Administration pursuant to 13 C.F.R. 107.102 (1978).

The officers, directors and stockholders of the applicant are as follows: Percy E. Sutton, Chairman of the Board and President, 10 West 135th Street, New York, New York 10037.

Pierre M. Sutton, Vice President, Secretary, Treasurer, Director, 333 East 81st Street, New York, New York 10028.

Sylvia E. Schoultz, Assistant Secretary, Director, 246 West 150th Street, New York, New York 10039.

Inner City Broadcasting, Corporation, 100% Common Stockholder, 801 Second Avenue, New York, New York 10019.

Applicant will maintain its principal place of business at 801 Second Avenue, New York, New York 10019 and will begin operations with \$500,000 of private capital derived from the sale of 5000 shares of common stock to the Inner City Broadcasting Corporation. In addition to the initial private capital being provided by the above mentioned stockholder and subject to SBA approval, the applicant expects to increase its paid-in capital with funds from the Minority Business Resource Center of the Federal Railroad Administration, Department of Transportation.

The applicant will conduct its operations nationwide from its principal place of business in the State of New York and from a branch office in the District of Columbia. Although applicant does not intend to restrict its investments to small business concerns in any particular industry, it does intend to make a concerted effort to finance small business concerns which are in the communications industry and the transportation industry in addition to concerns in the electronics industry.

As a small business investment company to be licensed pursuant to Sec-

tion 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA rules and regulations.

Notice is hereby given that any person may, not later than (15 days from the date of publication of this notice), submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in New York, New York.

## MANSFIELD CAPITAL CORPORATION

(Proposed License No. 01/01-0295)

### Application for a License to Operate as a Small Business Investment Company

Notice is hereby given that an Application has been filed with the Small Business Administration pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1978)), under the name of Mansfield Capital Corporation (Applicant), for a license to operate as a Small Business Investment Company under the provisions of the Small Business Investment Act of 1958, as amended, and the Rules and Regulations promulgated thereunder.

The Applicant was incorporated under the laws of the State of Vermont and it will commence operations

with a capitalization of \$350,000, which amount is to be raised through the sale of 100 percent of the Applicant's issued and outstanding shares of Common Stock, No Par Value, to Stevens-Farrington, Inc., a New Hampshire corporation, which is wholly owned by Stephen H. Farrington, President, Treasurer and Director of the Applicant. Stevens-Farrington, Inc., will have no other assets or liabilities other than its shares of stock in the Applicant and will conduct no other business.

The Applicant will have its principal place of business at Mountain Road, Stowe, Vermont 05672, and it intends to conduct operations primarily in the States of Vermont, Massachusetts, New Hampshire and Maine.

The Officers and Directors of the Applicant will be:

Stephen H. Farrington, President, Treasurer and Director, Notch Brook, Stowe, Vermont.

Bruce Nourjian, Vice President, Secretary and Director, Shaw Hill, Moscow, Vermont.

Matters involved in SBA's consideration of the Applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operations of the Applicant under their management, including adequate profitability and financial soundness in accordance with the Act and SBA Regulations.

Notice is hereby given that any person may not later than (15 days after the date of publication of this Notice), submit written comments on the Applicant to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416. A copy of the Notice shall be published by the Applicant in a newspaper of general circulation in Burlington, Vermont.

## SEAFIRST CAPITAL CORPORATION

(Proposal No. 10/10-01661)

### Application for a License as a Small Business Investment Company

Notice is hereby given of the filing of an application with the Small Business Administration pursuant to § 107.102 of the SBA Regulations (13 CFR 104.102 (1978)), by Seafirst Capital Corporation, Securities Building,

Third Avenue and Stewart Street, Seattle, Washington 98101 for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958 (the Act), as amended (15 U.S.C. 661 *et seq.*).

The proposed officers, directors, and stockholders are:

NAME AND ADDRESS, TITLE AND RELATIONSHIP, AND PERCENT OF OWNERSHIP

William D. Petfit, Jr., President and Director, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Steven G. Blanchard, Vice President and Manager, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Richard D. Bonesteel, Secretary, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Philip L. Wright, Treasurer, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98106.

G. Eric Pucher, Assistant Secretary, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Charles Gleiser, Assistant Treasurer, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

H. Lee Carter, Director, 1001 Fourth Avenue, Seattle, Washington 98154.

James B. Gilchrist, Director, 1001 Fourth Avenue, Seattle, Washington 98154.

William R. Jennings, Director, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Georgene Lee, Director, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Seafirst Mortgage Corporation, Sole Shareholder, 100%, Securities Building, Third Avenue and Stewart Street, Seattle, Washington 98101.

Seafirst Mortgage Corporation is the wholly owned subsidiary of Seattle-First National Bank which is a wholly owned subsidiary of Seafirst Corporation, a publicly held one-bank holding company.

The Applicant proposes to begin operations with a capitalization of \$2,500,000 and will be a source of equity capital and long term loan funds for qualified small business concerns. The Applicant intends to render management consulting services to small business concerns.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed owners and management, and the probability of successful operations of the new company under their management, including adequate profitability and financial soundness, in accordance with the Act and Regulations.

Notice is further given that any person may, not later than (15 days from the date of publication of this Notice), submit written comments on the proposed SBIC to the Deputy Associate Administrator for Investment, Small Business Administration, 1441

"L" Street, N.W., Washington, D.C. 20416.

A copy of this Notice will be published in a newspaper of general circulation in Seattle, Washington.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies)

Dated: December 20, 1978.

PETER F. McNEISH,

Deputy Associate Administrator  
for Investment.

## DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

### NATIONAL ADVISORY COMMITTEE ON UNIFORM TRAFFIC CONTROL DEVICES

#### Open Meeting

Pursuant to Executive Order 11671, the Federal Highway Administration (FHWA) announces the meeting dates and relevant information for the Annual Meeting of the National Advisory Committee on Uniform Traffic Control Devices. The meeting will be held January 10-12, 1979, at the Springfield Hilton, Springfield, Va., as follows:

Wednesday, January 10—Executive Committee Meeting, 7:30 p.m.

Thursday, January 11—Technical Subcommittee Meeting, 8-5 p.m., Research Subcommittee Meeting, 7:30-9:30 p.m.

Friday, January 12—General Session, 8-5 p.m.

Attendance by the public will be limited to space available. For further information contact Robert E. Conner, Executive Director, Office of Traffic Operations, Federal Highway Administration, Washington, D.C. 20590, code 202-426-0411.

Purpose. This Committee reviews currently approved standards, guides, and warrants for traffic control devices including signs, signals, and pavement markings contained in the Manual on Uniform Traffic Control Devices. They recommend revisions of such standards, propose new ones to meet new developments and improvements and provide advice to the Federal Highway Administrator to the end that the Manual shall be at all times, and as far as practicable, a complete and up-to-date presentation of best practices.

Agenda. Technical items proposed for review and discussion at meetings of the respective Subcommittees include the following:

#### SUBCOMMITTEE ON SIGNS

- (a) Clarification of sign legends, PARKING, STANDING, STOPPING.
- (b) Spacing of Chevron alignment signs.

(c) Development of a symbol for POLICE sign legend.

(d) Development of a symbol for motorcycles or trail bikes.

#### (e) TASK FORCE ACTIVITIES AND REPORTS:

1. Sign Symbols
2. Placement of Signs at Intersections
3. Recreational and Motorist Service Signs
4. Placement of Warning Signs
5. CB-9 Monitored Sign
6. R.R. Warning Signs

#### SUBCOMMITTEE ON SIGNALS

(a) Flashing Red Signals for Median Crossovers, IV-9.

(b) Red Arrow for No Right Turns, Sg-98.

(c) Prohibition of Straight Ahead Green Arrow, Sg-112.

(d) Left Turn Displays for Permissive Left Turns, Sg-113.

(e) Alternatives to Full Signalization at School Pedestrian Crossings, Sg-44.

(f) Nonilluminated Pedestrian Signal, Sg-115.

#### (g) TASK FORCE REPORTS

1. Signal Indications, Sequences and Phasing

2. Pedestrian Signal Indications

3. Traffic Control Devices Handbook, Part IV

4. Signal Location and Intensity

5. Signal Warrants

#### SUBCOMMITTEE ON MARKINGS

(a) Colors for Bridge Object Markers.

(b) Use of Narrow Edgelines.

(c) Mandatory Edgelines on Rural Highways.

(d) Evaluation of Drivers Eye Height for Highway Design.

(e) Use of Delineators on Freeway Tangents.

(f) Use and Spacing of Raised Pavement Markers.

(g) Marking Patterns for Freeway Lane Drops.

(h) Use of Dotted Lines Through Entrance/Exit Ramps.

(i) Mandatory Use of Centerline Markings.

(j) Color of Delineators at Freeway Off-Ramps.

#### SUBCOMMITTEE ON CONSTRUCTION & MAINTENANCE

(a) Detour Design Criteria, VI-6.

(b) Maintained Visibility Levels of Channelizing Devices, VI-7.

(c) Handbook, Part VI.

(d) Design of Safety Vests, Cn-35.

(e) Barricade Warning Lights Specification (ITE).

(f) Fluorescent Colors (Red-Orange).

(g) Design of Flaggers Paddle.

#### SUBCOMMITTEE ON GRADE CROSSINGS

(a) Handbook for Part VIII.

(b) Warning Signs on Roads Parallel to a Railroad.

(c) Black Border on Crossbuck Sign.

(d) Stop Signs at Railroad Crossings.

(e) Federal Rules for Developing Uniform Warrant Criteria.

#### RESEARCH SUBCOMMITTEE

(a) Use of Strobe Lights at Railroad/Highway Grade Crossings.

(b) Use of Color Purple for Variable Message Signs.

(c) Detour Design Criteria.

(d) Steady and Flashing Downward Yellow Arrow Lane Control.

(e) Reports on Federally-Coordinated Program Progress.

(f) Experimentation with Tourist Information Sign Legends.

(g) Transportation Research Board Cooperation.

The agenda for the General Session, January 12, includes the following:

(a) Call to Order—Executive Director

(b) Opening Remarks—NAC Chairman

(c) Reports of Officers

(d) Reports and Recommendations of Technical Subcommittees.

(e) Reports and Comments from Members and Other Participants.

Additional items may be added to the agenda items noted with the approval of the Subcommittee Chairmen and within allotted time.

Issued on: December 21, 1978.

J. J. CROWLEY,

Director,

Office of Traffic Operations.

(FR Doc. 78-35930 Filed 12-26-78; 8:45 am)

[4810-25-M]

## DEPARTMENT OF THE TREASURY

Office of the Secretary

### DEBT MANAGEMENT ADVISORY COMMITTEES

#### Meetings

Notice is hereby given, pursuant to section 10 of Pub. L. 92-463, that meetings will be held in Washington on January 30 and 31, 1978, of the following debt management advisory committees:

American Bankers Association  
Government Borrowing Committee  
Public Securities Association  
U.S. Government and Federal Agencies Securities Committee

The agenda for the American Bankers Association Government Borrowing Committee meetings provides for working sessions on January 30 and a report to the Secretary of the Treasury and Treasury staff on January 31.

The agenda for the Public Securities Association U.S. Government and Federal Agencies Securities Committee meetings provides for working sessions on January 30 and a report to the Secretary of the Treasury and the Treasury staff on January 31.

Pursuant to the authority placed in Heads of Departments by section 10(d) of Pub. L. 92-463, and vested in me by Treasury Department Order 190, revised, I hereby determine that these meetings are concerned with information exempt from disclosure under section 552b(c)(4) and (9)(A) of Title 5 of the United States Code, and that the public interest requires that such meetings be closed to the public.

My reasons for this determination are as follows. The Treasury Department requires frank and full advice from representatives of the financial community prior to making its final decision on major financing operations. Historically, this advice has been offered by debt management advisory committees established by the several major segments of the financial community, which committees are utilized by this Department at meetings called by representatives of the Office of the Secretary. When so utilized they are recognized to be advisory committees under Public Law 92-463. The advice provided consists of commercial and financial information given and received in confidence. As such these debt management advisory committee activities concern matters which fall within the exemption covered by section 552b(c)(4) of Title 5 of the United States Code for matters which are "trade secrets and commercial or financial information obtained from a person and privileged or confidential."

Although the Treasury's final announcement of financing plans may or may not reflect the advice provided in reports of these committees, premature disclosure of these reports would lead to significant financial speculation in the securities market. Thus, these meetings also fall within the exemption covered by 552b(c)(9)(A) of Title 5 of the United States Code.

The Assistant Secretary (Domestic Finance) shall be responsible for maintaining records of the meetings of these committees and for providing annual reports setting forth a summary of their activities and such other matters as may be informative to the public consistent with the policy of 5 U.S.C. 552b.

Dated: December 20, 1978.

ANTHONY M. SOLOMON,

Under Secretary

for Monetary Affairs.

## INTERSTATE COMMERCE COMMISSION

### BURLINGTON NORTHERN INC.

(Exception Under Section (a), Paragraph (1), Part (v), Second Revised Service Order No. 1332; Exception No. 8)

Decided December 15, 1978.

To: Burlington Northern Inc.

By the Board.

The Texas Mexican Railway Company (TM) has purchased fifty (50) new boxcars which will be delivered to Burlington Northern Inc. (BN), at Minne-

apolis, Minnesota, for movement to the TM. TM has allowed BN to load these cars at Minneapolis, Minnesota, for movement to the TM. Reduced loadings of these cars on the BN to destinations as directed by TM means the BN will hold some of the cars beyond the 60 hours permitted in Section (a)(2)(ii) of this order prior to placing of cars for loading.

Order. Pursuant to the authority vested in the Railroad Service Board by Section (a)(1)(v) of Second Revised Service Order No. 1332, Burlington Northern Inc., is authorized to assemble and hold up to fifty (50) new Texas Mexican Railway Company (TM) boxcars for loading as directed by TM, regardless of the provisions of Section (a)(2)(ii) of this order.

These cars shall become fully subject to all provisions of Second Revised Service Order No. 1332 when loading is completed and instructions for forwarding are received from the shipper.

Effective December 15, 1978.

Expires January 12, 1979.

JOEL E. BURNS,

Chairman,

Railroad Service Board.

(FR Doc. 78-35858 Filed 12-26-78; 8:45 am)

[7035-01-M]

(Notice No. 145)

### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include request for oral hearing, must be filed with the Commission on or before January 26, 1979. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative in named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable

rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77869, filed October 12, 1978. Transferee: BARLOW TRUCK LINES, INC., Route 2, Warrensburg, MO 64093. Transferor: FARRIS TRUCK LINE, P.O. BOX 224, Fawcett, MO 64448. Applicants' representative: Tom B. Kretsinger, Esq., Kretsinger & Kretsinger, 20 East Franklin, Liberty, MO 64088. Authority sought by transferee to purchase the operating rights of transferor, as set forth in Permit No. MC-138557 (SUB No. 3), issued to Walt Keith Trucking, Inc., and acquired by transferor herein pursuant to MC-P-12977, approved October 18, 1977 and consummated December 14, 1977, as follows: Meat, meat products, and meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 MCC 209 and 766, (except hides and commodities in bulk, in tank vehicles), from the facilities of Dubuque Packing Co., 7, at or near Denison, IA to points in that part of the United States in and east of MN, IA, NE, KS, OK, and TX, under a continuing contract or contracts with World Wide Meats. Transferee presently holds no authority from this Commission. Application has been filed under Section 210a(b).

No. MC-FC-77950, filed December 8, 1978. Transferee: SAWYER CORP., 3761 Wolf Road, Saginaw, MI 48605. Transferor: Walter F. Hutfilz and James A. Hutfilz, d.b.a. Walter F. Hutfilz, 2850 Bay Road, Saginaw, MI 48604. Applicants' representative: Karl L. Gotting, Attorney, 1200 Bank of Lansing Building, Lansing, MI. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-139820 (SUB No. 1), issued June 12, 1975, as follows: Gypsum rock, crushed, ground or pulverized, in bulk, in dump vehicles, from the facilities of the United States Gypsum Company at or near Alabaster, MI to points in IN and OH (except points in Ashtabula, Cuyahoga, Lake, Summit, Muskingum, Licking, Franklin, Wayne, Geauga, Lorain, and Portage Counties, OH). Transferee presently holds authority from this Commission under No. MC-138383. Application has not

been filed for temporary authority under Section 210a(b).

H. G. HOMME, Jr.,  
Secretary.

## SOUTHERN PACIFIC TRANSPORTATION CO.

[Exception under Section (a), Paragraph (1), Part (v) second revised service order No. 1332; exception No. 7, amt No. 1] Decided December 15, 1978.

To: Southern Pacific Transportation Company.

By the Board.

Upon further consideration of Exception No. 7 (Southern Pacific Transportation Company), and good cause appearing therefor:

It is ordered,

Exception No. 7 to Second Revised Service Order No. 1332 is amended to:

Expire December 31, 1978.

Issued at Washington, D.C., December 15, 1978.

JOEL E. BURNS,  
Chairman,  
Railroad Service Board.

[No. MC-C-8619; No. 33745]

## PETITION FOR INVESTIGATION—BUS TERMINAL OF THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

In the matter of Transport of New Jersey; Asbury Park-New York Transit Corporation; Decamp Bus Lines; Hudson Bus Transportation Company, Inc.; Hudson Transit Lines, Inc.; Lakeland Bus Lines, Inc.; Lincoln Transit Company; Manhattan Transit Company; Maplewood Equipment Company; New York-Keansburg-Long Branch Bus Company, Inc.; North Boulevard Transportation Company; Somerset Bus Company, Inc.; Suburban Transit Corporation; and Port Authority of New York and New Jersey—investigation of operations and practices.

AGENCY: Interstate Commerce Commission.

ACTION: Institute investigation and consolidate proceedings.

SUMMARY: Request to institute an investigation into the conditions surrounding the use of the mid-Manhattan bus terminal for interstate motor bus operations granted. Proceedings are consolidated. Scheduled for pre-hearing conference on January 8, 1979, in New York, N.Y.

## FOR FURTHER INFORMATION CONTACT:

Janice M. Rosenak, Harvey Gobetz, Washington, D.C. 20423, (202) 275-7693.

SUPPLEMENTARY INFORMATION: Petitioning motor bus carriers Trailways, Inc., Safeway Trails, Inc., Trailways of New England, Inc., American Bus Lines, Inc., and Continental Edwards Motor Transit Co. as well as numerous individuals working near or using the mid-Manhattan bus terminal have requested that an investigation be instituted to inquire into the manner and method by which motor bus operators serving New York City are compelled to use this terminal and the facilities of the Port Authority of New York and New Jersey. Petitioners asserted that fees paid for use of the terminal are too high and are extortionate in nature and that the facilities are unsafe. The problems associated with the terminal allegedly threaten the continuation of adequate motor bus service.

In an earlier notice (42 FR 67592) interested parties were invited to comment on the following issues: (1) the impact of the method and manner of the terminal's operations upon the interstate motor bus service, (2) the propriety of restrictions limiting motor bus terminal operations to the Port Authority's facility, (3) the charges paid by petitioners for the use of the facility and burdens those charges place upon petitioners' financial outlook, (4) the Commission's jurisdiction, and (5) the appropriate relief. Upon review of these comments it has been determined that an investigation into these matters should be instituted in docket No. 36745.

Docket No. MC-C-8619 was instituted on the Commission's own motion by order served June 16, 1975. Because these investigations involve similar issues which are susceptible of mutual resolution, and because it is in the interest of the Commission and the public to conserve time and resources, the proceedings have been consolidated. A pre-hearing conference has already been scheduled for January 8, 1979, in New York, N.Y.

Dated December 15, 1978.

By the Commission, Division 1, Commissioners Brown, Gresham, and Clapp.

NANCY L. WILSON,  
Acting Secretary.

[FR Doc. 78-36016 Filed 12-26-78; 8:45 am]

Office of the Secretary

[24 CFR Part 20]

[Docket No. R-78-896]

**BOARD OF CONTRACT APPEALS, ESTABLISHING  
PROCEDURES FOR NATIONAL HOUSING  
ACT CONTRACTS**

AGENCY: HUD Board of Contract Appeals.

ACTION: Proposed Rule.

**SUMMARY:** This rule sets forth procedures for handling bid protests arising under National Housing Act Contracts involving HUD-acquired properties. The proposed rule is needed to assure administrative review procedures for bidders whose bid protests are not within the jurisdiction of the Comptroller General.

**DATES:** Comments received on or before January 26, 1979 will be considered prior to publication of a final rule.

**ADDRESSES:** Send written comments to Rules Docket Clerk, Room 5218, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

**FOR FURTHER INFORMATION  
CONTACT:**

Michael F. Burke, Chairman, Board of Contract Appeals, 451 Seventh Street, S.W., Washington, D.C. 20410 (202-755-6318).

**SUPPLEMENTARY INFORMATION:** The Comptroller General has stated that the General Accounting Office (GAO) is without jurisdiction to decide bid protests arising from procurements under the National Housing Act. Present HUD regulations provide for a dissatisfied bidder to appeal to the GAO; however, if the protest arises under a National Housing Act Contract, the bidder will not receive the benefit of a decision on the merits of the case from GAO. The effect of the current regulations is to deny such bid protesters rights usually available to protesters under other contracts with the Government.

Although protesters may seek relief in the courts, generally court action takes more time and is more expensive than appealing to the GAO, or an administrative tribunal. In addition, it is unclear whether, and to what extent, relief would be available from the courts. The Scanwell doctrine (*Scanwell Laboratories, Inc. v. Shaffer*, 424 F.2d 859 (1970)), affording judicial relief to bid protesters, has not been uniformly accepted by other courts.

In any case, small and minority businesses, which are mainly involved in National Housing Act contracts, could not afford the time and money involved in court action. Thus, an administrative review is essential in order not to eliminate judicial review of Contracting Officers' decisions on bid protests.

The proposed rule will provide the public with a fair and impartial appeal forum, which is consistent with and analogous to administrative review by the GAO, and with established procedures available to contractors dealing with most other Government agencies.

The Department has determined that this proposed rule will not have a significant impact upon the quality of the environment. A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures and is available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, Washington, D.C. 20410.

Interested persons may participate in this rulemaking by submitting comments to the Office of the Rules Docket Clerk, at the address listed above. Comments received by January 26, 1979 will be considered in the formulation of a final rule. Copies of all written comments will be available for examination by the public in the Office of the Rules Docket Clerk.

In consideration of the foregoing, 24 CFR Part 20 is proposed to be amended by adding a new Subpart C as follows:

**Subpart C—Bid Protest Procedures for National  
Housing Act Contracts**

Sec.

20.15 Protests Against Award.

20.16 Definitions.

20.17 Filing of Protest.

20.18 Time for filing.

20.19 Notice of protest, submission of procuring activity report and time for filing of comments on report.

20.20 Withholding of Award.

20.21 Furnishing of information protests.

20.22 Time for submission of additional information.

20.23 Decision by HUDBCA.

20.24 Request for reconsideration.

**Subpart C—Bid Protest Procedures for National  
Housing Act Contracts**

**§ 20.15 Protests Against Award.**

The following identifies the responsible agents and sets forth procedural requirements for handling protests regarding the award of National Housing Act Contracts. Protests involving the award of any other procurement or sales contract by the Department of Housing and Urban Development is

governed by the procedures outlined in 41 CFR 24-2.407-8.

**§ 20.16 Definitions.**

(a) "National Housing Act Contract" as used in this Subpart means a contract entered into by the Department of Housing and Urban Development for goods and services for the management, repair, improvement, alteration, demolition, maintenance, operation, rental, or sale or other disposition of real and related property conveyed to or otherwise in the custody of the Secretary, including properties held by HUD as mortgagee-in-possession, which are entered into pursuant to the National Housing Act, 12 U.S.C. 1701 et seq., as amended, and regarding which the General Accounting Office will not decide bid protests.

(b) "Days" as used in this Subpart means working days of the Federal Government excluding Saturdays, Sundays, and Federal Holidays as specified in 5 U.S.C. 6103.

(c) The term "file" or "submit" as used in this Subpart refers to the date of transmission except as indicated in §§ 20.18 and 20.19 of this subpart.

(d) "Procuring/Disposal Activity" as used in this Subpart means the Office of Property Disposition in Washington, D.C. for National or other procurements by that office pursuant to the National Housing Act or Area and Service Offices for decentralized or other procurements by those offices pursuant to the National Housing Act.

(e) "Adverse agency action" is any action or inaction on the part of a procuring activity which is prejudicial to the position taken in a protest filed with that procuring activity. Such "adverse agency action" may include but is not limited to: a decision on the merits of the protest; a procurement action such as the award of a contract or the rejection of a bid despite the pendency of a protest; or procuring activity acquiescence in or active support of continued and substantial contract performance.

(f) "An interested party" shall mean any person, business, nonprofit or municipal entity which has received a solicitation (Invitation for Bids or Request for Proposals) on the procurement or sale in question.

**§ 20.17 Filing of Protest.**

(a) An interested party may protest the award or proposed award of a National Housing Act Contract for procurement or sale entered into by the Department. Protests must be in writing to the Contracting Officer of the procuring activity, or in writing to the Department of Housing and Urban Development Board of Contract Appeals (hereinafter, "HUDBCA").

(b) Interested parties are urged to seek resolution of their complaints ini-

tially with the Contracting Officer of the procuring activity. The Contracting Officer shall act on any protest filed with the procuring activity unless it is known that a protest has been filed concurrently with the HUDBCA. Where a protest is filed directly with the procuring activity, full consideration shall be given to the protest with the protester notified in writing of the final decision within twenty (20) days from the date of receipt of the protest by the procuring activity.

Where the Contracting Officer makes a determination to award a contract, notwithstanding a protest, such a determination to proceed with award shall be approved by the head of the procuring activity and the Office of General Counsel, after informing the HUDBCA. In such situations, the Office of General Counsel shall complete its review of the proposed award within five (5) working days of notification. In instances of extreme emergency, where the Contracting Officer has determined that award of the contract is required within twenty four (24) hours for the protection of life or for a similar reason, the Office of General Counsel shall complete its review of the proposed award within twenty four (24) hours of notification. Notification in such emergency situations may be by telephone to the General Counsel's designee, provided that the reasons for utilizing the emergency procedure are subsequently submitted in writing. If a decision by the Office of General Counsel is not transmitted to the Contracting Officer within the twenty four hour period, the Contracting Officer may award the contract provided that there has been approval by the head of the procuring activity. If the Office of General Counsel determines that the contract shall not be awarded, a final decision will be arrived at jointly between the General Counsel's designee and the head of the procuring activity.

(c) Protests filed with the HUDBCA must be in writing and addressed to the Department of Housing and Urban Development, Board of Contract Appeals, 451 Seventh Street, S.W., Room 150, Washington, D.C. 20410. To expedite handling within the HUDBCA, the address should include: "Attn: Bid Protest."

(d) The initial protest filed with the HUDBCA shall:

- (1) Include the name and address of the protester;
- (2) Identify the procuring activity and the number of the solicitation and/or contract;
- (3) Contain a statement of the grounds for the protest; and
- (4) Specifically request a ruling by the HUDBCA.

A copy of the protest shall be sent to the Contracting Officer and a copy

shall also be sent to the Office of General Counsel, U.S. Department of Housing and Urban Development, Washington, D.C. 20410 and the communication to the HUDBCA should so indicate. The grounds for protest filed with the HUDBCA must be fully supported to the extent feasible. See § 20.18(d) of this subpart with respect to time for filing any additional statement required in support of an initial protest.

(e) No formal briefs or other technical forms of pleading or motion are required, but a protest and other submissions should be concise, logically arranged, and direct.

**§ 20.18 Time for filing.**

(a) If a protest has been filed initially with the procuring activity, any subsequent protest to the HUDBCA filed within 10 days of formal notification of, or actual or constructive knowledge of, initial adverse agency action will be considered provided the initial protest to the procuring activity was filed in accordance with the time limits prescribed in paragraph (b) of this Subpart. In any case, a protest will be considered if filed with the HUDBCA within the time limits prescribed in paragraphs (b)(1) and (b)(2) of this Subpart.

(b)(1) Protests based upon alleged improprieties in any type of solicitation which are apparent prior to bid opening or the closing date for receipt of initial proposals shall be filed prior to bid opening or the closing date for receipt of initial proposals. In the case of negotiated procurements, alleged improprieties which do not exist in the initial solicitation but which are subsequently incorporated therein must be protested not later than the next closing date for receipt of proposals following the incorporation.

(2) In cases other than those covered in subparagraph (b)(1), bid protests shall be filed not later than 10 days after the basis for protest is known or should have been known, whichever is earlier.

(3) The term "filed" as used in this section means receipt in the procuring activity or in the HUDBCA, as to case may be. Protesters are cautioned that protests should be transmitted or delivered in the manner which will assure earliest receipt. Except as provided in paragraph (c) of this Subpart, any protest received in the HUDBCA after the time limits prescribed in this section shall not be considered unless it was sent by registered or certified mail not later than the fifth day, or by mailgram not later than the third day, prior to the final date for filing a protest as specified herein. The only acceptable evidence to establish the date of mailing shall be the U.S. Postal Service postmark on the wrapper or

on the original receipt from the U.S. Postal Service. The only acceptable evidence to establish the date of transmission by mailgram shall be the automatic date indication appearing on the mailgram. If the postmark in the case of mail or the automatic date indication in the case of a mailgram is illegible, the protest shall be deemed to have been filed late.

(c) The HUDBCA, for good cause shown, or where it determines that a protest raises issues significant to procurement practices or procedures, may consider any protest which is not filed timely.

(d) If an additional statement in support of the initial protest is required by the HUDBCA, one copy shall be mailed or otherwise furnished to the HUDBCA, a copy shall be mailed or otherwise furnished to the General Counsel and a copy shall be mailed or otherwise furnished to the Contracting Officer of the procuring activity not later than 5 days after receipt of notification from the HUDBCA of the need for such additional statement.

**§ 20.19 Notice of protest, submission of  
procuring activity report, and time for  
filing of comments on report.**

(a) The HUDBCA shall notify the procuring activity and the Office of General Counsel by telephone and in writing within one day of the receipt of a protest, requesting the activity to give notice to the contractor if award has been made or, if no award has been made, to all bidders or proposers who appear to have a substantial and reasonable prospect of receiving an award if the protest is denied. The activity shall be requested to furnish in accordance with applicable procurement regulations copies of the protest documents to such parties with instructions for them to communicate further directly with the HUDBCA.

(b) Material submitted by a protester will not be withheld from any interested party outside the Government or from any Government activity which may be involved in the protest except to the extent that the withholding of information is permitted or required by law or regulation. If the protester considers that the protest contains material which should be withheld, a statement advising of this fact must be affixed to the front page of the protest document and the allegedly proprietary information must be so identified wherever it appears.

Although the Government will make every effort to honor the protester's legend in responding to a Freedom of Information Act request for materials covered by the legend, the Government will independently determine whether disclosure of any such material is necessary in light of the requirements of the Freedom of Information

Act and the public interest and the Government will disclose any and all material covered by the protester's legend if the Government determines that such disclosure is required by the Act or the public interest.

(c) The HUDBCA shall request the Office of General Counsel, in conjunction with the procuring activity, to submit a complete report on the protest (hereinafter "procuring activity report") to the HUDBCA as expeditiously as possible (generally within 30 working days) in accordance with applicable procurement regulations and to furnish a copy of the report to the protester and other interested parties. Such report should include:

- (1) A copy of the protest;
- (2) A copy of the bid submitted by the protesting bidder and a copy of the bid of the bidder who is being considered for award, or whose bid is being protested;
- (3) A copy of the invitation for bids, including the specifications or portions thereof, relevant to the protest;
- (4) A copy of the abstract of bids or relevant portions thereof;
- (5) Any other documents which are relevant to the protest; and
- (6) A statement setting forth findings, actions, and recommendations in the matter together with any additional evidence or information deemed necessary in determining the validity of the protest. The statement shall be fully responsive to the allegations of the protest. If the award was made after receipt of the protest, the report will include the determination required.

(d) Comments on the procuring activity report shall be filed with the HUDBCA within 10 days after receipt of the report, with a copy to the Office of General Counsel, the procuring activity, and to other interested parties. Any rebuttal a protester or interested party may care to make shall be filed with the HUDBCA within 5 days after receipt of comments to which rebuttal is directed, with a copy to the Office of General Counsel and the procuring activity, the protester, and interested parties as the case may be. Unsolicited procuring activity rebuttals shall be considered if filed within five (5) days after receipt by the Office of General Counsel and the procuring activity of the comments to which rebuttal is directed.

(e) The failure of a protester or any interested party to comply with the time limits stated in this section may result in resolution of the protest without consideration of the comments untimely filed.

#### § 20.20 Withholding of award.

When a protest has been filed before award, the procuring activity will not

make an award prior to resolution of the protest except under the following circumstances:

- (1) The items or services being procured are urgently required; or
  - (2) Delivery or performance will be unduly delayed by failure to make award promptly; or
  - (3) A prompt award will otherwise be advantageous to the Government.
- If award is made pursuant to (1) through (3) above, the Contracting Officer shall document the file to explain the need for immediate award, and shall give written notice of the decision to proceed with award to the HUDBCA and others concerned. Whenever possible such notice shall be given prior to award. In all cases, the decision to proceed with the award prior to resolution of the protest shall be approved by the head of the procuring activity and the Office of General Counsel. In such situations, Office of General Counsel review shall be subject to the limitations specified in § 20.17(b).

#### § 20.21 Furnishing of information on protests.

The HUDBCA shall, upon request, make available to any interested party information bearing on the substance of the protest which has been submitted by interested parties or procuring activities, except to the extent that withholding of information is permitted or required by law or regulation. Any comments thereon shall be submitted within a maximum of 10 days.

#### § 20.22 Time for submission of additional information.

Any additional information requested by the HUDBCA from the protester or interested parties shall be submitted no later than 5 days after the receipt of such request. If it is necessary to obtain additional information from the procuring activities, the HUDBCA will request that such information be furnished as expeditiously as possible.

#### § 20.23 Decision by HUDBCA.

(a) The HUDBCA establishes a goal of 25 days for issuing a decision on a protest after receipt of all information submitted by all parties. Decisions by the HUDBCA shall be final and binding on the Department and all parties thereto.

(b) All protests shall be decided upon the written record submitted to the HUDBCA and such additional information as may be requested by the HUDBCA. The HUDBCA will not conduct conferences or hearings in connection with protest actions, except in complex cases at the HUDBCA's discretion.

(c) Decisions rendered by the HUDBCA under these regulations shall include powers to:

- (1) Order improperly awarded contracts to be terminated for the convenience of the Government;
- (2) Prohibit the awarding of a contract;
- (3) Award bid preparation costs to any bidder whose bid has been rejected because of arbitrary or capricious Departmental action or bad faith on the part of the Department and only when such rejection has resulted in the bidder being denied the contract.

#### § 20.24 Request for reconsideration.

(a) Reconsideration of a decision of the HUDBCA may be requested by the protester, any interested party who submitted comments during consideration of the protest and any procuring activity involved in the protest. The request for reconsideration shall contain a detailed statement of the factual and legal grounds upon which reversal or modification is deemed warranted, specifying any errors of law made or information not previously considered.

(b) Request for reconsideration of a decision of the HUDBCA shall be filed not later than 10 days after the basis for reconsideration is known or should have been known, whichever is earlier. The term "filed" as used in this Subpart means receipt in HUDBCA.

(c) A request for reconsideration shall be subject to these bid protest procedures consistent with the need for prompt resolution of the matter.

#### § 20.25 Effect of judicial proceedings.

The HUDBCA may refuse to decide any protest where the matter involved is the subject of litigation before a court of competent jurisdiction or has been decided on the merits by such a court. The foregoing shall not apply where the court requests, expects, or otherwise expresses interest in the HUDBCA's decision.

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d); United States Housing Act of 1937 (42 U.S.C. 1437 et seq.))

In accordance with section 7(o)(4) of the Department of HUD Act, section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., December 6, 1978.

PATRICIA ROBERTS HARRIS,  
Secretary, Department of  
Housing and Urban Development.

## PART III

# DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

## ENVIRONMENTAL CRITERIA AND STANDARDS

Registered

[4210-01-M]

DEPARTMENT OF HOUSING AND  
URBAN DEVELOPMENT

Office of the Secretary

[24 CFR Part 51]

[Docket No. R-78-895]

## Environmental Criteria and Standards

AGENCY: Department of Housing and  
Urban DevelopmentAction: Notice of proposed rulemak-  
ing.SUMMARY: HUD proposes to add a  
new Part 51 to Title 24 of the CFR,  
and includes Subpart A—General Pro-  
visions and Subpart B—Noise Abate-  
ment and Control.Subpart B will establish Depart-  
mental standards, requirements, and  
guidelines on noise abatement and  
control, replacing and revising the  
noise policies, standards and proce-  
dures previously set forth in HUD Cir-  
cular 1390.2, which will be cancelled  
when this proposed regulation be-  
comes effective.DATES: Interested persons may  
submit written data and views to the  
Department by January 26, 1979. Each  
person submitting a comment should  
include name and address and refer to  
the document by the docket number  
indicated in the heading and give rea-  
sons for any recommendations. Com-  
ments will be considered before final  
action if taken on the proposed rule.ADDRESSEES: Comments should be  
submitted to the Rules Docket Clerk,  
Office of the General Counsel, Room  
5218, Department of Housing and  
Urban Development, 451 7th Street,  
S.W. Washington, D.C. 20410. Copies  
of all comments received will be availa-  
ble for examination by interested per-  
sons in the Office of the Rules Docket  
Clerk at the address listed above.FURTHER INFORMATION: For fur-  
ther information contact James F. Miller  
or Louise Thompson, Office of Environ-  
mental Quality, 755-6201.SUPPLEMENTARY INFORMATION:  
The proposed Subpart B represents a  
conversion of the HUD Circular 1390.2 to  
regulation format, changes the noise  
descriptor to be used in applying HUD  
standards, and changes implementing  
procedures to provide more flexibility.  
In addition to publishing the new Sub-  
part, the Department proposes to  
issue a revised "Noise Assessment  
Guidelines" to provide an assessment  
methodology to complement the  
policy and standards.The Department issued an Environ-  
mental Impact Statement for public  
comment in 1971, prior to adoption of  
the interim noise standards. The pro-  
posed regulations do not modify the  
current policy sufficiently so that a  
new Environmental Impact Statement  
would be required. A Finding of Inap-  
plicability has been prepared in ac-  
cordance with the Department's envi-ronmental procedures. A copy of this  
Finding is available for inspection and  
copying in the Office of the Rules  
Docket Clerk at the above address.The Secretary of Housing and Urban  
Development is proposing to issue the  
following regulations.

## Subpart A—General Provisions

- Sec.
- 51.1 Purpose.
- 51.2 Authority.
- 51.3 Responsibilities.
- 51.4 Program Coverage.
- 51.5 Coordination With Environmental  
Clearance Requirements.
- 51.6 (Reserved)

## Subpart B—Noise Abatement and Control

- 51.100 Purpose and Authority.
- 51.101 General Policy.
- 51.102 Responsibilities.
- 51.103 Standards.
- 51.104 Special Requirements.
- 51.105 Exceptions.
- 51.106 Implementation.

## APPENDIX

## Subpart A—General Provision

## § 51.1 Purpose.

The Department of Housing and  
Urban Development is providing pro-  
gram Assistant Secretaries and admin-  
istrators and field offices with envi-  
ronmental standards, criteria and  
guidelines for determining project ac-  
ceptability and necessary mitigating  
measures to insure that activities as-  
sisted by the Department achieve the  
goal of a suitable living environment.

## § 51.2 Authority.

This Part implements the Depart-  
ment's responsibilities under the fol-  
lowing statutes:

(a) The National Housing Act of  
1934 (Pub. L. 73-479) which was en-  
acted "to encourage improvements in  
housing standards and conditions, to  
provide a system of mutual mortgage  
insurance, and for other purposes,"  
thus providing the basis for HUD's  
Minimum Property Standards (MPS)  
which have evolved as required by leg-  
islation over the past 44 years.

(b) The Housing Act of 1949 (Pub. L.  
81-171) which sets forth the national  
goal of "a decent home and a suitable  
living environment for every American  
family," affirmed by the Housing and  
Urban Development Act of 1968 (Pub.  
L. 90-448).

(c) The Department of Housing and  
Urban Development Act of 1965 (Pub.  
L. 89-174) which provides that the  
Secretary may make such rules and  
regulations as may be necessary to  
carry out functions, powers, and  
duties, and sets forth, as a matter of  
national purpose, the sound develop-  
ment of the Nation's communities and  
metropolitan areas.

(d) The National Environmental  
Policy Act of 1969 (Pub. L. 91-190)  
which directs Federal agencies to de-  
velop procedures to carry out the pur-  
poses of the Act.

(e) Intergovernmental Cooperation  
Act of 1968 (Pub. L. 90-577) which,  
under Title IV, directs that Federal  
programs and projects serve the objec-  
tives of appropriate land use for hous-  
ing, commercial, industrial, govern-  
mental, institutional, and other pur-  
poses to achieve sound and orderly de-  
velopment of all areas, both urban and  
rural.

## § 51.3 Responsibilities.

(a) *Assistant Secretary for Commu-  
nity Planning and Development.* The  
Assistant Secretary for Community  
Planning and Development shall be re-  
sponsible for administering environ-  
mental regulations, and shall provide  
oversight, interpretation and guid-  
ance, and shall update the regulations  
as required. The Assistant Secretary  
shall also maintain liaison with other  
Federal agencies on matters of envi-  
ronmental policy implementation.

(b) *Assistant Secretary for Policy De-  
velopment and Research.* The Assist-  
ant Secretary for Policy Development  
and Research shall undertake re-  
search and demonstration studies nec-  
essary for the technical development  
of environmental standards, criteria,  
and implementing techniques as a  
basis for the development and imple-  
mentation of environmental regula-  
tions. The Assistant Secretary shall  
also maintain liaison with Federal  
agencies on related technical matters.

(c) *Other Assistant Secretaries, Ad-  
ministrators, and the General Counsel.*  
Other Assistant Secretaries, Adminis-  
trators, and the General Counsel  
shall:

(1) Incorporate adopted environmen-  
tal regulations by reference into pro-  
gram regulations, guidance documents,  
and administrative forms and proce-  
dures;

(2) Evaluate the effects of, and com-  
pliance with Departmental environ-  
mental regulations policy and report  
significant issues and problems to the  
Assistant Secretary for Community  
Planning and Development; and

(3) Identify program areas under  
their jurisdiction in which additional  
environmental regulations are needed,  
and refer them to the Assistant Sec-  
retary for Community Planning and De-  
velopment.

(d) *Regional Administrators, Area  
Office Managers and Service Office  
Supervisors.* Regional Administrators,  
Area Office Managers and Service  
Office Supervisors shall assure that  
adopted environmental regulations are  
implemented in relation to program  
decisions and recommendations. They  
shall also monitor projects to assure  
that mitigation measures are imple-  
mented.

## § 51.4 Program coverage.

Environmental standards shall apply  
to all HUD actions except where spe-  
cial provisions and exemptions are  
contained in each Subpart.

§ 51.5 Coordination with environmental  
clearance requirements.

Environmental standards shall be  
implemented prior to commitment in  
the decision-making process and,  
where environmental clearances are  
required, the decision points shall be  
identical. Compliance with HUD envi-  
ronmental standards shall be ad-  
dressed in the environmental clear-  
ance process.

## Subpart B—Noise Abatement and Control

## § 51.100 Purpose and authority.

(a) *Purpose.* The Department of  
Housing and Urban Development finds  
that noise is a major source of envi-  
ronmental pollution which represents  
a threat to the serenity and quality of  
life in population centers and that  
noise exposure may be a cause of ad-  
verse physiological and psychological  
effects as well as economic losses.

It is the purpose of this Subpart to:

(1) Call attention to the threat of  
noise pollution;

(2) Encourage the control of noise at  
its source in cooperation with other  
Federal departments and agencies;

(3) Encourage land use patterns for  
housing and other noise sensitive  
urban needs that will provide a suit-  
able juxtaposition between them and  
major noise sources;

(4) Generally prohibit HUD support  
for new construction of noise sensitive  
uses on sites having unacceptable  
noise exposure;

(5) Provide policy on the use of  
structural and other noise attenuation  
measures where needed; and

(6) Provide policy to guide imple-  
mentation of various HUD programs.

(b) *Authority.* Specific authorities  
for noise abatement and control are  
contained in:

(1) The Noise Control Act of 1972  
(Pub. L. 92-574) which directs Federal  
agencies to administer their programs  
in ways which reduce noise pollution.

(2) The General Services Adminis-  
tration, Federal Management Circular  
75-2: *Compatible Land Uses at Federal  
Airfields* prescribes the Executive  
Branch's general policy with respect  
to achieving compatible land uses on  
either public or privately owned prop-  
erty at or in the vicinity of Federal  
airfields.

(3) Section 1113 of the Housing and  
Urban Development Act of 1965 (Pub.  
L. 89-117) directs the Secretary " . . .  
to determine feasible methods of re-  
ducing the economic loss and hard-  
ships suffered by homeowners as a  
result of the depreciation in the value

of their properties following the con-  
struction of airports in the vicinity of  
their homes, including a study of fea-  
sible methods of insulating such  
homes from the noise of aircraft."

## § 51.101 General policy.

(a) It is HUD's general policy to pro-  
vide minimum national standards ap-  
plicable to HUD programs to protect  
citizens against the encroachment of  
noise into their communities and  
places of residence.

(1) *Comprehensive planning assist-  
ance.* HUD requires that grantees give  
adequate consideration to noise expo-  
sures and sources of noise as an inte-  
gral part of the urban environment in  
HUD assisted comprehensive plan-  
ning, as follows:

(i) Particular emphasis shall be  
placed on the importance of compati-  
ble land use planning in relation to  
airports, highways and other sources  
of high noise.

(ii) Applicants shall take into consid-  
eration HUD environmental standards  
impacting the use of land as required  
in 24 CFR Part 600, including the  
noise policy. When there are proposed  
deviations from HUD environmental  
standards, the planning agency shall  
provide a statement so indicating and  
identify and discuss measures to  
achieve conformity and noise impact  
mitigation.

(iii) Reconnaissance studies, and,  
where justifiable, in depth studies for  
noise control and abatement are con-  
sidered allowable costs.

(2) *Community Development Block  
Grants.* Recipients of community de-  
velopment block grants under the  
Housing and Community Development  
Act of 1974 (Pub. L. 93-383), as amend-  
ed by the Housing and Community  
Development Act of 1977 (Pub. L. 95-  
128), must take into consideration the  
noise criteria and standards in the en-  
vironmental review process and consid-  
er ameliorative actions when noise  
sensitive land development is proposed  
in noise exposed areas. Grant recipi-  
ents shall address deviations from the  
standards in their environmental re-  
views as required in 24 CFR Part 58.

Where CDBG activities are planned  
in a noisy area, and HUD assistance is  
contemplated later for housing and/or  
other noise sensitive activities, the  
CDBG grantee risks denial of the  
HUD assistance unless the HUD  
standards are met. Therefore, it is ad-  
visable that CDBG grantees adhere to  
HUD policies. Environmental studies,  
including noise assessments, are allow-  
able costs.

(3) *HUD support for new construc-  
tion.* HUD assistance for the construc-  
tion of new noise sensitive uses is pro-  
hibited generally for projects with Un-  
acceptable noise exposures and is dis-  
couraged for projects with Normally

Unacceptable noise exposure. (Stand-  
ards of acceptability are contained in  
§ 51.103(c).) This policy applies to all  
HUD programs providing assistance,  
subsidy or insurance for housing, col-  
lege housing, mobile home parks, nurs-  
ing homes, hospitals, and all programs  
providing assistance or insurance for  
land development, new communities,  
redevelopment, and the provision of  
facilities and services which are direct-  
ed to making land available for hous-  
ing or noise sensitive development.  
The policy does not apply to research  
demonstration projects which do not  
result in new construction or recon-  
struction, flood insurance, interstate  
land sales registration, or any action  
or emergency assistance under disaster  
assistance programs which are pro-  
vided to save lives, protect property,  
protect public health and safety,  
remove debris and wreckage, or assist-  
ance provided that has the effect of  
restoring facilities substantially as  
they existed prior to the disaster.

(4) *HUD support for existing con-  
struction.* HUD considers environmen-  
tal noise exposure a marketability  
factor in determining the amount of  
insurance and other assistance for  
buildings already constructed; howev-  
er, noise exposure by itself will not  
result in the denial of HUD support  
for the resale and purchase of other-  
wise acceptable existing buildings.  
Buildings already constructed which  
are or have been occupied and which  
are exposed to noise but located in an  
otherwise suitable living environment,  
may be approved for insurance or  
other assistance.

(5) *HUD support of modernization  
and rehabilitation.* For modernization  
projects located in all noise exposed  
areas, HUD shall encourage noise at-  
tenuation features in alterations. For  
major or substantial rehabilitation  
projects in the Normally Unacceptable  
and Unacceptable noise zones, HUD  
actively shall seek to have project  
sponsors incorporate noise attenuation  
features, given the extent and nature  
of the rehabilitation being undertaken,  
and the level or exterior noise expo-  
sure. In Unacceptable noise zones,  
HUD shall strongly encourage conver-  
sion of noise-exposed sites to land uses  
compatible with the high noise levels.

(6) *Other land uses.* Until HUD es-  
tablishes noise exposure levels for  
other uses, land uses not covered by  
this section shall, where feasible, be  
evaluated in a manner consistent with  
the policies contained in this part.

(7) *Research, guidance and publica-  
tions.* HUD shall maintain a continu-  
ing program designed to provide new  
knowledge of noise abatement and  
control to public and private bodies, to  
develop improved methods for antici-  
pating noise encroachment, to develop  
noise abatement measures through

land use and building construction practices, and to foster better understanding of the consequences of noise. It shall be HUD's policy to issue guidance documents periodically to assist HUD personnel in assigning an acceptability category to projects in accordance with noise exposure standards, in evaluating noise attenuation measures, and in advising local agencies about noise abatement strategies. The guidance documents shall be updated periodically in accordance with advances in the state-of-the-art.

(8) *Construction equipment, building equipment and appliances.* HUD shall encourage the use of quieter construction equipment and methods in population centers, the use of quieter equipment and appliances in buildings, and the use of appropriate noise abatement techniques in the design of residential structures with potential noise problems.

(9) *Exterior noise goals.* It is a HUD goal that exterior noise levels do not exceed a day-night average sound level of 55 decibels. This level is recommended by the Environmental Protection Agency as a goal for outdoors in residential areas. The levels recommended by EPA are not standards and do not take into account cost or feasibility. For the purposes of this regulation and to meet other program objectives, sites with a day-night average sound level of 65 and below are Normally Acceptable and are allowable (see Standards in § 51.103(c)).

(10) *Interior noise goals.* It is a HUD goal that the interior auditory environment shall not exceed a day-night average sound level of 45 decibels. Attenuation measures to meet these interior goals shall be employed where feasible. Emphasis shall be given to noise sensitive interior spaces such as bedrooms. Minimum attenuation measures are prescribed in § 51.104(a).

(11) *Acoustical privacy in multifamily buildings.* HUD shall require the use of building design and acoustical treatment to afford acoustical privacy in multifamily buildings pursuant to requirements of the Minimum Property Standards.

#### § 51.102 Responsibilities.

(a) *Authority to approve projects.* (1) Decisions on proposed projects with Normally Acceptable noise exposures shall be delegated to the program personnel within field offices, including projects where increased noise levels are considered Normally Acceptable because of non-acoustic benefits under § 51.105(a). Field office program personnel may also approve projects in Normally Unacceptable noise exposed

areas where adequate sound attenuation is provided and where the project does not require an Environmental Impact Statement under § 51.104(b).

(2) Other approvals in Normally Unacceptable noise exposed areas require the concurrence of the Regional Administrator.

(3) Requests for approvals of projects with Unacceptable noise exposures shall be referred to the Assistant Secretary for Community Planning and Development for approval pursuant to § 51.104(b).

(4) In cases where the Regional Administrator determines that an important precedent or issue is involved, such cases shall be referred with recommendations to the Assistant Secretary for Community Planning and Development.

(b) *Surveillance of noise problem areas.* Appropriate field staff shall maintain surveillance of potential noise problem areas and advise local officials, developers, and planning groups of the unacceptability of sites because of noise exposure at the earliest possible time in the decision process. Every attempt shall be made to insure that applicants' site choices are consistent with the policy and standards contained herein.

(c) *Notice to applicants.* At the earliest possible stage, HUD program administrators shall:

(1) Determine the suitability of the acoustical environment of proposed projects;

(2) Notify applicants of any adverse or questionable situations; and

(3) Assure that prospective applicants are apprised of the standards contained herein so that future site choices will be consistent with these standards.

(d) *Technical assistance.* Technical assistance in the measurement, estimation, interpretation, or prediction of noise exposure is available from the Office of Community Planning and Development and the Office of Policy Development and Research. Field office questions shall be forwarded through the Regional Office to the Assistant Secretary for Community Planning and Development or his designee.

(e) *Interdepartmental coordination.* Regional Administrators shall foster appropriate coordination between field offices and other departments and agencies, particularly the Environmental Protection Agency, the Department of Transportation, Department of Defense representatives, and the Veterans Administration. HUD staff shall utilize the acceptability standards in commenting on the prospective

impacts of transportation facilities and other noise generators in the Environmental Impact Statement review process.

#### § 51.103 Criteria and standards.

These standards apply to all programs as indicated in § 51.101.

(a) *Measure of external noise environments.* The magnitude of the external noise environment at a site is determined by the value of the day-night average sound level produced as the result of the accumulation of noise from all sources contributing to the external noise environment at the site. Day-night average sound level, abbreviated as DNL and symbolized as  $L_{dn}$ , is the 24-hour average sound level, in decibels, obtained after addition of 10 decibels to sound levels in the night from 10 p.m. to 7 a.m. Mathematical expressions for average sound level and day-night average sound level are stated in the Appendix.

(b) *Loud impulsive sounds.* When loud impulsive sounds, such as explosions or sonic booms, are experienced at a site, the day-night average sound level produced by the loud impulsive sounds alone shall have 8 decibels added to it in assessing the acceptability of the site (see Appendix). Alternatively, the C-weighted day-night average sound level ( $L_{Cdn}$ ) may be used without the 8 decibel addition, as indicated in Section 51.106(a)(3).

Methods for assessing the contribution of loud impulsive sounds to day-night average sound level at a site and mathematical expressions for determining whether a sound is classed as "loud impulsive" are provided in the Appendix.

(c) *Exterior standards.* The degree of acceptability of the noise environment at a site is determined by the sound levels external to buildings or other facilities containing noise sensitive uses. The standards shall usually apply at a location 2 meters (6.5 feet) from the building housing noise sensitive activities in the direction of the predominant noise source. Where the building location is undetermined, the standards shall apply at the lot line nearest to the predominant noise source. The standards shall also apply at other locations where it is determined that quiet outdoor space is required in area ancillary to the principal use on the site.

The noise environment inside a building is considered acceptable if (a) the noise environment external to the building complies with these standards, and (b) the building is constructed in a manner common to the area or, if of uncommon construction, has at least the equivalent noise attenuation characteristics.

#### SITE ACCEPTABILITY STANDARDS

|                       | Day-Night Average Sound Level (in decibels) | Special Approvals and Requirements                                   |
|-----------------------|---------------------------------------------|----------------------------------------------------------------------|
| Normally Acceptable   | Not exceeding 65 dB(1)                      | None                                                                 |
| Normally Unacceptable | Above 65 dB but not exceeding 75 dB         | Special Approvals (2)<br>Environmental Review (3)<br>Attenuation (4) |
| Unacceptable          | Above 75dB                                  | Special Approvals (2)<br>Environmental Review (3)<br>Attenuation (5) |

NOTES: (1) Normally Acceptable threshold may be shifted to 70 dB in special circumstances pursuant to Section 51.105(a).

(2) See Section 51.104(b) for requirements.

(3) See Section 51.104(b) for requirements.

(4) 5 dB additional attenuation required for sites above 65 dB but not exceeding 70 dB and 10 dB additional attenuation required for sites above 70 dB but not exceeding 75 dB. (See Section 51.104(a).)

(5) Attenuation measures to be submitted to the Assistant Secretary for CPD for approval on a case-by-case basis.

#### § 51.104 Special requirements.

(a) *Noise attenuation.* Noise attenuation measures are those required in addition to attenuation provided by buildings as commonly constructed in the area, and requiring open windows for ventilation. Measures that assist in the reduction of external noise at a site shall be used wherever feasible in preference to the incorporation of additional noise attenuation in buildings. Building designs and construction techniques that provide more noise attenuation than typical construction may be employed also to meet the noise attenuation requirements.

(1) *Normally Unacceptable noise zone.* Approvals in this zone require 5 decibels additional sound attenuation for buildings having noise-sensitive uses if the day-night average sound level is greater than 65 decibels but does not exceed 70 decibels, or 10 decibels of additional sound attenuation if the day-night average sound level is greater than 70 decibels but does not exceed 75 decibels.

(2) *Unacceptable noise zone.* Noise attenuation measures require the approval of the Assistant Secretary for Community Planning and Development. (See § 51.104(b)(2).)

(b) *Special Approvals and Environmental Review Requirements.* Environmental clearances shall be conducted pursuant to the requirements of HUD's Departmental Policies, Responsibilities and Procedures for Protection and Enhancement of Environmental Quality (38 FR 19182 as amended). The Special Clearance and Environmental Impact Statement (EIS) threshold requirements are hereby modified for all projects proposed in the Normally Unacceptable and Unacceptable noise exposure zones as follows:

(1) *Normally Unacceptable noise zone.* (i) All projects located in the Normally Unacceptable Noise Zone require a Special Environmental Clearance except an EIS is required for a proposed project located in a largely undeveloped area, or where the HUD

action is likely to encourage the establishment of incompatible land use in this noise zone.

(ii) When an EIS is required, the concurrence of the Regional Administrator is also required before a project can be approved. For the purposes of this paragraph, an area will be considered as largely undeveloped unless the area within a 2-mile radius of the project boundary is more than 50 percent developed for urban uses and infrastructure (particularly water and sewers) is available and has capacity to serve the project.

(iii) All other projects in the Normally Unacceptable zone require a Special Environmental Clearance, except where an EIS is required for other reasons pursuant to HUD environmental policies.

(2) *Unacceptable noise zone.* An EIS is required prior to the approval of projects with unacceptable noise exposure. Projects in an Unacceptable Noise Zone shall be submitted through the Regional Administrator to the Assistant Secretary for Community Planning and Development for approval. The Assistant Secretary may waive the EIS requirement in cases where noise is the only environmental issue and no outside sensitive activity will take place on the site. In such cases, a Special Environmental Clearance is required.

#### § 51.105 Exceptions.

(a) *Flexibility for non-acoustic benefits.* Where it is determined that program objectives cannot be achieved on sites meeting the acceptability standard of 65 decibels, the Normally Acceptable Zone may be shifted to  $L_{dn}$  70 on a case-by-case basis if all the following conditions are satisfied:

(1) The project does not require an Environmental Impact Statement under provisions of section 104(b)(1) and noise is the only environmental issue.

(2) The project has received a Special Environmental Clearance and has received the concurrence of the Environmental Clearance Officer.

(3) The project meets other program goals to provide housing in proximity to employment, public facilities and transportation.

(4) The project is in conformance with local goals and maintains the character of the neighborhood.

(5) The project sponsor has set forth the reasons why noise attenuation measures cannot be accomplished and the reasons are acceptable to HUD.

(6) Other sites which are not exposed to noise above  $L_{dn}$  65 and which meet program objectives are generally not available.

The above factors shall be documented and made part of the project file.

#### § 51.106 Implementation.

(a) *Use of available data.* HUD field staff shall make maximum use of noise data prepared by others when such data are determined to be current and adequately projected into the future and are in terms of the following:

(1) *Sites in the vicinity of airports.* The noise environment around airports is described sometimes in terms of Composite Noise Rating, abbreviated as CNR, or by Noise Exposure Forecasts, abbreviated as NEF. The noise environment for sites in the vicinity of airports for which day night average sound level data are not available may be evaluated from CNR or NEF analyses using the following conversions to DNL:

DNL7 CNR - 35

DNL7 NEF + 35

(2) *Sites in the vicinity of highways.* Highway projects receiving Federal aid are subject to noise analyses under the procedures of the Federal Highway Administration.

Where such analyses are available they may be used to assess sites subject to the requirements of this standard. The Federal Highway Administration employs two alternate sound level descriptors: (a) The A-weighted sound level not exceeded more than 10 percent of the time for the highway design hour traffic flow, symbolized as  $L_{dn}$ ; or (b) the equivalent sound level for the design hour, symbolized as  $L_{eq}$ . The day night average sound level may be estimated from the design hour  $L_{dn}$  or  $L_{eq}$  values by the following relationships, provided heavy trucks do not exceed 10 percent of the total traffic flow in vehicles per 24 hours and the traffic flow between 10 p.m. and 7 a.m. does not exceed 15 percent of the average daily traffic flow in vehicles per 24 hours:

DNL 7  $L_{dn}$  (design hour) - 3 decibels

DNL 7  $L_{eq}$  (design hour) decibels

(3) *Sites in the vicinity of installations producing loud impulsive*

**sounds.** Certain Department of Defense installations produce loud impulsive sounds from artillery firing and bombing practice ranges. Noise analyses for these facilities sometimes encompass sites that may be subject to the requirements of this standard. Where such analyses are available they may be used to establish the acceptability of sites under this standard.

The Department of Defense uses day-night average sound level based on C-weighted sound level, symbolized  $L_{C, dn}$ , for the analysis of loud impulsive sounds. Where such analyses are provided, the 8 decibel addition specified in 51.103(b), is not required, and the same numerical values of day-night average sound level used to determine site suitability for non-impulsive sounds apply to the  $L_{C, dn}$ .

(4) **Use of areawide acoustical data.** HUD encourages the preparation and use of areawide acoustical information, such as noise contours for airports. Where such new or revised data become available for airports (civil or military) and military installations they shall first be referred to the Assistant Secretary for Community Planning and Development for review, evaluation and decision on appropriateness for use by HUD. For other areawide acoustical data, Headquarters review is required only where existing areawide data are being utilized and where such data have been changed to reflect changes in the measurement methodology or underlying source noise assumptions. Requests for Headquarters determination on usage of new areawide data shall be submitted through the Regional Office (Environmental Clearance Officer) and shall include the following:

(i) Maps showing old, if applicable, and new noise contours, along with brief description of data source and methodology.

(ii) Impact on existing and prospective urbanized areas and on development activity.

(iii) Impact on HUD-assisted projects currently in processing.

(iv) Impact on future HUD program activity. Where a field office has determined that immediate approval of new areawide data is necessary and warranted in limited geographic areas, the request for Headquarters approval should state the circumstances warranting such approval. Actions on proposed projects shall not be undertaken while new areawide noise data are being considered for HUD use except where the proposed location is affected in the same manner under both the old and new noise data.

(b) **Site assessments.** Compliance with the standards contained in § 51.103(c) shall, where necessary, be determined using noise assessment guidelines, handbooks, technical documents and procedures issued by the Department.

(c) **Variations in site noise levels.** In many instances the noise environment will vary across a site, with portions of the site being in a Normally Acceptable noise environment and other portions in a Normally Unacceptable noise environment. The standards in Section 51.103(c) shall apply only to the portions of a building or buildings and ancillary noise sensitive open space that occupy those portions of the site that exceed the limits for an acceptable acoustical environment.

(d) **Noise measurements.** Where noise assessments result in a finding that the site is borderline or questionable, or is controversial, noise measurements may be performed. Where it is determined that noise measurements are required, such measurements will be conducted in accordance with methods and measurement criteria established by the Department. Locations for noise measurements will depend on the location of noise sensitive uses that are nearest to the predominate noise source (see section 103(c)).

(e) **Projections of noise exposure.** To the extent possible, assessments or measurements of noise exposures shall be projected for at least the next 10 years with respect to applications and projects under review.

$$L_{dn} = 10 \log_{10} \left[ \frac{1}{86400} \left( \int_{0000}^{2400} 10^{[L_A(t)+10]/10} dt + \int_{2200}^{2400} 10^{L_A(t)/10} dt + \int_{2200}^{2400} 10^{[L_A(t)+10]/10} dt \right) \right]$$

Time  $t$  is in seconds, so the limits shown in hours and minutes are actually interpreted in seconds.  $L_A(t)$  is the time varying value of A-weighted sound level, the quantity in decibels measured by an instrument satisfying requirements of American National Standard Specification for Sound Level Meters S1.4-1971.

3. **Loud Impulsive Sounds.** When loud impulsive sounds such as sonic booms or explosions are recurring and are anticipated contributors to the noise environment at a site, the contribution to day-night average sound level produced by the loud impulsive sounds shall have 8 decibels added to it in assessing the acceptability of a site.

A loud impulsive sound is defined for the purpose of this regulation as one for which:

(f) **Reduction of site noise by use of berms and/or barriers.** If it is determined by adequate analysis that a berm and/or barrier will reduce noise at a housing site, and if the barrier is existing or there are assurances that it will be in place prior to occupancy, the environmental noise analysis for the site may reflect the benefits afforded by the berm and/or barrier.

In the environmental review process under Section 51.104(b), the location height and design of the berm and/or barrier shall be evaluated to determine its effectiveness, and impact on design and aesthetic quality, circulation and other environmental factors.

#### APPENDIX

##### DEFINITION OF ACOUSTICAL QUANTITIES

1. **Sound Level.** The quantity in decibels measured with an instrument satisfying requirements of American National Standard Specification for Sound Level Meters S1.4-1971. Fast time-averaging and A-frequency weighting are to be used, unless others are specified. The sound level meter with the A-weighting is progressively less sensitive to sounds of frequency below 100 hertz (cycles per second), somewhat as is the ear. With fast time averaging the sound level meter responds particularly to recent sounds almost as quickly as does the ear in judging the loudness of a sound.

2. **Average Sound Level.** Average sound level, in decibels, is the level of the mean-square A-weighted sound pressure during the stated time period, with reference to the square of the standard reference sound pressure of 20 micropascals.

Day-night average sound level, abbreviated as DNL, and symbolized mathematically as  $L_{dn}$  is defined as:

(i) The sound is definable as a discrete event whose loudness audibly increases to a maximum and then decreases in a total time interval of approximately one second or less to the ambient background level that exists without the sound; and

(ii) The maximum sound level (obtained with slow averaging time and A-weighting of a sound level meter whose characteristics comply with ANSI S1.4-1971) exceeds the sound level prior to the onset of the event by at least 6 decibels; and

(iii) The maximum sound level obtained with fast averaging time of a sound level meter exceeds the maximum value obtained with slow averaging time by at least 4 decibels.

In accordance with section 7(o)(4) of the Department of HUD Act, section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., November 20, 1978.

JAY JANIS,  
Acting Secretary,  
Department of Housing  
and Urban Development.

## CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-6006; 34-15416; 35-20836;  
IC-10530; AS-257]

### PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, INVESTMENT COMPANY ACT OF 1940, AND ENERGY POLICY AND CONSERVATION ACT OF 1975

#### Requirements for Financial Accounting and Reporting Practices for Oil and Gas Producing Activities

AGENCY: Securities and Exchange  
Commission.

ACTION: Amended rules.

**SUMMARY:** The Commission is adopting various amendments to its accounting and reporting requirements for oil and gas producers. These amendments: (1) increase the conformity of rules relating to the successful efforts method of accounting to the provisions of Statement No. 19 of the Financial Accounting Standards Board; (2) revise certain definitions to correspond to those adopted by the Department of Energy for its Financial Reporting System; (3) provide an exemption from the disclosure requirements for diversified companies who meet specified criteria; and (4) clarify the application of the rules to cost-of-service regulated companies.

**EFFECTIVE DATE:** The rules published in this release shall be effective initially for fiscal years ending after December 25, 1978 that are contained in filings that include fiscal years ending after December 25, 1979. Certain portions are effective for purposes of the disclosure requirements of Regulation S-K for filings that include fiscal years ending after December 25, 1978.

#### FOR FURTHER INFORMATION CONTACT:

James L. Russell, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 (202-755-0222).

**SUPPLEMENTARY INFORMATION:** In Accounting Series Release No. 253 ("ASR No. 253"), published on August

<sup>1</sup>Securities Act Release No. 33-5966 (43 FR 40688).

31, 1978, the Commission amended Regulation S-X, which governs the form and content of financial statements, to add new § 210.3-18, establishing accounting and disclosure requirements for oil and gas producing companies. These rules apply to filings pursuant to the federal securities laws and to reports of energy information that are subject to the requirements of the Energy Policy and Conservation Act of 1975 ("EPCA"). ASR No. 253 specified the form of successful efforts accounting to be used by companies following that method (a method identical to that contained in Statement of Financial Accounting Standards No. 19, "Financial Accounting and Reporting by Oil and Gas Producing Companies" ("FAS 19"), published in December 1977 by the Financial Accounting Standards Board).

In ASR No. 253, the Commission noted that the rules it was adopting were intended to meet certain objectives, including the following: (1) conformity of the prescribed successful efforts method to the related provisions of FAS 19; (2) consistency with the Financial Reporting System under development by the Department of Energy ("DOE"); and (3) consistency of the revised definition of proved oil and gas reserves with other published definitions. The Commission requested comments as to whether these objectives had been met. In response to comments received on these aspects of the rules, the Commission has determined to make certain technical amendments to the adopted rules.

Further, the Commission has determined it appropriate to add certain exemptive provisions to the rules. These provisions exempt companies whose oil and gas producing activities do not exceed specified criteria from the disclosure requirements of § 210.3-18(k) for purposes of filings under the federal securities laws. This release also clarifies the circumstances under which § 210.3-18 may be deemed not to apply to rate-regulated companies.

Since these amendments are intended simply to dispense with technical inconsistencies in the adopted rules, or to provide limited exemptions from the rules under certain circumstances, and in light of the extensive public rule-making proceeding which led to the adoption of the rules, the Commission has determined that noticing these amendments for comment would be of little or no value. Therefore, the Commission for good cause finds that notice and public procedure on these amendments is unnecessary, as provided by section 553(b) of the Administrative Procedure Act (5 U.S.C. 553(b)).

#### AMENDMENTS TO THE RULES

A number of technical amendments to § 210.3-18 are being made in response to requests that maximum conformity with the descriptive material and interpretive guidance of FAS 19 be achieved:

The definition of "exploratory well" in § 210.3-18(a)(10) has been revised to include the wording used in FAS 19. In addition, definitions have been provided in § 210.3-18(a) for "acquisitions of properties," "exploration costs," "development costs," and "production costs." These definitions incorporate into the rules a portion of the information that was stated in ASR No. 253 under "Description of the Rules." In particular, the definitions clarify the accounting for the different classifications of costs, and discuss the relationship of production or lifting costs (as well as depreciation, depletion and amortization) to the determination of the inventory cost of oil and gas.

Subparagraph (b)(5) has been added to specify the accounting for reimbursable costs of geological and geophysical studies, as contained in FAS 19.

Subparagraph (c)(3) has been revised to (1) adopt the wording of FAS 19 with respect to aggregation, for purposes of computing amortization, of large numbers of royalty interests whose acquisition costs are not individually significant; (2) include restoration costs among the costs to be considered in determining amortization and depreciation rates; and (3) permit amortization of joint oil and gas production to be based on the dominant mineral.

The phrase "as incurred" has been removed from the heading of paragraph (f). Also, dry hole and bottom hole contributions have been included among the examples of costs to be charged to expense.

Paragraph (g) has been amended to clarify that the accounting standards specifically prohibit "the deferral of costs of exploratory wells that find some oil and gas reserves merely on the chance that some event totally beyond the entity's control will occur."

Subparagraph (k)(5)(xii) now states specifically that the amount at which a receivable related to a retained production payment is recorded should include consideration of imputed interest.

Subparagraph (k)(2) has been modified to require disclosure of gross and net capitalized costs as of the end of each period for which "a complete set of (annual or interim) financial statements is presented," rather than as of the end of each period for which a balance sheet is presented. This will make it consistent with the corresponding requirement of FAS 19.

A discussion of initial retroactive application of the rules, similar to that contained in FAS 19, has been included in this release under "Effective Date."

#### DEFINITION OF PROVED RESERVES

ASR No. 253 adopted the definition of proved oil and gas reserves that was contained in DOE's Form EIA-23, "Annual Survey of Domestic Oil and Gas Reserves." A number of comment letters pointed out that this definition differs somewhat from that contained in DOE's Form EIA-28, "Energy Company Financial Reporting System" ("FRS"). Since the FRS is intended to collect information pursuant to EPCA for purposes of developing a national energy data base, most commentators urged that the definition of proved reserves adopted by the Commission conform to that contained in FRS.

Accordingly, the definitions of "proved oil and gas reserves," "proved developed oil and gas reserves," and "proved undeveloped reserves" set forth in § 210.3-18(a) of Regulation S-X have been modified to correspond to those contained in Form EIA-28. Although there does not appear to be any substantive difference between the definitions, this conformity should eliminate any possible ambiguity concerning their use. However, the Commission's definition of proved oil and gas reserves continues to contain a discussion of the term "existing economic and operating conditions," to specify that current prices include consideration of changes in existing prices provided only by contractual arrangements.

Several commentators requested clarification as to whether the "current prices" used in determining estimates of proved reserves (and also in computing estimated future net revenue pursuant to paragraph (k)(5) of § 210.3-18) may incorporate price increases allowed by Federal Energy Regulatory Commission national and area rate opinions or by the Natural Gas Policy Act of 1978, if such price increases have been specifically incorporated into gas contracts. The Commission believes that consideration of such gas price escalations is appropriate only to the extent that amounts are fixed and determinable. Specifically, no recognition should be given to potential price increases related to uncertain events such as an "annual inflation factor."

#### EXEMPTION FROM DISCLOSURE REQUIREMENTS

A number of comment letters included a request that an exemption be provided from the disclosure requirements of § 210.3-18(k) for registrants whose oil and gas producing activities are not significant in relation to their

total operations. The Commission has concluded that such an exemption is appropriate and has amended § 210.3-18(k) to provide an exemption (for filings under the federal securities laws) from the disclosure requirements of that paragraph for registrants whose revenues, income and assets relating to oil and gas producing activities are less than 10 percent of the corresponding consolidated amounts for each of the two most recent fiscal years. For purposes of the asset criterion, proved oil and gas properties are to be measured on the basis of "the present value of estimated future net revenues," rather than historical cost. This exemption does not affect the general applicability of the financial accounting standards of § 210.3-18.

#### APPLICATION OF RULES TO REGULATED COMPANIES

The rules for financial accounting and reporting practices of oil and gas producers adopted in ASR No. 253 did not specifically address the application of those requirements to regulated activities. The addendum to APB Opinion No. 2, "Accounting for the Investment Credit,"<sup>2</sup> states that "differences may arise in the application of generally accepted accounting principles as between regulated and nonregulated businesses, because of the effect in regulated businesses of the rate-making process," and discusses the application of generally accepted accounting principles to regulated businesses. The Commission recognizes that the oil and gas producing activities of some companies may be subject to regulatory requirements for rate-making purposes. Accordingly, the introduction to § 210.3-18 has been amended to specify that, when oil and gas properties are regulated for rate-making purposes on an individual-company-cost-of-service basis, companies may give recognition to the effect of rate-making considerations on costs to be capitalized and on the basis for amortization. However, the Commission intends to reassess this matter upon completion of the Financial Accounting Standards Board's project involving reconsideration of the Addendum to APB Opinion No. 2.

#### INDEXING

The indexing within paragraphs (a)(1), (k)(4), and (k)(5) has been revised to conform to that contained in the FEDERAL REGISTER's publication of ASR No. 253 (43 FR 40688).

#### EFFECTIVE DATE

The rules contained in § 210.3-18 are effective for fiscal years ending after

<sup>2</sup>This opinion was published in December 1962 by the Accounting Principles Board, which then existed as the standard-setting body of the American Institute of Certified Public Accountants.

December 25, 1978, that are contained in filings that include fiscal years ending after December 25, 1979, although earlier application is encouraged. Certain portions of § 210.3-18 are also effective for purposes of the disclosure requirements of Regulation S-K for filings that include fiscal years ending after December 25, 1978.

Accounting changes adopted to conform to the provisions of these rules are to be made retroactively by restating the financial statements of prior periods. Financial statements for the fiscal year in which these rules are first applied should disclose the nature of the accounting changes and their effect on income before extraordinary items, net income, and related per share amounts for each period restated.

Retroactive application of the provisions of § 210.3-18 may require the use of estimates and approximations. A provision that would not have a significant effect on prior years' financial statements need not be retroactively applied. Further, retroactive application of some provisions of these rules may require the use of estimates of a type not previously made; information that may have become available some time after the year being restated may be taken into account in making those estimates, except that estimates of quantities of oil and gas reserves that had been made in prior years need not currently be revised in retrospect.

#### COMMISSION ACTION

The Commissioner hereby amends 17 CFR Part 210 by revising § 210.3-18. This section as amended is set forth below:

§ 210.3-18 Financial accounting and reporting for oil and gas producing activities pursuant to the Federal securities laws and the Energy Policy and Conservation Act of 1975.

This section prescribes financial accounting and reporting standards for registrants with the Commission engaged in oil and gas producing activities in filings under the Federal securities laws and for the preparation of accounts by persons engaged, in whole or in part, in the production of crude oil or natural gas in the United States, pursuant to section 503 of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6363) ("EPCA") and section 11(c) of the Energy Supply and Environmental Coordination Act of 1974 (15 U.S.C. 796) ("ESECA"), as amended by section 505 of EPCA. The application of this section to those oil and gas producing operations of companies regulated for ratemaking purposes on an individual-company-cost-of-service basis may, however, give appropriate recognition to differences arising be-

cause of the effect of the ratemaking process.

**Exemption.** Any person exempted by the Department of Energy from any record-keeping or reporting requirements pursuant to section 11(c) of ESECA, as amended, is similarly exempted from the related provisions of this section in the preparation of accounts pursuant to EPCA. This exemption does not affect the applicability of this section to filings pursuant to the Federal securities laws.

#### DEFINITIONS

(a) **Definitions.** The following definitions apply to the terms listed below as they are used in this section:

(1) **Oil and gas producing activities.** (i) Such activities include:

(A) The search for crude oil, including condensate and natural gas liquids, or natural gas ("oil and gas") in their natural states and original locations.

(B) The acquisition of property rights or properties for the purpose of further exploration and/or for the purpose of removing the oil or gas from existing reservoirs on those properties.

(C) The construction, drilling and production activities necessary to retrieve oil and gas from its natural reservoirs, and the acquisition, construction, installation, and maintenance of field gathering and storage systems—including lifting the oil and gas to the surface and gathering, treating, field processing (as in the case of processing gas to extract liquid hydrocarbons) and field storage. For purposes of this section, the oil and gas production function shall normally be regarded as terminating at the outlet valve on the lease or field storage tank; if unusual physical or operational circumstances exist, it may be appropriate to regard the production functions as terminating at the first point at which oil, gas, or gas liquids are delivered to a main pipeline, a common carrier, a refinery, or a marine terminal.

(ii) Oil and gas producing activities do not include:

(A) The transporting, refining and marketing of oil and gas.

(B) Activities relating to the production of natural resources other than oil and gas.

(C) The production of geothermal steam or the extraction of hydrocarbons as a by-product of the production of geothermal steam or associated geothermal resources as defined in the Geothermal Steam Act of 1970.

(D) The extraction of hydrocarbons from shale, tar sands, or coal.

(2) **Proved oil and gas reserves.** Proved oil and gas reserves are the estimated quantities of crude oil, natural gas, and natural gas liquids which geological and engineering data demonstrate with reasonable certainty to be

recoverable in future years from known reservoirs under existing economic and operating conditions, i.e., prices and costs as of the date the estimate is made. Prices include consideration of changes in existing prices provided only by contractual arrangements, but not on escalations based upon future conditions.

(i) Reservoirs are considered proved if economic producibility is supported by either actual production or conclusive formation test. The area of a reservoir considered proved includes (A) that portion delineated by drilling and defined by gas-oil and/or oil-water contacts, if any, and (B) the immediately adjoining portions not yet drilled, but which can be reasonably judged as economically productive on the basis of available geological and engineering data. In the absence of information on fluid contacts, the lowest known structural occurrence of hydrocarbons controls the lower proved limit of the reservoir.

(ii) Reserves which can be produced economically through application of improved recovery techniques (such as fluid injection) are included in the "proved" classification when successful testing by a pilot project, or the operation of an installed program in the reservoir, provides support for the engineering analysis on which the project or program was based.

(iii) Estimates of proved reserves do not include the following: (A) Oil that may become available from known reservoirs but is classified separately as "indicated additional reserves"; (B) crude oil, natural gas, and natural gas liquids, the recovery of which is subject to reasonable doubt because of uncertainty as to geology, reservoir characteristics, or economic factors; (C) crude oil, natural gas, and natural gas liquids, that may occur in undrilled prospects; and (D) crude oil, natural gas, and natural gas liquids, that may be recovered from oil shales, coal, gilsonite and other such sources.

(3) **Proved developed oil and gas reserves.** Proved developed oil and gas reserves are reserves that can be expected to be recovered through existing wells with existing equipment and operating methods. Additional oil and gas expected to be obtained through the application of fluid injection or other improved recovery techniques for supplementing the natural forces and mechanisms of primary recovery should be included as "proved developed reserves" only after testing by a pilot project or after the operation of an installed program has confirmed through production response that increased recovery will be achieved.

(4) **Proved undeveloped reserves.** Proved undeveloped oil and gas reserves are reserves that are expected to be recovered from new wells on un-

drilled acreage, or from existing wells where a relatively major expenditure is required for recompletion. Reserves on undrilled acreage shall be limited to those drilling units offsetting productive units that are reasonably certain of production when drilled. Proved reserves for other undrilled units can be claimed only where it can be demonstrated with certainty that there is continuity of production from the existing productive formation. Under no circumstances should estimates for proved undeveloped reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual tests in the area and in the same reservoir.

(5) **Proved properties.** Properties with proved reserves.

(6) **Unproved properties.** Properties with no proved reserves.

(7) **Proved area.** The part of a property to which proved reserves have been specifically attributed.

(8) **Field.** An area consisting of a single reservoir or multiple reservoirs all grouped on or related to the same individual geological structural feature and/or stratigraphic condition. There may be two or more reservoirs in a field that are separated vertically by intervening impervious, strata, or laterally by local geologic barriers, or by both. Reservoirs that are associated by being in overlapping or adjacent fields may be treated as a single or common operational field. The geological terms "structural feature" and "stratigraphic condition" are intended to identify localized geological features as opposed to the broader terms of basins, trends, provinces, plays, areas-of-interest, etc.

(9) **Reservoir.** A porous and permeable underground formation containing a natural accumulation of producible oil and/or gas that is confined by impermeable rock or water barriers and is individual and separate from other reservoirs.

(10) **Exploratory well.** A well drilled to find and produce oil or gas in an unproved area, to find a new reservoir in a field previously found to be productive of oil or gas in another reservoir, or to extend a known reservoir. Generally, an exploratory well is any well that is not a development well, a service well, or a stratigraphic test well as those items are defined below.

(11) **Development well.** A well drilled within the proved area of an oil or gas reservoir to the depth of a stratigraphic horizon known to be productive.

(12) **Service well.** A well drilled or completed for the purpose of supporting production in an existing field. Specific purposes of service wells include gas injection, water injection,

steam injection, air injection, salt-water disposal, water supply for injection, observation, or injection for in-situ combustion.

(13) **Stratigraphic test well.** A drilling effort, geologically directed, to obtain information pertaining to a specific geologic condition. Such wells customarily are drilled without the intention of being completed for hydrocarbon production. This classification also includes tests identified as core tests and all types of expendable holes related to hydrocarbon exploration. Stratigraphic test wells are classified as (i) "exploratory-type," if not drilled in a proved area, or (ii) "development-type," if drilled in a proved area.

(14) **Acquisition of properties.** Costs incurred to purchase, lease or otherwise acquire a property, including costs of lease bonuses and options to purchase or lease properties, the portion of costs applicable to minerals when land including mineral rights is purchased in fee, brokers' fees, recording fees, legal costs, and other costs incurred in acquiring properties.

(15) **Exploration costs.** Costs incurred in identifying areas that may warrant examination and in examining specific areas that are considered to have prospects of containing oil and gas reserves, including costs of drilling exploratory wells and exploratory-type stratigraphic test wells. Exploration costs may be incurred both before acquiring the related property (sometimes referred to in part as prospecting costs) and after acquiring the property. Principal types of exploration costs, which include depreciation and applicable operating costs of support equipment and facilities and other costs of exploration activities, are:

(i) Costs of topographical, geographical and geophysical studies, rights of access to properties to conduct those studies, and salaries and other expenses of geologists, geophysical crews, and others conducting those studies. Collectively, these are sometimes referred to as geological and geophysical or "G&G" costs.

(ii) Costs of carrying and retaining undeveloped properties, such as delay rentals, ad valorem taxes on properties, legal costs for title defense, and the maintenance of land and lease records.

(iii) Dry hole contributions and bottom hole contributions.

(iv) Costs of drilling and equipping exploratory wells.

(v) Costs of drilling exploratory-type stratigraphic test wells.

(16) **Development costs.** Costs incurred to obtain access to proved reserves and to provide facilities for extracting, treating, gathering and storing the oil and gas. More specifically, development costs, including depreci-

ation and applicable operating costs of support equipment and facilities and other costs of development activities, are costs incurred to:

(i) Gain access to and prepare well locations for drilling, including surveying well locations for the purpose of determining specific development drilling sites, clearing ground, draining, road building, and relocating public roads, gas lines, and power lines, to the extent necessary in developing the proved reserves.

(ii) Drill and equip development wells, development-type stratigraphic test wells, and service wells, including the costs of platforms and of well equipment such as casing, tubing, pumping equipment, and the wellhead assembly.

(iii) Acquire, construct, and install production facilities such as lease flow lines, separators, treaters, heaters, manifolds, measuring devices, and production storage tanks, natural gas cycling and processing plants, and central utility and waste disposal systems.

(iv) Provide improved recovery systems.

(17) **Production costs.** (i) Costs incurred to operate and maintain wells and related equipment and facilities, including depreciation and applicable operating costs of support equipment and facilities and other costs of operating and maintaining those wells and related equipment and facilities. They become part of the cost of oil and gas produced. Examples of production costs (sometimes called lifting costs) are:

(A) Costs of labor to operate the wells and related equipment and facilities.

(B) Repairs and maintenance.

(C) Materials, supplies, and fuel consumed and supplies utilized in operating the wells and related equipment and facilities.

(D) Property taxes and insurance applicable to proved properties and wells and related equipment and facilities.

(E) Severance taxes.

(ii) Some support equipment or facilities may serve two or more oil and gas producing activities and may also serve transportation, refining, and marketing activities. To the extent that the support equipment and facilities are used in oil and gas producing activities, their depreciation and applicable operating costs become exploration, development or production costs, as appropriate. Depreciation, depletion, and amortization of capitalized acquisition, exploration, and development costs are not production costs but also become part of the cost of oil and gas produced along with production (lifting) costs identified above.

#### SUCCESSFUL EFFORTS METHOD

(b) **Costs to be capitalized if the successful efforts method of accounting is followed.** The costs of the following assets involved in oil and gas producing activities are to be capitalized when incurred:

(1) **Mineral interests in properties.** Including (i) fee ownership or a lease, concession, or other interest representing the right to extract oil or gas subject to such terms as may be imposed by the conveyance of that interest; (ii) royalty interests, production payments payable in oil or gas, and other nonoperating interests in properties operated by others; and (iii) those agreements with foreign governments or authorities under which a reporting entity participates in the operation of the related properties or otherwise serves as "producer" of the underlying reserves (as opposed to being an independent purchaser, broker, dealer, or importer). Properties do not include other supply agreements or contracts that represent the right to purchase, rather than extract, oil and gas.

(2) **Wells and related equipment and facilities.** Including: (i) Costs incurred to drill and equip those exploratory wells and exploratory-type stratigraphic test wells that have found proved reserves and (ii) development costs, i.e., costs incurred to obtain access to proved reserves and provide facilities for extracting, treating, gathering, and storing the oil and gas, including the drilling and equipping of development wells and development-type stratigraphic test wells (whether those wells are successful or unsuccessful) and service wells.

(3) **Support equipment and facilities used in oil and gas producing activities.** Items such as seismic equipment, drilling equipment, construction and grading equipment, vehicles, repair shops, warehouses, supply points, camps, and division, district, or field offices.

(4) **Uncompleted wells, equipment and facilities.** Including costs incurred to: (i) Drill and equip wells that are not yet completed and (ii) acquire or construct equipment and facilities that are not yet completed and installed.

(5) **Geological and geophysical studies.** G&G studies may be conducted on a property owned by another person, in exchange for an interest in the property if proved reserves are found or to be reimbursed if proved reserves are not found. In such cases, the G&G costs shall be accounted for as a receivable when incurred and, if proved reserves are found, they shall become the cost of the proved property acquired.

(c) **Assessment of unproved properties if the successful efforts method of accounting is followed.** Unproved

properties shall be assessed periodically to determine whether they have been impaired. A property would likely be impaired, for example, if a dry hole has been drilled on it and the reporting entity has no firm plans to continue drilling. Also, the likelihood of partial or total impairment of a property increases as the expiration of the lease term approaches if drilling activity has not commenced on the property or on nearby properties. Information that becomes available after the end of the period covered by the financial statements but before those financial statements are issued shall be taken into account in evaluating conditions that existed at the balance sheet date.

(1) If the results of the assessment indicate impairment, a loss shall be recognized by providing a valuation allowance. Impairment of individual unproved properties whose acquisition costs are relatively significant shall be assessed on a property-by-property basis, and an indicated loss shall be recognized by providing a valuation allowance. When a reporting entity has a relatively large number of unproved properties whose acquisition costs are not individually significant, it may not be practical to assess impairment on a property-by-property basis, in which case the amount of loss to be recognized and the amount of the valuation allowance needed to provide for impairment of those properties shall be determined by amortizing those properties, either in the aggregate or by groups, on the basis of the experience of the entity in similar situations and other information about such factors as the primary lease terms of those properties, the average holding period of unproved properties, and the relative proportion of such properties on which proved reserves have been found in the past.

(2) A property shall be reclassified from unproved properties to proved properties when proved reserves are discovered on or otherwise attributed to the property. Occasionally, a single property such as a foreign lease or concession covers so vast an area that only the portion of the property to which the proved reserves relate—determined on the basis of geological structural features or stratigraphic conditions—should be reclassified from unproved to proved. For a property whose impairment has been assessed individually, the net carrying amount (acquisition cost minus valuation allowance) shall be reclassified to proved properties; for properties amortized by providing a valuation allowance on a group basis, the gross acquisition cost shall be reclassified.

(d) *Surrender or abandonment of properties if the successful efforts method of accounting is followed.*

When an unproved property is surrendered, abandoned, or otherwise deemed worthless, capitalized acquisition costs relating thereto shall be charged against the related allowance for impairment to the extent an allowance has been provided; if the allowance previously provided is inadequate, a loss shall be recognized. Normally, no gain or loss shall be recognized if only an individual well or individual item of equipment is abandoned or retired or if only a single lease or other part of a group of proved properties constituting the amortization base is abandoned or retired as long as the remainder of the property or group of properties continues to produce oil or gas. Instead, the asset being abandoned or retired shall be deemed to be fully amortized, and its costs shall be charged to accumulated depreciation, depletion, or amortization. When the last well on an individual property (if that is the amortization base) or group of properties (if amortization is determined on the basis of an aggregation of properties with a common geological structure) ceases to produce and the entire property or property group is abandoned, gain or loss shall be recognized. Occasionally, the partial abandonment or retirement of a proved property or group of proved properties or the abandonment or retirement of wells or related equipment or facilities may result from a catastrophic event or other major abnormality. In those cases, a loss shall be recognized at the time of abandonment or retirement.

(e) *Amortization of capitalized costs if the successful efforts method of accounting is followed.* (1) Capitalized acquisition costs of proved properties shall be amortized using the unit-of-production method on the basis of total estimated units of proved oil and gas reserves.

(2) Capitalized costs of exploratory wells and exploratory-type stratigraphic test wells that have found proved reserves and capitalized development costs shall be amortized (depreciated) using the unit-of-production method on the basis of total estimated units of proved developed reserves. However, it may be more appropriate, in some cases, to depreciate natural gas cycling and processing plants by a method other than the unit-of-production method.

(3) Amortization, using the unit-of-production method as required by subparagraphs (1) and (2) of this paragraph, may be computed either on a property-by-property basis or on the basis of some reasonable aggregation of properties with a common geological structural feature or stratigraphic condition, such as a reservoir or field. When a reporting entity has a relatively large number of royalty inter-

ests whose acquisition costs are not individually significant, they may be aggregated, for purpose of computing amortization, without regard to commonality of geological structural features or stratigraphic conditions; if information is not available to estimate reserve quantities applicable to royalty interests owned, a method other than the unit-of-production method may be used to amortize their acquisition costs. If significant development costs (such as the cost of an off-shore production platform) are incurred in connection with a planned group of development wells before all of the planned wells have been drilled, it will be necessary to exclude a portion of those development costs in determining the unit-of-production amortization rate until the additional development wells are drilled. Similarly, it will be necessary to exclude, in computing the amortization rate, those proved developed reserves that will be produced only after significant additional development costs are incurred, such as for improved recovery systems. However, in no case should future development costs be anticipated in computing the amortization rate. Estimated dismantlement, restoration, and abandonment costs and estimated residual salvage values shall be taken into account in determining amortization and depreciation rates. For those properties or groups of properties containing both oil reserves and gas reserves, the units of oil and gas used to compute amortization shall be converted to a common unit of measure on the basis of their approximate relative energy content (without considering their relative sales values). However, if the relative proportion of gas and oil extracted in the current period is expected to continue throughout the remaining productive life of the property, unit-of-production amortization may be computed on the basis of one of the two minerals only; similarly, if either oil or gas clearly dominates both the reserves and the current production (with dominance determined on the basis of relative energy content), unit-of-production amortization may be computed on the basis of the dominant mineral only. Unit-of-production amortization rates shall be revised whenever there is an indication of the need for revision but at least once a year; those revisions shall be accounted for prospectively as changes in accounting estimates.

(f) *Costs to be charged to expense if the successful efforts method of accounting is followed.* Costs incurred in oil and gas producing activities other than those described in paragraph (b) of this section shall be charged to expense. Examples include geological and geophysical costs, costs of carrying and retaining undeveloped prop-

erties, dry hole and bottom hole contributions, the costs of drilling those exploratory wells and exploratory-type stratigraphic test wells that do not find proved reserves (see paragraph (g) of this section), and the cost of oil and gas produced.

(g) *Accounting for the costs of exploratory wells and exploratory-type stratigraphic test wells if the successful efforts method of accounting is followed.* The costs of drilling exploratory wells and the costs of drilling exploratory-type stratigraphic test wells shall be capitalized as part of the reporting entity's uncompleted wells, equipment, and facilities pending determination of whether the well has found proved reserves. If the well has found proved reserves, the capitalized costs of drilling the well shall become part of the entity's wells and related equipment and facilities (even though the well may not be completed as a producing well); if, however, the well has not found proved reserves, the capitalized costs of drilling the well, net of any salvage value, shall be charged to expense. The determination of whether proved reserves are found is usually made on or shortly after completion of drilling the well, and the capitalized costs shall either be charged to expense or be reclassified as part of the costs of wells and related equipment and facilities at that time. Information that becomes available after the end of the period covered by the financial statements but before those financial statements are issued shall be taken into account in evaluating conditions that existed at the balance sheet date. Occasionally, an exploratory well or an exploratory-type stratigraphic test well may be determined to have found oil and gas reserves, but classification of those reserves as proved cannot be made when drilling is completed. In those cases, one of three subparagraphs set forth below shall apply. Subparagraphs (1) and (2) are intended to prohibit, in all cases, the deferral of the costs of exploratory wells that find some oil and gas reserves merely on the chance that some event totally beyond the entity's control will occur, e.g., on the chance that the selling prices of oil and gas will increase sufficiently to result in classification of reserves as proved that are not commercially recoverable at current prices.

(1) Exploratory wells that find oil and gas reserves in an area requiring a major capital expenditure, such as a trunk pipeline, before production could begin. On completion of drilling, an exploratory well may be determined to have found oil and gas reserves, but classification of those reserves as proved depends on whether a major capital expenditure can be justified which, in turn, depends on wheth-

er additional exploratory wells find a sufficient quantity of additional reserves. In that case, the cost of drilling the exploratory well shall continue to be carried as an asset pending determination of whether proved reserves have been found only as long as both of the following conditions are met: (i) The well has found a sufficient quantity of reserves to justify its completion as a producing well if the required capital expenditure is made, and (ii) drilling of the additional exploratory wells is under way or firmly planned for the near future. Otherwise, the exploratory well shall be assumed to be impaired, and its costs shall be charged to expense.

(2) All other exploratory wells that find oil and gas reserves. In the absence of a determination as to whether the reserves that have been found can be classified as proved, the costs of drilling such an exploratory well shall not be carried as an asset for more than one year following completion of drilling. If, after that year has passed, a determination that proved reserves have been found cannot be made, the well shall be assumed to be impaired, and its costs shall be charged to expense.

(3) Exploratory-type stratigraphic test wells that find oil and gas reserves. On completion of drilling, such a well may be determined to have found oil and gas reserves, but classification of those reserves as proved depends on whether a major capital expenditure (usually a production platform) can be justified which, in turn, depends on whether additional exploratory-type stratigraphic test wells find a sufficient quantity of additional reserves. In that case, the cost of drilling the exploratory-type stratigraphic test well shall continue to be carried as an asset pending determination of whether proved reserves have been found only as long as both of the following conditions are met: (i) The well has found a quantity of reserves that would justify its completion for production had it not been simply a stratigraphic test well, and (ii) drilling of the additional exploratory-type stratigraphic test wells is under way or firmly planned for the near future. Otherwise, the exploratory-type stratigraphic test well shall be assumed to be impaired, and its costs shall be charged to expense.

(h) *Mineral property conveyances and related transactions if the successful efforts method of accounting is followed.* (1) Certain transactions, sometimes referred to as conveyances, are in substance borrowings repayable in cash or its equivalent and shall be accounted for as borrowings. The following are examples of such transactions:

(i) Entities seeking supplies of oil or gas sometimes make cash advances to

operators to finance exploration in return for the right to purchase oil or gas discovered. Funds advanced for exploration that are repayable by offset against purchases of oil or gas discovered, or in cash if insufficient oil or gas is produced by a specified date, shall be accounted for as a receivable by the lender and as a payable by the operator.

(ii) Funds advanced to an operator that are repayable in cash out of the proceeds from a specified share of future production of a producing property, until the amount advanced plus interest at a specified or determinable rate is paid in full, shall be accounted for as a borrowing. The advance is a payable for the recipient of the cash and a receivable for the party making the advance. Such transactions, as well as those described in subparagraph (5)(i) of this paragraph, are commonly referred to as production payments. The two types differ in substance, however, as explained in subparagraph (5)(i) of this paragraph.

(2) In the following types of conveyances, gain or loss shall not be recognized at the time of conveyance:

(i) A transfer of assets used in oil and gas producing activities (including both proved and unproved properties) in exchange for other assets also used in oil and gas producing activities.

(ii) A pooling of assets in a joint undertaking intended to find, develop, or produce oil or gas from a particular property or group of properties.

(3) In the following types of conveyances, gain shall not be recognized at the time of the conveyance:

(i) A part of an interest owned is sold and substantial uncertainty exists about recovery of the costs applicable to the retained interest.

(ii) A part of an interest owned is sold and the seller has a substantial obligation for future performance, such as an obligation to drill a well or to operate the property without proportional reimbursement for that portion of the drilling or operating costs applicable to the interest sold.

(4) If a conveyance is not one of the types described in subparagraphs (2) and (3) of this paragraph, gain or loss shall be recognized unless there are other aspects of the transaction that would prohibit such recognition under accounting principles applicable to enterprises in general.

(5) In accordance with subparagraphs (2) through (4) of this paragraph, the following types of transactions shall be accounted for as indicated in each example. No attempt has been made to include the many variations of those arrangements that occur, but subparagraphs (2) through (4) of this paragraph shall, where applicable, determine the accounting for those other arrangements as well.

(i) Some production payments differ from those described in subparagraph (1)(ii) of this paragraph in that the seller's obligation is not expressed in monetary terms but as an obligation to deliver, free and clear of all expenses associated with operation of the property, a specified quantity of oil or gas to the purchaser out of a specified share of future production. Such a transaction is a sale of a mineral interest for which gain shall not be recognized because the seller has a substantial obligation for future performance. The seller shall account for the funds received as unearned revenue to be recognized as the oil or gas is delivered. The purchaser of such a production payment has acquired an interest in a mineral property that shall be recorded at cost and amortized by the unit-of-production method as delivery takes place. The estimated oil or gas reserves and production data shall be reported, in accordance with paragraph (k) of this section, as those of the purchaser of the production payment and not of the seller.

(ii) An assignment of the operating interest in an unproved property with retention of a nonoperating interest in return for drilling, development and operation by the assignee is a pooling of assets in a joint undertaking for which the assignor shall not recognize gain or loss. The assignor's cost of the original interest shall become the cost of the interest retained. The assignee shall account for all costs incurred as specified by paragraphs (b) through (g) of this section and shall allocate none of those costs to the mineral interest acquired. If oil or gas is discovered, each party shall report its share of oil and gas reserves and production, in accordance with paragraph (k) of this section.

(iii) An assignment of a part of an operating interest in an unproved property in exchange for a "free well" with provision for joint ownership and operation is a pooling of assets in a joint undertaking by the parties. The assigner shall record no cost for the obligatory well; the assignee shall record no cost for the mineral interest acquired. All drilling, development, and operating costs incurred by either party shall be accounted for as provided in paragraphs (b) through (g) of this section. If the conveyance agreement requires the assignee to incur geological or geophysical expenditures instead of, or in addition to, a drilling obligation, those costs shall likewise be accounted for by the assignee as provided in paragraphs (b) through (g) of this section. If reserves are discovered, each party shall report its share of reserves and production, in accordance with paragraph (k) of this section.

(iv) A part of an operating interest in an unproved property may be assigned to effect an arrangement called a "carried interest" whereby the assignee (the carrying party) agrees to defray all costs of drilling, developing, and operating the property and is entitled to all of the revenue from production from the property, excluding any third party interest, until all of the assignee's costs have been recovered, after which the assignor will share in both costs and production. Such an arrangement represents a pooling of assets in a joint undertaking by the assignor and assignee. The carried party shall make no accounting for any costs and revenue until after recoupment (payout) of the carried costs by the carrying party. Subsequent to payout the carried party shall account for its share of revenue, operating expenses, and (if the agreement provides for subsequent sharing of costs rather than a carried interest) subsequent development costs. During the payout period the carrying party shall record all costs, including those carried, as provided in paragraphs (b) through (g) of this section, and shall record all revenue from the property including that applicable to the recovery of cost carried. The carried party shall report as oil or gas reserves, in accordance with paragraph (k) of this section, only its share of proved reserves estimated to remain after payout, and unit-of-production amortization of the carried party's property cost shall not commence prior to payout. Prior to payout the carrying party's reserve estimates and production data, reported in accordance with paragraph (k) of this section, shall include the quantities applicable to recoupment of the carried costs.

(v) A part of an operating interest owned may be exchanged for a part of an operating interest owned by another party. The purpose of such an arrangement, commonly called a joint venture in the oil and gas industry, often is to avoid duplication of facilities, diversify risks, and achieve operating efficiencies. Such reciprocal conveyances represent exchanges of similar productive assets, and no gain or loss shall be recognized by either party at the time of the transaction. In some joint ventures which may or may not involve an exchange of interests, the parties may share different elements of costs in different proportions. In such an arrangement a party may acquire an interest in a property or in wells and related equipment that is disproportionate to the share of costs borne by it. As in the case of a carried interest or a free well, each party shall account for its own cost under the provisions of this section. No gain shall be recognized for the acquisition of an interest in joint assets,

the cost of which may have been paid in whole or in part by another party.

(vi) In a unitization all of the operating and nonoperating participants pool their assets in a producing area (normally a field) to form a single unit and in return receive an undivided interest (of the same type as previously held) in that unit. Unitizations generally are undertaken to obtain operating efficiencies and to enhance recovery of reserves, often through improved recovery operations. Participation in the unit is generally proportionate to the oil and gas reserves contributed by each. Because the properties may be in different stages of development at the time of unitization, some participants may pay cash and others may receive cash to equalize contributions of wells and related equipment and facilities with the ownership interests in reserves. In those circumstances, cash paid by a participant shall be recorded as an additional investment in wells and related equipment and facilities, and cash received by a participant shall be recorded as a recovery of cost. The cost of the assets contributed plus or minus cash paid or received is the cost of the participant's undivided interest in the assets of the unit. Each participant shall include its interest in reporting reserve estimates and production data.

(vii) If the entire interest in an unproved property is sold for cash or cash equivalent, recognition of gain or loss depends on whether, in applying paragraph (c) of this section, impairment had been assessed for that property individually, or by amortizing that property as part of a group. If impairment was assessed individually, gain or loss shall be recognized. For a property amortized by providing a valuation allowance on a group basis, neither gain nor loss shall be recognized when an unproved property is sold unless the sales price exceeds the original cost of the property, in which case gain shall be recognized in the amount of such excess.

(viii) If a part of the interest in an unproved property is sold, even though for cash or cash equivalent, substantial uncertainty usually exists as to recovery of the cost applicable to the interest retained. Consequently, the amount received shall be treated as a recovery of cost. However, if the sales price exceeds the carrying amount of a property whose impairment has been assessed individually in accordance with paragraph (c) of this section, or exceeds the original cost of a property amortized by providing a valuation allowance on a group basis, gain shall be recognized in the amount of such excess.

(ix) The sale of an entire interest in a proved property that constitutes a separate amortization base is not one

of the types of conveyances described in paragraphs (h)(2) and (h)(3) of this section. The difference between the amount of sales proceeds and the unamortized cost shall be recognized as a gain or loss.

(x) The sale of a part of a proved property, or of an entire proved property constituting a part of an amortization base, shall be accounted for as the sale of an asset, and a gain or loss shall be recognized, since it is not one of the conveyances described in paragraphs (h)(2) and (h)(3) of this section. The unamortized cost of the property or group of properties a part of which was sold shall be apportioned to the interest sold and the interest retained on the basis of the fair values of those interests. However, the sale may be accounted for as a normal retirement under the provisions of paragraph (d) of this section with no gain or loss recognized if doing so does not significantly affect the unit-of-production amortization rate.

(xi) The sale of the operating interest in a proved property for cash with retention of a nonoperating interest is not one of the types of conveyances described in paragraphs (h)(2) and (h)(3) of this section. Accordingly, it shall be accounted for as the sale of an asset, and any gain or loss shall be recognized. The seller shall allocate the cost of the proved property to the operating interest sold and the nonoperating interest retained on the basis of the fair values of those interests.

(xii) The sale of a proved property subject to a retained production payment that is expressed as a fixed sum of money payable only from a specified share of production from that property, with the purchaser of the property obligated to incur the future costs of operating the property, shall be accounted for as follows: If satisfaction of the retained production payment is reasonably assured, the seller of the property, who retained the production payment, shall record the transaction as a sale, with recognition of any resulting gain or loss. The retained production payment shall be recorded as a receivable, at an amount reflecting appropriate consideration of imputed interest thereon. The purchaser shall record as the cost of the assets acquired the cash consideration paid plus the present value of the retained production payment, which shall be recorded as a payable. The oil and gas reserve estimates and production data, including those applicable to liquidation of the retained production payment, shall be reported by the purchaser of the property. If satisfaction of the retained production payment is not reasonably assured, the transaction is in substance a sale with retention of an overriding royalty that shall be accounted for in accordance with

subparagraph (5)(xi) of this paragraph.

(xiii) The sale of a proved property subject to a retained production payment that is expressed as a right to a specified quantity of oil or gas out of a specified share of future production shall be accounted for in accordance with subparagraph (5)(xi) of this paragraph.

#### FULL COST METHOD

(Provisions of paragraph (i) are contained in Accounting Series Release No. 258 dated December 19, 1978.)

#### INCOME TAXES

(j) *Income taxes.* Comprehensive interperiod income tax allocation by the deferred method shall be followed for intangible drilling and development costs and other costs incurred that enter into the determination of taxable income and pretax accounting income in different periods. The excess of statutory depletion over cost depletion for income tax purposes shall be accounted for as a permanent difference in the period in which the excess is deducted for income tax purposes.

#### DISCLOSURE REQUIREMENTS

(k) *Disclosure of quantities of proved oil and gas reserves and historical financial data.* The following data shall be disclosed in the body of the financial statements, in the notes thereto, or in a separate schedule or other presentation that is an integral part of the financial statements.

*Exemption.* This paragraph shall not apply to filings under the federal securities laws by any registrant meeting all of the conditions described below for each of the two most recent fiscal years, based on its annual consolidated financial statements:

(i) Gross revenues from sales or transfers of oil and gas (as defined in subparagraph (4)(ii) of this paragraph) do not exceed 10 percent of total revenues;

(ii) Income after taxes (but before extraordinary items) from oil and gas producing activities, including amounts applicable to investees accounted for under the equity method, does not exceed 10 percent of consolidated income before extraordinary items; and

(iii) The "Present Value of Estimated Future Net Revenues" (see subparagraph (6)(ii) of this paragraph), including amounts attributable to investees accounted for under the equity method, plus the net capitalized costs

of unproved properties, do not exceed 10 percent of total assets.

(1) *Disclosure of method of accounting.* The reporting entity shall disclose on the face of its balance sheet that it is adhering to the successful efforts method of accounting or the full cost method of accounting.

(2) *Disclosure of capitalized costs.* The aggregate amount of capitalized costs relating to oil and gas producing activities and the aggregate amount of the related accumulated depreciation, depletion, amortization, and valuation allowances shall be reported as of the end of each period for which a complete set of (annual or interim) financial statements is presented, with separate presentation for each geographic area for which quantities of proved reserves are presented in accordance with paragraph (k)(5) of this section. If the capitalized costs of unproved properties are significant, aggregate amounts shall be reported separately for capitalized costs related to unproved properties and capitalized costs related to proved properties. Capitalized costs of support equipment and facilities may be disclosed separately or included, as appropriate, with capitalized costs of proved and unproved properties.

(3) *Disclosure of costs incurred in oil and gas producing activities.* The financial statements shall disclose the amounts of each of the following types of costs for each year for which an income statement is required (whether those costs are capitalized or charged to expense at the time they are incurred):

- (i) Property acquisition costs (disclose separately the costs of acquiring proved properties, if significant).
- (ii) Exploration costs.
- (iii) Development costs.
- (iv) Production (lifting) costs.

Exploration, development, and production costs include depreciation of support equipment and facilities used in those activities rather than the expenditures to acquire support equipment and facilities. Production (lifting) costs do not include depreciation, depletion, and amortization of capitalized acquisition, exploration, and development costs. If some or all of those costs are incurred in foreign countries, the amounts shall be disclosed separately for each of the geographic areas for which reserve quantities are disclosed in accordance with paragraph (k)(5) of this section and for any other foreign geographic area in which significant costs have been incurred without discovery of significant proved reserves. Also, disclose the aggregate amount of depreciation, depletion, amortization, and valuation provisions relating to oil and gas producing activities, presented separately for each of these geographic areas. If

the reporting entity's share of the oil and gas reserves of its investee companies accounted for by the equity method is reported in conformity with paragraph (k)(5) of this section, disclosure shall also be made of the investor's share of its investee's capitalized costs and costs incurred in oil and gas producing activities.

(4) *Revenues from producing oil and gas.* (i) For each full fiscal year for which an income statement is required, disclose, for each geographic area for which reserve quantities are disclosed in accordance with paragraph (k)(5) of this section, the net revenues from oil and gas production related to each of the following, if significant: (A) Proved developed oil and gas reserves, (B) reserves applicable to long-term supply or similar agreements with foreign governments in which the entity acts as producer (see paragraph (k)(5) of this section), and (C) the entity's proportional interest in reserves of investees accounted for by the equity method.

(ii) Net revenues shall be computed by subtracting production (lifting) costs from gross revenues that are determined in accordance with the provisions of this subparagraph, as presented below. The following accounting practices shall be applied in determining gross revenues from sales or transfers of production of oil and gas:

(A) Sales to unaffiliated entities shall be included in gross revenues at the amount received in sales transactions attributable to net working interests, royalty interests, oil payments interests (see paragraph (h) of this section), net profits interests, etc., of the reporting entity. Production or severance taxes should not be deducted in determining gross revenues. Royalty payments and net profits disbursements should be excluded from gross revenues.

(B) Sales and transfers to unconsolidated affiliated persons and to other operations (such as refineries, chemical plants, etc.) of the reporting entity shall be separately disclosed and accounted for in the same manner as described in subparagraph (4)(i)(A) of this paragraph except that such sales and transfers shall be valued at estimated market prices based on the prices of comparable products using posted field prices, if applicable, or amounts estimated to represent prices equivalent to those that could be obtained in a competitive arm's-length market environment, giving recognition to transportation costs, quality differences, and arrangements with and regulation by governments.

(5) *Disclosure of estimated quantities of proved oil and gas reserves.* Net quantities of proved reserves and proved developed reserves of crude oil (including condensate and natural gas

liquids) and natural gas shall be reported as of the beginning and the end of each fiscal year for which an income statement is required. "Net" quantities of reserves include those relating to the operating and non-operating interests in properties as defined in paragraph (b)(1) of this section. Quantities of reserves relating to royalty interests owned shall be included in "net" quantities if the necessary information is available; if reserves relating to royalty interests owned are not included because the information is unavailable, that fact and the reporting entity's share of oil and gas produced for those royalty interests shall be reported for each year for which a complete set of financial statements is presented. "Net" quantities shall not include reserves relating to interests of others in properties owned by the reporting entity.

(i) Changes in the net quantities of proved reserves of oil and of gas during each fiscal year for which an income statement is required shall be reported. Changes resulting from each of the following shall be shown separately, with appropriate explanation of significant changes:

(A) *Revisions of previous estimates.* Revisions represent changes in previous estimates of proved reserves, either upward or downward, resulting from new information (except for an increase in proved acreage) normally obtained from development drilling and production history or resulting from a change in economic factors.

(B) *Improved recovery.* Changes in reserve estimates resulting from application of improved recovery techniques shall be separately shown if significant. If not significant, such changes shall be included in revisions of previous estimates.

(C) *Purchases of minerals in-place.*

(D) *Extensions, discoveries, and other additions.* Additions to proved reserves that result from extension of the proved acreage of previously discovered (old) reservoirs through additional drilling in periods subsequent to discovery and discovery of new fields with proved reserves or of new reservoirs of proved reserves in old fields.

(E) *Production.*

(F) *Sales of minerals in-place.*

(ii) If the reporting entity's proved reserves of oil and gas are located entirely within its home country, that fact shall be disclosed. If some or all of its reserves are located in foreign countries, the disclosures of net quantities of reserves of oil and gas and changes in them (as required above) shall be separately reported for the entity's home country (if significant reserves are located there) and each foreign geographic area in which significant reserves are located. Foreign geographic areas are individual coun-

tries or groups of countries, as appropriate, for meaningful disclosure in the circumstances.

(iii) Net quantities disclosed shall not include oil or gas subject to purchase under long-term supply, purchase, or similar agreements and contracts, including such agreements with foreign governments or authorities. However, quantities of oil and gas subject to such agreements with foreign governments or authorities as of the end of each fiscal year for which an income statement is required, and the net quantity of oil or gas received under the agreements during each such year, shall be separately disclosed if the reporting entity participates in the operation of the properties in which the oil or gas is located or otherwise serves as the "producer" of those reserves, as opposed, for example, to being an independent purchaser, broker, dealer, or importer.

(iv) In determining the reserve quantities to be reported:

(A) If consolidated financial statements are issued, 100 percent of the net reserve quantities attributable to the parent company and 100 percent of the net reserve quantities attributable to its consolidated subsidiaries (whether or not wholly owned) shall be included.

(B) If the financial statements include investments that are proportionately consolidated, reserve quantities shall include a proportionate share of the investee's net oil and gas reserves.

(C) If the financial statements include investments that are accounted for by the equity method, the investee's net proved oil and gas reserves shall not be included in the disclosures of reserves. However, the reporting entity's share of the investee's net proved oil and gas reserves shall be separately reported as of the end of each fiscal year for which an income statement is required.

(v) If important economic factors or significant uncertainties affect particular components of proved reserves, explanations shall be provided. Examples include unusually high expected development or lifting costs; the necessity to build a major pipeline or other major facilities before production of the reserves can begin; or contractual obligations to produce and sell a significant portion of reserves at prices that are substantially below those at which the oil and gas could otherwise be sold in the absence of the contractual obligation.

(vi) In reporting reserve quantities and changes in them, oil reserves (which include condensate and natural gas liquids) shall be stated in barrels, and gas reserves in cubic feet.

(6) *Disclosure of future net revenues from estimated production of proved oil and gas reserves.* In conjunction

with the disclosure of changes in net quantities of estimated proved reserves of crude oil (including condensate and natural gas liquids) and natural gas as required by paragraph (k)(5) of this section, the following information shall be disclosed in financial statements for each geographic classification for which quantities of oil and gas are disclosed:

(i) For each of the following categories: (A) Proved oil and gas reserves, (B) proved developed oil and gas reserves, (C) proved oil and gas applicable to long-term supply or similar agreements with foreign governments in which the entity acts as producer, and (D) the entity's share of proved oil and gas reserves of investees accounted for by the equity method, an amount (the "Estimated Future Net Revenues"), in the aggregate, computed by applying current prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to estimated future production of proved oil and gas reserves as of the date of the latest balance sheet presented, less estimated future expenditures (based on current costs) to be incurred in developing and producing the proved reserves, and assuming continuation of existing economic conditions. Present separately the amounts applicable to each of the first three succeeding fiscal years, and the remainder in a single amount. Indicate the basis used to compute current prices and current costs.

(ii) The present value of the Estimated Future Net Revenues (the "Present Value of Estimated Future Net Revenues"), as of the end of each fiscal year for which an income statement is required, computed using the Estimated Future Net Revenues and a discount factor of ten percent. In addition, disclose the portions of the Present Value of Estimated Future Net Revenues, at such balance sheet dates, attributable to each of the following components of proved oil and gas reserves: (A) Proved reserves added in years prior to the current year; and (B) proved reserves added during the current year, with amounts attributable to application of improved recovery techniques or purchases of reserves in-place disclosed separately, if significant (which in this case shall generally be considered to be amounts greater than ten percent of total proved reserves added during the current year).

(iii) The Present Value of Estimated Future Net Revenues, computed as set forth at paragraph (k)(6)(i) of this section, attributable to each of the following, stated separately: (A) Proved developed reserves of oil and gas, (B) proved reserves of oil and gas applicable to long-term supply agreements

with foreign governments in which the entity acts as producer, and (C) the entity's share of proved reserves of oil and gas of investees accounted for by the equity method.

(iv) Any additional information of which management is aware and which it believes is necessary to prevent the above information from being misleading.

(v) Information relating to the disclosure of future net revenues from estimated production of proved oil and gas reserves pursuant or supplemental to the requirements of this section shall be deemed not to be an untrue statement of a material fact; a statement false or misleading with respect to any material fact; an omission to state a material fact necessary to make a statement not misleading; or the employment of a manipulative, deceptive, or fraudulent device, contrivance, scheme, transaction, act, practice, course of business or an artifice to defraud; as those terms are used in the Securities Act of 1933, the Securities Exchange Act of 1934, or the Public Utility Holding Company Act of 1935, or rules and regulations thereunder, unless such information: (A) Was prepared without a reasonable basis; or (B) was disclosed other than in good faith.

These amendments are adopted pursuant to authority in sections 6, 7, 8, 10 and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j, 77s) of the Securities Act of 1933; sections 12, 13, 15(d) and 23(a) (15 U.S.C. 78l, 78m, 78o(d), 78w), of the Securities Exchange Act of 1934; sections 5(b), 14, and 20(a) (15 U.S.C. 79e, 79n, 79t) of the Public Utility Holding Company Act of 1935; sections 8, 30, 31(c) and 38(a) (15 U.S.C. 80a-8, 80a-29, 80a-30(c), 80a-37(a)) of the Investment Company Act of 1940; and section 503 (42 U.S.C. 6383) of the Energy Policy and Conservation Act of 1975.

Pursuant to section 23(a)(2) of the Securities Exchange Act, the Commission has considered the impact of these amendments on competition and is not aware of any burden that they would impose on competition.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

DECEMBER 19, 1978.

(Release Nos. 33-6007; 34-15417; 35-20837; IC-10531; AS-258)

**PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, INVESTMENT COMPANY ACT OF 1940, AND ENERGY POLICY AND CONSERVATION ACT OF 1975**

**Oil and Gas Producers—Full Cost Accounting Practices**

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission is adopting rules that establish uniform requirements for financial accounting and reporting practices of oil and gas producers following the full cost method of accounting. The Commission has previously published, in Accounting Series Release No. 253, accounting measurement standards for the successful efforts method of accounting. Proposed rules for full cost accounting were published concurrently with that release. The rules being adopted contain modifications based upon evaluation of written comments.

EFFECTIVE DATE: The rules published in this release shall be effective initially for fiscal years ending after December 25, 1979.

FOR FURTHER INFORMATION CONTACT:

James L. Russell or Rita J. Gunter, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 (202-755-0222).

SUPPLEMENTARY INFORMATION: In Accounting Series Release No. 253 ("ASR No. 253"), issued on August 31, 1978, the Commission announced its conclusions concerning financial accounting and reporting standards for oil and gas producing companies. Among these was the determination that the development of new measurement standards was necessary in order to achieve meaningful reporting of earnings and financial position for companies in that industry. These new standards should provide for recognition in financial statements of proved oil and gas reserves as assets and changes in proved reserves in earnings. In consideration of the need to establish standards for reserve valuations and to achieve an acceptable degree of

<sup>1</sup> Securities Act Release No. 33-5966 (43 FR 40688).

reliability, a series of steps covering several years was outlined seeking the development of "reserve recognition accounting." During this interim period, the Commission concluded that companies should be permitted to continue to follow either of the two traditional historical-cost accounting methods. Rules relating to the application of successful efforts accounting (which conformed to the standards of Statement No. 19 of the Financial Accounting Standards Board) were adopted in ASR No. 253, together with definitions, tax accounting standards, and disclosure requirements applicable to all oil and gas producers.<sup>4</sup> Proposed rules that would add §210.3-18(i) to Regulation S-X to govern the application of full cost accounting for companies following that method were published concurrently in Release No. 33-5968 (43 FR 40724), August 31, 1978.

In that release, the Commission stated that its intention was to develop a practical approach for applying the full cost method of accounting that would be logically consistent and would not differ substantially from existing practice. Comments on the proposal were received from 48 persons, including oil and gas producers, accounting firms, and financial analysts. These comments have been considered by the Commission and various changes are reflected in the rules presently being adopted.

#### COMMENTS AND CHANGES

##### COSTS TO BE AMORTIZED

Most letters commenting on the rules proposed in Release No. 33-5968 addressed the issue of whether all capitalized costs should be subject to immediate amortization. It was generally acknowledged that companies with ongoing exploration programs typically have a recurring level of preproduction costs (in relation to the total investment in the cost center), consisting of the cost of undeveloped leases and the related carrying and evaluation costs. This normal inventory of preproduction costs should be included in the cost center for amortization purposes as the costs are incurred, and any additional reserves should be taken into consideration upon discovery on a prospective basis. This method of accounting should result in a reasonable and consistent allocation of costs over a period of time.

However, there was general disagreement with the proposed requirement that the capitalized costs of all undeveloped leases and uncompleted wells and facilities be amortized. It was pointed out that situations may arise

<sup>4</sup>Various technical amendments to these definitions and rules have been adopted by the Commission in Accounting Series Release No. 257, dated December 19, 1978 and published concurrently with this release.

in which major expenditures are required prior to production, such as unusually large investments in off-shore leases, major development projects, or secondary and tertiary recovery projects. While previous methods of determining the exclusion of costs from the amortization base have varied among companies, the principle of excluding major costs of this nature was felt by these commentators to be generally accepted. Failure to exclude such costs, it was argued, would result in an unrealistic overstatement of the amortization provision in the early lives of the properties. Exclusion from the amortization base was further supported by the assertion that costs incurred should be considered to be at least equal to the value of the asset at the time of the initial investment. Although certain projects will ultimately be abandoned, it was argued that impairments should be recognized when they occur, and should not be anticipated by premature amortization of the costs. Costs of projects that ultimately prove to be productive should become subject to amortization at the time that this evaluation is determined and the related proved reserves are included in the amortization base.

The Commission considers these arguments to have merit and has modified the rules to provide that the costs of unusually significant acquisitions of unproved properties and major development projects may be excluded from the capitalized costs to be amortized. Specifically, amortization of the costs of unproved properties that are unusually significant (such as the costs of acquiring and evaluating major offshore leases) may be deferred until a determination is made as to whether proved reserves are attributable to the properties, subject to periodic assessment of whether impairment has occurred. Also, the costs of major development projects may be excluded from amortization in cases where unusually significant costs must be incurred prior to a determination of the quantities of proved reserves attributable to the properties under development. Examples of such projects include the installation of an offshore drilling platform from which development wells are to be drilled and improved recovery programs undertaken in expectation of significant additions to proved reserves.

Because of the various judgments involved in assessing significance, the rules do not contain a specific test to determine whether an investment is "unusually significant." However, the Commission has instructed its staff to investigate existing practices and determine whether it is necessary to publish a guideline in this area, such as the percentage of total unamortized capitalized costs that must be exceed-

ed if a major investment project is to be excluded from amortization. It should also be noted that the rules require separate disclosure on the balance sheet of the amount of preproduction costs that are not being amortized and a description of the current status of the projects involved, including an estimate of when the costs will be included in the amortization computation and, to the extent possible, the potential future impact on the amortization rate.

Several commentators questioned the appropriateness of including estimated future development costs in the costs to be amortized, since additions to proved reserves could be expected from major development expenditures that would not be reflected in the amortization computation. The Commission believes that future development costs should be included; the exclusion of the costs of major development projects from the amortization base until reserves can be evaluated should eliminate situations where an inappropriate allocation of costs to current production would result.

##### BASIS OF AMORTIZATION

Release No. 33-5968 proposed that unit-of-production amortization of capitalized costs be computed either on the basis of physical units of oil and gas (converted to a common unit of measure according to their relative energy content) or monetary units of net revenue. Several commentators recommended that only the use of physical units should be permitted; this would be consistent with the requirements for amortization of costs in cases of joint production of oil and gas under the Commission's successful efforts rules. Other commentators expressed agreement with the proposal to permit use of revenue units, since this computation utilizes the same basic information as amortization computations involving physical units, while automatically compensating for differences in the relative sales prices of the reserves. These commentators also pointed out that a method based on energy content ignores the fact that prices of oil and gas in today's regulated market environment do not necessarily correspond to their relative energy content.

However, the commentators favoring revenue units generally indicated that the computation should be based on gross revenues rather than net revenues. The use of net revenues, it was argued, requires estimates of future costs and introduces distortions when unusually high or low operating expenses are incurred in individual years. On the other hand, the relevant information for gross revenues is readily attainable, since current production is already recorded in dollars as

revenues, and reserve reports frequently indicate reserves in terms of dollars based on current prices.

The Commission believes that there should be consistency in the methods used by companies following the full cost method of accounting. Further, the Commission believes that the use of physical units in terms of energy content (BTU's) as the amortization basis has the greatest conceptual merit in a market environment in which the relative prices of oil and gas approximate their relative energy content. However, the fact that substantial production is currently subject to pricing regulations may result in significant differences in amortization under the BTU method as compared to amortization based on sales values. Accordingly, the final rules prescribe the use of the physical units method unless the use of such method, because of existing pricing regulations, would cause an amortization provision that would be inconsistent with the current prices being received. In those instances, the gross revenue method may be used as the basis for computing amortization rates.

##### LIMITATION ON CAPITALIZED COSTS

A majority of commentators expressed reservations concerning the proposal that the cost center ceiling be based on the present value of future net revenues from estimated production of proved oil and gas reserves. It was stated that future net revenues should not be discounted for purposes of the ceiling limitation, that other classifications of reserves in addition to proved reserves should be considered, or that anticipated price increases should be included. The primary concern expressed by these commentators was that the proposed ceiling computation, in certain cases, would result in write-offs that would reduce net capitalized costs below the actual realizable value of the properties.

The Commission continues to believe that the aggregate of (1) the present value of proved reserves and (2) the lower of cost or fair market value of unproved properties is an appropriate basis for determining the limitation on capitalized costs. However, the rules have been revised to specify that the costs of significant investments in unproved properties and development projects are to be considered separately for purposes of the ceiling computation.

If application of the rules, as a result of an unusual event or transaction such as a major purchase of proved properties, would require a writedown when the fair value of the properties in a cost center clearly exceeds the unamortized costs, the registrant may request an exemption from

the general rule. In such cases, the registrant should be prepared to demonstrate that the additional value clearly exists beyond reasonable doubt.

Finally, the rules specify that the cost center ceiling is to be computed giving consideration to income tax effects. Comments were received indicating that such income tax effects would be difficult to estimate and, in most cases, would not have a significant effect on the ceiling computation. However, the Commission believes that unusual tax relationships may exist in certain instances, as a result of the expiration of operating loss carryforwards, changes in tax rates, etc. In these circumstances, it will be necessary to consider tax effects in computing the ceiling limitation.

##### MINERAL PROPERTY CONVEYANCES

The rules dealing with mineral property conveyances specify that a sale of oil and gas reserves shall be accounted for as an adjustment of capitalized costs, unless the adjustment causes a significant alteration of the relationship between remaining capitalized costs and proved reserves attributable to the cost center. Guidance has been added that a significant alteration would not normally be expected to result from a sale involving less than 25 percent of the total reserve quantities of the cost center.

Paragraph (i)(6)(i) of the proposed rules would have required, in cases where the recognition of gain or loss on a sale of oil and gas properties is appropriate, that capitalized costs be allocated between reserves sold and reserves retained on the same basis used to compute amortization. Several commentators pointed out that the value of proved reserves sold and retained could differ significantly as the result of price regulations or quality differences. The sales price might also reflect values other than proved reserves, such as probable reserves or unproved leases, which should also be considered in the cost allocation. The rules as adopted provide that costs should be allocated between cost center assets sold and retained in the manner described in the proposed rules except where estimated relative fair values should be used in order to reflect other substantial economic differences between the properties sold and those retained.

The accompanying rules also clarify the Commission's intent that income from sales of unproved properties or from drilling arrangements should be recognized only in unusual situations where the cash consideration received exceeds the total cost of the properties plus any exploration and development costs to be subsequently incurred. Otherwise, income from sales of un-

proved properties or from drilling arrangements with respect to properties should be credited to the cost center, and any related costs should be capitalized as part of that cost center. In this way, drilling arrangement income is recognized as a reduction of overall costs of oil and gas reserves. The accounting for drilling arrangements should reflect the substance of the transactions, regardless of the form of the underlying agreements, including consideration of guarantees of performance or indebtedness.

##### DISCLOSURES

The Commission's proposed rules called for the disclosure by geographic area of (1) the approximate amount of capitalized costs that would have been charged to expense had the successful efforts method of accounting been followed, and (2) the approximate amount of costs incurred that would have been charged to expense under the successful efforts method. Many commentators objected to this proposed requirement as an unreasonable and unnecessary burden. It was also seen by these persons as inconsistent with the basic conclusions of ASR No. 253 with respect to the severe limitations of both historical-cost methods in permitting investors and government policy-makers to "gain an understanding of the operations of individual companies or to compare the operations of different companies." A small minority, however, expressed the view that the "as if" disclosures were essential for comparing the financial position and operating results of companies using alternative accounting methods during the period of implementation of reserve recognition accounting. Those in favor of the supplemental disclosures would, in addition, expand the requirement to include disclosure of pro forma net income.

The Commission has decided to defer temporarily any final action on this proposed disclosure requirement until it considers various questions that have been raised with respect to accounting changes and preferability of accounting methods in this industry. Therefore, the accompanying rules do not contain a requirement for supplemental disclosures based on successful efforts accounting, and this disclosure rule proposal remains outstanding.

##### CONSOLIDATED FINANCIAL STATEMENTS

Release No. 33-5968 stated that a company following the full cost method would be required to apply that method to all of its operations, including those of its subsidiaries and of investees accounted for by the equity method. Commentators pointed out that the requirement regarding

equity investees could present substantial difficulties. If an equity investee were following the successful efforts method, the information necessary to convert a company's investment would not be available on a timely basis in many situations. The Commission has reconsidered this proposal and has eliminated the requirement that the investor's accounting method be applied to its equity investees. However, the final rules specify that a registrant must apply its accounting method to the operations of its subsidiaries.

A number of commentators also requested clarification of other requirements as they apply to companies within a consolidated group. Paragraph (i)(3)(v) requires that amortization rates be determined on a consolidated basis even though this may result in a consolidated amortization provision that is not equal to the sum of the expenses for the individual members of the consolidated group. This same concept applies to the determination of the limitation on capitalized costs within cost centers.

#### RETROACTIVE RESTATEMENT

Several persons suggested that general guidance be provided for the retroactive application of the full cost rules, because of the number of estimates and judgments necessary in making such restatements. Accordingly, a discussion of the initial application of the rules is included in this release. Specifically, any provision of the rules that would not have a significant effect on prior years' financial statements need not be retroactively applied. Estimates of quantities of oil and gas reserves made in prior years for purposes of amortization computations shall not currently be revised in retrospect. Furthermore, if unamortized costs capitalized within a cost center do not exceed the ceiling limitation when the rules are initially applied, it is not necessary to determine whether there may have been an excess in prior years.

#### OTHER MATTERS

Several comment letters contained suggestions that cost centers of more than one country may be appropriate in certain cases (e.g., U.S. and Canada, or contiguous offshore areas such as the North Sea). However, oil and gas reserves in different countries are not always interchangeable, either in kind or in monetary value, because of varying energy and tax laws, market conditions, property rights, and national economic policies. Therefore, the requirement for establishing cost centers on a country-by-country basis (including related offshore areas) has been retained.

In order to conform to comparable rules for the successful efforts

method, paragraph (i)(3)(iv) has been added to acknowledge that, in some cases, depreciation of natural gas cycling and processing plants may appropriately be computed by a method other than unit-of-production.

Finally, a number of commentators expressed concern with the applicability of the proposed rules to properties regulated for rate-making purposes on an individual-company-cost-of-service basis. Among the technical amendments to its rules on financial accounting and reporting by oil and gas producers adopted by the Commission in Accounting Series Release No. 257 is a provision that appropriate recognition may be given to differences in capitalized costs and in the basis for amortization arising because of the effect of the rate-making process. This applies to both the successful efforts and the full cost rules. However, the Commission believes that the disclosure requirements of § 210.3-18(k) are relevant to rate-regulated companies, and therefore has not exempted them from these disclosure requirements.

#### EFFECTIVE DATE AND INITIAL APPLICATION

The provisions of § 210.3-18 are effective for fiscal years ending after December 25, 1978, that are contained in filings that include fiscal years ending after December 25, 1979, although earlier application is encouraged. Accounting changes adopted to conform to these rules are to be made retroactively by restating the financial statements of prior periods. Financial statements for the fiscal year in which these rules are first applied should disclose the nature of the accounting changes and their effect on income before extraordinary items, net income, and related per share amounts for each period restated.

Retroactive application of the provisions of these rules requires the use of estimates and approximations. A provision that would not have a significant effect on prior years' financial statements need not be retroactively applied. Further, retroactive application of some provisions of these rules may require the use of estimates of a type not previously made; information that may have become available some time after the year being restated may be taken into account in making those estimates, except that estimates of quantities of oil and gas reserves that had been made in prior years shall not currently be revised in retrospect.

For reporting entities following the full cost method of accounting, retroactive application of § 210.3-18(i)(4), "Limitations on capitalized costs," shall be applied as follows:

(a) If unamortized costs capitalized within a cost center do not exceed the cost center ceiling as of the beginning

of the fiscal period in which the rules are initially adopted, then no provisions shall be made for past periods when application of the rules based on information known during those periods might have resulted in unamortized capitalized costs being in excess of the cost center ceiling.

(b) If unamortized costs capitalized within a cost center exceed the cost center ceiling as of the beginning of the fiscal year in which the rules are initially adopted, then this excess shall be recognized retroactively through a charge to expense in the periods in which the excess initially arose.

#### COMMISSION ACTION

The Commission hereby amends 17 CFR Part 210 by the addition of new paragraph (i) to § 210.3-18, as set forth below:

§ 210.3-18 Financial accounting and reporting for oil and gas producing activities pursuant to the federal securities laws and the Energy Policy and Conservation Act of 1975.

(i) *Application of the full cost method of accounting.* A reporting entity that follows the full cost method shall apply that method to all of its operations and to the operations of its subsidiaries, as follows:

(1) *Determination of cost centers.* Cost centers shall be established on a country-by-country basis.

(2) *Costs to be capitalized.* All costs associated with property acquisition, exploration, and development activities (as defined in paragraph (a) of this section) shall be capitalized within the appropriate cost center. Any internal costs that are capitalized shall be limited to those costs that can be directly identified with acquisition, exploration, and development activities undertaken by the reporting entity for its own account, and shall not include any costs related to production, general corporate overhead, or similar activities.

(3) *Amortization of capitalized costs.* Capitalized costs within a cost center shall be amortized on the unit-of-production basis using proved oil and gas reserves, as follows:

(i) Costs to be amortized shall include (A) all capitalized costs, less accumulated amortization, other than the cost of properties described in paragraph (ii) below; (B) the estimated future expenditures (based on current costs) to be incurred in developing proved reserves; and (C) estimated dismantlement and abandonment costs, net of estimated salvage values.

(ii) The cost of unusually significant investments in unproved properties and major development projects may

be excluded from capitalized costs to be amortized, subject to the following:

(A) Costs of acquiring and evaluating unproved properties may be excluded only if the costs incurred are unusually significant in relation to the aggregate costs to be amortized (e.g., the costs of acquiring major offshore leases). All costs of acquiring such properties and related exploration costs shall be excluded from the amortization computation until it is determined whether or not proved reserves are attributable to the properties. Until such a determination is made, the properties shall be assessed individually to ascertain whether impairment has occurred (see paragraph (c) of this section). If the results of the assessment indicate impairment, the amount of the impairment shall be added to the costs to be amortized.

(B) Costs of major development projects may be excluded from amortization only if unusually significant development costs must be incurred prior to ascertaining the quantities of proved reserves attributable to the properties under development (e.g., the installation of an offshore drilling platform from which development wells are to be drilled, the installation of improved recovery programs, and similar major projects undertaken in the expectation of significant additions to proved reserves). In such cases, a portion of the development costs identified with such a project may be excluded from the costs to be amortized until the proved reserves added as a result of the project are ascertainable or until it is determined that impairment has occurred.

(iii) Amortization shall be computed on the basis of physical units, with oil and gas converted to a common unit of measure on the basis of their approximate relative energy content, unless economic circumstances (related to the effects of regulated prices) indicate that use of units of revenue is a more appropriate basis of computing amortization. In the latter case, amortization shall be computed on the basis of current gross revenues (excluding royalty payments and net profits disbursements) from production in relation to future gross revenues, based on current prices (including consideration of changes in existing prices provided only by contractual arrangements), from estimated production of proved oil and gas reserves. The effect of a significant price increase during the year on estimated future gross revenues shall be reflected in the amortization provision only for the period after the price increase occurs.

(iv) In some cases it may be more appropriate to depreciate natural gas cycling and processing plants by a method other than the unit-of-production method.

(v) Amortization computations shall be made on a consolidated basis, including investees accounted for on a proportionate consolidation basis. Investees accounted for on the equity method shall be treated separately.

(4) *Limitation on capitalized costs:* (i) For each cost center, capitalized costs, less accumulated amortization and related deferred income taxes, shall not exceed an amount (the cost center ceiling) equal to the sum of: (A) The present value of future net revenues from estimated production of proved oil and gas reserves as defined in paragraph (k)(6) of this section; plus (B) the cost of properties not being amortized pursuant to paragraph (i)(3)(ii) of this section; plus (C) the lower of cost or estimated fair value of unproved properties included in the costs being amortized; less (D) income tax effects related to differences between the book and tax basis of the properties involved.

(ii) If unamortized costs capitalized within a cost center, less related deferred income taxes, exceed the cost center ceiling, the excess shall be charged to expense and separately disclosed during the period in which the excess occurs. Amounts thus required to be written off shall not be reinstated for any subsequent increase in the cost center ceiling.

(5) *Production costs.* All costs relating to production activities, including workover costs incurred solely to maintain or increase levels of production from an existing completion interval, shall be charged to expense as incurred.

(6) *Mineral property conveyances and related transactions.* The provisions of paragraph (h) of this section, "Mineral property conveyances and related transactions if the successful efforts method of accounting is followed," shall apply also to those reporting entities following the full cost method except as follows:

(i) *Sales and abandonments of oil and gas properties.* Sales of oil and gas reserves in place and abandonments of properties shall be accounted for as adjustments of capitalized costs, with no gain or loss recognized, unless such adjustments would significantly alter the relationship between capitalized costs and proved reserves of oil and gas attributable to a cost center. A significant alteration would not ordinarily be expected to occur for sales involving less than 25 percent of the reserve quantities of a given cost center. If gain or loss is recognized for such a sale, total capitalized costs within the cost center shall be allocated between the reserves sold and reserves retained on the same basis used to compute amortization, unless there are substantial economic differences between the properties sold and those retained, in

which case capitalized costs shall be allocated on the basis of the relative fair values of the properties.

(ii) *Purchases of reserves.* Purchases of oil and gas reserves in place ordinarily shall be accounted for as additional capitalized costs within the applicable cost center; however, significant purchases of production payments or properties with lives substantially shorter than the composite productive life of the cost center shall be accounted for separately.

(iii) *Drilling arrangements.* Consistent with the provisions of paragraph (h) of this section, no income shall be recognized from sales of unproved properties or participation in various forms of drilling arrangements involving oil and gas producing activities (e.g., carried interest, turnkey wells, management fees, etc.) if the sales of unproved properties or drilling arrangements related thereto, in substance, will provide for the receipt or retention of an economic interest in any form in the properties. Circumstances in which income may be recognized are limited to situations where (A) the cash consideration received from the sale of unproved properties or drilling arrangements involving oil and gas producing activities exceeds the total cost of the properties plus any exploration and development costs to be subsequently incurred, or (B) the cash compensation represents reimbursement for amounts currently charged to expense. In the case of partnership or joint venture operations undertaken by the entity that involve more than one property, the determination of whether the cash compensation exceeds the cost of the properties shall be made based on the entity's participation in the total operations of the partnership or joint venture, rather than on a property-by-property basis. If the cash consideration received represents reimbursement for organization, offering, general and administrative expenses, etc., such compensation may be recognized as income only to the extent that costs have been currently incurred and charged to expense.

(7) *Disclosures.* Reporting entities that follow the full cost method of accounting shall disclose all of the information required by paragraph (k) of this section, with each cost center considered as a separate geographic area, except that reasonable groupings may be made of cost centers that are not significant in the aggregate. In addition:

(i) For each cost center for each year that an income statement is required, disclose the total amount of amortization expense (per equivalent physical unit of production if amortization is computed on the basis of physical units or per dollar of gross revenue

from production if amortization is computed on the basis of gross revenue).

(ii) State separately on the face of the balance sheet the aggregate of the capitalized costs of unproved properties and major development projects that are excluded, in accordance with paragraph (1)(3) of this section, from the capitalized costs being amortized. Provide a description in the notes to the financial statements of the current status of the significant properties or projects involved, including the anticipated timing of the inclusion of the costs in the amortization computation and, to the extent possible, the potential future impact on the amortization rate. In addition, indicate the nature of the costs by category and the approximate date on which costs were first incurred with respect to each such property or project.

These amendments are adopted pursuant to authority in sections 6, 7, 8, 10 and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j, 77s) of the Securities Act of 1933; sections 12, 13, 15(d), and 23(a) (15 U.S.C. 78l, 78m, 78o(d), 78w) of the Securities Exchange Act of 1934; section 5(b), 14, and 20(a) (15 U.S.C. 79e, 79n, 79t) of the Public Utility Holding Company Act of 1935; sections 8, 30, 31(c) and 38(a) (15 U.S.C. 80a-8, 80a-29, 80a-30(c), 80a-37(a)) of the Investment Company Act of 1940; and section 503 (42 U.S.C. 6383) of the Energy Policy and Conservation Act of 1975.

Pursuant to section 23(a)(2) of the Securities Exchange Act, the Commission has considered the impact that these rules might have on competition and has concluded that to the extent the rules impose burdens on competition, such burdens are necessary and appropriate in furtherance of the purposes of the securities laws.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

## PART 229—STANDARD INSTRUCTIONS FOR FILING UNDER SECURITIES ACT OF 1933 AND SECURITIES EXCHANGE ACT OF 1934—REGULATION S-K

### Disclosure of Oil and Gas Reserves and Operations; Amendments to Regulation S-K

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

**SUMMARY:** The Commission is amending certain disclosure forms and regulations to standardize and improve its disclosure requirements relating to oil and gas reserves and operations. The amendments incorporate into Regulation S-K requirements for disclosure of: (1) The present value of future net revenues from estimated production of proved oil and gas reserves; (2) any favorable or adverse event since the end of the most recent fiscal year which is believed to have caused a significant change in the proved reserves; (3) the average sales price and average production cost per unit of oil and gas produced; and (4) historical information concerning the number of productive and dry wells drilled. The amendments expand the disclosure of the net quantities of proved reserves from "as of a reasonably current date" to a period of five years and expand the types of companies which are required to disclose information concerning the estimated availability of oil and gas from principal sources. An exemption from these disclosure requirements has been provided for registrants whose oil and gas activities do not exceed specified criteria. The requirement in the temporary instruction to Item 2(b) of Regulation S-K (proposed as Note 2) that certain data be provided as non-financial statement information only for the fiscal year ending after December 25, 1978, and on or before December 25, 1979, also is being adopted.

**EFFECTIVE DATE:** Effective for fiscal years ending after December 25, 1978, for initial filings made on or after January 29, 1979. However, as provided in the text of this release under "Effective Date," certain filings need not comply with the temporary instruction until June 30, 1979.

### FOR FURTHER INFORMATION CONTACT:

Richard B. Smith, Office of Engineering (202/376-2391); J. Rowland Cook, Office of Disclosure Policy and Proceedings (202/755-1750); Joseph H. Schmitt, Division of Corporation Finance (202/376-2380); or James L. Russell, Office of the Chief Accountant (202/755-0222), Securities and Exchange Commission, 500

North Capitol Street, Washington, D.C. 20549.

**SUPPLEMENTARY INFORMATION:** On August 31, 1978, the Commission published for comment proposed amendments to certain disclosure forms promulgated under the Securities Act of 1933 ("Securities Act") (15 U.S.C. 77a et seq., as amended by Pub. L. 94-29 (June 4, 1975)) and the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a et seq., as amended by Pub. L. 94-29 (June 4, 1975)).<sup>1</sup> The proposals were published in conjunction with a separate release adopting rules relating to financial accounting for oil and gas producing activities<sup>2</sup> to achieve uniformity and integration with those accounting rules and to provide more meaningful disclosure regarding oil and gas reserves and operations.

This release summarizes the amendments proposed in Release No. 33-5967, the comments received on the proposed amendments<sup>3</sup> and the action taken with respect thereto.

### A. DISCUSSION OF COMMENTS AND THE FINAL RULES

#### REGULATION S-K, ITEM 2(a)—INSTRUCTION 3

This instruction as adopted requires that, in the case of an extractive enterprise, material information should be given as to production, reserves, locations, developments, and the nature of the registrant's interest. If individual properties are of major significance to any industry segment, more detailed information concerning these matters should be furnished as well as maps which disclose location data of the significant properties. Under regulations existing prior to the adoption of these amendments, Instruction 3 of Item 2(a) of Regulation S-K required that the more detailed information should include, if appropriate, the results of development in the area and significant geological structures and formations.

The Commission believed that the phrase "significant geological struc-

<sup>1</sup>Securities Act Release No. 5967 (August 31, 1978), (43 FR 40720), ("Release No. 33-5967").

<sup>2</sup>Securities Act Release No. 5966 (August 31, 1978), (43 FR 40688) ("Release No. 33-5966"). Those rules also apply in the preparation of accounts by persons engaged, in whole or in part, in the production of crude oil or natural gas in the United States for purposes of filing with the Department of Energy ("DOE") reports of energy information that are subject to the requirements of the Energy Policy and Conservation Act of 1975, 89 Stat. 871.

<sup>3</sup>Comments were received from 53 commentators. The comments are available for public inspection and copying at the Commission's Public Reference Room, 1100 L Street, NW., Washington, D.C. 20549. Requests should refer to File No. 87-752.

tures and formations" was unduly restrictive and proposed in Release No. 33-5967 that more useful information could be obtained if the discussion included any "significant geological data." Several commentators believed that any disclosure of the results of development in the area and significant geological data (and apparently significant geological structures and formations as the rule previously required) would cause premature public disclosure of valuable competitive information, as in the case of a very large discovery with unleased offset acreage which will subsequently be included in a competitive lease sale. In addition, it was asserted that disclosure in such situations would make valuable information available to prospective competitors (particularly foreign companies who might not have to reciprocate) without compensation to those who have expended large sums of money for its development.

It was not the Commission's intention that registrants be required to disclose proprietary information to their competitors. Accordingly, the Commission has deleted the proposed requirement that the results of development in the area and significant geological data be disclosed. However, the Commission still believes that when individual properties are of major significance to an industry segment more detailed information concerning production, reserves, locations, developments and the nature of the registrant's interest should be disclosed.

#### REGULATION S-K, ITEM 2(a)—INSTRUCTION 4

The first sentence of the proposed amendment to Instruction 4 has been revised to indicate more clearly when the staff of the Office of Engineering, Division of Corporation Finance, should be consulted about submissions of supplemental information concerning estimates of reserves. This codifies existing practices of the Office of Engineering which may review the full report of the engineer or other expert who estimated the reserves whether or not that report is specifically referred to in the document. Some commentators indicated that they should not be required to supply the full report since it contains confidential information and it may be subject to the Freedom of Information Act.<sup>4</sup> However, the Office of Engineering has been requesting the full report as supplemental information for many years and the Commission codified this existing practice on May 12, 1976.<sup>5</sup> Normally,

<sup>4</sup>5 U.S.C. 552.

<sup>5</sup>See, Securities Act Release No. 5706 (May 12, 1976) (41 FR 21764) ("Release No. 33-5706") announcing the adoption of amendments to Forms S-1 and S-7 and pub-

the registrant and its engineers or other experts will discuss the full report at a meeting with the staff of the Office of Engineering. At the conclusion of the meeting, the registrant usually retains possession of the report. If the registrant submits the full report by mail, the staff of the Office of Engineering will generally return it to the registrant at the completion of their review. Therefore, these full reports will usually not be kept in the possession of the Commission for any extended period. In this regard, the instruction has been modified to clearly indicate that the registrant may request the return of the full report. However, the registrant should realize that, absent an exemption,<sup>6</sup> the full report may be subject to a request under the Freedom of Information Act while that report is in the possession of the staff.

Nonetheless, the Commission believes that it is necessary for its staff to have the option to review this report in order to make sure that the appropriate procedures were used in determining the estimates of proved reserves and that such estimates are reasonable. The registrant is urged to consult with the staff of the Office of Engineering prior to filing in order to determine if any supplemental information will have to be furnished to the staff and, if so, what type of information is to be furnished. This procedure should help expedite review of the registrant's document.

Instruction 4 also requires that if the estimates of proved reserves of oil and gas are represented as being based on estimates prepared or reviewed by independent consultants, those independent consultants should be named in the document.<sup>7</sup> The Commission believes that identification of the independent consultant(s) is important to

liciation of an amendment to Guide 28 of the Guides for the Preparation and Filing of Registration Statements under the Securities Act of 1933, and the adoption of amendments to Forms 10 and 10-K and publication of amendments to Guide 2 of the Guides for the Preparation and Filing of Reports and Proxy and Registration Statements under the Securities Exchange Act of 1934 relating to the disclosure of estimates of oil and gas reserves. See also, Securities Act Release No. 5893 (December 23, 1977) (42 FR 65554) incorporating the disclosure required by Release No. 33-5706 with Regulation S-K.

<sup>6</sup>For example, see 17 CFR 200.80(b)(9) which considers geological and geophysical information and data, including maps, concerning wells to be nonpublic matters.

<sup>7</sup>Section 7 of the Securities Act presently requires that the expert be named, but the Exchange Act has no comparable provision. The Commission under the general rule-making authority granted by section 23(a) of the Exchange Act has amended Regulation S-K to require that such an expert be named in documents filed under the Exchange Act.

an evaluation by investors of the reserve information. This instruction applies to all extractive enterprises whose reserves are represented as being based on estimates prepared or reviewed by independent consultants. Although Release No. 33-5967 proposed that this instruction apply only to estimates of proved reserves of oil and gas, the Commission believes that it would not cause an undue burden and that it would conform to present administrative practice to extend this instruction to extractive enterprises other than oil and gas enterprises.

Release No. 33-5967 proposed that a summary letter from any independent consultant who prepared or reviewed estimates of proved oil and gas reserves be included in the document. Several commentators indicated that the summary letter required disclosure of items which were meaningless and were not disclosed elsewhere in the document, i.e., proved developed producing and proved developed non-producing reserves and the estimated productive life of the reserves. In addition, other commentators questioned whether the Commission was proposing that the present value of future net revenues be determined by an independent consultant if that consultant estimated the reserves.

The Commission did not propose and is not requiring that independent consultants prepare or review estimates of proved reserves of oil and gas. Nor is the Commission requiring that independent consultants determine the present value of future net reserves if those independent consultants prepare or review the estimates of proved reserves. The Commission believes that the comments about the usefulness of the letter have some merit, especially since independent accountants will be expressing an opinion on financial information which includes estimates of proved reserves of oil and gas beginning with fiscal years ending after December 25, 1979. Therefore, the proposed requirement for such a letter has been deleted from the adopted Instruction 4.

#### REGULATION S-K, ITEM 2(b)—INSTRUCTION 1

Instruction 1 of Item 2(b) provides that limited partnerships or joint ventures under certain conditions are not required to include the information specified by Item 2(b). This exemption is the same as adopted in Release No. 33-5706.

#### REGULATION S-K, ITEM 2(b)—INSTRUCTION 2

Instruction 2 of Item 2(b), through a cross-reference to Regulation S-K, 17 CFR 210.3-18(k), provides an exemption from the disclosure requirements of Item 2(b) for registrants whose rev-

enue, income, and assets relating to oil and gas producing activities are less than ten percent of the corresponding consolidated amounts. For purposes of the asset criterion, proved oil and gas properties are to be measured on the basis of "the present value of estimated future net revenues" rather than historical cost. Several commentators requested that such guidelines be established for determining when oil and gas operations are material. The Commission agrees that guidance would be beneficial to registrants in order to determine when the disclosure of oil and gas operations is appropriate.

**REGULATION S-K, ITEM 2(b)—  
INSTRUCTION 3**

Instruction 3 of Item 2(b) states that the definitions in Regulation S-X, § 210.318(a) shall apply to Item 2(a) with respect to oil and gas operations and to Item 2(b). This more clearly indicates the intent of the Commission. The cross-reference in the proposed rules (included as part of paragraph (b)(1)) appeared to limit the definitions of terms, such as proved reserves, to paragraph (b)(1). This was not the intent of the Commission and the cross-reference in this instruction as adopted clarifies this.

**REGULATION S-K, ITEM 2(b)—  
INSTRUCTION 4**

Instruction 4 of Item 2(b) states that disclosure of estimates of probable or possible reserves and any estimated value thereof shall not be disclosed in any document publicly filed with the Commission. Prior to the adoption of the amendment to Regulation S-K, Instruction 2 to Item 2(b) stated "Estimates of future recoverable oil and gas shall be limited to proved developed and proved undeveloped future net recoverable reserves." Although this statement was not included in the proposed disclosure requirements of oil and gas reserves and operations in Release No. 33-5967, the Commission intended no substantive change in the disclosure practices concerning such reserves. However, since in the past an occasional document has contained information concerning probable or possible reserves when originally filed, the Commission believes that an affirmative statement reflecting the present practice is appropriate. The reason the Commission does not permit disclosure of these reserves is that estimates of probable or possible reserves and any value thereof are not sufficiently reliable to be included in any publicly filed document and disclosure of this information may be misleading to investors.\*

\*See *Sunray DX Oil Co. v. Helmerich & Payne, Inc.*, 398 F.2d 447, 451 (1968) which stated the following in arriving at its opin-

**REGULATION S-K, ITEM 2(b)—TEMPORARY  
INSTRUCTION**

The disclosure requirements of the temporary instruction apply only for the fiscal year ending after December 25, 1978, and on or before December 25, 1979, thereafter the information required to be filed by this instruction will be disclosed as part of the financial statements pursuant to Regulation S-X, § 210.3-18(k). The temporary instruction requires disclosure of the following: (1) Capitalized costs as of the end of such fiscal year (paragraph i); (2) costs incurred in oil and gas producing activities for such fiscal year (paragraph ii); (3) revenues from producing oil and gas for such fiscal year (paragraph iii); (4) estimated quantities of proved reserves (and changes therein), of proved developed reserves, of quantities applicable to long-term supply or similar agreements with foreign governments or authorities in which the registrant acts as producer, and the registrant's share of proved reserves of its investees accounted for by the equity method for such fiscal year (paragraph iv); and (5) information on future net revenue from estimated production of proved oil and gas reserves including information concerning the present value of the estimated future net revenues as of the end of such fiscal year or for such fiscal year, as applicable (paragraph v).

Paragraphs (i), (ii), (iii) are adopted as proposed in Release No. 33-5967. However, paragraph (iv) has been modified to indicate more clearly that the period of time for which data specified by Regulation S-X, § 210.3-18(k)(5) is to be disclosed is just the 1978 fiscal year. This modification is not intended as a substantive change from paragraph (iv) as proposed in Release No. 33-5967.

Paragraph (v) to the temporary instruction contains, among other things, instructions for disclosure of reserves when there has been a recent takeover or nationalization by a foreign government or when a foreign government restricts the disclosure of estimated reserves under its governmental authority. These instructions applied to the disclosure of estimates of proved reserves under regulations existing prior to the adoption of these amendments and will apply to the disclosure of these estimates when the most recent annual financial statements included in the documents are

ion, that failure to disclose information concerning probable oil reserves of off-shore tracts in a proxy statement did not constitute a violation of Section 14(a) of the Exchange Act. Any statement concerning "oil reserves" other than in the category of the "proved" could certainly be misleading to any investor other than one who is an expert in the industry.

for fiscal years ending after December 25, 1979. As proposed in Release No. 33-5967, the instructions would not have applied to the fiscal year ending after December 25, 1978, and on or before December 25, 1979. The Commission believes that there is no reason for not applying these instructions to this interim period and has, therefore, adopted them. The instruction with regard to updating reserve information has also been included for this interim period since any event which is believed to have caused a significant change in proved reserves should be brought to the attention of investors.

Several commentators suggested that the safe harbor provision of Regulation S-X, § 210.3-18(k)(6) apply to the disclosure of future net revenues from estimated production of proved oil and gas reserves for the period ending after December 25, 1978, and on or before December 25, 1979. The Commission agrees that the safe harbor concept embodied in Regulation S-X, § 210.3-18(k)(6) should be applied to the information disclosed under the temporary instruction and, therefore, has incorporated the safe harbor provision as part of paragraph (v) of the temporary instruction.

A number of commentators expressed concern with the Commission's proposal to require disclosure of the present value of estimated future net revenues from production of proved reserves. They stressed the uncertainties inherent in estimating quantities of proved reserves and the need for judgment in projecting rates of production and the timing of development expenditures. Some also indicated that the valuation methodology based on current prices and costs and a ten percent discount rate would not necessarily provide a meaningful indication of the current value of proved reserves. Similar arguments were made previously in response to the Commission's original proposals for such disclosures and were discussed in detail in Release No. 33-5966. In that release, the Commission expressed its conclusion that the usefulness of this supplemental information outweighs the limitations associated with the subjective nature of the data and the necessary use of a uniform valuation methodology. The Commission continues to believe that development of this information is essential if significant improvement in financial reporting for the oil and gas producing industry is to be achieved.

Most of the commentators, however, focused their attention on the specific proposal to require the disclosure of estimated quantities and present values of oil and gas in the "Description of Property" section of filings covering the fiscal year ending after

December 25, 1978, and on or before December 25, 1979. They believed the relatively late imposition of such a requirement for calendar year 1978 filings would place an unreasonable burden on registrants. There would not be ample time, it was argued, for the proper development of methods and procedures on an objective and cost effective basis. It was pointed out that the preparation of estimates of reserves valuations will require experimentation and testing to establish the validity of the techniques being used, as well as the development of new computer programming. This substantial time commitment would be in addition to the burden of modifying accounting systems and records for changes required by the retroactive adoption of the specified form of successful efforts or full cost accounting. It was also pointed out that companies must devote a significant effort to complying with the requirements of the Natural Gas Policy Act of 1978 and with the Department of Energy's Financial Reporting System for which 1977 reports are due on February 1, 1979.

In addition to the time burdens, a number of commentators expressed the belief that disclosure of reserve information and operating data would be inappropriate at this time. Although the information called for in the proposed rules would not be required to be examined by independent accountants, it would be subject to audit for purposes of 1979 financial statements. It was argued that this could result in subsequent revisions to the initial disclosures. Also, the disclosure of 1978 data on capitalized costs, costs incurred, revenues, etc., might have to be restated in the following year for the effects of the retroactive adoption of the required accounting changes.

For these reasons, many commentators urged that the disclosures of reserve quantities and values and of operating data be postponed for one year. Alternatively, they recommended only partial application of the requirements, e.g., that only reserve quantities be disclosed, that the requirements apply only to domestic operations, or that smaller companies be exempted. Others requested that the disclosures be treated on an "experimental" basis, submitted directly to the Commission and not as part of the 10-K filing.

The Commission has given careful consideration to these comments and is fully aware that a significant commitment of resources will be required in order to develop the information specified by the new rule. However, the Commission considers this reserve information to be of such significance to a complete presentation of the fi-

nancial position of oil and gas producers that every effort should be made to make it available to investors as soon as practicable. Furthermore, experience in the preparation and reporting of reserve information is critical to the timely consideration of reserve recognition accounting. Limitations to the applicability of the reporting requirements would reduce the quantity and comprehensiveness of the data, thereby limiting the experience upon which to assess the methodology that has been prescribed and to ascertain the most meaningful form of presentation.

The Commission realizes, however, that for some registrants it might be an undue burden to compile the information required by the temporary instruction to Item 2(b) during the first quarter of 1979. As to documents under the Securities Exchange Act of 1934 required to be filed prior to June 30, 1979, and as to registration statements under the Securities Act of 1933 which become effective before such date, registrants may either comply with the disclosure requirements of the temporary instruction, or with those disclosure requirements relating to estimates of proved reserves existing prior to these amendments. However, any registrant who elects to delay in filing the information required by the temporary instruction in a document filed under the Exchange Act must file such information by amendment no later than June 30, 1979.<sup>9</sup> The Commission encourages each registrant to make every attempt to include the information required by the temporary instruction at the time the document is required to be filed.

**REGULATION S-K, ITEM 2(b)(1)**

This paragraph, which does not take effect until the fiscal year ending after December 25, 1979, expands the present disclosure requirements of Item 2(b)(1) to reflect certain estimates of proved reserves on a five year basis rather than "as of a reasonably current date." The information disclosed serves as a summary of the estimates of proved reserves presented in the financial statements pursuant to Regulation S-X, § 210.3-18(k)(5) and as a comparison with the presentation under Item 2(b)(3) of oil and gas produced. Paragraph (b)(1) also requires disclosure of the present value of estimated future net revenues for each of the net quantities of reserves presented. These provisions are adopted as proposed in Release No. 33-5967.

<sup>9</sup>However, the April 30, 1979, deadline for written comments on Securities Act Release No. 5969 (43 FR 40726), the "Proposed Supplemental Earnings Summary," is not being extended. The Commission stresses the need for timely comments on this supplemental disclosure in order that final rules can be developed in time for 1979 financial statements.

Instruction (a) to this item indicates the geographic areas for which net quantities of reserves of oil and gas and the present value of estimated future net reserves are to be disclosed. It is also adopted as proposed in Release No. 33-5967.

Instruction (b) to this item has been clarified to indicate that disclosure should be given of the effect on ownership of reserves of any takeover or nationalization by foreign governments of properties owned by the registrant which has occurred "within the last fiscal year." Although the basic provision was adopted in the amendments announced in Release No. 33-5706, some commentators were unclear as to whether the discussion was based on historical information or was a prediction of a future event. The instruction as adopted clearly indicates that the discussion should be based on historical information. However, it should be noted that, if there exists a reasonable possibility of a risk of takeover or nationalization of properties owned by the registrant in that foreign country, appropriate disclosure of that risk should be made in the document.

Instruction (c) to this item has been modified to include those situations when any foreign government requires the disclosure of reserves other than proved. This codifies existing practices of the Office of Engineering, Division of Corporation Finance, which requires the document to identify the country, cite the law or regulation which requires such disclosure, and indicate that the reserve estimates for that geographic area include reserves other than proved.

Instruction (d) to this item has been modified to indicate that the statement as to whether any event has caused a significant change in the estimated proved reserves may be based on the belief of the registrant.

**REGULATION S-K, ITEM 2(b)(2)**

This paragraph requires disclosure of any other federal authority or agency with whom estimates of proved oil and gas reserves have been filed and an explanation for differences between such estimates and the estimates included in the document. This information need not be disclosed if the difference between the total reserve estimate included in the Commission filing and the total reserve estimate filed with the authority or agency does not exceed five percent. The Commission has deleted the requirement for disclosure of reserve estimates filed with foreign governmental authorities since it believes such information usually is not material to an investment decision.

## REGULATION S-K, ITEM 2(b)(3)

This paragraph requires disclosure for each of the last five years of (1) oil and gas produced; and (2) oil and gas received under long-term or similar agreements with foreign governments or authorities in which the registrant acts as producer. This provision is adopted as proposed in Release No. 33-5967.

The average sales price per unit of oil produced and of gas produced and the average production cost per unit of production are required to be disclosed for the last five fiscal years. Several commentators indicated that it would be an undue burden to obtain this information for years ending prior to December 25, 1978. The Commission believes that this comment has some merit and, therefore, will not require registrants to disclose the information for fiscal years ending prior to December 25, 1978. However, the Commission encourages registrants to disclose this information for periods ending prior to December 25, 1978, if obtaining such information would not be an undue burden on them.

Instructions (a), (b), and (d) to this item are adopted as proposed in Release No. 33-5967. The discussion of "production of natural gas" in Instruction (c) has been modified to indicate that recovered gas-lift gas and reproduced gas should not be included in production until sold.

Instruction (e) to Item 2(b)(3) indicates that units of production shall be expressed in common units of production with oil or gas converted to a common unit of measure on the basis of its approximate relative energy content or by the gross revenue method, depending on the method of accounting used.

## REGULATION S-K, ITEM 2(b)(4)

This paragraph requires disclosure of productive wells and developed acres. Some of the commentators expressed confusion as to what type of acreage was to be disclosed under this paragraph and under Item 2(b)(5). The Commission adopted the terminology "developed acres" in order to be consistent with disclosure required by DOE in Form EIA-28.<sup>10</sup>

Instructions (a) and (d) to this item are adopted as proposed in Release No. 33-5967. The Commission has clarified in Instructions (b) and (c) to paragraph (b)(4) that the only type of interest which is to be used in determining gross and net wells and acres is a "working interest." Instruction (e) has been added to this item to clarify the meaning of "productive wells" as that term is used to define "developed acres."

<sup>10</sup> 43 FR 27056.

## REGULATION S-K, ITEM 2(b)(5)

This paragraph requires disclosure of undeveloped acreage and, as indicated above, is consistent with disclosure required by EIA-28. Since some commentators were confused by the definitions for "undeveloped acreage" which were proposed in Release No. 33-5967, the Commission has adopted definitions which it believes to be consistent with Form EIA-28 and industry practice.

## REGULATION S-K, ITEM 2(b)(6)

This paragraph requires disclosure of productive and dry exploratory and development wells drilled during the last five fiscal years. As with Item 2(b)(3)(ii), several commentators indicated that it would be an undue burden to obtain this information for periods ending prior to December 25, 1978. Therefore, the Commission will not require that this historical information be disclosed for fiscal years ending prior to December 25, 1978.

Many commentators objected to the proposal in Release No. 33-5967 of disclosure of net drilling footage of exploratory and development wells. They believed that the disclosure of such information did not justify the burden of compliance. After reconsideration of the benefits to be derived from this disclosure, the Commission has decided to delete the proposal.

## REGULATION S-K, ITEM 2(b)(7)

This paragraph requires disclosure of the present activities of the registrant. Several commentators questioned whether "wells temporarily suspended" should be disclosed here or under Item 2(b)(6) as part of wells drilled. The Commission believes that wells temporarily suspended should be included under Item 2(b)(7) as part of wells in process of drilling. These wells would not be included under Item 2(b)(6) since that information is limited to wells "completed" as that term is defined in Instruction (d) to Item 2(b)(6). In order to eliminate any confusion, however, the Commission has indicated in Item 2(b)(7) that wells in process of drilling include "wells temporarily suspended."

## REGULATION S-K, ITEM 2(b)(8)

This paragraph requires that registrants who are obligated to supply fixed and determinable quantities of oil and gas in the future under existing contracts or agreements provide: (1) Certain information concerning the availability of oil and gas to the registrant; (2) the registrant's delivery commitments of oil and gas; and (3) the steps taken by the registrant to insure available reserves and supplies are sufficient to meet such commitments.

Several commentators recommended that the proposed disclosure requirements in Release No. 33-5967 be limited to obligations arising under warranty contracts (i.e., the producer is obligated to make good on a particular commitment) and not include obligations under deliverability contracts (i.e., producers are obligated to deliver oil and gas only if production is operationally feasible).

The Commission is of the view that this paragraph should not be limited to warranty contracts since there are other types of contracts or agreements which obligate the registrant to provide fixed and determinable quantities of oil or gas in the future. However, the Commission believes that this paragraph should not apply to those contracts or agreements which specify that indefinite quantities of oil or gas are to be provided by the registrant. Therefore, this paragraph as adopted has been revised to indicate that the registrant need only disclose the required information if the registrant is obligated to provide fixed and determinable quantities of oil or gas in the future. Such required information includes the total quantities of oil and gas which are subject to delivery commitments. With respect to this disclosure, the term "customers' requirements" which appeared in conjunction with the term "commitment" in Release No. 33-5967 and which was originally adopted in Release No. 33-5708 has been deleted since the term "commitment" is consistent with industry practice and adequately indicates what information is to be disclosed, i.e., fixed and determinable quantities of reserves and supplies committed to a customer under terms of a purchase contract.

A few commentators indicated that compliance with a literal reading of the proposed paragraph would result in disclosure of every sales and purchase contract, regardless of the contract's significance. It was not the intention of the Commission to require disclosure of insignificant contracts and, therefore, the proposed paragraph has been modified, where appropriate, to indicate that only significant contracts are to be disclosed and that only total amounts need be given.

Proposed Item 2(b)(8)(iii)(B) has been revised to include those reserves or supplies subject to curtailments. This modification clarifies the intent of the Commission and codifies existing practices.

## B. CERTAIN FINDINGS

As required by Section 239(a)(2) of the Exchange Act, the Commission has specifically considered the impact which the amendments adopted herein would have on competition and has concluded that they impose no sig-

nificant burden on competition. In any event, the Commission has determined that any possible burden will be outweighed by, and is necessary and appropriate to achieve, the benefits of these amendments to investors and registrants.

## C. EFFECTIVE DATE

These amendments are effective for documents filed with the Commission when the most recent annual financial statements included in the documents are for fiscal years ending after December 25, 1978 and if the filing is initially made on or after January 29, 1979.

Notwithstanding the effective date of these amendments, registrants who are required to file documents under the Exchange Act prior to June 30, 1979, are not required to disclose information required by the temporary instruction to Item 2(b) at the time the document is required to be filed. However, such information must be filed by amendment to the document no later than June 30, 1979. Registrants who file documents under the Securities Act which become effective prior to June 30, 1979, are not required to disclose this information. Any document which does not contain this information at the time the document is required to be filed under the Exchange Act or at the time the document becomes effective under the Securities Act should contain estimates of reserves as explained under the temporary instruction. In addition, the text of the Regulation in Items 2(b)(1), 2(b)(3)(ii) and 2(b)(6) provides that historical information need not be provided for fiscal years ending prior to December 25, 1978. Notwithstanding the effective date of these mandatory requirements, registrants are urged to comply with these new provisions as soon as possible.

## D. TEXT OF AMENDMENTS

The Commission hereby amends Item 2 of Regulation S-K, Part 229 of Title 17, by revising Instruction 3 and adding Instruction 4 to paragraph (a) and by revising paragraph (b) as set forth below:

## § 229.20 Information required in document.

## ITEM 2. DESCRIPTION OF PROPERTY

- (a) (No change). Instructions to Item 2(a). 1. (No change).
- 2. (No change).
- 3. In the case of an extractive enterprise, material information should be given as to production, reserves, locations, developments, and the nature of the registrant's interest. If individual properties are of major significance to an industry segment: (i) More detailed information concerning these

matters should be furnished; and (ii) appropriate maps should be used to disclose location data of significant properties except in cases for which numerous maps would be required.

4. (i) If reserve estimates are referred to in the document, the staff of the Office of Engineering, Division of Corporation Finance, of the Commission should be consulted. That office may request that a copy of the full report of the engineer or other expert who estimated the reserves be furnished as supplemental information and not as part of the filing. Upon request and where consistent with the protection of investors and with the Freedom of Information Act, 5 U.S.C. 552, the supplemental information will be returned to the registrant.

(ii) If the estimates of reserves, or any estimated valuation thereof, are represented as being based on estimates prepared or reviewed by independent consultants, those independent consultants should be named in the document.

[end of instructions to Item 2(a)]

(b) If oil and gas operations are material to the registrant's and its subsidiaries' business operations or financial position, disclose the following under appropriate captions (in tabular form if practicable, and with cross references, where applicable, to related information disclosed in financial statements):

## GENERAL INSTRUCTIONS

Instruction 1: Limited partnerships or joint ventures that conduct, operate, manage, or report upon oil and gas drilling or income programs which acquire properties either for drilling and production, or for production of oil, gas or geothermal steam or water are not required to include the information specified by this Item 2(b).

Instruction 2: No information need be given in answer to this Item 2(b) if the registrant qualifies for the exemption provided in Regulation S-X, § 210.3-18(k), except that for the fiscal year ending after December 25, 1978, and on or before December 25, 1979, the availability of the exemption need be based only on the most recent fiscal year.

Instruction 3: The definitions in Regulation S-X, § 210.3-18(a) shall apply to Item 2(a) with respect to oil and gas operations, and to this Item 2(b).

Instruction 4: Estimates of probable or possible reserves and any estimated value thereof shall not be disclosed in any document publicly filed with the Commission.

[end of general instructions to Item 2(b)]  
Temporary Instruction to Item 2(b): This temporary instruction shall apply only for the fiscal year ending after December 25, 1978, and on or before December 25, 1979. For such fiscal year, registrants shall disclose (in lieu of the information required by Item 2(b)(1) below) the following:

- (i) The capitalized costs specified by Regulation S-X, § 210.3-18(k)(2), as of the end of such fiscal year.
- (ii) The costs incurred in oil and gas producing activities specified by Regulation S-X, § 210.3-18(k)(3) for such fiscal year.
- (iii) The revenues from producing oil and gas specified by Regulation S-X, § 210.3-18(k)(4) for such fiscal year.
- (iv) The data specified by Regulation S-X, § 210.3-18(k)(5) ("Disclosure of estimated quantities of proved oil and gas reserves") for such fiscal year. The instructions to Item 2(b)(1) shall apply to this paragraph (iv).

(v) The information on future net revenue from estimated production of proved oil and gas reserves specified by Regulation S-X, § 210.3-18(k)(6) as of the end of such fiscal year or for such fiscal year, as applicable. This information shall be subject to the "safe harbor" provision of Regulation S-X, § 210.3-18(k)(6).

For purposes of paragraphs (i), (ii), and (iii) of this temporary instruction, the accounting measurements standards reflected in the registrant's financial statements for such fiscal year shall apply.

Registrants who are required to file documents under the Securities Exchange Act of 1934 prior to June 30, 1979, are not required to disclose the information required by this temporary instruction at the time the document is required to be filed. However, such information must be filed by amendment to the document no later than June 30, 1979. Registrants who file documents under the Securities Act of 1933 which become effective prior to June 30, 1979, are not required to disclose this information in such documents. Any document which does not contain the information at the time the document is required to be filed under the Securities Exchange Act of 1934 or at the time the document becomes effective under the Securities Act of 1933 should contain as of a reasonably current date estimates of the following: (1) Proved oil and gas reserves; (2) proved developed oil and gas reserves; and (3) oil and gas applicable to long-term supply or similar agreements with foreign governments or authorities in which the registrant acts as producer. The instructions to Item 2(b)(1) shall apply to the disclosure of these reserve estimates.

This temporary instruction shall be deleted from this Item 2(b) when the rules in Regulation S-X, § 210.3-18 become effective for financial statements.

[end of temporary instruction to Item 2(b)]

2(b)(1)(i) As of the end of each of the last five fiscal years, (but not for fiscal years ending prior to December 25, 1978), estimated net quantities of: (A) Proved oil and gas reserves; (B) proved developed oil and gas reserves; (C) oil and gas applicable to long-term supply or similar agreements with foreign governments or authorities in which the registrant acts as producer; and (D) the registrant's share of reserves of investees accounted for by the equity method.

(ii) For each of the net quantities reported, the present value of estimated future net revenues, computed in accordance with Regulation S-X, § 210.3-18(k)(6).

The following instructions apply to this Item 2(b)(1).

(a) If these reserves are located entirely within the registrant's home country, that fact shall be disclosed. If some or all of the reserves are located in foreign countries, the disclosure of net quantities of reserves of oil and gas and present value of estimated future net revenues (as required above) shall be separately reported for the entity's home country (if significant reserves are located there) and each foreign geographic area in which significant reserves are located. Foreign geographic areas are individual countries or groups of countries, as appropriate, for meaningful disclosure in the circumstances.

(b) Disclosure shall be given of the effect on ownership of reserves of any takeover or nationalization within the most recent fiscal year by foreign governments of properties

owned by the registrant, including any change of a property interest into a long-term supply, purchase, or similar agreement.

(c) If any foreign government restricts the disclosure of estimated reserves for properties under its governmental authority, or amounts under long-term supply, purchase, or similar agreements, or if the foreign government requires the disclosure of reserves other than proved, the registrant should notify the Office of Engineering, Division of Corporation Finance, of the Commission. If the required information is not disclosed or if categories of reserves other than proved are disclosed for these reasons, the document should identify the country, cite the law or regulation which restricts or requires such disclosure, and indicate that the reported reserve estimates or amounts do not include figures for the named country or that the reserve estimates include reserves other than proved.

(d) If no major discovery or other favorable or adverse event that is believed to have caused a significant change in the estimated proved reserves has occurred since the end of the most recent fiscal year, a statement to that effect shall be made; otherwise, an explanation of any such discovery or event should be provided, including, to the extent reasonable, an estimate of the proved oil and gas reserves associated with such discovery or event.

[end of instructions to Item 2(b)(1)]

2(b)(2) Any estimates of total, proved net oil or gas reserves filed with or included in reports to any other federal authority or agency since the beginning of the last fiscal year (or a statement that there were none), together with the name of the authority or agency and an explanation of the reasons for differences, if any, between such estimates and the estimates included in the document. This requirement shall not apply if the difference between the total reserve estimate included in the Commission filing and the total reserve estimate filed with the federal authority or agency does not exceed five percent. However, a statement that the difference does not exceed five percent shall also be included.

[end of Item 2(b)(2)]

2(b)(3)(i) Net quantities of oil (including condensate and natural gas liquids) and of gas produced for each of the last five fiscal years and the net quantities of each received during each of these years applicable to long-term supply or similar agreements with foreign governments or authorities in which the registrant acts as producer, by areas no larger than the geographic areas used for estimated reserves in Item 2(b)(1) above.

(ii) For each of the last five fiscal years (but not for fiscal years ending prior to December 25, 1978), by the same geographic areas for which production data are required: (A) The average sales price (including transfers) per unit of oil produced and of gas produced; and (B) the average production cost (lifting cost) per unit of production.

The following instructions apply to this Item 2(b)(3):

(a) Generally, net production should include only production that is owned by the registrant and produced to its interest, less royalties and production due others. However, in special situations (e.g., foreign production) net production before royalties may be provided if more appropriate. If "net before

royalty" production figures are furnished, the change from the common usage of "net production" should be noted.

(b) Any part of natural gas liquids production obtained through or from processing plant ownership rather than through leasehold ownership should be reported separately, if material.

(c) Production of natural gas should include only marketable production of gas on an "as sold" basis. Production will include dry, residue, and wet gas, depending on whether liquids have been extracted before the registrant passed title. Flared gas, injected gas, and gas consumed in operations should be omitted. Recovered gas-lift gas and reproduced gas should not be included until sold.

(d) The transfer price of oil and gas produced shall be determined in accordance with Regulation S-X, § 210.3-18(k)(4).

(e) The average production cost per unit of production shall be computed using production costs disclosed pursuant to Regulation S-X, § 210.3-18(k)(3). Units of production shall be expressed in common units of production with oil or gas converted to a common unit of measure on the basis used in computing amortization (relative energy content or gross revenue method). See Regulation S-X, § 210.3-18 (e)(3) or (i)(3)(iii), whichever is appropriate.

[end of instructions of Item 2(b)(3)]

2(b)(4) As of a reasonably current date or as of the end of the most recent fiscal year, the total gross and net productive wells, expressed separately for oil and gas, and the total gross and net developed acres (i.e., acres spaced or assignable to productive wells) by the geographic areas for which production data are required pursuant to Item 2(b)(3) above.

The following instructions apply to this Item 2(b)(4):

(a) For purposes of this paragraph, one or more completions in the same bore hole shall be counted as one well. A footnote shall disclose the number of wells with multiple completions. If one of the multiple completions in a given well is an oil completion, the well shall be classified as an oil well.

(b) A gross well or acre is a well or acre in which a working interest is owned. The number of gross wells is the total number of wells in which a working interest is owned.

(c) A net well or acre is deemed to exist when the sum of fractional ownership working interests in gross wells or acres equals one. The number of net wells or acres is the sum of the fractional working interests owned in gross wells or acres expressed as whole numbers and fractions thereof.

(d) For those unusual situations in which gross and net data cannot be supplied, alternative disclosure should be furnished that adequately describes the registrant's productive wells and developed acreage.

(e) Productive wells are producing wells and wells capable of production.

[end of instructions to Item 2(b)(4)]

2(b)(5) As of a reasonably current date or as of the end of the most recent fiscal year, the amounts of undeveloped acreage, both leases and concessions, if any, expressed in both gross and net acres by appropriate geographic area, together with an indication of acreage concentrations, and, if material, the minimum remaining terms of leases and concessions. Undeveloped acreage is considered to be those lease acres on which wells have not been drilled or completed to a

point that would permit the production of commercial quantities of oil and gas regardless of whether or not such acreage contains proved reserves. Undeveloped acreage should not be confused with undrilled acreage Held By Production under the terms of a lease.

[end of Item 2(b)(5)]

2(b)(6) For each of the last five fiscal years (but not for fiscal years ending prior to December 25, 1978), by appropriate geographic areas: (a) The number of net productive and dry exploratory wells drilled; and (b) the number of net productive and dry development wells drilled.

The following instructions apply to this Item 2(b)(6):

(a) A dry well (hole) is an exploratory or a development well found to be incapable of producing either oil or gas in sufficient quantities to justify completion as an oil or gas well.

(b) A productive well is an exploratory or a development well that is not a dry well.

(c) The number of wells drilled refers to the number of wells (holes) completed at any time during the fiscal year, regardless of when drilling was initiated.

(d) The term "completion" refers to the installation of permanent equipment for the production of oil or gas, or, in the case of a dry hole, to the reporting of abandonment to the appropriate agency.

[end of instructions to Item 2(b)(6)]

2(b)(7) Present activities, such as the number of wells in process of drilling (including wells temporarily suspended), waterfloods in process of installation, pressure maintenance operations, and any other related operations of material importance by appropriate geographic areas. This description of present activities should be provided for an "as of" date as close to the date of filing the document as reasonably possible or as of the end of the most recent fiscal year. The disclosure of wells in the process of being drilled should include only those wells actually being drilled at the "as of" date and should be expressed in terms of both gross and net wells. The disclosure should not include wells planned but not commenced, unless there are factors which make such information material.

[end of Item 2(b)(7)]

2(b)(8) If the registrant is obligated to provide a fixed and determinable quantity of oil or gas in the future under existing contracts or agreements, material information concerning the estimated availability of oil and gas from any principal sources.

(i) Such information shall be furnished as to current and future reserves and supplies, and shall: (A) Identify the principal sources of oil and gas to be relied upon and the total available amounts expected to be received from each principal source and from all sources combined; (B) disclose the total quantities of oil and gas which are subject to delivery commitments; and (C) indicate steps taken to insure available reserves and supplies are sufficient to meet such commitments. Such future information shall be provided for an appropriate period of one to five years.

(ii) The term "availability" is used herein to mean an estimate of that quantity of oil and gas which can be produced from current proved developed reserves using presently installed equipment under existing economic and operating conditions and an estimate of amounts that can be delivered to the registrant under long-term contracts

or agreements on a per-day, per-month, or per-year basis. This term is not intended to have the same meaning as "deliverability" as used by the Federal Energy Regulatory Commission in FPC Form No. 15.

(iii) The registrant should develop disclosure based upon the facts and circumstances of its particular situation, including disclosure by appropriate geographic areas. Such disclosure should be in a form understandable to investors and should include, but not be limited to description of the following factors: (A) Significant supplies dedicated or contracted to the registrant; (B) any significant amounts of reserves or supplies subject to priorities or curtailments which may affect quantities delivered to certain classes of customers, such as customers receiving services under low priority and interruptible contracts; (C) any priority allocations or price limitations imposed by federal or state regulatory agencies, as well as other factors beyond the control of the registrant which may affect the ability of the registrant to meet its contractual obligations (detailed discussions of price regulation need not be furnished); (D) any other factors beyond the control of the registrant, such as other parties having control over the drilling of new wells, competition for the acquisition of reserves and supplies, and the availability of foreign reserves and supplies which may affect the ability of the registrant to acquire additional reserves and supplies, or to maintain or increase the availability of reserves and supplies; and (E) any impact on the registrant's earnings and financing needs resulting from its inability to meet short or long-term contractual obligations. See Guide 22 of the Guides for the Preparation and Filing of Registration Statements under the Securities Act of 1933 and Guide

1 of the Guides for the Preparation and Filing of Reports and Proxy and Registration Statements under the Securities Exchange Act of 1934.

(iv) If within the last five years the registrant has been unable to meet any significant delivery commitments, describe the circumstances concerning such events and the impact on the registrant.

[end of Item 2(b)(8)]

#### AUTHORITY

These amendments are adopted pursuant to the authority in Sections 6, 7, 8, 10 and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j, and 77s(a)) of the Securities Act of 1933; sections 12, 13, 14, 15(d) and 23(a) (15 U.S.C. 78l, 78m, 78o(d) and 78w) of the Securities Exchange Act of 1934.

The Commission finds that any changes in the amended rules adopted from those published in Securities Act Release No. 5967 have already been generally subject to comment and are either technical in nature or less burdensome than previous requirements so that further notice and rulemaking procedures pursuant to the Administrative Procedure Act (5 U.S.C. 553) are not necessary.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

DECEMBER 19, 1978.

The authentic text behind the news . . .

# The Weekly Compilation of PRESIDENTIAL DOCUMENTS

## Administration of Jimmy Carter

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published quarterly, semiannually, and annually. Other features include lists of acts approved by the President and of nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by Office of the Federal Register, National Archives and Records Service, General Services Administration

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

| Monday          | Tuesday    | Wednesday | Thursday        | Friday     |
|-----------------|------------|-----------|-----------------|------------|
| DOT/COAST GUARD | USDA/ASCS  |           | DOT/COAST GUARD | USDA/ASCS  |
| DOT/NHTSA       | USDA/APHIS |           | DOT/NHTSA       | USDA/APHIS |
| DOT/FAA         | USDA/FNS   |           | DOT/FAA         | USDA/FNS   |
| DOT/OHMO        | USDA/FSQS  |           | DOT/OHMO        | USDA/FSQS  |
| DOT/OPSO        | USDA/REA   |           | DOT/OPSO        | USDA/REA   |
| CSA             | CSC        |           | CSA             | CSC        |
|                 | LABOR      |           |                 | LABOR      |
|                 | HEW/FDA    |           |                 | HEW/FDA    |

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Phone 523-5240  
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3510-10-M]

## Title 7—Agriculture

SUBTITLE A—OFFICE OF THE  
SECRETARY OF AGRICULTURE

## PART 6—IMPORT QUOTAS AND FEES

## Subpart—Section 22 Import Quotas

DAIRY PRODUCTS AND MILK CHOCOLATE  
CRUMB; CORRECTION

AGENCY: Foreign Agriculture Service, USDA.

ACTION: Correction to final rule.

**SUMMARY:** This corrects the final rule of the import regulation I, revision 6, which was published in the FEDERAL REGISTER on November 22, 1978 established under authority of section 22 of the Agriculture Adjustment Act, as amended. In FR Doc. 78-32804, appearing at page 54900 of the FEDERAL REGISTER, the changes should be made as set forth below.

FOR FURTHER INFORMATION  
CONTACT:

Bryant H. Wadsworth, 202-447-5270.

The corrections are as follows:

1. On page 54900, the fourth sentence of the second paragraph of the SUPPLEMENTARY INFORMATION is corrected to read as follows: "It has therefore been determined by John E. Riess, Acting Deputy Director, Dairy, Livestock and Poultry Division, CP, Foreign Agricultural Service, that good cause exists for not postponing the effective date of this final rule until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553)."

2. On page 54902, insert immediately before "§ 6.20 Determination" the following additional paragraph:

**AUTHORITY:** Sec. 2, 62 Stat. 1248, as amended, 7 U.S.C. 624; Part 3 of the Appendix to the Tariff Schedules of the United States, 19 U.S.C. 1202.

3. On page 54902, § 6.21(q), eliminate "(effective date)" and insert in lieu thereof "November 22, 1978."

4. On page 54903, delete § 6.25(b)(4).  
5. On page 54907, insert the following additional paragraph immediately before "Signed this 17th day of November 1978": "It is hereby certified that an approved Final Impact State-

ment has been prepared in accordance with Executive Order 12044 and is available from the Office of the Director of Economics, Policy Analysis and Budget, Room 112, Administration Building, USDA, Washington, D.C. 20250."

Signed this 21st day of December 1978.

THOMAS R. HUGHES,  
Administrator,  
Foreign Agricultural Service.

CHAPTER 1—AGRICULTURAL MAR-  
KETING SERVICE (STANDARDS, IN-  
SPECTION, MARKETING SERVICE,  
DEPARTMENT OF AGRICULTURE)

## SUBCHAPTER E—WAREHOUSE REGULATIONS

## PART 102—GRAIN WAREHOUSES

AGENCY: Agricultural Marketing Service.

ACTION: Amendment of regulations.

**SUMMARY:** At 43 FR 14005, April 4, 1978, the Agricultural Marketing Service adopted a final rule relating to licensing of grain inspectors and weighers. This document adds the authority citation under which that amendment was issued.

DATE: April 4, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Rex Willis, Warehouse Service Branch, Transportation & Warehouse Division—AMS 447-3616.

**SUPPLEMENTARY INFORMATION:** The proper authority citation for the rule document published at 43 FR 14005 is as follows: (Aug. 11, 1916, ch. 313, part C, § 28, 39 Stat. 490 (7 U.S.C. 288)).

Done at Washington, D.C., December 21, 1978.

WILLIAM T. MANLEY,  
Deputy Administrator,  
Marketing Program Operations.

CHAPTER IV—FEDERAL CROP INSUR-  
ANCE CORPORATION, DEPART-  
MENT OF AGRICULTURE

[Amdt. No. 1]

## PART 411—GRAPE CROP INSURANCE

Subpart—Regulations for the 1977  
and Succeeding Crop Years

## CLOSING DATES

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

**SUMMARY:** This rule changes the closing date for accepting applications for grape crop insurance in certain counties in California under the authority contained in the Grape Crop Insurance Regulations for the 1977 and Succeeding Crop Years. Such closing dates are changed for the 1979 crop year only due to the shortness of time available for accepting such applications.

**EFFECTIVE DATE:** December 28, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-3325.

**SUPPLEMENTARY INFORMATION:** Under the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501, et seq.), the Federal Crop Insurance Corporation is amending its regulations as found in 7 CFR Part 411, the Grape Crop Insurance Regulations for the 1977 and Succeeding Crop Years (41 FR 36792, September 1, 1976), to provide a closing date of January 10, 1979, for accepting applications for grape crop insurance in Merced and Stanislaus Counties, California. The normal closing date is December 10 for accepting such applications; however, since this is a new program being offered for the first time in Merced and Stanislaus Counties, California, for the 1979 crop year, sufficient time should be allowed for all potential policyholders to learn about the available offer of insurance. This change of closing dates from Decem-

(Navel Orange Regulation 446)

**PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA****Limitation of Handling**

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final Rule.

**SUMMARY:** This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period December 29, 1978-January 4, 1979. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, (202) 447-6393.

**SUPPLEMENTARY INFORMATION:** Findings. Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under this marketing order, and upon other information, it is found that the limitation of handling of navel oranges, as hereafter provided, will tend to effectuate the declared policy of the act. This regulation has not been determined significant under the USDA criteria for implementing Executive Order 12044.

The committee met on December 22, 1978 to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of navel oranges deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is dull.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon

which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 907.746 Navel Orange Regulation 446.

**Order.** (a) The quantities of navel oranges grown in Arizona and California which may be handled during the period December 29, 1978 through January 4, 1979, are established as follows:

- (1) District 1: 500,000 cartons;
- (2) District 2: 43,006 cartons;
- (3) District 3: unlimited movement.

(b) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" mean the same as defined in the marketing order.

(Secs. 1-19, 46 Stat. 31, as amended; 7 U.S.C. 601-674.)

**[4410-10-M]****Title 8—Aliens and Nationality****CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE****PART 231—ARRIVAL-DEPARTURE MANIFESTS AND LISTS; SUPPORTING DOCUMENTS****Submission of Aircraft-Vessel Reports (Forms I-92) for Direct Flights Between the United States and Canada**

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule; clarification of rulemaking proceeding.

**SUMMARY:** This document is being published in order to clarify the status of the rulemaking proceedings relative to the submission of Forms I-92 (Aircraft/Vessel Reports) for passengers on direct flights between the United States and Canada. This document is necessary to prevent publication of the material published at 43 FR 30268-69 on July 14, 1978 in the annual compilation of the Code of Federal Regulations. That document should be considered as a notice of proposed rulemaking. It is currently under review by the Service pursuant to the proposed rulemaking provisions of the Administrative Procedure Act.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service. Telephone: (202) 376-8373.

**SUPPLEMENTARY INFORMATION:** On July 14, 1978 at 43 FR 30268 the Immigration and Naturalization Service published "final" rules amending 8 CFR 231.1(b) and 8 CFR 231.2(b) relating to the required submission of Forms I-92 (Aircraft/Vessel Reports) for passengers on direct flights between the United States and Canada. These rules were published to become effective immediately upon publication. However, the Air Transport Association requested and was granted a two month period of time in which to submit representations to the Service. As a result of this request the Service published on July 28, 1978, an order in the FEDERAL REGISTER at 43 FR 32741 for the purpose of staying the "final" rule of July 14, 1978 and to request comments from the public for a period of 60 days to expire on September 26, 1978.

The Office of the Federal Register has advised the Service that the order published July 28, 1978 does not prevent the publication of the "final" regulations of July 14, 1978 in the Code of Federal Regulations revised as of January 1, 1979. This order, therefore, is published for the sole purpose of withdrawing the "final" rules of July 14, 1978 to prevent their publication in the annual compilation of the Code of Federal Regulations effective as of January 1, 1979. The Service desires and requests that the "final" rules of July 14, 1978 be considered as proposed regulations and indexed as such by the Office of the Federal Register.

Accordingly, the "final" rules amending 8 CFR 231.1(b) and 8 CFR 231.2(b) published on July 14, 1978 at 43 FR 30268 are withdrawn.

Dated: December 21, 1978.

*LEONEL J. CASTILLO,  
Commissioner of Immigration  
and Naturalization.*

**[4910-13-M]****Title 14—Aeronautics and Space****CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

[Airspace Docket No. 78-ASW-48]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****Designation of Transition Area: Giddings, Tex.**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

**SUMMARY:** The nature of the action being taken is to designate a transition area at Giddings, Tex. The intended effect of the action is to provide controlled airspace for aircraft executing a proposed instrument approach procedure to the Giddings-Lee County Airport. The circumstance which created the need for the action was a requirement to provide capability for flight under instrument weather conditions to the airport. Coincident with this action, the airport is changed from visual flight rules (VFR) to instrument flight rules (IFR) status.

EFFECTIVE DATE: February 22, 1979.

FOR FURTHER INFORMATION CONTACT:

David Gonzalez, Airspace and Procedures Branch (ASW-535), Air Traf-

fic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101; telephone 817-624-4911, extension 302.

**SUPPLEMENTARY INFORMATION:****HISTORY**

On October 23, 1978, a notice of proposed rule making was published in the FEDERAL REGISTER (43 FR 49310) stating that the Federal Aviation Administration proposed to designate the Giddings, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. Comments were received and one commentator objected to the proposal.

**DISCUSSION OF COMMENTS**

The Department of Air Force representative objected to the proposed rule. The commentator expressed concern because of the effect the proposal may have on the Camp Swift Military Operations Area (MOA) training activity. The normal use time of the MOA is eight hours a week, 1000-1200 and 1400-1600, Wednesdays and Thursdays. The MOA activity is conducted only in visual meteorological conditions (VMC), when instrument operations at Giddings-Lee County Airport would normally be unnecessary. When the MOA is in use, nonparticipating IFR traffic is not authorized transit unless it can be separated/segregated from the MOA activity. Therefore, the Federal Aviation Administration has determined that IFR use of the common controlled airspace can be handled without impacting the MOA user and with minimal effect, if any, on nonparticipating IFR traffic. Except for editorial changes, this amendment is that proposed in the notice.

**THE RULE**

This amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) designates the Giddings, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Giddings-Lee County Airport.

**ADOPTION OF THE AMENDMENT**

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 GMT, February 22, 1979, as follows:

In Subpart G, 71.181 (43 FR 440), the following transition area is added:

ber 10 to January 10 is effective for the 1979 crop year only and will provide sufficient time for accepting applications for grape crop insurance. Under the provisions of § 411.3 the Grape Crop Insurance Regulations for the 1977 and Succeeding Crop Years (7 CFR Part 411), the Manager of the Corporation is authorized in any crop year to extend the closing date for acceptance of applications in any county, by publishing a notice in the FEDERAL REGISTER, upon his determination that no adverse selectivity will result during the period of such extension, provided that if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications. No adverse conditions presently exist.

Inasmuch as this extension of the sales closing date will only affect those producers who may be applying for grape crop insurance, the Corporation has found and determined that compliance with the provisions for notice and public participation would be impracticable, unnecessary, and contrary to the public interest, and that good cause exists for issuing this Amendment No. 1 as a final rule. Therefore, this amendment is hereby issued without compliance with such procedure.

**FINAL RULE**

Accordingly, § 411.3 of the Grape Crop Insurance Regulations for the 1977 and Succeeding Crop Years (7 CFR Part 411), is hereby amended by adding at the end thereof, the following:

• • • The closing date for accepting applications for grape crop insurance for the 1979 crop year only is hereby extended until the close of business on January 10, 1979.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516.)

*PETER F. COLE,  
Secretary, Federal Crop  
Insurance Corporation.*

**[3410-02-M]****CHAPTER IX—AGRICULTURAL MARKETING SERVICE [MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS], DEPARTMENT OF AGRICULTURE**

## GIDDINGS, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Giddings-Lee County Airport (latitude 30°10'11" N., longitude 96°58'51" W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and Sec. 8(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE—The FAA has determined that this document involves a regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Fort Worth, Tex., on December 13, 1978.

PAUL J. BAKER,  
Acting Director,  
Southwest Region.

[FR Doc. 78-35939 Filed 12-27-78; 8:45 am]

## [4910-13-M]

[Airspace Docket Number 78-CE-32]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW POINT ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS**

## **Alteration of Control Zone, Sioux City, Iowa**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the designation of the Sioux City, Iowa Control Zone from a continuous to a part-time control zone. This action is necessary because the National Weather Service is reducing their staffing, and consequently its hours of operation. Since aviation weather would not be provided for the control zone when the National Weather Service is closed, it is necessary that the control zone be designated part-time to coincide with the Weather Service's hours of operation.

EFFECTIVE DATE: February 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Dwaine E. Hiland, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-537, FAA, Central Region, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374-3408.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter the designation of the Sioux City, Iowa Control Zone from a con-

tinuous to a part-time control zone. The National Weather Service has advised that they are reducing their staffing at Sioux City, Iowa and effective March 4, 1979, weather observations and forecasts will not be available between the hours of 0000 and 0600 local time. Since the Airport Traffic Control Tower is operational from 0700 to 0000, it is not possible for FAA to provide aviation weather during the time the National Weather Service is closed. Accordingly, it is necessary that the control zone be designated part-time. The control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airport Facility Directory. Since there is no present alternative to this action, notice and public procedure under 5 U.S.C. 553(b) is impracticable and contrary to the public interest and good cause exists for making this amendment effective before January 29, 1979.

Accordingly, Subpart F, Section 71.171 of the Federal Aviation Regulations (14 CFR 71.171) as republished on January 3, 1978 (43 FR 355), is amended, effective 0901 GMT, February 22, 1979, by altering the following control zone:

### **SIoux CITY, IOWA**

Within a 5-mile radius of Sioux City Municipal Airport (latitude 42°24'03" N; longitude 96°22'55" W) and within 2 1/4 miles each side of the Sioux City VORTAC 140° radial, extending from the 5-mile radius zone to 6 miles southeast of the VORTAC. This control zone is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will, thereafter, be continuously published in the Airport Facility Directory.

There are no alternatives to this action; therefore, notice and public procedure under 5 USC 553(b) is impractical and contrary to the public interest and good cause exists for making this amendment effective in less than thirty (30) days after its publication.

(Section 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); Section 8(c), Department of Transportation Act (49 U.S.C. 1655(c)); Section 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Missouri, on December 15, 1978.

C. R. MELUGIN, Jr.,  
Director, Central Region.

[FR Doc. 78-36068 Filed 12-27-78; 8:45 am]

## [4910-13-M]

[Airspace Docket No. 78-EA-56]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **Alteration and Revocation of VOR Federal Airways**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes victor airway V-35W in the vicinity of Morgantown, W. Va.; realigns victor airway V-37 in the vicinity of Elkins, W. Va.; and extends victor airway V-469 from Elkins to Johnstown, Pa. This action will aid flight planning, improve traffic flow in the Pittsburgh, Pa., terminal area and reduce controller work load.

EFFECTIVE DATE: February 22, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8525.

SUPPLEMENTARY INFORMATION:

### **HISTORY**

On October 23, 1978, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revoke an airway in the vicinity of Morgantown, W. Va., area and realign two airways in the vicinity of Elkins, W. Va. (43 FR 49314). Interested persons were invited to participate in the rulemaking proceeding by submitting comments on the proposal to the FAA. Two comments were received and neither stated an objection to the proposal. This amendment is the same as that proposed in the notice. Section 71.123 was republished in the **FEDERAL REGISTER** on January 3, 1978, (43 FR 307).

### **THE RULE**

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) revokes V-35W in the vicinity of Morgantown, W. Va.; realigns V-37 in the vicinity of Elkins, W. Va.; and extends V-469 from Elkins to Johnstown, Pa. This amendment will reduce the airway distance between Elkins and Ellwood City, Pa., approximately six miles and increase the lateral separation between arriving and departing aircraft in the Pittsburgh, Pa., termi-

nal area. Subpart C of Part 71 was republished in the **FEDERAL REGISTER** on January 3, 1978, (43 FR 307).

### **ADOPTION OF THE AMENDMENT**

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) and amended (42 FR 60123) is further amended, effective 0901 GMT, February 22, 1979, as follows:

Under V-35, "including a west alternate from Morgantown to Johnstown via INT Morgantown 010° and Johnstown 260° radials"; is deleted.

Under V-37, "Morgantown, W. Va.; INT Morgantown, 331° and Ellwood City, Pa., 185° radials" is deleted and "Clarksburg, W. Va.; INT Clarksburg 350° and Ellwood City, Pa., 185° radials"; is substituted therefor.

Under V-469, "to Elkins," is deleted and "Elkins; Morgantown, W. Va.; INT Morgantown 010° and Johnstown, Pa., 260°; to Johnstown," is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 8(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE—The FAA has determined that this document involves a regulation which is not significant under the procedures and criteria prescribed by Executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on December 20, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

[FR Doc. 78-36070 Filed 12-27-78; 8:45 am]

## [4910-13-M]

[Airspace Docket No. 78-SW-50]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **PART 73—SPECIAL USE AIRSPACE**

### **Establishment of Temporary Restricted Areas and Alteration of Continental Control Area**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These amendments establish four temporary joint use restricted areas in the vicinity of Fort Hood, Tex., and alter the Continental Control Area, where necessary, to contain a military joint readiness exercise called BRAVE SHIELD 19. These actions will provide for safe and efficient use of the navigable airspace by pro-

hibiting unauthorized flight operations of nonparticipating aircraft within the areas during the time the exercise is in operation.

EFFECTIVE DATE: February 22, 1979. Period of designation is April 5, 1979, through April 13, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8525.

SUPPLEMENTARY INFORMATION:

### **HISTORY**

On November 13, 1978, (43 FR 52496) the FAA published for comment a notice of proposed rulemaking to amend Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to designate four temporary restricted areas identified as R-6303A, R-6303B, R-6303C and R-6303D in the vicinity of Fort Hood, Tex., to contain a military joint service exercise and to include these restricted areas in the Continental Control Area for the duration of their times of designation. A majority of the air activities will be within the Fort Hood Military Reservation permanently designated as R-6302A/B/C/D/E. Section 71.151 and § 73.63 were republished in the **FEDERAL REGISTER** on January 3, 1978, (43 FR 344 and 704). Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

### **THE RULE**

These amendments to Parts 71 and 73 of the Federal Aviation Regulations designate temporary restricted areas in the vicinity of Fort Hood, Tex., in order to protect nonparticipating aircraft during the time that BRAVE SHIELD 19 readiness exercise is in operation. Also, the airspace at and above 14,500 feet MSL within these temporary restricted areas during the designated period is included in the Continental Control Area.

### **ADOPTION OF THE AMENDMENT**

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart D of Part 71 and Subpart B of Part 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) as republished (43 FR 344 and 704) are amended, effective 0901 GMT, February 22, 1979, as follows:

Under § 71.151 (43 FR 344) the following temporary restricted areas are added for the duration of their time of designation from

0600 local time, April 5, 1979, to 2359 local time, April 13, 1979:

R-6303A BRAVE SHIELD 19, Tex.  
R-6303B BRAVE SHIELD 19, Tex.  
R-6303C BRAVE SHIELD 19, Tex.  
R-6303D BRAVE SHIELD 19, Tex.

Under § 73.63 (43 FR 704) the following temporary restricted areas are added:

R-6303A BRAVE SHIELD 19, Tex.

Boundaries. Beginning at Lat. 31°09'00"N., Long. 97°55'00"W.; to Lat. 31°16'00"N., Long. 97°54'00"W.; to Lat. 31°19'00"N., Long. 97°51'00"W.; to Lat. 31°24'00"N., Long. 97°48'00"W.; to Lat. 31°23'00"N., Long. 97°43'00"W.; to Lat. 31°21'00"N., Long. 97°41'00"W.; to Lat. 31°20'00"N., Long. 97°41'00"W.; to Lat. 31°14'00"N., Long. 97°33'00"W.; to Lat. 31°06'00"N., Long. 97°33'00"W.; to Lat. 31°08'00"N., Long. 97°39'00"W.; to Lat. 31°10'00"N., Long. 97°41'00"W.; to Lat. 31°09'30"N., Long. 97°43'00"W.; to Lat. 31°09'00"N., Long. 97°43'30"W.; to the point of beginning, excluding airspace 4,000 feet MSL and below within a 5 NM radius of the Hood, Tex., VOR, within a 5 NM radius of the Fort Hood AAF (31°08'15"N., 97°42'50"W.) but south of R-6302 boundary, and within 5 NM each side of the Hood, Tex., VOR 102°T and 125°T radials extending from the VOR to V-17 airway.

Designated altitudes. Surface to and including FL 180.

Time of designation. Intermittent, 0600 to 0001 local time, April 5, 1979, through April 13, 1979.

#### CHAPTER II—CIVIL AERONAUTICS BOARD

#### SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-1088; Amdt. No. 64]

#### PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

##### Fuel Surcharge Rate

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., December 21, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This final rule establishes a 0.37 percent fuel surcharge rate applicable to the minimum military charter rates (ER-1045, December 27, 1977) for foreign and overseas air transportation services performed for the Department of Defense (DOD) and procured by the Military Airlift Command (MAC). This surcharge amendment is triggered by the increase in average fuel price for the participating MAC carriers of 1.08 cents per gallon—from 41.31 cents per gallon to 42.39 cents per gallon.

DATES: Adopted: December 21, 1978. Effective: December 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Leonard S. Friedman, Postal and Military Rates Division, Bureau of Pricing and Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428, Phone: 202-673-5368.

SUPPLEMENTAL INFORMATION: As indicated in ER-1024 (42 FR 58902, November 11, 1977), dated November 3, 1977, the Board monitors fuel price changes and will establish a fuel surcharge rate adjustment when the average price of fuel for participating MAC carriers changes one cent or more per gallon. The latest Form 41 data, for the month of October 1978, indicate that the average fuel price for MAC services has increased 1.08 cents over the price used to set the present rates.<sup>1</sup> Although there have been revisions in the MAC rate structure since we adopted the surcharge procedure,<sup>2</sup> the methodology remains valid. In reaching this decision, we have reviewed the relationship of fuel costs to total economic costs for each of the major rate elements. First, we considered the impact of fuel cost on total economic costs separately for the two sets of seating densities used in setting MAC rates. As set out in Appendices B and C, the seating density difference

<sup>1</sup>The base fuel prices reflected in the current rates are for the month of April 1977.

<sup>2</sup>Notices dated September 8, 1978 and December 22, 1978, Docket 29759.

produces an insignificant variance in the fuel cost ratio, 28.51% and 28.74%, respectively. Second, we considered the ratios of fuel cost to total cost for the separate rates for standard and stretched jet equipment. However, as can be seen in Appendix B, the ratios for the two standard jet operators, Northwest 29.34% and Pan American 24.27%, are not significantly dissimilar to that for the stretched jet carriers or for the industry, 28.51%. Finally, we have considered the impact of a succession of surcharge amendments of the rates on the ratio of fuel costs to total economic costs. To avoid compounding the surcharges, they must be computed from a fixed base. For this purpose, we believe the fuel prices for the month of April 1977 and the total economic costs for the current MAC seating densities, reflecting 24 months cost escalation, as prescribed in ER-1024, provide a satisfactory base for computing the surcharges. We conclude that a uniform fuel surcharge applicable to all the military rates as applied in the past, continues to be reasonable.

Accordingly, the Board has completed its review of the latest available fuel cost data as reported on C.A.B. Form 41, Schedule P-12(a) for foreign and overseas MAC air transportation services for the month of October 1978, and in establishing surcharge provisions in Part 288 of its Economic Regulations (14 CFR Part 288) applicable to the rates established for those services.<sup>3</sup> The basis for issuing this surcharge amendment is the increase in average fuel price for the participating MAC carriers of 1.08 cents per gallon—from 41.31 cents per gallon reflected in the currently effective base rates to the latest reported average price of 42.39 cents per gallon.

Appendix A<sup>4</sup> sets forth the results of the surcharge rate computation for the reported fuel price changes for commercial and military fuels consumed in military charter service for the month of October 1978, and the rate impact for the changes in current average fuel prices from those reflected in the base rates. Accordingly, we will establish the fuel surcharge rate applicable to the current base final rates, effective December 21, 1978, to increase the Category B and Category A rates by 0.37 percent.

In view of the present need for a fuel surcharge to the minimum rates set forth in Part 288, we find good cause exists to make these amendments effective on less than thirty (30) days' notice.

<sup>3</sup>This and future surcharge amendments will be made applicable to the minimum MAC rates established in ER-1045, effective December 27, 1977, until such time as new final base rates are established.

<sup>4</sup>Appendices A through D filed as part of the original document.

In consideration of the foregoing, the Board amends Part 288 of its Economic Regulations (14 CFR Part 288) effective December 21, 1978 as follows:

1. Amend § 288.7(a) by revising the paragraph following the tables so as to reflect an additional proviso, the amended paragraph to read as follows:

§ 288.7 Reasonable level of compensation.

- (a) . . .
- (1) . . .
- (2) . . .

*Provided*, That subject to the provisions of § 288.8, the minimum rates set forth above shall not be applicable to passengers or cargo carried on a particular trip in excess of the amount that the contract calls for DOD to supply and the carrier to provide space. *And provided further*, That if a carrier performs a one-way charter flight carrying nonmilitary traffic for a nonmilitary user, the carrier may charter the return flight of that aircraft to DOD at a published one-way charter traffic rate that is in fact available to the general public for equivalent services. *Provided, however*, That effective December 31, 1978 the total minimum compensation pursuant to the rates set forth in subparagraph (1) above for services performed with regular jet, wide-bodied jet and DC-8-61/43 aircraft shall be increased by a surcharge of 0.37 percent.

2. Amend § 288.7(d) (1) and (2) to add a proviso and to read as follows:

§ 288.7 Reasonable level of compensation

- (d) . . .
- (1) . . .
- (2) . . .

*Provided*, That effective December 21, 1978, the total minimum compensation pursuant to the rates specified in subparagraphs (1) and (2) of this paragraph shall be increased by a surcharge of 0.37 percent.

(Secs. 204, 403, 416, Federal Aviation Act of 1958, as amended; 72 stat. 743, 758 and 771, as amended; (49 U.S.C. 1324, 1373 and 1386).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,  
Secretary.

[6320-01-M]

[Regulation PR-187; Amendment No. 47 of Part 302]

#### PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: In PR-186, issued today, the Board established procedures for applications for automatic market entry. By this notice the Board is amending its Rules of Practice (Part 302, Subpart I) to except the automatic entry applications from the general route application rules.

DATES: Effective: December 29, 1978. Adopted: December 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard B. Dyson, Associate General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C., 202-673-5442.

SUPPLEMENTARY INFORMATION: The general rules for route applications contained in 14 CFR Part 302, Subpart I, are meaningful only for applications upon which hearings might be held, and it is not expected that hearings will be held in automatic market entry applications. Since this amendment is administrative in nature, affecting a rule of agency practice and procedure, and must take effect at the same time as PR-186, the Board finds that notice and public procedure are unnecessary and an effective date of less than 30 days from issuance is in the public interest.

Accordingly, in 14 CFR Part 302, Subpart I, the Civil Aeronautics Board amends § 302.901, *Applicability*, effective December 29, 1978, so that it reads:

§ 302.901 Applicability.

This subpart sets forth the special rules applicable to proceedings for conferment and/or modification of route authority under sections 401 and 402 of the Federal Aviation Act of 1958. However, this subpart does not apply to applications for automatic market entry under section 401(d)(7) of the Act and Part 322 of this chapter. For information as to other applicable rules, reference should be made to Subpart A of this part, to the Federal Aviation Act and to the substantive rules (see Parts 201 and 211 of the Economic Regulations as to the form of applications) and orders of the Board.

(Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

PHYLLIS T. KAYLOR,  
Secretary.

[Regulation PR-186]

#### PART 322—AUTOMATIC MARKET ENTRY PROCEDURES

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The Board is adding a new Part 322 to establish a procedure for the Automatic Entry Program. The rule governs the filing of Automatic Entry Applications and Protective Notices. It also fixes the time for the commencement of the 60-day period for Board action on these applications.

DATES: Effective: December 29, 1978. Adopted: December 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard B. Dyson, Associate General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428; (202) 673-5442.

SUPPLEMENTARY INFORMATION: The Airline Deregulation Act of 1978 (P.L. 95-504) adds a new paragraph (7) to section 401(d) of the Federal Aviation Act of 1958, 49 U.S.C. 1371(d), establishing an automatic market entry (AME) program. Under this provision, a carrier may apply to the Board each year for the next 3 years for one new route. It will automatically be awarded a certificate for the route, regardless of the number of other carriers also serving it, unless the Board determines that the applicant is not fit, willing, and able to provide nonstop service and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board issued under the Act.

Applications may be submitted beginning on the second business day of 1979. There are two rounds each year for filing these applications. The first round ends at the close of business on the last business day before January 30th. The second round begins for a carrier on the day that it is denied a certificate for the route it applied for in the first round, or on the day it receives a certificate for a route for which another carrier is also receiving an AME certificate. The second round ends for all carriers on the last business day falling on or before the 120th day (including weekends and holidays) of the calendar year.

If a carrier receives a certificate for a new route in the second round, the certificate it received in the first round is revoked. Thus, an air carrier can receive only one new route per year under the automatic entry program. Entry into additional markets under other portions of the Act, however, is not affected.

Paragraph (7) also includes a procedure for a carrier to protect one of its presently certificated routes from entry under this program. The carrier must file a notice on the first business day of the calendar year. The notice protects only one route during that year, and only from competition under the Automatic Entry Program. Another carrier is not precluded from gaining entry to the protected market under other portions of the Act.

By this action the Board adds a new Part 322, *Automatic Market Entry Procedures*, to the Procedural Regulations. These rules include requirements for AME applications under sections 401(d)(7)(A) and (7)(B) and for protective notices under 401(d)(7)(C).

The Act provides two periods per year during which carriers may file applications for automatic entry. These two periods, designated the first and second rounds in the rule, give the carriers some opportunity to avoid duplication in their selections.

The rules will allow the carriers to submit as many applications as they wish during both the first and second rounds. Only the route indicated in the last application filed can be granted and all prior applications will be considered withdrawn. The applications will be posted on a public bulletin board by the Docket Section. By this procedure a carrier will be able to adjust its filings, and hence will be more likely to end up with a certificate for a route that it actually is willing to serve. Not allowing adjustments would increase the likelihood of certain markets being so overcrowded that the authority received under the AME program would go unused.

Protective notices must be filed with the Docket Section on the first business day of the calendar year. The Docket Section, will, as is its practice, promptly post these notices on the public bulletin board.

The Board is not, however, allowing the resubmission of protective notices by incumbent carriers. The basic Congressional intent of allowing each carrier to protect one route that it considers important is served by allowing one filing. In our judgment, allowing incumbents to arrange and rearrange their protective notices so that the maximum number of routes overall are protected serves neither the specific intent of the route-protection provision nor the goal of free route entry.

Since air carriers will presumably be withdrawing and refiling applications, the Board will wait until the end of each round before beginning its determination of the carrier's fitness. If a carrier wants the 60-day period for the Board's fitness determination to start sooner, it can file a waiver, either with its application or at any time afterwards. The Board will begin the fitness determination upon receiving the application and the waiver, and will grant or deny the certificate within 60 days of the filing of the waiver. Any additional applications by that carrier filed after the Board has received the waiver will not be considered at all. The carrier will have to wait for the second round, if it qualifies, or for the next year, to file any additional AME application.

Each application must identify the route being applied for by naming the pair of points involved. If one of the points is presently a hyphenated point in the existing national route system, a carrier may apply for and receive authority under the Automatic Entry Program to serve each designated airport.

The application must also include information relative to the carrier's fitness, willingness, and ability to provide scheduled service. Those carriers that have already been found fit, willing, and able to provide scheduled service by the Board need only cite the most recent Board order establishing that finding. Other carriers must provide material to support such a finding. In making this showing, the carrier need not resubmit material that it submitted in a prior fitness proceeding, but can incorporate such material by reference into its application.

Shortly after either receiving a waiver from an air carrier or the end of the round, a show-cause order will be issued by the Board as to why the applicant air carrier should not be found fit, willing, and able to provide the nonstop service for which it is applying. It is presently intended that the show-cause orders will give interested persons 10 days (including weekends and holidays) to file objections in the Docket Section and give the air carrier involved 5 days to file a reply.

Section 322.7 declares that applicants for automatic market entry need not file the environmental evaluations and energy information usually required by 14 CFR 312.12 and 313.5. In the Automatic Entry Program Congress has directed the Board to certify all applicants that are fit, willing, and able to provide the nonstop service for which they applied. Because the Board has no discretion to deny a certificate to a qualified applicant, granting certificates under sections 401(d)(7)(A) and (7)(B) cannot be construed as a major Federal Action

within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). It is therefore unnecessary to determine whether granting these certificates will have a significant impact on the quality of the human environment, as NEPA requires when a major Federal action is being considered.

Having made this finding, we believe that the environmental evaluations normally required of route applicants would impose an undue burden on them here. However, if unusual circumstances exist, our staff will prepare an analysis of the environmental and energy implications in particular cases.

In a separate notice, PR-187, we are also amending Sec. 302.901 of the Rules of Practice (14 CFR 302.901) to exclude applications filed under this new part from the coverage of Subpart I. That rule is meaningful only for applications upon which hearings might be held, and we do not expect to hold hearings in automatic market entry proceedings.

Because of the need to have these rules in effect before January 2, 1979, when the first notices will be filed under the statute, we find that notice and public procedure are impracticable and contrary to the public interest, and that an effective date of less than 30 days from issuance is in the public interest.

This program requires air carriers to prepare and submit certain information to the Board in order to apply. By publishing this final rule, we have determined that this information is necessary in conducting the program and must be prepared and submitted. Accordingly, these application and notice requirements, found in §§ 322.2, 322.3, and 322.6 are adopted subject only to review by the General Accounting Office, pursuant to 44 U.S.C. 3512. These specific requirements will be effective immediately, along with the rest of Part 322. Interested persons are not precluded from applying for new routes. However, GAO will conduct its clearance review to ensure that a minimum burden is imposed upon applicants and that the information required is otherwise consistent with the Federal Reports Act. We will publish a notice of GAO's decision.

Accordingly, the Civil Aeronautics Board adds a new Part 322, *Automatic Market Entry Procedures*, to Title 14 of the Code of Federal Regulations, effective December 29, 1978, as set forth below:

#### PART 322—AUTOMATIC MARKET ENTRY PROCEDURES

- Sec.  
322.1 Applicability.  
322.2 First-round applications.  
322.3 Second-round applications.

Sec.

- 322.4 Waiver.  
322.5 Board action.  
322.6 Protective notices.  
322.7 Environmental evaluations and energy information not required.  
322.8 No conflict with separation of functions rule.  
322.9 Conformity with Subpart A of Part 302.

AUTHORITY: Sec. 204, 401 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754, 49 U.S.C. 1324, 1371.

#### § 322.1 Applicability.

This subpart applies to applications filed by air carriers for authority to serve new nonstop routes under the Automatic Market Entry (AME) Program (Section 401(d)(7)(A) and (7)(B) of the Act) and to notices filed by incumbent carriers to protect presently certificated routes from automatic entry under this program (Section 401(d)(7)(C)).

#### § 322.2 First-round applications.

(a) To obtain a route under the AME program an air carrier shall, during the period (the "first round") that begins at the opening of business on the second business day of the calendar year and ends at the close of business on the last business day before January 30th of that year, file in the Docket Section an application titled "Application for Automatic Market Entry-First Round."

(b) The contents of the application shall be as follows:

- (1) All applications shall indicate the pair of points between which the applicant seeks nonstop route authority under the program.
- (2) Applications from carriers already found by the Board to be fit, willing, and able to provide scheduled service shall cite the most recent Board order establishing that finding.
- (3) Applications from carriers not yet found by the Board to be fit, willing, and able to provide scheduled service shall include material to support such a finding. In making this showing, the carrier may incorporate by reference material submitted in a prior proceeding before the Board.
- (c) An air carrier may withdraw any first-round application by filing a subsequent application during that round.

#### § 322.3 Second-round applications.

(a) If an air carrier did not receive a certificate for the route indicated in its first-round application, or if it did receive such a certificate but was not the only air carrier to receive an AME certificate for that route during that round, the carrier may, during the period (the "second round") that begins at the opening of business on the day that the carrier is denied a certificate or receives the duplicative award and ends at the close of the last business day that is on or before the

120th day of the calendar year, apply for another route by filing in the Docket an application titled "Application for Automatic Market Entry-Second Round."

(b) The contents of these applications shall be as set forth in § 322.2(b).

(c) An air carrier may withdraw any second-round application by filing a subsequent application during that round.

#### § 322.4 Waiver.

(a) An air carrier that has filed an application during either round may, during that round, waive its right to withdraw that application by filing in the Docket Section a statement to that effect, titled "Waiver of Right to File Additional Automatic Entry Applications."

(b) If such a waiver is filed:

- (1) No additional applications may be filed by that carrier during that round, and
- (2) The 60-day period for Board action on the application will begin to run.

#### § 322.5 Board action.

After receiving an application for an AME certificate, the Board will either issue the certificate applied for, or make a negative determination as specified in section 401(d)(7) of the Act. Board action will be taken not later than 60 days after the date of filing of a waiver under § 322.4 or, if no waiver is filed, the end of the round in which the application is filed.

#### § 322.6 Protective notices.

(a) An air carrier may prevent any other air carrier from obtaining AME authority to serve one of its routes by filing in the Docket Section, on the first business day of the calendar year, a notice titled "Automatic Market Entry Protective Notice."

(b) Each protective notice shall indicate the pair of points between which the air carrier seeks to prevent any other air carrier from obtaining AME authority during that calendar year.

(c) The first protective notice filed by an air carrier on the first business day of the calendar year shall be effective, and any other protective notices filed by that air carrier on that day shall be void.

#### § 322.7 Environmental evaluations and energy information not required.

Notwithstanding any provision of Part 312 or Part 313 of this title, a person filing an application under this subpart is not required to file an environmental evaluation or energy information with the application.

§ 322.8. No conflict with separation of functions rule.

Actions taken by the Bureau of Pricing and Domestic Aviation to administer section 401(d)(7) of the Act will not be considered as creating a conflict with the Board's Separation of functions rule, § 300.4 of this chapter, in this or any other Board proceeding.

§ 322.9. Conformity with Subpart A of Part 302.

Except where they are inconsistent with this part, the provisions of Subpart A of Part 302 of this chapter shall apply to proceedings under this part.

PHYLLIS T. KAYLOR,  
Secretary.

[6320-01-M]

[Regulation PS-81; Amdt. No. 60 of Part 399]

#### PART 399—STATEMENTS OF GENERAL POLICY, FREE AND REDUCED-RATE TRANSPORTATION OF PERSONS

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The Board, on its own initiative, is revoking its policy that United States air carriers may provide free or reduced-rate transportation of persons overseas or abroad only when such transportation is required in the paramount national interest. Such free or reduced rate transportation will henceforth be allowed to the full extent permitted by statute.

DATES: Adopted: December 21, 1978.  
Effective: December 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard B. Dyson, Office of the General Counsel, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428; 202-673-5442.

SUPPLEMENTARY INFORMATION: Section 403(b) of the Federal Aviation Act provides that no air carrier shall receive compensation for air transportation different from that specified in its currently effective tariffs, except that a carrier may provide free or reduced-rate categories of persons such as employees, their families, disaster victims, etc. In the case of overseas foreign air transportation, free or reduced-rate transportation may also be accorded to such other persons under such other circumstances as the Board may by regulation prescribe. Part 223 of the Economic Regulations provides that free or reduced-rate

transportation for "such other persons" may be provided only upon specific Board authority granted in response to a carrier's application setting forth the authority desired and the reason therefore.

In PS-10 (24 FR 9619, December 2, 1959), the Board promulgated 14 CFR 399.34 (recodified as section 399.35 by PS-21 (29 FR 1446, January 29, 1964)). That section provided that a request by a United States government agency for free or reduced-rate transportation of persons overseas or abroad on a United States flag air carrier will not be permitted unless it is in the "paramount national interest." However, nothing in Section 403(b) or the Board's regulations requires a carrier's application to be accompanied by a State Department request, and nothing requires the Board to obtain State Department approval for any carrier application. The Board's previous consultations with the State Department and its "paramount national interest" standard were discretionary and were intended to protect the highly regulated, inflexible rate structures which the CAB administered. With the new Airline Deregulation Act of 1978, and the present Board's less restrictive aviation policies, section 399.35 no longer serves a useful purpose, and sometimes prevents carriers from rendering worthwhile public services. Continuing the policy in section 399.35 would only invite strained interpretations of "paramount national interest" and cheapen this important standard.

The ability of carriers to provide free or reduced-rate transportation should be left unrestricted to the full extent permitted by law. Under 14 CFR 223.8, any carrier may apply for special authority to furnish free or reduced-rate foreign or overseas air transportation. The Board will consider each application on a case-by-case basis. The Board has ample power under sections 404(b) and 411 of the Federal Aviation Act to prevent discrimination and unfair competition.

Since section 399.35 is only a general statement of policy, and the change made by this rulemaking relieves a restriction, and imposes no new burden on any person, it is found for good cause that notice and opportunity for public comment are not required, and the change may be effective immediately.

Accordingly, the Board revokes and reserves section 399.35 of the Economic Regulations (14 CFR 399.35), with a corresponding change to the table of contents for 399.

(Sections 102, 204(a) and 403(b) of the Federal Aviation Act of 1958, as amended; — Stat. —, 72 Stat. 743, 758; 49 U.S.C. 1302, 1324, 1373).

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,  
Secretary.

## Title 16—Commercial Practices

### CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

#### PART 1040—INTERIM STATEMENT OF POLICY AND PROCEDURE FOR CLASSIFYING, EVALUATING AND REGULATING CARCINOGENS IN CONSUMER PRODUCTS

##### Clarification of Commission Intent and Reopening of Comment Period

AGENCY: Consumer Product Safety Commission.

ACTION: Clarification of Commission intent and reopening of comment period.

SUMMARY: In this notice, the Commission explains the status and clarifies the intent of its Interim Statement of Policy and Procedure for Classifying, Evaluating and Regulating Carcinogens in Consumer Products. The Commission reopens for 60 days the time for public comment and invites the public to comment on the interim statement, as clarified. The Commission is taking these actions because, as indicated in a recent court decision, it appears there is some public uncertainty regarding the interim statement.

DATES: Comments on the interim statement of policy and procedure are due on or before February 26, 1979.

ADDRESS: Written comments should be submitted to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. All material relevant to the policy and procedure statement, including comments received, may be seen in, and copies obtained from, the Office of the Secretary, 3d Floor, 1111 18th Street, NW., Washington, D.C. 20207 during business hours Monday thru Friday.

##### FOR FURTHER INFORMATION CONTACT:

David Meinick, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, (202) 634-7770.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 13, 1978 (43 FR 25658), the Commission published an Interim Statement of Policy and Procedure for Classifying, Evaluating and Regulating Carcino-

gens in Consumer Products (43 FR 25658). The interim statement of policy and procedure, among other things, establishes a classification scheme under which the Commission, on the basis of a review of existing data, would provisionally assign substances to one of three categories based on the type and quality of the data available concerning a substance's carcinogenic potential. The Commission would publish the provisional classification in the FEDERAL REGISTER, soliciting public comment on the correctness of the provisional classification and the validity of the underlying scientific principles relevant to the classification. Comment would also be solicited on the manufacture and use of the substance in consumer products, consumer exposure to the substance, and the potential for ingestion, inhalation, or absorption of the substance into the human system. On the basis of the comments received, the Commission would affirm or revise the provisional classification. The classification would determine the priority the Commission would give to further evaluation of the substance. However, the category to which a substance is assigned would have no binding legal effect on the substance or products containing the substance.

The Commission was in the process of considering the first provisional classification of a substance under the interim statement of policy and procedure when a lawsuit, brought by several individual chemical manufacturers and a trade association of chemical manufacturers, was filed in the United States District Court for the Western District of Louisiana (*Dow Chemical, USA, et. al. v. Consumer Product Safety Commission*, Civil Action No. 781166, W.D.La.). The lawsuit raises certain procedural and substantive objections to the interim statement and its implementation through provisional classification. On September 28, 1978, the District Court issued a preliminary injunction prohibiting the Commission from provisionally classifying any substance pursuant to the interim statement of policy and procedure, pending a final decision in the case. The District Court, in its November 1, 1978 opinion setting forth its reasons for issuing the preliminary injunction, found that the Commission violated the Administrative Procedure Act (APA) in issuing the Interim Statement of Policy and Procedure by making it effective on the date of publication without prior notice and an opportunity for comment. The court found that the interim statement is a rule having substantial impact on the plaintiffs. The court found the statement is subject to the rulemaking requirements of the APA, and is not, as

the Commission intended and has argued, a general statement of policy and procedure which would be exempt under the APA from the requirements for notice and public comment. (The court's opinion and other court papers filed by plaintiffs and the Commission in the lawsuit are available for inspection and copying in the Commission's Office of the Secretary at the above address.)

One basis for the court's conclusion concerning the substantial impact of the Commission's interim statement of policy and procedure is the court's belief that interested persons, including the plaintiffs, will not have the right or opportunity to challenge the underlying scientific principles set forth in the statement (e.g. §§ 1040.21 and 1040.22) in subsequent proceedings to classify or regulate a product as a carcinogen. The Court thus viewed the statement of policy and procedure as a conclusive statement of the Commission's views on fundamental questions of scientific and regulatory policy and as an attempt to foreclose consideration of such questions in later individual proceedings. The Commission is issuing this clarification to clearly indicate that its intention in issuing the interim statement of policy and procedure is not to foreclose consideration of any fundamental issues involved in the regulation of potential carcinogens in consumer products, nor to deny to any interested person the right or opportunity to participate in the regulatory process.

The Commission issued the interim statement of policy and procedure in order to inform its staff and the public of the Commission's current views on the way it would approach the regulation of potential carcinogens, including the type of scientific data it would examine in order to determine which substances are carcinogens and the relative weight it would place on various data.

It should be noted that at the time the Commission issued the interim statement of policy and procedure, it specifically considered the option of proposing the statement for adoption as a binding substantive (or legislative) rule. Such a rule, if finally promulgated by the Commission after an opportunity for public comment, would have foreclosed further discussion of the scientific principles and regulatory policy outlined in the statement in subsequent proceedings involving individual substances. However, the Commission decided that it would not attempt to promulgate such a binding rule, but rather would, by means of the interim statement of policy and procedure, announce to the public the general policies which it would seek to establish in subsequent rulemaking proceedings. At the same time, the

Commission sought to inform the public of the internal procedures it would follow on an interim basis in selecting substances as candidates for regulation.

Because of the complexity of the issues raised by its interim statement of policy and procedure, the Commission decided that it would be beneficial to seek public comment on the statement as a whole. This opportunity for comment is in addition to the opportunity for comment provided by the statement on individual classification determinations and the opportunity for oral and written presentations provided by law following proposal and before issuance of any final standard or ban regarding an individual product of substance. The Commission also believed it would obtain useful information on the practicality of its internal procedures, including the additional opportunities for public comment provided by the statement, by beginning the process of classifying and evaluating individual substances while receiving public comment on the statement of policy and procedure. Therefore, the Commission made the statement effective on an interim basis upon publication in the FEDERAL REGISTER on June 13, 1978.

The statement, as explained in § 1040.6(a), sets forth the Commission's procedures for reviewing substances in an orderly way so that the Commission can decide whether it is necessary to regulate consumer products containing the substances. Provisional classification in particular helps the Commission decide which products merit priority for detailed staff evaluation. The procedures provide for public comment on the provisional classification so the Commission can obtain the views of affected industry, scientific experts, and the general public on the potential health risks associated with the substance and the scientific principles underlying the classification determination; as well as information on the manufacture and use of the substance, consumer exposure, and potential ingestion, inhalation, or absorption of the particular substance into the human system. The policy and procedure at § 1040.6(d) and § 1040.33 provide for this public participation and detailed evaluation before the Commission decides whether to begin to regulate a product, because the Commission believed it was important to permit the public to participate in deciding whether it was necessary to begin the lengthy and costly process of setting a safety standard or other regulation or banning a product.

For example, the policy anticipates that following final classification as a Category A substance, the Commission will begin a regulatory action with re-

spect to any consumer product to which such a substance is intentionally added. Section 1040.41 states that "it is reasonable to assume that CPSC will act to ban, or reduce to the lowest level attainable, the intentional addition to a consumer product of a Category A substance." The procedures available to the Commission in regulating any product are summarized in § 1040.4. The Commission also stated in the preamble to the policy (43 FR 25658), "[t]he determination to take regulatory action against particular products or classes of products will continue to be made in individual proceedings, in accordance with the applicable statutory provisions and the terms of this policy statement." The Commission clarifies the statement by emphasizing the following points: (1) That a decision to classify a substance as a "Category A" substance means that the Commission considers such substance to have a higher priority for possible regulatory action than substances not so classified; (2) The assumption that CPSC will "act" with respect to any product means only that the Commission is likely to begin a rulemaking proceeding by publishing a proposed rule in the FEDERAL REGISTER; (3) That the Commission will adhere to all applicable statutory procedures in any proceeding it begins; (4) That the Commission will consider all underlying facts relevant to the statutory findings; and (5) That while the scientific principles enunciated in the policy will likely be referred to in explaining the Commission's findings regarding the degree and nature of the risk of injury associated with a product under consideration for regulation, these principles are in no sense binding on members of the regulated industry, the Commission, or the Commission Staff and will be fully subject to challenge before the Commission, both as to their general validity and their specific application.

In the statement, the Commission recognized that the causes and mechanisms of cancer induction are still at the frontiers of science (§ 1040.4(a)) and that new information may continually be developed as a result of further research. The Commission therefore noted in § 1040.6(g) that it would adjust the policy "to reflect significant new scientific information, legal and policy developments and interagency regulatory initiatives." In addition, § 1040.6(c)(3) provides for periodic Commission review of the decisions to classify specific substances and adjustment of the classifications when necessary.

##### SUMMARY

In summary, the Commission reemphasizes that it will fully analyze all public comments it receives on the

classification criteria and the underlying scientific principles set forth in the interim statement of policy and procedure and will make any necessary changes before it issues a final statement. In addition, when operating under the policy the Commission will publish each classification of a substance as a provisional (or proposed) classification before it issues a final classification. The public will be able to comment on any of the scientific principles upon which the classification is based, both as to their validity and application to the particular substance in question. The Commission will evaluate and address all comments before issuing a final classification. Finally, in any subsequent rule-making proceeding concerning the substance, the public will be able to comment on all information and data on which a proposed regulation is based, including the scientific principles underlying the finding of risk of injury. Again, the Commission will analyze and address all comments before it issues a final regulation. Any final regulation must be supported by substantial evidence on the record. Thus, there will be several stages of any proceeding to regulate a substance as a carcinogen where the principles and assumptions underlying the Commission's decision are subject to the "informed reflection and genuine dialogue" which the District Court in *Dow Chemical, U.S.A. v. CPSC* held is necessary to comply with the APA.

While the Commission is prevented by the preliminary injunction from implementing the Interim Statement of Policy and Procedure through the provisional classification of substances about which a question of safety has been raised, it is continuing to carry out its statutory responsibility to receive and screen information concerning possibly carcinogenic substances, set priorities for the evaluation of consumer products containing such substances, and carry out other internal activities, independent of and separate from the statement of policy and procedure, related to addressing possible hazards associated with carcinogenic substances in consumer products. The Commission also will continue to take regulatory action, on a case-by-case basis, when it determines such action is necessary to protect the public health and safety.

#### REOPENING OF COMMENT PERIOD

The Commission is reopening the comment period on the interim statement for 60 days because it wishes to obtain full public views on the statement as clarified here. The Commission will fully consider all comments it has already received, so commenters need not submit new comments unless they wish to revise their previous

statements. The Commission also welcomes additional public comment. In addition, the Commission intends to hold public meetings in various locations around the United States to obtain public views on the statement of policy and procedure and other issues relevant to the regulation of carcinogens in consumer products. After all views are received and analyzed, the Commission will consider a final statement of policy and procedure for classifying, evaluating and regulating carcinogens in consumer products.

Interested persons should submit comments and any accompanying data or material to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Comments should be submitted on or before February 26, 1979. Comments received after that date will be considered to the extent practicable. Comments and accompanying data may be seen in, and copies obtained from, the Office of the Secretary, 3rd Floor, 1111 18th Street, N.W., Washington, D.C., during business hours Monday through Friday.

Dated: December 20, 1978.

SADYE E. DUNK,  
Secretary, Consumer Product  
Safety Commission.

#### Title 18—Conservation of Power and Water Resources

#### CHAPTER I—FEDERAL ENERGY REGULATORY COMMISSION

#### SUBCHAPTER E—REGULATIONS UNDER THE NATURAL GAS ACT

[Docket No. RM78-23]

#### PART 154—RATE SCHEDULES AND TARIFFS

#### Interstate Pipeline Recovery of State of Louisiana First Use Tax

AGENCY: Federal Energy Regulatory Commission.

ACTION: Interim Rule, request for comments.

SUMMARY: This interim rule amends the procedures, established in Order No. 10 (43 FR 45553, October 3, 1978), for recovery of the Louisiana First Use Tax by interstate natural gas pipelines. The rule sets forth the rate treatment and accounting procedures to be followed until a final and non-appealable court determination of the constitutionality of the Louisiana First Use Tax is made.

DATES: This interim rule is effective as of December 20, 1978. Written com-

ments must be received prior to January 25, 1979.

ADDRESS: Comments should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, and should reference Docket No. RM78-23.

#### FOR FURTHER INFORMATION CONTACT:

William Topping, Office of General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, Phone: 202-275-5619.

On August 28, 1978, the Commission issued Order No. 10<sup>1</sup> which amended 18 CFR 154.38 of its Regulations promulgated pursuant to the Natural Gas Act, by adding a new paragraph (18 CFR 154.38(h)). Paragraph (h) establishes procedures governing pipeline recovery of the State of Louisiana First Use Tax on Natural Gas.<sup>2</sup> This new paragraph provides that no pipeline shall be permitted to reflect in its rates costs associated with the First Use Tax prior to the date such tax is finally determined to be valid and constitutional unless a pipeline can show (a) it has undertaken all legal action available to it to determine the constitutionality of the tax; and (b) it will be able to recover the amounts paid to Louisiana if the tax is later found to be invalid. If the pipeline can demonstrate the foregoing, Order No. 10 permits the pipeline to collect the tax, subject to refund, pursuant to a temporary tracking mechanism similar to a purchased gas adjustment clause. Under Order No. 10, pipelines are only permitted to reflect the First Use Tax pursuant to this temporary tracking mechanism. They are not permitted to reflect the First Use Tax in general section 4<sup>3</sup> rate cases.

Applications for rehearing were filed on September 20, 1978, by Northern Natural Gas Company and on September 27, 1978, by Associated Gas Distributors, Tennessee Gas Pipeline Company, Consolidated Gas Supply Corporation, Bear Creek Storage Company, Stingray Pipeline Company, Trunkline Gas Company and Panhandle Eastern Pipe Line Company, Columbia Gas Transmission Corporation, United Gas Pipe Line Company, Southern Natural Gas Company, Texas Eastern Transmission Corporation, El Paso Natural Gas Company, Interstate Natural Gas Association of America, and Texas Gas Transmission

<sup>1</sup> 43 FR 45553 (October 3, 1978) (As corrected by Errata Notice of September 15, 1978).

<sup>2</sup> 1978 La. Sess. Law Serv. 482 (Act No. 294), to be codified as La. Rev. Stat. § 47:1301-47:1307. Hereinafter referred to as "First Use Tax."

<sup>3</sup> 15 U.S.C. 717c.

Corporation. On October 2, 1978, the Attorney General of the State of Louisiana filed a letter of comment; on October 3, 1978, the American Gas Association filed an Amicus Brief; and on October 6, 1978, the Interstate Natural Gas Association of America filed a request for oral argument.

On October 20, 1978, the Commission granted the applications for rehearing of Order No. 10 for the purpose of further consideration. The applications for rehearing raise the following issues:

(i) Whether the First Use Tax is entitled to a presumption of constitutionality until judicially determined invalid.

(ii) Whether the First Use Tax is a recoverable cost of providing service.

(iii) Whether in order to recover the First Use Tax from pipeline customers, pipelines should be required to comply only with Louisiana statutes which provide a mechanism for refunding taxes paid under protest if the tax is found invalid (La. Rev. Stat. § 47:1576).

(iv) Whether Order No. 10 incorrectly or inadequately dealt with several costs associated with the First Use Tax including interest, carrying charges, surcharges, and any court ordered bond payment.

(v) Whether prohibiting recovery of the First Use Tax through a general section 4 rate filing is unlawful and outside the authority of the Commission under the Natural Gas Act.

(vi) Whether Order No. 10 and the regulation promulgated therein violate the Administrative Procedure Act (5 U.S.C. 551, *et seq.*) and the right to due process of law.

Before responding to the specific issues raised in the applications for rehearing, some general comments are in order. The Commission recognizes the interest and concern which have been raised by the numerous applications for rehearing of Order No. 10. In response to the issues raised by the numerous applications for rehearing, the Commission is modifying Order No. 10 and amending § 154.38. In addition, we shall provide an opportunity for comment as described below.

The Commission is making this amendment effective upon the date of issuance of this order because good cause exists to proceed without compliance with the notice, public procedure, and effective date provisions of 5 U.S.C. 553. Under Order No. 10, which is presently still in effect, pipelines are prohibited from reflecting the First Use Tax in general section 4 rate cases. The Commission is concerned that a delay in the effective date of this amendment until after public comment would trigger a flood of section 4 rate filings to reflect the First Use Tax during the comment period.

Allowing pipelines to reflect the First Use Tax in their general section 4 rate cases would result in needless administrative burdens and costs, and would inadequately protect the public interest.<sup>4</sup> Therefore, the Commission finds that prior notice and public procedure would be impracticable, unnecessary, and contrary to the public interest.<sup>5</sup> Although the amendment is being made effective immediately, interested persons are invited to submit written comments, data, views or arguments with respect to the amendment.<sup>6</sup>

#### I. PRESUMPTION OF CONSTITUTIONALITY

Several applicants argued that the Commission and the pipelines are bound by the provisions of the First Use Tax until the Courts declare otherwise.<sup>7</sup> Order No. 10 does not violate this principle of law.<sup>8</sup> Order No. 10 does not advocate that pipelines should violate any provisions of the First Use Tax, nor does it make a determination as to its constitutionality. Rather Order No. 10 establishes procedures by which pipelines can recover the costs attributable to the First Use Tax. These procedures do not deny or

<sup>4</sup> See Section V, *infra*, for a complete discussion of the disallowance of section 4 rate increases.

<sup>5</sup> See Section VI, *infra*, for a complete discussion of "good cause."

<sup>6</sup> See Section IX, *infra*.

<sup>7</sup> Applicants cited the following cases in support of their contention that an act is presumed constitutional until judicially determined invalid: *U.S. v. Carolene Products Co.*, 304 U.S. 144 (1938); *Williams v. General Foods Corp.*, 492 F.2d 399, 408 (7th Cir. 1974); *Davies Warehouse Co. v. Bowles*, 321 U.S. 144 (1944); *McDonald v. Board of Election*, 394 U.S. 802, 808 (1969); *Wiley v. Memphis Police Department*, 548 F.2d 1247, 1251 (6th Cir. 1977); *Carey v. Greyhound Bus Co.*, 500 F.2d 1372, 1379 (5th Cir. 1974).

<sup>8</sup> The Commission has instituted an action challenging the validity of the First Use Tax in the Middle District of Louisiana. *Federal Energy Regulatory Commission v. Shirley McNamara, et al.*, Civil Action No. 78-384 (M.D. La. filed September 29, 1978). Specifically, the Commission asserted that the First Use Tax is null, void, of no effect, and unenforceable because it contravenes and violates Article I, Section 8, Clause 3 ("Commerce Clause"), Article I, Section 10, Clause 1 ("Impairment of the Obligation of Contract Clause") and Clause 2 ("Import-Export Clause"), and Article VI, Clause 2 ("Supremacy Clause") of the Constitution of the United States, and Section 20 of the Natural Gas Act (15 U.S.C. 717a), and, as a result, implicates, infringes upon, and conflicts with, the Commission's authority under the Natural Gas Act (15 U.S.C. 717, *et seq.*).

Although the Commission doubts the validity of the First Use Tax statute, it is not attempting to determine the constitutionality of that statute in this docket. We have, instead, provided the procedures prescribed herein to permit recovery of the First Use Tax pending a determination of its validity and to assure prompt refunds if the First Use Tax is found to be unconstitutional.

relieve pipelines from their duty to comply with the First Use Tax until a final determination of validity is made.

#### II. RECOVERABLE COST OF PROVIDING SERVICE

Relying on the ratemaking principle that a utility is entitled to recover its reasonably and prudently incurred costs of providing service<sup>9</sup> and relying on several court cases and Federal Power Commission opinions<sup>10</sup> which have held that taxes are properly incurred costs, applicants<sup>11</sup> argued that the First Use Tax is a recoverable cost of providing service.

Whether taxes are always recoverable costs<sup>12</sup> or whether the First Use Tax is a recoverable cost are not issues in this proceeding. Order No. 10 does not deny the pipeline the right to recover the First Use Tax, but rather restricts the manner by which the pipelines can recover the tax from their customers. Instead of allowing recovery through a general section 4 rate increase, recovery is allowed pursuant to a temporary tracking provision similar to a purchased gas adjustment clause. In addition, an escrow account has been established to protect customers' funds until final determination of the constitutionality of the tax is made. These procedures are necessary to insure just and reasonable rates and to protect consumers from being charged with any unnecessary or illegal costs.

It should be noted that there may be one situation in which pipelines might absorb the loss of tax payments made to Louisiana. If the First Use Tax is determined invalid or unconstitutional by a final and non-appealable court

<sup>9</sup> *FPC v. Hope Natural Gas Co.*, 320 U.S. 591 (1944); *West Ohio Gas Co. v. Public Utilities Commission (No. 1)*, 294 U.S. 63 (1934); *FPC v. Memphis Light Gas and Water Div.*, 411 U.S. 458, 466-7 (1973); *FPC v. United Gas Pipe Line Co.*, 386 U.S. 237, 243 (1967).  
<sup>10</sup> *Mississippi River Fuel Corp. v. FPC*, 163 F.2d 433, 437 (D.C. Cir. 1947); *Galveston Electric Co. v. Galveston*, 258 U.S. 388 (1922); *Midwestern Gas Transmission Company, et al.*, 36 F.P.C. 61, 71-2 (1966); *Wisconsin Michigan Power Company*, 31 F.P.C. 1445, 1500 (1964).

<sup>11</sup> The Associated Gas Distributors application disagreed with this proposition and argued that pipelines should establish, in accordance with their ordinary burden of proof, that the First Use Tax has increased their total cost of service to an extent which denies them a reasonable rate of return.

<sup>12</sup> Although we have generally permitted valid taxes to be a recoverable cost of providing service, we are not bound in determining rates to the use of "any single formula or combination of formulas." See *FPC v. Natural Gas Pipeline Co.*, 315 U.S. 575, 586 (1942). Any costs, including valid taxes, can be denied rate recovery if the total effect of the natural gas rates are never the less "just and reasonable." See *FPC v. Hope Natural Gas Co.* 320 U.S. 591, 603 (1944).

order, and should Louisiana decide not to return all funds collected, then the pipelines will have to absorb the loss of those funds not returned. The Commission has a duty to allow only such rates as will prevent consumers from being charged with any unnecessary or illegal costs. *NAACP v. FPC*, 425 U.S. 662, 666 (1976). Therefore, if the first Use Tax is found unconstitutional, the pipeline customers should receive refunds plus interest on the total amount that pipelines collected from them, even if the State of Louisiana does not refund all of the revenues it collects. The Commission finds no reasonable basis for concluding and providing that the ratepayers, rather than the stockholders of the pipelines should bear the cost of a tax which is ultimately found to be unconstitutional. *El Paso Natural Gas Co.*, 13 F.P.C. 421,436 (1954); see also, *Tennessee Natural Gas Line, Inc. v. FPC*, 221 F.2d 531 (D.C. Cir. 1954); *City of Cleveland, Ohio v. FPC*, 525 F. 2d 845, 850 (D.C. Cir. 1976); and *Panhandle Eastern Pipe Line Co.*, 13 F.P.C. 53, 103 (1954).

### III. PROCEDURAL REQUIREMENTS FOR PIPELINE RECOVERY OF THE FIRST USE TAX

#### A. COMPLIANCE WITH LA. REV. STAT. § 47:1576 IS INADEQUATE

In Order No. 10, the Commission stated its concern "that there may not be an adequate remedy in Louisiana state law to permit pipelines to recover amounts paid (even under protest) in the event the tax is collected during the period of litigation and is later found to be unconstitutional." This concern prompted the Commission to require a pipeline, in order to collect the tax subject to refund, to demonstrate that "it will be able to recover the tax paid by [it] to the State of Louisiana in the event the tax is declared invalid by a final, nonappealable court order." This concern also prompted the Commission to require all funds collected during the pendency of litigation to be placed in escrow.

Many of the applicants argued that these requirements are not necessary because present Louisiana law permits pipelines to recover all funds paid under the First Use Tax if the taxes are paid under protest. They cite Section 3, Article VII of the Louisiana Constitution of 1934 which provides:

The legislature shall prohibit issuance of process to restrain the collection of any tax. It shall provide a complete and adequate remedy for the prompt recovery of an illegal tax paid by a taxpayer.

They further argue that La. Rev. Stat. § 47:1576 provides a refund. La. Rev. Stat. § 47:1576 provides that, upon notice of the taxpayer's intention to file suit for the recovery of the

amounts paid under protest, the amount remitted shall be placed in an escrow account and held by the collector or his duly authorized representative for a period of thirty days. If suit is filed within the thirty-day period for recovery of the amount, the funds in the escrow account will continue to be held pending the outcome of the suit. If the taxpayer prevails, the collector is required to refund the amount to the claimant, with interest at the rate of six percent (6%) per annum covering the period from the date the funds were received by the collector to the date of refund.

The application of Tennessee Gas Pipeline Company (Tennessee) disputes the contention by many of the other applicants that present Louisiana law guarantees the protesting taxpayer his refund if he wins his claim that the tax is illegal. Tennessee states that, as part of the First Use Tax package, the Louisiana legislature amended Title 47 to add section 1351. Section 1351, which creates the First Use Tax Trust Fund to hold the proceeds from the tax, apparently conflicts with La. Rev. Stat. § 47:1576.

Tennessee believes that the more specific escrow and refund provisions of La. Rev. Stat. § 47:1351(D) may effectively repeal section 1576 insofar as section 1576 would otherwise apply to the escrow and refund of the First Use Tax. If section 1576 is unavailable, pipelines will have to rely upon section 1351(D). Section 1351(D) provides, in pertinent part, that the First Use Tax proceeds will be deposited in a trust fund and will be considered to be in escrow until the State Treasurer, with the concurrence of two-thirds of the State Bond Commission, determines that the funds are available for the uses enumerated in the statute. Thus, the disbursement of the trust fund is within the discretion of the State Treasurer and two-thirds of the Bond Commission. While the remainder of Section 1351(D) indicates that the taxes will be refunded if the tax is finally held invalid, there is no assurance that the funds remaining in the escrow fund will be adequate to refund the total First Use Tax paid. There is no assurance that some portion of the trust fund will not have already been spent. The Commission agrees with Tennessee's conclusion that present Louisiana law may not permit pipelines to recover all protested amounts paid. The Commission therefore finds that compliance with La. Rev. Stat. § 47:1576 is inadequate as a customer safeguard, and that some additional procedures are necessary for protecting pipeline customer's funds. Accordingly, we have provided an escrow account to protect customer funds.

#### B. AN ESCROW ACCOUNT PROTECTS CUSTOMER FUNDS

The Commission believes that an escrow account is the most efficient method of protecting consumers. The Commission has a duty to protect any payments made by pipeline customers until final determination of the constitutionality of the First Use Tax. Moreover, the United States Court of Appeals for the District of Columbia has found that protection under similar circumstances is appropriate. In *Tennessee Natural Gas Lines, Inc. v. Federal Power Commission*,<sup>12</sup> Tennessee Natural Gas contested a Federal Power Commission Order<sup>13</sup> which disallowed a Tennessee Gross Receipts Tax as a proper item of cost of service. At the time of the petition for review of the Commission's order a suit was pending in the Tennessee courts contesting Tennessee Natural Gas's liability for the tax. The Commission's position was that if the courts finally determined that the company was liable for the tax, the inclusion of the amounts as a cost of service would be allowed. The U.S. Court of Appeals for the District of Columbia held:

"In this posture of the case the ends of justice will best be served by a remand of the matter to the Commission, with directions that final determination of the rates be postponed until the termination of the Tennessee litigation and that its order disallowing the item be temporarily suspended. In the meantime the funds resulting from the payment of the higher rates should be protected, so that they can be refunded to the company's sole customers in these sales if the ultimate result be to that effect." (emphasis added)

Order No. 10 imposes procedures which implement the aforementioned principles. The Order does not disallow the First Use Tax as a proper item of cost of service, but allows recovery of the tax if certain conditions are met. Order No. 10 creates a separate PGA-type tracking account so that final determination of the rates can be postponed until the issues in litigation are resolved. Since funds paid to the First Use Tax Trust Fund may not be recoverable the Commission has the responsibility of protecting consumers, and has done so through the establishment of an escrow account pursuant to 18 CFR 250.12. Without an escrow account there would be no assurance that the customers would have their funds returned if the First Use Tax is found invalid.

In addition to the escrow requirement of Order No. 10, the amendment herein requires pipelines to comply with La. Rev. Stat. § 47:1576 before they can recover the costs of the First Use Tax from their customers. Al-

<sup>12</sup> 221 F.2d 531 (D.C. Cir. 1954).

<sup>13</sup> 13 F.P.C. 963 (1954).

<sup>14</sup> 221 F.2d 531, 532 (D.C. Cir. 1954).

though compliance with La. Rev. Stat. § 47:1576 by the pipelines is not necessary to protect the escrowed customer funds, use of the mechanism would prevent an imprudent and automatic loss of funds by the pipeline to the State of Louisiana. Therefore, the amendment adopted in this order retains the escrow requirement of Order No. 10 and modifies Order No. 10 to require pipelines to comply with La. Rev. Stat. § 47:1576.

#### C. THE AMENDMENT ADOPTED HEREIN DELETES ORDER NO. 10 PREREQUISITE REQUIREMENTS FOR TRACKING THE FIRST USE TAX

Applicants were generally concerned with the prerequisite requirements for tracking the First Use Tax. Order No. 10 permits the collection of the tax subject to refund if the pipeline can show (a) it has undertaken all legal action available to it to determine the constitutionality of the tax, and (b) it will be able to recover the tax paid by it to the State of Louisiana in the event the tax is declared invalid by a final, nonappealable court order. Both of these requirements have been criticized as conditions which would be difficult to prove. These requirements were established in order to protect the public from possible loss of funds collected. Nevertheless, these requirements are deleted from the amendment adopted herein since the Commission finds that the establishment of an escrow account pursuant to 18 CFR 250.12 and compliance with La. Rev. Stat. § 47:1576 sufficiently protect the public from any unjust or unreasonable charge.

#### D. COURT ENJOINING OF COLLECTION OF THE FIRST USE TAX

In Order No. 10 the Commission stated that if collection of the tax were enjoined by the courts during the period of litigation, no collection of such amounts by pipelines in their jurisdictional rates would be permitted until such time as the tax was found to be lawful by a final and nonappealable court order. We also stated that, in the event collection of the tax was enjoined, the pipelines should keep account of their contingent tax liability during the pendency of court review and appropriate rate relief would be granted by the Commission if the tax was ultimately held to be valid and constitutional. The amendment adopted herein retains these provisions.

One applicant<sup>15</sup> requested that pipelines be allowed to track the cost of any bond which might have to be posted in order for the court to issue an injunction. The Commission postpones determination of this issue until such time as a court takes such action.

<sup>15</sup> Southern Natural Gas Company, application at p. 4.

At that time we could make our decision in light of the actual details of the court opinion.

#### E. TRACKING PROVISIONS AND TERMINATION OF TRACKING PROVISIONS

Applicants generally requested that the tracking provisions be more explicitly defined. The Interstate Natural Gas Association of America recommended that the Commission allow the filing of applications by pipelines on or before March 1, 1979 for a temporary tracking procedure to become effective April 1, 1979 (the date the tax takes effect). In order to insure that pipelines would comply with the requirements of La. Rev. Stat. § 47:1576, the Interstate Natural Gas Association of America recommended that the applications should be accompanied by an affidavit signed by an authorized representative of the applicant stating that the applicant will comply with the procedures set out in La. Rev. Stat. § 47:1576. In order to insure that pipelines did eventually comply with the statutory protest procedures, the Interstate Natural Gas Association of America recommended that the order approving the application could be conditioned upon the applicant pipeline forwarding to the Commission written evidence that this procedure had been completed.<sup>16</sup> The Commission accepts this recommendation and has incorporated it into the amendment adopted herein.

The Commission also adopts the following provisions for the tracking of the First Use Tax. Should the tax be required to be paid by the pipelines during the pendency of the litigation and should the pipeline comply with the provisions of La. Rev. Stat. § 47:1576, the Commission will waive the filing requirements of § 154.63 of the regulations (18 CFR 154.63) as well as the provisions of § 154.38(d)(3) of the regulations (18 CFR 154.38) in order to permit pipelines to make an adjustment to their rates to be filed on or before March 1, 1979, effective April 1, 1979, subject to refund, to reflect collection of the tax in their rates. The initial amount to be paid by the pipeline from April 1 through the date of its first adjustment date under the temporary tracking provision shall

<sup>16</sup> A suit for recover of the First Use Tax cannot be filed until the First Use Tax is paid under protest. La. Rev. Stat. § 47:1576. Liability for the First Use Tax will not begin to accrue until April 1, 1979. The above procedure allows the First Use Tax tracker to be in effect on the date the tax liability begins to accrue and allows the pipelines to collect the tax currently from their customers, thereby avoiding the two months of deferral of the tax that otherwise would result if the Commission required that the pipelines wait until the suit for recovery has been filed before applying for authority to track the tax.

be based upon volumes estimated to be subject to the First Use Tax during that period. The initial rate adjustment shall be calculated on the estimated total system sales for that same period. Coincident with filing the initial rate adjustments, pipelines shall file temporary tracking provisions to provide for semi-annual<sup>17</sup> rate adjustments to coincide with their semi-annual PGAC adjustments.<sup>18</sup> These provisions shall be separate from, but structured like, the respective pipeline's PGA clause, except as otherwise provided in this order. The tracking provisions shall include deferred accounting provisions through use of Account 186, Miscellaneous Deferred Debits, but no carrying charges will be permitted on balances accrued in the deferred account. The deferred account protects the pipeline from permanent under-collections of the tax during the early period the tax is in effect, if the pipelines err in determining which volumes of gas are subject to the tax. The deferred account and the tracking provisions also limit disputes as to amounts to be refunded by pipelines should the tax ultimately be found to be invalid by the courts.

Pipelines which have elected to recover changes in purchased gas costs through general section 4 rate cases under the provisions of Order No. 16 issued November 27, 1978, in Docket No. RM79-1, may also establish a tracking provision patterned after a PGA clause with any two semi-annual adjustment dates which are six months apart.

Should a pipeline not be required to pay the First Use Tax during the pendency of litigation of the constitutionality of the tax, and should the tax be found to be invalid by a final and non-appealable court order, the Commission shall by further order, establish a surcharge, of a reasonable duration, to reimburse pipelines for payments due on the First Use Tax.

Should the tax be paid under protest in accordance with La. Rev. Stat. § 47:1576 and later found to be valid by a final and non-appealable court order, the Commission shall, by further order, terminate the temporary First Use Tax tracking provisions and terminate the escrow account and provide for a final surcharge to clear the balance in the deferred account. At that time, the pipelines would have had an opportunity to become familiar with the tax so that they could determine which volumes of gas were affected by it. Thus, the tax would thereafter be recovered as are most items of cost, i.e., through general section 4 rate filings.

<sup>17</sup> Those pipelines with annual PGA rate adjustment provisions could, of course, limit such filings to once a year.

<sup>18</sup> See Order No. 13-A, issued November 27, 1978 in Docket No. R-406.

Should the First Use Tax be paid under protest in accordance with La. Rev. Stat. § 47:1576 and later found to be invalid, in whole or in part, by a final and non-appealable court order, the Commission shall, by further order, terminate the temporary Louisiana First Use Tax tracking provisions and terminate the escrow account and provide for an immediate refund with interest to the pipeline customers of the funds collected under the invalid statute and placed in the escrow account. The pipelines would, of course, at that time seek recovery of the taxes paid from the State of Louisiana.

#### IV. COSTS ASSOCIATED WITH THE FIRST USE TAX: INTEREST AND CARRYING CHARGES

Several applicants requested that ratepayer funds accumulated in the escrow account should be allowed only 6% interest per year while the validity and constitutionality of the First Use Tax is contested. This 6% interest rate is based on the amount of interest refunded by the State of Louisiana under La. Rev. Stat. § 47:1576 if the First Use Tax is found invalid. A six percent interest rate would be inadequate because the pipeline escrow account, and not the State of Louisiana, will be earning interest on the funds collected. Therefore, should a final and non-appealable Court order find the tax to be invalid, in whole or in part, the Commission shall terminate the tracking provisions and escrow account and provide for an immediate refund of those payments made on that portion of the First Use Tax found invalid, plus the corresponding amounts earned by the pipeline on those payments held in escrow.

Many applicants contended that they would have to borrow money in order to pay the tax if their customers' payments of the tax were held in escrow. If the tax is found invalid, by a final and non-appealable court order, the pipelines will receive and retain the interest refunded by the State of Louisiana. The interest refunded by the State of Louisiana will offset costs of borrowing money. If the tax is found valid, by a final and non-appealable court order, the pipelines will be able to receive and retain the funds in the escrow account plus the earnings on those funds. In this manner, the First Use Tax payments by the pipelines to the State of Louisiana and the costs of borrowing those funds will be offset by the funds in the escrow account plus the earnings on those funds.

#### V. DENIAL OF SECTION 4 RATE INCREASES

Most applicants argued that pipelines have a right to file a section 4 rate increase, recovering prudently incurred First Use Tax payments as a

part of their cost of service. They contended that disallowance of such payments is arbitrary and capricious, unlawful and outside the authority of the Commission under the Natural Gas Act. The Associated Gas Distributors (AGD) objected to the prohibition against recovery of the First Use Tax in general section 4 rate cases on different grounds. AGD argued that the special tracking procedures established by Order No. 10 failed to adequately protect the gas consumer against excessive charges because the special tracking procedures exempted pipelines from their ordinary burden of showing that the First Use Tax has increased their total cost of service to an extent which denies them a reasonable rate of return.

The Commission finds that the procedures adopted in Order No. 10, as amended by this order, effectively balance the pipelines' need to recover the First Use Tax and the gas consumers' need to be protected against excessive charges. With regard to the pipelines' arguments, it must be reiterated that Order No. 10 does not disallow recovery of the First Use Tax, but only establishes the procedures by which the tax can be recovered. In creating a distinct mechanism for recovery (PGA-type tracking mechanism) and not allowing recovery through a section 4 rate increase, the Commission was within its authority under the Natural Gas Act, and has provided an alternate recovery mechanism thereby satisfying any "due process" requirements. The Commission may under sections 5 and 16 of the Natural Gas Act restrict filings under section 4(d).<sup>22</sup> Section 5 authorizes the Commission to determine the just and reasonable rate "to be thereafter observed and in force." Section 16 gives the Commission power to make such orders "as it may find necessary or appropriate to carry out the provisions of this act." Denying section 4 recovery of the First Use Tax was and is necessary and appropriate.

The main purpose of establishing the special tracking procedures set forth in this order is to protect consumer from excessive and inappropriate charges. Second, the order prevents the filing of several general section 4 rate cases to recover these charges. The mechanism adopted in this order both protects the consumer and provides an administratively convenient method of handling this complex issue.

The Commission has reasonably exercised its powers under the Natural Gas Act because the procedures established by Order No. 10, as modified by this order, simplify the administrative

<sup>22</sup>See *Permian Basin Area Rate Cases*, 390 U.S. 747, 777 (1968); *United Gas v. Callery Properties*, 382 U.S. 223, 232 (1965).

procedures, insure pipeline of adequate recovery of the First Use Tax, and insure expeditious refund of all funds paid by pipeline customers if the First Use Tax is found invalid.

#### VI. COMPLIANCE WITH THE ADMINISTRATIVE PROCEDURE ACT

Several applicants contend that the Commission failed to comply with the mandatory rulemaking procedures of the Administrative Procedure Act<sup>23</sup> which requires that the agency provide notice of a proposed rulemaking,<sup>24</sup> and an opportunity for public participation or comment.<sup>25</sup> Although the Commission waived the procedural rulemaking steps upon a finding of good cause,<sup>26</sup> applicants contend that good cause did not exist and, if it did exist, the Commission failed to substantiate good cause.

The Administrative Procedure Act recognizes two exceptions to the requirement of notice and public participation: One is for general statements of policy; the other is for a finding of good cause that the procedure is impracticable, unnecessary, or contrary to the public interest. The Commission invoked the latter exception.

Order No. 10 explained that it was in the public interest for Commission to issue Order No. 10 without notice and comment.

First, Order No. 10 determined that special procedures for recovery of the First Use Tax are appropriate:

Therefore the Commission has determined that certain procedures should be established for recovery of this tax by interstate natural gas pipelines. It is particularly appropriate to establish such procedures in light of the fact that this Commission on August 16, 1978, directed the Commission's Solicitor to challenge the constitutionality of the tax in Federal District Court and to seek to enjoin collection of the tax by Louisiana pending completion of judicial review.<sup>27</sup>

The Commission believed it was in the public interest to establish special procedures for pipeline recovery of a tax which was of questionable constitutional validity. It was also imperative to put pipelines on notice that the Commission would allow recovery of the First Use Tax only under those procedures.

Second, Order No. 10 explained the need to establish special procedures to protect pipeline customers and ultimately the public at large:

<sup>23</sup>5 U.S.C. 551, *et seq.*  
<sup>24</sup>5 U.S.C. 553(b).  
<sup>25</sup>5 U.S.C. 553(d).  
<sup>26</sup>5 U.S.C. 553(b) (B) provides: [W]hen the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefore in the rules issued) that notice and public procedure thereon are impracticable, unnecessary or contrary to the public interest.

<sup>27</sup>Order No. 10, mimeo at 1.

The Commission is concerned that there may not be an adequate remedy in Louisiana state law to permit pipelines to recover amounts paid (even under protest) in the event the tax is collected during the period of litigation and is later found to be unconstitutional.<sup>28</sup>

The Commission had to develop procedures to protect the public from loss of funds if the tax was found invalid and no adequate remedy existed in Louisiana state law. The Commission could not permit consumers to go unprotected. As we explained in Order No. 10:

It is important that this order be issued without notice and public comment procedures to put pipelines on notice that they will not be permitted to reflect the Louisiana First Use Tax in general Section 4 rate cases (which usually involve a 30 day notice period plus a five month suspension by the Commission) in order to collect the Louisiana First Use Tax. If pipelines were planning to file general rate cases to collect the tax, they would have to commence preparation of such cases immediately in order to make the rates effective by April 1, 1979, which is the proposed effective date of the tax.<sup>29</sup>

In order to collect the tax pipelines would have been immediately filing section 4 rate increases. The Commission was concerned that a delay in the effective date of Order No. 10 until after public comment would trigger a flood of section 4 rate filings during the comment period. The Commission feared that such a result would defeat the Commission's purpose of protecting consumers from the economic burden of rate collections in excess of the just and reasonable rate, and therefore proscribed the use of section 4 procedures.

For the aforementioned reasons, good cause also exists to issue the amendment in this order without prior notice and to waive publication of the rule, and to make the rule effective immediately.

#### VII. SUMMARY

For the reasons stated above, the applications for rehearing are denied except as provided in this order. Since the Commission is allowing a public comment period on the amendment in this order and since this order responds to the issues raised in the applications for rehearing, the Commission denies the request by the Interstate Natural Gas Association of America for oral argument.

#### VIII. FINDINGS

(A) The Commission's prior order, Order No. 10, should be clarified and modified consistent with this order.

(B) For the reasons discussed in Order No. 10 and reiterated in the

<sup>28</sup>Order No. 10, mimeo at 2.

<sup>29</sup>Order No. 10, mimeo at 2.

body of this order good cause exists to issue this rule without prior notice to become effective immediately.

(C) Good cause exists, and it is appropriate and in the public interest in the administration of the Natural Gas Act, to waive §§ 154.63 and 154.38(d)(3) of the Regulations to permit special rate filings to reflect the Louisiana First Use Tax, as set forth more fully in the body of this order.

(D) Oral argument would not be of benefit to the Commission in its determination of this rule.

(Natural Gas Act (15 U.S.C. 717 c, f, o); Administrative Procedure Act (5 U.S.C. 553); Department of Energy Organization Act (42 U.S.C. 7101, *et seq.*); and E.O. 12009, 42 FR 48267)

#### IX. COMMENT PROCEDURES

Although the amendment is made effective immediately, interested persons are invited to submit written comments, data, views or arguments with respect to it. An original and 14 copies should be filed with the Secretary of the Commission. The Commission shall consider all comments received prior to January 25, 1979, and shall determine whether any further modification to the rule adopted in this order should be made. Such modification would become effective from the date of issuance of any order further amending the rule adopted in this order. All written submissions will be placed in the Commission's public files and will be available for public inspection in the Commission's Office of Public Information, 825 North Capitol Street NE., Washington, D.C. 20426, during regular business hours. Comments should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, and should reference Docket No. RM78-23.

In consideration of the foregoing, the Commission hereby orders that:

(A) Except as provided in this order, the applications for rehearing filed by all parties in this proceeding are denied;

(B) The request for oral argument by the Interstate Natural Gas Association of America is denied;

(C) The Commission's Order No. 10 is clarified and modified consistent with this order; and

(D) Part 154, Chapter I of Title 18, Code of Federal Regulations, is amended as set forth below, to become effective immediately.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

1. Section 154.38 is amended by revising paragraph (h) to read as follows:

§ 154.38 Composition of rate schedule.

(h) *Pipeline recovery of the State of Louisiana First Use Tax.* (1) Except as provided in subparagraphs (2) and (3) of this paragraph, no pipeline shall be permitted to reflect the costs attributable to the Louisiana First Use Tax in general section 4 rate applications prior to the date the tax is determined to be valid and constitutional by a final and nonappealable court order.

(2) Should a pipeline be required to pay the Louisiana First Use Tax during the pendency of litigation of the constitutionality of the tax, the pipeline will be permitted to collect the tax subject to refund if on or before March 1, 1979, it submits an application for tracking which is accompanied by an affidavit signed by an authorized representative stating that the applicant will undertake the procedures set out in La. Rev. Stat. § 47:1576. Upon completion of this requirement the Commission shall waive the filing requirements of § 154.63 and the provision of § 154.38(d)(3) of its regulations in order to permit the pipeline to reflect the tax in its rate by adjusting its rates, to become effective April 1, 1979, subject to refund, to reflect the estimated effect of the Louisiana First Use Tax. The initial amount to be paid by the pipeline from April 1 through the date of its first adjustment date under the temporary tracking provision shall be based upon volumes estimated to be subject to the Louisiana First Use Tax during that period. The initial rate adjustment shall be calculated on the estimated total system sales for that same period. In order to continue to collect the tax subject to refund, pipelines must, on or before May 30, 1979, submit such evidence as the Commission shall require in order to determine whether the procedures set out in La. Rev. Stat. § 47:1576 have been complied with. Coincident with filing the initial rate adjustment, pipelines shall file temporary tracking provisions to provide for semi-annual rate adjustments to coincide with their semi-annual PGAC adjustments. The tracking provisions shall include deferred accounting provisions through use of Account 186, Miscellaneous Deferred Debits, but no carrying charges will be permitted on balances accrued in the deferred account. Pipelines which have elected to recover changes in purchased gas costs through general section 4 rate cases pursuant to § 154.38(d)(4)(ix) may establish a tracking provision, which generally follows the PGA regulation, with any two semi-annual adjustment dates which are six months apart.

(3) All funds collected under this paragraph will be held in escrow pur-

uant to §250.12, and subject to refund during the pendency of litigation.

(4) Should a final and non-appealable court order find the tax to be valid, the Commission shall by order terminate the temporary Louisiana First Use Tax tracking provisions, terminate the escrow account, and provide for a final surcharge to clear the balance in the deferred account. The tax would thereafter be recovered through general section 4 rate filings.

(5) Should a final and non-appealable court order find the tax to be invalid, in whole or in part, the Commission shall terminate the tracking provisions and escrow account and provide for an immediate refund of those payments made on that portion of the tax found to be invalid plus the corresponding proceeds, including interest earned by the pipeline on the payments held in escrow.

##### Title 24—Housing and Urban Development

#### CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

##### SUBCHAPTER B—SPECIAL ASSISTANCE FUNCTIONS

[Docket No. R-78-602]

##### PART 340—PURCHASE REQUIREMENTS

##### Amendments To Increase Maximum Mortgage Amount Limitations for Purchase of Mortgages Under the Special Assistance Functions

AGENCY: Government National Mortgage Association, HUD.

ACTION: Final Rule.

SUMMARY: Section 318(a) of the Housing and Community Development Amendments of 1978 increased the maximum mortgage amount limitations applicable to the purchase of mortgages under the Special Assistance Functions. This rule amends the regulations to incorporate the new limits.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Susan Kelsey, Government National Mortgage Assoc., 451 Seventh Street, SW., Room 6204, Washington, D.C. 20410, Telephone Number: (202) 755-5593.

**SUPPLEMENTARY INFORMATION:** Under the present rule, GNMA is limited to purchasing mortgages, in amounts which do not exceed \$33,000 for each dwelling unit, plus an additional \$2,500 for each dwelling unit having four or more bedrooms. The dollar limitation is applicable to single-family as well as multifamily dwelling units (24 CFR 340.15(a)). Pursuant to statutory authority, GNMA was able to increase the \$33,000 maximum purchase amount limitation to \$38,000 in all geographic areas where GNMA does business, based on a finding by the Secretary that all areas of the country in which GNMA did business were high cost areas (24 CFR 340.15(b)).

The 95th Congress amended the statutory maximum mortgage purchase amount limitation in two ways: by establishing specific dollar limitations for one- to four-family residences and by increasing the dollar limitations for structures containing more than four units. Thus, GNMA may now purchase mortgages under its Special Assistance Functions on single-family properties of up to \$55,000; on two- or three-family residences of up to \$60,000; and on four-family residences of up to \$68,750. In the case of properties containing more than four dwelling units, GNMA may now purchase the mortgage if the total mortgage amount does not exceed \$38,000 per dwelling unit (or up to \$45,000 per dwelling unit if the Secretary of HUD finds that cost levels in the geographic area require the higher limits) for that part of the property which is attributable to dwelling use.

Accordingly, the regulations pertaining to GNMA's purchase of mortgages under its Special Assistance Functions are being revised to incorporate the one- to four-family limitations and the \$38,000 per unit base limitation for multifamily residences. In addition, the \$45,000 per unit high cost area limitation is being implemented for all areas in which GNMA does business.

The Department of Housing and Urban Development has determined that an environmental impact statement is not required with respect to this rule. A copy of the finding of inapplicability is available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

As this regulation increases the original principal obligation of mortgages purchased by GNMA under its Special Assistance Functions, it is in the public interest not to delay the effective implementation of the statutory increase. A delay in implementing the maximum mortgage amounts ap-

proved by Congress would, in fact, be contrary to the public interest. Accordingly, the Secretary has determined that notice and public comment with respect to this regulation are contrary to the public interest, and that good cause exists for making this regulation effective December 28, 1978.

Accordingly, the Government National Mortgage Association amends Chapter III of Title 24 of the Code of Federal Regulations by amending §340.15(a) and (b) as follows:

##### §340.15 Statutory maximum mortgage amounts.

(a) Generally, the original principal obligation of mortgages purchased under the Special Assistance Functions must not exceed \$55,000 in the case of property upon which is located a dwelling designed principally for a one-family residence; or \$60,000 in the case of a two- or three-family residence; or \$68,750 in the case of a four-family residence; or, in the case of a property containing more than four dwelling units \$38,000 per dwelling unit for that part of the property attributable to dwelling use. These limits do not apply to mortgages covering property located in Alaska, Guam, or Hawaii; to mortgages insured under section 220 or title VIII of the National Housing Act; to mortgages insured under section 213 of such Act and covering property located in urban renewal areas; to mortgages insured under title X of such Act with respect to new communities approved under section 1004 thereof, or, in certain circumstances of local tax abatement, to below-market interest rate mortgages insured under section 221(d)(3) or section 236 of such Act.

(b) Pursuant to clause (3) of the proviso in section 302(b)(1) of the National Housing Act, 12 U.S.C. 1717(b)(1), the \$38,000 maximum set forth in paragraph (a) of this section is hereby raised to \$45,000 in all geographical areas generally in which the Association does business.

(Sec. 309(a), National Housing Act, (12 U.S.C. 1723a(d)), sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d)).

In accordance with section 7(o)(4) of the Department of HUD Act, section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this final rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., November 28, 1978.

JOHN H. DALTON,  
President—Government  
National Mortgage Association.

##### SUBCHAPTER A—INCOME TAX

[T.D. 7560]

##### PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

##### New Jobs Credit

AGENCY: Internal Revenue Service, Treasury.

ACTION: Publication of full text of final regulations.

SUMMARY: This document sets forth the full text of previously adopted final regulations (43 F.R. 37450, August 23, 1978, F.R. Doc. 78-23598) relating to the new jobs credit.

DATE: The new regulations are effective for taxable years beginning after December 31, 1976, and would apply to credit carrybacks from those years.

FOR FURTHER INFORMATION CONTACT:

George Bradley of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: OC:LR:T, 202-566-3486, not a toll-free number.

##### SUPPLEMENTARY INFORMATION:

##### BACKGROUND

On April 3, 1978, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 53 of the Internal Revenue Code of 1954, 43 F.R. 13893. The amendments were proposed to conform the regulations to section 202 of the Tax Reduction and Simplification Act of 1977 (91 Stat. 141). After consideration of all comments received regarding the proposed amendments, those amendments were adopted, as revised, by Treasury Decision 7560, published in the FEDERAL REGISTER for August 23, 1978 (43 F.R. 37450). However, T.D. 7560 as published in the FEDERAL REGISTER contained only the changes to the notice of proposed rulemaking published on April 3, 1978, rather than the full text of the final regulations. This document sets forth the full text of the final regulations.

The principal author of these final regulations was Mr. Robert M. Fowler of the Legislation and Regulations Division, Office of Chief Counsel, Inter-

nal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the final regulations, both on matters of substance and style.

Accordingly, the full text of the final regulations adopted by T.D. 7560 is as follows.

ROBERT A. BLEY,  
Director, Legislation and  
Regulations Division.

##### §1.53-1 Separate rule for pass-through of jobs credit.

(a) *In general.* Under section 53(b), in the case of a credit earned under section 44B by a partnership, estate or trust, or subchapter S corporation, the amount of the credit that may be taken into account by a partner, beneficiary, or shareholder may not exceed a limitation separately computed with respect to the partner's, beneficiary's, or shareholder's interest in the entity. The separate computation is required not only for the taxable year with respect to which the credit is earned but also each taxable year to which an unused credit attributable to an interest in such an entity is carried back or over. This section prescribes rules, under the authority of section 44B(b), relating to computation of the separate limitation.

(b) *Application of credit earned.* A credit earned under section 44B by a partnership, estate or trust, or subchapter S corporation shall be applied by a partner, beneficiary, or shareholder, to the extent allowed under section 53(b), before applying any other credit earned under section 44B. For example, if an individual has a new jobs credit from a proprietorship of \$2,000 and from a partnership (after applying section 53(b)) of \$1,800, but the credit must be limited under section 53(a) to \$3,000, the entire \$1,800 credit from the partnership would be applied before any part of the \$2,000 amount is applied.

(c) *Amount of separate limitation.* The amount of the separate limitation is equal to the partner's, beneficiary's, or shareholder's limitation under section 53(a) for the taxable year multiplied by a fraction. The numerator of the fraction is the portion of the taxpayer's taxable income for the year attributable to the taxpayer's interest in the entity. The denominator of the fraction is the taxpayer's total taxable income for the year reduced by the zero bracket amount, if any.

(d) *Portion of taxable income attributable to an interest in a partnership, estate or trust, or subchapter S corporation.*—(1) *General rule.* The portion of a taxpayer's taxable income attributable to an interest in a partnership, estate or trust, or subchapter S corporation is the amount of income from

that entitle the taxpayer is required to include in gross income, reduced by—

(i) The amount of the deductions allowed to the taxpayer that are attributable to the taxpayer's interest in the entity; and

(ii) A proportionate share of the deductions allowed to the taxpayer not attributable to a specific activity (as defined in paragraph (e)).

If a deduction comprises both an item that is attributable to the taxpayer's interest in the entity and an item or items that are not attributable to the interest in the entity, and if the deduction is limited by a provision of the Code (such as section 170(b), relating to limitations on charitable contributions), the deduction must be prorated among the items taken into account in computing the deduction. For example, if an individual makes a charitable contribution of \$5,000 and his distributive share of a partnership includes \$2,000 in charitable contributions made by the partnership, and if the charitable contribution deduction is limited to \$3,500 under section 170(b), then the portion of the deduction allowed to the taxpayer that is not attributable to a specific activity is \$2,500 (\$3,500 × (\$5,000 ÷ \$7,000)) and the portion of the deduction allowed to the taxpayer that is attributable to the interest in the partnership is \$1,000 (\$3,500 × (\$2,000 ÷ \$7,000)).

(2) *Deductions attributable to an interest in an entity.* Examples of deductions that are attributable to the taxpayer's interest in an entity include (but are not limited to) a deduction under section 1202 attributable to a net capital gain passed through the entity, and a deduction attributable to a deductible item (such as a charitable contribution) that has been passed through the entity.

(3) *Computation of the proportionate share of deductions not attributable to a specific activity.* The proportionate share of a deduction of the taxpayer not attributable to a specific activity is obtained by multiplying the amount of the deduction by a fraction. The numerator of the fraction is the income from the entity that the taxpayer is required to include in gross income, reduced by the amount of the deductions of the taxpayer that are attributable to the taxpayer's interest in the entity. The denominator is the taxpayer's gross income reduced by the amount of all the deductions attributable to specific activities.

(4) *Examples.* The method of determining the amount of taxable income attributable to an interest in a partnership, estate or trust, or subchapter S corporation is illustrated by the following examples:

*Example (1).* (a) A, a single individual, is a shareholder in S Corporation, a subchapter S corporation. A is re-

quired to include the following amounts from S corporation is his gross income:

|                               |         |
|-------------------------------|---------|
| Salary                        | \$3,000 |
| Undistributed taxable income: |         |
| Ordinary income               | 8,000   |
| Net capital gain              | 2,000   |
| Total                         | 10,000  |
| Total                         | 13,000  |

A has income from other activities:

|                  |        |
|------------------|--------|
| Ordinary income  | 8,000  |
| Net capital gain | 2,000  |
| Total            | 10,000 |

(b) In order to determine the taxable income attributable to A's interest in S Corporation, it is necessary to reduce the amount of income from S Corporation that A is required to include in gross income by the amount of A's deductions attributable to the interest in S Corporation and by a proportionate share of A's deductions not attributable to a specific activity. These computations are made in paragraph (c) of this example. However, before the computation reducing A's income by a proportionate share of the deductions not attributable to a specific activity can be made, the ratio described in subparagraph (3) of this paragraph (d) must be determined. The numerator of the ratio (the amount of income from S Corporation that A is required to include in gross income, reduced by the amount of the deductions attributable to A's interest in S Corporation) is obtained in paragraph (c) of this example in the process of computing A's taxable income attributable to the interest in S Corporation. The determination of the denominator (A's gross income reduced by the amount of all deductions attributable to specific activities), however, require a separate computation, which follows:

|                                                       |          |
|-------------------------------------------------------|----------|
| Gross income:                                         |          |
| Income from S Corporation                             | \$13,000 |
| Income from other sources                             | 10,000   |
| Total                                                 | 23,000   |
| Less: Deductions attributable to specific activities: |          |
| Section 1202 deduction (50 pct. of \$6,000)           | 3,000    |

|                                                                                                                                                                                                                       |        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| A's gross income reduced by the amount of the deductions attributable to specific activities (denominator of the ratio for determining the proportionate share of deductions not attributable to a specific activity) | 20,000 |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|

(c) Computation of the amount of A's taxable income attributable to the interest in S Corporation:

|                                                                          |          |
|--------------------------------------------------------------------------|----------|
| Income from S Corporation that A is required to include in gross income: |          |
| Ordinary income                                                          | \$11,000 |
| Net capital gain                                                         | 2,000    |
| Total                                                                    | 13,000   |

Less: Deductions of the taxpayer attributable to the interest in S Corporation:

|                                             |       |
|---------------------------------------------|-------|
| Section 1202 deduction (50 pct. of \$2,000) | 1,000 |
|---------------------------------------------|-------|

|                                                                                                                        |        |
|------------------------------------------------------------------------------------------------------------------------|--------|
| (Numerator of the ratio for determining the proportionate share of deductions not attributable to a specific activity) | 13,000 |
| Less: Proportionate share of the deductions of the taxpayer not attributable to a specific activity:                   |        |
| Personal exemption deduction (\$750 × \$12,000/\$20,000)                                                               | 450    |
| Zero bracket amount (\$2,200 × \$12,000/\$20,000)                                                                      | 1,320  |
| Total                                                                                                                  | 1,770  |

Portion of A's taxable income attributable to interest in S Corporation:

|  |        |
|--|--------|
|  | 10,230 |
|--|--------|

**Example (2).** (a) C, a married individual with two children, is a partner in the CD Company. C's distributive share of the CD Company consists of the following:

|                                                 |          |
|-------------------------------------------------|----------|
| Ordinary income (other than guaranteed payment) | \$38,420 |
| Guaranteed payment                              | 20,000   |
| Net long-term capital gain                      | 8,000    |
| Net short-term capital loss                     | 2,000    |
| Dividends qualifying for exclusion              | 100      |
| Charitable contributions                        | 500      |

C also has items of income from other sources and deductions, as follows:

|                                            |          |
|--------------------------------------------|----------|
| Ordinary income                            | \$21,500 |
| Short-term capital gain                    | 2,000    |
| Dividends qualifying for exclusion         | 400      |
| Deductions:                                |          |
| Deductible medical expenses                | 18,000   |
| Charitable contributions                   | 4,000    |
| Alimony                                    | 18,000   |
| Interest and taxes on home                 | 8,000    |
| Loss relating to another specific activity | 4,000    |

(b) In order to determine C's taxable income attributable to the interest in the partnership, it is necessary to reduce the amount of income from the partnership that C is required to include in gross income by the amount of C's deductions attributable to the interest in the partnership and by a proportionate share of C's deductions not attributable to a specific activity. These computations are made in paragraph (c) of this example. However, before the computation reducing C's income by a proportionate share of the deductions not attributable to a specific activity can be made, the ratio described in paragraph (d)(3) of this section must be determined. The numerator of the ratio is determined in paragraph (c) of this example in the process of computing C's taxable income attributable to the interest in the partnership. The denominator, however, requires a separate computation, reducing C's gross income by the amount of all deductions attributable to specific activities. This computation is as follows:

|                                            |          |
|--------------------------------------------|----------|
| Gross income: Income from the partnership: |          |
| Ordinary income                            | \$58,420 |
| Net long-term capital gain                 | 8,000    |
| Dividends                                  | 100      |

Less: Proportionate share of dividend exclusion (\$100 × \$100/\$500)

|                             |        |
|-----------------------------|--------|
|                             | 20     |
|                             | 80     |
| Income from other sources:  |        |
| Ordinary income             | 21,500 |
| Net short-term capital gain | 2,000  |

|                                                                       |        |
|-----------------------------------------------------------------------|--------|
| Dividends                                                             | 400    |
| Less: Proportionate share of dividend exclusion (\$100 × \$400/\$500) | 80     |
|                                                                       | 320    |
|                                                                       | 24,000 |
|                                                                       | 26,500 |

Less: Deductions attributable to specific activities:

|                                                                        |       |
|------------------------------------------------------------------------|-------|
| Net short-term capital loss passed through the partnership             | 2,000 |
| Loss related to another specific activity                              | 4,000 |
| Section 1202 deduction attributable to the interest in the partnership | 2,000 |
| Charitable contribution deduction passed through the partnership       | 500   |
|                                                                        | 8,500 |

C's gross income, reduced by the amount of the deductions attributable to specific activities (denominator of the ratio for determining the proportionate share of deductions not attributable to a specific activity)

(c) Computation of the amount of C's taxable income attributable to the interest in the partnership:

|                                                                        |          |
|------------------------------------------------------------------------|----------|
| Distributive share of ordinary income (other than guaranteed payments) | \$38,420 |
| Guaranteed payment                                                     | 20,000   |
| Distributive share of dividends less share of exclusion                | 80       |
| Distributive share of net long-term capital gain                       | 6,000    |
|                                                                        | \$64,500 |

Less: Deductions of the partner attributable to the interest in the partnership:

|                                                                                                                        |        |
|------------------------------------------------------------------------------------------------------------------------|--------|
| Section 1202 deduction (50 pct. of \$4,000)                                                                            | 2,000  |
| Charitable contribution passed through the partnership                                                                 | 500    |
| Net short-term capital loss passed through the partnership                                                             | 2,000  |
|                                                                                                                        | 4,500  |
| (Numerator of the ratio for determining the proportionate share of deductions not attributable to a specific activity) | 60,000 |

Less: Proportionate share of the deductions of the partner not attributable to a specific activity:

|                                                            |        |
|------------------------------------------------------------|--------|
| Section 1202 deduction (\$1,000 × \$60,000/\$80,000)       | 750    |
| Deductible medical expenses (\$18,000 × \$60,000/\$80,000) | 12,000 |
| Charitable contributions (\$4,000 × \$60,000/\$80,000)     | 3,000  |
| Alimony (\$18,000 × \$60,000/\$80,000)                     | 13,500 |
| Interest and taxes on home (\$8,000 × \$60,000/\$80,000)   | 6,000  |

|                                                                               |        |
|-------------------------------------------------------------------------------|--------|
| Personal exemption deduction (\$3,000 × \$60,000/\$80,000)                    | 2,250  |
| Total                                                                         | 27,500 |
| Portion of C's taxable income attributable to the interest in the partnership | 22,500 |

C has a deduction under section 1202 of \$3,000. Of that deduction, \$2,000 is attributable directly to C's interest in the partnership (50 percent of the net capital gain that would result from offsetting the \$6,000 net long-term capital gain and the \$2,000 net short-term capital loss that are attributable to C's interest in the partnership). Since the remaining \$1,000 deduction under section 1202 cannot be attributed directly to either C's income from the partnership or any other specific activity, it must be treated as a deduction not attributable to a specific activity.

(e) *Deductions not attributable to a specific activity*—(1) "Specific activity" defined. A "specific activity" means a course of continuous conduct involving a particular line of endeavor, whether or not the activity is carried on for profit. Examples of a specific activity are:

- A trade or business carried on by the taxpayer;
- A trade or business carried on by an entity in which the taxpayer has an interest;
- An activity with respect to which the taxpayer is entitled to a deduction under section 212;
- The operation of a farm as a hobby.

(2) *Types of deductions not attributable to a specific activity.* Examples of deductions not attributable to a specific activity include charitable contributions made by the partner, beneficiary, or shareholder; medical expenses; alimony; interest on personal debts of the partner, beneficiary, or shareholder; and real estate taxes on the personal residence of the partner, beneficiary, or shareholder. For purposes of this section, in cases in which deductions are not itemized, the zero bracket amount is considered to be a deduction not attributable to a specific activity.

(f) *Carryback or carryover of credit subject to separate limitation.* A credit subject to the separate limitation under section 53(b) that is carried back or carried over to another taxable year is also subject to the separate limitation in the carryback or carryover year. The taxpayer to whom the credit has been passed through shall not be prevented from applying the unused portion in a carryback or carryover year merely because the entity that earned the credit changes its form of conducting business if the nature of its trade or business essentially remains the same. The computa-

tion of the separate limitation in such a case shall reflect the income attributable to the taxpayer's interest in the entity in its revised form. Thus, a shareholder carrying over a credit from a subchapter S corporation may include dividends declared by that corporation after the subchapter S election had been terminated as income attributable to that person's interest in the entity. Similarly, if a partnership incorporates in a carryover year, any income attributable to an interest in the corporation will be regarded, for purposes of computing the separate limitation under section 53(b), as income attributable to an interest in the entity.

#### SUBCHAPTER B—MISCELLANEOUS PROVISIONS

[T.D. 7581]

### PART 404—TEMPORARY REGULATIONS ON PROCEDURE AND ADMINISTRATION UNDER THE TAX REFORM ACT OF 1976

#### Disclosure of Taxpayer Name Information to Officers and Employees of the Bureau of the Census for Certain Statistical Purposes

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains amendments to the temporary regulations relating to disclosure by the Internal Revenue Service of certain described return information to officers and employees of the Bureau of the Census for certain statistical purposes and related activities. These amendments add to the disclosure authority contained in the existing regulations.

DATE: These regulations authorize the disclosure of taxpayer name information for certain statistical purposes of evaluating the completeness of censuses after the date of publication of this Treasury decision.

FOR FURTHER INFORMATION CONTACT:

Diane L. Renfro of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224. Attention: CC:LR:T, 202-566-3459, not a toll-free call.

SUPPLEMENTARY INFORMATION:

#### BACKGROUND

This document contains amendments to the Temporary Regulations on Procedure and Administration relating to disclosure of taxpayer name information to the Bureau of the Census under section 6103(j)(1) of the Internal Revenue Code of 1954 as added by section 1202 of the Tax Reform Act of 1976 (Pub. L. 94-455, 90 Stat. 1678).

#### DISCLOSURE OF TAXPAYER NAME INFORMATION FOR CERTAIN STATISTICAL PURPOSES

These temporary regulations amend § 404.6103(j)(1)-1(b)(1)(i) of the existing temporary regulations to allow the Service to disclose taxpayer name information to the Bureau of the Census, in addition to other taxpayer identity information (i.e., the taxpayer's address and social security or employer identification number) which the Service is presently authorized to disclose to the Bureau under this particular provision of the regulations, for purposes of developing estimates of census undercounts for geographic areas by comparing such names with name information which the Bureau derives from its own census activities. These census undercounts are then used to evaluate the completeness of census coverage.

Accordingly, § 404.6103(j)(1)-1(b)(1)(i) is amended to permit the disclosure of taxpayer name information where necessary to evaluate the completeness of census coverage.

#### DRAFTING INFORMATION

The principal author of this regulation was Diane L. Renfro of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

#### WAIVER OF CERTAIN PROCEDURAL REQUIREMENTS OF PROPOSED TREASURY DIRECTIVE

A determination has been made by one of the undersigned, Jerome Kurtz, Commissioner of Internal Revenue, that there is an immediate need for amendment of the temporary regulations under section 6103(j)(1) of the Internal Revenue Code to allow disclosure of taxpayer name information to the Bureau of the Census in order for it to evaluate the completeness of censuses. Because of the immediate need for such information, compliance with the procedural requirements of paragraphs 8 through 13 of the proposed Treasury directive, relating to improving regulations (43 FR 22319), would

be impracticable, and, therefore, these requirements have not been followed.

#### ADOPTION OF AMENDMENTS TO THE REGULATIONS

In order to amend the Temporary Regulations on Procedure and Administration (26 CFR Part 404) to allow for certain additional disclosures to the Bureau of the Census, such regulations are amended to read as follows:

Section 404.6103 (j) (1)-1 (b) (1) (i) of the Temporary Regulations on procedure and Administration is amended to read as follows:

§ 404.6103 (j) (1)-1 *Disclosure of return information to officers and employees of the Department of Commerce for certain statistical purposes and related activities.*

(b) *Disclosure of return information to officers and employees of the Bureau of the Census.* (1) . . .

(i) Taxpayer identity information (as defined in section 6103 (b) (6) other than the name of the taxpayer except where necessary to evaluate the completeness of census coverage), validity code with respect to the taxpayer identifying number (as described in section 6109), and taxpayer identifying number of spouse, if reported;

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

This Treasury decision is issued under the authority contained in section 6103 (j) (1) of the Internal Revenue Code of 1954 (90 Stat. 1678; 26 U.S.C. 6103 (j) (1) and section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

JEROME KURTZ,  
Commissioner of  
Internal Revenue.

Approved: December 15, 1978.

DONALD C. LUBICK,  
Assistant Secretary  
of the Treasury.

§ 404.6103(j)(1)-1 *Disclosures of return information to officers and employees of the Department of Commerce for certain statistical purposes and related activities.*

(b) *Disclosure of return information to officers and employees of the Bureau of the Census.* (1) Officers or employees of the Internal Revenue

Service will disclose the following return information reflected on returns of an individual taxpayer to officers and employees of the Bureau of the Census for purposes of conducting and preparing, as authorized by law, intercensal estimates of population and per capita income for all geographic areas included in the general revenue sharing program and demographic statistics programs, censuses and related program evaluation:

(i) Taxpayer identity information (as defined in section 6103 (b) (6) other than the name of the taxpayer except where necessary to evaluate the completeness of census coverage), validity code with respect to the taxpayer identifying number (as described in section 6109), and taxpayer identifying number of spouse, if reported;

#### Title 31—Money and Finance: Treasury

#### SUBTITLE A—OFFICE OF THE SECRETARY OF THE TREASURY

#### PART 2—CLASSIFICATION, DOWN- GRADING, DECLASSIFICATION AND SAFEGUARDING OF NATIONAL SECURITY INFORMATION

AGENCY: Department of the Treasury.

ACTION: Final rule.

SUMMARY: These regulations supersede the Department's regulations at 31 CFR Part 2 which were first published at 38 FR 19322, July 19, 1973. These regulations implement Executive Order 12065, 43 FR 28949, June 28, 1978 (hereinafter referred to as the Order), and the Information Security Oversight Office Directive, 43 FR 46280, October 5, 1978 (hereinafter referred to as the Directive), relating to the classification, downgrading, declassification and safeguarding of national security information. The Order increases openness in Government by limiting the classification of documents and by accelerating the declassification of other documents, while providing improved protection against unauthorized disclosure of information which requires protection in the interest of national security.

EFFECTIVE DATE: December 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Dennis E. Southern, Assistant Direc-

tor (Physical Security), Office of Administrative Programs, Department of the Treasury, Washington, D.C. 20220, (202) 376-0763.

SUPPLEMENTARY INFORMATION: The sections in these regulations follow the format of the Directive. These regulations have been submitted to the Information Security Oversight Office in accordance with section 5-401 of Executive Order 12065.

The Department considers all regulations, or amendments to existing regulations, published in the FEDERAL REGISTER and codified in the Code of Federal Regulations to be significant regulations, unless specifically determined and expressly justified to be otherwise. In this regard, it has been determined that this final rule is not subject to the notice and public procedure requirements of Executive Order 12044, March 24, 1978, "Improving Government Regulations," and the Department's regulations implementing that Order, 43 FR 52120, November 8, 1978, because the regulations are "required to implement a statute, an international agreement, a court decision, or a regulatory action of another agency, bureau, or office, and no substantial element of discretion is afforded the rulemaker," and because the regulations are "essentially procedural." Additionally, as these regulations are "rules of agency organization, procedure or practice," notice and public procedure respecting these regulations are not deemed necessary or appropriate under 5 U.S.C. 553(b)(A).

Part 2 of Title 31 is revised as follows:

#### Subpart A—Original Classification

- Sec.
- 2.1 Definitions.

- 2.35 Challenges to Classification.

#### Subpart F—General Provisions

- 2.36 Notification.
- 2.37 Posted Notice.

AUTHORITY: Executive Order 12065 and Information Security Oversight Office Directive.

#### Subpart A—Original Classification

##### § 2.1 Definitions.

(a) "Original classification" as used in these regulations means an initial determination that information requires protection against unauthorized disclosure in the interest of national security, and a designation of the level of classification.<sup>1</sup>

(b) "Top Secret" shall be applied only to information, the unauthorized disclosure of which could reasonably be expected to cause exceptionally grave damage to the national security. Examples of exceptionally grave damage include armed hostilities against the United States or its allies; disruption of foreign relations vitally affecting the national security; the compromise of vital national defense plans or complex cryptologic and communications intelligence systems; the revelation of sensitive intelligence operations; and the disclosure of scientific or technological developments vital to national security.

(c) "Secret" shall be applied only to information, the unauthorized disclosure of which could reasonably be expected to cause serious damage to the national security. Examples of serious damage include disruption of foreign relations significantly affecting the national security; significant impairment of a program or policy directly related to the national security; revelation of significant military plans or intelligence operations; and compromise of significant scientific or technological developments relating to national security.

<sup>1</sup> Parenthetical references are to related sections of Executive Order 12065.

(d) "Confidential" shall be applied to information, the unauthorized disclosure of which could reasonably be expected to cause identifiable damage to the national security. Examples of identifiable damage include the compromise of information which indicates the strength of ground, air, and naval forces in the United States and overseas areas; disclosure of technical information used for training, maintenance, and inspection of classified munitions of war; revelation of performance characteristics, test data, design, and production data on munitions of war.

##### § 2.2 Classification Authority.

(a) The authority to originally classify national security information as Top Secret, Secret or Confidential within the Department of the Treasury may be exercised by the Deputy Secretary, the Under Secretary (Monetary Affairs), the Under Secretary, the General Counsel, the Assistant Secretary (International Affairs), the Fiscal Assistant Secretary, the Assistant Secretary (Administration), the Assistant Secretary (Legislative Affairs), the Assistant Secretary (Enforcement and Operations), the two Executive Assistants to the Secretary, the Executive Assistant to the Deputy Secretary, the Executive Secretary, the Special Assistant to the Secretary (National Security) and the Special Assistant (Intelligence and Terrorism) to the Assistant Secretary (Enforcement and Operations). The authority inheres in the office and may be exercised by a person acting in that office. These officials are not authorized to delegate authority to classify information as Top Secret or Secret, but may delegate authority to classify information as Confidential.

(b) The authority to originally classify national security information as Secret or Confidential within the Department of the Treasury may be exercised by the Commissioner, Internal Revenue Service; the Assistant Secretary (Tax Policy); the Director, Bureau of Alcohol, Tobacco and Firearms; the Commissioner, U.S. Customs Service; the Director, Bureau of Engraving and Printing; and the Director, U.S. Secret Service. This authority is not redelegable.

(c) The authority to originally classify national security information as Confidential within the Department of the Treasury may be exercised by the Assistant Secretary (Domestic Finance); the Assistant Secretary (Economic Policy); the Assistant Secretary (Public Affairs); the Comptroller of the Currency; the Commissioner, Bureau of Government Financial Operations; the Commissioner, Bureau of the Public Debt; the Director, Bureau of the Mint; and the Director, Federal

Law Enforcement Training Center. Officials authorized to classify information as Confidential can not redelegate such authority.

(d) Delegations of original Confidential classification authority shall be in writing and shall be reported in writing to the Assistant Secretary (Administration). These delegations shall be limited to the minimum number absolutely required for efficient administration. Periodic reviews of such delegations shall be made to insure that the officials so designated have demonstrated a continuing need to exercise such authority.

##### § 2.3 (Reserved).

##### § 2.4 Record requirements.

The Assistant Secretary (Administration) shall maintain a listing by name and position title of the officials in the Office of the Secretary who are authorized under these regulations to originally classify information as Top Secret, Secret or Confidential. An official within the Office of the Secretary with Top Secret classification authority shall report in writing to the Assistant Secretary (Administration) the names and position titles of the officials designated by that official in writing to have original Confidential classification authority. The head of each bureau shall maintain a similar listing of the officials in his/her bureau authorized to apply an original confidential classification and shall furnish a copy of each listing to the Assistant Secretary (Administration). This listing shall be compiled as of January 1, 1979, and updated no less than semi-annually.

##### § 2.5 Classification procedure.

(a) No document originated on or after December 1, 1978, may be classified after the Department of the Treasury has received a request for the document under the Freedom of Information Act, as amended, or the Mandatory Review provisions of the Order (3-5), unless such classification is authorized by the Secretary or Deputy Secretary and unless the classification is consistent with these regulations. Documents originated before December 1, 1978 and subject to such a request may not be classified unless such classification is consistent with the Order and is authorized by the Assistant Secretary (Administration) or by an official with Top Secret classification authority. Classification authority under this provision shall be exercised personally, on a document-by-document basis.

(b) Classification may not be restored to documents already declassified and released to the public under the Order or prior Orders.

(c) The fact that the information concerns one or more of the criteria for classification of Section 1-301 of the Order does not create a presumption that the information meets the damage tests of Sections 1-302 and 1-303.

#### § 2.6 Foreign government information.

(a) *Identification.* "Foreign government information" is:

(1) Information provided to the United States by a foreign government or international organization of governments in the expectation, express or implied, that the information is to be kept in confidence; or

(2) Information produced by the United States pursuant to a written joint arrangement with a foreign government or international organization of governments requiring that either the information or the arrangement, or both, be kept in confidence. Such a written joint arrangement may be evidenced by an exchange of letters, a memorandum of understanding, or other written record (1-303 and 6-103).

(b) *Duration of classification for foreign government information.* (1) Foreign government information shall not be assigned a date or event for automatic declassification unless such is specified or agreed to by the foreign government or international organization of governments.

(2) Foreign government information classified after December 1, 1978, shall be assigned a date for review for declassification up to 30 years from the time the information was classified or acquired. (1-402 and 3-404).

#### § 2.7 Standard identification and markings.

At the time of original classification, the following shall be shown on the face of paper copies of all classified documents:

(a) *Identity of classifier.* The identity of the classifier, unless also the signer or approver of the document, shall be shown on a "classified by" line; e.g., "Classified by John Doe" or "Classified by Director, XXX" (1-501(a)).

(b) *Date of classification and office of origin.* The date and office of origin on a document at the time of its origination may be considered the date of classification and identification of the office of origin (1-501(b)).

(c) *Date or event for declassification or review.* The date for automatic declassification or for declassification review shall be shown on a "declassify on" or a "review for declassification on" line; e.g., "Declassify on November 1, 1984," or "Declassify on completion of State visit," or "Review for declassification on November 1, 1998" (1-501(c)). An example of such a marking is as follows:

Classified by \_\_\_\_\_  
☐ Declassified ☐ Review for  
 Declassification on \_\_\_\_\_

(d) *Downgrading markings.* When it is determined (e.g., in a classification guide) that a classified document should be downgraded automatically at a certain date or upon a certain event, that date or event shall be recorded on the face of the document; e.g., "Downgraded to Secret on November 1, 1990" or "Downgraded to Confidential on November 1, 1985" (1-5).

(e) *Duration of classification and identity of extension authority.* Each original classification authority shall set a date or event for automatic declassification no more than six years beyond the date of the original classification. Only officials with Top Secret classification authority may classify information for more than six years from the date of the original classification. The identity of the official who authorizes a date for declassification or for review for declassification that is more than 6 years beyond the date of the document's classification shall be shown on the document, unless that official also is the classifier, signer, or approver of the document. This marking shall be shown substantially as follows: "Extended by (Insert name, date and title of position of Top Secret classification authority)". For classification of foreign government information see § 2.6 (1-502).

(f) *Reason for extension.* When classification is extended beyond 6 years, the reason shall be stated on the document either in narrative form or by reference to the Departmental or bureau regulation or guideline which state the reason for extension. The reason shall be shown substantially as follows: "Reason for extension: (State reason or applicable reference)" (1-502).

An example of such a marking is as follows:

Extended by \_\_\_\_\_  
 on (date) \_\_\_\_\_  
 Reason for extension \_\_\_\_\_

(g) *Overall and page marking of documents.* The overall classification of a document shall be marked, stamped, or affixed permanently at the top and bottom of the outside of the front cover (if any), on the title page (if any), on the first page, and on the outside of the back cover (if any). Each interior page of a classified document shall be marked or stamped at the top and bottom either according to the highest classification of the content of the page, including the designation "Unclassified" when appropriate, or according to the highest overall classification of the document. In any case, the classification marking of the page shall not supersede the classification marking of portions of the page

marked with lower levels of classification (1-501(d)).

(h) *Subjects and titles.* Whenever practicable, subjects and titles shall be selected so as not to require classification. When the subject or title is classified, an unclassified identifier may be assigned to facilitate receipting and reference (1-5).

(i) *Mandatory portion marking.* Classifiers shall identify the level of classification of each classified portion of a document (including subjects and titles), and those portions that are not classified. Portion marking shall be accomplished by placing a parenthetical designator immediately preceding or following the text that it governs. The symbols "(TS)" for Top Secret, "(S)" for Secret, "(C)" for Confidential, and "(U)" for unclassified shall be used for this purpose. If individual portion marking is impracticable, the document shall contain a description sufficient to identify the information that is classified and the level of such classification. A waiver of the portion marking requirement may be granted by the Director of the Information Security Oversight Office. Requests for such waivers shall be made by the Secretary, or his designee to the Director and shall include: (1) Identification of the information or classes of documents for which such waiver is sought, (2) a detailed explanation of why the waiver should be granted, (3) the Department's best judgment as to the anticipated dissemination of the information or class of documents for which waiver is sought, and (4) the extent to which the information subject to the waiver may form a basis for classification of other documents (1-504).

(j) *Material other than documents.* The classification and associated markings prescribed by these regulations shall, where practicable, be affixed to material other than documents by stamping, tagging, or other means. If this is not practicable, recipients shall be made aware of the classification and associated markings by notification or other means (1-5).

(k) *Transmittal documents.* A transmittal document shall indicate on its face the highest classification of the information transmitted by it and the classification, if any, of the transmittal document. For example, an unclassified transmittal document should bear a notation substantially as follows: "Unclassified When Classified Enclosure(s) Is Detached" (1-5).

(l) *Marking foreign government information.* Except in those cases where such markings would reveal intelligence information, foreign government information incorporated in United States documents shall, whenever practicable, be identified in such manner as to ensure that the foreign

government information is not declassified prematurely or made accessible to nationals of a third country without consent of the originator. Documents classified by a foreign government or an international organization of governments shall, if the foreign classification is not in English, be marked with the equivalent or appropriate U.S. classification. Foreign government information not classified by a foreign government or an international organization of governments, but provided to the United States in confidence by a foreign government or by an international organization of governments shall be classified at an appropriate level and shall be marked with the U.S. classification accordingly (1-5).

#### § 2.8 Additional markings required.

In addition to the marking requirements in § 2.7, the following markings shall, as appropriate, be displayed prominently on classified information. When display of these additional markings is not practicable, their applicability to the information shall be included in the written notification of the assigned classification (1-5).

(a) *Restricted data or formerly restricted data.* For classified information containing restricted data or formerly restricted data as defined in the Atomic Energy Act of 1954, as amended, such markings as may be prescribed by the Department of Energy in regulations issued pursuant to the act shall be applied.

(b) *Intelligence sources and methods information.* For classified information involving intelligence sources or methods: "WARNING NOTICE—INTELLIGENCE SOURCES AND METHODS INVOLVED".

(c) *Dissemination and reproduction notice.* For classified information that the originator has determined, pursuant to Section 1-506 of the Order, should be subject to special dissemination or reproduction limitations, or both, a statement placing the user on notice of the restrictions shall be included in the text of the document or on its cover sheet; e.g., "Reproduction requires approval of originator," or "Further dissemination only as directed by (Insert appropriate office or official)" (1-506).

#### § 2.9 Abbreviations.

Classified documents that are transmitted electrically may be marked with abbreviations or codes in a single line to satisfy the requirements of § 2.7 and § 2.8 in a manner consistent with economic and efficient use of electrical transmission systems, provided that the full text represented by each such abbreviation or code and its relation to § 2.7 and § 2.8 is readily available to

each expected user of the classified documents affected.

#### Subpart B—Derivative Classification

##### § 2.10 Definition.

"Derivative classification," as used in these regulations, means a determination that information is in substance the same as information that is currently classified, and a designation of the level of classification (2-1).

##### § 2.11 Responsibility.

Derivative application of classification markings is a responsibility of those who incorporate, paraphrase, restate, or generate in new form information that is already classified, and of those who apply markings in accordance with instructions from an authorized classifier or in accordance with an authorized classification guide. Persons who apply derivative classification markings should take care to determine whether their paraphrasing, restating, or summarizing of classified information has removed the basis for classification. Where checks with originators or other appropriate inquiries show that no classification or a lower classification than originally assigned is appropriate, the derivative document shall be issued as unclassified or shall be marked appropriately (2-101 and 2-102).

##### § 2.12 Marking derivatively classified documents.

Paper copies of derivatively classified documents shall be marked at the time of origination as follows:

(a) The classification authority shall be shown on a "classified by" line; e.g., "Classified by (Insert identity of classification guide)" or "Classified by (Insert source of original classification)." If the classification is derived from more than one source, the single phrase "multiple sources" may be shown, provided that identification of each such source is maintained with the file or record copy of the document (2-102(c)).

(b) The identity of the office originating the derivatively classified document shall be shown on the face of the document (2-102).

(c) Dates or events for declassification or review shall be carried forward from the source material or classification guide and shown on a "declassify on" or "review for declassification on" line. If the classification is derived from more than one source, the latest date for declassification or review applicable to the various source material shall be applied to the new information (2-102(c)).

(d) The classification marking provisions of § 2.7 (g)(h) and (i) and also § 2.7(1) are also applicable to derivatively classified documents (2-101(c)).

(e) Any additional marking under § 2.8 appearing on the source material shall be carried forward to the new material when appropriate (2-102(c)); and

(f) Any abbreviation or code permitted under § 2.9 may be applied to derivatively classified documents.

##### § 2.13 Classification guides.

(a) *Requirements.* Classification guides issued pursuant to Section 2-2 of the Order shall:

(1) Identify the information to be protected, using categorization to the extent necessary to insure that the information involved can be identified readily and uniformly (2-201);

(2) State which of the classification designations (i.e., Top Secret, Secret, or Confidential) applies to the information (2-201);

(3) State the duration of classification in terms of a period of time or future event. When such duration is to exceed 6 years, the reason for such extension shall be provided in the guide. However, if the inclusion of classified reasons would result in a level of classification for a guide that would inhibit its desirable and required dissemination, those reasons need be recorded only on or with the record copy of the guide (2-201); and

(4) Indicate how the designations, time limits, markings, and other requirements of the Order, the Directive and these regulations are to be applied (2-201).

(b) *Review and record requirements.* Each classification guide shall be kept current and shall be reviewed at least once every 2 years. Each office within the Office of the Secretary and the respective offices of each Treasury bureau possessing original classification authority for national security information shall maintain a list of all classification guides in current use by them. A copy of each such classification guide shall be furnished to the Assistant Secretary (Administration) (2-2).

#### Subpart C—Downgrading and Declassification

##### § 2.14 Record requirements.

Downgrading and declassification authority may be exercised by:

(a) The official authorizing the original classification, a successor in that capacity, or a supervisory official of either.

(b) Any official specifically authorized in writing by an official authorized to originally classify information as Top Secret or Secret. Officials who are authorized to originally classify information as Top Secret or Secret shall maintain a record, copy to the Assistant Secretary (Administration), of individuals or positions who such

officials designated as downgrading and declassification authorities.

#### § 2.15 Declassification policy.

In making determinations under Sections 3-303 of the Order, officials shall respect the intent of the Order to protect foreign government information and confidential foreign sources (3-303).

#### § 2.16 Downgrading, declassification, and upgrading markings.

Whenever a change is made in the original classification or in the dates of downgrading or declassification of any classified information, it shall be promptly and conspicuously marked to indicate the change, the authority for the action, the date of the action, and the identity of the person taking the action. Earlier classification markings shall be cancelled when practicable (4-102).

#### § 2.17 Systematic Review for Declassification.

(a) *Systematic review guidelines.* (1) *U.S. originated information.* Systematic review guidelines shall be kept current through review at least every 2 years, unless earlier review for revision is requested by the Archivist of the United States (3-402).

(2) *Foreign government information.* No later than November 30, 1979, the Department will develop systematic review guidelines for 30 year old foreign government information. These guidelines will be developed in consultation with the Archivist of the United States and in accordance with the provisions of Section 3-304 of the Order. These guidelines shall be kept current through review by the Secretary at least once every 2 years, unless earlier review for revision is requested by the Archivist of the United States. A copy of these guidelines and any revisions thereto shall be furnished to the Information Security Oversight Office. The Department of State will, upon request, provide advice and such assistance as is necessary to effect foreign government coordination of the guidelines (3-404).

(b) *Systematic review procedures—*(1) *Scheduling for systematic review.* Classified nonpermanent records that are scheduled to be retained for more than 20 years need not be systematically reviewed, but shall be reviewed for declassification upon request. All classified Treasury records 20 years old or older, whether held in storage areas by Treasury or in Federal records centers, shall be surveyed to identify those that require scheduling for future disposition. Such scheduling shall be accomplished before December 1, 1980 (3-401).

(2) *Extending classification after review—*(1) *Foreign government infor-*

mation. The Secretary may extend the classification of foreign government information beyond 30 years, but only in accordance with Sections 3-3 and 3-404 of the Order. This authority may not be delegated. When classification is extended beyond 30 years, a date no more than 10 years later shall be set for declassification or for the next review. Subsequent reviews for declassification shall be set at no more than 10 year intervals (3-404). The burden of proof is on the originating office in the Office of the Secretary or the bureau to show that continued classification is warranted within the terms of the Order, the Directive and these regulations.

(ii) *Notification of addressees.* When classified information is downgraded or declassified in a manner other than originally specified, whether scheduled or exempted, or is upgraded, or is subject to a change in exemption status, the classifier or the custodian of the records shall, to the extent practicable, promptly notify all addressees to whom the information was originally officially transmitted. The recipients of this notification shall notify addressees to whom in turn they have transmitted the classified information.

(iii) *Waivers of further review.* The Secretary may request from the Director of the Information Security Oversight Office a waiver of the 10 year review requirement for both U.S. originated and foreign government information. Such requests shall include a personal certification by the Secretary that the classified information for which the waiver is sought has been systematically reviewed as required, and that a definitive date for declassification could not be determined. Waivers should not be requested unless the results of the review have established an identifiable need to continue classification for a period in excess of 20 additional years. Each request shall include a recommended date or event for subsequent review or automatic declassification (3-401).

(3) *Assistance to the Archivist—*(1) The Secretary shall designate experienced personnel to assist the Archivist of the United States in the systematic review of 20 year old U.S. originated information and 30 year old foreign government information accessioned into the National Archives of the United States. Such personnel shall:

(A) Provide guidance and assistance to National Archives employees in identifying and separating documents and specific categories of information within documents that are deemed to require continued classification; and

(B) submit to the Secretary recommendations for continued classification that identify documents or specif-

ic categories of information so separated.

(ii) The Secretary shall then make the determinations personally and in writing required under Section 3-401 of the Order as to which documents or categories of information require continued protection. The Secretary shall inform the Archivist of the United States of this determination (3-4).

(4) *Special procedures.* Special procedures for systematic review and declassification of classified cryptologic information and classified information concerning the identities of clandestine human agents promulgated in accordance with the provisions of Section 3-403 of the Order shall be binding on the Department of the Treasury.

(5) *Foreign relations series.* In order to permit the editors of Foreign Relations of the United States to meet the mandated goal of publishing 20 years after the event, the Secretary shall assist the editors in the Department of State by facilitating access to appropriate classified material in their custody and by expediting declassification review of items from their files selected for publication (3-4).

#### § 2.18 Procedures for mandatory declassification review.

(a) *U.S. originated information—*(1) *Action on an initial request.* Requests for mandatory declassification review shall be directed to the Assistant Director (Physical Security), Office of Administrative Programs. Upon request for declassification, pursuant to Section 3-5 of the Order, the following procedures shall apply:

(i) The Assistant Director (Physical Security), Office of Administrative Programs, shall acknowledge receipt of the request.

(ii) Whenever a request does not reasonably describe the information sought, the requestor shall be notified that unless additional information is provided or the scope of the request is narrowed, no further action will be undertaken (3-501).

(iii) The Assistant Director (Physical Security), Office of Administrative Programs, shall determine the appropriate office to take action on the request and shall forward the request to that office.

(2) *Information in the custody of and under the exclusive declassification authority of the Department.* The appropriate declassification official in the action office having custody of the information shall determine whether, under the declassification provisions of Section 3-3 of the Order, the requested information may be declassified and, if so, shall make such information available to the requestor, unless withholding is otherwise warranted under applicable law. If the in-

formation may not be released in whole or in part, the requestor shall be given a brief statement as to the reasons for denial, a notice of the right to appeal the determination to the Departmental Committee on National Security and a notice that such an appeal must be filed within 60 days in order to be considered (3-501).

(3) *Information classified by agencies other than the Department of the Treasury.* When any unit of the Department of the Treasury receives a request for information in its custody that was classified by another agency, the Assistant Director (Physical Security), Office of Administrative Programs, shall be responsible for forwarding the request to the appropriate agency for review, together with a copy of the document containing the information requested, where practicable, and with its recommendation to withhold any of the information where appropriate. Unless the agency that classified the information objects on grounds that its association with the information requires protection, the unit that received the request shall also notify the requestor of the referral. After the agency that classified the information completes its review (in coordination with other agencies that have a direct interest in the subject matter), a response shall be sent to the requestor in accordance with the procedures described above (3-501).

(4) *Information classified by Treasury requested from other agencies.* When another agency forwards to Treasury a request for information in that agency's custody that has been classified by Treasury, the Assistant Director (Physical Security), Office of Administrative Programs, shall: (i) advise the other agency as to whether they can notify the requestor of the referral; (ii) review the classified information in coordination with other agencies that have a direct interest in the subject matter; and (iii) respond to the requestor in accordance with the procedures in § 2.18(a)(2). If requested, Treasury's determination shall be communicated to the referring agency (3-501).

(5) *Action on appeal.* Appeals of denials of a request for declassification shall be referred to the Departmental Committee on National Security Information. Within 30 days of receipt of the appeal, the Departmental Committee on National Security Information shall determine whether continued classification is required in whole or in part, notify the requestor of the determination, and make available any information that is declassified and otherwise releasable. If continued classification is required under the provisions of Section 3-3 of the Order, the requestor shall be notified of the rea-

sons thereof. If requested, the Department of the Treasury shall also communicate the appeal determination to any referring agency (3-5 and 3-404(c)).

(6) *Fees.* If the request requires the rendering of services for which fair and equitable fees may be charged pursuant to Title 5 of the Independent Offices Appropriation Act, 65 Stat. 290, 31 U.S.C. 483a (1976), such fees may be imposed at the discretion of the Department's service rendering unit (3-501).

(b) *Foreign Government information.* Except as provided hereinafter, requests for mandatory review for the declassification of classified documents that contain foreign government information shall be processed and acted upon in accordance with the provisions of § 2.18(a). If the Department's unit receiving the request is also the unit that initially received or classified the foreign government information, it shall determine whether the foreign government information in the document may be declassified and released after consulting with other agencies that have subject matter interest. If the Department's unit receiving the request is not the unit that received or classified the foreign government information, it shall refer the request to the appropriate agency, for action as described above, including its recommendation to withhold any of the information where appropriate. In those cases where agency policy or guidelines do not apply, consultation with the foreign originator through appropriate channels may be advisable prior to final action on the request (3-5).

#### Subpart D—Safeguarding

##### § 2.19 General.

Information classified pursuant to the Order or prior Orders shall be afforded a level of protection against unauthorized disclosure commensurate with its level of classification (4-1).

##### § 2.20 General restriction on access.

(a) *Determination of need-to-know.* Classified information shall be made available to a person only when the possessor of the classified information establishes in each instance, except as provided in Section 4-3 of the Order, that access is essential to the accomplishment of official Government duties or contractual obligations (4-101).

(b) *Determination of trustworthiness.* A person is eligible for access to classified information only after a showing of trustworthiness as determined by an appropriate agency head based upon appropriate investigations in accordance with applicable standards and criteria (4-101).

§ 2.21 Access by historical researchers, former Presidential appointees and employees of Federal Reserve Banks.

(a) Access may be obtained by (1) written agreements from requestors to safeguard the information to which they are given access as permitted by the Order, the Directive and these regulations, and (2) written consent to the review of their notes and manuscripts for the purpose of determining that no classified information is contained therein. A determination of trustworthiness is a precondition to a requestor's access. If the access requested by historical researchers and former Presidential appointees requires the rendering of services for which fair and equitable fees may be charged pursuant to Title 5 of the Independent Offices Appropriations Act, 65 Stat. 290, 31 U.S.C. 483a (1976), the requestor shall be so notified and the fees may be imposed (4-3).

(b) Officials and employees of Federal Reserve Banks may be granted access to classified national security information by the Under Secretary (Monetary Affairs), or his designee when:

(1) The information is classified by a Treasury official or consent for dissemination to the Federal Reserve Bank has been obtained from the originating department.

(2) The Federal Reserve Bank officials or employees need to have knowledge of such information in connection with activities approved by the Under Secretary (Monetary Affairs), or his designee, as being in the interests of the United States; and

(3) The Federal Reserve Bank officials and employees are cleared by the Department of the Treasury under the procedures and standards applicable to Treasury officials and employees.

(4) The Under Secretary (Monetary Affairs), or his designee, shall also be responsible for adjusting or withdrawing the security clearance of any Federal Reserve Bank official or employee who no longer needs access to classified national security information at a particular level in connection with the official performance of duties.

##### § 2.22 Dissemination.

Except as otherwise provided by Section 102 of the National Security Act of 1947, 61 Stat. 495, 50 U.S.C. 403 (1970 and Suppl V 1975), classified information originating in another agency may not be disseminated outside the Department without the consent of the originating agency (4-403).

##### § 2.23 Accountability procedures.

(a) *Top Secret Control Officers.* Each Treasury bureau and the Office of the Secretary shall designate a Top Secret Control Officer. Top Secret Control

Officers so designated shall receive, maintain current accountability records of, and dispatch Top Secret information, and shall also conduct an annual physical inventory of all Top Secret information. Top Secret Control Officers shall conduct the required physical inventory in the presence of a disinterested individual. They shall complete the same by the first day of May. Any Top Secret document unaccounted for must be reported to the Assistant Secretary (Administration). Top Secret Control Officers shall conduct periodic reviews of Top Secret documents within their control to insure that those Top Secret documents are downgraded or declassified as required.

(b) *Control of Top Secret Information.* (1) A Treasury Department Form TD F 71-01.7 (Top Secret Document Record) shall be attached to the first page or cover of the original and each copy of Top Secret information. The Top Secret Document Record shall be completed by the Top Secret Control Officer, shall identify the Top Secret information attached, and shall serve as a permanent record of the information. All persons, including stenographic and clerical personnel, having access to the information attached to the Top Secret Document Record must sign and date the Treasury Form TD F 71-01.7 prior to accepting responsibility for its custody. The Treasury Form TD F 71-01.7 shall indicate those individuals to whom only oral disclosure is made. The Top Secret Document Record shall remain attached to the Top Secret information until it is either transferred to another U.S. Government agency, downgraded, declassified or destroyed. Whenever any one of these actions is taken, the Top Secret Control Officer shall record the action on the Top Secret Document Record and retain it for a period of three years at which time it may be destroyed.

(2) Top Secret documents shall be sequentially numbered in a calendar year series by Top Secret Control Officers as received by them, and the number shall be posted to the Top Secret document, Treasury Form TD F 71-01.7 and Treasury Form TD F 71-01.5 Revised (Classified Document Accountability Record).

(3) Top Secret Control Officers shall maintain current records of persons within their respective office or bureau who are cleared for access to Top Secret information.

(c) *Waiver.* The Director of the Information Security Oversight Office may grant a waiver with respect to the requirement of an annual inventory for storage systems involving large volumes of information, if security measures with respect to such storage sys-

tems are adequate to prevent access by unauthorized persons (4-103).

(d) *Accountability of classified information.* Treasury Department Form TD F 71-01.5 (Classified Document Accountability Record) shall be the exclusive classified document accountability record for use within the Department of the Treasury. No other logs or records shall be required except for the use of Treasury Form TD F 71-01.7 for Top Secret information. Form TD F 71-01.5 shall be used for single or multiple document receipting, internal and external routing, and as a certificate of destruction. The inclusion of classified information on Form TD F 71-01.5 is prohibited. In the event the subject title is classified, a recognizable short title shall be used, e.g., first letter of each letter word in the subject title. Several items may be transmitted to the same addressee under the cover of one Form TD F 71-01.5. When the original and/or copies of the document are destroyed, the destruction certificate section of the form shall be completed to include the date and method of destruction and signed by the individuals accomplishing the destruction. Form TD F 71-01.5 may be destroyed three years after the date of the final disposition of the document.

(1) *Top Secret information.* Top Secret information shall be subject to a continuous receipt system regardless of how brief the period of custody. Treasury Form TD F 71-01.5 shall be used for this purpose. Top Secret accountability records shall be maintained by Top Secret Control Officers separately from the accountability records of other classified information.

(2) *Secret information.* Receipt on Treasury Form TD F 71-01.5 shall be required for transmission of Secret information between bureaus, offices and separate agencies. Responsible officials shall determine administrative procedures required for the internal control within the respective offices or bureaus. The volume of classified information handled and personnel resources available must be considered in determining the practical balance between security measures imposed and the attainment of operating efficiency.

(3) *Confidential information.* Receipts for Confidential information shall not be required unless the originator clearly indicates that receipting is necessary.

(e) *Restraint on reproduction.* Documents or portions of documents containing Top Secret information shall not be reproduced without the consent of the originating office and any reproduction so authorized must be appropriately controlled. The authority for reproduction shall be noted on the copy from which the reproduction is

made. The office reproducing Top Secret information shall place this information under top Secret control and shall maintain appropriate records to reflect the number of copies reproduced and shall observe all other requirements concerning the control of the distribution of such copies. The reproduction of Secret information shall be placed under the same control as the parent document. Confidential documents may be reproduced without permission of the originating official, office or department. However, all classified information shall be reproduced sparingly and any stated prohibition against reproduction shall be strictly adhered to. The number of copies of documents containing classified information shall be kept to the absolute minimum required to meet operational needs in order to decrease the risk of compromise, administrative burden and to reduce storage costs.

#### § 2.24 Storage.

Classified information shall be stored only in facilities or under conditions adequate to prevent unauthorized persons from gaining access to it (4-103).

(a) *Top Secret.* Top Secret information shall be stored in a GSA-approved, safe-type, steel file cabinet having a built-in, three-position, changeable dial-type combination lock or within an approved vault, or vault-type room, or in other storage facility that meets the standards for Top Secret established under the provisions of § 2.24(c). In addition, the designated security officer of each bureau or the Office of the Secretary shall prescribe such additional supplementary controls as are deemed appropriate to restrict unauthorized access to areas where such information is stored (4-103).

(b) *Secret and Confidential.* Secret and Confidential information shall be stored in a manner and under the conditions prescribed for Top Secret information, or in a container or vault that meets the standards for Secret or Confidential, established pursuant to the provisions of § 2.24 (c) and (d) (4-103).

(c) *Standards for security equipment.* The Directive requires the General Services Administration, in coordination with the Department, to establish and publish uniform standards, specifications, and supply schedules for containers, vaults, alarm systems, and associated security devices suitable for the storage and protection of all categories of classified information. The Department may, however, establish more stringent standards for its own use. Whenever new security equipment is procured, it shall be in conformance with the standards and specifications referred to above and

shall, to the maximum extent practicable, be of the type designated on the Federal Supply Schedule, General Services Administration (4-103).

(d) *Exception to standards for security equipment.* (1) Secret and Confidential information may also be stored in a steel filing cabinet having a built-in, three-position, dial-type, changeable combination lock, or a steel filing cabinet equipped with a steel lock bar, provided it is secured by a three-position, changeable, combination padlock approved by GSA for the purpose. The storage of Secret information in the steel filing cabinets described above requires the use of such supplementary controls as the designated security officer of each bureau or the Office of the Secretary deems necessary to achieve the degree of protection warranted by the sensitivity of the information involved (4-103).

(2) For protection of bulky Secret and Confidential material (for example, weaponry containing classified components) in magazines, strong rooms, or closed areas, access openings may be secured by changeable combination or key-operated, high-security padlocks approved by GSA. When key-operated padlocks are used, keys shall be controlled in accordance with § 2.24(f) (4-103).

(e) *Combinations.* (1) *Equipment in service.* Combinations to dial-type locks shall be changed only by persons having appropriate security clearance, and shall be changed whenever such equipment is placed in use, whenever a person knowing the combination no longer requires access to the combination, whenever a combination has been subjected to possible compromise, whenever the equipment is taken out of service, and at least once every year. Knowledge of combinations protecting classified information shall be limited to the minimum number of persons necessary for operating purposes. Records of combinations shall be classified no lower than the highest level of classified information to be stored in the security equipment concerned (4-103).

(2) *Safe combination records.* Combinations to equipment containing classified information shall be recorded on Treasury Form No. 4032 (Security Container Information). Such forms shall be completed in their entirety. Part 1 of the Form shall be posted on the interior of the top or locking drawer of the safekeeping equipment concerned. The names, addresses and home telephone numbers of personnel responsible for the combination and the classified information stored therein must be posted on Part 1 of the Form. Part II shall be properly completed, inserted in the envelope (Part III) provided and forwarded to the designated central repository for

safe combinations. Parts II and III shall show the appropriate classification marking.

(3) *Safe or cabinet security record.* Each piece of equipment used for the storage of classified information will have attached conspicuously to the outside a General Services Administration Optional Form 62 (Safe or Cabinet Security Record) on which an authorized employee will record the time and date each time they unlock or lock the security equipment, followed by their initials. In addition, at the close of each working day or when a security container is locked at times other than normal duty hours, the person locking the security container will be required to check it to insure that it is locked, and will record the time and date the security container was checked followed by their initials. The checking procedure stated above applies for each normal working day regardless of whether or not the security container was opened on that particular day. A security container will not be left unattended until it has been locked by an authorized person and checked by a second person. Additional safe security requirements are:

(i) Reversible "Open-Closed" signs, available through normal supply channels, shall be used as additional reminders on each security container used for the storage of classified information.

(ii) The tops of security containers shall be kept free of all extraneous matter.

(4) *Equipment out of service.* When security equipment having a built-in combination lock is taken out of service, the lock shall be reset to the standard combination 50-25-50. Combination padlocks shall be reset to the standard combination 10-20-30 (4-103).

(5) *Classified document cover sheets.* In order to alert personnel to the fact that a document or folder is classified and to protect it from unauthorized scrutiny, cover sheets, available through normal supply channels, will be used to cover classified documents when in use. Classified document cover sheets will be removed before classified information is filed. Classified document cover sheets will be removed from classified documents prior to transmission except when the transmission is made internally within a headquarters by courier, messenger or by personal contact.

(6) *Report of loss or compromise.* Any employee of the Department of the Treasury who has knowledge of the loss or possible compromise of classified information shall immediately report the circumstances to the appropriate bureau head or his designee who shall take appropriate action forthwith. In turn, the originating de-

partment and any other interested department shall be notified about such loss or possible compromise.

(7) *Inquiry.* If the loss or possible compromise occurs in any Treasury bureau, or the Office of the Secretary, the Assistant Secretary (Administration) shall be notified. He shall then direct an immediate inquiry to be conducted for the purpose of taking corrective measures and assessing damages. Based on the results of the inquiry, recommendations shall be made to the Assistant Secretary (Administration) as to the appropriate administrative, disciplinary, or legal action to be taken (4-103).

(f) *Keys.* The Office of the Secretary and all respective Treasury bureaus shall each individually establish administrative procedures for the control and accountability of keys and locks whenever key-operated, high-security padlocks are utilized. The level of protection provided such keys shall be equivalent to that afforded the classified information being protected. Under no circumstances may keys be removed from the premises. They shall be stored in a secure container (4-103).

(g) *Responsibilities of custodians.* Persons entrusted with classified information shall be responsible for providing protection and accountability for such information at all times and for locking classified information in approved security equipment whenever it is not in use or under the direct supervision of authorized persons. Custodians shall follow procedures that insure unauthorized persons do not gain access to classified information (4-103).

(h) *Inspections.* Individuals charged with the custody of classified information shall conduct the necessary inspections within their areas to insure adherence to procedural safeguards prescribed to protect classified information. Security officers shall insure that periodic inspections are made to determine whether procedural safeguards prescribed by these regulations are in effect at all times (4-103).

#### § 2.25 Transmittal.

(a) *General.* Classified information shall be transmitted between Treasury bureaus and buildings and outside the Department only in accordance with the requirements of these regulations. Classified information shall be enclosed in opaque inner and outer covers before transmitting. The inner cover shall be a sealed wrapper or envelope plainly marked with the assigned classification and addresses of both sender and addressee. The outer cover shall be sealed and addressed with no identification of the classification of its contents. A receipt shall be attached to or enclosed in the inner

cover. Confidential information shall require a receipt only if the sender deems it necessary. The receipt shall identify the sender, addressee, and the document, but shall contain no classified information. The receipt shall be immediately signed by the recipient and returned to the sender. Within the Main Treasury Building and within each separate bureau building, such information may be transmitted between offices by direct contact of the officials concerned in a single sealed opaque envelope with no security classification category being shown on the outside of the envelope. Classified information shall never be delivered to unoccupied rooms or offices (4-103).

(b) *Transmittal of Top Secret.* The transmittal of Top Secret information shall be by specifically designated personnel, by State Department diplomatic pouch, by a messenger-courier system specially created for that purpose, or over authorized secure communications circuits (4-103).

(c) *Transmittal of Secret.* The transmittal of Secret information shall be effected in the following manner:

(1) *The 50 States, District of Columbia, and Puerto Rico.* Secret information may be transmitted within and between the 50 States, District of Columbia, and Puerto Rico by one of the means authorized for Top Secret information, by the U.S. Postal Service registered mail, or by protective services provided by U.S. air or surface commercial carriers under such conditions as may be prescribed by the Secretary (4-103).

(2) *Canadian Government Installations.* Secret information may be transmitted to and between the United States Government and Canadian Government installations in the 50 States, the District of Columbia, and Canada by United States and Canadian registered mail with registered mail receipt (4-103).

(3) *Other areas.* Secret information may be transmitted from, to, or within areas other than those specified in (1) and (2) above by one of the means established for Top Secret information, or by U.S. registered mail through Army, Navy, or Air Force Postal Service Facilities provided that the information does not at any time pass out of U.S. citizen control and does not pass through a foreign postal system. Transmittal outside such areas may also be accomplished under escort of appropriately cleared personnel aboard U.S. Government and U.S. Government contract vehicles or aircraft, ships of the United States Navy, civil service manned U.S. Naval ships, and ships of U.S. Registry. Operators of vehicles, captains or masters of vessels, and pilots of aircraft who are U.S. citizens and who are appropriately

cleared may be designated as escorts (4-103).

(d) *Transmittal of Confidential information.* Confidential information shall be transmitted within and between the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and U.S. territories or possessions by one of the means established for higher classifications, or by U.S. Postal Service certified, first class, or express mail service. Outside these areas, Confidential information shall be transmitted only as is authorized for higher classifications (4-103).

(e) *Transmission by personnel in travel status.* For personnel in travel status, see Treasury Directive TD 71-10.A.

#### § 2.25 Telecommunications transmissions.

Classified information shall not be communicated by telecommunications transmission, except as may be authorized by these regulations with respect to the transmission of classified information over authorized secure communications circuits or systems.

#### § 2.27 Destruction.

(a) *Methods of destruction.* When information classified under the authority of the Order is to be destroyed, destruction shall be by burning, mulching, or shredding in the presence of an individual or individuals specifically designated by the appropriate bureau head.

(b) *Approval of use of mulching and shredding machines.* Prior to a bureau obtaining a mulching or shredding machine, the Office of Administrative Programs, Assistant Director (Physical Security) shall approve the use of such a machine.

(c) *Destruction by burning.* Any classified information to be destroyed by burning shall be torn and placed in containers designated as burnbags and shall be clearly and distinctly labeled "Burn." Burnbags awaiting destruction shall be protected by security safeguards commensurate with the classification or control designation of the information involved.

(d) *Records of destruction.* Each bureau head shall insure that appropriate accountability records are maintained for his bureau to reflect the destruction of classified national security information.

(e) *Destruction of nonrecord information.* Nonrecord classified information such as extra copies and duplicates, including shorthand notes, preliminary drafts, used carbon paper and other material of similar temporary nature, shall also be destroyed by burning, mulching, or shredding as soon as it has served its purpose, but no records of such destruction need be maintained.

### Subpart E—Implementation and Review

#### § 2.28 Departmental Committee on National Security.

There is hereby established a Departmental Committee on National Security Information whose membership shall be comprised of the Assistant Secretary (Administration) who shall serve as chairman and such other officials as shall be designated by a Treasury Department Order. The functions of the Committee include:

(a) The review of all appeals under these regulations from decisions not to declassify documents, except with respect to documents over which the Secretary has extended their classification to more than 20 years;

(b) The review of suggestions and complaints regarding the administration of these regulations;

(c) The responsibility for establishing the Department's policies with respect to the enforcement of the Order, the Directive and these regulations.

#### § 2.29 Departmental Administration.

(a) The Assistant Secretary (Administration) shall enforce the Order, the Directive and these regulations, and establish, coordinate and maintain active training, orientation and inspection programs for employees concerned with classified information.

(b) The Assistant Secretary (Administration) shall establish and maintain a Data Index System control file for all national security information originally classified within the Department.

#### § 2.30 Bureau administration.

Each bureau head and the Office of the Secretary shall designate a security officer and an official to coordinate and supervise the activities applicable to that bureau to maintain the programs of training, orientation, and inspection established by the Office of Administrative Programs, Assistant Director (Physical Security) and to carry out related activities of the Order.

#### § 2.31 Briefing of employees.

All new employees concerned with classified information shall be afforded a security briefing regarding the Order, the Directive and these regulations. Employees concerned with classified information pertaining to intelligence sources, methods, operations, or plans shall be required to read and sign a Security Agreement. All new employees afforded a security briefing shall be provided with copies of applicable laws and pertinent security regulations setting forth the procedures for the protection and disclosure of classified information. All employees

concerned with classified information shall receive periodic reorientation briefings during their employment which are designed to impress upon them their responsibility for exercising care and vigilance in complying with the provisions of the Order, the Directive and implementing regulations.

#### § 2.32 Debriefing of employees.

Any person possessing a security clearance, at any level of employment and without exception, when terminating employment or contemplating temporary separation for a sixty-day period or more, shall be debriefed concerning their continued responsibility to safeguard classified information, and reminded that civil and criminal penalties (including civil service and Departmental disciplinary procedures) are applicable to the violation of these regulations.

#### § 2.33 Applicability.

(a) Any individual, at any level of employment, determined to have been responsible for any unauthorized release or disclosure of national security information shall be notified that his/her action is in violation of the Order, the implementing Information Security Oversight Office Directive, or these regulations. In addition, he/she shall be subject to prompt and stringent action including, as appropriate in the particular case, a warning notice, formal reprimand, suspension without pay, or dismissal, in accordance with applicable personnel rules, regulations and procedures. Where a violation of criminal statutes may be involved, any such case shall be promptly referred to the Department of Justice.

(b) Repeated abuse of the classification process, either by unnecessary or over-classification, or repeated failure, neglect or disregard of established requirements for safeguarding classified information by any officer or employee shall be grounds for appropriate adverse or disciplinary action. Such action may include a warning notice, formal administrative reprimand, suspension without pay, or dismissal, as appropriate in the particular case, in accordance with applicable personnel rules, regulations and procedures.

#### § 2.34 Disciplinary action.

After an affirmative adjudication of a security violation and as the occasion demands, reports of accountable security violations may be placed in the employee's official personnel folder and security file. The security official of the bureau or office concerned shall recommend to the respective management official or bureau head that disciplinary action be taken when such action is indicated. However,

er, should circumstances warrant, the Department may take action under provisions of these regulations, the Order, any implementing Information Security Oversight Office Directives, Executive Order 10450, as amended, or any superseding applicable Executive Order.

#### § 2.35 Challenges to classification.

Holders of classified information are encouraged to challenge classification in cases where there is reasonable cause to believe that information is classified unnecessarily, improperly, or for an inappropriate period of time. Such challenges or appeals relating thereto shall be acted on within 30 days of receipt and the challenger notified of the results. When requested, anonymity of the challenger shall be preserved (5-404(d)).

### Subpart F—General Provisions

#### § 2.36 Notification.

Notification of unscheduled changes in classification or changes in duration of classification may be by general rather than specific notice (4-102).

#### § 2.37 Posted notice.

If prompt re-marking of large quantities of information would be unduly burdensome, the custodian may attach a change of classification notice to the storage unit in lieu of the marking action otherwise required. Each notice shall indicate the change, the authority for the action, the date of the action, and the storage units to which it applies. Items permanently withdrawn from such storage units shall be marked promptly in accordance with the marking provisions herein. However, when information subject to a posted downgrading, upgrading, or declassification notice is withdrawn from one storage unit solely for transfer to another, or a storage unit containing such information is transferred from one place to another, the transfer may be made without marking if the notice is attached to or remains with each shipment (4-102).

Effective date: December 1, 1978.

Dated: December 22, 1978.

W. MICHAEL BLUMENTHAL,  
Secretary of the Treasury.

### Title 33—Navigation and Navigable Waters

## CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77-41]

### PART 110—ANCHORAGE REGULATIONS

Anchorage Grounds San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, California

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment will change the designation of Anchorage No. 8 [33 CFR 110.224(a)(6)(i)] from a "Temporary" anchorage to a "General" anchorage and delete the reference to "the Explosive Anchorage 13 Buoy EX" in Explosive Anchorage No. 13 [33 CFR 110.224(a)(10)(i)]. Restricted use of Anchorage No. 8 is no longer desired. The purpose for Explosive Anchorage 13 Buoy EX is obsolete. These changes to the regulations will allow more efficient use of Anchorage No. 8 and provide safer operation in Anchorage No. 13.

DATES: This amendment is effective December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Lieutenant Commander Howard E. Snow, Office of Marine Environment and Systems (G-WLE/73), Room 7315, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590 (202) 426-1934.

SUPPLEMENTARY INFORMATION: This amendment deletes reference to a buoy which will be removed, and thus is a purely editorial change. The other part of this amendment removes restrictions on anchoring from an anchorage where formerly only short term anchoring was permitted and redesignates it as a general anchorage. It is not anticipated that any substantive public comment would be received. Therefore, publication as a notice is unnecessary and contrary to the public interest. The regulation may be made effective in less than 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553).

DRAFTING INFORMATION: The principal persons involved in drafting this proposal are Lieutenant Commander H. E. Snow, Project Manager, Office of Marine Environment and Systems, and Lieutenant G. S. Karavi-

tis, Project Attorney, Office of the Chief Counsel.

#### DISCUSSION OF REGULATIONS

This proposal will eliminate the present restrictions of intentions and time limit on vessels using Anchorage No. 8 by changing the designation of the anchorage from a "Temporary" to a "General" anchorage. The original rule contained these restrictions as requested by the U.S. Navy Pilots operating in the area. The Commandant of the Twelfth Naval District has indicated that the need for these restrictions no longer exists. Designating Anchorage No. 8 as a general anchorage will allow more efficient use of the anchorage.

It has been determined by the Bar and Inland Pilots and Commander, Twelfth Coast Guard District that Buoy EX which marks the center of Explosive Anchorage No. 13 serves no current useful purpose to the mariner and is now considered a potential hazard to navigation for the Larkspur Ferry on its run up to Corte Madera Creek. Present users of this anchorage have adequate personnel and navigation equipment to ensure, without the aid of a buoy, that they are positioned within the limits of the anchorage. The San Francisco Vessel Traffic Service (VTS) further assures that any vessel using the anchorage is properly located. Elimination of Buoy EX will increase the safety of navigation in this area.

An Environmental Assessment was completed in October 1978 which determined that there would be no impact on the quality of the human environment.

This regulation has been reviewed under DOT Notice 78-1 "Improving Government Regulations" (43 FR 4582) and a Final Evaluation has been prepared and is available for public inspection at the Project Manager and Commander, Twelfth Coast Guard District addresses indicated above.

In consideration of the foregoing Part 110 of Title 33 is amended as follows:

1. By amending § 110.224(a)(6) to read as follows:

§ 110.224 San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, California.

(a) . . .

(6) Anchorage No. 8, General Anchorage. (1) In San Francisco Bay bounded by the westerly shore of the Naval Air Station, Alameda, and the following lines: Beginning at Oakland Inner Harbor Light 2 at latitude 37°47'52", longitude 122°19'54"; thence west northwesterly to latitude 37°48'03"; longitude 122°20'57.5"; thence south southwesterly to latitude

37°47'56", longitude 122°21'22.5"; thence southwesterly to latitude 37°47'26", longitude 122°21'41"; thence south southeasterly to latitude 37°47'00", longitude 122°21'30"; then southeasterly to the Alameda Naval Air Station Channel Lighted Bell Buoy 1 at latitude 37°46'38", longitude 122°20'24"; thence easterly to latitude 37°46'37", longitude 122°19'56"; thence northerly to the shore of the Naval Air Station, Alameda, at latitude 37°46'57", longitude 122°19'52.5".

(ii)(a) No vessel anchored in this anchorage may project into the San Francisco Bay South Channel.

2. By amending § 110.224(a)(10) to read as follows:

§ 110.224 San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, California.

(a) . . .

(10) Anchorage No. 13, Explosives Anchorage (Temporary General).

(1) In San Francisco Bay east of the Tiburon Peninsula a circular area having a radius of 333 yards centered at latitude 37°55'26", longitude 122°27'27".

(Sec. 7, 38 Stat. 1053, as amended, (33 U.S.C. 471); Sec. 6(g)(1), 80 Stat. 940, (49 U.S.C. 1655(g)(1)); 49 CFR 1.46 (c)(1)).

Dated: December 1, 1978.

J. B. HAYES,

Admiral,

U.S. Coast Guard Commandant.

#### PART 162—INLAND WATERWAYS NAVIGATION REGULATIONS

##### Editorial Corrections

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: These amendments update the Inland Waterways Navigation Regulations by eliminating the regulations for the Coast Guard Seaplane Operating Area in Biscayne Bay, Florida, since this area is no longer used; and by correcting the identity of the Captain of the Port having jurisdiction in Tongass Narrows, Alaska, since this was incorrectly listed in the original publication of the regulations.

EFFECTIVE DATE: December 28, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Lieutenant (Junior Grade) George W. Molessa, Jr., Office of Marine Environment and Systems (G-WLE-4/73), Room 7315, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590 (202) 426-4958.

#### SUPPLEMENTARY INFORMATION:

Since the amendments in this document are simply editorial or administrative, the Coast Guard finds for good cause under 5 U.S.C. 553 (b) and (d) that notice and public procedure are unnecessary and that these amendments may be made effective in less than 30 days after publication in the FEDERAL REGISTER. These amendments have been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis and Review of Regulations" (43 FR 9582, March 8, 1978). A final evaluation has been prepared, and has been included in the public docket.

#### DRAFTING INFORMATION

The principal persons involved in the drafting of this document are: Lieutenant (Junior Grade) George W. Molessa, Jr., Project Manager, Office of Marine Environment and Systems, and Mr. Edward J. Gill, Jr., Project Attorney, Office of the Chief Counsel.

Accordingly, Part 162 of Title 33 of the Code of Federal Regulations is amended as follows:

1. By deleting § 162.70.  
2. By revising § 162.240(d) to read as follows:

§ 162.240 Tongass Narrows, Alaska; navigation.

(d) No vessel shall moor or anchor to any structure of the United States other than mooring piers, wharves, and floats without the consent of the Captain of the Port, Southeast Alaska. The office of the Captain of the Port, Southeast Alaska, is located in Juneau, Alaska.

(33 U.S.C. 1231; 49 CFR 1.46(n)(4).)

Dated: December 21, 1978.

J. B. HAYES,

Admiral, U.S. Coast Guard

Commandant.

#### Title 38—Pensions, Bonuses and Veterans' Relief

#### CHAPTER I—VETERANS ADMINISTRATION

#### PART 36—LOAN GUARANTY

##### Loans for Conventionally Built Homes

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: The VA (Veterans Administration) is amending its regulations applicable to the guaranteed and direct loan programs for conventionally built homes. These amendments increase the loan guaranty entitlement, clarify the eligibility requirements for veterans who served in more than one period of service, reflect VA compliance with the Equal Credit Opportunity Act, and make minor editorial changes. The amendments are for the primary purpose of implementing the Veterans' Housing Benefits Act of 1978.

EFFECTIVE DATE: October 1, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Mr. George D. Moerman, Assistant Director for Loan Policy (264), Loan Guaranty Service, Veterans Administration, Washington, D.C. 20420, 202-389-3042.

SUPPLEMENTARY INFORMATION: The Veterans' Housing Benefits Act of 1978, Pub. L. 95-476 (92 Stat. 1497) revised chapter 37 of title 38, United States Code, as it relates to both guaranteed and direct loans. The new law thus requires substantial modification of the § 36.4300 series of VA Regulations which govern guaranty of loans made for the purpose of purchasing or improving a conventionally built home, and the § 36.4500 series of VA Regulations which govern direct loans made by the VA for the same purpose.

The Administrator is now authorized to guarantee 60 percent of the principal amount of a home loan not to exceed \$25,000. Previously, guaranty for home loans had been limited to \$17,500. The amendments to §§ 36.4302 (a), (c), 36.4306(a), 36.4502, and 36.4503(a) implement this provision.

The Act also reduces the active duty service requirements for veterans of the Vietnam era. Any veteran who served 90 days or more on active duty, at least 1 day of which was during the period August 5, 1964, through May 7, 1975, is eligible for loan guaranty benefits. Previously, Vietnam era veterans were required to serve more than 180 days of continuous active duty to be eligible for home loan guaranty benefits. Loan guaranty eligibil-

ity requirements are stated in sections 1802, 1807, and 1818 of title 38, United States Code, and are not restated in the loan guaranty regulations. However, the statutory amendment deleting Vietnam eligibility from section 1818, title 38, United States Code, and inserting it into section 1802, title 38, United States Code, has required a clarifying amendment to § 36.4303(g) pertaining to veterans who served in more than one period of service.

The VA is amending § 36.4301(ii) to reflect the change in the definition of the term "discharge or release." This amendment was mandated by Public Law 95-126 (38 U.S.C. 101(18)).

Section 36.4509 is amended to reflect VA compliance with the Equal Credit Opportunity Act (Pub. L. 93-495, 88 Stat 1521; Pub. L. 94-239, 90 Stat 251).

Minor editorial changes have been made to §§ 36.4342(b) and 36.4520(b) to revise the titles of certain positions and to §§ 36.4302(i), 36.4303 (g) and (j), 36.4519(a), and 36.4520(c) to reflect the agency policy of using precise terms to denote gender. In addition, a minor editorial change has been made to § 36.4303(f) to delete reference to an obsolete procedure.

Compliance with the provisions of § 1.12 of this chapter which requires publication of proposed regulations prior to final adoption is waived in this instance. The substantive changes implement statutory mandates. Those changes not required by statute are editorial rather than substantive. Compliance with § 1.12 would serve little purpose and would not be in the public interest as it would delay implementation of a statute that liberalizes benefits.

The amendments are adopted under authority granted to the Administrator by sections 210(c) and 1803(c)(1) of title 38, United States Code.

Approved: December 20, 1978.

By direction of the Administrator.

RUFUS H. WILSON,  
Deputy Administrator.

1. In § 36.4301, paragraph (ii) is revised to read as follows:

§ 36.4301 Definitions.

(ii) *Discharge or release.* For purposes of basic eligibility a person will be considered discharged or released if the veteran was issued a discharge certificate under conditions other than dishonorable (38 U.S.C. 1802(c)). The term "discharge or release" includes (1) retirement from the active military, naval, or air service, and (2) the satisfactory completion of the period of active military, naval, or air service for which a person was obligated at the time of entry into such service in the case of a person who, due to enlist-

ment or reenlistment, was not awarded a discharge or release from such period of service at the time of such completion thereof and who, at such time, would otherwise have been eligible for the award of a discharge or release under conditions other than dishonorable. (38 U.S.C. 101(18))

2. In § 36.4302, paragraphs (a), (c) and (i) are revised to read as follows:

§ 36.4302 Computation of guaranties or insurance credits.

(a) In respect to a loan to a veteran made under 38 U.S.C. 1810 the guaranty may not exceed sixty (60) percent of the original principal amount or \$25,000, whichever is less. (38 U.S.C. 1803(a), 1810(c))

(c) Subject to the provisions of paragraph (g) of § 36.4303, the following formulas shall govern the ascertainment of the amount of the guaranty or insurance entitlement which remains available to an eligible veteran after prior use of entitlement: (1) If a veteran previously secured a nonrealty (business) loan, the amount of nonrealty entitlement used is doubled and subtracted from \$25,000. The sum remaining is the amount of available entitlement for use, except that entitlement for mobile home loan purposes may not exceed \$17,500.

(2) If a veteran previously secured a realty (home) loan, the amount of realty (home) loan entitlement used is subtracted from \$25,000. The sum remaining is the amount of available entitlement for use, except that entitlement for mobile home loan purposes may not exceed \$17,500.

(3) If a veteran previously secured a mobile home loan, the amount of entitlement used for mobile home loan purposes is subtracted from \$25,000. The sum remaining is the amount of available entitlement for home loan purposes only. To determine the amount of entitlement available for mobile home purposes, the amount of entitlement previously used for mobile home purposes is subtracted from \$17,500. The sum remaining is the amount of available entitlement for use for mobile loan purposes. (38 U.S.C. 1810(c), 1819(c)(4))

(i) The amount of guaranty entitlement, available and unused, of an eligible unmarried surviving spouse (whose eligibility does not result from his or her own service) is determinable in the same manner as in the case of any veteran, and any entitlement which the decedent (who was his or her spouse) used shall be disregarded. A certificate as to the eligibility of such surviving spouse, issued by the

Administrator, shall be a condition precedent to the guaranty or insurance of any loan made to a surviving spouse in such capacity. (38 U.S.C. 1801(a))

3. Section 36.4303 is amended as follows:

(a) By deleting the words "his receiving" and inserting "the veteran's receipt of" in paragraph (j)(4).

(b) By revising paragraphs (f) and (g) to read as follows:

**§ 36.4303 Reporting requirements.**

(f) Evidence of a guaranty will be issued by the Administrator by appropriate endorsement on the note or other instrument evidencing the obligation, or by a separate certificate at the option of the lender. Notice of credit to an insurance account will be given to the lender. Unused certificates of eligibility issued prior to March 1, 1946, are void. No certificate of commitment shall be issued and no loan shall be guaranteed or insured unless the lender, the veteran, and the loan are shown to be eligible; nor shall guaranty or insurance evidence be issued on any loan for the purchase or construction of residential property, or for the alteration, improvement or repair thereof, if the application of the veteran to a lender for such loan was made on or after September 15, 1956, unless the Administrator determines that there has been compliance by the veteran with the certification requirements of 38 U.S.C. 1804(c). (38 U.S.C. 1802(c), 1804(c))

(g) Subject to compliance with the regulations concerning guaranty or insurance of loans to veterans, the certificate of guaranty or the evidence of insurance credit will be issuable within the available entitlement of the veteran on the basis of the loan stated in the final loan report or certification of loan disbursement. The available entitlement of a veteran will be determined by the Administrator as of the date of receipt of an application for guaranty or insurance of a loan or of a loan report. Such date of receipt shall be the date the application or loan report is date stamped into the Veterans Administration. Eligibility derived from the most recent period of service.

(1) Shall cancel any unused entitlement derived from any earlier period of service, and

(2) Shall be reduced by the amount by which entitlement from service during any earlier period has been used to obtain a direct, guaranteed, or insured loan.

(i) On property which the veteran owns at the time of application, or

(ii) As to which the Administrator has incurred actual liability or loss, unless in the event of loss or the incur-

rence and payment of such liability by the Administrator the resulting indebtedness of the veteran to the United States has been paid in full.

*Provided*, That if the Administrator issues or has issued a certificate of commitment covering the loan described in the application for guaranty or insurance or in the loan report, the amount and percentage of guaranty or the amount of the insurance credit contemplated by the certificate of commitment shall not be subject to reduction if the loan has been or is closed on a date which is not later than the expiration date of the certificate of commitment, notwithstanding that the Administrator in the meantime and prior to the issuance of the evidence of guaranty or insurance shall have incurred actual liability or loss on a direct, guaranteed, or insured loan previously obtained by the borrower. For the purposes of this paragraph, the Administrator will be deemed to have incurred actual loss on a guaranteed or insured loan if the Administrator has paid a guaranty or insurance claim thereon and the veteran's resultant indebtedness to the Government has not been paid in full, and to have incurred actual liability on a guaranteed or insured loan if the Administrator is in receipt of a claim on the guaranty or insurance or is in receipt of a notice of default. In the case of a direct loan, the Administrator will be deemed to have incurred an actual loss if the loan is in default. A loan, the proceeds of which are to be disbursed progressively or at intervals, will be deemed to have been closed for the purposes of this paragraph if the loan has been completed in all respects excepting the actual "pay-out" of the entire loan proceeds. (38 U.S.C. 1802(a), 1810(c))

4. In § 36.4306, the introductory portion of paragraph (a) preceding subparagraph (1) is revised to read as follows:

**§ 36.4306 Refinancing of mortgage or other lien indebtedness.**

(a) Except as provided in paragraph (e) of this section any loan for the purpose of refinancing an existing mortgage loan or other indebtedness secured by a lien of record on a dwelling or farm residence owned and occupied by an eligible veteran as the veteran's home shall be submitted to the Administrator for prior approval. A loan for such purpose shall be eligible for guaranty in an amount not to exceed sixty (60) percent of the loan amount or \$25,000, whichever is less, provided that—(38 U.S.C. 1810(c))

5. In § 36.4342, paragraph (b) is revised to read as follows:

**§ 36.4342 Delegation of authority.**

(b) Designated positions:

Chief Benefits Director  
Director, Loan Guaranty Service  
Director, Medical and Regional Office Center  
Director, VA Center  
Director, Regional Office  
Loan Guaranty Officer  
Assistant Loan Guaranty Officer

The authority hereby delegated to employees of the positions designated in this paragraph may, with the approval of the Chief Benefits Director, be redelegated.

6. Section 36.4502 is revised to read as follows:

**§ 36.4502 Use of guaranty entitlement.**

The guaranty entitlement of the veteran obtaining a direct loan which is closed on or after October 1, 1978, shall be charged with an amount which bears the same ratio to \$25,000 as the amount of the loan bears to \$33,000. The charge against the entitlement of a veteran who obtained a direct loan which was closed prior to the aforesaid date, shall be the amount which would have been charged had the loan been closed subsequent to such date. (38 U.S.C. 1811(d)(2)(A))

7. In § 36.4503, paragraph (a) is revised to read as follows:

**§ 36.4503 Amount and amortization.**

(a) The original principal amount of any loan made on or after October 1, 1978, shall not exceed an amount which bears the same ratio to \$33,000 as the amount of the guaranty to which the veteran is entitled under 38 U.S.C. 1810 at the time the loan is made bears to \$25,000. This limitation shall not preclude the making of advances, otherwise proper, subsequent to the making of the loan pursuant to the provisions of § 36.4511. Loans made by the Veterans Administration shall bear interest at the rate of 9% percent per annum. (38 U.S.C. 1811(d)(1) and (2)(A))

8. Section 36.4509 is revised to read as follows:

**§ 36.4509 Joint loans.**

(a) No loan will be made unless an eligible veteran is the sole principal obligor, or such veteran and spouse or eligible veteran co-applicant are the principal obligors thereon, nor unless

such veteran alone, or together with a spouse or eligible veteran co-applicant, acquire the entire fee simple or other permissible estate in the realty for the acquisition of which the loan was obtained. Nothing in this section shall preclude other parties from becoming liable as comaker, endorser, guarantor, or surety.

(b) Notwithstanding that an applicant and spouse or other co-applicant are both eligible veterans and will be jointly and severally liable as borrowers, the original principal amount of the loan may not exceed the maximum permissible under § 36.4503(a). In any event the loan may not exceed \$33,000. (38 U.S.C. 1811(d)(2)(A) and (3))

9. In § 36.4519, paragraph (a) is revised to read as follows:

**§ 36.4519 Eligible purposes and reasonable value requirements.**

(a) A loan may be made only for the purpose hereinafter set forth in this paragraph, and the loan may not exceed the reasonable value of the property as established by the Veterans Administration:

(1) To purchase or construct a dwelling to be owned and occupied by the veteran as a home;

(2) To purchase a farm on which there is a farm residence to be occupied by the veteran as a home;

(3) To construct on land owned by the veteran a farm residence to be occupied by the veteran as a home;

(4) To repair, alter, or improve a farm residence or other dwelling owned and occupied by the veteran as his or her home;

*Provided*, The veteran certifies, in such form as the Administrator may prescribe, that he or she has paid in cash from his or her own resources on account of such purchase, construction, alteration, repair, or improvement a sum equal to the difference, if any, between the purchase price or cost of the property and its reasonable value.

10. In § 36.4520, paragraphs (b) and (c) are revised to read as follows:

**§ 36.4520 Delegation of authority.**

(b) Designated positions:

Chief Benefits Director  
Director, Loan Guaranty Service  
Director, Medical and Regional Office Center  
Director, VA Center

Director, Regional Office  
Loan Guaranty Officer  
Assistant Loan Guaranty Officer

The authority hereby delegated to employees of the positions designated in this paragraph may, with the approval of the Chief Benefits Director, be redelegated.

(c) Nothing in this section shall be construed to authorize any such employee to exercise the authority vested in the Administrator under 38 U.S.C. 210(c) or 1815(b) or to sue or enter appearance for and on behalf of the Administrator or confess judgment against the Administrator in any court without the Administrator's prior authorization.

**Title 40—Protection of the Environment**

**CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY**

[FRL 1010-3]

**PART 65—DELAYED COMPLIANCE ORDERS**

**Delayed Compliance Order for the U.S. Naval Station, Mayport, Florida**

AGENCY: Environmental Protection Agency.

ACTION: Final Rule.

SUMMARY: The Administrator of EPA hereby issues a Delayed Compliance Order (DCO) to the U.S. Naval Station (NS). The DCO requires the NS to bring air emissions from its classified waste incinerator into compliance with certain regulations contained in the federally-approved Florida State Implementation Plan (SIP). The U.S. Naval Station's compliance with the DCO will preclude suits under the federal enforcement and citizen suit provisions of the Clean Air Act for violation(s) of the SIP regulations covered by the DCO during the period the DCO is in effect.

DATES: This rule takes effect on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Wayne Aronson, Air Enforcement Branch, Enforcement Division, EPA, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308, telephone number: 404/881-4253.

ADDRESSES: The Delayed Compliance Order, supporting material, and any comments received in response to

a prior FEDERAL REGISTER notice proposing issuance of the DCO are available for public inspection and copying during normal business hours at: Air Enforcement Branch (3rd Floor), EPA, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308.

SUPPLEMENTARY INFORMATION: On August 10, 1978, the Regional Administrator of EPA's Region IV Office published in the FEDERAL REGISTER, (43 FR 35506), a notice setting out the provisions of a proposed Delayed Compliance Order for the U.S. Naval Station. The notice asked for public comments and offered the opportunity to request a public hearing on the proposed DCO. No comments or requests for a public hearing were received during the 30-day period provided in the informal proposed rulemaking procedure.

Therefore, a Delayed Compliance Order effective this date is issued to the U.S. Naval Station by the Administrator of EPA pursuant to the authority of Section 113(d)(1) of the Clean Air Act, 42 U.S.C. 7413(d)(1). The DCO places the NS on a schedule to bring its classified material incinerator located in Mayport, Florida, into compliance as expeditiously as practicable with Chapter 17-2.64(6)(a)2a, Air Pollution Rules for the State of Florida, a part of the federally-approved Florida State Implementation Plan. The DCO also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the DCO are met, it will permit the U.S. Naval Station's classified waste incinerator to delay compliance with the SIP regulations covered by the DCO until July 1, 1979. The NS is unable to immediately comply with these regulations.

EPA has determined that the Order shall be effective upon publication of this notice because of the need to immediately place the U.S. Naval Station on a schedule for compliance with the applicable requirement(s) of the Florida State Implementation Plan.

(42 U.S.C. 7413(d), 7601)

Dated: December 14, 1978.

DOUGLAS M. COSTLE,  
Administrator.

In consideration of the foregoing, Chapter 1 of Title 40 of the Code of Federal Regulations is amended as follows:

**PART 65—DELAYED COMPLIANCE ORDERS**

1. By adding an entry to the table in § 65.140 to read as follows:

§ 65.140 Federal Delayed Compliance Orders issued under Section 113(d)(1), (3), and (4) of the Act.

[FRL 1023-5]

PART 65—DELAYED COMPLIANCE ORDERS

Delayed Compliance Order for Gold Bond Building Products, Newark, Ohio

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: By this rule, the Administrator of U.S. EPA approves a Delayed Compliance Order to Gold Bond Building Products. The Order requires the company to bring air emissions from its tectum manufacturing process at Newark, Ohio, into compliance with certain regulations contained in the federally-approved Ohio State Implementation Plan (SIP). Gold Bond Building Products' compliance with the Order will preclude suits under the Federal enforcement and citizen suit provisions of the Clean Air Act (Act) for violation of the SIP regulations covered by the Order.

DATE: This rule takes effect on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Anne Swofford, Attorney, United States Environmental Protection Agency, Region V, Enforcement Division, 230 South Dearborn Street, Chicago, Illinois 60604, Telephone (312) 353-2082.

SUPPLEMENTARY INFORMATION: On August 18, 1978, the Acting Regional Administrator of U.S. EPA's Region V Office published in the FEDERAL REGISTER (43 FR 36651) a notice

setting out the provisions of a proposed State Delayed Compliance Order for Gold Bond Building Products. The notice asked for public comments and offered the opportunity to request a public hearing on the proposed Order. No public comments and no request for a public hearing were received in response to the notice.

Therefore, a Delayed Compliance Order effective this date is approved to Gold Bond Building Products by the Administrator of U.S. EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places Gold Bond Building Products on a schedule to bring its tectum manufacturing process at Newark, Ohio, into compliance as expeditiously as practicable with Regulation OAC 3745-17-07 and OAC 3745-17-11, part of the federally-approved Ohio State Implementation Plan. Gold Bond Building Products is unable to immediately comply with these regulations. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit Gold Bond Building Products to delay compliance with the SIP regulations covered by the Order until June 30, 1978.

Compliance with the Order by Gold Bond Building Products will preclude Federal enforcement action under Section 113 of the Act for violation of the SIP regulations covered by the Order. Citizen suits under Section 304 of the Act to enforce against the source are similarly precluded. Enforcement may be initiated, however, for violations of the terms of the Order, and for violations of the regulations covered by the

Order which occurred before the Order was issued by U.S. EPA or after the Order is terminated. If the Administrator determines that Gold Bond Building Products is in violation of a requirement contained in the Order, one or more of the actions required by Section 113(d)(9) of the Act will be initiated. Publication of this notice of final rulemaking constitutes final Agency action for the purpose of judicial review under Section 307(b) of the Act.

U.S. EPA has determined that the Order shall be effective upon publication of this notice because of the need to immediately place Gold Bond Building Products on a schedule for compliance with the Ohio State Implementation Plan.

(42 U.S.C. 7413(d), 7601)

Dated: December 18, 1978.

DOUGLAS M. COSTLE,  
Administrator.

In consideration of the foregoing, Chapter I of Title 40 of the Code of Federal Regulations is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By adding an entry to the table in § 65.401 to read as follows:

§ 65.401 U.S. EPA Approval of State Delayed Compliance Orders issued to major stationary sources.

The State Orders identified below have been approved by the Administrator in accordance with Section 113(d)(2) of the Act and with this Part. With regard to each Order, the Administrator has made all the determinations and findings which are necessary for approval of the Order under Section 113(d) of the Act.

PART 65—DELAYED COMPLIANCE ORDERS

Delayed Compliance Order for Defense Logistics Agency, Defense Construction Supply Center

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: By this rule, the Administrator of U.S. EPA issues a Delayed Compliance Order to Defense Logistics Agency, Defense Construction Supply Center (Defense Logistics Agency). The Order requires the facility to bring air emissions from three boilers at Columbus, Ohio, into compliance with certain regulations contained in the federally approved Ohio State Implementation Plan (SIP). The Defense Logistics Agency's compliance with the Order will preclude suits under the Federal enforcement and citizen suit provisions of the Clean Air Act for violation of the SIP regulations covered in the Order.

DATES: This rule takes effect on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Louise C. Gross, Attorney, United States Environmental Protection Agency, Region V, Enforcement Division, 230 South Dearborn Street, Chicago, Illinois 60604, Telephone (312) 353-2082.

[6560-01-M]

PART 65—DELAYED COMPLIANCE ORDERS

Delayed Compliance Order for WSC Corporation, Chicago, Illinois

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: By this rule, the Administrator of U.S. EPA issues a Delayed Compliance Order to WSC Corporation. The Order requires the Company to bring air emissions from its coke ovens and basic oxygen process shop at Chicago, Illinois, into compliance with certain regulations contained in the federally approved Illinois State

SUPPLEMENTARY INFORMATION: On September 8, 1978, the Acting Regional Administrator of U.S. EPA's Region V Office published in the FEDERAL REGISTER (42 FR 4004) a notice setting out the provisions of a proposed Federal Delayed Compliance Order for the Defense Logistics Agency.

The notice asked for public comments and offered the opportunity to request a public hearing on the proposed Order. No public comments or request for a public hearing were received in response to the proposed notice.

Therefore, a Delayed Compliance Order effective this date is issued to the Defense Logistics Agency by the Administrator of U.S. EPA pursuant to the authority of Section 113(d)(1) of the Clean Air Act, 42 U.S.C. 7413(d)(1). The Order places the Defense Logistics Agency on a schedule to bring its three boilers at Columbus, Ohio, into compliance as expeditiously as practicable with Regulation AP-3-11, a part of the federally approved Ohio State Implementation Plan. The Defense Logistics Agency is unable to immediately comply with this regulation. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit the Defense Logistics Agency to delay compliance with the SIP regulation covered by the Order until March 31, 1979.

Compliance with the Order by the Defense Logistics Agency will preclude Federal enforcement action under Section 113 of the Act for violations of

Implementation Plan (SIP). WSC Corporation's compliance with the Order will preclude suits under the Federal enforcement and citizen suit provisions of the Clean Air Act (the Act) for violations of the SIP regulations covered in the Order.

DATES: This rule takes effect on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Peter Kelly, Attorney, United States Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, Telephone (312) 353-2082.

SUPPLEMENTARY INFORMATION: On May 30, 1978, the Acting Regional Administrator of U.S. EPA's Region V Office published in the FEDERAL REGIS-

the SIP regulations covered by the Order. Citizen suits under Section 304 of the Act to enforce against the source are similarly precluded. Enforcement may be initiated, however, for violations of the terms of the Order, and for violations of the regulation covered by the Order which occurred before the Order was issued by U.S. EPA or after the Order is terminated. If the Administrator determines that the Defense Logistics Agency is in violation of a requirement contained in the Order, one or more of the actions required by Section 113(d)(9) of the Act will be initiated. Publication of this notice of final rulemaking constitutes final Agency action for the purposes of judicial review under Section 307(b) of the Act. U.S. EPA has determined that the Order shall be effective upon publication of this notice because of the need to immediately place the Defense Logistics Agency on a schedule for compliance with the Ohio State Implementation Plan.

(42 U.S.C. 7413(d) 7601)

Dated: December 19, 1978.

DOUGLAS M. COSTLE,  
Administrator.

In consideration of the foregoing, Chapter I of Title 40 of the Code of Federal Regulations is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By adding an entry to the table in Section 65.400 to read as follows:

§ 65.400 Federal Delayed Compliance Orders issued under Section 113(d) (1), (3), and (4) of the Act.

TER (43 FR 23004) a notice setting out the provisions of a proposed Federal Delayed Compliance Order for WSC Corporation. The notice asked for public comments and offered the opportunity to request a public hearing on the proposed Order. No public comments and no request for a public hearing were received in response to the notice.

Therefore, a Delayed Compliance Order effective this date is issued to WSC Corporation by the Administrator of U.S. EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places WSC Corporation on a schedule to bring its coke ovens and basic oxygen process shop at Chicago, Illinois, into compliance as expeditiously as practicable with Regulations 203(d)(6)(B)(1)(bb) and

203(d)(6)(B)(iv)(aa), part of the federally approved Illinois State Implementation Plan. WSC Corporation is unable to immediately comply with these regulations. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit WSC Corporation to delay compliance with the SIP regulations covered by the Order until July 1, 1979.

Compliance with the Order by WSC Corporation will preclude Federal enforcement action under Section 113 of the Act for violations of the SIP regulations covered by the Order. Citizen suits under Section 304 of the Act to enforce against the source are similarly precluded. Enforcement may be initiated, however, for violations of the terms of the Order, and for violations of the regulations covered by the Order which occurred before the Order was issued by U.S. EPA or after the Order is terminated. If the Administrator determines that WSC Corporation is in violation of a requirement contained in the Order, one or more of the actions required by Section 113(d)(9) of the Act will be initiated. Publication of this notice of final rulemaking constitutes final Agency action for the purposes of judicial review under Section 307(b) of the Act.

U.S. EPA has determined that the Order shall be effective upon publication of this notice because of the need to immediately place WSC Corporation on a schedule for compliance with the Illinois State Implementation Plan.

(Authority: 42 U.S.C. 7413(d), 7601)

Dated: December 19, 1978.

DOUGLAS M. COSTLE,  
Administrator.

In consideration of the foregoing, Chapter I of Title 40 of the Code of Federal Regulations is amended as follows:

#### PART 65—DELAYED COMPLIANCE ORDERS

#### PART 65—DELAYED COMPLIANCE ORDERS

Approval of a Delayed Compliance Order issued by the State of Idaho Department of Health and Welfare, to U & I Sugar, Inc.

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Administrator of EPA hereby approves a Delayed Compliance Order issued by the State of Idaho Department of Health and Welfare to U & I Sugar, Inc. The Order requires the company to bring air emissions from its sugar refinery at Idaho Falls, Idaho into compliance with the federally-approved Idaho State Implementation Plan (SIP). Because of the Administrator's approval, U & I Sugar, Inc.'s compliance with the Order will preclude suits under the federal enforcement and citizen suit provisions of the Clean Air Act for violations of the SIP regulations covered by the Order during the period the Order is in effect.

DATES: This rule takes effect on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. John E. Pfander, Environmental Protection Agency, Idaho Operations Office, 422 West Washington Street, Boise, Idaho 83702, Telephone: (208) 384-1450.

ADDRESSES: A copy of the Delayed Compliance Order, any supporting material, and any comments received in response to a prior FEDERAL REGISTER notice proposing approval of the Order are available for public inspection and copying during normal business hours at the Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101—11th Floor (11B).

SUPPLEMENTARY INFORMATION: On September 29, 1978 the Regional Administrator of EPA's Region 10

Office published in the FEDERAL REGISTER, 40 CFR 44868, a notice proposing approval of a delayed compliance order issued by the State of Idaho Department of Health and Welfare to U & I Sugar, Inc. The notice asked for public comments by October 30, 1978 on EPA's proposed approval of the Order. No comments were received in response to the proposed notice.

Therefore, the delayed compliance order issued to U & I Sugar, Inc. is approved by the Administrator of EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places U & I Sugar, Inc. on a schedule to bring its sugar refinery at Idaho Falls, Idaho into compliance as expeditiously as practicable with Regulations E, G, H and I of the Rules and Regulations for Control of Air Pollution in Idaho, a part of the federally-approved Idaho State Implementation Plan. The Order also imposes interim requirements which meet Section 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit U & I Sugar, Inc. to delay compliance with the SIP regulations covered by the Order until July 1, 1979. The company is unable to immediately comply with these regulations.

Because the Order has been approved by EPA, compliance with its terms will preclude federal enforcement action under Section 113 of the Act for violations of the SIP regulations covered by the Order during the period the Order is in effect. Citizen suits under Section 304 of the Act are similarly precluded. If the administrator determines that U & I Sugar, Inc. is in violation of a requirement contained in the Order, one or more of the actions required by Section 113(d)(9) of the Act will be initiated.

EPA has determined that its approval of the Order shall be effective upon publication of this notice because of the need to immediately place U & I Sugar, Inc. on a schedule which is effective under the Clean Air Act for compliance with the applicable requirements of the Idaho State Implementation Plan.

(Authority: 42 U.S.C. 7413(d), 7601)

Dated: December 21, 1978.

DOUGLAS M. COSTLE,  
Administrator.

In consideration of the foregoing, Chapter 1 of Title 40 of the Code of Federal Regulations is amended as follows:

#### PART 65—DELAYED COMPLIANCE ORDERS

1. By amending § 65.171 to read as follows:

#### SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 1029-8; PP 8E2111/R190]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

O,O-Dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the insecticide O,O-dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate on kiwi fruit. The regulation was requested by Mobay Chemical Corp. This rule establishes a maximum permissible level for residues of the subject pesticide on kiwi fruit.

EFFECTIVE DATE: Effective on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Timothy A. Gardner, Product Manager (PM) 15, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, SW, Washington, D.C. (202) 426-9425.

SUPPLEMENTARY INFORMATION: On October 24, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 49547) in response to a pesticide petition (PP 8E2111) submitted to the Agency by Mobay Chemical Corp., Chemagro Agricultural Div., P.O. Box 4913, Kansas City, Mo. 64120. This petition pro-

posed that 40 CFR 180.154 be amended by the establishment of a tolerance for residues of the insecticide O,O-dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate in or on the raw agricultural commodity kiwi fruit at 10 parts per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.154 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before January 29, 1979, file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. M-3708, 401 M St., SW, Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on December 28, 1978, Part 180, Subpart C, § 180.154 is amended by adding a tolerance for residues of the subject pesticide on kiwi fruit at 10 ppm as set forth below.

Dated: December 20, 1978.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Part 180, Subpart C, § 180.154 is amended by alphabetically inserting kiwi fruit at 10 ppm in the table to read as follows:

§ 180.154 O,O-Dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate; tolerances for residues.

| Commodity  | Parts per million |
|------------|-------------------|
| Kiwi fruit | 10                |

[FR Doc. 78-36026 Filed 12-27-78; 8:45 am]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Aldicarb

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the pesticide aldicarb on coffee beans. The regulation was requested by Union Carbide Corp. This rule establishes a maximum permissible level for residues of aldicarb on coffee beans.

EFFECTIVE DATE: Effective on December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Frank Sanders, Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C., 202-426-9426.

SUPPLEMENTARY INFORMATION: On October 16, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 47575) in response to a pesticide petition (PP 7E1953) submitted to the Agency by Union Carbide Corp., 1730 Pennsylvania Ave. NW., Washington, D.C. 20006. This petition proposed that 40 CFR 180.269 be amended by the establishment of a tolerance for combined residues of the insecticide and nematocide aldicarb (2-methyl-2-(methylthio)propionaldehyde O-(methylcarbamoyl)oxime) and its cholinesterase-inhibiting metabolites 2-methyl-1-(methylsulfinyl) propionaldehyde O-(methylcarbamoyl)oxime and 2-methyl-1-(methylsulfonyl)propionaldehyde O-(methylcarbamoyl) oxime in or on the

# PART 1061—EMERGENCY ENERGY CONSERVATION PROGRAM

## Subpart—Fiscal Year 1979 Crisis Intervention Program

AGENCY: Community Services Administration.

ACTION: Final rule.

**SUMMARY:** The Community Services Administration is filing a final rule on its FY79 Crisis Intervention Program. This rule is being issued in order to allocate promptly the funds provided under CSA's FY 1979 Continuing Resolution to deal with winter-related energy crises. This rule details the initial allocation of these funds and sets forth project application and reporting requirements.

**DATES:** This rule is effective December 27, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. David Soble, Community Services Administration, Office of Community Action, Washington, D.C. 20506, Tel. 202-254-5280 OR 632-6503, Teletypewriter: 202-254-8218.

**SUPPLEMENTARY INFORMATION:** Section 222(a)(5), the "Emergency Energy Conservation Services" program describes programs and activities for which the Director may provide financial assistance to "... lessen the impact of the high cost of energy on (low income individuals and families, including the elderly and the near poor) and to reduce individual and family consumption." Included are activities related to crisis intervention, that is, intervention to prevent or alleviate hardship or danger due to a winter energy crisis. Activities initiated under this Section of the Act are also governed by the basic purpose of Title II which is to "... stimulate a better focusing of all available local, state, private, and federal resources upon the goal of enabling low-income families, and low-income individuals of all ages, in rural and urban areas to attain the skills, knowledge, and motivations and secure the opportunities for them to become fully self-sufficient." These legislative goals, were used by CSA as the major guideline in developing the rule which will govern its FY79 program to address poor people's winter-related energy emergencies.

CSA is not, and was not created to be, a Federal agency administering income transfer programs. Nor is the intent of its authorizing legislation that any of its programs be such. The program outlined in this rule is in

keeping with the intent and spirit of the Economic Opportunity Act of 1964, as amended. This final rule is effective immediately as a thirty day waiting period would be impractical and contrary to the public interest since winter weather now exists and energy-related emergencies may occur at any time. However, CSA does welcome comments on this rule.

These comments will be considered and the rule changed if warranted.

WILLIAM W. ALLISON,  
Acting Director.

45 CFR 1061 is amended to add the following:

- Sec.  
1061.52-1 Applicability.  
1061.52-2 Policy.  
1061.52-3 What these funds can be used for.  
1061.52-4 Duration of Program.  
1061.52-5 Availability and distribution of funds.  
1061.52-6 Organizations eligible for funding under this program.  
1061.52-7 Who can be served by this program.  
1061.52-8 Reporting requirements for all grants made under this program.  
1061.52-9 Appeal from denial of assistance.  
1061.52-10 Non-Federal share requirement.  
1061.52-11 Clearinghouse review procedures (A-95).  
1061.52-12 Limitation of project expenditures.  
1061.52-13 Maintenance of effort.  
1061.52-14 Audits.  
1061.52-15 Delegation of Authority.

**AUTHORITY:** Sec. 602, 78 Stat. 530 (42 U.S.C. 2942).

## § 1061.52-1 Applicability.

This subpart is applicable to grants funded under section 222(a)(5) of the Economic Opportunity Act of 1964, as amended, if the assistance is administered by the Community Services Administration.

## § 1061.52-2 Policy.

CSA's FY79 Crisis Intervention Program is not intended to be an income transfer program; nor does it entitle any person or household to a certain amount and/or form of assistance. Rather, the primary intent of the program is to make available to grantees funds which will enable them to respond to winter-related energy crises which endanger the health and survival of eligible low-income households, and result in substantially increased energy costs.

## § 1061.52-3 What these funds can be used for.

(a) Funds made available under this program shall be used only to assist low-income families who experience substantially increased energy costs and/or face life- or health-threatening

situations caused by winter-related energy emergencies.

(b) Funds shall be used to cover such items as blankets and warm clothing, temporary loan of space heaters, emergency furnace repairs, emergency firewood and fuel deliveries, temporary shelter, food and other supportive services, emergency replacement of broken window panes, and temporary/emergency repairs to housing otherwise unfit for habitation.

(c) During FY 1979, payment of outstanding bills of regulated utilities is allowable only in those areas where shutoffs are not legally prohibited and where the applicant for assistance can produce a notice to disconnect. Payment of other outstanding fuel bills is allowable only where: (1) the applicant has less than a week's supply of fuel; (2) the fuel cost or usage is significantly higher for the applicant; the local administering agency certifies that it has been unable to arrange for further fuel delivery without payment; and (4) the applicant establishes an inability to pay for the fuel.

(d) Fuel and utility bills shall include, but not be limited to, those for operating cooking stoves, furnaces, space heaters, and wood-burning stoves. Telephone, Cable-TV and other non-energy bills are not eligible for payment. Grantees and local administering agencies shall not exclude any energy-related or fuel expense from coverage under this program except as provided above.

(f) Money assistance will be limited to voucher payments and payments made directly to suppliers of fuel or other energy.

(g) No funds made available under this program shall be used to reimburse States for assistance provided to low-income households in response to winter-related emergencies.

(h) The restrictions of paragraph (c) apply only to payment of outstanding fuel and utility bills. Where a local administering agency determines that an income eligible household is experiencing an energy-related crisis which is endangering life or health, assistance as outlined in paragraph (b) other than the payment of outstanding fuel for utility bills, shall be allowable in response to the household crisis.

## § 1061.52-4 Duration of program.

(a) Grants will be effective January 1, 1979.

(b) No grant funds may be committed by grantees to provide assistance to certified households after May 31, 1979. Administrative funds may be committed until June 30, 1979.

(c) All grants will have a termination date of June 30, 1979.

(d) Grant funds which remain uncommitted by the grantee after June

30, 1979 shall be deobligated and returned by check to CSA for refund to the U.S. Treasury.

## § 1061.52-5 Availability and distribution of funds.

(a) Since funds for this program are available near the beginning of the heating season it has been possible this year for CSA to design, and the grantees to put in place, a program which can stress preventive activities in addition to those which deal with crisis and disaster situations.

(b) Under certain circumstances, there are areas of the country whose normal winter weather may be severe enough to cause a severe energy-related winter emergency which cause hardships for poor people. In addition there are conditions which seriously aggravate such hardships, such as or precipitous increases in fuel or utility prices. Finally there are unforeseen winter emergencies which result in low-income people needing immediate attention and assistance, such as a Federally declared winter-related disaster which leaves eligible households without access to food, fuel or utilities.

(c) To deal with all of these situations—the foreseen and the unforeseen—CSA will make funds available immediately for use at the local level and create a Director's national contingency fund to be available for demonstrated need in both those areas receiving initial funding and in other areas. Following are the procedures for applying or distributing funds and criteria for funding.

(d) **Distribution.**—(1) **Allocation and purpose.** (i) CSA will allocate on a one-time basis for crisis intervention activities \$15 million by formula to States or areas within States having population-weighted average (normal) annual heating degree days of 3,000 or more. (For listing of population-weighted annual heating degree days, by State, see Appendix B). These funds are in addition from any other CSA programs providing crisis intervention assistance.

(ii) The Governor in each of these states will be requested to assist CSA Regional Directors in developing a within-state allocation plan and to recommend agencies which can provide assistance in those areas not covered by a Community Action Agency and where a CAA is not able to do so. Governors also will be requested to waive the thirty-day review and disapproval period set out in Section 242 of the Economic Opportunity Act of 1964 as amended.

(iii) **Administrative Costs.** The total one-time grant will also include the greater of an additional \$8,000 per grantee or an amount equal to fifteen percent of the crisis intervention funds for administrative costs.

(2) **Application process.** (i) Based on the results of the within-state allocation process described above, CSA Regional Directors will review and approve Forms 314.

(ii) Special Conditions will be attached to all grants requiring submission, within 30 days of the obligation date of the grant, of a CSA Form 419, Summary of Work Programs and Budget.

(e) **Winter-related disaster relief.**—(1) **Purpose.** Funds will be available to deal with situations which arise from winter-related disasters creating energy emergencies to assure that the additional energy costs incurred by low-income families due to the disaster are met pending receipt of other disaster resources. This is seen as short-term, gap-filling assistance, designed to meet the immediate disaster-related energy needs of the poor and the elderly. These funds may be used for all activities outlined in Section 1061.52-3 including payment of utility and fuel bills during the disaster period if there is no other way of meeting the needs of eligible households.

(2) **Application process.** (i) When a Governor requests the declaration of a winter-related disaster by the Federal government, the appropriate CSA Regional Director, on the basis of the information in that request and other available information may request the Director of CSA to provide funds to assure that low-income people facing life- and health-threatening conditions will receive assistance for substantially increased energy costs. The request shall indicate the extent of the need the agencies which are to receive the funds, and the views of the State.

(ii) If after consultation with the Federal Disaster Assistance Administration (or its successor), the Director determines that a winter-related disaster has created conditions which will endanger the health and/or cause severe hardship to eligible low-income individuals and households, CSA will immediately inform by telegram the Governor and the appropriate CSA Regional Office of the amount of funds available for the affected disaster area. CSA Regional Directors will be requested to supplement grants of existing CSA Crisis Intervention Grantees in the disaster affected area. In states or areas of states which have not previously received funds under this program, CSA Regional Offices will make new grants to Community Action Agencies in the disaster affected area or, (in the case of an area not served by a CAA, to other eligible grantees recommended by the Governor of the State). CSA Regional Directors may authorize existing CSA grantees to transfer needed funds from other program accounts, pending receipt of grant funds. Such authority

raw agricultural commodity coffee beans at 0.1 part per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.269 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before January 12, 1979, file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. M-3708, 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on December 28, 1978, Part 180, Subpart C, § 180.269 is amended by adding a tolerance for residues of aldicarb on coffee beans at 0.1 ppm as set forth below.

Dated: December 20, 1978.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348a(e)).

Part 180, Subpart C, § 180.269 is amended by alphabetically inserting coffee beans at 0.1 ppm in the table to read as follows:

## § 180.269 Aldicarb; tolerances for residues.

| Commodity:   | Parts per million |
|--------------|-------------------|
| Coffee beans | 0.1               |

[FR Doc. 78-36025 Filed 12-27-78; 8:45 am]

[6315-01-M]

Title 45—Public Welfare

## CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

will be limited by CSA Regional Directors to transfer of an amount no greater than the amount of the anticipated grant. If the grant is finally approved, funds thus transferred will be reimbursable with grant funds.

(iii) Grantees may expend up to ten percent (10%) of their Disaster Relief Grant funds for administrative and program support costs.

(f) *Other winter-related energy needs.*—(1) *Purpose.* Realizing that some areas or states will have needs greater than those which can be met with the resources available through the crisis intervention grants, CSA will make available on a one-time basis additional crisis intervention funds to States and localities which can demonstrate the presence of a Winter-Related Energy Need affecting the fuel of dwellings of low-income families. Such a winter-Related Energy Need will be deemed to exist when the Governor of a State:

(1) Has declared that a winter-related energy emergency exists and as a result of such declaration substantial state funds are made available to provide energy emergency assistance to low-income families above or on at least an equal basis with other households; or

(2) Determines that the emergency exists because:

(i) There is within the State a shortage or unavailability of normal fuels on a temporary or permanent basis to low-income households, causing extraordinary expense because of the necessity for purchase and delivery of fuel on an emergency basis, or substitution of alternative fuels; or

(ii) There has been within the State or an area within the State an increase of twenty (20%) percent or more in the price of a major fuel or utility service since May 1, 1978, or

(iii) The State or an area within the State is experiencing excessively cold weather that represents, any time after January 1, 1979, a cumulative total of population weighted heating degree days for the year beginning July 1, 1978, which is three hundred (300) heating degree days or more higher than the normal cumulative total for that date and at least 600 heating degree days for the month for which assistance is given.

(2) *Limitation on grants.* CSA intends that there will be no more than one grant to any geographical area under this paragraph. Once the existence of a Winter-Related Energy Need has been determined by the Director of CSA, one-time grants will be made in amounts calculated by CSA to best meet that need in an equitable manner, taking into consideration the existing or potential needs in other areas. Grantees must recognize that no additional funds for Winter-Related

Energy Needs will be available to them for the balance of the winter season, and that they should plan the use of these resources accordingly. The only anticipated exception would be in the case of funds for Winter-Related Disaster Relief under paragraph (e), funds for which are severely limited, and would only be made available after a finding that a disaster has in fact occurred.

(3) *Application process.* (i) Eligible grantees will ask the Governor of their State to make a determination that a Winter-Related Energy Need exists in their area, and to request the Director of CSA to provide funds to meet the needs. (Governors will initiate requests for areas not served by a CAA.) The request will include a description of the extent of the need, a description of the basis for determination that the need exists, a finding that there is a lack of readily available resources to meet that need, the amount and type of funding committed by the State for energy emergency assistance, and identification of areas within the State in which the need exists. The SEOO will advise the Governor of the accuracy of the data on which the request is based.

(ii) The Governor of any State may, without a request from any eligible grantee within the State initiate a request to the Director of CSA for assistance to the entire State or any area within the State on the basis of a determination of need as set forth in paragraph (1), above. Such requests shall include the elements described in sub-paragraph (i).

(iii) Upon the approval of a Governor's request by the Director of CSA, CSA Regional Directors will be immediately requested to supplement the grants of existing CSA Crisis Intervention grantees in the area covered by the request. In the case of requests from Governors of States which have not previously received funds under this program, CSA regional offices may make new grants to Community Action Agencies in the affected area (or in the case of an area not served by a CAA, to other eligible grantees recommended by the Governor of the State). CSA Regional Directors may authorize existing CSA grantees to transfer needed funds from other program accounts, pending receipt of grant funds. Such authority will be limited by CSA Regional Directors to transfer of an amount no greater than the amount of the anticipated grant. If the grant is finally approved, funds thus transferred will be reimbursable with grant funds.

(iv) Grantees may expend up to ten percent (10%) of grant funds for administrative and program support costs.

(g) *Role of the SEOO.* There may be a number of States and territories which will not receive funds under the initial distribution of crisis intervention funds but which may be eligible to apply for funds under paragraphs (e) and (f), above. Therefore, to assist the Governor with information and data which will make it possible to respond quickly to emergencies or needs which may arise, CSA is requesting that SEOOs assist CSA Regional Directors to develop within-State allocation percentages, identify agencies which would serve areas not served by a CAA, and develop base line data that will assist in the analysis of winter-related energy needs.

#### § 1061.52-6 Organizations eligible for funding under this program.

CSA intends these funds to be used by Community Action Agencies to carry out activities under this program. The only anticipated exceptions will be agencies identified by CSA Regions to serve non-CAA covered areas, Migrant and Seasonal Farmworkers or Native Americans. Grantees may enter into delegate agency agreements with other agencies to carry out part or all of the work program.

#### § 1061.52-7 Who can be served by this program.

(a) Applicants for assistance who have access to direct assistance through other supportive service networks such as welfare may only receive assistance under this program where the grantee or local administering agency has determined that such other service networks cannot respond in a timely and effective manner.

(b) All households assisted by this program must meet both income and program eligibility requirements.

(1) *Income eligibility.* (i) Individuals and households whose income is no higher than 125% of the CSA poverty guidelines. (See Appendix A for income chart);

(ii) Individuals of age 60 and above, whose income does not exceed 125% of the CSA poverty guidelines and/or elderly individuals and couples (Age 60 and over) who receive Supplementary Security Income (SSI). (See Appendix A for income chart).

(2) *Determination of Income Eligibility Required of Grantees.* Proof of income eligibility is required. The period for determining eligibility will be not more than 12 months nor less than the 90 day period preceding the request for assistance. If proof of income eligibility is unobtainable by the local administering agency, applicant may qualify for other than money assistance in the paying of outstanding bills by signing a certification of income eligibility; but no payment of outstanding bills shall be allowable

without proof of income. In cases where income eligibility is based on a certification, grantees must make a reasonable number of recorded spot checks to verify income eligibility and so advise applicants in advance by printing such a notice together with reference to 18 USC 1001 on the application.

(3) *Program eligibility.* If a household meets income eligibility guidelines, program eligibility must be established before the household is eligible to receive assistance under this program. That is, the household must be experiencing an energy-related crisis which is endangering life or health and results in substantially increased energy costs.

(i) As noted in paragraph (a), applicants for assistance who have access to direct assistance through other supportive service networks such as welfare may only receive assistance under this program where the grantee of local administering agency has determined that such other service networks cannot respond in a timely and effective manner. As part of this determination, local administering agencies have an affirmative responsibility to assure that applicants have received the full measure of support that is due them from the supportive networks noted in paragraph (a) before providing assistance under this program.

(ii) There are, in effect, two levels of program eligibility under this program, depending on the type of assistance provided. As noted in Section 1061.52-3, to be eligible for assistance in payment of an outstanding utility or fuel bill, the applicant must have received a notice of shut-off, or, in the case of non-regulated fuel have less than a week's supply of fuel on hand. In the latter case the local administering agency must certify that it has been unable to arrange for further fuel delivery without at least partial payment of the outstanding bill. In addition, local administering agencies must either verify the applicant's existing supply of fuel through on-site inspection or contact with the applicant's fuel dealer, or obtain a statement from the applicant as to the supply. In the latter case the agency must spot-check through on-site inspection a reasonable number of such statements.

(iii) The above restrictions are not applicable with regard to the provision of assistance other than the payment of outstanding fuel and utility bills. At the same time, if income eligible families have ample supplies of fuel, and are not faced with another type of crisis such as an inoperative furnace or broken water pipes, they are not eligible for assistance under this program just because they have large energy bills outstanding. If on the other

hand, a family has paid at great sacrifice a large energy bill and as a result has insufficient money to buy needed food or other necessities then they would be eligible for assistance.

(4) *Priorities.* Priority shall be given to persons facing life threatening situations and to elderly persons (age 60 and over) who meet all eligibility requirements.

(5) *Income Disregard.* No payment made under this program shall be considered income for the purpose of determining eligibility for benefits or level of benefits under another program of assistance, including, but not limited to, public assistance, veterans benefits, food stamps Supplemental Security Income, Medicaid-only, Indo-China Relief, or The WIC Program.

#### § 1061.52-8 Reporting requirements for all grants made under this program.

(a) *Financial reporting.* Activities carried out under this program shall be reported as part of grantee's regular SF-269. Grantees shall follow normal procedures for submission of the SF-269, i.e., one copy to the appropriate CSA Regional Office and one copy to Grants Accounting Branch, Finance and Grants Management Division, CSA Headquarters, 1200 19th Street N.W., Washington, D.C. 20506.

(b) *Project progress review reports.* Grantees will be required to submit Project Progress Review reports covering grant activities under this program (CSA Form 440) to the appropriate CSA Regional Office with a copy forwarded to CSA Headquarters. Attention: Energy Programs. Reports will cover activities undertaken during the entire grant period, and will contain a separate narrative account of any assistance provided pursuant to a disaster declared under Section 1061.52-5, above. These reports will be due July 1, 1979. The following activities completed during the reporting period shall be addressed in section 1A of the submission.

(1) Total number of households which were assisted under all of the eligible activities of this program. This should be a nonduplicative count, and of this number:

(i) Number of elderly individuals assisted whose income is 125% or less;

(ii) Total number of households whose outstanding utility/fuel bills were paid in whole or in part, and total dollar amount obligated for this purpose; and of that number of households, total number whose outstanding utility/fuel bills exceeded \$250;

(iii) Total number of households which received other forms of emergency energy assistance under this program and total amount obligated for this purpose;

(2) Total number of individuals residing in households served as accounted for in (1) above.

(3) Number of reviews of denial of assistance requested and the results thereof.

#### § 1061.52-9 Appeal from denial of assistance.

(a) Each local program operator shall establish and make known to all applicants procedures for review of the denial of assistance under this program to any household or person, which shall include at a minimum:

(1) Written application forms;

(2) Notification in writing of the reasons for denial of assistance, and of the opportunity to submit additional written information which the applicant believes would warrant favorable determination of eligibility;

(3) Provision for review of a denial of an application for assistance by the program operator's executive officer, or his/her designee, and an opportunity for provision of any additional information by the applicant; and

(4) Notice in writing of the program operator's final decision on review.

(b) A written description of these review procedures shall be maintained on file by the program operator and available for public inspection.

#### § 1061.52-10 Non-Federal share requirement.

The non-Federal share requirements are waived for all Crisis Intervention activities under Program Account 80 (See CSA Instruction 6802-3a for waiver criteria.)

#### § 1061.52-11 Clearinghouse review procedures (A-95).

CSA has requested and received from the Office of Management and Budget (OMB) a waiver of the clearinghouse review procedures required under OMB Circular A-95. However, grantees are requested to submit an information copy of their application(s) required under § 1061.52—to the appropriate clearinghouses.

#### § 1061.52-12 Limitation of project expenditures.

(a) *Limitation on payments to any eligible household.* The sum of all forms of assistance made to and/or on behalf of any eligible household during this program may not exceed \$250 in any fiscal year.

(b) *Recovery of unobligated funds.* CSA retains the authority to recover grant funds at any time sums remain uncommitted to eligible households.

(c) *Prohibition against transfer to another grant.* Funds remaining unobligated may not be transferred by the grantee to another grant.

(d) *Overexpenditures.* If the grantee incurs expenditures in excess of the total amount of the approved grant, the amount of the overexpenditure must be absorbed by the grantee.

(e) *Procurement.* In accordance with OMB Circulars A-110 and A-102 all proposed sole source contracts where only one bid or proposal is received in which the aggregate expenditure is expected to exceed \$5,000 must receive prior approval by the appropriate CSA Regional Office.

#### § 1061.52-13 Maintenance of effort.

Services provided with funds made available under this program shall be in addition to and not in substitution for services previously provided without Economic Opportunity Act assistance.

#### § 1061.52-15 Delegations of authority to Regional Directors.

This section provides for the immediate delegation to CSA Regional Directors of authority for final approval of grants under this program. When Section 601(c) was added to the Economic Opportunity Act, its last sentence prohibited the delegation of final approval of grants and contracts to any regional official after June 15, 1975. In the Economic Opportunity Amendments of 1978, this provision, which had proved to be administratively burdensome, was repealed and a requirement to promulgate rules and regulations for final approval of grants and contracts was substituted. The Community Services Administration fully intends to issue comprehensive regulations on this subject in the near future. However, in view of the fact that activities under this program will be undertaken to deal with winter-related energy emergencies, maximum efficiency in the processing of grants is immediately required. To achieve this administrative efficiency, it is necessary to return final grant-making power to Regional Directors for this program effective immediately.

#### APPENDIX A

##### COMMUNITY SERVICES ADMINISTRATION

##### CSA POVERTY INCOME GUIDELINES FOR ALL STATES EXCEPT ALASKA AND HAWAII

| Size of family unit | Nonfarm family <sup>1</sup> | Farm family <sup>1</sup> |
|---------------------|-----------------------------|--------------------------|
| 1                   | \$3,925                     | \$3,303                  |
| 2                   | 5,300                       | 4,433                    |
| 3                   | 6,475                       | 5,513                    |
| 4                   | 7,750                       | 6,588                    |
| 5                   | 9,025                       | 7,663                    |
| 6                   | 10,300                      | 8,738                    |

<sup>1</sup>125%—For family units with more than 6 members, add \$1,275 for each additional member in a nonfarm family and \$1,075 for each additional member in a farm family.

##### CSA POVERTY GUIDELINES FOR ALASKA

| Size of family unit | Nonfarm family <sup>1</sup> | Farm family <sup>1</sup> |
|---------------------|-----------------------------|--------------------------|
| 1                   | \$4,925                     | \$4,225                  |
| 2                   | 6,513                       | 5,563                    |
| 3                   | 8,100                       | 6,900                    |
| 4                   | 9,687                       | 8,238                    |
| 5                   | 11,275                      | 9,575                    |
| 6                   | 12,863                      | 10,913                   |

<sup>1</sup>125%—For family units with more than 6 members, add \$1,568 for each additional member in a nonfarm family and \$1,338 for each additional member in a farm family.

##### CSA POVERTY GUIDELINES FOR HAWAII

| Size of family unit | Nonfarm family <sup>1</sup> | Farm family <sup>1</sup> |
|---------------------|-----------------------------|--------------------------|
| 1                   | \$4,925                     | \$3,913                  |
| 2                   | 5,987                       | 5,138                    |
| 3                   | 7,450                       | 6,363                    |
| 4                   | 8,913                       | 7,588                    |
| 5                   | 10,375                      | 8,813                    |
| 6                   | 11,838                      | 10,038                   |

<sup>1</sup>125%—For family units with more than 6 members, add \$1,463 for each additional member in a nonfarm family and \$1,225 for each additional member in a farm family.

##### APPENDIX B—Population-Weighted Normal Annual Heating Degree-Days by State

|                    |        |
|--------------------|--------|
| Region I (Boston): |        |
| Connecticut        | 9,130  |
| Maine              | 8,002  |
| Massachusetts      | 6,232  |
| New Hampshire      | 7,535  |
| Rhode Island       | 5,924  |
| Vermont            | 7,673  |
| Total              | 41,998 |

|                       |        |
|-----------------------|--------|
| Region II (New York): |        |
| New Jersey            | 5,470  |
| New York              | 5,899  |
| Puerto Rico           |        |
| Virgin Islands        | 0      |
| Total                 | 11,369 |

|                            |        |
|----------------------------|--------|
| Region III (Philadelphia): |        |
| Delaware                   | 4,980  |
| District of Columbia       | 4,211  |
| Maryland                   | 4,818  |
| Pennsylvania               | 5,755  |
| Virginia                   | 4,286  |
| West Virginia              | 5,108  |
| Total                      | 29,858 |

|                      |        |
|----------------------|--------|
| Region IV (Atlanta): |        |
| Alabama              | 2,695  |
| Florida              | 704    |
| Georgia              | 3,984  |
| Kentucky             | 4,414  |
| Mississippi          | 2,411  |
| North Carolina       | 3,392  |
| South Carolina       | 2,897  |
| Tennessee            | 3,801  |
| Total                | 22,798 |

|                     |        |
|---------------------|--------|
| Region V (Chicago): |        |
| Illinois            | 6,058  |
| Indiana             | 5,713  |
| Michigan            | 6,739  |
| Minnesota           | 6,730  |
| Ohio                | 5,779  |
| Wisconsin           | 7,531  |
| Total               | 40,530 |

|                                |       |
|--------------------------------|-------|
| Region VI (Dallas-Fort Worth): |       |
| Arkansas                       | 3,214 |
| Louisiana                      | 1,702 |
| New Mexico                     | 4,760 |
| Oklahoma                       | 3,508 |

##### APPENDIX B—Population-Weighted Normal Annual Heating Degree-Days by State—Continued

|                           |        |
|---------------------------|--------|
| Texas                     | 2,015  |

### CHAPTER IV—FEDERAL MARITIME COMMISSION

#### SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[General Order 7]

#### PART 528—SELF-POLICING SYSTEMS

##### Approval of Reporting Requirements

AGENCY: Federal Maritime Commission.

ACTION: Final rule.

SUMMARY: Rules for filing self-policing reports which are submitted by conferences and carriers subject to these rules are amended to reflect an extension of GAO clearance for revised General Order 7 and the reporting requirements contained therein. The amendment is necessary to comply with GAO regulations.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: 44 USC 3512 requires the General Accounting Office to review certain collections of information from 10 or more persons undertaken by independent Federal regulatory agencies.

This Commission has received clearance from the U. S. General Accounting Office for the reporting requirements contained in 46 CFR 528. Title 4 CFR, § 10.12, Notification of General Accounting Office Action, requires that notice of such clearance appear in the agency's regulations. Therefore, the following clearance statement will be placed at the end of the authority citation at the beginning of 46 CFR 528:

The reporting requirements contained in sections 528.1, 528.2 (a)-(f), 528.3(b)(3), 528.3(f), and 528.5 (b)-(e) of this Order have been approved by the U.S. General Accounting Office under number B-180233 (R0145).

Effective Date. Notice, public procedure and delayed effective date are not necessary for the promulgation of this amendment because of its nonsubstantive nature. Accordingly, this amendment shall be effective on December 28, 1978.

By the Commission.

FRANCIS C. HURNEY,  
Secretary.

#### PART 530—INTERPRETATIONS AND STATEMENTS OF POLICY

##### Adoption of Statement of Policy

AGENCY: Federal Maritime Commission.

ACTION: Adoption of statement of policy.

SUMMARY: This statement of policy announces that the application by a conference of ocean carriers or other rate-fixing body for an exemption from the self-policing requirements of 46 CFR 528.3(b) does not relieve the applicant of the obligations of those requirements pending action by the Commission on the application for exemption. The purpose and effect of this statement is to give notice that the self-policing requirements cannot be avoided by the mere filing of such an application for exemption.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, 1100 L

Street, N.W., Washington, D.C. 20573, (202) 523-5725.

[6730-01-M]

[General Order 20]

#### PART 540—SECURITY FOR THE PROTECTION OF THE PUBLIC

##### Approval of Reporting Requirements

AGENCY: Federal Maritime Commission.

ACTION: Final rule.

SUMMARY: Rules providing for the establishment of proof of financial responsibility of owners, operators, or charterers of passenger vessels are amended to reflect an extension of existing General Accounting Office clearance for the reporting requirements contained therein. The amendment is necessary to comply with GAO regulations.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: 44 U.S.C. 3512 requires the General Accounting Office to review certain collections of information from 10 or more persons undertaken by independent Federal regulatory agencies.

This Commission has received clearance from the U.S. General Accounting Office for the reporting requirements contained in 46 CFR 540 (General Order 20). Title 4 CFR, § 10.12, Notification of General Accounting Office Action, requires that notice of such clearance appear in the agency's regulations.

The clearance information is presently included in General Order 20, however, it must be amended to reflect the more specific wording of GAO's latest clearance approval. Accordingly, the clearance information language presently appearing in the note at the end of § 540.36 is hereby deleted and replaced with the following language:

The reporting requirements contained in 46 CFR 540.4(c); 540.5(a)(1) and (d); 540.9(e), (h), and (k); 540.23(c); 540.24(a)(1) and (c); and 540.27(e), (f), and (h) have been approved by the U.S. General Accounting Office under number B-180233 (R0316).

Effective Date. Notice, public procedure and delayed effective date are not necessary for the promulgation of this amendment because of its nonsubstantive nature. Accordingly, this amendment shall be effective on December 28, 1978.

SUPPLEMENTARY INFORMATION:

Pursuant to section 43 of the Shipping Act, 1916 (46 U.S.C. 841a) and the provisions of Title 5 U.S.C. 553, the Commission hereby adopts the following statement of policy by adding a new § 530.9, Exemption From Self-Policing Requirements, to Title 46 CFR reading as follows:

§ 530.9 Exemption From Self-Policing Requirements.

(a) The Commission's General Order 7, as amended September 14, 1978 (46 CFR 528), requires that as of January 1, 1979 every conference or other rate-fixing agreement between common carriers by water in the foreign or domestic offshore commerce of the United States shall contain provisions establishing and describing a system for self-policing its members, including designation of a policing authority.

(b) Section 528.3(b) of General Order 7 requires that policing authorities be headed by, and composed of, persons not otherwise employed by, having any financial interest in, or affiliated with the conference or rate-fixing body or any member or associate thereof. Provision is made in 528.3(b)(3), however, for petition to the Commission for an exemption from this "independent neutral body" requirement to allow officers or employees of the conference or rate-fixing body to act as the head of, or be assigned to duties under, the policing authority if such person or persons are not otherwise affiliated with any conference member and the conference establishes that the specific factual conditions of 46 CFR 528.3(b)(3) are present.

(c) Several conferences have filed such exemption petitions. The question has arisen whether a conference or rate-fixing body that has filed a petition for exemption is relieved of the obligation to comply with the independent neutral body requirements of section 528.3(b) pending Commission action on the petition. It is not. Unless and until the Commission grants an exemption, every conference or rate-fixing agreement must provide for the services of a policing authority that fully meets the requirements of section 528.3.

By the Commission.

FRANCIS C. HURNEY,  
Secretary.

### CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 77-1; Notice 3]

#### PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

##### Lamps, Reflective Devices, and Associated Equipment

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Correction.

SUMMARY: This notice corrects a typographical error in the notice of the final rule published on August 31, 1978, amending Federal Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices, and Associated Equipment*, to specify that rear side marker lamps on large trailers cannot be located higher than 60 inches above the road surface (43 FR 38832). The error appears in the heading of the final column in Table II which stated that the mounting height of rear side marker lamps above the road surface is measured with the trailer at "unit weight". The correct reference is to "curb weight".

### CHAPTER VIII—NATIONAL TRANSPORTATION SAFETY BOARD

#### PART 821—RULES OF PRACTICE IN AIR SAFETY PROCEEDINGS

##### Procedure for Requesting a Stay of a Petition for Review

AGENCY: National Transportation Safety Board.

ACTION: Final rule.

SUMMARY: This amendment revises the Board's existing procedural rules applicable to air safety proceedings to permit an individual who has petitioned the Board for review of a denial of airman medical certification to request a stay of any action on that petition when a concurrent petition for exemption from the applicable Federal Aviation Regulations (FAR) has been filed with the Federal Aviation Administration (FAA).

EFFECTIVE DATE: December 28, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Fritz L. Pula, General Counsel, National Transportation Safety Board, 800 Independence Avenue, SW., Washington, D.C. 20594, 202-472-6034.

SUPPLEMENTARY INFORMATION: This amendment is based on a notice of proposed rulemaking published in the FEDERAL REGISTER August 24, 1978 (43 FR 37732). In that proposal, the Board clarified the fact that any request for a stay of proceeding is clearly at the option of the individual who has petitioned for review of a final denial of an unlimited airman medical certificate issued by the FAA. The Board also clarified the fact that the individual petitioner could, at any time during a 180-day period from the date of issuance of the Administrator's final denial of an unlimited certificate, petition the Board for review, thereby requiring the Office of Administrative Law Judges to set in motion its procedures for the scheduling of a hearing before an administrative law judge. Fi-

nally, the Board clarified the fact that, in the event that no request is made during the 180-day period, the petitioner will be returned to the status of an applicant for airman medical certification.

Four comments were received in response to the Board's proposal. The National Pilot's Association approved the proposed rule. The Aircraft Owners and Pilots Association was opposed, stating that it does not believe that stays should be routinely granted but that the decision should be discretionary with the administrative law judge. It is the Board's view that the request for a stay or the termination of a stay at any time during the 180-day period during which petitions can be held in abeyance is properly within the discretion of the individual petitioner who, together with his physician, is in the best position to evaluate his own medical circumstances in the light of the relief available.

The Air Line Pilots Association (ALPA) supports the proposal, believing that it will provide greater flexibility to the individual airman who is denied an unlimited medical certificate to deal directly with the Federal Air Surgeon in an effort to obtain his certificate administratively, and will be of benefit to the airman, the Board, and the FAA. Moreover, ALPA believes that the Board's procedural rules can be used to request the admission of any document for good cause shown, thereby alleviating the problem of staleness of the available medical record at the time of hearing before an administrative law judge.

The FAA expressed a number of concerns with the proposal. First, the Administrator believes that he should not be required to file an answer to the petition for review in the event that a petitioner requests a stay. Since § 821.8(b) of the Board's rules of practice requires service of process on all parties to the proceeding of all documents filed with the Board, the Administrator would be required to be served with a petition for stay of proceeding. He need not prepare an answer to the petition for review until the petitioner requests that the Board proceed with the scheduling of a hearing, a copy of which will be served on him.

Second, the FAA expresses concern that a petitioner who does not request that the Office of Administrative Law Judges proceed with the scheduling of a hearing during the 180-day period is returned to the status of an applicant and must submit a new application based on a recent physical examination. We do not share that concern but believe that Board review should be based on a reasonably recent evaluation of a petitioner's medical circumstances.

The regulation is adopted as proposed; however, the clarifying language included in the preamble to the proposed rule has been incorporated into the final rule in order that the rule itself, when published in the Code of Federal Regulations, will contain all relevant data with respect to its applicability.

Accordingly, Part 821 of Title 49 of the Code of Federal Regulations is amended by adding a new § 821.24(d), to read as follows:

§ 821.24 Initiation of proceedings.

(d) *Stay of proceeding pending petition for exemption.* Where the petitioner has filed with the Administrator a petition for exemption under the provisions of the Federal Aviation Regulations, he may request that the Board hold his petition in abeyance pending final action on his petition for exemption, or for 180 days from the date of issuance of the Administrator's denial, whichever occurs first. In the event that a petitioner fails to request a hearing during the 180-day period extending from the date of issuance of the Administrator's denial, he is returned to the status of an applicant for airman medical certification and must follow the procedures set forth in 14 CFR Part 67. Pending a stay of proceedings, further pleadings are stayed.

(Title VI, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1421 et seq., and Independent Safety Board Act of 1974, Pub. L. 93-633, 88 Stat. 2166 (49 U.S.C. 1901 et seq.))

Signed at Washington, D.C., on December 21, 1978.

JAMES B. KING,  
Chairman.

### CHAPTER X—INTERSTATE COMMERCE COMMISSION

#### SUBCHAPTER C—ACCOUNTS, RECORDS, AND REPORTS

#### PART 1241—ANNUAL, SPECIAL, OR PERIODIC REPORTS

[No. 36730 (Sub-No. 1)]

#### Adoption of Annual Report Form R-3 for Class III Railroads

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Interstate Commerce Commission is adopting a new reporting form for Class III railroads. This form, Annual Report Form R-3,

will substantially reduce the reporting burden on Class III railroads.

DATES: Effective for the reporting year beginning January 1, 1978.

ADDRESSES: Send comments to: Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

#### FOR FURTHER INFORMATION CONTACT:

Bryan Brown, Jr., Chief, Section of Accounting, Tel. (202) 275-7448.

SUPPLEMENTARY INFORMATION: In a decision issued June 9, 1978, the Commission established a new class of rail carrier (Docket No. 36730, Designation of a Class III Railroad). Railroads with annual operating revenue (AOR) of \$10 million or less were classified Class III railroads and were relieved from maintaining the Commission's uniform system of accounts; however, these railroads were not relieved from the burden of filing Annual Report Form R-2 with the Commission. A review of the information needs of users of Class III railroads' financial and operating data indicates that many of the schedules in prior form R-2 can be deleted.

The Commission has decided to adopt a simplified report for Class III railroads, Annual Report Form R-3. Adoption of this form represents another step in the Commission's continuing effort to minimize the reporting burden of all carriers. Form R-3 contains eight schedules. All but two of the extensive property and depreciation schedules included in Form R-2 have been deleted from Form R-3. These two schedules have been included to enable the Commission to review changes in the property accounts of Class III railroads.

The Commission does not prescribe a uniform system of accounts for Class III railroads. We realize the complexity of accounting systems maintained by these railroads will vary according to available resources and management sophistication. We have designed Form R-3 in a manner consistent with basic financial reporting. The terminology, schedule formats, and instructions should ease the burden of carriers preparing and filing this report. Reducing the reporting burden of these carriers should serve the public interest and result in cost savings that should eventually be passed on to shippers and the public. The Commission recognizes that some Class III railroads may find even the preparation and filing of Form R-3 to be an extreme hardship or burden, and these railroads may seek relief from the Commission on an individual basis. Since the requirement that Class III railroads file Form R-3 is effective January 1, 1978, these railroads are re-

lieved from the present requirement that they file Form R-2 for the year ending December 31, 1978.

The Commission does not believe that this revision requires a rulemaking proceeding pursuant to section 553 of the Administrative Procedure Act (5 U.S.C. §553). The rules involved are procedural in nature, and revisions actually lessen the reporting requirements for all Class III railroads. However, in keeping with our belief that any rule can benefit from public scrutiny, we are requesting that the public study the rule and report, at the earliest possible time, any change which needs to be made. In addition, persons who desire to study the new form may obtain a copy from the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

If the Commission concludes after reviewing the comments that it is necessary to make changes in the final rule, a further notice will be published in the *FEDERAL REGISTER* on the effective date of the rule, identifying the changes made. Otherwise the new rule will take effect on that date.

This decision does not significantly affect the quality of the human environment.

Accordingly, § 1241.12, Part 1241 of Title 49 of the Code of Federal Regulations is amended as follows:

(1) The title of § 1241.12 is amended to read: Annual Reports of Class II and Class III railroad companies.

(2) Present § 1241.12 is redesignated § 1241.12(a).

(3) New § 1241.12(b) is added to read as follows:

Beginning with reports for the year ending December 31, 1978, all Class III railroads shall file Annual Report Form R-3. Two copies of the report shall be filed with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, within 90 days of the close of the reporting period.

This reporting revision is instituted under the authority of 49 U.S.C. 12 and 20.

Decided December 11, 1978.

By the Commission. Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham and Clapp.

H. G. HOMME, Jr.,  
Secretary.

(FR Doc. 78-36198 Filed 12-27-78; 8:45 am)

[3510-22-M]

#### Title 50—Wildlife and Fisheries

### CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

#### PART 653—ATLANTIC HERRING

#### Approval of Fishery Management Plan, Emergency Regulations, and Request for Comment

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Approval of Fishery Management Plan for Atlantic Herring; emergency regulations and request for comment.

SUMMARY: The Assistant Administrator for Fisheries has approved a Fishery Management Plan (FMP) for the Atlantic herring fishery, which was prepared by the New England Fishery Management Council. Regulations implementing the FMP are promulgated on an emergency basis, because current, unrestrained harvest levels may jeopardize the Gulf of Maine herring stocks. Comments on these regulations, which are also published as proposed rulemaking, are invited.

DATES: These regulations are effective December 20, 1978 as emergency regulations, except for § 653.4, Vessel Permits, which will become effective on January 22, 1979. Public comment on the regulations may be filed until February 5, 1979.

ADDRESS: Send comments to the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, Washington, D.C. 20235. Mark "Herring Comments" on the outside of the envelope.

#### FOR FURTHER INFORMATION CONTACT:

Mr. William G. Gordon, Regional Director, Northeast Region, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930; Telephone: (617) 281-3600.

SUPPLEMENTARY INFORMATION: The Assistant Administrator approved the FMP for Atlantic herring on December 11, 1978. The New England Fishery Management Council (Council) recommended proposed regulations on October 4, 1978. These were considered and used as a basis for the regulations published here.

A. *The fishery management unit.* The herring fishery of the Northwest Atlantic Ocean is generally considered

to be dependent on three distinct stocks of fish: one associated with the Gulf of Maine, one with Georges Bank, and the other with waters off Southern Nova Scotia. All three stocks intermingle and are harvested together within the fishery conservation zone (FCZ). The FMP addresses the Gulf of Maine and Georges Bank stocks, although its regulatory measures are also applicable to herring from Nova Scotia when they are in the FCZ.

The FMP manages all herring three years of age and older which are found in the FCZ of the North Atlantic. There is a fishery for juvenile herring in the territorial waters of the State of Maine, which also takes significant numbers of adults (age three and older). However, this fishery is not included in the fishery management unit. The FMP does consider the adult harvest from the fishery, and recommends that the State of Maine's management program be consistent with that of the FMP. Harvests of juveniles and adults in this fishery are taken into account in establishing the optimum yield (OY) for the fishery in the FCZ.

Preliminary data from the 1978 summer/fall fishery, however, indicate that harvests within Maine waters may have been significantly greater than anticipated. The harvest levels may prove to have a substantial and adverse effect on implementation of the Council's management program. This situation needs further analysis in order to evaluate its impact on the FMP. The Assistant Administrator has asked the Council to assess the significance of the Maine harvest to determine if other management measures should be taken.

These regulations will not limit harvests in any State waters. Harvests from State waters other than Maine, however, will be counted toward allowable catches for the FCZ fishery, and will directly affect the need for fishery closures in the FCZ.

B. *The optimum yield model.* Both stocks directly addressed by the FMP are in need of rebuilding. The Gulf of Maine stock is in the more tenuous condition. Measures to rebuild it are central to the Council's management scheme. Those measures will indirectly have beneficial impact on the Georges Bank stock due to the intermingling of these fish.

For the fishing year covered by this FMP, the Council has determined, as its basic management approach, that the size of the Gulf of Maine spawning stock should be maintained at its present level. In order to minimize adverse impacts on the fishery as a whole, rebuilding will not start before 1980.

The Council has developed a model which considers the intermingling be-

tween the stocks and predicts the yields from each area which will meet the basic objective of maintaining the size of the Gulf of Maine spawning stock. The model itself, coupled with this basic objective, is the core of the OY analysis.

Based upon certain assumptions, the FMP estimates the OY's for this fishery in 1978-1979 as 8,000 metric tons for the Gulf of Maine, and 10,000 metric tons from Georges Bank and South. (Because of intermingling, the allowable harvest from the Gulf of Maine is larger than the desired removals, 7,000 metric tons, from the Gulf of Maine spawning stock.) However, if it appears during the fishing season that harvests should be adjusted from area to area, based upon the model's analysis, the FMP provides that the Assistant Administrator should do so without an amendment of the OY estimates specified in the FMP. Such adjustments may be based upon an updated stock assessment, or upon an overharvest or underharvest in one or both of the areas. The adjustments may increase or decrease the allowable catch for a given area or season, but are not expected to change the quotas by more than 15 percent.

The model indicates that, given current stock assessments, maintenance of the Gulf of Maine spawning stock requires that harvest from the State of Maine waters be similar to those of recent years, and that harvests from that stock in the FCZ be limited to 7,000 metric tons. This harvest represents a cutback in the domestic fishery. A lesser harvest is judged by the Council to have unacceptable socioeconomic effects. A greater harvest will have unacceptable biological impacts.

C. *Conservation and management measures.* The FMP establishes a fishing year, from July 1 to June 30. The summer/fall fishery runs from July 1 to November 30 (five months), and the winter/spring fishery runs from December 1 to June 30 (seven months).

One of the conservation and management measures set forth in the FMP is the establishment of two management areas; one for the Gulf of Maine and one for Georges Bank and South. These are described in the definition section of the regulations. Fishing in these areas is interrelated. For example, the small winter/spring quota in the Georges Bank and South area is the result of large numbers of fish from the Gulf of Maine spawning stock intermingling with fish from the Georges Bank spawning stock in that area at that time.

The principal conservation and management measures established by the FMP are quotas by area and season as follows:

Gulf of Maine:  
July to November 1978—4,000 mt

December 1978 to June 1979—4,000 mt  
Georges Bank and South:  
July to November 1978—7,500 mt  
December 1978 to June 1979—2,500 mt

As discussed above, the FMP provides an adjustment procedure so that, in specified circumstances, allowable catches may be adjusted upward or downward in-season without requiring a change in the FMP. The "stock assessments" which would justify such action are semi-formal conclusions reached by scientific research personnel of NOAA in consultation with other scientific personnel, including the staffs of the affected Regional Fishery Management Councils. In the past, these assessments have been structured, critical reviews of recent data and other scientific information.

The FMP determines that the greatest overall benefit from the fishery may be achieved if the pattern of domestic fishing is changed. Traditionally, there have been two domestic fisheries for herring: one in the summer and fall, which is dominated by purse seine vessels, and one in the winter and spring, which is dominated by pair trawl vessels. Catches in these two fisheries over the past two years have been approximately equal. The FMP would shift effort in the Gulf of Maine away from the fall purse seine fishery so that the relationship between the winter/spring and summer/fall fisheries would shift from 50:50 to 70:30. However, requiring this shift immediately would impose undue hardships, so the relationship is continued at 50:50 for 1978-79. This analysis will be reevaluated by the Council in updating the FMP next year.

The FMP also requires statistical reporting and vessel permits. Every vessel which either catches or is likely to catch any Atlantic herring is required to have a permit.

Domestic fishermen are not permitted to discard any Atlantic herring. Foreign vessels are permitted to discard herring in order to allow them to catch their allocation of other species; herring continues to be a "prohibited species" for foreign vessels. Spawning closures and size restrictions were considered by the Council, but determined not to be necessary at this time.

The quota management system of the FMP is implemented in these regulations by providing for closures once the specified quota levels for each management area have been harvested. During a closure, a small incidental take of 5 percent is allowed in most fisheries. It is believed that herring are not taken in very large amounts in other fisheries. The exception is the mackerel fishery, where significant amounts of herring may be taken incidentally. Therefore, a special incidental allowance of 20 percent is provided for the mackerel fishery.

All closures will be accomplished by means of field orders. The regulations provide that the Regional Director must notify all permit holders by mail before a field order may take effect.

The Executive Directors of the New England and Mid-Atlantic Fishery Management Councils will be notified before issuance of a field order. This will insure that interested Council members receive timely notification of pending actions.

Under these regulations, most of the administrative decisions are to be made by the Assistant Administrator for Fisheries, NOAA. The Regional Director, National Marine Fisheries Service, will ultimately have this authority. However, an appropriate delegation of authority must be secured first. When these regulations are promulgated as final, it is expected that the field orders will be issued by the Regional Director.

When adjustments are made to quotas, an opportunity for notice and public comment is provided consistent with the requirements of the Administrative Procedures Act, 5 U.S.C. section 553. In circumstances where this opportunity must be waived, these regulations provide for an alternate public comment period of 15 days after the effective date of the field order. The Assistant Administrator must then reconsider the need for the action in light of any comments which might have been received during that period.

Because of the dynamics of fisheries management, it is often necessary to make these decisions quickly and without normal opportunity for notice and comment, since untimely decisions would not be effective in managing the fishery. NOAA has recognized both the need to make these decisions on a timely basis and the need to provide opportunity for notice and comment. We believe that this approach provides the best method for balancing these considerations and serving the public interest as a whole.

The FMP is specified by the Council to be effective through the current fishing year ending June 30, 1979. At that time the FMP must be amended to be effective for subsequent fishing years.

These regulations are effective immediately as emergency regulations. The Assistant Administrator has found, under section 305(e) of the Fishery Conservation and Management Act of 1976, that "an emergency involving . . . fishery resources exists." Harvests of adult herring in the Gulf of Maine summer/fall fishery have significantly exceeded the levels determined in the FMP to be optimal. The FCZ harvest is expected to exceed the 4,000 mt level by about 15 percent. The harvest in Maine territorial

waters may be double the expected amount. Because the capacity of vessels in the winter/spring fishery could result in harvest of the 4,000 mt quota in two or three weeks, and because the winter/spring harvest is usually concentrated in December and January, immediate implementation of the FMP is essential to prevent the Gulf of Maine quota from being exceeded and the spawning stock from dropping below the critical minimum level.

**NOTE.**—The emergency in the herring fishery makes it unnecessary, impractical, and contrary to the public interest to withhold action to obtain further public comment. Public comment is invited, however, on these emergency regulations as proposed rulemaking.

**NOTE.**—The final environmental impact statement covering the FMP was filed September 18, 1978, with the Environmental Protection Agency.

(16 U.S.C. 1801 et seq.)

Signed in Washington, D.C., this 19th day of December 1978.

JACK W. GEHRINGER,  
Deputy Assistant  
Administrator for Fisheries.

## PART 653—ADULT ATLANTIC HERRING FISHERY

### Subpart A—General Provisions

- Sec.
- 653.1 Purpose and scope.
  - 653.2 Definitions.
  - 653.3 Relation to other laws [Reserved].
  - 653.4 Vessel permits and fees.
  - 653.5 Recordkeeping and reporting requirements.
  - 653.6 Vessel identification.
  - 653.7 Prohibitions.
  - 653.8 Enforcement.
  - 653.9 Penalties.

### Subpart B—Management Measures

- 653.20 Fishing year.
- 653.21 Seasonal catch quotas.
- 653.22 Closures.
- 653.23 Adjustments to seasonal quotas.
- 653.24 Field orders.
- 653.25 Discard prohibitions.
- 653.26 Spawning closures [Reserved].
- 653.27 Size restrictions [Reserved].

AUTHORITY: 16 U.S.C. 1801 et seq.

### Subpart A—General Provisions

#### § 653.1 Purpose and scope.

The regulations in this Part govern the Atlantic herring fishery conducted by fishing vessels of the United States within that portion of the Gulf of Maine and Georges Bank and South areas over which the United States exercises exclusive fishery management authority. These regulations implement the Atlantic Herring Fishery Management Plan, which was prepared and developed by the New England Fishery Management Council and approved by the Assistant Administrator.

#### § 653.2 Definitions.

In addition to the definitions in the Act, the terms used in this Part shall have the following meanings:

**Act** means the Fishery Conservation and Management Act of 1976, as amended, 16 U.S.C. § 1801-1882.

**Assistant Administrator** means the Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration, Department of Commerce, or an individual to whom appropriate authority has been delegated.

**Atlantic herring, or herring,** means *Clupea harengus harengus*, three years of age and older.

**Authorized Officer** means:

- (1) any commissioned, warrant, or petty officer of the U.S. Coast Guard;
- (2) any certified enforcement officer or special agent of the National Marine Fisheries Service;
- (3) any officer designated by the head of any Federal or State agency which has entered into an agreement with the Secretary of Commerce and the Commandant of the Coast Guard to enforce the provisions of the Act; or
- (4) any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (1) of this definition.

**Discard** means to throw away, cast back, or return to the sea any fish that has been caught. The removal and release of a live fish before that fish is brought on board a vessel is not a discard. Failure to retain any live fish once it is on board a vessel, or failure to retain any dead fish, is a discard.

**Fishery Conservation Zone (FCZ)** means that area adjacent to the United States which, except where modified to accommodate international boundaries, encompasses all waters from the seaward boundary of each of the coastal States to a line on which each point is 200 nautical miles from the baseline from which the territorial sea of the United States is measured.

**Fishery Management Plan (FMP)** means the Fishery Management Plan for the Atlantic Herring Fishery of the Northwestern Atlantic, and any amendments thereto.

**Fishing** includes any activity, other than scientific research activity conducted by a scientific research vessel, which involves:

- (1) The catching, taking, or harvesting of fish;
- (2) The attempted catching, taking, or harvesting of fish;
- (3) Any other activity which can reasonably be expected to result in the catching, taking, or harvesting of fish; or
- (4) Any operations at sea in support of, or in preparation for, any activity described in paragraphs (1), (2) or (3) of this definition.

**Fishing Vessel** means any vessel, boat, ship, or other craft which is used for, equipped to be used for, or of a type which is normally used for: (1) fishing for Atlantic herring, or (2) aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing for Atlantic herring, including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing.

**Fishing week** means the weekly period beginning 0001 hours Sunday and ending 2400 hours Saturday.

**Georges Bank and South** means that management area consisting of the territorial and offshore waters of the coastal states of the United States, south of 42°20' N. latitude, excluding Cape Cod Bay.

**Gulf of Maine** means that management area consisting of a portion of the Northwestern Atlantic Ocean north of 42°20' N. latitude, exclusive of the territorial waters of the State of Maine, plus that area south of 42°20' N. latitude which is west of 70°00' W. longitude and which is bounded on the south by the northern shore of Cape Cod, including the waters of Cape Cod Bay.

**Operator**, with respect to any vessel, means the master or other individual on board and in charge of that vessel.

**Owner**, with respect to any vessel, means:

- (1) Any person who owns that vessel in whole or in part;
- (2) Any charterer of the vessel, whether bareboat, time or voyage;
- (3) Any person who acts in the capacity of a charterer, including but not limited to parties to a management agreement, operating agreement, or any similar agreement that bestows control over the destination, function, or operation of the vessel; or
- (4) Any agent designated as such by a person described in paragraphs (1), (2), or (3) of this definition.

**Person** means any individual (whether or not a citizen or national of the United States), corporation, partnership, association, or other entity (whether or not organized or existing under the laws of any State), and any Federal, State, local, or foreign government or any entity of any such government.

**Regional Director** means the Regional Director, Northeast Region, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, Telephone (617) 281-3600, or a designee.

**Vessel Fishing for Mackerel** means any fishing vessel whose catch on board at any time is 75% mackerel (*Scomber scombrus*).

#### § 653.3 Relation to other laws. [Reserved]

#### § 653.4 Vessel permits and fees.

(a) **General.** Every fishing vessel must have a permit issued under this Part.

(b) **Eligibility.** [Reserved]

(c) **Application.** (1) An application for a permit under this Part must be submitted and signed by the owner of the vessel on an appropriate form which may be obtained from the Regional Director. The application must be submitted to the Regional Director at least 30 days prior to the date on which the applicant desires to have the permit made effective.

(2) Applicants shall provide all of the following information:

- (i) The name, mailing address, and telephone number of the applicant;
- (ii) The name of the vessel;
- (iii) The vessel's United States Coast Guard documentation number or State registration number;
- (iv) The home port and gross tonnage of the vessel;
- (v) The engine horsepower of the vessel;
- (vi) The approximate fish hold capacity of the vessel;
- (vii) The type and quantity of fishing gear used by the vessel; and
- (viii) The average size of the crew, which may be stated in terms of a normal range.

(3) Any change in the information specified in paragraph (c)(2) of this section shall be submitted in writing to the Regional Director by the applicant within 15 days of any such change.

(d) **Issuance.** The Regional Director shall issue a permit to the applicant within 30 days of the receipt of a completed application.

(e) **Expiration.** A permit shall expire when ownership, name of the vessel, or gross tonnage changes.

(f) **Duration.** A permit shall continue in full force and effect until it expires or is revoked, superseded, or modified pursuant to Part 621 of this Chapter.

(g) **Alteration.** No person shall alter, erase, or mutilate any permit. Any permit which has been intentionally altered, erased, or mutilated is invalid.

(h) **Replacement.** Replacement permits may be issued by the Regional Director. An application for a replacement permit shall not be considered a new application.

(i) **Transfer.** Permits issued under this Part are not transferable or assignable. A permit shall be valid only for the fishing vessel for which it is issued.

(j) **Inspection.** Any permit issued under this Part must be carried on board the fishing vessel at all times. The permit shall be presented for inspection upon request of any Authorized Officer.

(k) **Revocation.** Subpart D of Part 621 of this Chapter (Civil Procedures) shall govern the imposition of sanctions against a permit issued under this Part. As specified in that subpart D, a permit may be revoked, modified, or suspended if the permit vessel is used in the commission of an offense prohibited by the Act or these regulations, or if a civil penalty or criminal fine imposed under the Act and pertaining to a permit is not paid.

(l) **Fees.** No fee shall be required for any permit issued under this Part.

#### § 653.5 Recordkeeping and reporting requirements

(a) **Fishing vessel records.** (1) The owner or operator of a fishing vessel shall:

- (i) Maintain an accurate and complete fishing logbook on forms supplied by the Regional Director, recording all fishing;
- (ii) Make the fishing logbook available for inspection at any time during or after a trip by an Authorized Officer, or any employee of the National Marine Fisheries Service designated by the Regional Director to make such inspections;
- (iii) Keep the fishing logbook for one year after the date of the last entry in the logbook; and
- (iv) Submit fishing logbook reports as specified in paragraph (a)(2) of this section.

(2) The owner or operator of a fishing vessel shall submit a complete fishing logbook report to the Regional Director, within 48 hours of the end of the fishing week or trip, whichever is the longer time period.

(3) The Assistant Administrator may revoke, modify, or suspend the permit of any vessel whose owner or operator falsifies or fails to submit the records and reports described in this section, in accordance with the provisions of Part 621 of this Chapter (Civil Procedures).

(b) **Transfers and purchases.** Any person who receives herring for a commercial purpose from a fishing vessel shall:

- (1) File a report with the Regional Director on forms supplied by him, within 48 hours of the end of the fishing week in which such receipt took place. Such report shall include information on all transfers and purchases of herring made by him during that fishing week; and
- (2) Permit any Authorized Officer, or any employee of the National Marine Fisheries Service designated by the Regional Director to make such inspections, to inspect any records or books relating to any such purchase or transfer.

#### § 653.6 Vessel identification.

(a) **Official number.** Each fishing vessel over 25 feet (7.62 m) in length shall display its Official Number on the port and starboard sides of the deckhouse or hull and on an appropriate weather deck so as to be visible from enforcement vessels and aircraft. The Official Number is the documentation number issued by the Coast Guard or the registration of number issued by a State or the Coast Guard for undocumented vessels.

(b) **Numerals.** The Official Number shall be at least 18 inches (45.72 cm) in height for fishing vessels of 65 feet (19.8 m) in length and at least 10 inches in height (25.4 cm) for all other vessels over 25 feet (7.62 m) in length, and shall be painted legibly in block Arabic numerals in contrasting color.

(c) **Vessel length.** The length of a vessel, for purposes of this section, shall be that length set forth in Coast Guard or State records.

(d) **Duties of operator.** The operator of each fishing vessel shall:

- (1) Keep the Official Number clearly legible and in good repair; and
- (2) Ensure that no part of the fishing vessel, its rigging, or its fishing gear obstructs the view of the Official Number from an enforcement vessel or aircraft.

#### § 653.7 Prohibitions.

It is unlawful for any person to:

- (a) Fish for, take, catch, harvest, or land any Atlantic herring in an area closed pursuant to section 653.24 of this Part;
- (b) Discard Atlantic herring at sea;
- (c) Use any vessel for the taking, catching, harvesting, or landing of any Atlantic herring unless said vessel has a valid permit issued pursuant to this Part, and such permit is on board such vessel;
- (d) Fail to report to the Regional Director within 15 days any change in the information contained in the permit application for a vessel;
- (e) Falsify or fail to make, keep, maintain, or submit any logbook, or other record or report required by this Part;
- (f) Make any false statement, oral or written, to an Authorized Officer, concerning the taking, catching, landing, purchase, sale or transfer of any herring;
- (g) Refuse to permit an Authorized Officer, or any employee of the National Marine Fisheries Service designated by the Regional Director to make such inspections, to inspect any logbooks or records relating to the taking, catching, harvesting, landing, purchase or sale of any herring;
- (h) Possess, have custody or control of, ship, transport, offer for sale, sell, purchase, import, export or land any Atlantic herring taken in violation of

the Act, this Part, or any regulation promulgated under the Act;

(i) Refuse to permit an Authorized Officer to board a fishing vessel subject to such person's control for purposes of conducting any search or inspection in connection with the enforcement of this Act, this Part, or any regulation promulgated under the Act;

(j) Fail to affix and maintain permanent markings as required by section 653.6 of this Part;

(k) Forcibly assault, resist, oppose, impede, intimidate, threaten or interfere with any Authorized Officer in the conduct of any search or inspection under the Act;

(l) Resist a lawful arrest for any act prohibited by this Part;

(m) Interfere with, delay, or prevent, by any means, the apprehension or arrest of another person knowing that such other person has committed any act prohibited by this Part;

(n) Interfere with, obstruct, delay, or prevent by any means the lawful investigation or search in the process of enforcing this Part;

(o) Fail to comply immediately with enforcement and boarding procedures specified in section 653.8 of this Part;

(p) Violate any other provision of this Part, the Act, or any regulation promulgated pursuant thereto.

#### § 653.8 Enforcement.

(a) *General.* The operator of any fishing vessel shall immediately comply with instructions issued by an Authorized Officer to facilitate safe boarding and inspection of the vessel, its gear, equipment, logbook, and catch for purposes of enforcing the Act and this Part.

(b) *Signals.* Upon being approached by a Coast Guard cutter or aircraft, or other vessel or aircraft authorized to enforce the Act, the operator of the fishing vessel shall be alert for signals or other communications conveying enforcement instructions. [The following signals extracted from the International Code of Signals are among those which may be used:

(1) "L" meaning "You should stop your vessel instantly,"

(2) "SQ3" meaning "You should stop or heave to; I am going to board you," and

(3) "AA AA AA etc.," which is the call to an unknown station, to which the signaled vessel must respond by illuminating the vessel identification required by section 653.6]

(c) *Boarding.* A vessel signaled to stop or heave to for boarding shall:

(1) Stop immediately and lay to or maneuver in such a way so as to permit the Authorized Officer and his/her party to come aboard;

(2) Provide a ladder for the Authorized Officer and his/her party;

(3) When necessary to facilitate the boarding, provide a man rope, safety line and illumination for the ladder; and

(4) Take such other actions as are necessary to insure the safety of the Authorized Officer and his/her party to facilitate the boarding.

#### § 653.9 Penalties.

Any person or fishing vessel found to be in violation of this Part will be subject to the civil and criminal penalty provisions and forfeiture provisions prescribed in the Act, and Parts 620 (Citations) and 621 (Civil Procedures) of this Chapter.

#### Subpart B—Management Measures

##### § 653.20 Fishing year.

The fishing year for Atlantic herring begins on July 1 and ends on June 30 of the following year.

##### § 653.21 Seasonal catch quotas.

(a) *Gulf of Maine.* Quotas limiting the amount of Atlantic herring which may be caught in the Gulf of Maine management area during the following two periods of the fishing year are:

(1) For the period from July 1, 1978, through November 30, 1978, 4,000 metric tons; and

(2) For the period from December 1, 1978, through June 30, 1979, 4,000 metric tons.

(b) *Georges Bank and South.* Quotas limiting the amount of Atlantic herring which may be caught in the Georges Bank and South management area during the following two periods of the fishing year are:

(1) For the period from July 1, 1978, through November 30, 1978, 7,500 metric tons; and

(2) For the period from December 1, 1978, through June 30, 1979, 2,500 metric tons.

##### § 653.22 Closures.

(a) *Closures.* The Assistant Administrator shall project, at least once a month, a date when the quota of herring for each management area, less an anticipated amount to be taken incidentally pursuant to paragraph (c) of this section, will be caught. If the projected date is earlier than the end of the period, the Assistant Administrator shall issue a field order prohibiting fishing for herring in the applicable management area after the projected date.

(b) *Prohibitions.* Fishing for Atlantic herring in the applicable management area is prohibited from the effective date of a field order issued pursuant to section 653.24, except as provided in paragraph (c) of this section.

(c) *Incidental catch.* (1) Fishing vessels may fish in an area closed pursuant to this section for fish other than

herring and be allowed an incidental catch of herring of not more than 5 percent of the total catch on board.

(2) Vessels fishing for mackerel in an area closed pursuant to this section shall be allowed an incidental catch of Atlantic herring of not more than 20 percent of the total catch on board.

##### § 653.23 Adjustments to seasonal quotas.

(a) *Adjustments.* The Assistant Administrator shall monitor fishing levels for and stock sizes of herring. If he finds that the Gulf of Maine spawning stock is not being maintained at approximately 67,600 metric tons, the Assistant Administrator may adjust the quotas in section 653.21.

(b) *Considerations.* In making any adjustment under paragraph (a) of this section, the Assistant Administrator shall consider:

(1) The effect of fishing levels within the management areas;

(2) The catch per unit of effort and rate of harvest of herring within the management areas;

(3) Relative abundance and distribution of herring stocks within the management areas;

(4) The condition of the herring stocks within the management areas;

(5) Fishing levels and abundance of herring stocks in waters outside the management areas; and

(6) Any other relevant information.

(c) *Procedure.* (1) The Assistant Administrator shall publish proposed adjustments to the quotas in the FEDERAL REGISTER for public comment before they are made final, unless the Assistant Administrator finds for good cause that such notice and public procedure are impracticable, unnecessary, or contrary to the public interest.

(2) If the Assistant Administrator decides, for good cause, that an adjustment is to be made without affording a prior opportunity for public comment, comments on the necessity for, and the extent of, the adjustment shall be received by the Regional Director for a period of 15 days after the effective date of the field order. During any 15-day comment period, the Regional Director shall make available for public inspection, during business hours, the aggregate data upon which the adjustment was based.

(3) If comments are received during any comment period, the Assistant Administrator shall reconsider the necessity for and the extent of the adjustment. As soon as practicable after that reconsideration, he shall either (i) publish in the FEDERAL REGISTER a notice of continued effectiveness of the adjustment, with a response to comments received; or (ii) modify or rescind the adjustment.

(4) *Consultation and notice.* The Assistant Administrator shall give notice of adjustments to the quotas by issu-

ance of a field order in accordance with section 653.24 of this Part.

#### § 653.24 Field orders.

(a) *Contents.* Field Orders issued by the Assistant Administrator under this Part shall include the following information:

(1) A description of the management area which is the subject of the closure or quota adjustment;

(2) The effective date and any termination date of the closure or quota adjustment; and

(3) The reason for the closure or quota adjustment.

(b) *Consultation.* Prior to issuance of any field order, the Regional Director shall notify the Executive Directors of the New England and Mid-Atlantic Fishery Management Councils.

(c) *Effective date.* No field order issued under this section shall be effective until:

(1) It is filed for publication with the FEDERAL REGISTER; and

(2) It has been posted for at least 48 hours prior to its effective date, and sent by mail to all persons holding permits issued under section 653.4.

(d) *Termination.* Orders issued pursuant to this section shall remain in effect until the earlier of the following dates:

(1) Any expiration date stated in the field order; or

(2) The effective date of any order which modifies, rescinds, or supercedes the initial order.

#### § 653.25 Discard prohibitions.

There shall be no discarding of Atlantic herring at sea by fishing vessels.

#### § 653.26 Spawning closures [Reserved]

#### § 653.27 Size restrictions [Reserved]

#### FISHERY MANAGEMENT PLAN FOR THE ATLANTIC HERRING FISHERY OF THE NORTHWESTERN ATLANTIC

#### Appendix 3—Biological Model for Determining Area/Period TAC, Technical Description

#### 1. Statement of the Problem

#### 1.1. The Management Unit and Its Institutional Framework

#### 1.1.1. Preface

#### The United States has declared management authority over the stocks of herring that are endemic to an area designated as a Fisheries Conservation Zone (FCZ). The zone has as its inner boundary the seaward limit of the territorial waters of the coastal states and as its outer boundary a line parallel to, and 200 nautical miles from, the baseline from which the territorial seas are measured. This authority was established on March 1, 1977 by Pub. L. 94-265, the Fishery Conservation and Management Act (FCMA). Under the FCMA, the United States assumes sole responsibility for the pursuit of scientific research, the establishment of management plans and policies, and the enforcement of the provisions of such plans and policies. These activities must be conducted, for the fishery resources within the FCZ, in a manner that will provide the greatest overall benefit to the nation from the resources.

#### Pursuant to the FCMA, stocks of herring beyond the territorial seas will be managed by the U.S. Department of Commerce according to objectives, policies and proposed regulations established by the New England Regional Fishery Management Council. These policies and regulations are developed in an Atlantic Herring Fishery Management Plan (FMP) and are used to provide an "optimum yield" from the fishery. The "optimum yield" is based on the best available scientific data; it is sensitive to the potential for overfishing and it incorporates considerations of biological, social, economic, and environmental factors in determining the greatest overall benefit from the herring fishery. The FMP also establishes the expected domestic catch of herring, and in doing so it defines the surplus production

available for the foreign nationals to harvest. Once in place, the FMP becomes the vehicle by which the Department of Commerce regulates the Atlantic herring fishery within the FCZ.

#### 1.1.2. The Management Unit

The fishery resources addressed by this FMP are the herring stocks which spawn in and are generally restricted to the waters off the U.S. northeast and mid-Atlantic coasts out to the limit of the U.S. Fishery Conservation Zone. The two resource components identified are the Gulf of Maine and the Georges Bank herring stocks. A third resource component, the Southwest Nova Scotia adult herring stock demonstrates some seasonal migrations into the U.S. Fishery Conservation Zone. As such, it enters into the analysis required to identify U.S. management strategies. It is, however, not made subject to the provisions of this FMP.

In delineating the management units within the total resource, it is necessary to acknowledge two provisions of the FCMA. The national standards for fishery conservation and management specify that:

"To the extent practicable, an individual stock of fish shall be managed as a unit throughout its range, and interrelated stocks of fish shall be managed as a unit or in close coordination." (Sec. 301(a)(3)).

The FCMA asserts also that:

"Except as provided in subsection (b) nothing in this Act shall be construed as extending or diminishing the jurisdiction or authority of any state within its boundaries." (Section 306(a)).

The juvenile herring of the Gulf of Maine (fish aged one to three) are largely confined to areas within 3 miles off the State of Maine coastline. Three year old herring, however, migrate to a degree and become available to the adult fisheries both inside and outside the three mile zone. During any given year fish aged 3 and older belonging to Gulf of Maine stock may become subject to fishing in waters over which the States of Maine, New Hampshire, Massachusetts and Rhode Island have management authority as well as in the U.S. Fishery Conservation Zone outside state boundaries. A similar situation exists with respect to the Georges Bank herring stock whereby herring during certain seasonal migration phases appear in the territorial waters off the States of Rhode Island, Connecticut and New York.

In order to meet the need for coordinated management of the herring resources while at the same time recognizing the management authorities of the states, it is recommended that:

1. the provisions of this FMP through appropriate institutional arrangements be made applicable to all herring fisheries from the shore lines of the New England and Mid-Atlantic States out to the limit of the U.S. Fishery Conservation Zone with the exception of the fisheries for juvenile herring in the territorial waters of the State of Maine; and that

2. the management provisions be specified based on the presumption that the State of Maine in the management of the fisheries for juvenile herring carefully considers the bio-economic interaction between the juvenile and adult components of the Gulf of Maine herring stock and through appropriate measures (1) seeks to contribute towards the achievement of management objective and (2) conducts the herring fishery within 3 miles in a manner that does not impede the achievement of the Council's objective 1.

It is recognized that management authority over the Georges Bank herring resources is an issue currently being contested between the U.S. and Canada. It is not within the purview of this FMP to establish management authority. Rather this FMP is generated under a scenario which assumes that the Georges Bank herring stock will be retained under U.S. management jurisdiction.

#### 1.2. A Descriptive Summary of Resources and Industry

##### 1.2.1. Descriptive Summary of the Resource

The sea herring of the western North Atlantic is a pelagic, schooling species which is confined to the continental shelf waters from Labrador to Cape Hatteras. Herring populations coming under the jurisdiction of the FCMA, if only briefly during the course of their seasonal migrations, include the Georges Bank, Gulf of Maine and southwest Nova Scotia stocks.

Very high catches of herring (ages 3 and older) were taken during the late 1960's and early 1970's by the distant water fleets, principally northern European trawlers, in the continental shelf waters from Georges Bank to Cape Hatteras. Allocations to those foreign fleets were sharply curtailed in 1976 and 1977 and since then the pattern of the

remaining fishing effort, that of the U.S. and Canada, has been centered in the Gulf of Maine/southern New England and the southwestern Nova Scotia/Bay of Fundy regions, with the largest catches made by the Canadians in the latter region.

In addition, a sardine fishery, that predates the adult fishery, has harvested juvenile herring (ages 1 to 3) in coastal waters of Maine and the Bay of Fundy, and has traditionally employed fixed gear (stop seines and weirs) to take a major portion of the catch.

It is generally understood that the Georges Bank, Gulf of Maine and Southwest Nova Scotia stocks are separate reproductive entities associated with well defined, specific spawning areas but are not isolated genetically from one another. Therefore, management must use stock specific criteria when considering objectives and strategies. The migratory movement of adult herring, however, has complicated attempts to manage on a stock specific basis. A realization has only recently emerged that at various times of the year fish from all three stocks may be expected to geographically overlap in varying proportions and become seasonally subject to capture in the various commercial fisheries.

Details regarding the current knowledge of herring migration behavior are provided to the reader in Appendix 1. In addition, specific information relating to the biology of sea herring in the region off the northeast United States is presented in Appendix 1, detailing life history, ecological relationships, population dynamics and habitat requirements.

##### 1.2.2. Industry Structure and Performance

The structure of the domestic industry that depends partly on the herring resources available off the U.S. northeast coast and partly on imports at various market levels is shown schematically in Figure 1.2.2.A. This product flow diagram illustrates the major linkages between various sectors in the industry.

Any attempt to manage the herring fisheries in the region (Blocks 1A-1C, 1E in Fig. 1.2.2.A.) through catch limitations or otherwise will to some extent affect the landings supply of herring (Blocks 2A and 2D). As such, it will impact on the welfare of and the distribution of welfare between the primary user groups (i.e. the fishermen and owners of fishing vessels).

[3510-22-C]

Figure 1.2.2.A. Schematic overview of current product flows in the New England/Mid-Atlantic herring industry.

Changes in landings supply brought about by resources management measures will, however, also impact on the supply of raw material available to various secondary producers (i.e. processing groups, Blocks 3A-D). In consequence the net economic results derived by these user groups from the herring resources will be affected.

Through adjustments in the production of herring products (Blocks 4A-E) induced by the changes in the availability of raw material, the impacts of management regulations reach the domestic consumer level (Block 5B) and foreign user groups (Block 5D).

As quantities change at the various markets levels, prices will adjust. As a result net economic benefits to various industry user groups at successive market levels become affected by management measures. Proper prediction of such changes requires knowledge of the structure and performance of the markets on which the domestic and foreign user groups interact. It also is dependent on knowledge of the behavior of various user groups in response to prices observed on these markets.

A detailed study of the industry structure and its performance was undertaken. The detailed results of this study are documented in Appendix 2: "Harvesting and Resources Utilization". A statistical summary of major activity or performance indicators are shown below (Table 1.2.2.A.).

### 1.3. Perceived Management Problems

The problems of management of the herring resources to be subjected to the provisions of this FMP fall in the following three general categories:

(a) The current conditions of the herring stocks, the market induced pressures for expanded harvests and the economic need of the New England fishing community.

(b) The complexity of the institutional framework within which the resources have to be managed.

(c) Uncertainty relative to the future values of biological and economic parameters required for an appropriate analysis of impacts of alternative strategies.

Various aspects of these problems are dealt with in detail throughout this FMP. They are briefly summarized below:

(a) The current low biomass of herring in the Gulf of Maine and on Georges Bank call for management aimed at rebuilding of stocks. This need requires reconciliation with current pressure for increased harvests of the Gulf of Maine herring stock which is induced by the current and expected marketing prospects in Europe for frozen herring.

(b) Ideally, management of fishery resources that cross the geographical boundaries separating the management jurisdictions of U.S. Government, the Canadian government, and the individual States would be most effective under a single overall management plan endorsed by all parties. Realistically, one overall management plan is not feasible at this time, therefore, a minimum requirement for effective management is that the separate management plans promulgated by the various entities be closely coordinated.

(c) The management regulations to be implemented from this FMP will impact on future resource abundance and availability, as well as on the stream of future benefits that user-groups at various levels will derive from these resources. In developing this FMP, these impacts need to be considered. The reliability of our assessments of such future impacts depends on the accuracy with which we can predict the biological and economic parameters that characterize our decision environment. Our current predictive ability is however limited. In particular, it is important to provide for an improved understanding of both the functional relationship between parental stocks and subsequent recruitment, and the relationship between year class strength and key environmental variables.

#### 1.4. Management Objectives

In recognition of the above the Council has established that the management of the Atlantic herring shall have the following two objectives:

(1) To manage the Gulf of Maine and Georges Bank/S.N.E. adult sea herring stocks so as to achieve individual biomass levels at which continued and relatively stable annual recruitment is probable allowing for annual rates of stock increases that are consistent with:

a. the provision that spawning stocks in all areas are maintained at or above current levels of abundance; and with

b. reasonable social and economic impacts on the various industry and consumer user groups including those user groups dependent upon the Gulf of Maine juvenile herring fishery.

(2) To manage the Gulf of Maine juvenile herring stock so as to stabilize and subsequently rebuild the sardine industry.

Consistent with the discussion in Section 1.1.2, this FMP does not attempt to design strategies directly aimed at objective 2.

#### 1.5. Approach to Determination of "Optimum Yield" and Associated Management Measures

The FCMA requires each FMP to specify an overall annual catch limitation (TAC) and a total foreign allowable catch. These two management instruments coupled with one or more additional regulatory measures, the use of which are left by the Act to the discretion of the Councils, constitute a management strategy. The "optimum yield" (OY) in this general context is identical to the particular TAC included in the selected strategy.

The selection of a particular management strategy should be based on the evaluation of intertemporal, as well as intratemporal consequences of strategies. These dimensions are discussed below.

##### 1.5.1. The Intertemporal Dimension of Determining a Management Strategy

The biological, social and economic consequences of determining overall catch limitations for the 1978 herring fisheries in the

two management areas extend into the future. A decision to abstain from or restrict harvesting a resource today is an investment decision. Like other investment decisions, it requires determination of an expected return within some defined planning period. In the herring fishery, biological parameters as well as current and future prices and costs determine return on investment. Direct and indirect effects on employment are likely to be additional considerations relevant to an assessment of a social return on rebuilding of herring stocks. In order to evaluate the economic and social impacts of strategies designed to achieve various annual rates of stock recovery, it becomes necessary to predict future streams of net benefits and costs associated with individual strategies. These future streams of net benefits and costs in turn are impacted by the particular sets of management regulations enforced in future years. Management strategies, therefore, have to be viewed as encompassing a time span longer than one year. It follows that annual "optimum yields" have to be determined for multiple years, rather than a single year, recognizing that future "optimum yields" will have to be revised as our perception of the biological and economic decision environment improves, and as our objectives for management change.

The selection of a management strategy in the Atlantic herring fishery is therefore equivalent to finding the optimum intertemporal distribution of benefits to the nation. Part 2 of this FMP offers an analytical base for making a choice.

##### 1.5.2. The Intratemporal Dimension of Determining a Management Strategy

A continuous theme throughout the development of this FMP is the significance of the spatial and seasonal distribution of annual allowable harvests. The significance of these distributions has two interrelated aspects. First, the annual allowable harvests that provide for specific annual rates of stock recovery are themselves functions of the spatial and seasonal catch distributions. Second, these distributions impact on the allocation of benefits to individual user groups. In determining both "optimum yield" for a given year, as well as in determining the allocations of this OY by area and season, the intratemporal distribution of benefits to various user groups need to be assessed. Section 2.6. of the analytical part of this FMP provides a base for identifying options and making a choice.

#### FINAL

### ATLANTIC HERRING FISHERY MANAGEMENT PLAN

#### PART 2

### IDENTIFICATION OF STRATEGIES AND IMPACT ANALYSIS

#### 2. Identification of Strategies and Impact Analysis

##### 2.1. Introduction

The FCMA specifies the management instruments available to the Council for design of strategies to achieve the adopted management objectives. These are:

- (1) An overall annual catch limitation in the fishery (TAC), Sec. 303(a)(3).
- (2) Total foreign allowable catch; Sec. 303(a)(4)(B).
- (3) Designation of fishing zones and fishing periods, Sec. 303(b)(2).

(4) Catch limitations by area, species, season, size, etc., Sec. 303(b)(3).

(5) Gear/vessel specifications, Sec. 303(b)(4).

(6) Permits/fees, Sec. 303(b)(1).

(7) Access limitation, Sec. 303(b)(6).

(8) Other regulatory measures, Sec. 303(b)(7).

The FCMA requires that each FMP includes specification of the first two instruments. The use of the remaining six instruments is left to the discretion of the Council. This Plan shall therefore, as a minimum, include an overall catch limitation (TAC) and a total foreign allowable catch in the Atlantic herring fishery.

A management strategy is a particular combination of two or more management instruments where certain values/conditions have been assigned to the instruments.

Given the nature of the herring resource, the management problems as perceived and the management objectives as adopted, the formulation and evaluation of alternative management strategies need to address two major issues/decision areas. They are (a) the timing and annual rate of progress in the stock rebuilding program, and (b) the spatial and seasonal distribution of a given annual allowable harvest:

##### (a) The Timing and Annual Rate of Progress in the Stock Rebuilding Programs

A decision to rebuild a depressed fish stock is fundamentally an investment decision. Real investment and the restoration of fish resources are related efforts, require similar sacrifices or costs and play similar roles in the general economic process. Both look to the provision of future satisfactions that would not be obtainable without some present sacrifice. Both involve a transfer of consumption from present to future; therefore both, to be rational decisions, require a comparison of present sacrifice with expected future satisfaction. Either investment or rebuilding of fish stocks increases net satisfactions if the transfer of some consumption from present to future necessitates a present sacrifice which is smaller than the value that presently is attached to the expected increase in future satisfactions.

Having established that the objectives for management of the Atlantic herring resources include stock restoration, the Council's decision is one of choosing between alternative investment projections, i.e. stock restoration strategies.

Each may be characterized, among other things, through its time horizon and time path of resource utilization. In the case at hand, restoration strategies may differ with respect to the particular future time periods in which the desired stock levels of the two herring resources will be reached. The time paths of harvesting leading up to such future time periods may vary between strategies. There is therefore an infinite number of rebuilding strategies that theoretically could be considered by the Council.

The process of identifying a large number of individual management strategies and assessing their economic impacts in order to find the "best" strategy can be lengthy and difficult. The usefulness of pursuing this avenue is limited by our ability to effectively discriminate between individual strategies based on their predicted impacts (on stock size) in future time periods. Recognition of this limitation is the primary reason for restricting the number of alternative stock rebuilding programs considered.

##### (b) The Spatial and Seasonal Distribution of Annual Allowable Harvests

Herring aggregations available to U.S. fishermen in the Fishery Conservation Zone are composed of more than one spawning stock. Seasonal migrations of the different stocks in the U.S. and Canadian waters result in variations throughout the year in stock intermingling ratios in any given area. As a result the allowable levels of harvest by area are partially functions of the seasonal distribution of catches.

Simultaneously, seasonal allocations/quotas by area impact on the allocation of benefits to various user groups primarily through the accessibility of the resources to various gear types during spawning and overwintering periods. The nature of these relationships need to be explored so as to arrive at feasible options for area/period TACs and assessments of their impacts on total benefit from the fishery and its distribution between user groups.

##### 2.2. Summary of Analysis

The biological and economic analysis in support of the herring FMP development is summarized below:

##### (a) With respect to the timing and annual rate of progress in the stock rebuilding program:

(1) Based on initial assessments of the biological consequences of leaving the 5Y adult herring fishery unregulated, the option of the Council taking no action to restrict 5Y adult herring catch below the levels of recent years was ruled out as a management strategy to be consistent with the adopted management objectives.

(2) Four alternative stock restoration strategies were identified ( $S_1$ ,  $S_2$ ,  $S_3$ ,  $S_4$ ). Stock rebuilding is initiated in 1978 under  $S_1$ , in 1979, under  $S_2$ , etc. Each of these strategies specified annual TACs for the adult herring fishery in 5Y over a ten year period. For each strategy, expected domestic catches (EDCs) in the 5Z/SA6 area were indicated. These EDCs and the annual goals of rate of rebuilding of the Georges Bank stock together determine the total annual foreign allowable herring catches in the 5Z/SA6 area.

(3) The returns to the harvesting sector, value of processing, labor income and aggregate regional income were used as benefit criteria. The present value method was applied to discriminate between strategies. Under the assumptions made, results showed  $S_1$  to be preferable to  $S_2$ , which in turn was preferable to  $S_3$ , etc. One implication is that delays in initiation of stock rebuilding imply foregone benefits.

(4) Because of the expected domestic catch of adult herring in 5Y during the first six months of unregulated fishing in 1978, the option of implementing  $S_1$  has already passed. Therefore  $S_2$ , i.e. initiation of 5Y stock restoration in 1979, is the recommended strategy. This strategy limits the annual TAC of adult herring in 5Y outside State of Maine waters to 1,000 tons during the period 1979-1983.

##### (b) With respect to the spatial and seasonal distribution of annual allowable harvests:

(1) The analytical model for generating area TACs, consistent with given spawning stock recovery goals, was applied to examine the impacts of a series of alternative seasonal distributions of the annual catch of adult herring in 5Y (outside State of Maine waters) on the magnitude of the annual harvest that would provide for zero percent

growth in the Gulf of Maine spawning stock.

(2) Although the total removals from the Gulf of Maine spawning stock remain the same, various seasonal distributions of harvest in 5Y will effect the total allowable catch; a seasonal harvest that favors winter/spring will result in an increase in the total allowable catch because fishing mortality is concentrated on mixed stocks, but a seasonal harvest that favors the fall will minimize the total allowable catch because the fishing mortality is concentrated on the indigenous stock. It must be pointed out, however, that the historical participation of various gear types in the 5Y adult herring fishery may be altered by the application of various seasonal catch distributions and resulting TAC's.

(3) If herring are not available to the adult fishery in certain areas and periods because of unanticipated behavioral patterns, accommodation may be made within the analytical mode to adjust area/period TAC's without changing the level of total removals from the Gulf of Maine spawning stock. In general, if herring are more or less available in 5Y relative to 5ZW during the winter/spring period, allowable catch may be shifted between the two areas according to specific assumptions of the distribution model. The various options considered for the 5Y area/period TAC's are based on limited removals that allow for the maintenance of the Gulf of Maine spawning stock biomass, but not its increase. If some stock rebuilding were desired in the Gulf of Maine for the fishing year 1978/79, it would be necessary to reduce the suggested quotas for both the fall and winter/spring periods.

(4) The annual catch of herring within the juvenile fishery of the State of Maine has traditionally included some age 3 and older herring. It is consistent with effective management of the herring resources that the State of Maine take appropriate measures to manage the age 3+ herring resource within its State waters in a manner which will not impede the achievement of the Council's management objectives.

(5) The quota for the 5Z fall fishery is quite flexible. It has been assumed that the 5Z/SA6 spawning stock can sustain a harvest of 20,000 MT and still increase its abundance up to the minimum desirable spawning stock size. So long as the 5Z harvest is taken during the fall period, the 5Y spawning stock is not expected to be negatively impacted, and considerable accommodation can be made in 5Z for the traditional 5Y fall fishery interests.

(6) An evaluation of the gross revenue implications to the harvesting sector and its subgroups was made. The sensitivity of the distribution of gross revenues by major gear groups, purse seines and pair trawls to alternative seasonal 5Y TACs was tested.

(7) Changes in gross revenues from herring fishing to major gear groups for 1978/79 were predicted under alternative area/period TAC options and an assumed requirement of zero annual growth in the 5Y spawning stock. Substantial reductions in gross revenues compared to recent years are predicted unless compensatory income from the summer-fall herring fishing on Georges Bank is forthcoming.

(8) The conditional gross revenue forecast suggest that a policy of maximizing gross benefits to the harvesting sector within some stock growth constraint can only be pursued at the expense of reduced gross

earnings to purse seiners. A numerical evaluation of this trade off was shown.

##### 2.3. Biological Analysis of the Resource

##### 2.3.1. Stock Abundance and Present Condition

2.3.1.1. *Gulf of Maine Adult Herring Stock*  
In coming year classes to the adult fishery in the Gulf of Maine do not fully recruit until the age of 7. As a result, the impact of year class strength may be felt for many years as the particular age group passes through the fishery. Since 1973, the 1970 year class has been dominant in catches from the adult herring fishery (age 3+). The size of this year class at age 3 has been estimated to be 64,200 metric tons (NOAA/NMFS June 1977 assessment) and as such reflects the largest recruiting year class abundance in the history of the fishery. The previous dominant year class occurred in 1966 and was calculated (1974 ICNAF Redbook, p. 42) to be 32,300 MT at age 3.

Year classes prior to 1970 can be expected to contribute only slightly to catches from the 5Y adult fishery in 1978. As a result, relative year class strengths since 1970 can be expected to influence projections of stock growth and acceptable levels of catch. Previous assessments of the 1971 year class assumed that the abundance at age 3 (1974 ICNAF Redbook) was equivalent in size to the relatively poor 1969 year class at age 3 (73 million fish, 8,800 MT). Current assessments indicate that the abundance of the 1971 year class was 5% larger (9,400 MT, age 3) then the 1969 year class. The 1972 year class has been assumed equal to the 1971 year class since 1975 (1975 ICNAF Redbook, p. 46) based upon catches in the Maine juvenile fishery and the poor catches in the Gulf of Maine adult fishery.

While 1975 catch data from the Maine juvenile fishery indicated that the 1973 year class was no more abundant than the 1972 year class, 111.4 million herring were taken from the Maine juvenile fishery in 1976, the largest age 3 catch since 1969. This year class has, therefore, been assumed to vary in size at age 3 from 64 million (equal to the 1969 year class) to 150 million fish (by convention equivalent to one half the 1966 year class age 3 level of abundance, 1975 ICNAF Redbook, p. 46). For 1977 and 1978 it is assumed that this 1973 year class is equal to one half the 1966 year class size.

The abundant catch of the 1974 year class as 2 year olds in the Maine juvenile fishery (310 million fish) suggested a year class strength equivalent to the 1966 year class (32,300 MT). The previous assessments, that the 1974 year class was equal to the poor 1969 year class (9,000 MT), were assumptions based on very limited data and no longer appear to be valid. Information on the size of the 1975 year class is available from larval surveys and age 1 (1976) and 2 (1977) catches in the Maine juvenile fishery. For the purposes of the current assessment, this year class is assumed equal to the 1969 year class at age 3.

Assessment of the Gulf of Maine spawning stock (age 4 and older) for the beginning of 1976 indicated an abundance of 60,600 MT (ICNAF Redbook, 1976, p. 35-50). The latter assessment predicted that the 1976 catch of 20,000 MT in the Gulf of Maine would result in a stock decrease to 43,000 MT at the beginning of 1977. Due to changes in the recruitment assumptions for year classes 1973 and 1974 noted above, it now appears that the stock size only decreased to 52,800 MT at the beginning of 1977.

Catches reported to date for the 5Y adult herring fishery indicate that the expected catch for 1977 will approximate 20,000 MT. Assuming this level of catch for 1977 and the revised 1973, 1974 year class strengths,

the stock at the beginning of 1978 is projected to be 67,600 MT (a 28% increase over the year). Table 2.3.1. summarizes the assumptions of spawning stock size and recruitment used in the current assessment.

Table 2.3.1.

## Gulf of Maine (5Y) Adult Herring Fishery:

## Summary of Stock and Recruitment Assumptions

| Year | Stock Size<br>(age 4+)<br>beginning of year<br>(MT) | Recruitment<br>at age 3<br>(MT) | Year Class<br>Represented |
|------|-----------------------------------------------------|---------------------------------|---------------------------|
| 1969 | 140,900                                             | 32,000                          | 1966                      |
| 1970 | 130,800                                             | 18,300                          | 1967                      |
| 1971 | 100,900                                             | 14,000                          | 1968                      |
| 1972 | 66,200                                              | 8,800                           | 1969                      |
| 1973 | 31,100                                              | 64,200                          | 1970                      |
| 1974 | 40,100                                              | 9,400                           | 1971                      |
| 1975 | 80,700                                              | 9,300                           | 1972                      |
| 1976 | 60,600                                              | 16,000                          | 1973                      |
| 1977 | 52,800 <sup>1/</sup>                                | 32,300                          | 1974                      |
| 1978 | 67,600 <sup>2/</sup>                                | 8,800 <sup>3/</sup>             | 1975                      |

<sup>1/</sup> Based upon revised estimates of 1973, 1974 year classes (see text).

<sup>2/</sup> Assumes 20,000 MT catch for 1977 in 5Y.

<sup>3/</sup> Pending further data, the 1975 year class is assumed to be equal to the relatively poor 1969 year class at age 3.

## 2.3.1.2. Georges Bank Adult Herring Stock

Recruitment into the Georges Bank fishery is more rapid than into the Gulf of Maine fishery, such that an incoming year class is fully recruited by age 5. As a result, the impact of variations in year class strength can be expected to be manifested earlier on Georges Bank than in the Gulf of Maine. Because the analytical technique used to assess year class strength and fishing mortality rate (cohort analysis) is most accurate under conditions of increasing exploitation, the diminishing catches resulting from restrictive ICNAP quotas have in recent years provided a less accurate basis for determination of the 1971-1974 year class strengths on Georges Bank. In recent years there has been a high level of correlation for year class strengths as determined from corresponding analyses of the Georges Bank and Gulf of Maine adult fisheries. Therefore, the same assumptions as to year class strength have been applied to both fisheries.

Previous assessments indicated that the 1973 and 1974 year classes were equivalent

in size to the 1969 year class. Based upon the strength of these year classes in the Maine juvenile fishery, however, stock estimates were revised upward to 109,000 and 219,000 MT respectively. With low catches in 1976, the projected stock size (age 4+) at the beginning of 1977 has been given at 270,000 MT. If, as has been assumed in previous assessments, the catch from 5Z/SA6 had been 28,000 MT, the stock (age 4+) would have been expected to increase to 456,000 MT at the beginning of 1978. It should be noted that catches of herring from 5Z/SA6 in 1977 were less than 500 MT for domestic vessels and about the same for foreign vessels. As a result, it is not possible to adequately monitor the age distribution of the exploitable stock, and thus the recruitment of 1973 and 1974 year class fish cannot be assessed. In the current assessment the estimated 1973 and 1974 year classes make up 73 percent by weight of the stock size in the 5Z/SA6 fishery. Given that the above revisions of the 1973 and 1974 year classes are incorrect and those year classes are in fact equivalent to the 1969 year class, then the stock size at the begin-

ning of 1978 will be 319,000 MT, assuming a 1977 catch of 1,000 MT. The assessment is thus critically dependent upon the assumptions concerning the 1973 and 1974 year classes. The unexpectedly low levels of catch taken by foreign vessels in the designated 1977 fishing window may indicate an overestimation of the 1973, 1974 year class abundance recruiting to the Georges Bank fishery. The absence of these year classes, however, may as well be related to these herring not attaining sexual maturity. Oceanographic conditions may also have effected a change in behavioral patterns resulting in diminishing stock abundances in traditional pre-spawning fishing areas. However, survey cruises conducted by NOAA/NMFS indicate a general diminished abundance over all of Georges Bank and, thus, it seems prudent to assume an overall low stock abundance. As a result, analysis presented here assumes a conservative 1978 stock level of 199,000 MT in 5Z/SA6. A stock size of this level suggests in addition that the already poor 1971 and 1972 year classes may in fact be less abundant than anticipated.

Table 2.3.2.

Georges Bank (5Z/SA6) Adult Herring Fishery  
Summary of Stock and Recruitment Assumptions

| Year | Stock Size<br>(age 4+)<br>beginning of year<br>(MT) | Recruitment<br>at age 3<br>(MT) | Year Class<br>Represented |
|------|-----------------------------------------------------|---------------------------------|---------------------------|
| 1963 | 270,000                                             | 525,000                         | 1960                      |
| 1964 | 705,000                                             | 430,000                         | 1961                      |
| 1965 | 980,000                                             | 210,000                         | 1962                      |
| 1966 | 1,105,000                                           | 240,000                         | 1963                      |
| 1967 | 1,140,000                                           | 180,000                         | 1964                      |
| 1968 | 1,025,000                                           | 200,000                         | 1965                      |
| 1969 | 760,000                                             | 219,000                         | 1966                      |
| 1970 | 600,000                                             | 135,000                         | 1967                      |
| 1971 | 450,000                                             | 95,000                          | 1968                      |
| 1972 | 245,000                                             | 85,000                          | 1969                      |
| 1973 | 140,000                                             | 437,000                         | 1970                      |
| 1974 | 340,000                                             | 85,000                          | 1971                      |
| 1975 | 279,000                                             | 85,000                          | 1972                      |
| 1976 | 209,000                                             | 109,000 (85,000) <sup>1/</sup>  | 1973                      |
| 1977 | 270,000 (245,000) <sup>3/</sup>                     | 219,000 (85,000) <sup>2/</sup>  | 1974                      |
| 1978 | 484,700 (319,700) <sup>4/</sup>                     | 85,000                          | 1975                      |

<sup>1/</sup> Revised estimate of 1973 year class strength up from preliminary value (in parentheses).

<sup>2/</sup> Revised estimate of 1974 year class strength up from preliminary value (in parentheses).

<sup>3/</sup> Estimate value of stock (age 4+) abundance given two assumptions of 1973 year class abundance.

<sup>4/</sup> Estimate value of stock (age 4+) abundance given revised estimates of 1973 and 1974 year classes. Value in parentheses is the estimate appropriate to the conservative (85,000 MT) 1973, 1974 year class estimates. A catch of 1,000 MT is assumed for this stock in 1977.

### 2.3.1.3. Other Fisheries Impacting Upon Management Unit

Historically the assessments which have been generated for the Gulf of Maine spawning stock have not explicitly addressed the juvenile fishery along the coast of Maine. Rather, in establishing allowable catches for the 5Y adult fishery (principally through ICNAF) the analysis has determined year class strengths recruiting to that fishery at age 3. As a result, fishing mortality induced in the juvenile fishery has already been implicitly discounted.

In the past the juvenile fishery has principally been conducted using fixed gear, which tends to provide yield in relation to abundance (environmentally induced variations in availability assumed average), thus producing a constant rate of fishing mortality. Where the fishery is exploited using movable gear (i.e., purse seine), the possibility exists for fishing mortality to increase substantially on a given year class, particularly when the juvenile herring are relatively less available to the fixed gear. In the latter case, the juvenile fishery is able to take increased advantage of a given year class, thus impeding the achievement of objective 1, to rebuild and sustain at optimum levels the size of the Gulf of Maine spawning stock. Where it is no longer possible to assume constant fishing mortality on a given year class in the juvenile fishery, the validity of the adult fishery analysis may be impaired without explicitly considering the activity in the juvenile fishery. Moreover, in order that the entire resource may be managed equitably, controls on fishing mortality by juvenile fishery purse seiners may be indicated.

The sea herring resource off the northeastern United States is migratory; subpopulations range from Chedabucto Bay to Cape Hatteras. As such, management measures specified for the area under U.S. jurisdiction will impact upon stocks located outside the jurisdictional area which may migrate seasonally into U.S. waters. Of principal interest is the southwest Nova Scotia stock which is believed to intermix with Gulf of Maine and Georges Bank stocks on a limited seasonal basis such that it is subject to catch by domestic vessels. Similarly fish stocks under U.S. jurisdiction are believed to be seasonally subject to Canadian exploitation. Data made available through joint discussions between U.S. and Canadian assessment scientists (October 1977) indicate that the southwest Nova Scotia stock (age 4+) is presently assessed to be 363,000 metric tons. Recent assessments of recruiting year class size for this stock (1973-1974 year classes) are not currently available.

### 2.3.2. Stock Assessment and Optimality

#### 2.3.2.1. Overview of Analytical Concepts

Two measures of fishing mortality ( $F$ ) have been identified as reference points for the purpose of establishing a biological basis for fisheries management.  $F_{max}$  refers to the exploitation rate at which the maximum yield may be derived (pounds landed) for each individual (recruit) while it is in the fishery (i.e., subject to being caught by the gear in use). It is a function of the growth and natural mortality processes within the fish stock, as well as the age (or size) at which a fish becomes subject to the gear.  $F_{max}$  is formulated independent of recruitment, and as such, does not provide an absolute estimate of expected yield. An understanding of  $F_{max}$  relating to a maximum expected yield per recruit, can lead to an esti-

mation of allowable catch, given a knowledge of the magnitude of year to year recruitment. The value in maximizing yield per recruit is that the fishery extracts the maximum yield from whatever overall abundance may be available at the time. Naturally, the higher the abundance the greater the absolute catch.

$F_{max}$  refers to the fishing mortality rate at which the average long-term catch from a stock is at a maximum level, and is a function of the total production process within the stock, including recruitment.  $F_{max}$  and  $F_{0.1}$  may be found to correspond in those situations where the average level of recruitment does not change directly in response to changes in stock abundance. The concept of MSY is difficult to define and its value cannot be precisely estimated for many reasons. Moreover, the usefulness of the concept for non-equilibrium fish populations and in situations requiring relatively short-term management decisions is unclear. As a result,  $F_{max}$  may have only limited applicability.

The form of the relationship between yield per recruit and fishing mortality differs for various fish stocks according to their growth and natural mortality characteristics. For herring, the level of fishing mortality which corresponds to the maximum yield per recruit ( $F_{max}$ ) occurs at a relatively high level and may not be precisely identified. Because  $F_{max}$  does not consider the magnitude of annual recruitment, management measures based upon this reference point alone do not guarantee the maintenance of the spawning stock at a level that would insure either an optimum level of total yield or optimum average recruitment. Moreover, where the relationship between yield per recruit and fishing mortality has no clearly defined maximum or, if present, occurs at a relatively high fishing mortality level, the setting of TACs for catch regulation at the  $F_{max}$  level may lead to reductions in both stock size and the number of age groups in the exploited stock, large short-term changes in allowable catch and possible recruitment failure due to critically low spawning stock levels.

The principal element governing the adequacy of  $F_{max}$  as a reference point in management is the recruitment process, both with respect to environmentally induced variability and the nature of the stock/recruitment relationship. Since little is known about the latter with respect to sea herring, some evaluation has to be made on a qualitative basis using all available information on the size and composition of the stock, historic variations in recruitment to the stock, and the stock's relationship to other components of the exploited ecosystem. Where adverse consequences of setting a fishing mortality rate too high are possible, given the inadequacy of  $F_{max}$ , a more restrictive management system would be justified. For example, the biological management tools might include 1) fixing the fishing mortality rate in the exploited phase at a level somewhat lower than  $F_{max}$ , and 2) setting a minimum spawning stock size.

For fish stocks such as herring, a fishing mortality rate lower than  $F_{max}$  can be set which would result in only a small loss in average yield, but would achieve a substantially higher average stock biomass, greater stock stability due to the presence of a larger number of age groups in the exploitable stock, and higher average catch per unit effort. The  $F_{0.1}$  level (defined as the

level at which the change in yield per recruit with respect to mortality rate is one-tenth of that corresponding to the fishery beginning on the virgin stock) has been specified as a possible reference point below  $F_{max}$ .  $F_{0.1}$  is suggested as having the merits described above, although it will not necessarily serve to achieve desired stability in stock size and recruitment.

The establishment of a minimum spawning stock size constraint coupled with an optimum stock size goal, serves to minimize the risks of stock depletion and recruitment failure, and thus should be part of the scientific evaluation leading to advice on specific management strategies. While our lack of knowledge on stock/recruitment relationships limits us in pin-pointing minimum stock constraints, historical data permits the establishment of stock levels below which the danger of recruitment failure is indicated.

### 2.3.2.2. Gulf of Maine Adult Fishery—Beverton-Holt Yield Per Recruit

Anthony (1972) developed growth equations for eastern and western Maine herring which are consistent with a gradient of progressively faster growing fish characteristic of areas from Nova Scotia to Georges Bank. Conversely, the maximum size attained by the oldest fish is greatest in the Nova Scotia stock. Consistent with Anthony's observation that the Western Maine herring growth equation is intermediate between that for Nova Scotia and Georges Bank herring and because major catches of area 5Y adult herring have historically occurred in western Gulf of Maine waters, it has been taken to be descriptive of growth of adult herring in the 5Y fishery.

Figure 2.3.1. reflects the yield per recruit curve for 5Y herring which is based on the growth equation:

$$L_t = 34.64 (1 - e^{-0.1(t-0.25)})$$

and an estimate of the largest weight of a fish in the stock,  $W_{\infty} = 335.65$  gm. In the above expression,  $L_t$  is the length of a fish in centimeters at age  $t$ . Characteristic of fish having a slow rate of post-recruit growth and fairly high natural mortality, the curve has no apparent maximum. Therefore,  $F_{max}$  probably cannot be defined. The  $F_{0.1}$  level, the point where the net addition to the total catch achieved by one unit of effort is one tenth of that in the virgin fishery, is at  $F_{0.1} = 0.34$ . It is clear that exerting additional fishing effort beyond the  $F_{0.1}$  level does not result in substantial increase in long-term catches but would result in a rapid decline in catch per unit of effort.

### Gulf of Maine Adult Fishery—Maximum Equilibrium Yield

Herring stocks in the northwest Atlantic exhibit extreme fluctuations in the level of annual recruitment. A review of Table 2.3.1. demonstrates that in terms of biomass at age 3, year class strengths have varied in recent years by as much as a factor of 7. This variation is perhaps most obvious for the strengths (at age 3) of the 1969 through 1971 year classes, estimated to be 8,800; 64,200 and 9,400 metric tons respectively. Given that the Beverton-Holt yield per recruit curve shown in Figure 2.3.1. does not apparently reach a maximum value, and that recruitment to the stock fluctuates widely in magnitude, it is clear that maximum sustainable yield may not be readily defined.

Figure 2.3.1. Beverton-Holt yield per recruit curve for Gulf of Maine herring.

Understanding the severe limitation which is imposed on long-term management decision making by the inability to estimate or define sustainable yield for herring, it is, nevertheless possible to derive an estimate of the maximum equilibrium yield based upon historical recruitment data,<sup>1</sup> making the assumption that future recruitment will follow a similar pattern.

In the absence of a clearly defined value of  $F_{max}$  for herring,  $F_{0.1}$  may reflect the level of fishing mortality that reasonably corresponds to the maximum equilibrium yield from the fishery, given the assumption of long-term average recruitment. By using the estimates of recruitment over the last ten years (Table 2.3.1.) and, assuming that these estimates are representative of the long-term average strength of a recruiting year class, a long-term average yield of 16,000 MT will result from applying a yield per recruit value associated with fishing at  $F_{0.1}$ . Admittedly, this estimate may be biased by ignoring a possible stock recruitment relationship, in which case the average recruitment might be expected to increase as spawning stock size increased to optimum

<sup>1</sup>Recruitment here is considered to be at age 4 based upon the assumption of the Beverton-Holt yield per recruit model where  $tp' = 4.275$ .

levels. It is understood that 16,000 MT does not represent the acceptable biological catch that may be established either at the present stock level (67,600 MT) or on a year-to-year basis.

As part of the scientific advice on the management of the 5Y spawning stock, ICNAF has recommended a minimum size constraint of 60,000 MT (ICNAF Redbook 1975, p. 46) and an optimum size of 80,000 to 120,000 metric tons has been suggested in recent NMFS/NEFC assessments. These constraints are designed to provide guidelines for the maintenance of a stock which will support continued and relatively stable recruitment. In this regard, levels of allowable catch from the 5Y spawning stock have been established for various rates of stock recovery. Tables 2.3.3. shows that in order to achieve a 10 percent rate of 5Y spawning stock increase, a stock TAC of 1,000 MT is appropriate. A catch of 7,000 metric tons may be taken from the stock if no increase is desired. The relationship between 1978 catch and resultant 1979 stock size is graphically represented in Figure 2.3.2. At the current stock level of 67,600 MT, fishing at  $F_{0.1}$  ( $F=0.34$ ) will result in stock decrease instead of stock maintenance and maximum equilibrium yield. Clearly fishing at  $F_{0.1}$  may only be considered after the stock has reached its optimum abundance.

#### 2.3.2.3. Georges Bank/Southern New England Adult Fishery

In general it is assumed that growth in the Georges Bank spawning stock varies only slightly (weight at age) from that characteristic of western Gulf of Maine adult herring:

$$L_t = 33.3(1 - e^{-0.51(t-0.003)})$$

Because the Beverton-Holt yield per recruit relationship based upon the above growth model demonstrates no apparent maximum as fishing mortality is increased (Fig. 2.3.3.),  $F_{max}$  again cannot be defined. The level of fishing mortality rate taken to correspond to optimum yield at optimum stock levels which may provide a buffer against over-fishing ( $F_{0.1}$ ) has been determined to be  $F_{0.1} = 0.33$  for the Georges Bank spawning stock.

Maximum equilibrium yields based upon fishing at  $F_{0.1}$  have been assessed at 100,000 to 150,000 MT corresponding to an optimum spawning stock size of 500,000 metric tons (See Herring FMP, FEDERAL REGISTER, February, 1977). As part of the scientific advice on the management of the 5Z/SA6 spawning stock, ICNAF has recommended a minimum spawning stock constraint of 225,000 metric tons to assure continued recruitment. If current spawning stock estimates (200,000 MT) are correct, it is clear that efforts to promote stock restoration are desirable.

Figure 2.3.2. Percent change in spawning stock resulting from various levels of 1978 TAC in 5Y.

Figure 2.3.3. Beverton-Holt yield per recruit curve for Georges Bank herring.

In Table 2.3.3, are shown levels of 1978 catch corresponding to various rates of spawning stock recovery under three assumptions of spawning stock abundance. Given that the Georges Bank stock is at the critically low 300,000 MT level, recovery rates of no less than 15% are indicated in

order to reach the minimum recommended stock size at the beginning of 1979. Under this assumption, as much as 46,000 MT may be taken from the spawning stock in 1978. However, at the 200,000 MT level a 15% increase in stock size is probably not ade-

quate. Under the assumption that recruitment of the 1973 and 1974 year classes to the fishery has been poor (stock equal to 319,700 MT), 67,400 MT may be taken from the stock in 1978 to maintain the present level, and a catch of 35,000 MT will provide for a 10% 1978 rate of increase.

2.4. The Expected Domestic Catch Assessment

2.4.1. Conceptual Basis

The FCMA requires that any FMP proposed by any Council shall "assess and specify the capacity and extent to which fishing vessels of the United States on an annual basis will harvest the optimum yield" (Sec. 303(a)(4)(A) of the FCMA). The most important of these two specifications is the latter one, i.e. the "extent to which, etc." since it directly influences the total allowable level of foreign fishing (Sec. 201(d) of the FCMA).

For purposes of this Plan the U.S. capacity for fishing Atlantic herring in 1978 is considered equal to the annual harvest of the optimum yield. This is referred to in the Plan as the expected annual domestic catch (EDC) of Atlantic herring.

The EDC in any fishery is the volume of fish landed as a result of the interaction and equating of supply and demand for a particular species. The harvesting supply of a species is influenced and constrained by, among other things, the particular management regulations in force. It follows that the EDCs, and thereby the foreign allowable catches, cannot be determined independently of management strategies.

The determination of the EDCs in this Plan associated with alternative management strategies is based on the notion that in a given management area and in a given year the EDC is equal to the area TAC evaluated as consistent with certain stock recovery rates or the expected catch under a "no plan" situation, whichever is less. It follows that if the EDC under a "no plan" situation

is greater than the TAC that is consistent with a particular rate of stock recovery, the total allowable level of foreign fishing (TALFF) is zero. It is assumed that domestic herring fishing effort preferentially directs itself to the Gulf of Maine (5Y) area. This assumption is corroborated by industry representatives as realistic in view of relative catch rates and anticipated operating costs per day at sea in various areas.

Furthermore, the assessments of the EDCs and the derivation of the TALFFs summarized in Table 2.4.1, are subject to the assumptions of the biological model presented in Section 2.6. In particular the annual Canadian catch in ICNAF Subarea 4XW is assumed to be 98,000 tons, the size of Georges Bank herring stock as of 1 January 1978 is assumed to be 199,000 tons and the seasonal distribution of catches follows their historical patterns. All EDCs and TALFFs for 5Y exclude catches of herring the territorial waters of the State of Maine.

2.4.2. Atlantic Herring EDC and Total Foreign Allowable Catch in 5Y for 1978

In the absence of any plan, the 1978 EDC of herring in 5Y is predicted to be equal to or greater than the 1977 commercial catch of herring in the area, i.e. 19,000 tons. This is based on a projected catch of 7,700 tons (1976/77 average) in the summer/fall fishery for adult herring (Table 2.4.2). Furthermore, this prediction is based on the expectations that the following forces will contribute toward continued high levels of effort and landings in the domestic herring fishery in 5Y.

(1) The expected continued ban on herring fishing in the North Sea will keep the

West German import price (C.J.F. Bremerhaven) at or above \$1000 per ton (frozen butterfly fillet). New England ex-vessel prices for adult herring which in response to increased import prices were rising in 1977 will continue to adjust upwards in 1978.

(2) The competition among New England processors for landings supply of herring will increase as new firms are entering in response to the favorable export market outlook. The present (July, 1977) New England herring fileting/freezing capacity of 500-750 tons of round herring per day is expected to increase substantially. As a result there is likely to be an upward pressure on ex-vessel prices as processors bid for supplies.

(3) The exploitation of the groundfish resources in 1978 are likely to continue to be restrictive. Vessels may seasonally transfer effort from these species to herring fishing.

The EDC for 5Y under a management strategy aiming at a zero percent stock recovery in 1978 is equal to the area TAC consistent with this stock recovery, i.e. 9-11,000 tons (Table 2.4.1.). Given a 5 percent stock recovery strategy, the EDC drops to 1,000 tons. In both cases the derived TALFF is zero.

2.4.3. Atlantic Herring EDC and TALFF in Area 5Z and SA6 for 1978

Herring fishing in the 5Z and SA6 area averaged 3200 tons annually in the period 1972-1976. This compares to 14,000 tons in 5Y (Table 2.4.3.). The fishery has primarily been a winter fishery off Rhode Island, Connecticut and New York. An area east and south of Cape Cod (including Nantucket Shoals) has been of some importance. A domestic fishery for herring on Georges Bank has historically not existed.

<sup>1/</sup> Derived by subtracting from the total 50056 tons the total reported catch of weirs, stop-seines and inshore purse seines and the total herring catch in statistical areas 514 to 613.

A major determinant of the EDC in the area 5Z & SA6 is the overall catch limitation enforced in the 5Y area. Consequently, assessments of EDCs in the former area have to be made conditional upon TACs in the latter area. The alternative EDCs for the 5Z & SA6 areas shown in Table 2.4.1. are made conditional upon 5Y TAC levels of 1,000 tons and 10,000 tons respectively. The two 5Y TAC levels correspond to a 5 and zero percent 5Y spawning stock recovery goals respectively.

A quantitative prediction of the impact on the quantity of herring supplied from area 5Z & 6 from a reduction in the level of 5Y catch through restrictive TACs requires an understanding of:

(1) The fishing effort displaced in 5Y by restrictive TAC's (total and by vessel size and type);

(2) The extent to which various components of this displaced effort will be employed in herring fishing in various areas in the southern New England/Mid-Atlantic area and on Georges Bank; and

(3) The anticipated productivity of effort applied by various vessel categories in each of these areas.

There are no formal empirically tested and verified models to guide us with respect to predictions of (1) and (2). Furthermore, lacking historical records on vessel performance, there is considerable uncertainty associated with predicting catch per unit effort, particularly with respect to the fishery on Georges Bank. Consequently, it is possible to proceed only on the basis of assumptions. The specific assumptions on which the EDCs in area 5Z & SA6 under the "no plan" situation have been determined are as follows:

(a) The herring catch in the traditional fishing areas, i.e. off southern New England/Mid-Atlantic and east of Cape Cod including Nantucket Shoals out toward the Cultivator Shoals will increase from its recent low levels to its 1972-76 annual average of 3,000 tons, under conditions of a 5Y TAC of 10,000 tons. This reflects an expectation that under this 5Y TAC regime vessels (primarily trawlers) which in recent

years have been concentrating their winter/spring herring fishing effort to Massachusetts and Cape Cod Bays will seek compensation for lost catches in 5Y by increasing effort in the 5Z & SA6 areas.

(b) With a further reduction of the 5Y TAC to 1,000 tons, additional fishing effort will be displaced. Attempts by vessels in the class 70-90 ft. to develop a herring fishery east of Cape Cod out toward Cultivator Shoals will be intensified. In response, the catch from the area is expected to increase to 6,000 tons.

(c) The catch on Georges Bank (east of Cultivator Shoals) will be generated by the efforts of a handful of vessels; that have the necessary refrigeration systems and the capability of withstanding adverse weather and sea conditions. To sustain fishing in this area during the fall, vessels in this category seek a minimum catch per trip of 80 tons. With the 5Y TAC set at 10,000 tons these vessels are in a position to derive a larger portion of the gross stock from the 5Y herring fishery than what would be the case under a 1,000 ton 5Y TAC. In the former situation, 4,000 tons are expected to be harvested in the Georges Bank fishery as a result of 50 vessel trips yielding on the average 80 tons per trip. In the latter case, the effect on Georges Bank is expected to double which with an unchanged trip catch averaging 80 tons results in a total catch of 8,000 tons.

In summary, in the hypothetical situation of a 1,000 ton TAC in 5Y, the induced EDC in 5Z/SA6 is assessed as 14,000 tons and the combined EDC for 5Y/SA6 is 15,000 tons. If the catch limitation in 5Y alternatively was set at 10,000 tons, the induced 5Z/SA6 EDC would fall to 7,000 tons and the combined EDC would be 17,000 tons. Furthermore, a catch limitation in 5Y within the range of 1,000-10,000 tons is expected to induce an EDC in the 5Z/SA6 areas of between 7,000 and 14,000 tons.

The above EDC assessments reflect the expectation that losses of herring catches in 5Y through restrictive TACs to prevent further stock decline will not be fully made up in 1978 through increases in herring catches

in other areas. The 5Z & SA6 TALFF varies between 6,000 and 49,000 tons depending on the particular stock recovery goal sought and the 5Y TAC scenario.

## 2.5. Bio-economic Analysis Alternative of Stock Rebuilding Strategies

### 2.5.1. Management Strategies Considered

The economic impact analysis focuses on four alternative strategies (S<sub>1</sub>, S<sub>2</sub>, S<sub>3</sub>, and S<sub>4</sub>) for the rebuilding of stocks through restrictive annual catch quotas. The expected consequences of failing to implement a stock rebuilding strategy, i.e. of a "no plan" alternative were examined.

In the absence of a plan to restrict harvesting in 5Y, the annual domestic catch of adult herring in the Gulf of Maine outside the State of Maine territorial waters, as discussed in Sec. 2.4.2., is expected to equal or exceed the 1977 catch level, i.e. 19,000 tons (Ref. Sec. 2.4.). If the catches of adult herring in Maine's territorial waters remain at levels experienced in recent years (16,500 tons in 1976), and if the assumption of the strengths of the 1973, 1974 and 1975 year classes are made as in Section 2.3., the total fishing mortality of herring in the Gulf of Maine is expected to continue at a level which will result in a reduction in 1978 of the adult herring stock size. In view of the above assessments, the "no action" alternative is found inconsistent with the objectives established for this FMP. Consequently, no further consideration is given to this alternative.

### 2.5.1.2. Four Alternative Stock Rebuilding Strategies

Each stock rebuilding strategy is characterized by its projected time paths of harvesting (annual EDCs) of herring (3+) in four different geographical areas over a ten year period. The four areas as shown in Figure 2.5.1. are identified as follows:

- Area 1: State of Maine territorial waters.
- Area 2: ICNAF Div. 5Y less State of Maine territorial waters.
- Area 3: ICNAF Div. 5Z and SA6 less Georges Bank east of Cultivator Shoals.
- Area 4: Georges Bank east of Cultivator Shoals.

[3510-22-C]

Figure 2.5.1. Exploitation areas considered in the economic and biological analysis in support of the herring FMP. Areas are separated by broken lines.

The ten year plan horizon was chosen to allow rebuilding of the 5Y herring stock under all four alternative strategies.

The four stock rebuilding strategies are defined primarily with reference to the exploitation of the adult herring stock in the Gulf of Maine. Rebuilding of this stock requires sacrifices in the current and near time periods. The stock rebuilding process thus involves an intertemporal "trade-off" of satisfactions. The stock restoration decision for the 5Z/SA6 herring stock is not as important as that for 5Y stock because the area TAC's in 5Z/SA6 that will ensure relatively high stock recovery rates are unlikely to restrict domestic herring catches. The expected domestic catch is less than the area TACs consistent with stock restoration goals of 10-15% (Table 2.4.1).

As discussed in the assessment of EDCs in Section 2.4., the domestic catches in 5Z and SA6 are predicted to be substantially increased by catch limitations enforced in the 5Y area. The catch scenarios projected for Areas 3 and 4 are therefore induced catch developments (implied EDCs) that are conditional upon certain catch restrictions in the 5Y area.

Area 1 catch levels, shown in Table 2.5.1. under the four stock rebuilding strategies, are recommended harvest limitations for the domestic fishery within Maine's territorial waters. In Area 2, catch levels are synonymous with TACs consistent with annual goals for rate of stock rebuilding. During the years of stock recovery, the Area 2 (5Y) TALFF is zero since the EDC in the absence of a plan exceeds the area TAC (Ref. Section 2.4.1.).

In Areas 3 and 4, the domestic catch levels are expected to be induced by restrictions in Area 2. Together with the annual goals of rebuilding of the Georges Bank herring stock, they determine the TALFF for the 5Z/SA6 area.

The distinguishing feature between the four stock rebuilding strategies is the timing of the initiation of the 5Y stock rebuilding program. Under S, stock restoration begins in 1978. Under S<sub>1</sub>, S<sub>2</sub>, and S<sub>3</sub>, the start of the recovery process is delayed one, two and three years respectively. The assumptions and considerations behind the projected catch scenarios under the four alternatives (Table 2.5.1.) are spelled out below.

[3510-22-C]

Table 2.5.1.

TAC/Catch Scenarios Under Four Alternative Stock Rebuilding Strategies (tons x 1000 of Herring 3 years +)

| Year                 | Area 1 | 5Y 2/<br>Area 2 | Area 3 | 5Z, SA6 2/<br>Area 4 | Total |

1/ Area 1 refers to inside 3 miles off the coast of the State of Maine, Area 2 refers to 5Y less Area 1.

2/ Area 4 refers to Georges Bank east of Cultivator Shoals. Area 3 refers to 5Z, SA6 less Area 4.

*Strategy S<sub>1</sub>*

Starting in 1978, an annual area TAC of 1,000 tons is enforced in Area 2 until the size of the Gulf of Maine stock has increased to the desired level of 100,000 tons. This TAC is consistent with a strategy designed to achieve a 10 percent stock recovery in 1978. It is foreseen that with the anticipated strengths of the incoming year classes and the envisaged annual rates of stock recovery the stock level of 100,000 tons will be attained in approximately five years, i.e. by the end of 1982. The annual area TAC consistent with the harvesting of the sustained surplus production of the Gulf of Maine stock at the 100,000 tons level has been determined to be approximately 17,000 tons, under the assumption of a closed season during spawning.

The catch in Area 1 has been assumed to be 7,000 tons in 1978 and 9,500 tons annually during the remainder of the time span considered. The value of 7,000 tons (fish 3+ years old) is considered appropriate to the expected magnitude of the 1975 year class (at age 3) in that the rate of fishing mortality on this age-group is held approximately constant with 1977. The value of 9,500 MT of 3+ age fish is appropriate to the average year class strength in the fishery, holding the fishing mortality rate constant. These assumptions are discussed further in Section 2.6.2.4.

The restrictive Area 2 annual TAC in the period 1978-1982 is expected to induce a considerable expansion of the 5Z & SA6 herring fishery relative to a "no plan" situation. The annual catches assumed for the Georges Bank fishery for the period 1978-82 reflect the activities from an estimated 100 vessel trips during a two month period (September-October) averaging 80 tons per trip. A total annual herring catch in 5Z & SA6 of 14,000 tons is assumed to be coupled with a TALFF which by virtue of its magnitude allows for the desired rate of recovery of the Georges Bank herring stock.

As the Gulf of Maine stock is restored to its desired level, it is assumed that fishermen with larger vessels fishing in Area 4 will direct a substantial portion of their herring fishing effort back to the Gulf of Maine (Area 2).

*S<sub>2</sub>, S<sub>3</sub>, and S<sub>4</sub>*  
It is assumed under all three strategies that prior to initiation of stock rebuilding an annual TAC of 10,000 tons in Area 2 coupled with catch restrictions in Area 1 as outlined under S<sub>1</sub> insures that the present 5Y adult herring stock size remains unchanged. Once stock rebuilding is initiated,

annual Area 2 TACs of 1,000 tons are imposed for five years. The assumptions of year class strengths and annual stock increases during the stock rebuilding period made under S<sub>1</sub> are expected to hold for S<sub>2</sub>, S<sub>3</sub>, and S<sub>4</sub> as well. Upon completion of stock rebuilding in 1984, 1985 and 1986 for S<sub>2</sub>, S<sub>3</sub>, and S<sub>4</sub>, respectively, annual Area 2 TACs of 17,000 tons are assumed to keep the 5Y adult stock at around 100,000 tons.

Annual catches of herring (3 years +) in Area 1 are assumed to remain the same under S<sub>2</sub>, S<sub>3</sub>, and S<sub>4</sub> as under S<sub>1</sub>.

Catches in Areas 3 and 4 (i.e. in Southern New England and on Georges Bank) prior to stock rebuilding are held at annual levels 3,000 and 4,000 tons respectively (see discussion of expected domestic catches in Section 2.4.). These levels are assumed to double in periods of stock rebuilding in 5Y, and upon completion of stock restoration fall back to their original levels.

*2.5.2. Evaluation Criteria Used in the Economic Impact Analysis*

The economic welfare implications of both management strategies extend to numerous industry user categories. In general, these categories may be grouped into the harvesting, processing and consumer sectors, of which the latter extends beyond the regional level. Lack of data and empirically verified demand and supply models prevent us from assessing the impact of the management strategies and their induced effects on the net benefits or economic surpluses derived by these various groups. In complying, as closely as possible, with the use of conventional benefit criteria, the following four income criteria have been applied to the impact analysis:

- (1) Returns from herring fishing to harvesting sector.
- (2) Value of processing in various industry sectors.
- (3) Income to labor in various industry sectors.
- (4) Aggregate regional income.

In addition, the criterion of employment in the processing sector has been used.

The above criteria, to which no individual weights have been assigned, are assumed to reflect the same dimensions of social and economic impacts that are subsumed in the statement of the management objectives.

With respect to (1), returns from herring fishing in Area 2 are measured as net of variable costs (labor and operational costs). The derivation of these costs are shown in Table A.5.2. in Appendix 5 and discussed in Section B of Appendix 4. The impacts of stock levels on costs per ton of herring caught in 5Y has been incorporated through an assumed relationship between

catch per day absent and the beginning of the year stock size.

In Areas 1, 3 and 4, neither catch per unit effort nor cost per day absent are known with any precision. As a result, gross returns are used. Area 4 gross returns have been crudely adjusted to account for anticipated higher cost of harvesting.

A detailed statement of the assumptions and the economic relations used in the economic impact analysis are given in Appendix 4.

*2.5.3. Method for Comparing Strategies*

The basic methodology for selecting among investment alternatives includes the present value method. The essential feature of this method is the discounting of all cash flows to present value from an investment decision. The discounting procedure implies that, in comparing future benefits with present costs, we recognize that a postponement of benefits involves sacrifice in itself. It is commonly assumed that the appropriate rate of interest at which cash flows are to be discounted should reflect society's rate of time preference. If, as assumed in this analysis, society is taken to be indifferent between having \$100 million today and \$108 million next year, the social rate of time preference is equal to 8 percent annually.<sup>2</sup> Where decisions involve more than one alternative, the project strategy with the highest present value is chosen.

*2.5.4. Results of Economic Impact Analysis*

The present value of the income flows projected over the ten-year period under the four alternative management strategies are shown in Table 2.5.2. and Figure 2.5.2. Additional tables showing the annual income levels under the different strategies are found in Appendix 5.

The present values of the income flows projected for S<sub>1</sub> exceed those projected under S<sub>2</sub>, S<sub>3</sub>, and S<sub>4</sub> for all economic impact criteria used. Figures shown within parenthesis represent the difference between, on the one hand, the values associated with S<sub>1</sub>, S<sub>2</sub>, and S<sub>3</sub>, and, on the other hand, the value predicted under S<sub>4</sub>. As such, they indicate the present value of the income streams that would be foregone by adopting strategies other than S<sub>1</sub>. Under the assumptions made and using the present value method of discriminating between strategies, S<sub>1</sub> is preferable to any of the other three stock rebuilding strategies.

<sup>2</sup>The generalized formula for the present value of an expected income stream is shown in Appendix 4.

- <sup>1/</sup> The Lurcher stock refers to the southwest Nova Scotia spawning stock.
- <sup>2/</sup> The Jeffreys stock refers to the western Gulf of Maine spawning aggregations.

Errors associated with the magnitude of stock intermixture are difficult to estimate. Area TACs generated by the model indicate that actual yields in 5Y may be substantially in excess of the allowable removals from the spawning stock, depending upon the seasonal distribution of catches in all areas. The additional yield is a function of fish from other stocks being seasonally available to the fishery in the 5Y area. Although somewhat crude, the allowable catch in excess of the acceptable removals from the spawning stock does give an estimate of the maximum likely error which could be associated with the establishment of TACs for the 5Y spawning stock, assuming no seasonal stock overlap.

2.6.2. Generation of Feasible Area/Period TACs

2.6.2.1. Seasonal Catch Distribution Assumptions

While the model can reasonably consider any distribution of catch over the fishing year, several 5Y options have been selected as being appropriate for analysis. For each 5Y catch distribution option, certain assumptions must be made about the seasonal pattern of exploitation in areas 4KW and 5Z/SA6. For the 4KW area, the distribution was calculated based upon monthly catches reported in *ICNAF Statistical Bulletin* averaged over the years 1970-1975.

Similarly, the distribution of herring catch by exploitation period could be calculated for 5Z/SA6 using data reported in *ICNAF Statistical Bulletin* relating to foreign fishing activity. This distribution is not useful to the purposes of the model, however, because expected domestic activity is not reflected. In terms of a domestic fishery in the 5Z/SA6 area, two seasonal periods of activity may be expected: 1) the winter fishery in 5Zw, south of Cape Cod, and 2) the summer/fall fishery in 5Ze. No herring fishery is anticipated in 5Z/SA6 between April 1st and July 31st. However, any assumed harvest during these months could be expected to have little impact upon feasible area TACs.

Taking historic, domestic 5Zw catches into consideration with total anticipated 5Z/SA6 catch (see Section 2.4.), it seems reasonable to initially assume a percent harvest distribution of 30, 0, 0, 70 for exploitation periods 1 through 4 in this exploitation area. The possibility exists, however, that little harvest will be available south of Cape Cod during period 1. In this case, a resultant distribution of 15, 0, 0, 85 may be more appropriate. Using these distributions for catch in 5Z/SA6, it is possible to examine various seasonal harvest strategies for 5Y. A historic distribution option was considered, along with several winter/spring: fall catch ratio options so as to provide insight into the full

range of possible 5Y catch distribution options (with implicit tradeoffs), while reflecting recent seasonal trends in the 5Y fishery. The percent distribution of catch by exploitation area and period is shown in Table 2.6.2 for each harvest option considered. The distribution of catch by period in 4KW is considered constant throughout the analysis, reflecting the 1970-1975 historic data.

2.6.2.2. Biological Stock Constraints

In Table 2.6.3, are shown the levels of acceptable catch from the Gulf of Maine (5Y) and Georges Bank/Southern New England (5Z/SA6) spawning stocks (age 4+) corresponding to 0% and 10% rates of stock increase. If, as has been assumed (see Section 2.3.) the 5Z/SA6 spawning stock is 199,000 MT, then it is clear that maximum stock rebuilding is desirable. A 10% increase in this stock will not be sufficient to meet the minimum desirable spawning stock size requirements (225,000 MT). As has been discussed in Section 2.4, domestic effort can be expected to focus on inshore waters, primarily in 5Y. As a result, expected domestic catches from the 5Z/SA6 area are not expected to be in excess of 16,000 MT for the immediate future. Thus, the biological catch constraints placed on the 5Y spawning stock become primary considerations in generating area/period TACs.

Table 2.6.2.

Percent Distribution of Catch for Each Exploitation Area by Period

| Period                                                       | Exploitation Area |      |                 |      |

- <sup>1/</sup> Stock abundance level assuming poorer than estimated recruitment of the 1971 and 1972 year classes as well as poor recruitment of the 1973 and 1974 year classes.
- <sup>2/</sup> Stock abundance level assuming poor recruitment of 1973, 1974 year classes.
- <sup>3/</sup> Stock abundance level assuming good recruitment of 1973, 1974 year classes.
- <sup>4/</sup> Not sufficient growth to achieve minimum spawning stock constraint.

In generating area TAC values which are consistent with the levels of acceptable catch from each spawning stock, an iterative approach is required. Shown in Table 2.6.4. is an array of possible harvest strategies for herring in exploitation areas 5Y and 5Z/SA6. Sample area TACs have been generated which correspond to various combinations of spawning stock recovery rates, indicating that certain trade-offs are possible due to stock interaction. In this example, the analysis is constrained by the 7,000 MT acceptable biological catch level set to achieve spawning stock maintenance in 5Y. Additionally, catches in 4KW are assumed constant at 98,000 MT (recommended Canadian 1978 TAC). The 5Y catch distribution used in this illustration is appropriate to a 1973-1977 average. In Table 2.6.4. it is seen that with no harvest in 5Y or 5Z/SA6, over 3,000 MT are removed from the 5Y stock as a result of fishing mortality induced on migratory 5Y fish in 4KW.

As noted in 2.6.1.2., assumptions concerning stock abundance are a source of error in the model. In this analysis the Georges Bank spawning stock (age 4+) is assumed to be 199,000 MT (see Section 2.3.). Given that this stock is in excess of the assumed level, Table 2.6.4. additionally presents a comparison of feasible area TACs assuming a spawning stock abundance of 319,000 MT. In general it is seen that the maximum catch benefit derived from an additional 120,000 MT of spawning stock on Georges Bank is minimal for the 5Y fishery. Clearly this comparison is appropriate to the assumed seasonal distribution of catch in 5Y (historical catch distribution, option 1.a.). However, even as 5Y catches may shift to favor the winter/spring period (5Y catch options 2 or 3), the benefit in 5Y is not expected to increase significantly.

- 1/ Catch distributions by period in 5Y and 5Z/SA6 are assumed to be consistent with Option 1.a. Spawning stock abundances (age 4+) are assumed to be 363,000 MT and 67,600 MT for the Southwest Nova Scotia and western Gulf of Maine spawning stocks respectively.

For a specific level of TAC in 5Y, however, the increased Georges Bank stock size provides for an additional allowable catch outside of 5Y. Since the total allowable catch in the 5Z/SA6 area depends in part upon the seasonal distribution of catch between Georges Bank and Southern New England, harvests are constrained by the degree to which migratory 5Y fish are exploited in the 5Zw winter fishery south of Cape Cod. To the extent that the 5Z/SA6 fishery may be pursued during a seasonal period when no 5Y fish are likely to be taken (see Table 2.6.1.), the catches from this fishery are only constrained by the level of acceptable biological catch from the Georges Bank stock, set according to specific management criteria.

#### 2.6.2.3. Area/Period TAC Options for the Adult Herring Fishery

Tables 2.6.5.a.-d. are of primary value as a source of biological advice relating to the selection of a TAC strategy for the management of the adult sea herring resource within the jurisdiction of the U.S., which is consistent with the stated management objectives and which provides a basis for the establishment of optimum yield. From Table 2.6.4. it is clear that a 10% rate of 5Y spawning stock increase cannot reasonably be achieved in 1978, given the stated assumptions of year class strength (Section 2.3.1.). However, any effort to limit harvest can be expected to lead to improved prospects for stock increase and greater levels of acceptable yield in future years.

Using the seasonal distributions of catch in 5Y and 5Z/SA6 overviewed in Table 2.6.2., it is possible to examine various TAC scenarios for the 5Y adult herring fishery. The analyses presented in Tables 2.6.5.a. through d. are intended to apply specifically to the adult herring fishery in the Gulf of Maine (here 5Y) outside of Maine territorial waters but to the shore elsewhere, as well as to waters outside the Gulf of Maine (here 5Z/SA6) which are currently within the purview of the PCMA. Reflected in Tables 2.6.5.a. through d. are TAC scenarios consistent with two levels of total catch from the combined adult fisheries. For each of the four options presented, two (a and b) possible 5Z/SA6 seasonal catch distributions reflect the relative availability of fish which might be observed in this area. Seasonal periods 1 through 4 are defined by monthly groupings in Table 2.6.2. and abbreviated by number thereafter. The term "winter/spring" represents the fishing activity associated with the months December through May or June. The term "fall" represents the

fishing activity associated with the months July or August through November. Historically the months of June and July reflect diminished activity in the domestic adult herring fishery. During this time herring are dispersed and not readily available to the gear. No fishing activity is explicitly allocated during June and July (period 3) under any option. Rather, it is assumed that TAC quotas assigned to periods 1 and 2 may be extended into June as necessitated by availability, and TAC quotas assigned to period 4 may be initiated in July as indicated by availability.

The recent historical fishery for adult herring in 5Y has reflected a winter/spring to fall catch distribution ratio of 44.7:55.3. This distribution is the basis for establishing feasible area/period TACs under option 1. In Table 2.6.5.a. are shown total allowable catches from 5Y and 5Z/SA6 translated to period TACs for options 1.a. and 1.b. Reflected under option 1.a. are area/period TACs consistent with the 5Y catch distribution above and a seasonal 5Z/SA6 percent catch distribution of 30, 0, 0, 70. Option 1.b. reflects a seasonal 5Z/SA6 percent catch distribution of 15, 0, 0, 85. Under this option (and all others to follow) two total catch levels are considered: 1) 20,000 MT, equivalent to 1977, and 2) 24,000 MT, equivalent to 1977 plus 20%. It is seen in the table that for higher levels of total catch, less harvest can be taken from within 5Y.

In 1977 the catch in 5Y during periods 1 and 2 amounted to 13,500 MT. Because the herring fishery in 5Y is expected to be unregulated through June 1978, a catch equivalent to 1977 should be anticipated for periods 1 and 2 this year. In order to provide the maximum harvest of herring from 5Y, without allowing for 5Y spawning stock increase, a catch scenario such as option 2 (Table 2.6.2.) which focuses all catch into the winter/spring period must be considered. In Table 2.6.5.b. are shown the allowable catches from 5Y and 5Z/SA6 translated to period TACs for options 2.a. and 2.b. Included under option 2.a. are feasible area/period TACs consistent with a period 1, 2 only fishery in 5Y and a seasonal 5Z/SA6 percent catch distribution corresponding to option 1.a.

Option 2.a. allows for catch in the 5Zw winter (period 1) fishery which may not be totally harvested. In the latter case Option 2.b. examines how TACs in 5Y may be increased if less is taken (%) in 5Zw. At both levels of catch (20,000 and 24,000 MT) it is seen that about 40% of any unharvested 5Zw period 1 quota may be transferred to the winter/spring fishery in 5Y. The total

5Y area TACs given under Options 2.a. and b. are reasonably close to what may be expected in terms of 1978 periods 1 and 2 harvest from 5Y. Under this option it is clear that fishery should cease in 5Y for the remainder of 1978 (periods 3 and 4) (with up to 8,000 MT being available to the fall fishery in 5Z only) if the 5Y spawning stock is to be maintained in calendar year 1978. Thus, an anticipated 5Y winter/spring fishery approaching 1977 levels could be expected to result in distributional consequence for other 5Y operators, i.e.: no 5Y fall fishery.

Given that the periods 1 and 2, 1978 5Y fishery will not harvest 13,500 MT, other options which distribute catch into the fall period may be considered. Shown in Table 2.6.5.c. are options which require a 5Y catch distribution which guarantees 30% to the fall fishery. Such a distribution, however, lowers the total allowable catch which may be taken in 5Y from its maximum. Option 2 range of TAC values. Under Option 3, only about 20% of any untaken 5Zw period 1 allowable catch may be transferred to periods 1 and 2 in 5Y (compare Options 3.a. and 3.b.), or a total of about 30% may be transferred to the entire 5Y fishery.

Comparison between Options 2 and 3 indicates that because of the seasonal overlap of stocks in 5Y, only about 35% of every ton shifted out of the TAC for periods 1 and 2 in 5Y may be assigned to period 4. These percent transfer values are specific to the catch distribution assumptions explicit in each option; however, they are representative for most catch distributions which might be considered. If, for example, only 8,000 MT of herring were caught during periods 1 and 2 (1978) in 5Y and 1,500 MT were caught during period 1 in 5Zw, then, you could expect that  $(13,500-8,000) \times .35 = 2,000$  MT, plus perhaps 500 MT transferred from 5Zw, might be made available to the fall purse-seine fishery in 5Y.

Options 4.a. and b. consider a 5Y catch distribution which allocates 70% to the fall fishery, a catch level in excess of recent historical values (Table 2.6.5.d.). Under this catch distribution, total allowable 5Y harvest is the most restrictive for all options discussed. That is, as higher catches are sought for the period 4 fishery in 5Y, total 1978 allowable catches in 5Y are decreased. Comparison among Options 1 through 4 shows that catches in 5Y are maximized as the fishery turns toward periods 1 and 2. It would appear that accommodation of period 4 fishing interests may have to be made by refocusing that component of the fishery toward 5Zc.

<sup>1/</sup> 5Y area TACs are suggested to maintain the spawning stock at its current level of abundance.

Throughout this discussion of feasible area TACs, all 5Y area/period values are suggested with a view toward spawning stock maintenance. As such, they represent the maximum allowable harvest under various catch distribution scenarios. With an unregulated fishery in 5Y and 5Z/SA6 through June 1978, the possibility of providing for stock rebuilding in 1978 seems remote. In the event that the herring catch in 5Y through June 1978 is less than might be anticipated based upon 1977 January through May data, stock rebuilding in 5Y may be accomplished in 1978 by setting 5Y period 4 TACs which are less than the maximum allowable for zero percent stock growth. Tables 2.6.5.c. and d. give allowable catches for the 5Y fall (period 4) fishery consistent with both anticipated period 1, 2 catches and no stock growth, and it is clear that if stock increase is desired, then the period 4 TAC should be appropriately reduced. If the FMP were able to regulate catch for the entire 1978 fishing season, all area/period TACs could be reduced correspondingly to allow for some 1978 stock recovery in 5Y.

In Table 2.6.6. are summarized the feasible area/period TACs consistent with specific 5Y and 5Z/SA6 seasonal catch distributions. For each 5Y distribution option, two seasonal TAC values (rows) are presented for the various 5Y and 5Z/SA6 fisheries. The top row of TAC values is consistent with a 5Z/SA6 seasonal percent catch distribution of 15, 0, 0, 85. The bottom row is consistent with a 5Z/SA6 catch distribution of 30, 0, 0, 70. In this table two relationships are clear: (1) a catch distribution favoring the winter/spring fishery in 5Y results in higher allowable yields from 5Y, and (2) a catch distribution favoring the fall 5Z/SA6 fishery results in additional allowable catch within 5Y.

Whereas total catch has been constrained to 20,000 and 24,000 MT in this analysis, any 5Z/SA6 fall period catch is not expected to exploit the 5Y spawning stock, and, thus, TACs set for the 5Z/SA6 fall fishery are constrained only by the acceptable biological catch level set for that spawning stock. The quotas set for each area/period are designed to be flexible and responsive to the seasonal availability of fish. Quotas should be adjusted within the fishing year in the manner described earlier.

Table 2.6.6.

| Summary of Representative 5Y and 5Z Area TACs<br>Consistent with Various Distributions of Catch <sup>1/</sup><br>Within 5Y Between the Winter/Spring and Fall Fisheries |                 |      |                |       |          |        |

|                                                                                                                                                                         |                 |      | 0              | 4,735 | 5,780    | 13,485 |
|                                                                                                                                                                         |                 | 0    | 5,718          | 0     | 18,282   |        |

<sup>1/</sup> For each distribution of 5Y catch, two rows of values are presented. The first row is consistent with a 5Z/SA6 distribution of 15, 0, 0, .85 and the second row is consistent with a 5Z/SA6 distribution of 30, 0, 0, .70 (see text).

2.6.2.4. Maine Juvenile Fishery Considerations

As noted in Section 2.3.1.3, the ability to assess the composition, abundance and growth of the adult spawning stocks requires that the rate of fishing mortality induced on these stocks in the traditional juvenile fishery be assumed constant. As a practical matter, harvests of age 3+ fish from within the traditional juvenile fishery must be known and accounted for so as not to violate the assumptions of fishing mortality associated with adult fishery area/period TACs and spawning stock projections. Where age 3+ fish are retained in the fixed gear of the juvenile fishery, the assumption of a constant fishing mortality rate is not unreasonable; that is, catch is proportional to year class availability and abundance. However, where the catch of age 3+ fish in the juvenile fishery results from directed fishing inside State waters, then quotas on these harvests need to be established consistent with the area/period TAC analysis for the adult fishery.

The annual catch of herring within the territorial waters of the State of Maine in recent years has included 6000-8000 mt at age 3 and older herring. This represents removals of age 3+ herring within the total Maine catch of a proportion that is consistent with the achievement of the Council's objective 1. It is expected that this recommended level of harvest will be carefully reviewed by the State of Maine in light of (1) the current status of herring stocks, and (2) the manner in which age 3+ fish are harvested, and that appropriate and complementary quotas will be established in State waters. Future assessments leading to area/period TACs for the adult fishery are expected to consider catches from all relevant fisheries (adult and juvenile), and in doing so provide improved biological advice on the harvest of 3+ fish in the traditional juvenile fishery in relation to the regional utilization of sea herring resources.

2.6.3. Distributional Consequences of Alternative Area-Period TAC Options

This section elaborates upon two important implications of the preceding discussion of area/period TACs. They are:

- (1) The total economic benefits that the U.S. can derive from the 5Y herring fishery at any rate of 5Y spawning stock recovery are dependent on the seasonal distribution of domestic catches.
- (2) The distribution of economic benefits to the major user groups in the harvesting sector is sensitive to the seasonal distribution of catches.

The assessments indicate that, given certain 5Y spawning stock recovery goals, the total economic benefits from the U.S. herring fishery can only be enhanced at a reduced relative and absolute share for the purse seine operators.

2.6.3.1. Assumptions

In assessing the revenue implications of alternative area/period TACs the following assumptions were made:

- (a) A zero percent recovery for the 5Y spawning stock is sought for the fishing year 1978/79 (July 1-June 30).<sup>3</sup> This scenario is applicable to an analysis of the 1978/79 revenue implications under stock rebuilding strategies S<sub>1</sub>, S<sub>2</sub>, and S<sub>3</sub> discussed in Section 2.5.
- (b) Immediately prior to and during the spawning period, herring congregate in dense schools and thus become economically accessible to purse seines. During the overwintering period herring aggregations are more dispersed and thus are typically more readily available to trawl gear. The percent distribution of herring catches by gear types (purse seines and trawl gear) for the year 1978/79 are assumed to be as follows:

|                                   | Purse Seines | Trawl |
|-----------------------------------|--------------|-------|
| Summer-Fall (July-Nov.) Fishery   | .94          | .06   |
| Winter-Spring (Dec.-June) Fishery | .20          | .80   |

These were the relative shares in the fishing year 1978/79 which is the latest period from which complete records are available.

(c) The magnitude of the summer-fall fishery in Area 4<sup>4</sup> is not significantly impacting on the particular level of area removals in 5Y which is consistent with a given 5Y spawning recovery rate. This results form the low probability of Gulf of Maine spawning herring appearing in the summer-fall herring catches on Georges

<sup>3</sup>The biological analysis of feasible area/period TACs presented in Section 2.6.2. is in terms of the calendar year. For purposes of the assessment of distributional consequences the analysis has been recast in terms of a fishing year. The implication is that the projected TACs for the winter-spring fishery in 1978/79 (which are implicit in the annual TACs shown in Table 2.6.7.) is tentative pending an assessment of recruitment through the summer-fall fishery in 1978.

<sup>4</sup>For a geographical definition of areas see Fig. 2.5.1. in Section 2.5.1.2.

Bank. The same does not, however, hold true in the case of the winter-spring herring fishery south of Cape Cod (Area 3). As discussed in Section 2.6.2.3. it is possible to increase the catch in the 5Zw winter-spring fishery by 100 tons and still maintain a zero percent recovery of the 5Y spawning stock only if the winter-spring fishery in 5Y is reduced by 40 tons. For purposes of this analysis three alternative levels have been assumed for the Area 3 winter-spring herring catch: 1,000, 2,500 and 4,000 tons. It has been assumed that the entire catch in this fishery is harvested by trawl gear. (This has typically been the case in recent years, Table 2.6.8.).

(d) The annual catch of herring 3+ in the territorial waters of the State of Maine is between 6,000 and 8,000 tons (Ref. Sec. 2.6.2.4.).

An average ex-vessel price (of \$139.9/ton) will prevail throughout the fishing year.

Given the above assumptions the combined gross revenues from the all year Area 2 herring fishery and the winter-spring fishery in Area 3 have been forecasted for each of four options of seasonal allocations of Area 2 TACs set out in Table 2.6.7.

For any given level of catch in the Area 3 winter-spring fishery, the total herring catch in Area 2 that allows for 5Y stock removals of 7,000 tons (the zero growth requirement) decreases as the relative share of the summer-fall fishery increases. This results from the increased probability of encountering an indigenous Gulf of Maine spawning herring in the summer-fall catches from Area 2. (Sec. 2.6.1.) For example, an increase in the Area 3 winter-spring fishery of 1,500 tons requires a compensatory decrease of 700 tons under Option 1 in order to keep annual 5Y stock removals at 7,000 tons. The larger the percentage share of the summer-fall fishery, the smaller this required compensation becomes.

2.6.3.2. Predicted Revenues to Major Harvesting/Gear Groups for the Year 1978/79 Under Alternative Area/Period TACs

The revenue projections are shown in Figures 2.6.1. and 2.6.2. The detailed data are available in Tables A.5.9.-A.5.11. of Appendix 5. Given the requirement of an unchanged 5Y spawning stock size during the year 1978/79, and assuming a 2,500 ton catch in the Area 3 winter-spring fishery, the combined gross revenues to the harvesting sector from herring fishing in Areas 2 and 3 will decline from \$2.35 million to \$1.27 million as the percent Area 2 catch taken in the summer-fall period increases from 0 to 70 (Fig. 2.6.1.).

| 1                    | 0                                                           | 100           | 15,000                                                                                                                                                  | 14,300     | 13,600     |
| 2                    | 30                                                          | 70            | 9,950                                                                                                                                                   | 9,500      | 9,050      |
| 3                    | 55                                                          | 45            | 7,750                                                                                                                                                   | 7,400      | 7,050      |
| 4                    | 70                                                          | 30            | 6,850                                                                                                                                                   | 6,550      | 6,250      |

- 1/ These catch levels were generated by the biological model presented in Section 2.6.1.
- 2/ Options 1, 2, 3 and 4 discussed here are referred to as Options 2, 3, 1 and 4 respectively in Section 2.6.2.3.

Figure 2.6.1. Total revenues to harvesting sector from herring fishing in Area 2 (all year) and Area 3 (Winter/Spring) as a function of the percent allocation of the Area 2 annual quota to the Summer/Fall season under alternate assumptions of catch levels in the Area 3 Winter/Spring fishery.

Figure 2.6.2. Total revenues to harvesting sector and major gear types from herring fishing in Area 2 (all year) and Area 3 (Winter/Spring) as a function of the percent allocation of the Area 2 annual quota to the Summer/Fall season under the assumption of a 2,500 mt catch in the Area 3 Winter/Spring fishery.

It is also apparent that the distribution of total gross revenues from the fishery between harvesting groups is sensitive to the seasonal TACs. For example, assuming a 2500 ton catch in the Area 3 winter-spring fishery, purse seines and trawl gear which share equally in gross revenues from herring fishing in Areas 2 and 3 if approximately two-thirds of the annual Area 2 herring TAC was reserved for the summer-fall fishery. Anything less than two-thirds will increase the share of pair trawls relative to that of purse seines (Fig. 2.6.2.). It needs emphasizing that this conclusion is only valid under the particular assumptions made above with respect to the relative shares of major gear types in the seasonal herring catches.

As a point of reference for assessing the distributional consequences of alternative area/period TACs, it should be noted (Table 2.6.8.) that the relative shares of pair trawls and purse seines in total annual gross revenues from herring fishing have averaged .65/.35 for the last two years (.52/.48 for 1976/77 and .72/.28 (pred.) for 1977/78.). It will be apparent from Figure 2.6.2. that the relative shares of revenues expected to be generated through option 2 closely matches the historical .65/.35 ratio.

The predicted changes in 1978/79 gross revenues to major gear groups from herring fishing in Areas 2 and 3 relative to the average levels in the last two years are shown in Table 2.6.9. Assuming a total 2,500 ton catch in the winter-spring fishery in Area 3 the predicted change in gross revenues to purse seines ranges from -.55 to -.27 percent depending on the selected period TAC in Area 2. The corresponding changes for pair trawls are +.18 and -.63 percent.

| 3                      | -27%                                                                  | -66%           | -30%            | -54%           | -33%            | -43%           |
| 4                      | -23%                                                                  | -75%           | -27%            | -63%           | -30%            | -51%           |

<sup>1/</sup> All revenue changes are measured relative to the average annual gross revenues from herring fishing in Areas 2 and 3 for the two gear groups in the years 1976/77 and 1977/78. The gross revenues for these years are shown in Table 2.6.8. The predicted gross revenues for the period 1978/79 are shown in Table A.5.11. of Appendix 5.

<sup>2/</sup> The options are defined in Table 2.6.7.

The above predictions have not explicitly considered the implications of the development of a summer-fall fishery on Georges Bank. A limited number of larger vessels currently participating in the herring fishery in Areas 2 and 3 have the capacity for fishing the herring grounds in the Cultivator Shoals area and further eastward on the Bank. Development of the hitherto practically nonexistent domestic herring fisheries in these areas will tend to ameliorate the negative impacts projected in Table 2.6.9.

#### 2.6.3.3. Policy Implications

The biological analysis of feasible area/period TACs was presented in Sections 2.6.1. and 2.6.2. A major conclusion was that the total annual allowable harvest of adult herring in the Gulf of Maine that is consistent with a given goal of rebuilding the Gulf of Maine spawning stock is a function of the seasonal distribution of the area TAC. It is also dependent on the level of herring catches in the winter-spring fishery south of Cape Cod and off Rhode Island. These observations served as the point of departure for an assessment of the revenue implications for the major vessel/gear groups in the fishery of alternative options during 1978/79 for seasonal allocations of the Gulf of Maine adult herring area TAC.

The conditional gross revenue forecasts presented in Sec. 2.6.3.2. suggest that a policy of maximizing the gross benefits to the harvesting sector from herring fishing in Areas 2 and 3 within some stock growth constraint can only be pursued at the expense of reduced gross earnings to purse seines. This trade off or negative rate of transformation between total gross revenues from herring fishing and gross revenues to purse seines is illustrated by the downward sloping line in Fig. 2.6.3.b. The transformation ratio -.24 (line B2 divided by A2) implies that, for every increase of \$100 in total herring gross revenues to the harvesting sector brought about by a shift of the annual Area 2 TAC towards the winter-spring season, purse seines will experience a decline of \$24 in gross revenues from herring fishing. The transformation ratio for total gross revenues and gross revenues to trawl gear is 1.24 (Fig. 2.6.3.a.).

[3510-22-C]

Figure 2.6.3.A.

Transformation Ratio Between Total Gross Revenues From Herring Fishing to Harvesting Sector and Gross Revenues From Herring Fishing to Pair Trawlers

Figure 2.6.3.B.

Transformation Ratio Between Total Gross Revenues From Herring Fishing to Harvesting Sector and Gross Revenues From Herring Fishing to Purse Seiners

The transformation ratios shown in Fig. 2.6.3. will change in response to changes in the relative shares of the major gear types in the total herring catches during the respective seasons. In particular, it should be noted that increased participation by purse seines in the winter fisheries in Areas 2 and 3 will lessen the reduction in gross revenues to purse seines associated with an increase in the total gross revenues to the harvesting sector that is made possible from the shift of seasonal Area 2 TACs in favor of the winter-spring fishery.

## 3.0. Determination of Optimum Yield and Plan Provisions

## 3.1. Introduction

The determination of optimum yield has both intertemporal and intratemporal components (Section 1.5). An intertemporal strategy to rebuild the stock is established by objective 1 of the FMP. When to begin stock rebuilding is an investment decision and must be evaluated for several initiation options. Section 2.5. of this FMP has provided the Council with an analytical basis for selecting an intertemporal strategy for stock rebuilding consistent with the stated management objectives. This strategy is detailed in Sect. 3.2.1.

Within a given year, the annual allowable harvests that are consistent with stock maintenance/recovery goals are themselves functions of the spatial and seasonal distribution of catch within an exploitation area (Sect. 2.6.2.). As such, these distributions impact on the allocation of benefits to individual user-groups. Intratemporal strategies determine optimum yields for the fishing year 1978/1979 and allocations of these optimum yields by season. In selecting a strategy, the distribution of benefits to various user-groups must be considered. Section 2.6.

of this FMP has provided the analytical basis for establishing optimum yields for adult herring in fishing year 1978/1979, which are detailed in Sections 3.2.2. and 3.2.3.

The determination of optimum yields for the adult herring fishery in exploitation areas 5Y and 5Z/SA6 has been made with the assumption (Section 1.1.2.) that the management unit as defined will be retained under U.S. management jurisdiction. As such, area optimum yields do not include explicit considerations of possible allocations of the herring resources to Canada. The Council recognized that management authority over and allocative rights to the Georges Bank herring resource is currently the subject of negotiations between the U.S. and Canada. Because of the current poor status of the 5Y herring spawning stock, no Canadian allocation of the herring resources in that area is expected. A Canadian allocation of the 5Z/SA6 herring resource, which may result from the negotiation process, is not expected to exceed 10% of the optimum yield which has been determined for that area. This Canadian allocation could be accommodated in the FMP by increasing the 5Z/SA6 area OY accordingly. The magnitude of the resulting increase in optimum yield is not likely to jeopardize 5Z/SA6 herring spawning stock rebuilding, thereby continuing to allow for an expected spawning stock increase in excess of 15%.

Other measures and conditions appropriate to the effective management of adult herring resources under the jurisdiction of the FCMA are detailed in Sect. 3.3.

## 3.2. Determination of Optimum Yield and Area/Period TACs

A conceptual overview of the relationships between management concerns/objectives and major plan provisions is set out in Figure 3.2. Throughout the discussion below of optimum yields, seasonal/area TACs and total allowable level of foreign fishing, reference will be made to individual components in this structure.

[3510-22-C]

Figure 3.2. Schematic illustration of objectives - Major plan provisions.

### 3.2.1. Intertemporal Considerations: Stock Rebuilding

Due to the unregulated fishery for adult herring in 5Y between January and June 1978, it is not feasible to set 5Y adult herring quotas for the fall consistent with spawning stock rebuilding in this calendar year. Quotas consistent with 5Y stock rebuilding in any calendar year will require substantial reductions in allowable 5Y adult herring catches compared to recent years (Block A in Figure 3.2.). The short-run adverse economic impact resulting from adult herring catch restrictions in 5Y (Block C in Figure 3.2.) are expected to be mitigated by increased harvests in 5Z/SA6, particularly during the summer/fall period. However, U.S. vessels are currently not fully capable of fishing in the distant waters of Georges Bank (5Ze), and it is anticipated that the focus of the adult herring fishery will not be able to shift from 5Y to this area until calendar year 1980. Given the above considerations, the Council has determined that the rebuilding of the Gulf of Maine (5Y) herring spawning stock shall begin in 1980 (Block D in Figure 3.2.).

The commitment to initiate rebuilding of the Gulf of Maine spawning stock in 1980 may be re-evaluated and postponed for one year to permit fishing in 5Y at a maximum harvest compatible with current stock assessments if the current assessment and recruitment data for the Georges Bank and

southern New England stock indicate a stock size that could not support a viable commercial fishery in the 5Z/SA6 area. A decision to postpone rebuilding of the Gulf of Maine spawning stock shall be re-assessed after one year, taking into account all relevant assessment data on the Gulf of Maine stock and the stocks in areas other than the Gulf of Maine.

The Council agrees that the adult herring fishing year, for management purposes, shall commence on July 1 rather than January 1. In this manner, seasonal quotas for the 1978/1979 adult herring fishery in 5Y will be set to maintain the 5Y spawning stock without further decline (Block D in Figure 3.2.). The OYs and seasonal quotas for the 1979/1980 fishing year will be set to achieve stock rebuilding, focusing primarily on allowable catches from the winter/spring period. These quotas, appropriate for stock rebuilding in calendar year 1980, shall be set as soon as assessment and recruitment data necessary for reliable estimates of allowable catches are available.

The Council considers rapid restoration of the 5Z/SA6 herring stock from its present critically low level necessary and desirable (Blocks L and G in Figure 3.2.). The strategy for recovery of this stock, however, needs to be synchronized with that of the 5Y stock; the expected domestic catch in 5Z/SA6 is particularly dependent on the total harvesting restrictions imposed on the 5Y fishery (Blocks D, E, F in Figure 3.2.).

### 3.2.2. Seasonal Catch Distribution in the 5Y Adult Herring Fishery

Presently available information with regard to sea herring stock overlap, provided by results of scientific studies (particularly the International Herring Tagging Program) and interpreted by the herring stock distribution model (see Sect. 2.6.), has been carefully considered and analyzed by the NEFMC (Block B in Figure 3.2.). A major conclusion is that the total annual allowable harvest of adult herring in the Gulf of Maine, consistent with a given goal of 5Y spawning stock rebuilding, increases as the emphasis of the fishery is shifted from the summer-fall to the winter-spring season. The Council recognizes that such a seasonal shift would adversely impact on the fall purse seine fishery (Section 2.6.3.) but notes that the herring fishery as a whole is highly dynamic and that recent trends in seasonal catches within area 5Y have reflected an increasing emphasis on the winter/spring fishery. The Council does not, however, wish to impose an immediate undue hardship upon the area 5Y fall purse seine fishery (Block C in Figure 3.2.), and thus recommends that the distribution of allowable 5Y adult herring catch during the fishing year 1978/1979 reflect a winter-spring/summer-fall catch distribution of 50:50.

### 3.2.3. Optimum Yield Area/Period TACs

The expected domestic catches, the recommended OYs, TALFFs and seasonal quotas by management areas are shown in Table 3.2.3.

[3510-22-C]

Table 3.2.3.

OYs, TALFFS AND SEASONAL QUOTAS RECOMMENDED FOR THE FISHING YEAR 1978/1979

|                                                  | 5Y*      | 5Z/SA6    | All Areas |
|--------------------------------------------------|----------|-----------|-----------|
| Optimum Yield (OY)                               | 8,000 MT | 10,000 MT | 18,000 MT |
| Expected Domestic Catch (EDC)                    | 8,000 MT | 10,000 MT | 18,000 MT |
| Total Allowable Level of Foreign Fishing (TALFF) | 0        | 0         | 0         |
| <u>Seasonal Quotas</u>                           |          |           |           |
| July-November, 1978                              | 4,000 MT | 7,500 MT  | 11,500 MT |
| December, 1978-June, 1979                        | 4,000 MT | 2,500 MT  | 6,500 MT  |

\* Excludes Maine territorial waters.

**3.2.3.1. Total Allowable Catch in 5Y for 1978/1979**

Optimum yield for the herring (age 3+) fishery in 5Y for 1978/1979 is identical to the particular TAC associated with the selected strategy for rebuilding. As such, the 5Y area OY is set at 8,000 metric tons.

Consistent with the discussion in 3.2.2., seasonal quotas for the harvest of herring (age 3+) in the adult fishery from exploitation area 5Y (exclusive of the State of Maine) during the fishing year 1978/1979 are 4,000 MT for the period July-November, 1978, and 4,000 MT for the period December, 1978-June, 1979. The quota for the December-June, winter/spring 1978/1979 5Y fishery is subject to some revision pending updated stock assessments of the herring resource through mid-year 1978. Moreover, the winter/spring 1978/1979 quota is in part, subject to expected harvests in the 5Zw winter fishery south of Cape Cod.

**3.2.3.2. Total Allowable Catch in 5Z/SA6 for 1978/1979**

Optimum yield for the herring (age 3+) fishery in 5Z/SA6 for 1978/1979 reflects the Council's concern for achieving the highest possible stock recovery rates consistent with a level of fishing that will accommodate the expected domestic catch of herring (age 3+) in the management area. The expected domestic catch in 5Z/SA6, under conditions of a 8,000 MT OY in 5Y, has been determined as 10,000 MT, following the general considerations for EDC assessments expressed in Sec. 2.4.3. In consequence, the 5Z/SA6 OY is set at 10,000 MT.

Consistent with the EDC assessments for alternative fishing areas (Table 2.4.1.) and given the recommended 5Y seasonal quotas, the seasonal quotas for the harvest of herring (Age 3+) from exploitation area 5Z/SA6 during the fishing year 1978/1979 are 7,500 MT for the period July-November, 1978 and 2,500 MT for the period December, 1978-June, 1979.

**3.2.3.3. Provision for Within-Plan Adjustment in Area/Period TACs**

The analytical model for establishing area/period TACs provides the Council with the flexibility for making seasonal quota adjustments in response to (1) unexpected seasonal patterns of herring availability by area, and (2) updated stock assessments. The mechanism for making these adjustments, including a hypothetical example, is detailed in Sect. 2.6.2.3. To the extent that within-plan changes in area/period TACs are made, the annual Optimum Yields by management area will be adjusted. The anticipated range of such adjustments in area OYs is within 10-15%, plus or minus, of the recommended levels. As long as such adjustments are constrained by acceptable levels or removals from the 5Y spawning stock, they do not represent departures from the biological stock objectives. Rather, they properly reflect seasonal variations in herring availability by geographical area.

**3.2.3.4. The Total Allowable Levels of Foreign Fishing**

The annual expected domestic catch of herring in the 5Y area under a no plan situation exceeds the OY determined for this fishery in the fishing year 1978/79. Consequently, there is no surplus available for allocation to foreign states. Since it has been demonstrated in the past years that U.S. herring catches in 5Y have been at or exceeded the long-term average yield in the fishery, it is not foreseen that there will be any surplus available to foreign states as re-

building of the 5Y spawning stock is achieved.

The TALFF for herring in the 5Z/SA6 area for the fishing year 1978/79 has been determined to be zero (Block K in Figure 3.2.). This results from the Council's intent to secure a maximum rate of stock recovery in 1978/79 (Block G in Figure 3.2.), given that the expected domestic catch for herring in the area is to be accommodated within the OY (Block F in Figure 3.2.).

The maximum recovery rate reflects the attempt to increase the 5Z/SA6 spawning stock from its present, critically low level as soon as possible. Furthermore, the Council has determined that, by restricting the 1978/79 OY to the expected domestic catch levels and thereby making herring in 5Z/SA6 more abundant and available to domestic fishermen in future years, its actions are consistent in the long run with the goal of providing the greatest overall benefit to the nation from the fishery (Block H in Figure 3.2.).

Similar considerations should govern the determination of the future availability of foreign surpluses. The Council wishes to stress that indications of a future positive TALFF for herring in 5Z/SA6 are expected to impact adversely on the investment in the development of an increased capacity to harvest herring by a domestic fishery during the fall period on Georges Bank. Such an expansion is desirable to relieve the pressure on the 5Y stock.

Furthermore, the Council feels that the determination of future TALFFs for herring should reflect an improved understanding of (a) the migratory and reproductive interrelationships between the various herring stocks and (b) the relationship between herring abundance and the relative abundance of other commercial/recreational species of regional importance.

**3.3. Other Measures and Conditions Specified by the Plan**

The FCMA specifies two mandatory management instruments in the overall management strategy for attainment of stated management objectives, a total annual catch limitation (TAC) and a total allowable level of foreign fishing (TALFF). These have been addressed in an earlier section (3.2.3.).

Additionally, certain discretionary management instruments may be appropriate for implementation of the management strategy. Those discretionary management instruments which the Council believes to be appropriate to the adult sea herring resource within the jurisdiction of the FCMA are defined below.

**3.3.1. Time/Area Spawning Closures**

The Council, while observing in principle the desirability of establishing closed seasons/areas to protect spawning aggregations, anticipates that the summer-fall 1978 seasonal quota in area 5Y probably will be taken prior to the spawning season. In a practical sense, therefore, no further action will be required in 1978/1979 to protect spawning fish in 5Y.

With regard to spawning sites in area 5Z, it is clear that the current, limited capability of the U.S. fishing fleet to exploit Georges Bank spawning aggregations makes it unnecessary to establish season/area closures during the fishing year 1978/1979.

The Council is concerned, however, that all spawning sites for sea herring within the FCZ be identified on a continuing basis and that definition of spawning season/area clo-

tures be reserved for possible future implementation.

**3.3.2. Minimum Size Limitation: Adult Fishery**

For various reasons, a minimum size limitation (9 inches) was imposed by ICNAF on the adult sea herring fishery. To the extent that a similar measure would constitute a sound conservation practice, the Council is agreeable to its establishment. However, in view of uncertainties associated with expressing attainment of sexual maturity in terms of size or length of fish, the Council has elected to forego establishment of a minimum size at this time.

The Council recommends that additional research be initiated for determination of the size at sexual maturity in sea herring. Moreover, the Council will consider reimplementation of a minimum size should it become clear from monitoring of fishing practices that the mortality of juvenile fish in the adult fishery exceeds expected levels.

**3.3.3. Discarding at Sea**

The Council is adamant that no deliberate discarding be permitted in the domestic regulated adult herring fishery within the FCZ.

**3.3.4. Regulatory Conditions****3.3.4.1. Cooperative Management Within Territorial Seas**

The Council recognizes the traditional juvenile herring fishery within the territorial seas of the State of Maine and further recognizes that an annual, aggregated average catch of 6,000-8,000 MT of age 3 and older herring have in recent years been incorporated within the juvenile catch. Insofar as such catches of age 3+ herring are a reflection of year class abundances, and are not the result of a directed fishery of the proportions that would impede the achievement of the Council's objective 1, the catches of adult herring need not be explicitly counted against the TAC for age 3+ herring, but may be implicitly discounted in the stock assessment without violating the assumptions of that assessment. Under these conditions, the Council considers the territorial seas of the State of Maine to be a distinct management entity within exploitation area 5Y. The Council understands that the State of Maine will take appropriate measures to manage the age 3+ herring resource within its State waters consistent with the Council's regional management objectives. (See Sec. 2.6.2.4. for further discussion). Maine's management authority is described in Appendix 6 and its management plan in Appendix 7.

The Council is aware that the bulk of the U.S. catch of adult sea herring has historically been taken within 12 nautical miles from the shore and, moreover, takes the position that proper management of the herring resource would ensure its continued availability within coastal waters. Effective regional herring management, therefore, is critically dependent upon the cooperation of the coastal states' management agencies.

Accordingly, the Council requests that the directors of the respective coastal states' management agencies communicate to the Council their plans for cooperative management of the sea herring resource.

Additionally, the Council requests that the coastal states make catch statistics relative to their respective sea herring fisheries available to the Council in a form deemed mutually acceptable.

The Council anticipates that appropriate management regulations consistent with

this plan will be implemented in each state. The fishery management authority of the five New England states is outlined in Appendix 6.

#### 3.3.4.2. Permits and Fees

The Council recommends that the following additional regulatory measures be applied to the adult herring fishery within the FCZ. (a) Any owner or operator of a vessel desiring to take any sea herring within the FCZ; or to transport or deliver for sale sea herring taken within the FCZ, must obtain a license for that purpose. The owner or operator of a vessel may obtain the appropriate license by furnishing, on the application form provided by the National Marine Fisheries Service, information including the names and addresses of the vessel owner and master, the name of the vessel, official number, directed fishery or fisheries, gear type or types utilized to take herring, gross tonnage of vessel, crew size including captain, fish hold capacity (to the nearest 100 pounds), and the home port of the vessel. The registration form shall be submitted, in duplicate, to the Regional Director, National Marine Fisheries Service, Gloucester, Massachusetts 01930, who shall issue the required license, for an indefinite term; such term to include the calendar year in which the license is issued. A license shall expire whenever vessel ownership changes, or whenever there is a substantial change in any of the information contained in the application. Application for a new license, because of a change in vessel ownership, shall include the names and addresses of both the purchaser and the seller and be submitted by the purchaser.

The license issued by the National Marine Fisheries Service must be carried, at all times, on board the vessel for which it is issued, mounted clearly in the pilothouse of such vessel, and such license, the vessel, its gear and equipment, and catch shall be subject to inspection at reasonable times, by an authorized official.

Licenses issued under this part may be revoked by the Assistant Administrator for violations of this part.

(b) Each fishing vessel shall display its official number on the deckhouse or hull and on an appropriate weather deck. The identifying markings shall be affixed and shall be of the size and style established by the National Marine Fisheries Service.

A fishing vessel is here defined as any boat, ship, or other craft which is used for, equipped to be used for, or of a type which is normally used for, fishing, except a scientific research vessel.

#### 3.3.4.3. Management Costs

A limited increase in government costs is anticipated as a result of the implementation of the Herring FMP. This will be due primarily to the initial costs incurred from implementing management regulations and procedures for the domestic herring fishery; specifically, from issuing the required permits, processing the data supplied by vessel logbooks and processor records, and additional enforcement activities by the Coast Guard and the National Marine Fisheries Service.

#### 3.3.4.4. Specifications of Requirements for Fishery Data

The Council recognizes that management decisions must be based on a sound scientific body of information. To this end, the acquisition of adequate fishery data is of primary importance. The following are generally described reporting requirements the

Council deems necessary to the management of the adult herring fishery within the FCZ. The Council anticipates that specific reporting requirements will be formulated in the implementing regulations.

(a) **Herring Tagging:** The Council wishes to encourage research efforts designed to provide critical information on stock definition and seasonal migratory behavior of sea herring. In particular, the Council recommends that international herring tagging efforts be continued for the foreseeable future.

(b) **Domestic Fishermen:** In the case of a licensed vessel taking herring, either directly or incidentally, the owner or master of such vessel will be required to maintain an accurate log of fishing operations showing at least: (1) type, size, and quantity of gear used, (2) areas fished, duration of fishing time, length of tow and number of hauls where appropriate, and (3) estimated weight in pounds of each species taken for those tows in which herring were taken. Such logbooks will be available for inspection by any authorized official of the National Marine Fisheries Service, and will be presented for examination, and subsequent return to the owner or master of the vessel, upon proper demand by such authorized official at any time during or at the completion of a fishing trip. Such required documentation will be maintained by the owner or master of the vessel at least one year subsequent to the date of the last entry in the logbook. All logbooks will be submitted to an authorized official of the National Marine Fisheries Service.

All data received under this section will be kept strictly confidential and will be released in aggregate statistical form only, without individual identification as to its source.

(c) **Processors:** All persons, individuals, firms, corporations, or business associations, at any port or place in the United States that buys and/or receives herring from U.S. flag vessels, will keep accurate records of all transactions involving herring on forms supplied by the Regional Director, National Marine Fisheries Service. Records will show the name of vessel or common carrier from which herring was received, the date of the transaction, the amount of herring received, and the price paid.

The possession by any person, firm or corporation of herring which such person, firm, or corporation knows to have been taken by a vessel of the United States without a valid license is prohibited. In addition, all persons, individuals, firms, corporations, or business associations which process herring in any manner whatsoever, shall keep accurate records of all transactions involving herring. Such records will show the name of the entity from whom the herring was received, date of transaction, amount of herring received, and price paid.

#### 3.4. Relationship of the Recommended Measures to Existing Applicable Laws and Policies

##### 3.4.1. Fishery Management Plans

Preliminary Fishery Management Plans (PMPs) for five fisheries of the northwest Atlantic were implemented on March 1, 1977, by the U.S. Department of Commerce. These PMPs presently regulate foreign fishing within the FCZ for Atlantic herring, Atlantic mackerel, silver and red hake, squid (*Loligo* and *Illex*) and finfish caught incidentally to trawling. The Council has prepared a Fishery Management Plan (FMP)

for the Atlantic Groundfish fishery. Regulations promulgated by the Secretary of Commerce imposing quotas, minimum size limits, mesh restrictions, etc., went into effect on June 13, 1977, and have been subsequently amended to apply to the fisheries during 1978. The Mid-Atlantic Fishery Management Council has prepared a FMP for the Atlantic Surf Clam fishery. Regulations imposing a moratorium on new vessels, catch quotas, and other harvesting restrictions are in effect. Plans for several other species are also in various stages of preparation by the New England and Mid-Atlantic Fishery Management Councils.

This Atlantic Herring Fishery Management Plan, prepared by the New England Fishery Management Council, is related to these other plans as follows:

(1) This Atlantic Herring FMP will replace the Preliminary Management Plan for the Atlantic Herring Fishery of the North-western Atlantic that is in place now. In the PMP, the Department of Commerce stated that it anticipates that the New England Council will recommend appropriate changes in the development of its fishery management plan.

(2) All fisheries of the northwest Atlantic are part of the same general geophysical, biological, social and economic setting. Domestic and foreign fishing fleets, fishermen, and gear often are active in more than a single fishery. Thus, regulations that restrict the harvesting of one species of a group of related species may cause transfers of fishing effort to other fisheries.

(3) Many fisheries of the Northwest Atlantic result in significant mortality on non-target species. Therefore, each management plan must consider the impact of non-target species fishing mortality on other stocks.

(4) Present on-going research programs often provide data on stock size, levels of recruitment, distribution, and age and growth for many of the species regulated by the PMPs, FMPs and proposed FMPs.

#### 3.4.2. Treaties or International Agreements

Relevant international agreements are described in Appendix 6.

#### 3.4.3. Federal Laws and Policies

##### 3.4.3.1. Marine Sanctuaries and Other Special Management Systems

The U.S.S. Monitor Marine Sanctuary was officially established on January 30, 1975, under the Marine Protection, Research and Sanctuaries Act of 1972. The Sanctuary's position off the coast of North Carolina at 35°00'23" N latitude, 75°24'34" W longitude, is not located in the plan's designated management area. No other marine sanctuaries have been designated under the federal statute in the Northwest Atlantic.

##### 3.4.3.2. Current and/or Proposed Oil, Gas, Mineral and Deep Water Port Developments

While Outer Continental Shelf (OCS) exploration and development plans involve areas overlapping those contemplated for offshore fishery management, the Council is unable to specify the relationship of both programs without site-specific information. Certainly, the potential for conflict exists if communication between interests is not maintained or appreciation of each other's efforts is lacking. Potential conflicts, from a fishery management viewpoint include: (1) exclusion areas, (2) adverse impacts to sensitive, biologically important areas, (3) oil contamination, (4) substrate hazards to conventional fishing gear, and (5) competition for crews and harbor space. The Council is not aware of pending deep water port plans

which would directly impact offshore fishery management goals in the areas under consideration, nor is it aware of potential effects of offshore fishery management plans upon future development of deep water port facilities.

#### 3.4.4. State, Local and Other Applicable Laws and Policies

State laws affecting the fishery that is the subject of this management plan are outlined in Appendix 6.

##### 3.4.4.1. State Coastal Zone Management (CZM) Programs

The proposed action entails management of Atlantic herring stocks in an effort to ensure sustained productivity at some optimum level. This effort is necessary in order to achieve integrity of fish stocks, related food chains, and habitat necessary for this integrated biological system to function effectively. Most CZM plans for the New England states are presently in the developmental stages and there are presently no specif-

ic state coastal zone management measures which would ultimately impact this fishery management plan either favorably or adversely. However, the CZM Act of 1972 as amended (P.L. 94-583) is primarily protective in nature, and provides measures for ensuring stability of productive fishery habitats within the coastal zone. Therefore, each state's CZM plan will probably assimilate the ecological principles upon which this particular fishery management plan is based. It is recognized that responsible long-range management of both coastal zones and fish stocks must involve mutually supportive goals. Thus, when details are forthcoming, specific state CZM plan elements related to fishery concerns will be incorporated.

The Massachusetts CZM program received final approval from the Secretary of Commerce on May 15, 1978. The program contains several policies with which subsequent

federal action must be consistent. This plan is consistent with each of them, in particular Policy 14, which encourages commercial fisheries research and development, and the restoration and management of fishery resources.

#### APPENDIX 3.—BIOLOGICAL MODEL FOR DETERMINING AREA/PERIOD TAC, TECHNICAL DESCRIPTION (IN SUPPORT OF SECTION 2.6.1. OF THE PLAN)

Consider the case of three spawning stocks ( $i=1, 2, 3$ ), four seasonal periods ( $t=1, 2, 3, 4$ ), and three exploitation areas ( $j=1, 2, 3$ ). Assume that the composition of the adult herring fishery catch in the  $j$ th area during a given seasonal period ( $t$ ), with respect to stock origin, is directly related to the relative abundance of the various adult stock biomasses in the same  $j$ th area during the same seasonal period.

$$\begin{aligned}
 \text{LET: } K_{(3,3)}^t &= \{K_{ij}^t\} = \text{percent distribution of stock (i) in} \\
 &\quad \text{exploitation area (j) during seasonal} \\
 &\quad \text{period (t).} \\
 A_{(1,3)}^t &= \{a_i^t\} = \text{The age 4+ abundance (MT) of each of} \\
 &\quad \text{three spawning stocks,} \\
 \text{SET: } B_{(3,3)} &= \{b_{mn}\} = \begin{bmatrix} a_1 & 0 & 0 \\ 0 & a_2 & 0 \\ 0 & 0 & a_3 \end{bmatrix} \\
 \text{AND LET } S_{(1,3)}^t &= \{s_j^t\} = \text{the total abundance of fish in areas 4XW,} \\
 &\quad \text{5Y and 5Z/SA6 during period t,} \\
 \text{WHERE } S^t &= \begin{bmatrix} A^t \cdot K^t \\ s_{(1,1)}^t & 0 & 0 \\ 0 & s_{(2,1)}^t & 0 \\ 0 & 0 & s_{(3,1)}^t \end{bmatrix} \quad (1) \\
 \text{SET: } R_{(3,3)}^t &= \{r_{mn}^t\} = \\
 \text{THEN, } C_{(3,3)}^t &= \text{the distribution of spawning stock (i) in} \\
 &\quad \text{metric tons by exploitation area (j) for} \\
 &\quad \text{period (t),} \\
 &= B \cdot K^t, \quad (2) \\
 \text{AND } G_{(3,3)}^t &= \text{the percent contribution of stock (i) in} \\
 &\quad \text{exploitation area (t) during period (t),} \\
 &= C^t \cdot R^{t-1} \quad (3)
 \end{aligned}$$

Included in the herring management objectives are considerations of recovery rates for individual adult spawning stocks. It is recognized that because adult herring from the three spawning stocks migrate in seasonal patterns and geographically overlap in varying proportions within a given area at various times of the year, the annual area TAC consistent with the expectation of a certain increase in the biomass of a given stock or stocks will be partially dependent upon the expected spatial distribution of catch within an area over the year.

Noting (4), it is seen that the  $y_j^t$ 's allow the possibility to analyze the impact of various assumed temporal catch patterns within areas on the resultant area TACs ( $q$ ), and yet maintain

consistency with the specified stock TAC constraints ( $x$ ). The  $y_j^t$  values which are chosen may be made to reflect historical performance or catch distribution over the fishing year. Closures by area or season may be simulated and the impacts on the area TACs ascertained.

**NOTICE TO READER.**—Only Appendix 3 is published herein, the other 8 appendices may be obtained by contacting Mr. William G. Gordon, Regional Director, Northeast Regional Office, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930; Telephone (617) 281-3600.

[FR Doc. 78-35699 Filed 12-21-78; 2:36 pm]

LET:  $y_{(3,3)}^t$

$$\begin{bmatrix} y_{11}^t & 0 & 0 \\ 0 & y_{22}^t & 0 \\ 0 & 0 & y_{33}^t \end{bmatrix}$$

where  $y_{jj}^t$  = the percent distribution of catch by period ( $t$ ) for each exploitation area ( $j$ ).

$A_{(3,3)}$

a matrix describing the relative abundance of stocks in the three exploitation areas for each of four seasonal periods as adjusted by the expected proportions of the total catch of adults from an area that could be taken during a given period.

$$\sum_{t=1}^4 (g^t \cdot y^t).$$

(4)

$t=1$

AND,  $x$

the vector of acceptable biological catch levels appropriate to each stock.

THEN,  $Q_{(3,1)}$

the total allowable catch appropriate to a given exploitation area.

$$A^{-1} \cdot x.$$

## Title 12—Banks and Banking

### CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

#### PART 11—SECURITIES EXCHANGE ACT

##### Disclosure Rules

**AGENCY:** Comptroller of the Currency, Treasury.

**ACTION:** Final rule.

**SUMMARY:** This document amends the Securities Exchange Act Disclosure Rules (12 CFR Part 11) promulgated by the Comptroller of the Currency ("Comptroller") under the Securities Exchange Act of 1934 ("the 1934 Act") in order to clarify those regulations and to substantially conform them to rules and regulations issued by the Securities and Exchange Commission ("SEC"). Section 12(i) of the 1934 Act requires that changes made by the SEC in its relevant rules and regulations must also be made by the Comptroller in the Securities Exchange Act Disclosure Rules unless he finds that such changes are not appropriate in the public interest or for the protection of investors, and such findings are published in the *FEDERAL REGISTER*. This amendment is intended to respond to the statutory mandate and among several areas covers the following: (1) Confidential treatment; (2) dissemination of proxy information to beneficial owners by issuers through intermediary recordholders; (3) preliminary proxy materials; (4) shareholder proposals; and (5) tender offers.

**EFFECTIVE DATE:** January 29, 1979.  
**FOR FURTHER INFORMATION CONTACT:**

Ralph Janvey, Attorney, Securities Disclosure Division, Comptroller of the Currency, Washington, DC 20219 at (202) 447-1954.

**SUPPLEMENTARY INFORMATION:** On March 13, 1978, the Comptroller published in the *FEDERAL REGISTER* (43 FR 10371) for comment proposed amendments to the Securities Exchange Disclosure Rules (12 CFR Part 11) in order to clarify and make them more similar to SEC regulations. Interested persons were given the opportunity to submit, not later than May 12, 1978, their views regarding the proposed amendments (43 FR 10938).

The Comptroller received two comments in response to the proposed amendments, which were carefully considered but not adopted for the reasons specified below:

1. One commentator, while having no significant objections per se to the disclosure of preliminary proxy materials, opined that disclosure of preliminary information which is inaccurate could mislead investors. In response, the Comptroller notes that under the amendment preliminary proxy materials will be available for public inspection only after the definitive material is filed. Thus, a bank will have ample opportunity to make appropriate corrections prior to publication. Accordingly, the Comptroller believes that investors are unlikely to be misled through disclosure of preliminary proxy materials and is therefore adopting the amendments as proposed for comment.

2. A commentator suggested that the Comptroller should adopt a rule to provide that where a beneficial and a record holder of the same securities submit opposing proposals for inclusion in management proxy materials, the proposal of the beneficial owner should generally be preferred for inclusion in the materials. The Comptroller believes that if such an improbable event occurs, a decision should be formulated on the operative facts and resolved by administrative interpretation. Therefore, the Comptroller is adopting the shareholder proposal amendment as originally proposed.

Based on the foregoing, 12 CFR Part 11 is amended as set forth below.

The Comptroller amends 12 CFR Part 11 as follows:

1. § 11.2 is amended as follows:

##### § 11.2 Definitions.

(bb) A "subsidiary" of a bank is (1) an affiliate controlled by the bank, directly or indirectly through one or more intermediaries, except where the control (i) exists by reason of ownership or control of voting securities by the bank in a fiduciary capacity or (ii) was obtained by the bank in the course of securing or collecting a debt previously contracted in good faith, where ownership of the affiliate will be temporary, and no substantive continuing involvement occurs e.g., major development funds are advanced which expose the bank to further risk; or (2) a person a majority of whose voting securities are held in trust for the benefit of the holders of a class of stock of the bank pro rata.

2. § 11.3(c) is amended as follows:

§ 11.3 Inspection and publication of information filed under the Act; Notice of informal adjudications.

(c) *Nondisclosure of certain information filed.* Any person filing any statement, report, or document (herein referred to as the material filed) under the Act may make written objection to the public disclosure of any information contained therein in accordance with the procedure set forth below. The procedure provided in this rule shall be the exclusive means of requesting confidential treatment of information required to be filed under the Act.

(1) The person shall omit from the material filed the portion thereof that it desires to keep undisclosed (herein called the confidential portion), and shall indicate at the appropriate place in the material filed that the confidential portion has been so omitted and filed separately with the Comptroller of the Currency.

(2) The person shall file with the copies of the material filed with the Comptroller of the Currency:

(i) As many copies of the confidential portion, each clearly marked "Confidential Treatment," as there are copies of the material filed with the Comptroller of the Currency and with any exchange where such material is required to be filed. Each copy shall contain the complete text of the item and the entire answer thereto, even though the confidential portion does not constitute the whole of the answer; except that where the confidential portion is part of a financial statement or schedule, only the particular financial statement or schedule need be included. All copies of the confidential portion shall be in the same form as the remainder of the material filed.

(ii) An application making objection to the disclosure of the confidential portion. Such application shall be on a sheet or sheets separate from the confidential portion, and shall contain (A) an identification of the portion; (B) a statement of the grounds for objection, referring to and containing an analysis of the applicable exemption(s) from disclosure under the Comptroller of the Currency's rules and regulations adopted under the Freedom of Information Act (12 CFR 4.16, 4.17 and 4.17a), and a justification of the period of time for which confidential treatment is sought; (C) a written consent to the furnishing of the confidential portion to other government agencies, offices or bodies and to the Congress; and (D) the name of each exchange, if any, with which the material is filed. The copies of the confidential portion and the application filed in accordance with this subparagraph shall be enclosed in a separate envelope marked "CONFIDENTIAL TREATMENT" and addressed to the Comptroller of the Currency, Washington, D.C. 20219.

(3) Pending the determination by the Comptroller of the Currency as to the objection filed in accordance with paragraph (c)(2) of this section, the confidential portion will not be disclosed by the Comptroller of the Currency.

(4) If the Comptroller of the Currency determines that the objection shall be sustained, a notation to that effect will be made at the appropriate place in the material filed. Such a determination will not preclude reconsideration whenever appropriate, such as upon receipt of any subsequent request under the Freedom of Information Act and, if appropriate, revocation of the confidential status of all or a portion of the information in question. Where confidential treatment is granted under this section, the Comptroller of the Currency will attempt, whenever possible, to give to the person who requested confidential treatment advance notice if the confidential treatment is to be revoked.

(5) In any case where request for confidential treatment has been denied or where a prior grant of confidential treatment has been revoked, a finding and determination to that effect will be entered and notice of the finding and determination will be sent by registered or certified mail to the person or his agent for service.

(6) The confidential portion shall be made available to the public:

(i) Upon the lapse of 15 days after the dispatch of the notice by registered or certified mail of the finding and determination of the Comptroller of the Currency described in paragraph (c)(5) of this section, if prior to the lapse of such 15 days the person shall not have filed a written statement that he intends in good faith to seek judicial review of the finding and determination;

(ii) Upon the lapse of 30 days after the dispatch of notice by registered or certified mail of the finding and determination of the Comptroller of the Currency, if the statement described in paragraph (c)(6)(i) of this section shall have been filed and if a petition for judicial review shall not have been filed within such 30 days;

(iii) If timely notice of intent to seek judicial review shall have been filed and if a petition for judicial review has been filed within 30 days, upon final disposition of such judicial proceedings adverse to such person.

(7) If the confidential portion is made available to the public, a copy thereof shall be attached to each copy of the statement, report, or document filed with the Comptroller of the Currency and with each exchange concerned.

3. Sections 11.4(g)(1), 11.4(u) and 11.4(w)(1) are amended as follows:

**§ 11.4 Registration statements and reports.**

(g) *Current reports; shareholder filing of Form F-11.* (1) Every registrant bank shall file a current report in conformity with the requirements of Form F-3 within 15 days after the occurrence of the earliest event required to be reported, unless substantially the same information as required by that form has been previously reported by the bank.

(u) *Amendments.* All amendments shall comply with all pertinent requirements applicable to statements and reports. Amendments shall be filed separately for each statement or report amended. Amendments to a statement may be filed either before or after registration becomes effective. All amendments should be filed on Form F-20.

(w) *Interpretation of requirements.* Unless the context clearly shows otherwise: (1) the forms require information only as to the bank and its subsidiaries.

**§ 11.5 [Amended]**

4. § 11.5(c)(1), Notes 1 and 2, § 11.5(c)(2), § 11.5(c)(3) and § 11.5(c)(8) (i) and (ii) are amended as follows:

(c) \* \* \*

(i) \* \* \*

Notes.—1. To reflect adequately the financial position and results of operations of a bank in its annual report to security holders, the financial presentation shall include, but not necessarily be limited to, the following:

(a) Comparative statements of condition at the end of each of the last 2 fiscal years similar in form to Form F-9A.

(b) Comparative statements of income for each of the last 2 fiscal years similar in form to Form F-9B.

(c) Comparative statements of changes in capital accounts for each of the last 2 fiscal years similar in form to Form F-9C.

(d) Comparative statements of changes in financial position for each of the last 2 fiscal years for which a statement of income is furnished, similar in form to Form F-9E.

(e) A comparative reconciliation of the "Reserve for Possible Loan Losses" account for each of the last 2 fiscal years, similar in form to Schedule VII, Form F-9D, in a note to the financial statements.

(f) Supplemental notes to financial statements to the extent necessary to furnish a fair financial presentation. Such notes should include the aggregate market value

as at the balance sheet date for each category of investment securities reported on the balance sheet, and other information required to be furnished in notes to financial statements included in the bank's Form F-3 Annual Report (Refer to 12 CFR 11.7(c) (5) to (10)).

2. If the financial statements included in the report to security holders reflect any differences in the principles of consolidation or other accounting principles or practices or in methods of applying accounting principles or practices from the financial statements of the bank filed or proposed to be filed with the Comptroller of the Currency, these shall be noted and the effect thereof reconciled or explained in the annual report to security holders if the differences have a material effect on the financial position or results of the bank.

(2) Furnish in comparative columnar form a summary of operations for each of the last five years. Where necessary, include by footnote or otherwise information or explanation of material significance to investors in appraising the results shown.

Note.—At a minimum, the following items shall be included: total operating income; provision for possible loan losses; total other operating expenses (excluding provision for possible loan losses); income before income taxes and securities gains (losses); applicable income taxes; income (loss) before securities gains (losses); securities gains (losses) less related income taxes; net income (loss); earnings per common share before securities gains (losses) and net income. Dividends per share shall be shown.

(3) The report shall contain information for each of the last two fiscal years similar to that required by Schedules III and VIII of Form F-9D in a note to the financial statements.

(8)(i) If the bank knows that securities of any class entitled to vote at a meeting and with respect to which the bank intends to solicit proxies, consents or authorization, are held of record by a broker, dealer, bank or voting trustee, or their nominees, the bank shall inquire of such record holder at least 10 days prior to the record date for the meeting of security holders (or at such later time as the rules of a national securities exchange on which the class of securities in question is listed may permit for a good cause shown) whether other persons are the beneficial owners of such securities and, if so, the number of copies of the proxy and other soliciting material and, in the case of an annual meeting at which directors are to be elected, the number of copies of the annual report to security holders, necessary to supply material to such beneficial owners. The bank shall supply such record holder with additional copies in such quantities, assembled in such form and at such a place,

as the record holder may reasonably request in order to address and send one copy of each to each beneficial owner of securities so held and shall, upon the request of such record holder, pay its reasonable expenses for completing the mailing of such material to security holders to whom the material is sent.

(ii) If the bank's list of security holders indicates that some of its securities are registered in the name of a clearing agency pursuant to section 17A of the Act, a bank shall make appropriate inquiry of the agency and thereafter of the participants in such agency who may hold on behalf of a beneficial owner, and shall comply with the above subparagraph (8)(i) with respect to any such participant.

5. § 11.5(f) (1) to (5) is amended as follows:

(f) *Material required to be filed.* (1) Six preliminary copies of each statement, form of proxy, and other items of soliciting material to be furnished to security holders concurrently therewith, shall be filed with the Comptroller of the Currency by management or any other person making a solicitation subject to § 11.5 at least 10 calendar days or 15 calendar days in the case of other than routine meetings, as defined below) prior to the date such items are first sent or given to any security holders, or such shorter period prior to that date as may be authorized. For the purposes of this paragraph (f)(1), a routine meeting means a meeting with respect to which no one is soliciting proxies subject to § 11.5 other than on behalf of management and at which management intends to present no matters other than the election of directors, election of inspectors of election, and other recurring matters. In the absence of actual knowledge to the contrary, management may assume that no other such solicitation of the bank's security holders is being made. In cases of annual meetings, one additional preliminary copy of the Statement, the form of proxy, and any other soliciting material, marked to show changes from the material sent or given to security holders with respect to the preceding annual meeting, shall be filed with the Comptroller of the Currency.

(2) Six preliminary copies of any additional soliciting material relating to the same meeting or subject matter, furnished to security holders subsequent to the proxy statement shall be filed with the Comptroller of the Currency at least 2 days (exclusive of Saturdays, Sundays, and Holidays) prior

to the date copies of such material are first sent or given to security holders, or such shorter period prior to such date as may be authorized upon a showing of good cause therefor.

(3) Six copies of each Statement, form of proxy, and other items of soliciting material, in the form in which such material is furnished to security holders, shall be filed with, or mailed for filing to, the Comptroller of the Currency not later than the date such material is first sent or given to any security holders. Three copies of such material shall at the same time be filed with, or mailed for filing to, each exchange upon which any security of the bank is listed.

(4) If the solicitation is to be made in whole or in part by personal solicitation, three copies of all written instructions or other material that discusses or reviews or comments upon the merits of any matter to be acted upon, and is furnished to the individuals making the actual solicitation for their use directly or indirectly in connection with the solicitation, shall be filed with the Comptroller of the Currency by the person on whose behalf the solicitation is made at least 5 days prior to the date copies of such material are first sent or given to such individuals, or such shorter period prior to that date as may be authorized upon a showing of good cause therefor.

(5) All copies of material filed pursuant to paragraph (f) (1) and (2) of this section shall be clearly marked "Preliminary Copies" and shall be for the information of the Comptroller of the Currency only and shall not be deemed available for public inspection before definitive material has been filed with the Comptroller of the Currency, except that such material may be disclosed to any department or agency of the United States Government and to the Congress and the Comptroller of the Currency may make such inquiries or investigation with respect to the material as may be necessary for an adequate review thereof. All material filed pursuant to paragraph (f) (1), (2), or (3) of this section shall be accompanied by a statement of the date upon which copies thereof are intended to be, or have been, sent or given to security holders. All material filed pursuant to paragraph (f)(4) of this section shall be accompanied by a statement of the date upon which copies thereof are intended to be released to the individuals who will make the actual solicitation.

6. § 11.5(h)(1) is amended to delete the word "earnings" in the second sentence.

7. § 11.5(k) is amended as follows:

(k) *Proposals of security holders.* (1) If any security holder of the bank notifies management of the bank of his intention to present a proposal for action at a forthcoming meeting of the bank's security holders, management shall set forth the proposal in its Statement and identify the proposal in its form of proxy and provide means by which security holders can make the specification provided for by paragraph (d)(2) of this section. If management issues an information statement, it shall identify the proposal and indicate the disposition proposed to be made of the proposal by management at the meeting. Management, however, need not include a proposal in its Statement if such proposal is submitted less than 90 days in advance of a day corresponding to the date of mailing a proxy statement or information statement in connection with the last annual meeting of security holders. Notwithstanding the foregoing, management of the bank shall not be required to include the proposal in its Statement or form of proxy unless the security holder (hereinafter, the "proponent") has complied with the requirements of this paragraph and paragraphs (k) (2) and (3) of this section:

(i) *Eligibility.* At the time he submits the proposal, the proponent shall be a record or beneficial owner of a security entitled to be voted at the meeting of his proposal, and he shall continue to own such security through the date on which the meeting is held. If management requests documentary support for a proponent's claim that he is a beneficial owner of a security of the bank, the proponent shall furnish appropriate documentation within 10 business days after receiving the request. In the event management includes the proponent's proposal in its statement for the meeting and the proponent fails to comply with the requirements that he be a voting security holder continuously through the meeting date, management shall not be required to include any proposals submitted by the proponent in its statement for any meeting held in the following two calendar years.

(ii) *Notice.* The proponent shall notify management in writing of his intention to appear personally at the meeting to present his proposal for action. The proponent shall furnish the requisite notice at the time he submits the proposal, except that if he was unaware of the notice requirement at the time, he shall comply with it within 10 business days after being informed of it by management. If the proponent, after furnishing in good faith the notice required by this provision, subsequently determines that he will be unable to appear personally at

the meeting, he shall arrange to have another security holder of the bank present his proposal on his behalf at the meeting. In the event the proponent or his proxy fails, without good cause, to present the proposal for action at the meeting, management shall not be required to include any proposals submitted by the proponent in its Statement for any meeting held in the following two calendar years.

(iii) *Timeliness.* The proponent shall submit his proposal sufficiently far in advance of the meeting so that it is received by management within the following time period.

(A) *Annual Meetings.* A proposal to be presented at an annual meeting shall be received by management at the bank's principal executive offices not less than 90 days in advance of a date corresponding to the date set forth on management's Statement released to security holders in connection with the previous year's annual meeting of security holders, except that if no annual meeting was held in the previous year or the date of the annual meeting has been changed more than 30 calendar days from the date of the previous year's annual meeting a proposal shall be received by management a reasonable time before the solicitation is made.

(B) *Other meetings.* A proposal to be presented at any meeting other than an annual meeting shall be received a reasonable time before the solicitation is made.

**NOTE.**—In order to curtail controversy as to the date on which a proposal was received by management, it is suggested that the proponents submit their proposals by Certified Mail-Return Receipt Requested.

(iv) *Number and length of proposals.* (1) The proponent may submit a maximum of two proposals of not more than 300 words each for inclusion in management's Statement for a meeting of security holders. If the proponent fails to comply with either of these requirements, or if he fails to comply with the 200 word limit on supporting statements mentioned in paragraph (k)(2) of this section, he shall be provided the opportunity by management to reduce, within 10 business days, the items submitted by him to the limits required by this paragraph (k).

(2) If management opposes any proposal received from a proponent, it shall also, at the request of the proponent, include in its Statement a statement of the proponent, in not more than 200 words, in support of the proposal, which statement shall not include the name and address of the proponent. The statement and request of the proponent shall be furnished to management at the time that the proposal is furnished, and neither management nor the bank shall be respon-

sible for such statement. The Statement shall also include either the name and address of the proponent or a statement that such information will be furnished by the bank or by the Comptroller of the Currency to any person, orally or in writing as requested, promptly upon receipt of any oral or written request therefor. If the name and address of the proponent are omitted from the Statement, they shall be furnished to the Comptroller of the Currency at the time of filing management's preliminary material pursuant to paragraph (f) of this section.

(3) Management may omit a proposal and any statement in support thereof from its Statement and form of proxy under any of the following circumstances:

(i) The proposal is, under applicable law, not a proper subject for action by security holders;

**NOTE.**—A proposal that may be improper under the applicable state law when framed as a mandate or directive may be proper when framed as a recommendation or request.

(ii) The proposal would, if implemented, require the bank to violate any state law or Federal law of the United States, or any law of any foreign jurisdiction, to which the bank is subject, except that this provision shall not apply with respect to any foreign law compliance which would be violative of any state or Federal law of the United States;

(iii) The proposal or the supporting statement is contrary to any of the Comptroller's proxy rules and regulations, including 12 CFR 11.5(h);

(iv) The proposal relates to the enforcement of a personal claim or the redress of a personal grievance against the bank, its management, or any other person;

(v) The proposal deals with a matter that is not significantly related to the business of the bank;

(vi) The proposal deals with a matter that is beyond the bank's power to effectuate;

(vii) The proposal deals with a matter relating to the conduct of the ordinary business operations of the bank;

(viii) The proposal relates to an election to office;

(ix) The proposal is counter to a proposal to be submitted by management at the meeting

(x) The proposal has been rendered moot;

(xi) The proposal is substantially duplicative of a proposal previously submitted to management by another proponent, which proposal will be included in management's proxy materials for the meeting;

(xii) Substantially the same proposal has previously been submitted to secu-

rity holders in management's Statement relating to any annual or special meeting of security holders held within the preceding 5 calendar years, it may be omitted from management's Statement relating to any meeting of security holders held within the 3 calendar years after the latest such previous submission: *Provided, That*—(A) If the proposal was submitted at only one meeting during such preceding period, it received less than 3 percent of the total number of votes cast in regard thereto; or

(B) If the proposal was submitted at only two meetings during such preceding period, it received at the time of its second submission less than 6 percent of the total number of votes cast in regard thereto; or

(C) If the proposal was submitted at three or more meetings during such preceding period, it received at the time of its latest submission less than 10 percent of the total number of votes cast in regard thereto; and

(xiii) The proposal relates to specific amounts of cash or stock dividends.

(4) Whenever management asserts, for any reason, that a proposal and any statement in support thereof received from a proponent may properly be omitted from its Statement, it shall file with the Comptroller of the Currency, not later than 50 days prior to the date the preliminary copies of the Statements are filed pursuant to paragraph (f) of this section, or such shorter period prior to such date as the Comptroller of the Currency may permit, 3 copies of the proposal and any statement in support thereof as received from the proponent, together with a statement of the reasons why management deems such omission to be proper in the particular case, and where such reasons are based on matters of law, a supporting opinion of counsel. Management shall at the same time, if it has not already done so, notify the proponent submitting the proposal of its intention to omit the proposal from its Statement and shall forward to him a copy of the statement of reasons why management deems the omission of the proposal to be proper and a copy of such supporting opinion of counsel.

8. Sections 11.5(l)(1), 11.5(l)(3)(iv) and 11.5(l)(4) are amended as follows:

(i) *Tender Offers.* (1) No person, directly or indirectly, by use of the mails or any means or instrumentality of interstate commerce or of any facility of a national securities exchange or otherwise, shall make a tender offer for, or a request or invitation for tenders of, any class of any equity security, which is registered pursuant to Section 12 of the Act, of a national bank or a bank operating under the Code of

Law for the District of Columbia, if, after consummation thereof, such person would, directly or indirectly, be the beneficial owner of more than 5 percent of such class, unless, at the time copies of the offer or request or invitation are first published or sent or given to security holders, such person has filed with the Comptroller of the Currency a statement containing the information and exhibits required by Form F-13.

(3) . . .

(iv) The information required by Items 1(c), 2(b), 2(e), 2(f) and 2(g), 3, 4, 5, 6, 7, 8, 9, and 10 of Form F-13, or a fair and adequate summary thereof.

**Instructions.** 1. Negative responses to any such items or sub-items for Form F-13 need not be included in the information published or sent or given to security holders. 2. Although the financial statements necessary to present a fair and adequate summary of Item 9 of Form F-13 may vary depending on the facts and circumstances involved, summary financial information will normally be sufficient summary disclosure of Item 9 for purposes of paragraph 3(iv) of this section. If the information required by Item 9 is summarized, appropriate instructions should be included stating how more complete financial information can be obtained.

(4) Any additional material soliciting or requesting such tenders subsequent to the initial solicitation or request shall contain the names of the persons making such solicitation or request and the information required by Items 1(c), 2(b), 2(e), 2(f) and 2(g), 3, 4, 5, 6, 7, 8, 9, and 10 of Form F-13, or a fair and adequate summary thereof: *Provided, However,* That such material may omit any of such information previously furnished to the persons solicited or requested for tenders. Copies of such additional material soliciting or requesting such tenders shall be filed with the Comptroller of the Currency not later than the time copies of such material are first published or sent or given to security holders.

(5) . . .

(6) Four copies of the statement required by paragraph (i)(1) of this section, every amendment to such statement, and all other material required by this paragraph shall be filed with the Comptroller of the Currency.

9. Sections 11.7(c)(1) and 11.7(g) are amended as follows:

§ 11.7 Form and content of financial statements.

(c) *Provisions of general application.*—(1) Requirements as to form. Financial statements shall be prepared

in accordance with the applicable requirements of Forms F-9 A, B, C, D, and E. All money amounts required to be shown in financial statements may be expressed in even dollars or thousands, and an indication to that effect shall be inserted immediately beneath the caption of the statement or schedule, or at the top of each money column. The individual amounts shown need not be adjusted to the nearest dollar or thousand if the failure of the items to add to the totals shown is stated in a note as due to the dropping of amounts of less than \$1 or \$1,000, as appropriate.

(g) *Schedules to be filed.* . . .

(4) The schedules shall be verified if the financial statements are so verified.

10. Section 11.41, Form F-1, Item 4, Instruction 1 and Form F-1 Instructions as to Financial Statements are amended as follows:

§ 11.41 Form for registration of securities of a bank pursuant to section 12(b) or section 12(g) of the Securities Exchange Act of 1934 (Form F-1).

#### ITEM 4—SUMMARY OF OPERATIONS

Furnish in comparative columnar form a summary of operations for each of the last five fiscal years. Where necessary, include information or explanation, by footnote or otherwise, of material significance to investors in appraising the results shown.

**Instructions.** 1. At a minimum, the following items shall be included: Total operating income; provision for possible loan losses; total other operating expenses (excluding provision for possible loan losses); income before income taxes and securities gains (losses); applicable income taxes; income (loss) before securities gains (losses); securities gains (losses) less related income taxes, net income (loss); earnings per common share before securities gains (losses) and net income. Dividends per share shall be shown.

#### FORM F-1 INSTRUCTIONS—AS TO FINANCIAL STATEMENTS

These instructions specify the balance sheets and statements of income required to be filed as a part of a Registration Statement on this form. Section 11.7 of this part governs the verification, form, and content of the balance sheets and statements of income required, including the basis of consolidation, and prescribes the statement of changes in capital accounts and statement of changes in financial

position and the schedules to be filed in support thereof.

#### A. FINANCIAL STATEMENTS OF THE BANK

1. . . .

2. *Statements of income, changes in capital accounts and changes in financial position.* (a) The bank shall file in columnar form verified statements of income, changes in capital accounts and changes in financial position for each of the three fiscal years preceding the date of the balance sheet required by Instruction 1(a).

(b) There shall be filed with each balance sheet filed pursuant to Instruction 1(b) verified statements of income, changes in capital accounts and changes in financial position of the bank for the fiscal year immediately preceding the date of the balance sheet.

3. . . .

#### B. CONSOLIDATED STATEMENTS

4. *Consolidated Balance Sheets.* . . .

5. *Consolidated Statements of Income, Changes in Capital Accounts, and Changes in Financial Position.* (a) There shall be filed verified statements of income, changes in capital accounts and changes in financial position of the bank and its majority-owned (1) bank premises subsidiaries, (2) subsidiaries operating under the provisions of Section 25 or Section 25(a) of the Federal Reserve Act, ("Agreement Corporations" and "Edge Act Corporations"), and (3) significant subsidiaries, for each of the three fiscal years preceding the date of the consolidated balance sheet required by Instructions 4.(a).

(b) There shall be filed with each balance sheet filed pursuant to Instruction 4.(b) verified statements of income, changes in capital accounts and changes in financial position of the bank and such subsidiaries for the fiscal year immediately preceding the date of the balance sheet.

#### C. UNCONSOLIDATED SUBSIDIARIES AND OTHER PERSONS

11. § 11.42, Form F-2 is amended as follows:

§ 11.42 Form for annual report of bank (Form F-2)

#### ITEM 4—SUMMARY OF OPERATIONS

Furnish in comparative columnar form a summary of operations for each of the last five fiscal years. Where necessary, include information or explanation, by footnote or otherwise, of material significance to investors in appraising the results shown.

**Instructions.** 1. At a minimum, the following items shall be included: Total operating income; provision for possible loan losses; total other operating expenses (excluding provision for possible loan losses); income before income taxes and securities gains (losses); applicable income taxes; income (loss) before securities gains (losses); securities gains (losses) less related income taxes; net income (loss); earnings per common

share before securities gains (losses) and net income. Dividends per share shall be shown.  
2. . . .

#### ITEM 5—PENDING LEGAL PROCEEDINGS

(a) Briefly describe any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the bank or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

(b) If any material legal proceeding which was previously reported or which became reportable during the fourth quarter of a bank's fiscal year was terminated during such quarter, give the date of termination and describe the disposition thereof with respect to the bank and its subsidiaries.

Instructions. 1. . . .

#### ITEM 6—INCREASES AND DECREASES IN OUTSTANDING SECURITIES AND INDEBTEDNESS

(a) Give the following information as to all increases and decreases during the fiscal year in the amount of equity securities of the bank outstanding:

- (1) The title of the class of securities involved;
- (2) The date of the transaction;
- (3) The amount of securities involved and whether an increase or decrease; and
- (4) A brief description of the transaction in which the increase or decrease occurred. If previously reported, the description may be incorporated by a specific reference to the previous filing.

Instruction. The information shall be prepared in the form of a reconciliation between the amounts shown to be outstanding on the balance sheet to be filed with this report and the amounts shown on the bank's balance sheet for the previous year. The exercise of outstanding options or warrants, separately by class or type of option or warrant, conversions of previously issued convertible securities (separately by class of security) and the issuance of options may be grouped together showing the dates between which all such transactions occurred. If the information called for has been previously reported on Form F-4 it may be incorporated by a specific reference to the previous filing.

(b) Increases and decreases in the amount outstanding of debt securities and indebtedness which were previously reported in reports on Form F-4 should be listed and briefly discussed with appropriate cross references to the earlier disclosure.

(c) If, during the fourth quarter of the bank's fiscal year, the amount of debt securities or indebtedness outstanding has been increased or decreased through one or more transactions, and the aggregate amount of all such increases or decreases not previously reported exceeds 5% of the outstanding securities or indebtedness of the affected class, furnish the following information:

- (1) Title of class, the amount outstanding as last previously reported, and the amount

presently outstanding (as of a specified date);

(2) A brief description of the transaction or transactions resulting in the change;

(3) If an increase in securities or indebtedness is reported, furnish: (i) A statement of the aggregate net cash proceeds or the nature and aggregate amount of any consideration received or to be received by the bank; (ii) the names of the principal underwriters, if any, indicating any such underwriters which are affiliates of the bank; (iii) a reasonably itemized statement of the purposes, so far as determinable, for which the net proceeds have been or are to be used and the approximate amount used or to be used for each such purpose; and

(4) If a decrease in securities or indebtedness is reported, a statement of the aggregate amount of cash or the nature and aggregate amount of any other consideration paid or to be paid by the bank in connection with such transaction or transactions.

Instructions. (1) For the purposes of responding to paragraph (c) the bank may treat each of the following as a single class of indebtedness: (i) Convertible long term debt, and (ii) other indebtedness.

(2) This paragraph does not apply to notes, drafts, bills of exchange, bankers' acceptances, or other obligations which mature not later than 1 year from the date of issuance. No report need be made where the amount not previously reported, although in excess of 5 percent of the amount outstanding does not exceed \$50,000 face amount of indebtedness or 1,000 shares or other units.

(3) This paragraph includes the reissuance of treasury securities and securities held for the account of the bank thereof. The extension of the maturity date of indebtedness shall be deemed to be the issuance of new indebtedness for the purpose of this paragraph. In the case of such an extension, the percentage shall be computed upon the basis of the principal amount of the indebtedness extended.

(4) This paragraph need not be answered as to decreases resulting from ordinary sinking fund operations, similar periodic decreases made pursuant to the terms of the constituent instruments, decreases resulting from the conversion of securities or decreases resulting from the payment of indebtedness at maturity.

#### ITEM 7—CHANGES IN SECURITIES AND CHANGES IN SECURITY FOR REGISTERED SECURITIES

##### GENERAL INSTRUCTION

No response to this item is required if the information called for herein has been previously reported in a report on Form F-4.

(a) If the constituent instruments defining the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved and state briefly the general effect of such modification upon the rights of holders of such securities.

(b) If the rights evidenced by any class of registered securities have been materially limited or qualified by the issuance or modification of any other class of securities, state briefly the general effect of the issuance or modification of such other class of securities upon the rights of the holders of the registered securities.

Instruction Working capital restrictions and other limitations upon payment of dividends are to be reported hereunder.

#### ITEM 8—DEFAULTS UPON SENIOR SECURITIES

##### General Instruction

No response to this item is required if the information called for herein has been previously reported in a report on Form F-4.

(a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days, with respect to any indebtedness of the bank or any of its significant subsidiaries exceeding 5 percent of the total assets of the bank and its consolidated subsidiaries, identify the indebtedness and state the nature of the default. In the case of such a default in the payment of principal, interest, or a sinking or purchase fund installment, state the amount of the default and the total arrearage on the date of filing this report.

Instruction. This paragraph refers only to events which have become defaults under the governing instruments, i.e., after the expiration of any period of grace and compliance with any notice requirements.

(b) If any material arrearage in the payment of dividends has occurred or if there has been any other material delinquency not cured within 30 days, with respect to any class of preferred stock of the bank which is registered or which ranks prior to any class of registered securities, or with respect to any class of preferred stock of any significant subsidiary of the bank, give the title of the class and state the nature of the arrearage or delinquency. In the case of any arrearage in the payment of dividends, state the amount and the total arrearage on the date of filing this report.

Instruction. Item 8 need not be answered as to any default or arrearage with respect to any class of securities all of which is held by, or for the account of, the bank or its totally held subsidiaries.

#### ITEM 9—APPROXIMATE NUMBER OF EQUITY SECURITY HOLDERS

State in the tabular form indicated below the approximate number of holders of record of each class of equity securities of the bank as of the end of the fiscal year.

| (1)            | (2)                      |
|----------------|--------------------------|
| Title of class | Number of record holders |

Instructions. 1. Attention is directed to the definition of the term "equity security" in section 3(a)(11) of the Act and the definition of the term "held of record" in 12 CFR 11.2(j). 2. Information shall be given as of the end of the last fiscal year or as of any subsequent date, except that if the latest determination of the number of record holders of any class of equity securities was made for some other purpose within 90 days prior to the end of the last fiscal year, the

information may be given as of the date of such determination. 3. Information need not be given with respect to the number of holders of outstanding nontransferable options to purchase securities of the bank.

#### ITEM 10—SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

If any matter has been submitted to a vote of security holders, through the solicitation of proxies or otherwise, furnish the following information if not previously disclosed in a report on Form F-4.

(a) The date of the meeting and whether it was an annual or special meeting.

(b) If the meeting involved the election of directors, state the name of each director elected at the meeting and the name of any other director whose term of office as a director continued after the meeting.

(c) Briefly describe any other matter voted upon at the meeting and state the number of affirmative votes and the number of negative votes cast with respect to such matter.

Instructions. 1. If any matter has been submitted to a vote of security holders otherwise than at a meeting of such security holders, corresponding information with respect to such submission shall be furnished. The solicitation of any authorization or consent (other than a proxy to vote at a stockholders' meeting) with respect to any matter shall be deemed a submission of such matter of a vote of security holders within the meaning of the item. 2. Paragraph (a) need be answered only if paragraph (b) or (c) is required to be answered. 3. Paragraph (b) need not be answered if: (i) Proxies for the meeting were solicited pursuant to 12 CFR 11.5, (ii) there was no solicitation in opposition to the management's nominees as listed in the proxy statement, and (iii) all of such nominees were elected. If the bank did not solicit proxies and the board of directors as previously reported to the Comptroller of the Currency was re-elected in its entirety, a statement to that effect in answer to paragraph (b) will suffice as an answer thereto. 4. Paragraph (c) need not be answered as to procedural matters or as to the selection or approval of auditors. 5. If the bank has published a report containing all of the information called for by the item, the item may be answered by a reference to the information contained in such report, provided copies of such report are filed as an exhibit.

#### ITEM 11—OFFICERS OF THE BANK

(a) List the names and ages of all officers of the bank and all persons chosen to become officers; state the nature of any family relationship between them; indicate all positions and offices with the bank held by each such person; state his term of office as officer and the period during which he has served as such and briefly describe any arrangement or understanding between him and any other person pursuant to which he was selected as an officer.

Instructions. 1. Do not include arrangements or understandings with directors or officers of the bank acting solely in their capacities as such. 2. The term "family relationship" means any relationship by blood, marriage or adoption, not more remote than first cousin.

(b) Give a brief account of the business experience during the past five years of each officer, including his principal occupations and employment during that period

and the name and principal business of any corporation or other organization in which such occupations and employment were carried on. Where an officer has been employed by the bank or a subsidiary of the bank for less than 5 years, a brief explanation should be included as to the nature of the responsibilities undertaken by the individual in prior positions to provide adequate disclosure of his prior business experience. What is required is information relating to the level of his professional competence, which may include, depending upon the circumstances, such specific information as the size of the operation supervised.

#### ITEM 12—INDEMNIFICATION OF DIRECTORS AND OFFICERS

State the general effect of any charter provision, by-law, contract, arrangement or statute under which any director or officer of the bank is insured or indemnified in any manner against any liability which he may incur in his capacity as such.

#### ITEM 13—FINANCIAL STATEMENTS AND EXHIBITS

List below all financial statements and exhibits filed as a part of the annual report:

- (a) Financial statements.
- (b) Exhibits.

##### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the bank has duly caused this annual report to be signed on its behalf by the undersigned, thereunto duly authorized.

(Name of Bank)

By: \_\_\_\_\_  
(Name and Title of Signing Officer)

Date: \_\_\_\_\_

#### FORM F-2—INSTRUCTIONS AS TO FINANCIAL STATEMENTS

These instructions specify the balance sheets and statements of income required to be filed as a part of annual report on this form. Section 11.7 of this part governs verification, form, and content of the balance sheets and statements of income required, including the basis of consolidation, and prescribes the statement of changes in capital accounts, statements of changes in financial position, and the schedules to be filed in support thereof.

1. *Financial Statements of the Bank.* (a) There shall be filed for the bank, in comparative columnar form, verified balance sheets as of the end of the last two fiscal years and verified statements of income, changes in capital accounts and changes in financial position for such fiscal years.

- (b) . . . . .
2. *Consolidated Statements.*

15. § 11.43, Form F-3 is amended as follows. Item 13 is renumbered as Item 6.  
§ 11.43 Form for current report of a bank (Form F-3).

##### GENERAL INSTRUCTIONS

- A. . . . .
- B. Events to be Reported.

A report on this form is required to be filed upon the occurrence of any one or more of the events specified in the items of this form. Reports are to be filed within 15 days after the occurrence of the earliest event required to be reported. However, reports which disclose events pursuant to Item 5 may be filed within 10 days after the close of the month during which the event occurred. If the letter from the independent accountant to be furnished pursuant to Item 4(d) is unavailable at the time of filing, it shall be filed within thirty days thereafter. However, if substantially the same information as that required by this form has been previously reported by the bank, an additional report of the information on this form need not be made.  
C. . . .

#### INFORMATION TO BE INCLUDED IN REPORT.

##### ITEM 1—CHANGES IN CONTROL OF BANK

(a) If to the knowledge of management, a change in control of the bank has occurred, state the name of the person(s) who acquired such control; the amount and the source of the consideration used by such person(s); the basis of the control; the date and a description of the transaction(s) which resulted in the change in control; the percentage of voting securities of the bank now beneficially owned directly or indirectly by the person(s) who acquired control; and the identity of the person(s) from whom control was assumed. If the source of all or any part of the consideration used is a loan made in the ordinary course of business by a bank as defined by Section 3(a)(6) of the Act, the identity of such bank shall be omitted provided (1) a letter is furnished to the Comptroller of the Currency identifying the bank and requesting confidential treatment of the information and (2) the material shall indicate that disclosure of the identity of the bank has been so omitted and filed separately with the Comptroller of the Currency.

Instructions. 1. State the terms of any loans or pledges obtained by the new control group for the purpose of acquiring control and the names of the lenders or pledgees. 2. Any arrangements or understandings among members of both the former and new control groups and their associates with respect to election of directors or other matters should be described.

(b) Describe any contractual arrangements, including any pledge of securities of the bank, or any of its parents, known to management, the operation of the terms of which may at a subsequent date result in a change in control of the bank.

Instruction. Paragraph (b) does not require a description of ordinary default provisions contained in the charter, trust indentures or other governing instruments relating to securities of the bank.

##### ITEM 2—ACQUISITION OR DISPOSITION OF ASSETS

If the bank or any of its majority-owned subsidiaries has acquired or disposed of a significant amount of assets, otherwise than in the ordinary course of business, furnish the following information:

(a) The date and manner of the acquisition or disposition and a brief description of the assets involved, the nature and amount of consideration given or received therefor, the principle followed in determining the amount of such consideration, the identity

of the person(s) from whom the assets were acquired or to whom they were sold and the nature of any material relationship between such person(s) and the bank or any of its affiliates, any director or officer of the bank, or any associate of any such director or officer. If the transaction being reported is an acquisition, identify the source(s) of the funds used unless all or any part of the consideration used is a loan made in the ordinary course of business by a bank as defined by Section 3(a)(6) of the Act in which case the identity of such bank shall be omitted provided: (1) A letter is furnished to the Comptroller of the Currency identifying the bank and requesting confidential treatment of the information and (2) the material shall indicate that disclosure of the identity of the bank has been so omitted and filed separately with the Comptroller of the Currency.

(b) If any assets so acquired by the bank or its subsidiaries constituted plant, equipment or other physical property, state the nature of the business in which the assets were used by the persons from whom acquired and whether the bank intends to continue such use or intends to devote the assets to other purposes, indicating such other purposes.

**Instructions.** 1. No information need be given as to (i) any transaction between any person and any wholly-owned subsidiary of such person; (ii) any transaction between two or more wholly-owned subsidiaries of any person; or (iii) the redemption or other acquisition of securities from the public, or the sale or other disposition of securities to the public, by the issuer of such securities. 2. The term "acquisition" includes every purchase, acquisition by lease, exchange, merger, consolidation, succession or other acquisition: *Provided*, That such term does not include the construction or development of property by or for the bank or its subsidiaries on the acquisition of materials for such purpose. The term "disposition" includes every sale, disposition by lease, exchange, merger, consolidation, mortgage, or hypothecation of assets, assignment, whether for the benefit of creditors or otherwise, abandonment, destruction, or other disposition. 3. The information called for by this item is to be given as to each transaction or series of related transactions of the size indicated. The acquisition or disposition of securities shall be deemed the indirect acquisition or disposition of the assets represented by such securities if it results in the acquisition or disposition of control of such assets. 4. An acquisition or disposition shall be deemed to involve a significant amount of assets (i) if the bank's and its other subsidiaries' equity in the net book value of such assets or the amount paid or received therefor upon such acquisition or disposition exceeded 10 percent of the total assets of the bank and its consolidated subsidiaries, (ii) if it involved the succession to or disposition of a business which would meet the test of a significant subsidiary, or (iii) if it involved the acquisition or disposition of an interest in a business which would meet the test of a significant subsidiary and would be required to be accounted for by the equity method. 5. Where assets are acquired or disposed of through the acquisition or disposition of control of a person, the person from whom such control was acquired or to whom it was disposed of shall be deemed the person from whom the assets were acquired or to whom they were disposed of, for the purposes of

this item. Where such control was acquired from or disposed of not more than five persons, their names shall be given; otherwise it will suffice to identify in an appropriate manner the class of such persons. 6. Attention is directed to the requirements in Item 6 of the form with respect to the filing of financial statements for businesses acquired and to the filing of copies of the plans of acquisition or disposition as exhibits to the report.

#### ITEM 3—BANKRUPTCY OR RECEIVERSHIP

If a receiver, conservator, fiscal agent or similar officer has been appointed for a bank or its parent, in a proceeding under the Bankruptcy Act or in any other proceeding under state or Federal law in which a court or governmental agency has assumed jurisdiction over substantially all of the assets or business of the bank or its parent, or if such jurisdiction has been assumed by leaving the existing directors and officers in possession but subject to the supervision and orders of a court or governmental body, identify the proceeding, the court or governmental body, the date jurisdiction was assumed, the identity of the receiver, conservator, fiscal agent or similar officer and the date of his appointment.

#### ITEM 4—CHANGES IN BANK'S CERTIFYING ACCOUNTANT

If an independent accountant who was previously engaged as the principal accountant to audit the bank's financial statements resigns (or indicates he declines to stand for re-election after the completion of the current audit) or is dismissed as the bank's principal accountant, or another independent accountant is engaged as principal accountant, or if an independent accountant on whom the principal accountant expressed reliance in his report regarding a significant subsidiary resigns (or formally indicates he declines to stand for re-election after the completion of the current audit) or is dismissed or another independent accountant is engaged to audit that subsidiary:

(a) State the date of such resignation (or declination to stand for re-election) dismissal or engagement. (b) State whether in connection with the audits of the two most recent fiscal years and any subsequent interim period preceding such resignations, dismissal or engagement there were any disagreements with the former accountant or any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to the satisfaction of the former accountant would have caused him to make reference in connection with his report to the subject matter of the disagreement(s); also, describe each such disagreement. The disagreements required to be reported in response to the preceding sentence include both those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this rule and those which occur at the decision-making level; i.e., between personnel of the bank responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report.

(c) State whether the principle accountant's report on the financial statements for any of the past two years contained an adverse opinion or a disclaimer of opinion or

was qualified as to the uncertainty, audit scope, or accounting principles; also describe the nature of each adverse opinion, disclaimer of opinion or qualification.

(d) The bank shall request the former accountant to furnish the bank with a letter addressed to the Comptroller of the Currency stating whether he agrees with the statements made by the bank in response to this item and, if not, stating the respects in which he does not agree. The bank shall file a copy of the former accountant's letter as an exhibit with all copies of the Form F-3 required to be filed pursuant to 12 CFR 11.4(q).

#### ITEM 5—OTHER MATERIALLY IMPORTANT EVENTS

The bank may, at its option, report under this item any events, with respect to which information is not otherwise called for by this form, which the bank deems of material importance to security holders.

#### ITEM 6—FINANCIAL STATEMENTS AND EXHIBITS

1. Business For Which Statements Are Required . . .

2. Statements Required

(a) . . .

(b) Statements of income, statement of changes in capital accounts, and statements of changes in financial position of the bank shall be filed for each of the last 3 full fiscal years and for the period, if any, between the close of the latest of such fiscal years and date of the latest balance sheet filed. These statements of income, changes in capital accounts and changes in financial position shall be verified up to the date of the verified balance sheet.

(c) . . .

(d) . . .

(e) . . .

12. Section 11.44, Form F-4 is amended as follows:

§ 11.41 Form for quarterly report of bank (Form F-4).

COMPTROLLER OF THE CURRENCY—FORM F-4,  
Quarterly Report

.....  
(Name of bank)

.....  
(City and State)

#### PART I, FINANCIAL INFORMATION

Part A— . . .

Part B— . . .

Part C— . . .

Part D— . . .

(a) . . .

(b) . . .

(c) . . .

(d) . . .

(e) *Incorporation by reference to published statements.* If the bank makes available to its stockholders or otherwise publishes, within the period prescribed for filing the report, a financial statement containing the information required by this form, such information may be incorporated by reference to such published statement if copies thereof are filed as an exhibit to Part I of this report. Other information may be incorporated by reference in answer or par-

tial answer to any other item of Part II of this report in accordance with the provisions of 12 CFR 11.4(f).

Instructions (f), (g), (h), (i) and (j) will remain unchanged.

#### PART II, OTHER INFORMATION

**Instruction.** The report shall contain the item numbers and captions of all applicable items of Part II, but the text of such items may be omitted: *Provided*, The responses clearly indicate the coverage of the item. Any item which is inapplicable or to which the answer is negative may be omitted and no reference thereto need be made in the report. If substantially the same information has been previously reported by the bank, an additional report of the information on this form need not be made. The term "previously reported" is defined in 12 CFR 11.2(t).

#### ITEM 1—LEGAL PROCEEDINGS

(a) Briefly describe any material legal proceedings, other than ordinary routine litigation incidental to the business, to which the bank or any of its subsidiaries has become a party or of which any of their property has become the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceedings and the relief sought.

(b) If any such proceeding previously reported has been terminated, identify the proceeding, give the date of termination and describe the disposition thereof with respect to the bank and its subsidiaries.

**Instructions.** 1. If the business ordinarily results in actions for negligence or other claims, no such action or claim need be described unless it departs from the normal kind of such actions.

2. No information need be given with respect to any proceeding which involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the current assets of the bank and its subsidiaries on a consolidated basis. However, if any proceeding presents in large degree the same issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

3. Notwithstanding the foregoing instructions, any bankruptcy, conservatorship, receivership or similar proceeding with respect to the bank or any of its significant subsidiaries shall be described. Any proceeding to which any director, officer or affiliate of the bank, any principal holder of equity securities of the bank or any associate of any such director, officer or security holder, is a party adverse to the bank or any of its subsidiaries shall also be described.

4. Notwithstanding the foregoing, administrative or judicial proceedings arising under any Federal, state or local provisions regulating the discharge of materials into the environment or otherwise relating to the protection of the environment shall not be deemed "ordinary routine litigation incidental to the business" and shall be described if such proceeding is material to the business or financial condition of the bank or if it involves primarily a claim for damages and the amount involved, exclusive of interest and costs, exceeds 10 percent of the current assets of the bank and its subsidiar-

ies on a consolidated basis. Any such proceeding by governmental authorities shall be deemed material and shall be described whether or not the amount of any claim for damages involved exceeds 10 percent of current assets on a consolidated basis and whether or not such proceedings are considered "ordinary routine litigation incidental to the business." *Provided, however*, That such proceedings which are similar in nature may be grouped and described generically stating: the number of such proceedings in each group; a generic description of such proceedings; the issues generally involved; and, if such proceedings in the aggregate are material to the business or financial condition of the bank, the effect of such proceedings on the business or financial condition of the bank.

#### ITEM 2—CHANGES IN SECURITIES

(a) If the constituent instruments defining the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved and state briefly the general effect of such modification upon the rights of holders of such securities.

(b) If the rights evidenced by any class of registered securities have been materially limited or qualified by the issuance or modification of any other class of securities, state briefly the general effect of the issuance or modification of such other class of securities upon the rights of the holders of the registered securities.

**Instruction.** Working capital restrictions and other limitations upon the payment of dividends are to be reported hereunder.

#### ITEM 3—DEFAULTS UPON SENIOR SECURITIES

(a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days, with respect to any indebtedness of the bank or any of its significant subsidiaries exceeding 5 percent of the total assets of the bank and its consolidated subsidiaries, identify the indebtedness and state the nature of the default. In the case of such a default in the payment of principal, interest, or a sinking or purchase fund installment, state the amount of the default and the total arrearage on the date of filing this report.

**Instruction.** This paragraph refers only to events which have become defaults under the governing instruments, i.e., after the expiration of any period of grace and compliance with any notice requirements.

(b) If any material arrearage in the payment of dividends has occurred or if there has been any other material delinquency not cured within 30 days, with respect to any class of preferred stock of the bank which is registered or which ranks prior to any class of registered securities, or with respect to any class of preferred stock of any significant subsidiary of the bank, give the title of the class and state the nature of the arrearage or delinquency. In the case of an arrearage in the payment of dividends, state the amount and the total arrearage on the date of filing this report.

**Instruction.** Item 4 need not be answered as to any default or arrearage with respect to any class of securities all of which is held by, or for the account of, the bank or its totally held subsidiaries.

#### ITEM 4—INCREASE IN AMOUNT OUTSTANDING OF SECURITIES OR INDEBTEDNESS

If the amount outstanding of securities or indebtedness of the bank has been increased through the issuance of any new class of securities or indebtedness or through the issuance or re-issuance of any additional securities or indebtedness of a class outstanding, and the aggregate amount of all such increases not previously reported exceeds 5 percent of the outstanding securities or indebtedness of the class, furnish the following information:

(a) Title of class, the amount outstanding as last previously reported, and the amount presently outstanding (as of a specified date);

(b) A brief description of the transaction(s) resulting in the increase and a statement of the aggregate net cash proceeds or the nature and aggregate amount of any other consideration received or to be received by the bank;

(c) The names of the principal underwriters, if any, indicating any such underwriters which are affiliates of the bank;

(d) A reasonably itemized statement of the purposes, so far as determinable, for which the net proceeds have been or are to be used and the approximate amount used or to be used for each such purpose;

(e) A statement as to whether or not any such securities were registered under the Securities Act of 1933; if not, an indication of the exemption claimed and the facts relied upon to make the exemption available; and

(f) If the securities were capital shares, a statement of the amount of proceeds credited or to be credited to any account other than the appropriate capital share account.

**Instructions.** 1. For the purpose of responding to this item, the bank may treat each of the following as a single class of indebtedness: (i) Convertible long term debt; and (ii) other indebtedness.

2. This item does not apply to notes, drafts, bills of exchange, bankers' acceptances or other obligations which mature not later than 1 year from the date of issuance. No report need be made where the amount not previously reported, although in excess of 5 percent of the amount outstanding, does not exceed \$50,000 face amount of indebtedness or 1,000 shares or other units.

3. This item includes the reissuance of treasury securities and securities held for the account of the issuer thereof. The extension of the maturity date of indebtedness shall be deemed to be the issuance of new indebtedness for the purpose of this item. In the case of such an extension, the percentage shall be computed upon the basis of the principal amount of the indebtedness extended.

#### ITEM 5—DECREASE IN AMOUNT OUTSTANDING OF SECURITIES OR INDEBTEDNESS

If the amount outstanding of any class of securities or indebtedness of the bank has been decreased through one or more transactions and the aggregate amount of all such decreases not previously reported exceeds 5 percent of the amount of securities or indebtedness of the class previously outstanding, furnish the following information: (a) Title of the class, the amount outstanding as last previously reported, and the amount presently outstanding (as of a specified date).

(b) A brief description of the transaction(s) involving the decrease and a statement of the aggregate amount of cash or the nature and aggregate amount of any other consideration paid or to be paid by the registrant in connection with such transaction or transactions.

**Instruction.** Instructions 1 and 2 to Item 4 shall also apply to this Item. This Item need not be answered as to decreases resulting from ordinary sinking fund operations, similar periodic decreases made pursuant to the terms of the constituent instruments, decreases resulting from the conversion of securities or decreases resulting from payment of indebtedness at maturity.

#### ITEM 6—SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

If any matter has been submitted to a vote of security holders, through the solicitation of proxies or otherwise, furnish the following information:

(a) The date of the meeting and whether it was an annual or special meeting.

(b) If the meeting involved the election of directors, state the name of each director elected at the meeting and the name of each other director whose term of office as a director continued after the meeting.

(c) Briefly describe each other matter voted upon at the meeting and state the number of affirmative votes and the number of negative votes cast with respect to each such matter.

**Instructions.** 1. If any matter has been submitted to a vote of security holders otherwise than at a meeting of such security holders, corresponding information with respect to such submission shall be furnished. The solicitation of any authorization or consent (other than a proxy to vote at a stockholders' meeting) with respect to any matter shall be deemed a submission of such matter to a vote of security holders within the meaning of this Item.

2. Paragraph (a) need be answered only if paragraph (b) or (c) is required to be answered.

3. Paragraph (b) need not be answered if (i) proxies for the meeting were solicited pursuant to 12 CFR 11.5, (ii) there was no solicitation in opposition to the management's nominees as listed in the proxy statement, and (iii) all of such nominees were elected. If the bank did not solicit proxies and the board of directors as previously reported to the Comptroller of the Currency was re-elected in its entirety, a statement to that effect in answer to paragraph (b) will suffice as an answer thereto.

4. Paragraph (c) need not be answered as to procedural matters or as to the selection or approval of auditors.

5. If the bank has published a report containing all of the information called for by this Item, the Item may be answered by a reference to the information contained in such report, provided copies of such report are filed as an exhibit to the report on this form.

#### ITEM 7—OTHER MATERIALLY IMPORTANT EVENTS

The bank may, at its option, report under this Item any events, not previously reported in a report on Form F-3, with respect to which information is not otherwise called for by this form but which the bank deems of material importance to security holders.

#### ITEM 8—EXHIBITS AND REPORTS ON FORM F-3

(a) Exhibits. List below the documents, if any, filed as a part of this Report. Subject to the rules as to incorporation by reference, the following documents shall be filed as exhibits:

1. Copies of the amendments to all constituent instruments and other documents described in answer to Item 2.

2. Copies of all constituent instruments defining the rights of the holders of any new class of securities referred to in answer to Item 5.

3. Copies of the text of any proposal described in answer to Item 6.

4. Copies of any published report furnished in response to Item 6. (See Item 6, Instruction 5.)

5. Copies of any material amendment to the bank's charter or by-laws not otherwise required to be filed.

(b) Reports on Form F-3. State whether any reports on Form F-3 have been filed during the quarter for which this report is filed, listing the items reported, any financial statements filed, and the dates of any such reports.

#### § 11.47 [Amended]

13. Section 11.47, Form F-11, is amended to delete present Item 7 entitled "Persons Retained, Employed or to be Compensated" and present Item 8, "Materials to be Filed as Exhibits," is renumbered Item 7.

14. Section 11.51, Form F-5, Item 5(e), Item 14(b)(7)(D)(A), Item 14, Instruction 1 and Item 15(a) are amended to read as follows:

#### § 11.51 Form for proxy statement or statement where management does not solicit proxies (Form F-5)

(e) If the knowledge of the persons on whose behalf the solicitation is made, a change in control of the bank has occurred since the beginning of its last fiscal year, state the name of the person(s) who acquired such control, the amount and the source of the consideration used by such person(s); the basis of the control, the date and a description of the transaction(s) which resulted in the change of control and the percentage of voting securities of the bank now beneficially owned directly or indirectly by the person(s) who acquired control; and the identity of the person(s) from whom control was assumed. If the source of all or any part of the consideration used is a loan made in the ordinary course of business by a bank as defined by section 3(a)(6) of the Act, the identity of such bank shall be omitted provided a request for confidentiality has been made pursuant to Section 13(d)(1)(B) of the Act by the person(s) who acquired control. In lieu thereof, the material shall indicate the identity of the bank so omitted and shall be filed separately with the Comptroller of the Currency. If the source of all or any part of the funds used to acquire control of the bank was a loan made by a bank as defined by section 3(a)(6) of the Act, indicate whether there exists

any agreement, arrangement, or understanding pursuant to which the registrant bank maintains or would maintain a correspondent deposit account at such lending bank.

**Instructions.** 1. State the terms of any loans or pledges obtained by the new control group for the purpose of acquiring control, and the names of the lenders or pledgees.

2. Any arrangements or understandings among members of both the former and new control groups and their associates with respect to election of directors or other matters should be described.

#### ITEM 14—

(b) . . . . .  
(7) A tabular presentation of comparative per share data of the constituent bank or other persons pertaining to:

(i) (A) Income before securities gains (losses), (B) net income, and (C) Dividends declared for each of the last five fiscal years; and

**Instructions.** 1. Historical statements of income in their entirety, as required by Item 15, may be furnished in lieu of the summary of earnings specified in subparagraph (5). If summary of earnings information is presented, show, at a minimum, total operating income; provision for possible loan losses; total other operating expenses (excluding provision for possible loan losses); income before income taxes and securities gains (losses); applicable income taxes; income (loss) before securities gains (losses); securities gains (losses) less related income taxes; net income (loss); earnings per common share before securities gains (losses) and net income. Dividends per share shall be shown. The summary shall indicate retroactive adjustments of any material items affecting the comparability of the results.

#### ITEM 15—

(a) If action is to be taken with respect to any matter specified in Items 12, 13, or 14, above, furnish verified financial statements of the bank and its subsidiaries such as would be required in a registration statement filed pursuant to this Part. In addition, the latest available interim balance sheet and statement of income for the interim period between the end of the last fiscal year and the interim balance sheet date and comparable prior period, shall be furnished. The information similar to that required by Schedules III, VII, and VIII (Loans, Reserve for Possible Loan Losses, and Deposits) shall be furnished in the notes to financial statements for periods as required by Section 11.7(g).

(b) . . . .  
(c) . . . .  
(d) . . . .

15. A new § 11.54 (Form F-13), is added to read as follows:

#### § 11.54 Tender offer statement pursuant to section 14(d)(1) of the Securities Exchange Act of 1934 (Form F-13).

#### COMPTROLLER OF THE CURRENCY

#### FORM F-13

(Name of Subject Bank)

(Bidder)

(Title of Class of Securities)

(Name, address and telephone number of person authorized to receive notices and communications on behalf of bidder)

**Instruction.** 1. Four copies of this statement, including all exhibits should be filed with the Comptroller of the Currency.

#### GENERAL INSTRUCTIONS

A. The item numbers and captions of the item shall be included but the text of the items may be omitted. The answers to the items shall be so prepared as to indicate clearly the coverage of the items without referring to the text of the items. Answer every item. If an item is inapplicable or the answer is in the negative, so state.

B. Information contained in exhibits to the statement may be incorporated by reference in answer or partial answer to any item or sub-item of the statement unless it would render such answer incomplete, unclear or confusing. Matter incorporated by reference shall be clearly identified in the reference by page, paragraph, caption or otherwise. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the statement where the information is required.

C. If the statement is filed by a partnership, limited partnership, syndicate or other group, the information called for by Items 2-7, inclusive, shall be given with respect to: (i) Each partner of such partnership; (ii) each partner who is designated as a general partner or who functions as a general partner of such limited partnership; (iii) each member of such syndicate or group; and (iv) each person controlling such partner or member. If the statement is filed by a corporation, or if a person referred to in (i), (ii), (iii), or (iv) of this Instruction is a corporation, the information called for by the above mentioned items shall be given with respect to: (a) Each executive officer and director of such corporation; (b) each person controlling such corporation; and (c) each executive officer and director of any corporation ultimately in control of such corporation. Executive officer shall mean the president, secretary, treasurer, and any vice president in charge of a principal business function (such as sales, administration or finance) and any other person who performs similar policy making functions for the corporation. A response to an item in the statement is required with respect to the bidder and to all other persons referred to in this instruction unless such item specifies to the contrary.

D. Upon termination of the tender offer, the bidder shall promptly file a final amendment to Form F-13 disclosing all material changes in the items of that Schedule and stating that the tender offer has terminated, the date of such termination and the results of such tender offer.

E. If the bidder, before filing this statement, has filed a Form F-11 with respect to the acquisition of securities of the same class referred to in Item 1(a) of this statement, the bidder shall amend such Form F-11 and may do so by means of this statement and amendments thereto, including the final amendment required to be filed by Instruction D: *Provided*, That the bidder indicates on the cover sheet of this statement that it is amending its Form F-11 by means of this statement.

F. The final amendment required to be filed by Instruction D shall be deemed to satisfy the reporting requirements of section 13(d) of the Act with respect to all securities acquired by the bidder pursuant to the tender offer as reported in such final amendment.

G. For purposes of this statement, the following definitions shall apply:

(i) The term "bidder" means any person on whose behalf a tender offer is made; and

(ii) The term "subject bank" means any bank whose securities are registered pursuant to Section 12(b) or Section 12(g) of the Securities Exchange Act of 1934 and whose securities are sought by a bidder pursuant to a tender offer.

#### ITEM 1—SECURITY AND SUBJECT BANK

(a) State the name of the subject bank and the address of its principal office;

(b) State the exact title and the number of shares outstanding of the class of equity securities being sought (which may be based upon information contained in the most recently available filing with the Comptroller of the Currency by the subject bank unless the bidder has reason to believe such information is not current), the exact amount of such securities being sought and the consideration being offered therefor; and

(c) Identify the principal market in which such securities are traded and state the high and low sales prices for such securities in such principal market (or, in the absence thereof, the range of high and low bid quotations) for each quarterly period during the past two years.

#### ITEM 2—IDENTITY AND BACKGROUND

If the person filing this statement or any person enumerated in Instruction C of this statement is a corporation, partnership, limited partnership, syndicate or other group of persons, state its name, the state or other place of its organizations, its principal business, the address of its principal office and the information required by (e) and (f) of this Item. If such person filing this statement or any person enumerated in Instruction C is a natural person, provide the information specified in (a) through (g) of this Item with respect to such person(s).

(a) Name;

(b) Residence or business address;

(c) Present principal occupation or employment and the name, principal business and address of any corporation or other organization in which such employment or occupation is conducted;

(d) Material occupations, positions, offices or employments during the last 5 years, giving the starting and ending dates of each and the name, principal business and address of any business corporation or other organization in which such occupation, position, office or employment was carried on;

**Instruction.** 1. If a person has held various positions with the same organization, or if a person holds comparable positions with multiple related organizations, each and every position need not be specifically disclosed.

(e) Whether or not, during the last 5 years, such person has been convicted in a criminal proceeding (excluding traffic violations or similar misdemeanors) and, if so, give the dates, nature of conviction, name and location of court, and penalty imposed or other disposition of the case;

**Instruction.** 1. While a negative answer to this sub-item is required in this schedule, it need not be furnished to security holders.

(f) Whether or not, during the last 5 years, such person was a party to a civil proceeding of a judicial or administrative body of competent jurisdiction and a result of such proceeding, was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting activities subject to, Federal or state securities laws or finding any violation of such laws, and, if so, identify and describe such proceeding and summarize the terms of such judgment, decree or final order; and

**Instruction.** 1. While a negative answer to this subitem is required in this schedule, it need not be furnished to security holders.

(g) Citizenship(s).

#### ITEM 3—PAST CONTACTS, TRANSACTIONS OR NEGOTIATIONS WITH THE SUBJECT BANK

(a) Briefly state the nature and approximate amount (in dollars) of any transaction, other than those described in Item 3(b) of this schedule, which has occurred since the commencement of the subject bank's third full fiscal year preceding the date of this schedule, between the person filing this schedule (including those persons enumerated in Instruction C of this schedule) and:

(1) The subject bank or any of its affiliates which are corporations: *Provided, however*, That no disclosure need be made with respect to any transaction if the aggregate amount involved in such transaction was less than one percent of the subject bank's consolidated revenues (which may be based upon information contained in the most recently available filing with the Comptroller of the Currency by the subject bank, unless the bidder has reason to believe otherwise) (i) for the fiscal year in which such transaction occurred, or (ii) for the portion of the current fiscal year which has occurred, if the transaction occurred in such year; and

(2) The executive officers, directors or affiliates of the subject bank which are not corporations if the aggregate amount involved in such transaction or in a series of similar transactions, including all periodic installments in the case of any lease or other agreement providing for periodic payments or installments, exceeds \$40,000.

(b) Describe any contacts, negotiations or transactions which have occurred since the commencement of the subject bank's third full fiscal year preceding the date of this schedule between the bidder or its subsidiaries (including those persons enumerated in Instruction C of this schedule) and the subject bank or its affiliates concerning, a merger, consolidation or acquisition, a tender offer or other acquisition of securities, an election of directors, or a sale or other transfer of a material amount of assets.

#### ITEM 4—SOURCE AND AMOUNT OF FUNDS OR OTHER CONSIDERATION

(a) State the source and the total amount of funds or other consideration for the purchase of the maximum number of securities for which the tender offer is being made.

(b) If all or any part of such funds or other consideration are or are expected to be, directly or indirectly, borrowed for the purpose of the tender offer:

(1) Provide a summary of each loan agreement or arrangement containing the identity of the parties, the term, the collateral, the stated and effective interest rates, and other material terms or conditions relative to such loan agreements; and

(2) Briefly describe any plans or arrangements to finance or repay such borrowings, or if no such plans or arrangements have been made, make a statement to that effect.

(c) If the source of all or any part of the funds to be used in the tender offer is a loan made in the ordinary course of business by a bank as defined in Section 3(a)(6) of the Act, the name of such bank shall not be available to the public if the person filing the statement so requests in writing and files such request, naming such bank, with the Comptroller of the Currency.

(d) If the source of all or any part of the funds to be used in the tender offer is a loan made by a bank as defined in section 3(a)(6) of the Act, indicate whether there exists any agreement, arrangement, or understanding pursuant to which the subject bank maintains or would maintain a correspondent deposit account at such lending bank.

#### ITEM 5—PURPOSE OF THE TENDER OFFER AND PLANS OR PROPOSALS OF THE BIDDER

State the purpose or purposes of the tender offer for the subject bank's securities. Describe any plans or proposals which relate to or would result in:

(a) An extraordinary corporate transaction, such as a merger, reorganization or liquidation, involving the subject bank or any of its subsidiaries;

(b) A sale or transfer of a material amount of assets of the subject bank or any of its subsidiaries;

(c) Any change in the present board of directors or management of the subject bank including, but not limited to, any plans or proposals to change the number or the term of directors or to fill any existing vacancies on the board;

(d) Any material change in the present capitalization or dividend policy of the subject bank;

(e) Any other material change in the subject bank's corporate structure or business;

(f) Causing a class of securities of the subject bank to be delisted from a national securities exchange or to cease to be authorized to be quoted in an inter-dealer quotation system of a registered national securities association; or

(g) A class of equity securities of the subject company becoming eligible for termination of registration pursuant to Section 12(g)(4) of the Act.

#### ITEM 6—INTEREST IN SECURITIES OF THE SUBJECT BANK

(a) State the aggregate number and percentage of the class represented by such shares (which may be based on the number of shares outstanding as contained in the most recently available filing with the Comptroller of the Currency by the subject

bank unless the bidder has reason to believe such information is not current), beneficially owned (identifying those shares for which there is a right to acquire) by each person named in Item 2 of this schedule and by each associate and majority-owned subsidiary of such person giving the name and address of any such associate or subsidiary.

(b) Describe any transaction in the class of securities reported on that was effected during the past 60 days by the persons named in response to paragraph (a) of this Item or by an executive officer, director or subsidiary of such person.

**Instructions.** 1. The description of a transaction required by Item 6(b) shall include, but not necessarily be limited to: (1) the identity of the person covered by Item 6(b) who effected the transaction; (2) the date of the transaction; (3) the amount of securities involved; (4) the price per share; and (5) where and how the transaction was effected. 2. If the information required by Item 6(b) of this schedule is available to the bidder at the time this statement is initially filed with the Comptroller of the Currency pursuant to 12 CFR 11.5(d)(6), such information should be included in such initial filing. However, if such information is not available to the bidder at the time of such initial filing, it should be filed with the Comptroller of the Currency promptly but in no event later than two business days after the date of such filing, and if material should be disclosed to security holders of the subject bank in a manner similar to that in which the tender offer was first published, sent or given to such security holders. The procedure specified in this instruction is provided for the purpose of maintaining the confidentiality of the tender offer in order to avoid possible misuse of inside information.

#### ITEM 7—CONTRACTS, ARRANGEMENTS, UNDERSTANDINGS OR RELATIONSHIPS WITH RESPECT TO THE SUBJECT BANK'S SECURITIES

Describe any contract, arrangement, understanding or relationship (whether or not legally enforceable) between the bidder (including those persons enumerated in Instruction C of this Schedule) and any person with respect to any securities of the subject bank, (including, but not limited to, any contract, arrangement, understanding or relationship concerning the transfer or the voting of any such securities, joint ventures loan or option arrangements, puts or calls, guaranty of loans, guaranty against loss, or the giving or withholding of proxies) naming the persons with whom such contracts, arrangements, understandings and relationships have been entered into and giving the material provisions thereof. Include such information for any of such securities that are pledged or otherwise subject to a contingency, the occurrence of which would give another person the power to direct the voting or disposition of such securities, except that, disclosure of standard default and similar provisions contained in loan agreements need not be included.

#### ITEM 8—PERSONS RETAINED, EMPLOYED OR TO BE COMPENSATED

Identify all persons and classes of persons employed, retained or to be compensated by the bidder, or by any person on the bidder's behalf, to make solicitation or recommendation in connection with the tender offer and describe briefly the terms of such employment, retainer or arrangement for compensation.

#### ITEM 9—FINANCIAL STATEMENTS OF CERTAIN BIDDERS

Where the bidder is other than a natural person and the bidder's financial condition is material to a decision by a security holder of the subject bank whether to sell, tender or hold securities being sought in the tender offer, furnish current, adequate financial information concerning the bidder: *Provided*, That if the bidder is controlled by another entity which is not a natural person and has been formed for the purpose of making the tender offer, furnish current, adequate financial information concerning such parent.

**Instructions.** 1. The facts and circumstances concerning the tender offer, particularly the terms of the tender offer, may influence a determination as to whether disclosure of financial information is material. However, once the materiality requirement is applicable, the adequacy of the financial information will depend primarily on the nature of the bidder.

In order to provide guidance in making this determination, the following types of financial information will be deemed adequate for purposes of this Item for the type of bidder specified: (a) Financial statements prepared in compliance with SEC Form 10 as amended (17 CFR 349.210) for a domestic bidder which is otherwise eligible to use such form; and (b) financial statements prepared in compliance with SEC Form F-20 (17 CFR 249.200) for a foreign bidder which is eligible to use such forms.

2. If the bidder is subject to the periodic reporting requirements of Section 13(a) or 15(d) of the Act, financial statements contained in any document filed with the Comptroller of the Currency may be incorporated by reference in this schedule solely for the purpose of this schedule: *Provided*, That such financial statements substantially meet the requirements of this Item; an express statement is made that such financial statements are incorporated by reference; the matter incorporated by reference is clearly identified by page, paragraph, caption or otherwise, and an indication is made where such information may be inspected and copies obtained. Financial statements which are required to be presented in comparative form for two or more fiscal years or periods shall not be incorporated by reference unless the material incorporated by reference includes the entire period for which the comparative data is required to be given.

3. If the bidder is not subject to the periodic reporting requirements of the Act, the financial statements are not available or obtainable without unreasonable cost or expense and a statement is made to that effect disclosing the reasons therefor.

#### ITEM 10—ADDITIONAL INFORMATION

If material to a decision by a security holder whether to sell, tender or hold securities being sought in the tender offer, furnish information as to the following:

(a) Any present or proposed material contracts, arrangements, understandings or relationship between the bidder or any of its executive officers, directors, controlling persons or subsidiaries and the subject bank or any of its executive officers, directors, controlling persons or subsidiaries (other than any contract, arrangements or understanding required to be disclosed pursuant to Item 3 or 7 of this schedule);

(b) To the extent known by the bidder after reasonable investigation, the applica-

ble regulatory requirements which must be complied with or approvals which must be obtained in connection with the tender offer;

(c) The applicability of anti-trust laws;

(d) The applicability of the margin requirements of section 7 of the Act and the regulations promulgated thereunder;

(e) Any material pending legal proceedings relating to the tender offer including the name and location of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto and a brief summary of the proceedings; and

**Instruction.** In connection with this sub-item, a copy of any document relating to a major development (such as pleadings, an answer, complaint, temporary restraining order, injunction, opinion, judgment or order) in a material pending legal proceedings should be promptly furnished to the Comptroller of the Currency on a supplemental basis.

(f) Such additional material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not materially misleading.

#### ITEM 11—MATERIAL TO BE FILED AS EXHIBITS

Furnish a copy of:

(a) Tender offer material which is published, sent or given to security holders by or on behalf of the bidder in connection with the tender offer;

(b) Any loan agreement referred to in Item 4 of this schedule;

**Instruction.** The identity of any bank which is a party to a loan agreement need not be disclosed if the person filing the statement has requested that the identity of such bank not be made available to the public pursuant to Item 4 of this schedule.

(c) Any document setting forth the terms of any contracts, arrangements, understandings or relationships referred to in Item 7 or 10(a) of this schedule;

(d) Any written opinion prepared by legal counsel at the bidder's request and communicated to the bidder pertaining to the tax consequences of the tender offer;

(e) An offering circular when in an exchange offer, the securities are offered utilizing an offering circular prepared pursuant to 12 CFR Part 16.

(f) If any oral solicitation of security holders is to be made by or on behalf of the bidder, any written instructions, form or other material which is furnished to the persons making the actual oral solicitation for their use, directly or indirectly, in connection with the tender offer.

**Signature.** After due inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct.

Signature \_\_\_\_\_  
Name and Title \_\_\_\_\_  
Date \_\_\_\_\_

The original statement shall be signed by each person on whose behalf the statement is filed or his authorized representative. If the statement is signed on behalf of a person by his authorized representative (other than an executive officer or general partner of the bidder), evidence of the representative's authority to sign on behalf of such person shall be filed with the statement. The name and any title of each

person who signs the statement shall be typed or printed beneath his signature.

16. Section 11.71, Forms for Financial Statements, Form F-9(A), Item 3(a)(3), and Item 6(b), Note 1, are amended to read as follows:

#### § 11.71 Forms for Financial Statements (Forms F-9 A, B, C, D, and E)

• • • • •

A. • • •

• • • • •

(3) • • •

(a) • • •

(3) Obligations of States and political subdivision.

Include all obligations, including warrants and tax anticipation notes, issued by municipalities, by school, irrigation, drainage, and reclamation districts, and by local housing authorities, including those backed by a U.S. Government Agency. Also include Farmers Home Administration guaranteed loans made for rural community water supply, waste disposal systems, and outdoor recreation centers. Obligations issued by other instrumentalities of one or more states or Puerto Rico, and by dependencies or insular possessions the United States, should be included. Exclude loans to but not investment securities issued by regional or local industrial development authorities whose function is the extension of credit to business firms to assist in relocation or expansion.

Such loans are to be reported in Item 6—Loans.

• • • • •

(6) • • •

(b) *Less: Reserve for Possible Loan Losses.* State the balance of the reserve for possible loan losses at the end of the fiscal year. Include in this reserve only the valuation portion that has been established through charges against income.

**NOTES.**—1. The reserve for possible loan losses allowable under IRS regulations is made up of three parts: (a) Valuation portion; (b) Contingency portion; and (c) Deferred tax portion.

• • • • •

17. Section 11.71, Form F-9(B) is amended to delete Item 2(j)(4).

(Sec. 12(l), Securities Exchange Act of 1934 (15 U.S.C. 78l(i)))

Dated: October 3, 1978.

JOHN G. HEIMANN,  
Comptroller of the Currency.

#### Title 12—Banks and Banking

#### CHAPTER II—FEDERAL RESERVE SYSTEM

#### SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

(Reg. F; Docket No. R-0146)

#### PART 206—SECURITIES OF STATE MEMBER BANKS

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final Rule.

**SUMMARY:** The Board hereby adopts amendments to its Regulation F (12 CFR § 206), consistent with recent amendments to comparable regulations of the Securities and Exchange Commission, concerning (a) confidential treatment for preliminary proxy and information statements, (b) proposals by security holders, (c) dissemination of proxy material to beneficial owners of registered securities, (d) tender offer statements, (e) consolidation and technical revisions of several items included in current, quarterly, and annual reports, and (f) stock appreciation rights. Under section 12(i) of the Securities Exchange Act of 1934, as amended (15 U.S.C. § 78(i)), any changes made by the Commission in its relevant rules and regulations must also be made by the Board in its Regulation F or the Board must publish reasons why it has determined that such changes are not necessary or appropriate.

DATE: Effective date: January 29, 1979.

#### FOR FURTHER INFORMATION CONTACT:

Richard M. Whiting, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3786).

**SUPPLEMENTARY INFORMATION:** On March 13, 1978, there was published in the FEDERAL REGISTER (43 FR 10387) a notice of proposed rulemaking to amend the Board's securities disclosure regulations in order to make them more similar to SEC regulations. Interested persons were given the opportunity to submit, not later than May 1, 1978, data, views or arguments regarding the proposed amendments. All comments have been given due consideration. The only revisions suggested by the comments concerned the proposed disclosure of preliminary proxy statements (12 CFR 206.5(f)(5)) and the shareholder proposal rule (12 CFR 206.5(k)).

A commentator suggested that preliminary proxy material might contain inaccurate information that would

mislead investors. However, under the proposed amendment, the public could only obtain preliminary proxy statement materials after definitive material had been filed with the Board, in which case the Board believes that the public is unlikely to be misled. Thus, the Board has adopted the proposal as published for comment. A commentator also suggested that the shareholder proposal rule should be revised to provide that where beneficial and record holders of the same securities submit conflicting proposals, only the proposal of the beneficial holder need be included in proxy materials. The likelihood of such an occurrence appears remote and, therefore appears to be better resolved by administrative interpretation. Therefore, the Board is adopting the shareholder proposal rule, as proposed. Accordingly, 12 CFR Part 206 is amended as set forth below.

By order of the Board of Governors,  
October 17, 1978.

THEODORE E. ALLISON,  
Secretary of the Board.

§ 206.4(h)(1) of Regulation F is amended to read as follows:

§ 206.4 Registration statements and reports.

(h) \* \* \*

(1) Every registrant bank shall file a current report in conformity with the requirements of Form F-3 within the period specified in that form unless substantially the same information as that required by Form F-3 has been previously reported by the bank.

Section 206.5(c)(5), (c)(4), (f)(5), (k), (1)(i), (1)(3)(iv), (1)(4), and (1)(7) are amended to read as follows:

§ 206.5 Proxy statements and other solicitations under section 14 of the Act.

(c) \* \* \*

(3) If the bank knows that securities of any class entitled to vote at a meeting with respect to which the bank intends to solicit proxies, consents or authorizations are held of record by a broker, dealer, bank, or voting trustee, or their nominees, the bank shall inquire of such record holder at least 10 days prior to the record date for the meeting of security holders (or at such later time as the rules of a national securities exchange on which the class of securities in question is listed may permit for good cause shown), whether other persons are the beneficial owners of such securities and, if so, the number of copies of the proxy and other soliciting material and, in the case of an annual meeting at which directors are to be elected, the number

of copies of the annual report to security holders, necessary to supply such material to beneficial owners. The bank shall supply such record holder in a timely manner with additional copies in such quantities, assembled in such form and at such a place, as the record holder may reasonably request in order to address and send one copy of each to each beneficial owner of securities so held and shall, upon the request of such record holder, pay its reasonable expenses for completing the mailing of such material to security holders to whom the material is sent.

(4) If the bank's list of security holders indicates that some of its securities are registered in the name of a clearing agency registered pursuant to section 17A of the Act, a bank shall make appropriate inquiry of the agency and thereafter of the participants in such agency who may hold on behalf of a beneficial owner, and shall comply with § 206.5(c)(3) with respect to any such participant.

(f) \* \* \*

(5) All copies of material filed pursuant to paragraphs (1) or (2) of this section shall be clearly marked "Preliminary Copies" and shall be for the information of the Board only and shall not be deemed available for public inspection before definitive material has been filed with the Board, except that such material may be disclosed to any department or agency of the United States Government and to the Congress and the Board may make such inquiries or investigation in regard to the material as may be necessary for an adequate review thereof by the Board. All material filed pursuant to paragraphs (f) (1), (2), or (3) of this section shall be accompanied by a statement of the date upon which definitive material filed pursuant to paragraph (f)(3) of this section is intended to be, or has been, released to security holders. All material filed pursuant to paragraph (f)(4) of this section shall be accompanied by a statement of the date on which copies thereof are intended to be released to the individuals who will make the actual solicitation.

(k) *Proposals of security holders.* (1) If any security holder of an issuer notifies the management of the issuer of his intention to present a proposal for action at a forthcoming meeting of the issuer's security holders, the management shall set forth the proposal in its proxy statement and identify it in its form of proxy and provide means by which security holders can make the specification required by § 206.5(d)(2).

If management issues an information statement pursuant to paragraph (a) of this section, it shall identify the proposal and indicate the disposition proposed to be made of the proposal by the management at the meeting. Management, however, need not include a proposal in its information statement if such proposal is submitted less than 60 days in advance of a day corresponding to the date of mailing a proxy statement or information statement in connection with the last annual meeting of security holders. Notwithstanding the foregoing, the management shall not be required to include the proposal in its proxy statement or form or proxy unless the security holder (hereinafter, the "proponent") has complied with the requirements of this paragraph and paragraphs (k) (2) and (3) of this section:

(i) *Eligibility.* At the time he submits the proposal, the proponent shall be a record or beneficial owner of a security entitled to be voted at the meeting on his proposal, and he shall continue to own such security through the date on which the meeting is held. If the management requests documentary support for a proponent's claim that he is a beneficial owner of a voting security of the issuer, the proponent shall furnish appropriate documentation within 10 business days after receiving the request. In the event the management includes the proponent's proposal in its proxy soliciting materials for the meeting and the proponent fails to comply with the requirement that he continuously be a voting security holder through the meeting date, the management shall not be required to include any proposals submitted by the proponent in its proxy soliciting materials for any meeting held in the following two calendar years.

(ii) *Notice.* The proponent shall notify the management in writing of his intention to appear personally at the meeting to present his proposal for action. The proponent shall furnish the requisite notice at the time he submits the proposal, except that if he was unaware of the notice requirement at that time he shall comply with it within 10 business days after being informed of it by the management. If the proponent, after furnishing in good faith the notice required by this provision, subsequently determines that he will be unable to appear personally at the meeting, he shall arrange to have another security holder of the issuer present his proposal on his behalf at the meeting. In the event the proponent or his proxy fails, without good cause, to present the proposal for action at the meeting, the management shall not be required to include any proposals submitted by the proponent in its proxy soliciting mate-

rials for any meeting, held in the following two calendar years.

(iii) *Timeliness.* The proponent shall submit his proposal sufficiently far in advance of the meeting so that it is received by the management within the following time periods:

(A) *Annual meetings.* A proposal to be presented at an annual meeting shall be received by the management at the issuer's principal executive offices not less than 90 days in advance of a date corresponding to the date set forth on the management's proxy statement released to security holders in connection with the previous year's annual meeting of security holders, except that if no annual meeting was held in the previous year or the date of the annual meeting has been changed by more than 30 calendar days from the date of the previous year's annual meeting a proposal shall be received by the management a reasonable time before the solicitation is made.

(B) *Other meetings.* A proposal to be presented at any meeting other than an annual meeting shall be received a reasonable time before the solicitation is made.

NOTE.—In order to curtail controversy as to the date on which a proposal was received by the management, it is suggested that proponents submit their proposals by Certified Mail-Return Receipt Requested.

(iv) *Number and length of proposals.* The proponent may submit a maximum of two proposals of not more than 300 words each for inclusion in the management's proxy materials for a meeting of security holders. If the proponent fails to comply with either of these requirements, or if he fails to comply with the 200-word limit on supporting statements mentioned in paragraph (k)(2) of this section, he shall be provided the opportunity by the management to reduce, within 10 business days, the items submitted by him to the limits required by this rule.

(2) If the management opposes any proposal received from a proponent, it shall also, at the request of the proponent, include in its proxy statement a statement of the proponent of not more than 200 words in support of the proposal, which statement shall not include the name and address of the proponent. The statement and request of the proponent shall be furnished to the management at the time that the proposal is furnished, and neither the management nor the issuer shall be responsible for such statement. The proxy statement shall also include either the name and address of the proponent or a statement that such information will be furnished by the issuer or by the Board to any person, orally or in writing as requested, promptly upon the receipt of any oral or written request therefor. If the

name and address of the proponent are omitted from the proxy statement, they shall be furnished to the Board at the time of filing the management's preliminary proxy material pursuant to § 206.5(f)(1).

(3) The management may omit a proposal and any statement in support thereof from its proxy statement and form of proxy under any of the following circumstances:

(i) If the proposal is, under the laws of the issuer's domicile, not a proper subject for action by security holders;

NOTE.—A proposal that may be improper under the applicable State law when framed as a mandate or directive may be proper when framed as a recommendation or request.

(ii) If the proposal would, if implemented, require the issuer to violate any State law or Federal law of the United States, or any law of any foreign jurisdiction, to which the issuer is subject, except that this provision shall not apply with respect to any foreign law compliance with which would be violative of any State law or Federal law of the United States;

(iii) If the proposal or the supporting statement is contrary to any of the Board's proxy rules and regulations, including § 206.5(h) which prohibits false or misleading statements in proxy soliciting materials;

(iv) If the proposal relates to the enforcement of a personal claim or the redress of a personal grievance against the issuer, its management, or any other person;

(v) If the proposal deals with a matter that is not significantly related to the issuer's business;

(vi) If the proposal deals with a matter that is beyond the issuer's power to effectuate;

(vii) If the proposal deals with a matter relating to the conduct of the ordinary business operations of the issuer;

(viii) If the proposal relates to an election to office;

(ix) If the proposal is counter to a proposal to be submitted by the management at the meeting;

(x) If the proposal has been rendered moot;

(xi) If the proposal is substantially duplicative of a proposal previously submitted to the management by another proponent, which proposal will be included in the management's proxy materials for the meeting;

(xii) If substantially the same proposal has previously been submitted to security holders in the management's proxy statement and form of proxy relating to any annual or special meeting of security holders held within the preceding 5 calendar years, it may be omitted from the management's proxy materials relating to any meeting of security holders held within 3 calen-

dar years after the latest such previous submission: *Provided, That—*(A) If the proposal was submitted at only one meeting during such preceding period, it received less than 3 percent of the total number of votes cast in regard thereto; or

(B) If the proposal was submitted at only two meetings during such preceding period, it received at the time of its second submission less than 6 percent of the total number of votes cast in regard thereto; or

(C) If the proposal was submitted at three or more meetings during such preceding period, it received at the time of its latest submission less than 10 percent of the total number of votes cast in regard thereto; and

(xiii) If the proposal relates to specific amounts of cash or stock dividends.

(4) Whenever the management asserts, for any reason, that a proposal and any statement in support thereof received from a proponent may properly be omitted from its proxy statement and form of proxy, it shall file with the Board not later than 50 days prior to the date the preliminary copies of the proxy statement and form of proxy are filed pursuant to § 206.5(f)(1), or such shorter period prior to such date as the Board or its staff may permit, five copies of the following items: (i) The proposal; (ii) any statement in support thereof as received from the proponent; (iii) a statement of the reasons why the management deems such omission to be proper in the particular case; and (iv) where such reasons are based on matters of law, a supporting opinion of counsel. The management shall at the same time, if it has not already done so, notify the proponent of its intention to omit the proposal from its proxy statement and form of proxy and shall forward to him a copy of the statement of reasons why the management deems the omission of the proposal to be proper and a copy of such supporting opinion of counsel.

(i) *Invitations for tenders.* (1) No person, directly or indirectly, by use of the mails or any means or instrumentality of interstate commerce or of any facility of a national securities exchange or otherwise, shall make a tender offer for, or a request or invitation for tenders of, any class of any equity security which is registered pursuant to section 12 of the Act of any member State bank, if, after consummation thereof, such person would, directly or indirectly, be the beneficial owner of more than 5 percent of such class, unless, at the time copies of the offer or request or invitation are first published or sent or given to security holders, such person has filed with the Board a statement

containing the information and exhibits required by the Form F-13.

(3) . . .

(iv) The information required by items 1(c); 2(b), 2(e), 2(f), and 2(g), 3, 4, 5, 6, 7, 8, 9, and 10 of Form F-13, or a fair and adequate summary thereof;

*Instructions.* 1. Negative responses to any such item or subitem of Form F-13 need not be included in the information published or sent or given to security holders.

2. If the information required by Item 9 is summarized, appropriate instructions should be included stating how more complete financial information can be obtained.

(4) Any additional material soliciting or requesting such tender offer subsequent to the initial solicitation or request shall contain the names of the persons making such solicitation or request and the information required by Items 1(c), 2(b), 2(e), 2(f), and 2(g), 3, 4, 5, 6, 7, 8, 9, and 10 of Form F-13, or a fair and adequate summary thereof. *Provided, however,* That such material may omit any of such information previously furnished to the persons solicited or requested for tender offers. Copies of such additional material soliciting or requesting such tender offers shall be filed with the Board not later than the time copies of such material are first published or sent or given to security holders.

(7) Ten copies of the statement required by paragraph (1), every amendment to such statement and all other material required by this rule and such statement shall be filed with the Board.

§ 206.6(e)(3) and (1) are amended to read as follows:

§ 206.6 "Insiders" securities transactions and reports under section 16 of the Act.

(e) . . .

(3) Notwithstanding the foregoing, a statement need not be filed pursuant to section 16(a) of the Act:

(i) By any person with respect to the acquisition, expiration, surrender to the bank, or cancellation of any non-transferable stock option or stock appreciation right granted by the bank of the securities to which the option or right relates pursuant to a plan which meets the conditions specified in § 206.6(1) (1), (2), (3), (4) and (5) (a), (b), (c), (d) and (e) of this chapter, or;

(Sec. 12(i), Securities Exchange Act of 1934, 15 U.S.C. 78l(i))

(ii) By any bank with respect to any put, call, option or other right or obligation to buy or sell securities of which it is the issuer. As used in this subparagraph (3), the term "plan" shall have the meaning assigned to it in subparagraph (4) of § 206.6(1).

(1) *Exemption from section 16(b) of acquisitions of shares of stock and stock options and stock appreciation rights under certain stock incentive, stock option or similar plans.* Any acquisition of shares of stock (other than stock acquired upon the exercise of an option, warrant or right) pursuant to a plan as defined in subparagraph (4)(i) of this paragraph, or any acquisition, expiration, cancellation or surrender to the bank of a stock option or stock appreciation right pursuant to such a plan by a director or officer of the bank shall be exempt from the operation of section 16(b) of the Act if the plan meets the following conditions:

(1) Approval by security holders. The plan has been approved, directly or indirectly, (i) by the affirmative votes of the holders of a majority of the securities of the bank present, or represented, and entitled to vote at a meeting duly held in accordance with the applicable laws of the state or other jurisdiction in which the bank was chartered, or (ii) by the written consent of the holders of a majority of the securities of the bank entitled to vote: *Provided, however,* That if such a vote or written consent was not solicited substantially in accordance with the rules and regulations, if any, in effect under section 14(a) of the Act at the time of such vote or written consent, the bank shall furnish in writing to the holders of record of the securities entitled to vote for the plan substantially the same information concerning the plan that would be required by the rules and regulations in effect under section 14(a) of the Act at the time such information is furnished, if proxies to be voted with respect to the approval or disapproval of the plan were then being solicited, on or prior to the date of the first annual meeting of security holders held subsequent to the later of (a) the first registration of an equity security under section 12 of the Act or (b) the acquisition of an equity security for which exemption is claimed. Such written information may be furnished by mail to the last known address of the security holders of record within 30 days prior to the date of mailing. Four copies of such written information shall be filed with, or mailed for filing to, the Board not later than the

date on which it is first sent or given to security holders of the bank. For the purposes of this paragraph, the term "bank" includes a predecessor bank if the plan or obligations to participate thereunder were assumed by the bank in connection with the succession. In addition, any amendment to the plan shall be similarly approved if the amendment would:

(1) Materially increase the benefits accruing to participants under the plan;

(2) Materially increase the number of securities which may be issued under the plan; or

(3) Materially modify the requirements as to eligibility for participation in the plan.

(2) Disinterested administrators. If the selection of any director or officer of the bank to whom stock may be allocated or to whom stock options or stock appreciation rights may be granted pursuant to the plan, or the determination of the number or maximum number or shares of stock which may be allocated to any such director or officer or which may be covered by stock options or stock appreciation rights granted to any such director or officer pursuant to the plan is subject to the discretion of any person, then such discretion shall be exercised only as follows:

(i) With respect to the participation of directors:

(a) By the board of directors of the bank, a majority of which board and a majority of the directors acting in the matter are disinterested persons;

(b) By, or only in accordance with the recommendation of, a committee of three or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons; or

(c) Otherwise in accordance with the plan, if the plan: (1) Specifies the number or maximum number of shares of stock which directors may acquire or which may be subject to stock options or stock appreciation rights granted to directors pursuant to the plan and the terms upon which, and the times at which, or the periods within which, such stock may be acquired or such options or rights may be acquired and exercised; or (2) sets forth, by formula or otherwise, effective and determinable limitations with respect to the foregoing based upon earnings of the bank, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time-to-time or similar factors.

(ii) With respect to the participation of officers who are not directors:

(a) By the Board of directors of the bank or a committee of three or more directors;

(b) By, or only in accordance with the recommendations of, a committee of three or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons; or

(c) Otherwise in accordance with the plan, if the plan: (1) Specifies the number of maximum number of shares of stock which officers may acquire or which may be subject to stock options or stock appreciation rights granted to officers pursuant to the plan and the terms upon which, and the times at which, or the period within which, such stock may be acquired or such options or rights may be acquired and exercised; or (2) Sets forth, by formula or otherwise, effective and determinable limitations with respect to the foregoing based upon earnings of the bank, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time-to-time or similar factors.

(iii) The provisions of this paragraph shall not apply with respect to any option or right granted or other equity security acquired, prior to the date of the first registration of an equity security under section 12 of the Act.

(3) Plan limitations. As to each participant or as to all participants the plan effectively limits the aggregate dollar amount of stock or the aggregate number of shares of stock which may be allocated, or which may be subject to stock options or stock appreciation rights issued pursuant to the plan. The limitations may be established on an annual basis, or for the duration of the plan, whether or not the plan has a fixed termination date, and may be determined either by fixed or maximum dollar amounts or fixed or maximum numbers of shares or by formulas based upon earnings of the bank, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time-to-time, or similar factors that will result in an effective and determinable limitation. Such limitations may be subject to any provision for adjustment of the plan or of stock allocable or options outstanding thereunder to prevent dilution or enlargement of rights.

(4) Definitions. Unless the context otherwise requires, all terms used in this rule shall have the same meaning as in the Act or elsewhere in Part 206. In addition, the following definitions apply:

(i) The term "plan" shall mean an option, bonus, appreciation, profit sharing, retirement, incentive, thrift, savings or similar plan that meets the following conditions:

(a) The plan must be set forth in a written document describing the means or basis for determining the eligibility of individuals to participate and either the price at which the securities may be offered or the method by which the price or the amount of the award is to be determined; and

(b) The plan must provide with respect to any option or similar right (including a stock appreciation right) offered pursuant to the plan that such option or right is not transferable other than by will or the laws of descent and distribution and that it is exercisable during the employee's lifetime only by him or his guardian or legal representative.

(ii) The term "exercise of an option, warrant or right" contained in the parenthetical clause of the first paragraph of § 206.6(1) shall not include:

(a) The making of an election to receive under any plan compensation in the form of stock or credits therefor, provided that such election is made either prior to the making of the award or prior to the fulfillment of all conditions to the receipt of the compensation and, provided, further, that such election is irrevocable until at least six months after termination of employment;

(b) The subsequent crediting of such stock;

(c) The making of any election as to the time for delivery of such stock after termination of employment, provided that such election is made at least six months prior to any such delivery;

(d) The fulfillment of any condition to the absolute right to receive such stock; or

(e) The acceptance of certificates for shares of such stock.

(iii) The term "disinterested person" used in §§ 206.6(1)(2) and 206.6(1)(5) hereof shall mean an administrator of a plan who is not at the time he exercises discretion in administering the plan eligible and has not at any time within one year prior thereto been eligible for selection as a person to whom stock may be allocated or to whom stock options or stock appreciation rights may be granted pursuant to the plan or any other plan of the bank or any of its affiliates entitling the participants therein to acquire stock, stock options or stock appreciation rights of the bank or any of its affiliates.

(5) Cash Settlements of Stock Appreciation Rights. Any transaction involving the exercise and cancellation of a stock appreciation right issued pursuant to a plan (whether or not the transaction also involves the related surrender and cancellation of a stock option), and the receipt of cash in complete or partial settlement of that right, shall be exempt from the oper-

ation of section 16(b) of the Act, as not comprehended within the purpose of that section, if all the following conditions are met:

(i) Information about the issue. (a) The bank that is the issuer of the stock appreciation right has been subject to the reporting requirements of section 13 of the Act for at least a year prior to the transaction and has filed all reports and statements required to be filed pursuant to that section during that year.

(b) The bank that is the issuer of the stock appreciation right on a regular basis does release for publication quarterly and annual summary statements of revenues and earnings. This condition shall be deemed satisfied if the specified financial data appears (1) on a wire service, (2) in a financial news service, (3) in a newspaper of general circulation, or (4) is otherwise made publicly available.

(ii) Limitation of the right and any related option. Neither the stock appreciation right nor any related stock option shall have been exercisable during the first six months of their respective terms, except that this limitation shall not apply in the event death or disability of the grantee occurs prior to the expiration of the six-month period.

(iii) Administration of the plan. (a) The plan shall be administered by either the board of directors, a majority of which are disinterested persons and a majority of the directors acting on plan matters are disinterested persons, or by a committee of three or more persons, all of whom are disinterested persons;

(b) The board or committee shall have sole discretion either (1) To determine the form in which payment of the right will be made (i.e., cash, securities, or any combination thereof), or (2) To consent to or disapprove the election of the participant to receive cash in full or partial settlement of the right. Such consent or disapproval may be given at any time after the election to which it relates.

(c) Any election by the participant to receive cash in full or partial settlement of the stock appreciation right, as well as any exercise by him of this stock appreciation right for such cash, shall be made during the period beginning on the third business day following the date of release of the financial data specified in § 206.6(1)(5)(i)(b) hereof and ending on the twelfth business day following such date. This subparagraph, (5)(iii)(c), however, shall not apply to any exercise by the participant of a stock appreciation right for cash where the date of exercise:

(1) Is automatic or fixed in advance under the plan;

(2) Is at least six months beyond the date of the stock appreciation right; and

(3) Is outside the control of the participant.

(iv) Compliance with other conditions of § 206.6(1). The plan under which the stock appreciation rights and any related options are granted shall meet the conditions, specified above in § 206.6(1) (1), (2), (3), and (4).

(v) Limit of the exemption. Nothing in this § 206.6(1)(5) provides an exemption from section 16(b) for the acquisition of stock upon the exercise of a stock appreciation right or a stock option.

#### § 206.42 Form for annual report of bank (Form F-2)

##### GENERAL INSTRUCTIONS

###### A.-F. [No change]

##### OMISSION OF INFORMATION PREVIOUSLY FILED

(a) Except as provided in paragraph (b) below, the information called for by Items 1, 2, 3, 4, 8, 9, 10, 11, 12, 15, 16, 17, and 18 of this form is to be furnished by all registrants required to file a report, on this form. Items 5, 6, 7, 13, and 14 may be omitted from the report by any registrant which, since the close of the fiscal year, has filed with the Board a definitive proxy statement or a definitive information statement pursuant to § 206.5 of Regulation F which involved the election of directors, or which files such a proxy or information statement not later than 120 days after the close of the fiscal year.

(b) If the information called for by Items 2, 9, or 12 would be unchanged from that given in a previous report, a reference to the previous report which includes the required information will be sufficient. Copies of such previous report need not be filed with the report currently being filed on this form.

##### PART I

###### ITEMS 1, 2, AND 3. [NO CHANGE]

###### ITEM 4. SUMMARY OF OPERATIONS

###### INSTRUCTIONS. 1.-3. [NO CHANGE]

4. For any previously reported material charge or credit to income of an unusual or infrequent nature in which an amount of cost was estimated to be incurred in the fiscal year being reported on or the prior fiscal year, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all changes and credits to any reserve provided.

###### ITEMS 5, 6, 7, AND 8 [NO CHANGE]

###### ITEM 9. LEGAL PROCEEDINGS

(a) Briefly describe any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to

which the bank or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

(b) If any material legal proceeding which was previously reported or which became reportable during the fourth quarter of bank's fiscal year was terminated during such quarter, give the date of termination and describe the disposition thereof with respect to the bank and its subsidiaries.

##### INSTRUCTIONS

1. No collection, action or claim need be described unless it departs from the normal kind of such actions.

2. No information need be given with respect to any proceeding which involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the equity capital of the bank. However, if any proceeding presents in large degree the same issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

3. Notwithstanding Instructions 1 and 2, any material bankruptcy, receivership, or similar proceeding with respect to the bank or any of its significant subsidiaries shall be described. Any material proceedings to which any director, officer or affiliate of the registrant, any security holder named in answer to Item 5(a), or any associate of any such director, officer or security holder, is a party, or has a material interest, adverse to the bank or any of its subsidiaries shall also be described.

4. Notwithstanding the foregoing, administrative or judicial proceeding arising under any Federal, State or local provisions regulating the discharge of materials into the environment or otherwise relating to the protection of the environment shall not be deemed "ordinary routine litigation incidental to the business" and shall be described if such proceeding is material to the business or financial condition of the bank or if it involves primarily a claim for damages and the amount involved, exclusive of interest and costs, exceeds 10 percent of the equity assets of the bank and its subsidiaries on a consolidated basis. Any such proceedings by governmental authorities shall be deemed material and shall be described whether or not the amount of any claim for damages involved exceeds 10 percent of equity capital and whether or not such proceedings are considered "ordinary routine litigation incidental to the business"; provided, however, that such proceedings which are similar in nature may be grouped and described generally stating: the number of such proceedings in each group; a generic description of such proceedings; the issues generally involved; and, if such proceedings in the aggregate are material to the business or financial condition of the bank the effect of such proceedings on the business or financial condition of the bank.

###### ITEM 10. INCREASES AND DECREASES IN OUTSTANDING SECURITIES

(a) Give the following information as to all increases and decreases during the fiscal

year in the amount of equity securities of the registrant outstanding:

- (1) The title of the class of securities involved;
- (2) The date of the transaction;
- (3) The amount of securities involved and whether an increase or decrease; and
- (4) A brief description of the transaction in which the increase or decrease occurred. If previously reported, the description may be incorporated by a specific reference to the previous filing.

Instructions. The information shall be prepared in the form of a reconciliation between the amounts shown to be outstanding on the balance sheet to be filed with this report and the amounts shown on the bank's balance sheet for the previous year. The exercise of outstanding options or warrants (separately by class or type of option or warrant), conversions of previously issued convertible securities (separately by class of security) and the issuance of options may be grouped together showing the dates between which all such transactions occurred. If the information called for has been previously reported on Form F-4, it may be incorporated by a specific reference to the previous filing.

(b) Increases and decreases in the amount outstanding of debt securities which were previously reported in reports on Form F-4 should be listed and briefly discussed with appropriate cross references to the earlier disclosure.

(c) If, during the fourth quarter of the bank's fiscal year, the amount of debt securities outstanding has been increased or decreased through one or more transactions, and the aggregate amount of all such increases or decreases not previously reported exceeds 5 percent of the outstanding securities of the affected class, furnish the following information:

(1) Title of class, the amount outstanding as last previously reported, and the amount presently outstanding (as of a specified date);

(2) A brief description of the transaction or transactions resulting in the change;

(3) If an increase in securities is reported, furnish: (i) A statement of the aggregate net cash proceeds or the nature and aggregate amount of any consideration received or to be received by the bank; (ii) the names of the principal underwriters, if any; and (iii) a reasonably itemized statement of the purposes, so far as determinable, for which the net proceeds have been or are to be used and the approximate amount used or to be used for each such purpose; and

(4) If a decrease in securities is reported, a statement of the aggregate amount of cash or the nature and aggregate amount of any other consideration paid or to be paid by the bank in connection with such transaction or transactions.

##### INSTRUCTIONS

1. This paragraph does not apply to notes, drafts, bills of exchange, bankers' acceptances, or other obligations which mature not later than 1 year from the date of issuance. No report need be made where the amount not previously reported, although in excess of 5 percent of the amount outstanding, does not exceed 1,000 shares or other units.

2. This paragraph includes the reissuance of treasury securities and securities held for the account of the issuer thereof.

3. This paragraph need not be answered as to decreases resulting from ordinary sinking fund operations, similar periodic decreases made pursuant to the terms of the constituent instruments, or decreases resulting from the conversion of securities.

##### ITEMS 11, 12, 13, AND 14. [NO CHANGE]

##### ITEM 15. FINANCIAL STATEMENTS, EXHIBITS FILED, AND REPORTS ON FORM F-3

(a) List all of the following documents filed as a part of the report:

1. All financial statements.
2. All exhibits, including those incorporated by reference.

Instructions. Where any financial statement or exhibit is incorporated by reference, the incorporation by reference shall be set forth in the list required by this item. Section 206.4(m) of Regulation F (12 CFR 206.4(m)).

(b) Reports on Form F-3. State whether any reports on Form F-3 have been filed during the last quarter of the period covered by this report, listing the items reported, any financial statements filed and the dates of any such reports.

##### ITEM 16. CHANGES IN SECURITIES AND CHANGES IN SECURITY FOR REGISTERED SECURITIES

General Instruction. No response to this item is required if the information called for herein has been previously reported in a report on Form F-4.

(a) If the constituent instruments defining the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved and state briefly the general effect of such modification upon the rights of holders of such securities.

(b) If the rights evidenced by any class of registered securities have been materially limited or qualified by the issuance or modification of any other class of securities, state briefly the general effect of the issuance or modification of such other class of securities upon the rights of the holders of the registered securities.

Instruction. Restrictions upon payment of dividends are to be reported hereunder.

(c) If there has been a material withdrawal or substitution of assets securing any class of registered securities of the bank, furnish the following information:

1. Give the title of the securities.

2. Identify and describe briefly the assets involved in the withdrawal or substitutions.

3. Indicate the provision in the underlying indenture, if any, authorizing the withdrawal or substitution.

Instruction. This paragraph need not be answered where the withdrawal or substitution is made pursuant to the terms of an indenture which has been qualified under the Trust Indenture Act of 1939.

##### ITEM 17. DEFAULTS UPON SENIOR SECURITIES

General Instruction. No response to this item is required if the information called for herein has been previously reported in a report on Form F-4.

(a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days, with respect to any indebtedness of the bank or any of its significant subsidiaries exceeding 5 percent of the equity capital of the bank, identify the indebtedness and state the nature of the default. In the case

of such a default in the payment of principal, interest, or a sinking or purchase fund installment, state the amount of the default and the total arrearage on the date of filing this report.

Instruction. This paragraph refers only to events which have become defaults under the governing instruments, i.e., after the expiration of any period of grace and compliance with any notice requirements.

(b) If any material arrearage in the payment of dividends has occurred or if there has been any other material delinquency not cured within 30 days, with respect to any class of preferred stock of the bank which is registered or which ranks prior to any class of registered securities, or with respect to any class of preferred stock of any significant subsidiary of the bank, give the title of the class and state the nature of the arrearage or delinquency. In the case of an arrearage in the payment of dividends, state the amount and the total arrearage on the date of filing this report.

Instruction. Item 17 need not be answered as to any default or arrearage with respect to any class of securities all of which is held by, or for the account of, the bank or its totally held subsidiaries.

##### ITEM 18. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

If any matter has been submitted to a vote of security holders, through the solicitation of proxies or otherwise, furnish the following information if not previously disclosed in a report on Form F-4

(a) The date of the meeting and whether it was an annual or special meeting.

(b) If the meeting involved the election of directors, state the name of each director elected at the meeting and the name of each other director whose term of office as a director continued after the meeting.

(c) Briefly describe each other matter voted upon at the meeting and state the number of affirmative votes and the number of negative votes cast with respect to each such matter.

Instructions. 1. If any matter has been submitted to a vote of security holders otherwise than at a meeting of such security holders, corresponding information with respect to such submission shall be furnished. The solicitation of any authorization or consent (other than a proxy to vote at a stockholders' meeting) with respect to any matter shall be deemed a submission of such matter to a vote of security holders within the meaning of this item.

2. Paragraph (a) need be answered only if paragraph (b) or (c) is required to be answered.

3. Paragraph (b) need not be answered if (i) proxies for the meeting were solicited pursuant to § 206.5 of Regulation F, (ii) there was no solicitation in opposition to the management's nominees as listed in the proxy statement, and (iii) all of such nominees were elected. If the registrant did not solicit proxies and the board of directors as previously reported to the Board was re-elected in its entirety, a statement to that effect in answer to paragraph (b) will suffice as an answer thereto.

4. Paragraph (c) need not be answered as to procedural matters or as to the selection or approval of auditors.

5. If the Bank has published a report containing all of the information called for by the item, the item may be answered by a reference to the information contained in

such report, provided copies of such report are filed as an exhibit to the report on this form.

##### SIGNATURES

[No change]

##### INSTRUCTIONS AS TO FINANCIAL STATEMENTS

[No change]

##### INSTRUCTIONS AS TO EXHIBITS

Subject to provisions regarding the incorporation of exhibits by reference, the following exhibits shall be filed as a part of the report:

A. Copies of all amendments or modifications, not previously filed, to all exhibits previously filed (or copies of such exhibits as amended or modified).

B. Copies of all contracts and other documents of a character required to be filed as an exhibit to an original registration statement on Form F-1 which were executed or in effect during the fiscal year and not previously filed.

C. Copies of the exhibits called for by Instruction 3(d) to Item 4.

D. Copies of all constituent instruments defining the rights of the holders of any new class of securities referred to in answer to Item 10(c).

E. Copies of the amendments to all constituent instruments and other documents described in answer to Item 16.

F. Copies of the text of any proposal described and copies of any published report furnished in response to Item 18.

Section 206.43 is amended to read as follows:

#### § 206.43 Form for current report of a bank (Form F-3).

##### BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

##### FORM F-3

##### Current Report

Pursuant to section 13 of the Securities Exchange Act of 1934. For the month of \_\_\_\_\_, 19—

(Exact name of bank as specified in charter)

(Address of principal office)

##### GENERAL INSTRUCTIONS

A. Rule as to Use of Form F-3.—Form F-3 shall be used for current reports under Section 13 of the Securities Exchange Act of 1934, filed pursuant to § 206.4(h) of Regulation F (12 CFR 206.4(h)).

B. Events to be Reported and Filing of Reports.—A report on this form is required to be filed upon the occurrence of any one or more of the events specified in the items of this form. Reports are to be filed within 15 days after the occurrence of the earliest event required to be reported. However, reports which disclose events pursuant to Item 5 may be filed within 10 days after the close of the month during which the event occurred. If the letter from the independent accountants to be furnished pursuant to Item 4(d) is unavailable at the time of filing. It shall be filed within thirty days thereafter. Moreover, if substantially the same information as that required by this form has

been previously reported by the bank, an additional report of the information on this form need not be made. The term "previously reported" is defined in § 206.2(v) of Regulation F (12 CFR 206.2(v)).

**C. Application of Regulation F.**—(a) Regulation F (12 CFR Part 206) contains certain general requirements which are applicable to reports on any form. These general requirements should be carefully read and observed in the preparation and filing of reports on this form.

(b) Particular attention is directed to § 206.4 of Regulation F (12 CFR 206.4) which contains general requirements regarding matters such as the kind and size of paper to be used, the legibility of the report, the information to be given whenever the title of securities is required to be stated, and the filing of the Report. The definitions contained in § 206.2 should be especially noted.

**D. Preparation of Report.** This form is not to be used as a blank form to be filled in, but only as a guide in the preparation of the report on paper meeting the requirements of § 206.4(t) of Regulation F (12 CFR 206.4(t)). The report shall contain the numbers and captions of all applicable items, but the text of such items may be omitted, provided the answers thereto are prepared in the manner specified in § 206.4(u) of Regulation F (12 CFR 206.4(u)). All items which are not required to be answered in the particular report may be omitted and no reference thereto need be made in the report. All instructions should also be omitted.

**E. Signature and filing of report.**—Three complete copies of the report, including any financial statements, exhibits of other papers or documents filed as a part thereof, and five additional copies which need not include exhibits, shall be filed with the Board. At least one complete copy of the report, including any financial statements, exhibits or other papers or documents filed as a part thereof, shall be filed with each exchange on which any class of securities of the bank is registered. At least one complete copy of the report filed with the Board and one such copy filed with an exchange shall be manually signed. Copies not manually signed shall bear typed or printed signatures.

#### INFORMATION TO BE INCLUDED IN THE REPORT

##### ITEM 1. CHANGES IN CONTROL OF BANK

(a) If, to the knowledge of management, a change in control of the Bank has occurred, state the name of the person(s) who acquired such control; the amount and the source of the consideration used by such person(s); the basis of the control; the date and a description of the transaction(s) which resulted in the change in control; the percentage of voting securities of the bank now beneficially owned directly or indirectly by the person(s) who acquired control; and the identity of the person(s) from whom control was assumed. If the source of all or any part of the consideration used is a loan made in the ordinary course of business by a bank as defined by Section 3(a)(6) of the Act, the identity of such bank shall be omitted provided a request for confidentiality has been made pursuant to Section 13(d)(1)(B) of the Act by the person(s) who acquired control. In lieu thereof, the material shall indicate that disclosure of the identity of the bank has been so omitted and filed separately with the Board.

Instructions. 1. State the terms of any loans or pledges obtained by the new control group for the purpose of acquiring control, and the names of the lenders or pledgees.

2. Any arrangements or understandings among members of both the former and new control groups and their associates with respect to the election of directors or other matters shall be described.

(b) Describe any contractual arrangements, including any pledge of securities of the Bank, or any of its parents, known to management, the operation of the terms of which may at a subsequent date result in a change in control of the bank.

Instruction. Paragraph (b) does not require a description of ordinary default provisions contained in the charter, trust indentures or other governing instruments relating to securities of the bank.

(c) If the source of all or any part of the funds used to acquire control of the bank is a loan made by a bank as defined in section 3(a)(6) of the Act, indicate whether there exists any agreement, arrangement, or understanding pursuant to which the registrant bank maintains or would maintain a correspondent deposit account at such lending bank.

##### ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS

If the bank or any of its majority-owned subsidiaries has acquired or disposed of a significant amount of assets, otherwise than in the ordinary course of business, furnish the following information:

(a) The date and manner of the acquisition or disposition and a brief description of the assets involved, the nature and amount of consideration given or received therefor, the principle followed in determining the amount of such consideration, the identity of the person(s) from whom the assets were acquired or to whom they were sold and the nature of any material relationship between such person(s) and the registrant or any of its affiliates, any director or officer of the registrant, or any associate of any such director or officer.

(b) If any assets so acquired by the registrant or its subsidiaries constituted plant, equipment or other physical property, state the nature of the business in which the assets were used by the person(s) from whom acquired and whether the bank intends to continue such use or intends to devote the assets to other purposes, indicating such other purposes.

Instructions. 1. No information need be given as to (i) any transaction between any person and any wholly-owned subsidiary of such person; (ii) any transaction between two or more wholly-owned subsidiaries of any person; or (iii) the redemption or other acquisition of securities from the public, or the sale or other disposition of securities to the public, by the issuer of such securities.

2. The term "acquisition" includes every purchase, acquisition by lease, exchange, merger, consolidation, succession or other acquisition; *Provided*, That such term does not include the construction or development of property by or for the bank or its subsidiaries or the acquisition of materials for such purpose. The term "disposition" includes every sale, disposition by lease, exchange, merger, consolidation, mortgage, or hypothecation of assets, assignment, whether for the benefit of creditors or otherwise,

abandonment, destruction, or other disposition.

3. The information called for by this item is to be given as to each transaction or series of related transactions of the size indicated. The acquisition or disposition of securities shall be deemed the indirect acquisition or disposition of the assets represented by such securities if it results in the acquisition or disposition of control for such assets.

4. An acquisition or disposition shall be deemed to involve a significant amount of assets (i) if the bank's and its other subsidiaries' equity in the net book value of such assets or the amount paid or received therefor upon such acquisition or disposition exceeded 10 percent of the total equity capital of the bank and its consolidated subsidiaries, (ii) if it involved the succession to or disposition of a business which would meet the test of a significant subsidiary, or (iii) if it involved the acquisition or disposition of an interest in a business which would meet the test of a significant subsidiary and would be required to be accounted for by the equity method.

5. Where assets are acquired or disposed of through the acquisition or disposition of control of a person, the person from whom such control was acquired or to whom it was disposed of shall be deemed the person from whom the assets were acquired or to whom they were disposed of, for the purposes of this item. Where such control was acquired from or disposed of to not more than five persons, their names shall be given; otherwise it will suffice to identify in an appropriate manner the class of such persons.

6. Attention is directed to the requirements in Item 6 of the form with respect to the filing of financial statements for businesses acquired and to the filing of copies of the plans of acquisition or disposition as exhibits to the report.

##### ITEM 3. BANKRUPTCY OR RECEIVERSHIP

If a receiver, fiscal agent or similar officer has been appointed for a bank or its parent, in a proceeding under the Bankruptcy Act or in any other proceeding under State or Federal law in which a court or governmental agency has assumed jurisdiction over substantially all of the assets or business of the Bank or its parent, or if such jurisdiction has been assumed by leaving the existing directors and officers in possession but subject to the supervision and orders of a court or governmental body, identify the proceeding, the court or governmental body, the date jurisdiction was assumed, the identity of the receiver, fiscal agent or similar officer and the date of his appointment.

##### ITEM 4. CHANGES IN BANK'S ACCOUNTANT

If an independent accountant who was previously engaged as the principal accountant to audit the bank's financial statements resigns (or indicates he declines to stand for re-election after the completion of the current audit) or is dismissed as the bank's principal accountant, or another independent accountant is engaged as principal accountant, or if an independent accountant on whom the principal accountant expressed reliance in his report regarding a significant subsidiary resigns (or formally indicates he declines to stand for re-election after the completion of the current audit) or is dismissed or another independent accountant is engaged to audit that subsidiary:

(a) State the date of such resignation (or declination to stand for re-election), dismissal or engagement.

(b) State whether in connection with the audits of the two most recent fiscal years and any subsequent interim period preceding such resignation, dismissal or engagement there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements if not resolved to the satisfaction of the former accountant would have caused him to make reference in connection with his report to the subject matter of the disagreement(s); also, describe each such disagreement. The disagreements required to be reported in response to the preceding sentence include both those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this rule are those which occur at the decisionmaking level; i.e., between personnel of the bank responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report.

(c) State whether the principal accountant's report on the financial statements for any of the past two years contained an adverse opinion or a disclaimer of opinion or was qualified as to uncertainty, audit scope, or accounting principles; also describe the nature of each such adverse opinion, disclaimer of opinion or qualification.

(d) The bank shall request the former accountant to furnish the bank with a letter addressed to the Board stating whether he agrees with the statements made by the bank in response to this item and, if not, stating the respects in which he does not agree. The bank shall file a copy of the former accountant's letter as an exhibit with all copies of the Form F-3 required to be filed pursuant to General Instruction F.

##### ITEM 5. OTHER MATERIALLY IMPORTANT EVENTS

The bank may, at its option, report under this item any events, with respect to which information is not otherwise called for by this form, which the bank deems of material importance to security holders.

##### ITEM 6. FINANCIAL STATEMENTS AND EXHIBITS

List below the financial statements and exhibits, if any, filed as a part of this report.

(a) Financial statements of business acquired.

Instructions. 1. Businesses for Which Statements Are Required.

The financial statements specified below shall be filed for any business the succession to which or the acquisition of an interest in which is required to be described in answer to Item 2 above.

2. Statements Required.

(a) There shall be filed a balance sheet of the business as of a date reasonably close to the date of acquisition. This balance sheet shall be verified if practical.

(b) Income and source and application of funds statements of the business shall be filed for each of the last three full fiscal years and for the period, if any, between the close of the latest of such fiscal years and the date of the latest balance sheet filed. These income and source and application of funds statements shall be verified up to the date of the verified balance sheet, if practical.

(c) If the business was in insolvency proceedings immediately prior to its acquisition, the balance sheets required above need not be verified. In such case, the income and source and application of funds statements required shall be verified to the close of the latest full fiscal year, if practical.

(d) Except as otherwise provided in this instruction, the principles applicable to a registrant and its subsidiaries with respect to the filing of individual, consolidated and group statements in an original application or annual report shall be applicable to the statements required by this instruction.

3. Application of § 206.7.

Section 206.7 governs the examination and the form and content of the statements required by the preceding instruction, including the basis of consolidation, and prescribes the statements of other stockholders' equity to be filed. No supporting schedules need be filed. A manually signed accountant's report should be provided.

4. Filing of Other Financial Information in Certain Cases.

The Board, upon the written request of the bank and where consistent with the protection of investors, may permit the omission of one or more of the financial statements herein required or the filing in substitution thereof of appropriate statements of comparable character, if the required financial statements are not reasonably available to the bank, because the obtaining thereof would involve unreasonable effort, expense or practicable difficulties. A request for such relief shall be filed as a part of the report. If an extension of time has been granted pursuant to § 206.4(r) of Regulation F (12 CFR 206.4(r)), a request for relief shall be filed as a part of an amendment to the initial report within the additional time provided under said rule. The request shall set forth the following information:

(a) The reason(s) for the unavailability of the audited financial statements;

(b) The estimated costs of their preparation;

(c) An explanation of any other practical auditing problems; and

(d) A tabular presentation of the following items of information, comparing the acquired business(es) with the bank on a consolidated basis (including the acquired business(es)): (1) Operating income; (2) net income; (3) total assets; (4) total stockholder equity; and (5) total purchase price compared to total equity capital of bank.

The Board may also by informal written notice require the filing of other financial statements in addition to, or in substitution for, the statements herein required in any case where such statements are necessary or appropriate for an adequate presentation of the financial condition of any person whose financial statements are required, or whose statements are otherwise necessary for the protection of investors.

(b) Exhibits. Subject to the rules as to incorporation by reference, copies of any plan of acquisition or disposition described in answer to Item 2, including any plan of reorganization, readjustment, exchange, merger, consolidation or succession in connection therewith, shall be filed as exhibit to this report.

##### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on

its behalf by the undersigned thereunto duly authorized.

Date \_\_\_\_\_

(Registrant)

(Signature)

(Typed name of signing officer)

(Title of signing officer)

§ 206.44 (Form F-4) is revised by adding a new Part D to read as follows:

§ 206.44 Form for quarterly report of bank (Form F-4)

##### PART D OTHER INFORMATION

Instruction. The Report shall contain the item numbers and captions of all applicable items of Part D, but the text of such items may be omitted: *Provided*, The responses clearly indicate the coverage of the item. Any item which is inapplicable or to which the answer is negative may be omitted and no reference thereto need be made in the report. If substantially the same information has been previously reported by the registrant, an additional report of the information on this form need not be made. The term "previously reported" is defined in § 206.2(v) of Regulation F.

##### ITEM 1. LEGAL PROCEEDINGS

(a) Briefly describe any material legal proceedings, other than ordinary routine litigation incidental to the business, to which the bank or any of its subsidiaries has become a party or of which any of their property has become the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceedings and the relief sought.

(b) If any such proceeding previously reported has been terminated, identify the proceeding, give the date of termination and describe the disposition thereof with respect to the Bank and its subsidiaries.

##### INSTRUCTIONS

1. No information need be given with respect to any proceeding which involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the equity capital accounts of the bank. However, if any proceeding presents in large degree the same issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

2. Notwithstanding the foregoing instructions, any bankruptcy, receivership or similar proceeding with respect to the bank or any of its significant subsidiaries shall be described. Any proceeding to which any director, officer or affiliate of the bank, any principal holder of equity securities of the bank or any associate of any such director,

officer or security holder, is a party adverse to the bank or any of its subsidiaries shall also be described.

3. Notwithstanding the foregoing, administrative or judicial proceedings arising under any Federal, State or local provisions regulating the discharge of materials into the environment or otherwise relating to the protection of the environment shall not be deemed "ordinary routine litigation incidental to the business" and shall be described if such proceeding is material to the business or financial condition of the bank or if it involves primarily a claim for damages and the amount involved, exclusive of interest and costs, exceeds 10 percent of the equity capital of the bank and its subsidiaries on a consolidated basis. Any such proceedings by governmental authorities shall be deemed material and shall be described whether or not the amount of any claim for damages involved exceeds 10 percent of equity capital on a consolidated basis and whether or not such proceedings are considered "ordinary routine litigation incidental to the business"; *Provided, however*, That such proceedings which are similar in nature may be grouped and described generally stating: the number of such proceedings in each group; a generic description of such proceedings; the issues generally involved; and, if such proceedings in the aggregate are material to the business or financial condition of the bank, the effect of such proceedings on the business or financial condition of the bank.

#### ITEM 3. CHANGES IN SECURITIES

(a) If the constituent instruments defining the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved and state briefly the general effect of such modification upon the rights of holders of such securities.

(b) If the rights evidenced by any class of registered securities have been materially limited or qualified by the issuance or modification of any other class of securities, state briefly the general effect to the issuance or modification of such other class of securities upon the rights of the holders of the registered securities.

Instruction. Limitations upon the payment of dividends are to be reported hereunder.

#### ITEM 3. CHANGES IN SECURITY FOR REGISTERED SECURITIES

If there has been a material withdrawal or substitution of assets securing any class of registered securities of the bank furnish the following information:

- Give the title of the securities.
- Identify and describe briefly the assets involved in the withdrawal or substitution.
- Indicate the provision in the underlying indenture, if any, authorizing the withdrawal or substitution.

Instruction. This item need not be answered where the withdrawal or substitution is made pursuant to the terms of an indenture which has been qualified under the Trust Indenture Act of 1939.

#### ITEM 4. DEFAULTS UPON SENIOR SECURITIES

(a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days, with respect to any indebtedness of the bank or any of its significant subsidiar-

ies exceeding 5 percent of the equity capital of the bank, identify the indebtedness and state the nature of the default. In the case of such a default in the payment of principal, interest, or a sinking or purchase fund installment, state the amount of the default and the total arrearage on the date of filing this report.

Instruction. This paragraph refers only to events which have become defaults under the governing instruments, i.e., after the expiration of any period of grace and compliance with any notice requirements.

(b) If any material arrearage in the payment of dividends has occurred or if there has been any other material delinquency not cured within 30 days, with respect to any class of preferred stock of the bank which is registered or which ranks prior to any class of registered securities, or with respect to any class of preferred stock of any significant subsidiary of the bank, give the title of the class and state the nature of the arrearage or delinquency. In the case of an arrearage in the payment of dividends, state the amount and the total arrearage on the date of filing this report.

Instruction. Item 4 need not be answered as to any default or arrearage with respect to any class of securities all of which is held, by, or for the account of, the bank or its totally held subsidiaries.

#### ITEM 5. INCREASE IN AMOUNT OUTSTANDING OF SECURITIES

If the amount outstanding of securities of the bank has been increased through the issuance of any new class of securities or through the issuance or reissuance of any additional securities of a class outstanding, and the aggregate amount of all such increases not previously reported exceeds 5 percent of the outstanding securities of the class, furnish the following information:

(a) Title of class, the amount outstanding as last previously reported, and the amount presently outstanding (as of a specified date);

(b) A brief description of the transaction(s) resulting in the increase and a statement of the aggregate net cash proceeds or the nature and aggregate amount of any other consideration received or to be received by the bank;

(c) The names of the principal underwriters, if any;

(d) A reasonable itemized statement of the purposes so far as determinable, for which the net proceeds have been or are to be used and the approximate amount used or to be used for each such purpose;

(e) If the securities were capital shares, a statement of the amount of the proceeds credited or to be credited to any account other than the appropriate capital share account.

#### INSTRUCTIONS

1. This item does not apply to notes, drafts, bills of exchange, bankers' acceptances or other obligations which mature not later than 1 year from the date of issuance. No report need be made where the amount not previously reported, although in excess of 5 percent of the amount outstanding, does not exceed 1,000 shares or other units.

2. This item includes the reissuance of Treasury securities and securities held for the account of the issuer thereof.

#### ITEM 6. DECREASE IN AMOUNT OUTSTANDING OF SECURITIES

If the amount outstanding of any class of securities of the bank has been decreased through one or more transactions and the aggregate amount of all such decreases not previously reported exceeds 5 percent of the amount of securities of the class previously outstanding, furnish the following information:

(a) Title of the class, the amount outstanding as last previously reported, and the amount currently outstanding (as of a specified date).

(b) A brief description of the transaction(s) involving the decrease and a statement of the aggregate amount of cash or the nature and aggregate amount of any other consideration paid or to be paid by the bank in connection with such transaction(s).

Instruction. Instruction 1 to Item 5 shall also apply to this item. This item need not be answered as to decreases resulting from ordinary sinking fund operations, similar periodic decreases made pursuant to the terms of the constituent instruments, or decreases resulting from the conversion of securities.

#### ITEM 7. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

If any matter has been submitted to a vote of security holders, through the solicitation of proxies or otherwise, furnish the following information:

(a) The date of the meeting and whether it was an annual or special meeting.

(b) If the meeting involved the election of directors, state the name of each director elected at the meeting and the name of each other director whose term of office as a director continued after the meeting.

(c) Briefly describe each other matter voted upon at the meeting and state the number of affirmative votes and the number of negative votes cast with respect to each such matter.

#### INSTRUCTIONS

1. If any matter has been submitted to a vote of security holders otherwise than at a meeting of such security holders, corresponding information with respect to such submission shall be furnished. The solicitation of any authorization or consent (other than a proxy to vote at a stockholders' meeting) with respect to any matter shall be deemed a submission of such matter to a vote of security holders within the meaning of this item.

2. Paragraph (a) need be answered only if paragraph (b) or (c) is required to be answered.

3. Paragraph (b) need not be answered if (i) proxies for the meeting were solicited pursuant to § 206.5 of Regulation F under the Act, (ii) there was no solicitation in opposition to the management's nominees as listed in the proxy statement, and (iii) all of such nominees were elected. If the bank did not solicit proxies and the board of directors as previously reported to the Board was re-elected in its entirety, a statement to that effect in answer to paragraph (b) will suffice as an answer thereto.

4. Paragraph (c) need not be answered as to procedural matters or as to the selection or approval of auditors.

5. If the registrant has published a report containing all of the information called for by this item, the item may be answered by a

reference to the information contained in such report, provided copies of such report are filed as an exhibit to the report on this form.

#### ITEM 8. OTHER MATERIALLY IMPORTANT EVENTS

The registrant may, at its option, report under this item any events, not previously reported in a report on Form F-3, with respect to which information is not otherwise called for by this form but which the registrant deems of material importance to security holders.

#### ITEM 9. EXHIBITS AND REPORTS ON FORM F-3 (12 CFR 206.43)

(a) Exhibits. List below the documents, if any, filed as a part of this report. Subject to the rules as to incorporation by reference, the following documents shall be filed as exhibits:

1. Copies of the amendments to all constituent instruments and other documents described in answer to Item 2.

2. Copies of all constituent instruments defining the rights of the holders of any new class of securities referred to in answer to Item 5.

3. Copies of the text of any proposal described in answer to Item 7.

4. Copies of any published report furnished in response to Item 7. (See Item 7, Instruction 3.)

5. Copies of any material amendment to the bank's charter or by-laws not otherwise required to be filed.

(b) Reports on Form F-3. State whether any reports on Form F-3 have been filed during the quarter for which this report is filed, listing the items reported, any financial statements filed, and the dates of any such reports.

#### § 206.47 [Amended]

Form F-11 (12 CFR 206.47) is amended by deleting the words "or § 206.5(1)" from the title of that form and deleting all of Item 7 and substituting the words, "Item 7" for "Item 8".

Item 5(e) of Form F-5 in § 206.51 is amended to read as follows:

§ 206.51. Form for proxy statement; statement where management does not solicit proxies (Form F-5).

• • • • •

Item 5. • • •

Item 5(e) of Form F-5 is amended to read as follows:

(e) If, to the knowledge of the persons on whose behalf the solicitation is made, a change in control of the bank has occurred since the beginning of its last fiscal year, state the name of the person(s) who acquired such control, the amount and the source of the consideration used by such person or persons; the basis of the control, the date and a description of the transaction(s) which resulted in the change of control, and the percentage of voting securities of the bank now beneficially owned directly or indirectly by the person(s) who acquired control, and the identity of the person(s) from whom control was assumed. If the source of all or any part of the consideration used is a loan made in the ordi-

nary course of business by a bank as defined by section 3(a)(6) of the Act, the identity of such bank shall be omitted provided a request for confidentiality has been made pursuant to section 13(d)(1)(B) of the Act by the person(s) who acquired control. In lieu thereof, the material shall indicate that the identity of the bank has been so omitted and filed separately with the Board. If the source of all or any part of the funds used to acquire control of the bank was a loan made by a bank as defined by section 3(a)(6) of the Act, indicate whether there exists any agreement, arrangement, or understanding pursuant to which the registrant bank maintains or would maintain a correspondent deposit account as such lending bank.

#### INSTRUCTIONS.

1. State the terms of any loans or pledges obtained by the new control group for the purpose of acquiring control, and the names of the lenders or pledgees, unless confidential treatment has been requested pursuant to section 13(d)(1)(B) of the Act in which case the identity of the lending bank shall be omitted.

2. Any arrangements or understandings among members of both the former and new control groups and their associates with respect to election of the directors or other matters should be described.

#### § 206.54 [Added]

Form F-13 (12 CFR 206.54) is adopted to read as follows:

#### BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

#### FORM F-13.

Tender offer statement pursuant to section 14(d)(1) of the Securities Exchange Act of 1934, (Amendment No. —), (Name of Subject Bank), (Bidder), (Title of Class of Securities), (Name, address and telephone number of person authorized to receive notices and communications on behalf of bidder).

Instructions 1. Eight copies of this statement, including all exhibits, and two additional copies of this statement, including only the exhibits described in Item 11(a) of this statement, should be filed with the Board.

2. No fee is required to be paid to the Board in connection with the filing of the initial statement or amendments thereto.

General Instructions. A. The item numbers and captions of the items shall be included but the answers to the items shall be so prepared as to indicate clearly the coverage of the items without referring to the text of the items. Answer every item. If an item is inapplicable or the answer is in the negative, so state.

B. Information contained in exhibits to the statement may be incorporated by reference in answer or partial answer to any item or sub-item of the statement unless it would render such answer incomplete, unclear or confusing. Matter incorporated by reference shall be clearly identified in the reference by page, paragraph, caption or otherwise. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the statement where the information is required.

C. If the statement is filed by a partnership, limited partnership, syndicate or other group, the information called for by Items 2-7, inclusive, shall be given with respect to: (i) Each partner of such partnership; (ii) each partner who is denominated as a general partner or who functions as a general partner of such limited partnership; (iii) each member of such syndicate or group; and (iv) each person controlling such partner or member. If the statement is filed by a corporation, or if a person referred to in (i), (ii), (iii) or (iv) of this instruction is a corporation, the information called for by the above mentioned items shall be given with respect to: (a) Each executive officer and director of such corporation; (b) each person controlling such corporation; and (c) each executive officer and director of any corporation ultimately in control of such corporation. Executive officer shall mean the president, secretary, treasurer and any vice president in charge of a principal business function (such as sales, administration or finance) and any other person who performs similar policy making functions for the corporation. A response to an item in the statement is required with respect to the bidder and to all other persons referred to in this instruction unless such item specifies to the contrary.

D. Upon termination of the tender offer, the bidder shall promptly file a final amendment to Form F-13 disclosing all material changes in the items of that Form and stating that the tender offer has terminated, the date of such termination and the results of such tender offer.

E. If the bidder, before filing this statement, has filed a Form F-11 with respect to the acquisition of securities of the same class referred to in Item 1(a) of this statement, the bidder shall amend such Form F-11 and may do so by means of this statement and amendments thereto, including the final amendment required to be filed by Instruction D: *Provided*, That the bidder indicates on the cover sheet of this statement that it is amending its Form F-11 by means of this statement.

F. The final amendment required to be filed by Instruction D shall be deemed to satisfy the reporting requirements of section 13(d) of the Act with respect to all securities acquired by the bidder pursuant to the tender offer as reported in such final amendment.

G. For purposes of this statement, the following definitions shall apply:

(i) The term "bidder" means any person on whose behalf a tender offer is made; and (ii) The term "subject bank" means any bank whose securities are sought by a bidder pursuant to a tender offer.

Item 1. *Security and subject bank.* (a) State the name of the subject bank and the address of its principal offices;

(b) State the exact title and the number of shares outstanding of the class of equity securities being sought (which may be based upon information contained in the most recently available filing with the Board by the subject bank unless the bidder has reason to believe such information is not current); the exact amount of such securities being sought and the consideration being offered therefor; and

(c) Identify the principal market, if any, in which such securities are traded and state the high and low sales prices for such securities in such principal market (or, in the absence thereof, the range of high and

low bid quotations) for each quarterly period during the past two years.

Item 2. *Identity and background.* If the person filing this statement or any person enumerated in Instruction C of this statement is a corporation, partnership, limited partnership, syndicate or other group of persons, state its name, the state or other place of its organization, its principal business, the address of its principal office and the information required by (e) and (f) of this Item. If the person filing this statement or any person enumerated in Instruction C is a natural person, provide the information specified in (a) through (g) of this Item with respect to such person(s).

(a) Name;  
(b) Residence or business address;  
(c) Present principal occupation or employment and the name, principal business and address of any corporation or other organization in which such employment or occupation is conducted;

(d) Material occupations, positions, offices or employments during the last five years, giving the starting and ending dates of each and the name, principal business and address of any business corporation or other organization in which such occupation, position, office or employment was carried on. Instruction. If a person has held various positions with the same organization, or if a person holds comparable positions with multiple related organizations, each and every position need not be specifically disclosed.

(e) Whether or not, during the last five years, such person has been convicted in a criminal proceeding (excluding traffic violations or similar misdemeanors) and, if so, give the dates, nature of conviction, name and location of court, and penalty imposed or other disposition of the case. Instruction. While a negative answer to this sub-item is required in this schedule, it need not be furnished to security holders.

(f) Whether or not, during the last five years, such person was a party to a civil proceeding of a judicial or administrative body of competent jurisdiction and as a result of such proceeding was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting activities subject to, Federal or State securities or banking laws or finding any violation of such laws; and, if so, identify and describe such proceeding and summarize the terms of such judgment, decree or final order. Instruction. While a negative answer to this sub-item is required in this schedule, it need not be furnished to security holders.

(g) Citizenship(s).

Item 3. *Past contacts, transactions or negotiations with the subject bank.* (a) Briefly state the nature and approximate amount (in dollars) of any transaction, other than those described in Item 3(b) of this Form and those in the ordinary course of the bank's business, which has occurred since the commencement of the subject bank's third full fiscal year preceding the date of this schedule, between the person filing this schedule (including those persons enumerated in Instruction C of this schedule) and:

(1) The subject bank or any of its affiliates which are corporations: *Provided, however,* That no disclosure need be made with respect to any transaction if the aggregate amount involved in such transaction was less than 1 percent of the subject bank's consolidated income (which may be based upon information contained in the most re-

cently available filing with the Board by the subject bank, unless the bidder has reason to believe otherwise) (i) for the fiscal year in which such transaction occurred or, (ii) for the portion of the current fiscal year which has occurred, if the transaction occurred in such year; and

(2) The executive officers, directors or affiliates of the subject bank which are not corporations if the aggregate amount involved in such transaction or in a series of similar transactions, including all periodic installments in the case of any lease or other agreement providing for periodic payments or installments, exceeds \$40,000.

(b) Describe any contacts, negotiations or transactions other than those in the ordinary course of the bank's business which have occurred since the commencement of the subject bank's third full fiscal year preceding the date of this schedule between the bidder or its subsidiaries (including those persons enumerated in Instruction C of this schedule) and the subject bank or its affiliates or any shareholder owning more than 10 percent of the outstanding shares of the subject bank concerning: a merger, consolidation or acquisition; a tender offer or other acquisition of securities; an election of directors; or a sale or other transfer of a material amount of assets.

Item 4. *Source and amount of funds or other consideration.* (a) State the source and the total amount of funds or other consideration for the purchase of the maximum number of securities for which the tender offer is being made.

(b) If all or any part of such funds or other consideration are or are expected to be, directly or indirectly, borrowed for the purpose of the tender offer:

(1) Provide a summary of each loan agreement or arrangement containing the identity of the parties, the term, the collateral, the stated and effective interest rates, and other material terms or conditions relative to such loan agreement; and

(2) Briefly describe any plans or arrangements to finance or repay such borrowings, or if no such plans or arrangements have been made, make a statement to that effect.

(c) If the source of all or any part of the funds to be used in the tender offer is a loan made in the ordinary course of business by a bank as defined by section 3(a)(6) of the Act, the name of such bank shall not be made available to the public if the person filing the statement so requests in writing and files such request, naming such bank, with the Secretary of the Board.

(d) If the source of all or any part of the funds to be used in the tender offer is a loan made by a bank as defined by section 3(a)(6) of the Act, indicate whether there exists any agreement, arrangement, or understanding pursuant to which the subject bank maintains or would maintain a correspondent deposit account at such lending bank.

Item 5. *Purpose of the tender offer and plans or proposals of the bidder.* State the purpose or purposes of the tender offer for the subject bank's securities. Describe any plans or proposals which relate to or would result in:

(a) An extraordinary corporate transaction, such as a merger, reorganization or liquidation, involving the subject bank or any of its subsidiaries;

(b) A sale or transfer of a material amount of assets of the subject bank or any of its subsidiaries;

(c) Any change in the present board of directors or management of the subject bank including, but not limited to, any plans or proposals to change the number or the term of directors or to fill any existing vacancies on the board;

(d) Any material change in the present capitalization or dividend policy of the subject bank;

(e) Any other material change in the subject bank's corporate structure or business;

(f) Causing a class of securities of the subject bank to be delisted from a national securities exchange or to cease to be authorized to be quoted in an inter-dealer quotation system of a registered national securities association; or

(g) A class of equity securities of the subject bank becoming eligible for termination of registration pursuant to section 12(g)(4) of the Act.

Item 6. *Interest in securities of the subject bank.* (a) State the aggregate number and percentage of the class represented by such shares (which may be based on the number of shares outstanding as contained in the most recently available filing with the Board by the subject bank unless the bidder has reason to believe such information is not current), beneficially owned (identifying those shares for which there is a right to acquire) by each person named in Item 2 of this schedule and by each associate and majority-owned subsidiary of such person giving the name and address of any such associate or subsidiary.

(b) Describe any transaction in the class of securities reported on that was effected during the past 60 days by the persons named in response to paragraph (a) of this Item or by any executive officer, director or subsidiary of such person.

Instructions. 1. The description of a transaction required by Item 6(b) shall include, but not necessarily be limited to: (1) The identity of the person covered by Item 6(b) who effected the transaction; (2) the date of the transaction; (3) the amount of securities involved; (4) the price per share; and (5) where and how the transaction was effected.

2. If the information required by Item 6(b) of this schedule is available to the bidder at the time this statement is initially filed with the Board such information should be included in such initial filing. However, if such information is not available to the bidder at the time of such initial filing, it should be filed with the Board promptly but in no event later than two business days after the date of such filing, and if material, should be disclosed to security holders of the subject bank in a manner similar to that in which the tender offer was first published, sent or given to such security holders. The procedure specified by this instruction is provided for the purpose of maintaining the confidentiality of the tender offer in order to avoid possible misuse of inside information.

Item 7. *Contracts, arrangements, understandings or relationships with respect to the subject bank's securities.* Describe any contract, arrangement, understanding or relationship (whether or not legally enforceable) between the bidder (including those persons enumerated in Instruction C to this schedule) and any person with respect to any securities of the subject bank (including, but not limited to, any contract, arrangement, understanding or relationship concerning the transfer or the voting of any

such securities, joint ventures, loan or option arrangements, puts or calls, guarantees of loans, guarantees against loss, or the giving or withholding of proxies), naming the persons with whom such contracts, arrangements, understandings or relationships have been entered into and giving the material provisions thereof. Include such information for any of such securities that are pledged or otherwise subject to a contingency, the occurrence of which would give another person the power to direct the voting or disposition of such securities, except that disclosure of standard default and similar provisions contained in loan agreements need not be included.

Item 8. *Persons retained, employed or to be compensated.* Identify all persons and classes of persons employed, retained or to be compensated by the bidder, or by any person on the bidder's behalf, to make solicitations or recommendations in connection with the tender offer and describe briefly the terms of such employment, retainer or arrangement for compensation.

Item 9. *Financial statements of certain bidders.* Where the bidder is other than a natural person and the bidder's financial condition is material to a decision by a security holder of the subject company whether to sell, tender or hold securities being sought in the tender offer, furnish current, adequate financial information concerning the bidder. *Provided,* That if the bidder is controlled by another entity which is not a natural person and has been formed for the purpose of making the tender offer, furnish current, adequate financial information concerning such parent.

Instructions. 1. The facts and circumstances concerning the tender offer, particularly the terms of the tender offer, may influence a determination as to whether disclosure of financial information is material. However, once the materiality requirement is applicable, the adequacy of the financial information will depend primarily on the nature of the bidder.

In order to provide guidance in making this determination, the following types of financial information will be deemed adequate for purposes of this item for the type of bidder specified: (a) Financial statements prepared in compliance with Form 10 of the Securities and Exchange Commission (17 CFR 249.210) for a domestic bidder which is otherwise eligible to use such form; and (b) financial statements prepared in compliance with Form 20 of the Securities and Exchange Commission (17 CFR 249.220) for a foreign bidder which is otherwise eligible to use such form.

2. The financial statements required by this item need not be audited if such audited financial statements are not available or obtainable without unreasonable cost or expense and a statement is made to that effect disclosing the reasons therefor.

Item 10. *Additional information.* If material to a decision by a security holder whether to sell, tender or hold securities being sought in the tender offer, furnish information as to the following:

(a) Any present or proposed material contracts, arrangements, understandings or relationships between the bidder or any of its executive officers, directors, controlling persons or subsidiaries and the subject bank or any of its executive officers, directors, controlling persons or subsidiaries (other than any contract, arrangement or understanding

required to be disclosed pursuant to Items 3 or 7 of this schedule);

(b) To the extent known by the bidder after reasonable investigation, the applicable regulatory requirements which must be complied with or approvals which must be obtained in connection with the tender offer;

(c) The applicability of antitrust laws;

(d) The applicability of the margin requirements of section 7 of the Act and the regulations promulgated thereunder;

(e) Any material pending legal proceedings relating to the tender offer including the name and location of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto and a brief summary of the proceedings; and

Instruction. In connection with this sub-item, a copy of any document relating to a major development (such as pleadings, an answer, complaint, temporary restraining order, injunction, opinion, judgment or order) in a material pending legal proceeding should be promptly furnished to the Board on a supplemental basis.

(f) Such additional material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not materially misleading.

Item 11. *Material to be filed as exhibits.* Furnish a copy of: (a) Tender offer material which is published, sent or given to security holders by or on behalf of the bidder in connection with the tender offer;

(b) Any loan agreement referred to in Item 4 of this schedule. Instruction. The identity of any bank, other than the subject bank, which is a party to a loan agreement need not be disclosed if the person filing the statement has requested that the identity of such bank not be made available to the public pursuant to Item 4 of this schedule;

(c) Any document setting forth the terms of any contracts, arrangements, understandings or relationships referred to in Item 7 or 10(a) of this schedule;

(d) Any written opinion prepared by legal counsel at the bidder's request and communicated to the bidder pertaining to the tax consequences of the tender offer;

(e) In an exchange offer where securities of the bidder have been or are to be registered under the Securities Act of 1933, the prospectus containing the information required to be included therein by Rule 434b of the Securities and Exchange Commission (17 CFR 230.434b);

(f) If any oral solicitation of security holders is to be made by or on behalf of the bidder, any written instruction, form or other material which is furnished to the persons making the actual oral solicitation for their use, directly or indirectly, in connection with the tender offer.

Signature. After due inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct.

Signature \_\_\_\_\_  
Name and Title \_\_\_\_\_  
Date \_\_\_\_\_

The original statement shall be signed by each person on whose behalf the statement is filed or his authorized representative. If the statement is signed on behalf of a person by his authorized representative (other than an executive officer or general partner of the bidder), evidence of the rep-

resentative's authority to sign on behalf of such person shall be filed with the statement. The name and any title of each person who signs the statement shall be typed or printed beneath his signature.

## CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

### PART 335—SECURITIES OF INSURED STATE NONMEMBER BANKS

#### Proxy Statements, Tender Offers and Other Matters

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: The new rule amends the Federal Deposit Insurance Corporation's ("FDIC") securities disclosure regulations issued under the Securities Exchange Act in order to bring them into substantial similarity with those of the Securities and Exchange Commission ("SEC") to correct existing errors and to effect minor revisions of a technical nature. Section 12(i) of the Securities Exchange Act of 1934 (15 U.S.C. 78l(i)) ("Act") requires that the FDIC issue substantially similar regulations to those of the SEC or publish its reasons for not doing so. This amendment is intended to comply with Section 12(i), to update the regulation and to make the regulation more understandable. Major revisions relate to proxy statements, tender offers and acquisitions of bank securities.

DATES: Effective date: January 28, 1979.

FOR FURTHER INFORMATION CONTACT:

Gerald J. Gervino, Attorney, or Louis E. Wright, Financial Analyst, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429 (202) 389-4422 or 389-4651.

SUPPLEMENTARY INFORMATION: On March 13, 1978, there was published in the FEDERAL REGISTER (43 FR 10401) a notice of proposed rule-making which would amend the FDIC's securities disclosure regulations in order to make them more similar to SEC regulations and for other purposes. Interested persons were given the opportunity to submit, not later than April 12, 1978, data, views or arguments regarding the proposed amendments. All comments, including those contained in SEC File No. S7-714 relating to the "beneficial ownership" definition, were given due consideration.

In view of the SEC's withdrawal of its proposal to amend its Rule 14a-3(d), 43 FR 7651 (1978), with respect to a duty of inquiry by issuers, the FDIC is withdrawing its conforming proposed amendment (12 CFR 335.5(c)(3)).

Since the original notice, the SEC has amended its Rule 13d-3 and by reference its Rule 14d-1 in a technical fashion (43 FR 18484; 43 FR 29767). These amendments were based upon comments received in the above SEC File and previous comments. The FDIC has invited comments upon its "beneficial ownership" definition and examined the SEC comment file. It has received no adverse comments on this definition, has found no reason not to adopt the SEC changes, and finds that they do not impose a burden upon persons subject to them. Therefore, the changes are being adopted in response to the SEC changes without an invitation for further comment.

The only suggested revisions concerned the proposed disclosure of preliminary proxy statements (12 CFR 335.5(f)(5)) and the shareholder proposal rule (12 CFR 335.5(h)).

A commentator suggested that preliminary material might contain inaccurate information that would mislead investors. The FDIC notes that the public could only obtain the preliminary proxy statement upon request after definitive material has been filed. The FDIC feels that the public is unlikely to be misled. Thus, the FDIC is adopting the proposal as published for comment.

A commentator also suggested that the shareholder proposal rule should provide an additional rule where beneficial and record holders of the same securities submit conflicting proposals. The FDIC feels this is an unlikely possibility which can be better resolved by administrative interpretation. Therefore, the FDIC is adopting the shareholder rule, as proposed. Accordingly, 12 CFR Part 335 is amended as set forth below.

By order of the Board of Directors,  
December 20, 1978.

FEDERAL DEPOSIT INSURANCE  
CORPORATION,  
ALAN R. MILLER,  
Executive Secretary.

1. Section 335.2(e) is amended as follows:

§ 335.2 Definitions.

(e) The terms "beneficial ownership", "beneficially owned", and the like, when used with respect to the reporting of ownership of the bank's equity securities in any statement or report required by this Part, shall in-

clude, in addition to direct and indirect beneficial ownership by the reporting person, ownership of such securities (1) by the spouse (except where legally separated) and minor children of such reporting person, and (2) by any other relative of the reporting person who has the same home as such person.

2. Section 335.4 is amended by revising paragraphs (a)(2), (a)(3), (h)(5) and (m)(1) as set forth below:

§ 335.4 Registration statements and reports.

(a) \* \* \*

(2) *Registration of securities of successor bank.* Where in connection with a succession by merger, consolidation, exchange of securities or acquisition of assets, equity securities of a bank, not previously registered pursuant to section 12 of the Act, are issued to the holders of any class of equity securities of another issuer which is registered pursuant to section 12(g) of the Act, the class of securities so issued shall be deemed to be registered pursuant to section 12(g) of the Act unless upon consummation of the succession such class is exempt from such registration or all securities of such class are held of record by less than 300 persons.

(3) Where in connection with a succession by merger, consolidation, exchange of securities or acquisition of assets, equity securities of a bank, which are not registered pursuant to section 12 of the Act, are issued to the holders of any class of equity securities of another issuer which is required to file a registration statement pursuant to section 12(g) of the Act but has not yet done so, the duty to file such statement shall be deemed to have been assumed by the bank whose class of securities is so issued and such bank shall file a registration statement pursuant to section 12(g) of the Act with respect to such class within the period of time the predecessor issuer would have been required to file such a statement, or within such extended period of time as the Corporation may authorize upon application pursuant to § 335.4(r), unless upon consummation of the succession such class is exempt from such registration or all securities of the class are held of record by less than 300 persons.

(h) \* \* \*

(5)(i) For the purposes of § 335.4(h) or § 335.5(l) a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares:

(A) *Voting power* which includes the power to vote, or to direct the voting of, such security; and/or

(B) *Investment power* which includes the power to dispose, or to direct the disposition, of such security.

(ii) Any person who, directly or indirectly, creates or uses a trust, proxy, power of attorney, pooling arrangement or any other contract, arrangement, or device with the purpose or effect of divesting such person of beneficial ownership of a security or preventing the vesting of such beneficial ownership as part of a plan or scheme to evade the requirements of section 13(d) or section 14(d) of the Act shall be deemed for purposes of such sections to be the beneficial owner of such security.

(iii) All securities of the same class beneficially owned by a person, regardless of the form which such beneficial ownership takes, shall be aggregated in calculating the number of shares beneficially owned by such person.

(iv) Notwithstanding the provisions of other paragraphs of this § 335.4(h)(5):

(A)(1) A person shall be deemed to be the beneficial owner of a security, subject to the provisions of paragraph (ii) of this § 335.4(h)(5), if that person has the right to acquire beneficial ownership of such security, as defined in paragraph (i) at any time within sixty days including but not limited to any right to acquire: (1) Through the exercise of any option, warrant or right; (2) through the conversion of a security; (3) pursuant to the power to revoke a trust, discretionary account, or similar arrangement.
